I said it was not alone on account of Stannard's bravery and soldiership displayed at Gettysburg, though they are worthy of very great consideration, that this unusual sum is asked. The distinguishing ground upon which the Senate fixed this pension at \$100 a month, instead of \$50, the sum generally allowed the widows of general officers, is based upon the condition of General Stannard's widow, who is a confirmed invalid, unable to raise her hand to her head, and who requires the constant care of another person and more or less medical care, while there is an invalid daughter, unmarried, who is also a

member of the family.

Another daughter, also unmarried, remains in the family to care for her mother and sister as far as she can. There are then three persons to provide for, and it will be seen that an allowance of \$50 a month would be entirely insufficient for that an allowance of \$50 a month would be entirely insufficient for that purpose, insufficient to feed and clothe and house the persons and pay for the medical attendance of two invalids. If an allowance of only \$50 a month be made, the support of these three persons will, I fear, have to be provided for to some extent out of the contributions by the soldiers of Vermont, who would not see the family of the hero of Gettysburg in want or in the poor-house.

General Stannard was wounded on the field at Gettysburg by the side of General Hancock near the time the latter was wounded; and he was wounded five times afterward, losing his arm at Chapin's farm. General Hancock's widow was voted a lump sum of \$2,000 a year, and with no evidence brought to the attention of the House that Mrs. Hancock is not a person in the full possession of her physical faculties and in every respect in good health. Therefore, I say, guided by this precedent, it is not asking too much for us to ask the sum provided in the Senate bill.

Now, one word as to the action of the Committee on Invalid Pensions, which I do not wish to be understood as in any way criticising. In accordance with the rule they have adopted of only allowing \$50 to the widows of general officers, the amount in the Senate bill has been reduced to that figure.

It seems this rule was a necessary and wholesome one for them. They reported this amendment to the House, which was agreed to, and now refuse to recede from their position. This is an exceptional case in every way, and I do not believe the members of that committee and of this House, touched as you all must be with generous sympathy for this hero and for his invalid family, fail to recognize this as a case where you may well cease to longer insist upon that rule, but that on the facts as above stated a different rule may properly be adopted by the House and this larger sum be granted this poor woman, who will not be likely to long remain to need it.

Mr. MATSON. Mr. Speaker, I began my service in the House in the Forty-seventh Congress. I was appointed a member of the Com-mittee on Invalid Pensions at the same time General Stannard was ap-pointed upon the soldier's roll of this House. He was a messenger of the Committee on Invalid Pensions and continued to be from that time to his death. So I became well acquainted with him and admired and loved him because he was a modest hero. He was one of the heroes of the late war. I would as soon do a favor for his widow as I would for my own mother.

But, Mr. Speaker, this is not a question of favoritism. It is a question to make a law that is to be used hereafter as a precedent. danger is if we raise these pensions to \$100 a month for the widows of these soldiers there will not be money enough left to go round, and the difficulty will be that while some will get large pensions others will get none at all.

Mr. GROUT. Will you not admit there is ground for distinguishing between the widow and daughter of an officer who are confirmed invalids and absolutely dependent?

Mr. MATSON. I am not prepared to admit that by any means.

The widow of a soldier is pensioned only because of the death of her husband and not because of her own disability. There is no principle upon which this House can enter on that sort of a proposition, that is, to pension the widows of soldiers because of the disability of the wid-

Mr. GROUT. On what principle does the widow of General Hancock get \$2,000 a year?

Mr. MATSON. She was given a pension of \$2,000 a year because of the eminent and distinguished services of her husband, and because of his national reputation more than anything else. It was a matter of It was a pension which ought not to have been granted, and one I did not vote for and had nothing to do with. Nor will I vote for this pension, although I would rather vote for it than for the pension to General Hancock's widow. But I say this House can not afford to establish such a precedent.

After all is said in behalf of these gallant men and their stricken widows it is a matter of favoritism, a matter of pure favoritism, on the part of the House to give one widow \$100 a month and to give another a much smaller amount. The House has tolerated the practice of giving \$50 a month to the widows of general officers. It has been done in many cases. That is what should be given to the widow of General

Stannard, under the circumstances of the case, because she needs it. If she did not need it she ought to have no more than the general law gives to the widows of officers of this rank. I have no doubt, for I remember well to have heard General Stannard during his lifetime speak of the fact, that his wife was an invalid and had been upon her bed for years unable to leave it. I know that as well as I know any fact of which I have no personal knowledge.

But, Mr. Speaker, I wish if I can to impress upon the House the importance of this legislation. Some gentlemen will say this is a case that ought to be passed and that it would afford no precedent for another case that is not precisely like it in all respects. In response I say that is not a true statement of the facts. It will be used for a precedent in the case of every other general officer whose widow applies for a pension or for an increase of pension, because they all could show more or less of gallantry in the discharge of their duties while in the service. Therefore if a hundred dollars a month is given to this widow it will not be long before it will be urged that the widows of all general officers who are now receiving \$50 a month should be increased to \$100 a month, and on the same ground.

General Stannard had a pension during his lifetime of \$48 per month. That pension was increased from \$30 to \$48 by an act of Congress, the application being made at my suggestion. That increase, in my opinion, was rightly given, because he had lost his arm above the elbow, for which he received a pension of \$30 a month, and he had five wounds, I believe in one leg, besides two or three others; I think eight wounds in all. I insisted that he should make a personal application to Congress, because under the law he could get but \$30. My friend from Alabama [Mr. OATES] I think joined in that request. I remember Alabama [Mr. OATES] I think joined in that request. I remember well he had something to do with it, because he admired General Stannard. But he could only get for himself \$48 a month during his lifetime, and yet it is proposed here to give his widow \$100 a month.

Mr. McMILLIN. Is it not true that under this bill, if it passes, the widow of General Stannard gets more than he got during his lifetime? Mr. MATSON. Yes, sir; under this bill she would get \$2 per month more than General Stannard was able to get while alive.

Mr. GROUT. Will the gentleman allow me to make a suggestion? Mr. MATSON. Certainly.

Mr. GROUT. As I said, until General Stannard was appointed on the soldiers' roll of this House in the Forty-seventh Congress, owing to his infirm health and the invalid condition of his wife they were helped by the soldiers of the State. After he got this position, that, with his pension combined, was sufficient to give them the means of living.

Mr. MATSON. I do not believe that General Stannard was ever an

object of public charity.

Mr. GROUT. Not of public charity; but I can tell the gentleman that the soldiers of the State of Vermont contributed to the support of General Stannard and his family by providing them a home previous to his appointment here.

Mr. MATSON. That is not to his discredit.
Mr. GROUT. Not at all to his discredit; I am merely stating that

Mr. MATSON. The truth of the matter is that General Stannard had no business capacity to acquire for his family a subsistence during

his lifetime, although he was a most worthy and excellent man.

Mr. GROUT. No; but his health was broken, and he was unable to do anything for his family.

Mr. MATSON. During the latter part of his life he was in very

poor health.

But I insist, Mr. Speaker, that if the House recedes in this case and gives to this widow a pension of a hundred dollars a month it will be a precedent to return here and plague Congress for all time to come. It ought not to be done, for it is a clear and plain distinction.
"Vote!" "Vote!"

The SPEAKER. The question is on the motion of the

The question is on the motion of the gentleman from Vermont that the House recede from its amendment to the Senate

The question was taken; and upon a division there were ayes 59. Before the negative vote was announced,

Mr. GROUT said: No further count is required; we yield the point. I now move, if in order, that the conferees be instructed to agree on \$75 a month. [Cries of "No!" "No!"]

Mr. TAULBEE. Is that binding on the conferees?

On motion of Mr. MORRISON, by unanimous consent the joint resolution (H. Res. 126) providing for the payment of the surplus in the Treasury on the public debt, with Senate amendment, was taken from

the Speaker's table, the Senate amendment non-concurred in, and a conference asked by the House on the disagreeing votes thereon.

Mr. HISCOCK. I do not call for a separate vote on that question, because the House decided it very fully when the resolution was passed.

The SPEAKER. The Chair will appoint the managers on the part of the House benefits. of the House hereafter.

ENROLLED BILL SIGNED.

Mr. NEECE, from the Committee on Enrolled Bills, reported that the committee had examined and found duly enrolled a bill of the fol-

lowing title; when the Speaker signed the same:

A bill (H. R. 190) for the relief of certain employés and others of the Twelfth United States light-house district.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, informed the House that the Senate had agreeed to the following resolutions of the House of Representatives with amendments, requested a conference with the House on the disagreeing votes of the two Houses on said resolutions and amendments, and in each case had appointed Mr. MANDERSON, Mr. HAWLEY, and Mr. GORMAN as the conferees on the part of the Senate.

Resolution of the House of Representatives of July 27, 1886, to print Senate Executive Document No. 85, Forty-ninth Congress;
Resolution of the House of Representatives of July 27, 1886, to print special intelligence report by Lieutenant Kimball and Naval-Cadet Capp, of the United States Navy, upon the progress of the Panama Canal during the year 1885;
Joint resolution (H. Res. 20) to print the annual bulletins of the

Bureau of Ethnology; and Joint resolution (H. Res. 87) providing for the printing and distribu-

tion of documents of the monetary conferences of 1878 and 1881.

The message further announced that the Senate had agreed to the resolution of the House for the printing of 5,000 copies of the navigation and custom collection laws relating to vessels, including the laws relating to merchant seamen and the regulation of steam-vessels, compiled by the Bureau of Navigation in the Treasury Department.

The message further announced that the Senate had passed a resolution, in which the concurrence of the House was requested, for printing and hinding 5,000 additional copies of the report of the Bureau of

ing and binding 5,000 additional copies of the report of the Bureau of Education on art and industry; 1,000 for the use of the Senate, 2,000 for the use of the House, and 2,000 for the use of the Bureau of Edu-

cation.

The message also announced that the Senate had passed a bill (S. 2126) for the relief of L. B. Townsend, Louis D. Lovell, W. C. Page, Alonzo Sessions, Hampton Rich, Harvey Harter, Benjamin Harter, and Peter Hackett; in which the concurrence of the House was re-

The message further announced that the Senate had passed with amendment, in which the concurrence of the House was requested, the bill (H. R. 2124) amendatory of and supplementary to "an act to alter the judicial districts of Pennsylvania, and for other purposes," approved May 26, 1824, and providing an additional place for holding the several courts thereof.

MARY E. CASEY.

Mr. WEAVER, of Nebraska. I ask unanimous consent to move non-concurrence in the amendment of the Senate to the bill (H. R. 5003) for the relief of Mary E. Casey, and that a conference be requested. Mr. HOLMAN. Let us understand what the amendment is. Mr. REED, of Maine. The House proposes to give land, and the Sen-

ate proposes to give money.

Mr. HOLMAN. I understand the difference between the two prop-Senate, more wisely I think, proposes to give 80 acres of land, while the Senate, more wisely I think, proposes to pay this applicant \$134. I move that the House concur in the Senate amendment.

Mr. WEAVER, of Nebraska. I will agree to that.

The Senate amendment was concurred in.

Mr. HOLMAN moved to reconsider the vote just taken; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

FORTIFICATIONS APPROPRIATION BILL.

Mr. FORNEY. I rise to make a privileged report. I am directed by the Committee on Appropriations to report back the Senate amend-

ments to the fortifications appropriation bill, recommending non-con-

The report of the Committee on Appropriations was read, as fol-

The Committee on Appropriations, to whom was referred the bill (H. R. 9798) making appropriations for fortifications and other works of defense, and for the armament thereof, for the fiscal year ending June 30, 1887, and for other purposes, with amendments of the Senate, report as follows: They recommend non-concurrence in the amendments 1, 2, 3, 4, and 5.

Mr. FORNEY. I move the previous question.
Mr. BUTTERWORTH. I ask the gentleman to yield to me for one
moment. I submit to my friend from Alabama the propriety of having some expression from the House touching these amendments. It will be remembered the House showed a disposition to increase the appropriation to \$3,000,000 if the money could be expended in the manner suggested by this body. The Senate has increased the appropria-tion to \$6,000,000 and inserted certain provisions as to the expenditure of that sum; providing for the manufacture of steel for guns, for the purchase or manufacture of two steel guns, for the establishment of a plant for finishing heavy ordnance, also for the purchase of rifled mortars from a Boston foundery. It occurs to me some expression on the

part of the House before we go into conference would be advisable.

The SPEAKER. Even if the previous question should be ordered it is the right of any member to demand a separate vote on each amend-

ment.

Mr. REED, of Maine. Can not we have an explanation of the amendments before we are called on to vote on them

The SPEAKER: It is not for the Chair to answer that question. Mr. REED, of Maine. Is the commission re-established in this bill? Mr. BUTTERWORTH. It is not.

The previous question was ordered.
The SPEAKER. Gentlemen can indicate the amendments on which separate votes are desired.
Mr. REED, of Maine. Let the amendments be read.

The Clerk read the first and second amendment, as follows:

The Clerk read the first and second amendment, as follows:

Add at the end of section 1, the following:

"(1) For continuing the sea-wall around Governor's Island, \$50,000."

Strike out section 2, as follows:

"(2) For the armament of seacoast fortifications, including the procurement of steel forgings for the manufacture of heavy guns; for guns, carriages, projectiles, fuses, powder, implements, and materials for which shall all be of American production, their trial and proof, and the testing of improvements of the same, and all necessary expenses incident thereto, \$500,000, to be available until expended."

And in sert in lieu thereof the following:

"For the purchase, manufacture, and erection of the necessary tools and machinery for the finishing and assembling of heavy ordnance at the Frankford Arsenal, Philadelphia, Pa.; for guns in process of construction, gun-carriages, projectiles, fuses, powder, implements, and materials for the trial and proof of such ordnance, and to complete the two 10-inch breech-loading steel guns now under fabrication, their trial and proof, and all necessary expenses incident thereto, including compensation of draughtsman on gun construction while employed in the Ordnance Bureau, \$400,000, to be available until expended."

Mr. McKENNA. Mr. Sneaker, if the point of order were made.

Mr. McKENNA. Mr. Speaker, if the point of order were made, would not these amendments have to be considered in Committee of the Whole?

Mr. SPEAKER. They would, if the point of order had been made in time before the House entered upon the consideration of the amendments.

Mr. REED, of Maine. The amendments have not been read yet.

The SPEAKER. But the House has ordered the previous question on them. If any gentleman had demanded the reading of them they would have been read and the point of order could have been made; but no gentleman called for the reading of the amendments, and the

House has just ordered the previous question.

Mr. REED, of Maine. But the regular order is to read them without its being demanded. Why was that departed from in this case?

The SPEAKER. The Chair does not know.

Mr. REED, of Maine. I trust that hereafter the regular course will be followed, and that bills will be read in the usual way, whether the

be followed, and that bills will be read in the usual way, whether the reading is called for or not.

Mr. RANDALL. That would only impede the passage of the bill.

Mr. REED, of Maine. But there is such a thing as the decent, proper passage of a bill, and there is also such a thing as the improper passage of a bill. We are not here merely to pass bills, but to pass bills understandingly. I should like to know how it happened that this was not read according to the regular form.

The SPEAKER. The Chair thinks the point of order is now too late. Does any gentleman desire a separate vote on this amendment?

Mr. BUTTERWORTH. Mr. Speaker, I suppose there is no time for discussion of the amendment.

discussion of the amendment. The SPEAKER. The previous question has been ordered, and the

committee recommend non-concurrence in this amendment.

Mr. BUTTERWORTH. I rise to a parliamentary inquiry.
The SPEAKER. The gentleman will state it.
Mr. BUTTERWORTH. I am on the subcommittee on this bill, but was not present when it was considered in the committee, and hence was not advised as to what course would be taken in the House in regard to it. I ask now whether there will be any opportunity to dis-

The SPEAKER. The committee recommend non-concurrence, and the previous question has been ordered, but notwithstanding that it is competent for any gentleman to move to concur, and the motion will have priority.

Mr. BUTTERWORTH. Then I move that the House concur in

this amendment.

Now, Mr. Speaker, although the previous question has been ordered,

is there not thirty minutes for debate? The SPEAKER. There is. Under There is. Under the rules of the House thirty minutes are allowed for debate, fifteen minutes in support of the recommendation of the committee and fifteen minutes in opposition to it. The Chair, however, does not desire to be understood as now deciding that that would apply to each one of these amendments. The Chair has never been called upon to decide the question whether after the first thirty minutes have been exhausted any more time will be allowed

Mr. BUTTERWORTH. I shall occupy only a few minutes on this

Mr. SPRINGER. I rise to a point of order. The SPEAKER. The gentleman will state it.

The SPEAKER. The gentleman will state it.

Mr. SPRINGER. My point is that the gentleman is too late after two or three of the amendments have been read and discussed.

The SPEAKER. The reading of the amendments is not discussion. Mr. SPRINGER.

But there was discussion. The Chair remembers none. The SPEAKER.

Mr. BUTTERWORTH. Mr. Speaker, I rise simply to call the attention of the House to the Senate amendments, not for the purpose of urging their adoption in the exact form in which they are presented, but in order that the House may indicate to its conferees what it desires to have done in regard to the provisions of the amendments which have reference to securing a proper plant for the manufacture of guns and ordnance, and generally for providing the necessary enginery of war. There is no question but that we are greatly deficient in facilities for the manufacture of steel guns. We have no plant that is sufficient for the manufacture of the class of guns which are now used in Europe and which will be used here in case of war.

The House has already indicated a willingness if a board could be appointed to supervise the expenditure of the money to appropriate three million or three and a half million dollars to put the country in proper condition of defense, at least I inferred that the House was prepared to vote that appropriation if the money could be expended under the supervision of a board to be appointed for that purpose.

ate has amended the House bill.

I will read the second amendment, and we can determine whether it is a wise one. That it is a step in the right direction every member of this House knows. That the step is indispensable, and must be taken now or at an early day, no gentleman upon this floor doubts. But whether it is properly taken in this amendment, or whether the provision is in all respects what it ought to be, whether it contains suitable conditions and proper limitations, is a question upon which I for one would like the judgment of this House. I have conversed with the distinguished chairman of the Committee on Appropriations, who has given considerable attention to this matter, and I think I but re-flect his judgment when I say that he desires a liberal appropriation if it can be expended under proper direction and supervision

Mr. RANDALL. I am much obliged to the gentleman, but I would

rather speak for myself.

Mr. BUTTERWORTH. I have never known the gentleman when he did not desire to speak for himself, and I have no desire to speak for him, but I think I do not mistake the tenor of the interviews that we have had with respect to this subject, in which we both expressed a deep interest-

Mr. RANDALL. I have never legislated except in public.

Mr. BUTTERWORTH. I understand that, nor have I suggested that the gentleman has attempted to legislate otherwise. I only intimated that as I understood his views in regard to this measure it was as I have suggested. If I am wrong in that, then I will retract and say that I do not understand that the gentleman has any definite position on the subject. [Laughter.]

The provision inserted by the House was this:

SEC. 2. (2) For the armament of seacoast fortifications, including the procurement of steel forgings for the manufacture of heavy guns; for guns, carriages, projectiles, fuses, powder, implements, and materials for which shall all be of American production, their trial and proof, and the testing of improvements of the same, and all necessary expenses incident thereto, \$500,000, to be available until expended.

Now I will read the Senate provision, which differs from the House provision chiefly in amplifying the powers of the Secretary having control of the expenditure of the appropriations. In other words, the Senate authorizes the officers of the Government to procure the things which this House concedes to be indispensable to the proper armament of the country. This is the Senate provision:

For the purchase, manufacture, and erection of the necessary tools and machinery for the finishing and assembling of heavy ordnance at the Frankford arsenal, Philadelphia, Pa.; for guns in process of construction, gun-carriages, projectiles, fuses, powder, implements, and materials for the trial and proof of such ordnance, and to complete the two 10-inch breech-loading steel guns now under fabrication, their trial and proof, and all necessary expenses incident

thereto, including compensation of draughtsman on gun construction while employed in the Ordnance Bureau, \$400,000, to be available until expended.

Whether that provision fully meets all requirements I do not pretend at this moment to say. The idea is, it will be remembered, that the steel ingots, the rough boring, &c., for guns should be secured by contract with private parties and the work finished at the arsenals of the Government; that such contracts should be made as will enable our own people to provide the steel, &c., necessary for making the guns, and that when the material is thus provided the work shall be finished at the Frankford arsenal, Pennsylvania, or such other place as Congress may suggest or direct.

The particular clause of the provision of the Senate amendment re-

lating to plant is the following:

For the purchase, manufacture, and erection of the necessary tools and machinery for the finishing and assembling of heavy ordnance at the Frankford areenal, Philadelphia, Pa.

The difference between this and the House proposition is not very

substantial, except in this, that the Senate in express terms authorizes that to be done which we say ought to be done, and which can not be done in the absence of a provision authorizing the establishment of plants, or a plant with suitable tools and machinery, and also the making of contracts with firms that are able to produce the steel in such condition as may be required.

Mr. BUCK. Is there not this additional difference, that in the bill as amended by the Senate there is no provision for the fabrication of anything but cast-iron mortars and other large guns, no provision being made for the fabrication or purchase of smaller guns for secondary bat-

teries, whereas in our bill we made such provision?

Mr. BUTTERWORTH. That is true. In other words, while the Senate amendment provides for one emergency, it omits some impor-

tant provisions inserted by the House.

I hope my friend from Alabama [Mr. FORNEY] who has had charge of the bill will point out the particular objections he has to this amendment. I hope the gentleman from Pennsylvania [Mr. RANDALL] will do the same. Let us do something; let us not refuse to do anything for fear we may go wrong. This is a plain business proposition, as I understand it. I shall be very glad to hear from my friend from Alabama what it is in this proposition that he objects to. It is not conclusively settled, I may say, that steel guns are to be the guns of the future; but whether they are to be steel or iron or both, it is clear we must have the guns.

Mr. FORNEY. My objection is simply to the establishment of a

plant at Frankford, Pa

Mr. BUTTERWORTH. I cannot hear my friend from Alabama. I will yield the floor for the present, reserving the residue of my fifteen minutes until the gentleman from Alabama [Mr. FORNEY] has spoken.

PHŒNIX NATIONAL BANK.

The SPEAKER announced the appointment of Mr. SPRINGER, Mr. LANHAM, and Mr. BUCHANAN as managers on the part of the House at the conference on the disagreeing votes of the two Houses upon the bill (S. 1599) for the relief of the Phoenix National Bank of the city of

Mr. PRICE. I desire to state that the gentleman from New Jersey

[Mr. BUCHANAN] has gone home sick.

The SPEAKER. The Chair understands that he will return soon; if not, some other gentleman will be substituted.

PAYMENT OF SURPLUS ON PUBLIC DEBT.

The SPEAKER also announced the appointment of Mr. Morrison, Mr. Breckinridge of Kentucky, and Mr. Hiscock as managers on the part of the House at the conference on the disagreeing votes of the two Houses upon the joint resolution (H. Res. 126) directing payment of the surplus in the Treasury on the public debt.

J. J. B. WALBACH.

Mr. TUCKER, by unanimous consent, reported back favorably from the Committee on the Judiciary a bill (H. R. 9017) to remove the po-litical disabilities of J. J. B. Walbach, of Baltimore, Md.; which was referred to the Committee of the Whole House on the Private Calendar, and the accompanying report ordered to be printed.

PROPOSED EVENING SESSION.

Mr. SPRINGER. I ask unanimous consent that the House consider and adopt at this time a resolution providing for a session on next Monday night for the consideration of private bills.

Several members objected.

FORTIFICATIONS APPROPRIATION BILL.

The House resumed the consideration of the amendments of the Senate to the bill (H. R. 9798) making appropriations for fortifications and other works of defense, and for the armament thereof, for the fiscal year ending June 30, 1887, and for other purposes

Mr. FORNEY. Mr. Speaker, the difference between section 2 as passed by the House and the amendment proposed by the Senate consists in this: The Senate proposes the erection of all necessary tools and machinery for the finishing and assembling of heavy ordnance at the Frankford arsenal, Philadelphia, Pa. This is the beginning of the establishment of a plant there. Now, the question is whether the House is ready to commence the establishment of a plant at that particular point. One other difference: We appropriate \$500,000 for the purchase of steel forges for the manufacture of heavy guns, &c.; the Senate proposes to appropriate \$400,000. These are the only differences between the House bill and the Senate amendment in reference to this section. The Committee on Appropriations recommend nonconcurrence

Mr. BUTTERWORTH. Ido not know that I understood the ground

of the gentleman's objection.

Mr. FORNEY. I object to establishing a plant at Frankford, Pa.

Mr. BUTTERWORTH. Then I understand the only or chief objection is that this provision of the Senate looks to establishing a plant

at Frankford, Pa., or enlarging the plant already there.
Mr. FORNEY. Yes, sir.
Mr. BUTTERWORTH. Now, I do not know that it is important to establish a plant at Frankford, Pa.; but that it is important to establish a plant somewhere everybody admits. If my friend from Alabama can suggest a better place I for one am quite willing to assent.

Mr. FORNEY. I should say Birmingham, Ala.

Mr. BUTTERWORTH. Well, I am not averse to establishing a plant at Birmingham, Ala., if from a practical business point of view that is the better place. I am willing to establish a plant at two or three places in this country, if necessary, in order that the United States may in matter of proper equipment for offensive and defensive warfare stand before the world abreast with at least fourth-rate nations. That we cought to establish a plant semawhere is beyond one. That we ought to establish a plant somewhere is beyond question. It is a plain, practical, business proposition, and should be so considered. Frankford is named, I presume, because we already have a plant there, but it is not provided with sufficient tools and machinery necessary to manufacture or complete the kind of guns now in use and which are confessedly required for public defens

Mr. CURTIN. And because the Government already has an estab-

lishment there.

Mr. BUTTERWORTH. Undoubtedly the Government has valuable property there in the shape of buildings, machinery, tools, &c., and I know of no reason why that plant should not be enlarged and fitted up to meet the demands resulting from the growth in the art which pertains to the production of implements and enginery of war. If any of our friends here can suggest another place better suited to the purpose I am quite willing to agree to it. If my information is correct there has been an arsenal at Frankford almost ever since the Government was founded.

There is another thing which ought to be provided for, and which

the Senate amendment omits; that is, the purchasing of guns.

The SPEAKER. The hour of 5 o'clock having arrived, the House stands adjourned until Monday morning next at 11 o'clock.

SENATE.

Monday, August 2, 1886.

The Senate met at 11 o'clock a. m.

Prayer by the Chaplain, Rev. J. G. BUTLER, D. D.

The Journal of the proceedings of Saturday last was read and approved.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. Clark, its Clerk, announced that the House had concurred in the amendment of the Senate to the bill (H. R. 5003) for the relief of Mary E. Casey

The message further announced that the House had non-concurred in the amendments of the Senate to the joint resolution (H. Res. 126) directing payment of the surplus in the Treasury on the public debt, agreed to the conference asked by the Senate on the disagreeing votes of the two Houses thereon, and had appointed Mr. Morrison, Mr. W. C. P. Breckinridge, and Mr. Hiscock the managers at the conference on the part of the House. ence on the part of the House.

The message also announced that the House further insisted upon its amendments to the bill (S. 2609) granting a pension to Emily J. Stannard, disagreed to by the Senate, asked a further conference with the Senate on the disagreeing votes of the two Houses thereon, and had appointed Mr. LOVERING, Mr. TAULBEE, and Mr. CONGER the man-

agers at the further conference on the part of the House.

The message also announced that the House insisted upon its amendment to the bill (S. 1599) for the relief of the Phœnix National Bank, of the city of New York, disagreed to by the Senate, agreed to the conference asked by the Senate on the disagreeing votes of the two Houses thereon, and had appointed Mr. Springer, Mr. Lanham, and Mr. BUCHANAN the managers at the conference on the part of the House.

ENROLLED BILLS SIGNED.

The message further announced that the Speaker of the House had signed the following enrolled bills; and they were thereupon signed by

the President pro tempore:

A bill (S. 1008) to empower the Board of Foreign Missions of the Methodist Protestant Church to hold property in the District of Co-

lumbia

A bill (S. 2530) for the relief of the legal representatives of John Wightman, deceased;

A bill (S. 13) for the relief of William J. Smith, late surveyor of cus-

A bill (S. 13) for the rener of William 3. Sinker, are stronged toms for the port of Memphis, State of Tennessee;
A bill (S. 68) for the relief of S. B. Cranston, of Oregon;
A bill (S. 218) to confirm the title to certain lands in Platte County,
Missouri, and authorize patents to be issued therefor to Kinsey B. Cecil;

A bill (S. 224) for the relief of Charles F. Bowers;
A bill (S. 304) to compensate physicians for services rendered under an order of the United States court of the northern district of Ala-

A bill (S. 380) for the relief of Mrs. Henrietta H. Cole; A bill (S. 632) to provide for the settlement of the estates of deceased Kickapoo Indians in the State of Kansas, and for other purposes;

A bill (S. 699) to authorize the Secretary of the Interior to issue to George K. Otis duplicates of certain land-warrants lost while in the

possession of the officers of the Government;
A bill (S. 708) for the relief of Stephen N. Smith;
A bill (S. 936) for the relief of John M. McClintock;
A bill (S. 1899) for the relief of Mrs. Lizzie Maynadier Phelps, widow of Capt. Seth Ledyard Phelps, late minister of the United States

to Peru; and
A bill (S. 2415) for the relief of the trustees of the Christian Brothers'

SUNDRY CIVIL APPROPRIATION BILL.

Mr. ALLISON. I present the report of the committee of conference on the sundry civil appropriation bill, and ask that it be read.

The PRESIDENT pro tempore. The report will be read.

The Chief Clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 9478) making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1887, and for other purposes, having met, after a full and free conference, have been unable to agree.

WILLIAM B. ALLISON, EUGENE HALE, JAMES B. BECK, Managers on the part of the Senate. SAMUEL J. RANDALL, WILLIAM H. FORNEY, THOMAS RYAN, Managers on the part of the House.

Mr. ALLISON. It will be seen that this is a general disagreement. I will say, however, that the conferees have gone over every item of the bill with great care, occupying much time of the conferees. After all this labor we find ourselves unable to agree upon certain points which the House conferees desire the sense of the House upon and which we should be glad to have the sense of the Senate upon.

The first difference relates to the items of appropriation for the Coast

and Geodetic Survey. The original House provision reduces the appropriation for the Coast Survey about \$100,000 below the appropriation of last year and makes practically a new arrangement and adjustment with reference to the official force of the survey, creating new officers, abolishing old officers, changing compensations, &c. The Senate amended the bill so as to practically continue the force as it nov. exists under the appropriations, but made a concession to the House respecting the field force of the survey by allowing its reduction from sixty-four to fifty-two as vacancies should occur in the force.

The House conferees insist that this new adjustment shall be made in this bill. Our answer to that is that the Coast Survey since August, 1885, has been practically without a scientific head. So far as the Committee on Appropriations can judge, the young man now in charge of the Coast Survey is a very intelligent, industrious, and capable man, but he has no knowledge whatever of the scientific work of the survey.

Our answer to the conferees of the House with reference to this amendment was that when a responsible head of the Coast Survey, having scientific knowledge of its work and of its force, should enter upon the subject of reorganizing and making recommendations to us, we would then feel that we could carefully take up that question; but until that was done we felt it our duty to stand by existing law with reference to the organization of the Coast Survey and with reference to the appropriations for it so far as the field and the office force is concerned.

The next item of difference will be found in amendments numbered 138 and 139, relating to the Pension building. The House provisions require that the General Land Office, the Indian Office, the Bureau of Education, the office of the Commissioner of Railroads, the Bureau of Labor, the office of the agent for the payment of pensions in the District of Columbia, and the office of the Geological Survey shall all be transferred to the new Pension building, and that a rearrangement of that building shall be made whereby a fourth story shall be erected in the building.

The confeeres on the part of the Senate were willing that this fourth story should be provided for, inserting a provision that it should be used for records and for records only, it being manifest to any one who will examine the building that it is not possible to put clerks in a fourth story lighted from the roof, as it must necessarily be chiefly, and I believe the Senate has acted on that subject.

Mr. BECK. The Senate has been passing a bill for a hall of records

for the last four or five years.

Mr. ALLISON. I believe the Senate has three times passed a bill providing for a hall of records.

Mr. BECK. For all the Departments.

Mr. ALLISON. This fourth story would furnish a very excellent

hall for the records of the Government, especially for the records of the Interior Department. It could be profitably and economically used for that purpose, and would largely give space then for other uses of the Interior Department of the remainder of the building.

Mr. McPHERSON. Does that require the walls to be raised?

Mr. BECK. No.
Mr. ALLISON. No; the fourth story can be erected without any change of the exterior of the building except perhaps punching little circular holes just under the roof for light and air. The third story is

now 31 feet high. It is proposed to divide that story into two.

The Senate conferees insist—and we desire the judgment of the Senate upon that question—that it will take a year to complete that building; that during its construction the whole building will necessarily be torn up, and that it will be exceedingly difficult for the present force to work there during the rearrangement and reconstruction of the building and its completion.

We said to the House conferees that this was a question of administration which should be left somewhat to the head of the Department; that it should be left to an arrangement after the building is completed, and that then we could direct (unless the Secretary of the Interior him-self should provide in the mean time) that the building should be filled up, as it is manifest that it would not be wise to have vacant space in any of our public buildings whilst we are paying large amounts for rented buildings outside. That is practically the difference between the two Houses respecting the Pension building.

The next items of difference relate to the survey, &c., of the public ands. The money difference respecting the public-land surveys is very small, but the House conferees insist upon the original provisions of the House respecting the survey of public lands. For example, \$50,000 was appropriated for the survey of public lands. Under the original House provision this entire sum could be expended for re-examination of surveys. The Senate made several amendments respecting that particular provision and other provisions, which the Senate conferees proposed to modify somewhat, but were not able to make such suggestions as were acceptable to the House conferees.

The next item of difference relates to the Yellowstone Park.

Mr. BECK. The Nevada survey was reserved.
Mr. ALLISON. Yes; the provision in relation to the Nevada survey was also reserved, the Senate having inserted a special provision for surveys in Nevada on the ground that we were bound by law to provide surveys for lands in lieu of school lands.

The House conferees insist that the Senate provision respecting the

Yellowstone Park shall be stricken out and that that park shall be placed practically under the control of the Secretary of War. The Senate conferees did not feel at liberty to surrender that provision without consulting the Senate.

The Senate inserted a provision for the erection of a hospital adjacent to our hospital for the insane, for convict and homicidal patients,

and inserted an appropriation of \$50,000 for that purpose.

Mr. McPHERSON. Will the Senator from Iowa, before he departs from the question concerning the Yellowstone Park, please inform the Senate whether the Secretary of War has a force which can be employed for such a purpose, or will it entail a like expense on the War

epartment as that proposed under existing regulations?

Mr. ALLISON. The law now provides for a superintendent of the park and ten assistants. It also provides for the building and repair of roads and bridges under an officer of the Army. Under the law the Secretary of the Interior can at any time call upon the Secretary of War for aid in order to keep and preserve order in the park, to protect the game, &c. The House conferees insist that this provision is ample to protect the game in the park and to protect the park in every way, and that it will not entail any additional cost upon the Government. That is their claim. is their claim.

Mr. PLUMB. Was there any agreement on that point?
Mr. ALLISON. There was no agreement reached.
Respecting the hospital building in the District of Columbia, Dr. Godding, the superintendent, came before us and stated that the space now required is beyond the present scope of the building.

now required is beyond the present scope of the building.

Mr. EDMUNDS. That is, they have not space enough?

Mr. ALLISON. There is space for about one thousand patients in the normal condition of the hospital, and they have twelve hundred and forty-one there now, and among these there are, first, the insane convicts sent there by the United States.

Mr. VOORHEES. What?

Mr. VOORHEES. What?
Mr. ALLISON. Insane convicts.
Mr. VOORHEES. The Senator does not mean to use those words. Mr. VOORHEES. The Senator does not mean to use those words. There are no convicts for crime there. I presume the Senator means to say those committed by the Government.

Mr. ALLISON. No, I mean to say that where in the Army a man has been convicted of crime and subsequently becomes insane he is sent

to that hospital.
Mr. PLUMB.

Mr. PLUMB. And so in the Navy.
Mr. ALLISON. And in the Navy as well.
Mr. VOORHEES. He is sent there because his insanity has been ascertained in the trial for homicide.

Mr. ALLISON. Convict insane. Mr. VOORHEES. That is not t That is not the right term. Mr. EDMUNDS. He becomes insane afterward.

Mr. VOORHEES. I see

Mr. ALLISON. In addition to that there is another class of insane called in technical terms homicidal insane; that is, persons who are determined to commit homicide. Dr. Godding insists that these two classes of people should be, for the benefit of the remaining patients, kept separate.
Mr. VOORHEES. Undoubtedly.

Mr. ALLISON. He asked us to provide a building for that purpose, and we inserted a provision for \$50,000. The House conferees answer us by saying that that can be postponed for another year.

The next item of difference is that relating to stenographers or law

clerks for the Chief-Justice and associate justices of the Supreme Court, I do not think I need mention what that is; we all understand the provision.

The next items of difference will be found in amendments 230, 231, The next items of difference will be found in amendments 230, 231, and 232. Amendment 230 is the amendment authorizing the Committee on the Library to expend \$10,000 for works of art, and to this the House conferees object, insisting that this power ought not to be given to the Library Committee, and they say they can not agree to it.

Mr. VOORHEES. In regard to that item, I wish to say a word. This little appropriation for works of art has been made as a matter of

course for years and years past. This is the first time the House of Representatives has found out that it was not a proper thing to do. Ever since I have been a member of Congress, both the House and the Senate have agreed to it, and this is the first time I ever heard objection raised.

The rule has been, as the Chair is perfectly well aware, he having been connected with that committee himself, that a small sum, something like \$10,000, has been intrusted to the committee itself with which to purchase works of art, of not a great and expensive character, but now and then to pick up something of value, left to the discretion of the committee, and I am astonished that the House conferees

should insist on striking it out.

Mr. BECK. And it is left to the discretion of a joint committee. Mr. VOORHEES. It is left to the discretion of a joint committee that. The House is embraced in the committee, and I am surprised at that. at this objection arising on the part of the House at this late day. I should be glad to hear from the Senator from Iowa some of the reasons given by the House conferees for this extraordinary spasm of alarm at this time on this subject.

Mr. ALLISON. I suppose the reasons are practically that they de-

sire the two bodies to pass upon these questions.

The other two remaining items of difference respect the two paintings specially authorized, first, the Fight of the Iron-clads, and the painting called Farming in Dakota. They object to those items.

I believe I have stated all the real differences.

Mr. HOAR. If the Senator from Iowa will allow me, as the Senator from Indiana made a suggestion, I wish to say that I think every member of the House of Representatives and of the Senate vill see that it is important that there should be lodged somewhere under a sense of immediate responsibility the power to pick up certain works of art of a great national interest, without delay. There are a great many such relating to our Revolutionary and historical period which would be very eagerly procured at large prices by private collectors of wealth, or by art museums or public institutions in our various cities, who would, however, yield precedence to the Government in the begin-

Take two works of art which have been purchased from this fund this winter. There was sent here to Mr. Corcoran, at the price of something between \$1,000 and \$1,200, an original painting by Copley, in the Tower, of Henry Laurens, the president of the Continental Congress, who, as everybody remembers, was taken captive and committed to the Tower in London, and there Copley, his countryman, our most famous portrait painter, painted his portrait. There has never been a national recognition of the service and the suffering which that great patriot contrib-uted to the cause of his country in the Revolutionary war. Mr. Corcoran was eager to have it. The painting was sent here to him; and I will venture to say that if that picture was in the possession of the Historical Society of Massachusetts, or the American Antiquarian Society, or Mr. Corcoran himself here, it would not be parted with for the sum It is worth that sum, but Mr. Corcoran felt the propriety that that picture should be so disposed of as that its place of custody should of itself constitute a monument of national gratitude and regard.

Is it not fitting that this great patriot and sufferer should have his portrait hung in the Capitol of the United States by the country which he loved and served? Waiting a few weeks, coming to Congress, having to run through one of these disputes in the Committee on Appropriations, would have defeated the purchase of that picture for the Gov-

So in regard to another picture which the committee has acquired, the painting of Benjamin West by himself, a portrait of remarkable value and spirit, found in the collection of a dealer—the great Pennsylvania artist who went to London before the Revolutionary war and became the President of the Royal Society, but always patriotic, always a lover of his country.

It seems to me that nobody will question that there should be ledged somewhere the power to secure such things at an ordinary and reasonable expense, and it certainly can not be lodged any better than in these two committees which are constantly and immediately responsible to

The PRESIDENT pro tempore. What motion does the Senator from Iowa make?

Mr. BECK. Did the Senator from Iowa call attention to stenographers for the justices of the Supreme Court?

Mr. ALLISON. I called attention to that item.

I move that the Senate still further insist on its amendments, and ask for another conference.

I believe I have explained these items. I should be very glad to have an expression of the Senate and of Senators respectively in regard

to the matter. Mr. VEST. Will the Senator from Iowa permit me to make a remark about the appropriation for the Yellowstone Park? I drew that law when it was put into the sundry civil act some years ago, and the intention of myself and of the Senate I think, and of the House of Representatives at that time, was that troops could be called for by the Secretary of the Interior in the event that his assistant superintendents were not able to expel from the park the gangs of "skin hunters," as they are termed, who would go in upon snow-shoes and kill two or three hundred elk at once and skin them and leave their car-

It was never intended that the Secretary of War should put a cordon of troops around the park. There is no necessity for it. Soldiers could not do the work which is expected to be done there. It requires mountaineers, men experienced in the mountains, who know the roads and the paths, hunters and frontiersmen; and soldiers would be more

than useless for that sort of work.

Mr. DAWES. I suggest to the Senator to get an expression of the Senate upon that amendment by moving himself that the Senate recede and vote against it, stating the reason, and then a yea-and-nay vote upon his motion to recede will give the sense of the Senate. The Senate will understand the purpose of making the motion so that he will not be committed himself.

If he will allow me a moment, I did not think that the Senate ought to be more remiss than it has been about the care of that park. It is in danger of being lost in the multitude of interests that have encroached upon it, and I think it very desirable that the Senator should insist in pressing for his amendment. I make the suggestion. It has been the custom quite often to get an expression of one body or the

other by that very process.

Mr. VEST. I have no doubt that the ultimate intention of this sort of thing on the part of the House conferees is to destroy the park. That is the end of it. If this appropriation is taken away and it is put in the hands of the War Department it is virtually an end of the Yellowstone

National Park.

I should like to have an expression of the opinion of the Senate, and I will make the motion suggested by the Senator from Massachusetts in the hope that the Senate will emphatically refuse to recede from the

The PRESIDENT pro tempore. There is so much conversation it is impossible to hear the Senator from Missouri.

Mr. BECK. I can not hear a word. Mr. VEST. I can hardly hear myself.

The PRESIDENT pro tempore. Senators will please come to order so that the Senator from Missouri may be heard.

Mr. VEST. I move that the Senate recede from the amendment, hoping that the motion will be voted down unanimously.

Mr. EDMUNDS. Which one is that, the Library Committee amend-

ment?

Mr. VEST. No; the amendment as to the Yellowstone Park. House insists upon absolutely taking away all of the appropriation, the whole of the \$20,000 for the payment of a superintendent and assistants and for contingent expenses, leaving only \$20,000 for the construction of roads, and to put the park under the control of the Secretary of War, taking it away from the Secretary of the Interior. That is the whole of it.

I move that the Senate recede, hoping that the motion will be voted down unanimously, so that our conferees will be authorized to stand

by the amendment of the Senate, which is \$20,000.

Mr. BECK. I hope and I believe that there will be an agreement before long in regard to this bill, if there is a spirit of concession on both sides; but supplementing what the Senator from Iowa has said in regard to the Coast and Geodetic Survey, about which he is so well informed, having been on the commission for a long time, I am unable to see how that business can be carried on successfully by making the to see how that business can be carried on successfully by making the somewhat radical changes the House now insist on making. We have not got an experienced head there now, though a very intelligent young man, as far as I can judge from his conversation with the committee. Both Houses agreed practically last year to adjust the service upon the basis on which the Senate now insists. I think it ought to remain until it can be arranged under some thoroughly scientific person whom the President perhaps will soon be able to find to fill the place. Until that is done I do not see how we can get along at all unless we adhere to the Senate amendment. I understand that the salaries now paid are from 15 to 20 per cent. less than are paid in the Geological Survey for similar services. I ask the Senator from Iowa if I am not right in

Mr. ALLISON. I will say-I ought to have said before-that the salaries in the Coast Survey for the scientific employés as compared with the Geological Survey are from 15 to 20 per cent. less now.

Mr. BECK. So I understand, and that being the fact, I did not see how we could properly consent to any more radical changes in that direction, especially as the survey is not now under a head who will perhaps remain there permanently. That is all I care to say in regard to that.

As to the Pension Office building, it is utterly impossible for us to agree to order men in there now, with the work not done and while it is being done. Confusion will occur, which will make it difficult even for those there now to do their work satisfactorily. But to order the Land Office, the Geological Survey, and all these other offices in there in advance of the work being done, against the protest of the Secretary of the Interior and against the protest of those who are advised, seems to me to be a thing the Senate can not properly give up. We are willing to give them all the money they ask and let them go on. Congress meets again in December, and if it has progressed by that time, we can make any order needed unless the Secretary of the Interior in the mean time adjust it himself. There will be time enough. But it is like attempting to walk across a bridge before it is built instead of waiting until it is done, to act on the matter now. I think the Senate ought to be quite emphatic in its objection that it is not proper legislation to be ordering the bureaus of the Interior Department about at this time.

The land clauses I think can be adjusted. There does not seem to be any very serious difference between us about that. As to the convict insane building, whether they give it to us or not for homicidal insane, it is a public necessity, and it is so proper that I hope the Senate conferees will not yield their position very readily when we come to meet again, because men who have developed those tendencies ought not to be among other people. I think it is too obvious to need more than a statement.

As to the Yellowstone Park I agree to every word the Senator from

Missouri [Mr. Vest] has said. I was there a few years ago and went all over it, and I took some interest in it, as did the Senator from Massachusetts [Mr. DAWES]. We must maintain it; and the House provision striking down the superintendents and everything else is a virtual abandonment of it and everything in it and of all the things we have been trying to preserve. I do not see why that should be done until we have passed some law making some other regulations, because if we simply do what the House propose it leaves it open and there is nothing except this. The Secretary of the Interior has power under the law passed a few years ago, if a band of men, cowboys or others too strong for his superintendents and assistants to drive out, should go there to kill the buffalo, elk, and other game, to call on the Secretary of War to send a sufficient force to drive them out. That is the only power he has now. The House provision just leaves it to the mercy of everybody.

I believe in extending that park. I would vote to extend it 20 miles

farther south and 40 miles farther east, taking in the tops of the mountains, and I would take care of it or I would abandon it altogether; but I would not abandon it by indirection. I would retain it, and preserve it, and keep it, and it will improve in the estimation of the American people year by year. The buffalo, the elk, and the large game of America are there, and only there, and even their instinct teaches them that they are safe there and they do not leave it. I think we ought to

allow the provision, carefully drafted by the Senator from Missouri, to stand. It is not right to recede from it. That is my opinion.

I do not believe that the Senate will allow us to give up the right of the Library Committee to have a little fund of \$10,000 to purchase works of art. I said to the House conferees, "I will not report the bill without going to the Senate and consulting with the gentlemen who have charge of these matters, and I insist that they shall have that right."

As to stenographers to the judges, I hope when the conferees go to the House the House will advise them that they ought to agree to our amendment. It seems to me under the circumstances, the Senate having passed it, the House should agree to it, and we ought not to give that up without at least having a very decided expression upon it from the House itself.

That is all I care to say.

Mr. PLUMB. I did not agree in the committee except under a sort of protest to the provision in regard to the Yellowstone Park as inserted by the Committee on Appropriations; and if this matter were alone before the Senate I should vote for the House substitute. We have had ever since the park was in existence more or less, not only last year but in the years before, of difference between the Houses in regard to it. The Senator from Missouri very properly declaimed last year or the year before against the manner in which the park was carried on against the monopoly privileges there allowed. There has been in my judgment only a change of the persons who had that monopoly. The monopoly still exists. It is as grinding and as odious as ever and just as much a reflection on the administration of the park and the National Government to the extent it has to do with it. When I say that I do not say it for the purpose of reflecting upon anybody, but simply to remark that it is inevitable, and just as long as the Government undertakes to deal with this question it is going to have these difficulties on

I have a letter in my possession from a responsible party who says that the Secretary of the Interior has issued an order or directed the present superintendent of the park to issue an order that no vehicle having a tire less than four inches in width shall go into that park, leaving out of account the fact that the park has to be traversed in order to make connection between widely-separated communities by trains bearing freight to and from the railroads. In order to accommo-date the great traffic, if it is to be carried on at all, the persons concerned in that traffic will have to change their wagons to correspond with this

It is an inhibition against crossing the park by the freight trains doing the ordinary business of the people who have been invited thereon the public lands. But back of all that is this same monopoly. Of course as nobody can traverse the park except one having a wagon of this unusual width of tire, naturally the monopoly that owns all the places where hotels are to be located, and owns the hotels, &c., will own all the wagons of the particular character of manufacture that alone can enter the park.

Mr. BECK. The Senator would not give up his farm because his sent was cutting a little timber improperly. This is a matter of adagent was cutting a little timber improperly.

Mr. PLUMB. If my eye was going to offend me as long as I lived, I would pluck it out. This is one of those things that in my judgment are inevitable, resulting from the Government management or from the are inevitable, resulting from the Government management of from the civil management of the park, or from any management which goes into the great detail which has been cast upon that unfortunate piece of ground. A man who goes in there to pick up a thing of no value is liable to severe punishment. The monopoly which last year and the year before was offensive to everybody has been succeeded by another of the same kind. It not only has a monopoly of the hotel locations, but it has bought out a great monopoly. That is the ordinary way

telegraph companies do when they want to get rid of a pestiferous rival—buy them out. This same monopoly has bought all the stage lines, so that practically you can not get into or out of the park without the consent of this monopoly which has control of the hotels and of the means of transportation. It is a complaint made from quarters entitled to respect and consideration that under the administration of the present rules and regulations under the law the park is only set apart for

the rich; the poor can not get into it.

In 1884 a man who had been in the employ of the government of the park was directed by the order of the then superintendent of the park to erect a house in which he could stay all winter. Meantime, however, that superintendent went out, and some other one came in, and when he came in there came over a mandate from the new superintendent to remove that house. The man himself was away working in the mines in some contiguous portion of the country. He was sent for, and while he was coming over from the place where he was at work—
Mr. EDMUNDS. Was that at Fargo?

Mr. PLUMB. I have a letter here which sets out exactly where it When he came he was notified that he must leave. in the fringe of the winter. He protested against it, said he could not go away from there. He pleaded, but they told him he must leave. They took his family and every particle of furniture out of his house and burned his house down within his sight, and sent his family one way and him another. His captors took him a journey of more than 500 miles, during which his feet, his hands, his ears, and other portions of his body were frozen. He was cast into a cell in that condition, and is to-day permanently crippled by reason of that transaction.

Mr. VEST. I ask the Senator under whose administration as super-

intendent that was done?

Mr. PLUMB. I said that was done in 1884.

Yes. Mr. VEST.

Mr. PLUMB. The Senator did not need to remind me that I was characterizing a former administration. I undertake to say they are all tarred with the same stick. Whether the man in charge now is any better as an individual, I do not know; but the system is such that that kind of despotism is bound to characterize any administration of the affairs of that park. It all ought to be lopped off; it ought to be put temporarily in the hands of the War Department or somebody else, except the men in whose charge it is now and who have had charge of it heretofore, until we can devise some plan whereby we can save the curiosities that are worth saving in that great tract of land and turn the balance over to the public as a portion of the public do-main. The Senator from Massachusetts of course has this piece of land, that he never saw, very much at heart.

Mr. DAWES. I have spent a summer there.

Mr. PLUMB. That may account for some things I have heard about

Mr. VEST. I ask the Senator from Kansas if he does not really want that park broken up? Is not that his idea and his ultimate ob-

Mr. PLUMB. I do not know that I am required to answer that ques-I do not know that that is an indictable offense, but yet the lowering brow of the Senator from Missouri presents to me the idea that perhaps he would indict me right now. I do not know that it is an offense to want the park broken up. I can say that the whole area, however useful it might be, is not compensation for the outlay or for what has been done within its limits and under the charge under which the park is to-day maintained.

I would regard it as a blot on our civilization to maintain that sort of organization which subjects an American citizen to the outrages that man was subjected to, and which would procure the issuance of an order whereby the traffic necessary to the maintenance of the business of that section of country, to the support of the people who have gone on the public lands, should be subjected to the outrage of being required to substitute wagons having tires 4 inches in width for those of the or-

dinary width.

I never was there myself that I know of, though I have been in that section of country many a time. I know there are great objects of interest in all that mountain region. I know it is not possible for the Government to maintain them all. It may be wise to maintain a part of them, and I do not say that it is not. Those within the limits of the Yellowstone Park may have superior merit to deserve being maintained, but not by the interposition of rules of this kind and the erection of great monopolies which control the means of ingress and egress and the means of support while there.

Mr. BUTLER. May I ask the Senatof from Kansas what the annual appropriation for the support of that park is?

Mr. PLUMB. About \$40,000.

Mr. BUTLER. What is it likely to be?

Mr. PLUMB. The estimate this year was \$60,000 and the appropriation made in the bill, \$40,000, the same as last year. The Senator from Iowa corrects me. He says the estimate was \$100,000.

Mr. GEORGE. I should like to ask the Senator from Kansas a ques-

What is the monopoly that exists there?

Mr. PLUMB. These people have-and that I do not complain of, as it was a thing that perhaps was inevitable-a monopoly of the right to build hotels; that is to say, they have a lease of all the places where hotels can be built. Practically by that means, and especially by means of the order to which I have alluded that they have obtained, they have control of the means of ingress and egress, and they are the only persons who can authorize anybody to bring his trunk in the park, or his own body.

Mr. VEST. The Senator is entirely mistaken.

Mr. EDMUNDS. There is a Department order which regulates the matter.

Mr. PLUMB. So this letter states, and I have heard it from other sources

I know the Senator from Kansas does not want to make a statement which is absolutely without foundation. The Senator is utterly mistaken when he says there is any monopoly as to transportation in that park. The lease was made with the company that built the hotels there at the different points of interest. The former hotel company having failed and gone into bankruptcy was succeeded by another; and the lease to this last company expressly provides that there shall be no monopoly as to transportation.

The Secretary of the Interior did me the honor-to send for me and submit that lease to me, knowing the interest I had taken in the park, and I scanned every line and word in it closely, and I am confident in the assertion that there is no such thing. Any citizen of the United States can go into that park with his property in any way that he sees proper, and I positively assert, and other Senators who have been in the park will corroborate it, that you can go to Cinnabar and you can find a riding horse, a buggy, a wagon, or any sort of outfit you please; and to furnish such facilities is largely the business of the people living at Cinnabar; and there is not one particle or scintilla of foundation for the statement of the Senator.

Mr. DAWES. I spent ten days there, and traveled through every part of the park that I desired to go to without having to call upon this hotel organization at all. I took a team into the park, went everywhere I pleased, and built my own fires, with the company I was with, and we maintained ourselves there independent of the hotel company.

Mr. PLUMB. A United States Senator can do a great many things

out there which a private individual can not.

Mr. CHACE. When was this order issued?

Mr. PLUMB. It was issued very recently. I can explain it in a moment. Mr. CHACE.

Mr. PLUMB. This question of monopoly, in the first place, grows out of the fact that there is a monopoly of all hotel facilities; and I say that can not be helped. Therefore I do not speak of it except as that which is inevitable in connection with the park. I do not speak of it to blame anybody. But that to a large extent results in the control of the means and facilities of ingress and egress. I do not say a person might not take his own wagon in; but he does not generally go there Persons going there are necessarily dependent with his own wagon. on the means of public transportation, and those have passed into the control of the persons who own the hotel sites and the hotels.

In the next place, if there is anything necessary to make a monopoly it would be this regulation providing for the width of the tires. There is not a wagon not constructed to order in the United States probably with that width of tire.

Mr. BUTLER. Who makes that regulation?
Mr. PLUMB. The Secretary of the Interior on the request of the superintendent. I only speak of that to illustrate to what proportion a man will go when he gets into that country and how completely the question of public convenience or private convenience is subjected to a man's ideas of his own importance and responsibility as having the care of the Yellowstone Park. Regulations of that kind which are offensive and which are destructive of the liberty of the citizen who visits this place are simply the outgrowth of the remoteness from control and the inevitable surroundings of that place.

For these reasons, even though the regulations should be modified further, the park itself ought to be placed under a different control; some change ought to be made whereby these exactions and similar ones shall be removed. If it is to be a park for the people of the United States and not simply for certain favored people, then the law ought to provide certain regulations which will bring about that result. I of course undertand very well that to the men who go to the Yellowstone Park from the Senate or the House it is open sesame, and I suppose they could board there free if they wanted to do so.

The general genuflection which ensued at once on the appearance of a United States Senator having legislative authority over the Hot Springs when we arrived there, I suppose, is repeated at the Yellowstone Park. I do not want that park kept up for any such purpose. I want the park put in such shape that the people of the United States at large, the poor people as well as the rich, anybody who has money enough to get to the borders of it, may go into it freely and freely see whatever is there to be seen, and enjoy himself just as much as the rich people do who may go there,

When I spoke of what occurred in 1884 it was for the purpose of showing that in what I have said there is no reflection on this administration as against the other administration. When I say "administration" I mean administration of the park, not administration of

national affairs. It has been one tissue of trouble, of outrage, of monopoly from the beginning.

I appreciate the labor which the Senator from Missouri gave to this

question a few years ago with the view of getting rid of the monopoly, but, as I said, he only got rid of one monopoly to saddle the park with another, and if we get rid of this one it will be saddled with still another one. To avoid it is beyond his power or the power of any individual. There must be some way of legislation not yet found out, or we shall have just the spectacle which has been existing there all the

Mr. DAWES. Mr. President, I spent some time in the Yellowstone Park and have taken a great deal of interest in it; indeed I think I

drew the bill that originally set it apart.

I have observed that those who complain of its management most are those who before they get through with their complaints disclose the fact that they want it put to other purposes. I have had those come to me who complained of its regulations and suggested improvements, and who before they left disclosed the fact that they thought the park ought to be open to be appropriated as a part of the public domain of the nation; that they were sick of the setting apart of this region of country for any such public purposes; that it was a part of the public domain and ought to be the common property of all the people.

That is the animus. I do not say it is on the part of the Senator from Kansas, for the Senator confesses it; but those who have pressed upon us most this view of the subject are the men who feel as if these guards that have been thrown around this region of country ought to be broken

down and done away with at once.

In going about the park I saw many things that I thought could be I saw a kind of monopoly which had been got up there or attempted to be got up by the hotel people to secure the custom of every-body who went in there. When I came back I represented it to the Interior Department, and that feature passed away. There are a great many things that can be improved there; but, as the Senator from Kentucky very forcibly put it, is that any reason why we should abandon this wonderful region of country? There is a region of country 50 or 60 miles wide and as many or more miles long, that is good for nothing as a part of the public domain; it can be utilized in no way for farming purposes, in no way for grazing purposes, in no way that the ordinary public domain can be appropriated, but it is filled with wonders, the like of which-

Mr. GIBSON. Allow me to ask a question. Is the privilege of keep-

ing a hotel in the park confined to one person?

Mr. DAWES. I will tell the Senator what I believe is the fact. The Senator from Colorado [Mr. Teller] will be likely to tell him more accurately than I can. We have fixed by law how much should be accurately than I can. leased for hotel purposes.

Mr. TELLER. If the Senator from Massachusetts will allow me, I

will answer the Senator from Louisiana.

Mr. DAWES. In a moment. I wish to say that this matter about the tires of the wheels is a simple matter of administration. We have spent a great deal of money in making very fine roads from one wonder to another, from one great geyser to one magnificent waterfall, and there are those who want to appropriate those roads as thoroughfares from outside to outside. I saw emigrant trains and I saw freight trains trying to utilize those roads, cutting them up in all ways. It was a part of the duty of the superintendent of the park to protect the roads against them. Perhaps he has adopted a method which is not wise; but if these roads are to be common thoroughfares that park ceases to be a home for the wild animals, it ceases to be a preserve for these wonders. It must be kept.

There are people here trying to get a railroad run through it, and they come and before they leave the room of your committee they will say, "We do not think it ought to be a park; it mad better be done away with," and they appropriate as they can its wonders. They want to We do not think it ought to be a park; it had better be done away be let in upon the great mammoth springs and the great geysers, the like of which are nowhere to be found in the world, where a magnificent column of boiling hot water is sent up 180 feet in the air once in fifty-eight minutes as regularly as the clock strikes the hour. magnificent natural wonder as that is worth more than dollars and cents; and the longer we keep this wonder the more we shall esteem and prize it. It has got to go through a season of hostile attack; but if it can survive these attacks a few years there will be nobody found in either branch of Congress who will not gather around it a solicitude and a care that is commensurate with that wonder. It has got to be worked up so that everybody can approach it.

It is true that the difficulty of traveling through it now is so great that everybody can not afford the expense of going there; but it is these very roads that are to be constructed, it is the idea of having hotels there at proper points that poor people can avail themselves of that was in the mind of those who made the law putting the park in the hands of the Secretary of the Interior to prescribe rules and regulations. The prices for the articles on the tables of the hotels and for the use of the teams are fixed by the Interior Department here. They must be fixed somewhere, or the natural grasp and greed of a man anywhere to grasp and monopolize all he can will produce the condition of things suggested by the Senator from Kansas. More solicitude and anxiety in administration, not less, is what is called for in reference to this great wonder

of the world.

Mr. TELLER. I should like to say to the Senator from Louisiana [Mr. GIBSON] who inquired if there was any monopoly that there has not been any hotel monopoly in the park. That falsehood has been not been any hotel monopoly in the park. That falsehood has been repeated over and over again in the public prints, and once or twice on this floor. There never was an hour that anybody living had the absolute control of the hotel interest in the park.

Mr. PLUMB. Does the Senator refer to charges on the floor here?

Mr. TELLER. It was charged on this floor that the hotel company had occupied the only places where a hotel could be built in the park, when every man who was familiar with it knew that there were five hundred places just as eligible as the place that they occupied.

The Secretary of the Interior was charged with the management of this park by the act of Congress. In the absence of the Secretary of the Interior the Assistant Secretary made a contract with the hotel company that they should have the exclusive privilege of putting up I was then Secretary of the Interior, and when I returned, I being at that time absent in the West, I declined to carry out the contract on the ground that there was no legal authority in the Secretary of the Interior to make such a contract, and there never was under the statute. If such a contract had been made it would have been a nullity as to the clause, there is no doubt. So the lease was not signed by the Secretary for that reason.

In the mean time, either in an appropriation bill or somewhere else, there was a provision put that there should be no exclusive control; and since that time, both by the late Secretary of the Interior, and I understand by the present Secretary, hotel privileges have been granted to every reputable and respectable person who has asked for them. There is no monopoly at all. The hotel business has not been profitable to the people who have gone into it, I think.

Now, as to the rule in relation to the 4-inch tire, I never heard of it I should think that was a bad rule to adopt. I do not know why it was adopted. It certainly was not in my time, and I think it probably ought to be annulled if any such rule has been made.

At one time it was claimed that the superintendent of the park, a Mr. Conger, I think then, had granted an exclusive privilege to some people to run carriages through the park. As soon as the attention of the Department was called to it that order of his was rescinded. It never had any force, but it was annulled at once. I understand ever since that time everybody has been at liberty to pick up a passenger outside and run him through the park whenever he saw fit. the rule now.

Mr. Marshall built a hotel, and other people have built hotels there. The great corporation that put in \$100,000 in a hotel broke up and turned it over to another corporation that I understand keeps up the hotel. The Interior Department fixes the rates of that hotel, and the prices are largely below the prices at any watering place in the United States, less than the New York watering places, less than all the watering places in Colorado and in other States. I do not believe anybody who has gone there has any reason to complain of any monopoly what-

Whether it is a wise thing to keep up the park is an entirely different question. There is one thing certain, if the park is to be kept up you have to appropriate more than \$40,000 a year to do it properly. It never can be done for that. I do not know that it is worth while for the Government to attempt to keep up such a thing for the few people that go there; but if the Government intends to do it there should be liberal appropriations. To turn it over to the Army is in my judgment to practically destroy the park. I am inclined to think that I shall vote, if the matter is fairly presented, that the United States abandon any control over the park except the small points where these large geysers and other things are. I believe that to be the proper thing to do.

Mr. McPHERSON. Unless it is the intention of the Senate to remain here all summer, it is well that we should consider what we are We have settled almost every point in dispute about all the appropriation bills, and a single bill is now before us with four or five points in dispute. According to the statement made by the chairman of the committee and also by the Senator from Kentucky there are four or five items of dispute which it is impossible for our committee to surrender.

The public interests demand that provision should be made for the sane. They demand that the Pension building should be improved. It is important that the surveys should be continued. Now if I understand the duty of a committee of conference, it is that an agreement may be reached, if possible, between the disagreeing votes of the two Houses. The very name implies concession, compromise.

Now it is proposed by the Senator from Missouri to keep in this bill the only point in dispute which it is apparent to my mind might be surrendered by the Senate without injury to the public, because it is proposed to place the responsibility and duty upon the Secretary of War. I do not suppose the Secretary of War would consent for a single moment to have the game in that park disturbed. I suppose the Secretary of War would detail a military force from the great number of military stations where soldiers are quartered, for no purpose in the world

that the public has in view. It is only a piece of caution. The Indians are comparatively quiet. We have five thousand soldiers in that vicinity, many of them unemployed. The forces in the park to-day are sufficient and ample; the quarters provided for the officers and men are ample; and it is perfectly absurd to suppose for a single moment that a soldier, drawing rations from day to day, requiring no particular appropriation to preserve the park, could not with equal ease do ex-

appropriation to preserve the park, could not with equal ease do exactly what it is proposed to do by the \$40,000 appropriation.

If I believed for a single moment that by surrendering this item the public service would be damaged, I would not do it. I do not yet know that it is necessary to surrender it; but I am told by the committee that of all the things in dispute it is that thing which may be surrendered, at least their language so implies, without injury to the public service. And if some concession be needed, as I think some will he needed, then is it not a thousand times better for us not to obtain be needed, then is it not a thousand times better for us not to obtain the judgment of the Senate in substance instructing the committee so that there can not be a full and fair conference on the points in dispute because one of the points has been eliminated from the dispute and the Senate takes the responsibility of instructing the committee as to that.

There can not be such a thing as a full and free conference when you

Instruct the committee in regard to one point, and that the least important, the point of least consequence of all the points in dispute between the two Houses. I am in favor of the Yellowstone Park; I am in favor of preserving it, maintaining it, improving it, and of making such liberal appropriations of money as may be needed for that purpose; but I understand this appropriation does not involve its preservation. It involves its maintenance, its guardianship, its projection. If that can be done by the War Department without any additional expense to the Government, why not do it, and why instruct the committee in such a way that we shall be compelled to remain here for a week longer perhaps simply to decide as to a little point like this in the only, single, and last appropriation bill there is to be acted on by the Senate?

Mr. VEST. If the Senator from New Jersey—and I have no reason to question it—desires this park to be maintained, then he is utterly mistaken as to the effect of placing it in the hands of the War Department. I affirm from my own personal knowledge of the character of soldiers and the work to be done in the park that they can not perform it. It requires mountaineers; it requires huntsmen; it requires men who can use snow-shoes, who know the paths and roads of the mountains; and to put it in the hands of the United States Army is simply to throw it open to the public and allow anybody to go in there and kill the game and destroy the objects of curiosity and interest throughout the park. We know the character of the men in the regular Army of the United States. There is one of them now acting as assistant superintendent, and I received a letter from the superintendent of the park, who has attempted time and again to have this man removed-two days ago I received a letter in which he says that he has now with one exception the best force of assistant superintendents that could be selected anywhere in this whole country. More than that, the government of the park today is in better condition than it ever has been-infinitely better. One of the assistant superintendents reported to the superintendent, as I am informed in his letter, that ten days ago a band of two hundred elk were found within 5 miles of Mammoth Hot Spring, and the antelope can be seen even at this season of the year all over the park. The small bison, which exists nowhere else on this continent except in that park, are increasing in number.

I know where all this talk about monopoly and Senatorial privileges and the extraordinary privileges of Congressmen comes from. I have been notified time and again that unless I withdrew my opposition to the Cinnabar and Cooke City Railroad that park would be broken up. There is a lobby here, in which newspaper men and others are engaged, who are assailing Senators and attacking private character, making infamous charges; and these men are in the employ of the speculators who seek to run a railroad in the park and break it up and destroy it forever; and this is one of the means used to force Congress to allow that railroad to go through. I have been told that if I did not permit the railroad bill to pass through Congress not a dollar should be given to the protection of the park, and that the act incorporating it should finally be repealed. That is the meaning of this whole thing.

Now, Mr. President, let us look at the real truth in regard to this monopoly and to these legislative and Senatorial privileges, this cheap talk thrown in here for the purpose of prejudicing the public against the Yellowstone National Park, as if it belonged to certain individuals. Why, Mr. President, last summer a member of the House of Representatives was arrested and fined \$100 in that park-a gentleman who is now a member of the House of Representatives. That does not look very much as if they paid special attention to position and official dig-nity. And I affirm here now positively that there is no monopoly in that park, unless you call it a monopoly to permit certain persons to put up hotels at different places of interest. The Senator from Colorado referred to the fact that statements had been made here some years ago in regard to a lease that gave exclusive privileges. I did speak on this floor of a lease.

Mr. TELLER. It never was signed.
Mr. VEST. I know it was never signed. I was about to state that there was a lease drawn up and about to be signed that did give a mo-

nopoly both of transportation and hotel privileges, but I offered a resolution in this body which stopped the signing of that lease, and it never went into effect. Afterward I drew a law which prohibited more than ten acres of ground to be leased to any one corporation or individual. I was unfortunate in the language used in that law, and the Interior Department so construed it as to cut up the ten acres into ten different tracts and lease them to the same corporation. That was not the intention of Congress, but that was done. That company went into bankruptcy, and last summer there was great complaint because there were no hotels in the park and persons were forced to camp out. They built a large hotel at the Mammoth Hot Springs, which was seized by the mechanics for their pay that was due them and held for some time, and it anally went into the hands of a receiver; but this new company are now putting up hotels at the different points of interest in the park and putting them under leases so severe that there is no possibility of anything like imposition being practiced upon the public.

As to the order of which the Senator from Kansas spoke in regard to

the width of the tire of wagon wheels, I never heard of it before to-day, but I have no question that it was made in order to protect the roads which have been constructed by the United States and which were being cut to pieces by the heavy ore wagons from Cooke City to Cinnabar. I will undertake to say that upon examination it will be found to be an order that is right, and that the Government is simply protect-

ing its property.

The Superintendent there to-day is an honest man and a vigilant officer. The game has increased in the park, and with no law at all, because Congress has failed to pass any law, by his own strong will and good judgment he is a law himself to all disorderly and lawless persons

within the territory of the national park.

Now, sir, if Congress wants to abandon the park, let it do so openly and plainly. I am willing to meet that issue. If bad orders have been made there the Secretary of the Interior can rescind them. He has no interest in this matter except as a citizen of the United States. I have endeavored to do my duty, and simply and only my duty, and I ask this vote in order that the Senate may say now whether they propose that this park shall be continued or not, because I do positively declare that if the House conferees are able to hold their position and to cut off these salaries and this amount for contingent expenses and put this park into the hands of the military, it is but another form for repealing the act which created the park itself.

Mr. CALL. Mr. President, I hope the Senate will insist upon adhering to the provision it inserted in the bill for the protection of the

Yellowstone National Park.

To talk about monopolies being protected by reserving the control of any portion of the public domain in the Congress of the United States for the benefit of the people of the United States without distinction, is certainly a very singular contradiction of terms. To make a thing private property instead of retaining it as public property, in order to prevent monopoly, simply indicates that Congress or the Government can not be trusted to protect the people.

I am in favor of preserving whatever portions of the public domain may minister to the delight and pleasure of the people of the United States as public property for their benefit, and particularly this great park, the Yellowstone Park, with all its natural and magnificent feat-I know of no object of public policy that will be more important when this country shall have one hundred millions of people and transportation be cheap and at the command of the people everywhere, than to preserve this great natural curiosity for all the people of the United States

When the Senator from Kansas speaks of some man having been arrested and treated with cruelty, he only condemns us and condemns the administration that has not followed up and found out the perpetrators of that offense. It has nothing to do with the preservation of this park for the people of the United States. To destroy it, to make it private property, would be to create a monopoly, and a most wicked monopoly, of that which ought to belong to all the people of the United

Another very singular feature is that, with all the talk about legislation on appropriation bills, after Congress has solemnly dedicated this park to the people of the United States and pledged itself that it should be so governed that it would inure to their advantage and their pleasure, here at the very last hours of the session, when we ought to be at home, it is insisted, without any examination, without any opportunity for consideration, that those laws shall be in effect repealed by a

nity for consideration, that those laws shall be in effect repealed by a simple provision upon an appropriation bill, and the whole turned over, without any adequate appropriation, to the Secretary of War.

Sir, I am not one of those persons who object to general legislation upon an appropriation bill under proper circumstances, when there is time to consider it. An appropriation bill is just as good a method of legislation as any other, in my opinion. But when it is brought in suddenly, without opportunity of examination, and it is proposed to reverse and repeal the whole antecedent legislation of the country, there is certainly a serious objection as to the time and the manner in which

this is to be done.

I agree with the Senator from Missouri. It would be highly criminal, in my opinion, in this body at this moment, to do away with all

the past legislation respecting this park, whether it were good or bad, and hastily turn it over to the War Department without adequate provision for it

Mr. ALLISON. I offer the following as a substitute for the proposition of the Senator from Missouri [Mr. VEST]:

Resolved. That in the opinion of the Senate the committee of conference should insist upon the usual appropriations for all branches of the public service, and should recede from all amendments of the Senate proposing changes of existing legislation or unusual items objected to by the House conferees.

Mr. MANDERSON. I ask that the motion of the Senator from Missouri be read, and then the amendment of the Senator from Iowa. The PRESIDENT pre tempore. The Senator from Missouri moves that the Senate recede from its amendment in respect to the Yellowstone Park. This is offered as a substitute for that proposition.

Mr. VEST. I did not catch the proposition of the Senator from Iowa.

Is it substantially the same?
The PRESIDENT pro tempore. The resolution will be again read. The Chief Clerk read the resolution of Mr. Allison, as follows:

Resolved, That in the opinion of the Senate the committee of conference should insist upon the usual appropriations for all branches of the public service, and should recede from all amendments of the Senate proposing changes of existing legislation or unusual items objected to by the House conferees.

Mr. PLUMB. I should like to have the Senator from Iowa explain the items which are now in dispute between the two Houses that are unusual or that change existing law. With me it is simply a question of what we get or what we lose, as far as my action is concerned. If the House has put legislation on appropriation bills that has never been the subject of objection here, or at all events that the Senate has undertaken to amend, why object now? The House may accept and has often accepted our amendments to such provisions. We had a very noted case up the other day about silver certificates where the Senate amended a House provision. The objection does not lie to legislation as legislation.

Mr. ALLISON. This is a mere declaration to enable the conference committee to have a guide respecting the judgment of the Senate. For instance, suppose the House propose a change of law and the Senate does not agree to it. This is simply a declaration that the House ought to recede from its proposed change of law. Suppose the Senate has proposed a change of existing law. This is a declaration that if the House do not agree to it, we ought to recede.

Mr. PLUMB. What legislation did the Senate put on this bill other than the stenographers for the instiges of the Supreme Court?

than the stenographers for the justices of the Supreme Court?

Mr. ALLISON. I think the whole provision about the Coast Survey, where the House proposed to make an entire change, was legislation.

Mr. PLUMB. Is there any legislation put on this bill by the Senate

to which the House objects, other than providing stenographers for the judges of the Supreme Court?

Mr. ALLISON. That is not legislation, strictly speaking.

Mr. PLUMB. Are they authorized now to have stenographers?
Mr. ALLISON. They are if we appropriate for them as the Senator from Maine says. It does not require a special faw to make stenograhers if we appropriate the money.

Mr. HOAR. I wish the Senator would strike out the words "unusual items;" they are liable to be very much misunderstood.

Mr. ALLISON. I will strike out the words "or unusual items."

Mr. MANDERSON. I wish the Senator from Iowa would explain how he would consider himself instructed as one of the conferees with respect to the subject-matter that seems to be in dispute this morning in regard to the Senate amendment as to the Yellowstone Park appropriation, and how are we to construe that section in reference to this matter?

Mr. ALLISON. I would not consider myself instructed at all by

that resolution.

Mr. HOAR. Let the resolution be read as it now stands.

Mr. ALLISON. I withdraw the amendment I proposed. I do not want to have any more discussion. I think it raises new questions

which I do not desire to have discussed.

Mr. PLUMB. I wish to call attention to what I believe to be the only legislation upon the subject of the park which it is said we are to make appropriations to carry out, certainly all that has been passed in the last few years, and that is found on page 626 of the statutes of

For the protection and improvement of the Yellowstone National Park: For every purpose and object necessary for the protection, preservation, and improvement of the Yellowstone National Park, including compensation of Superintendent and employés, \$40,00,\$2,000 of said amount to be paid annually to a superintendent of said park and not exceeding \$900 annually to each of ten assistants, all of whom shall be appointed by the Secretary of the Interior, and reside continuously in the park and whose duty it shall be to protect the game, timber, and objects of interest therein; the balance of the sum appropriated to be expended in the construction and improvement of suitable roads and bridges within said park, under the supervision and direction of an engineer officer detailed by the Secretary of War for that purpose.

I do not understand that that was a continuing approximation. It did not

I do not understand that that was a continuing provision. It did not create these offices except for the year for which the appropriation was made. Succeeding that is a paragraph which the Senator from Missouri I think drew, and under which leases are made now:

The Secretary of the Interior may lease small portions of ground in the park, not exceeding 10 acres in extent for each tract, on which may be erected hotels

and the necessary outbuildings, and for a period not exceeding ten years; but such lease shall not include any of the geysers or other objects of curiosity or interest in said park, or exclude the public from the free and convenient approach thereto; or include any ground within one quarter of a mile of any of the geysers, or the Yellowstone Falls, nor shall there be leased more than 10 acres to any one person or corporation; nor shall any hotel or other buildings be erected within the park until such lease shall be executed by the Secretary of the Interior, and all contracts, agreements, or exclusive privileges heretofore made or given in regard to said park or any part thereof, are hereby declared to be invalid; nor shall the Secretary of the Interior, in any lease which he may make and execute, grant any exclusive privileges within said park, except upon the ground leased.

So the tes fermantly

So that so far as the House provision is concerned it is not legislation any more than the Senate provision is legislation. There is nothing so far as the management of the park is concerned except to appropriate money to authorize a superintendent and assistants to be present there for the purpose of carrying out the orders of the Secretary of the In-

Mr. MANDERSON. I ask the Senator from Kansas whether it is not the fact that the Superintendent of the park and his assistants or policemen have continued in charge of the park year after year under

provisions in the appropriation bills?

Mr. PLUMB. They have been there every year, because there has been an appropriation every year for their payment, but I do not understand the provision which I have read, which is the only one I know of, to be a continuing provision. In other words, there would be no office there if there was no appropriation.

Mr. MANDERSON. Then would not the result be if the Senate amendment to this bill should not be passed, there would be a complete abandonment of anything like government of that park?

Mr. PLUMB. I think not, because the House provision provides for putting it under the control of the Secretary of War in the immediate charge of an engineer officer. What would undoubtedly happen in that case would be that a military post would be established there with soldiers around it, as everybody knows.

Mr. VEST. I beg the Senator's pardon. That is not the provision. The House simply appropriates \$20,000 for roads and does nothing else. The result of that would be that unless the Secretary of the Interior, under the original act, which established the park, should call upon the

under the original act which established the park, should call upon the Secretary of War for troops, there would be no troops there. It is not put under the charge of the Secretary of War.

Mr. MANDERSON. Even if there were troops there, there would

be no method by which depredators could be arrested and taken to

Mr. PLUMB. The appropriation bill of 1883 further provides:

The Secretary of War, upon the request of the Secretary of the Interior, is hereby authorized and directed to make the necessary details of troops to prevent trespassers or intruders from entering the park for the purpose of destroying the game or objects of curiosity therein, or for any other purpose prohibited by law, and to remove such persons from the park if found therein.

That provision is a continuing provision, and it will be enforced whether we make any appropriation or net, and that is the only one which in my judgment is effective for the purpose of preventing tres-

passes, and that will go on just the same as before.

Mr. VEST. But it is manifestly obvious that it was not the intention of Congress that the Secretary of War of his own motion or judgment should send troops there. We provided that the Secretary of the Interior should have control over the park, and that clause which the Senator has just read I drew, and it means this and nothing more, that if the Secretary of the Interior with his superintendent and ten assistants was not able to construct the secretary. ants was not able to cope with the marauding parties who were then going into the park to destroy game, he could call on the Secretary of War for troops, but the Secretary of War has no soldiers there, and there has been no such thing as that done. The construction put upon that clause was not what the Senator from Kansas says.

Mr. PLUMB. Under the provision of the House the natural and obvious result would be that the Secretary of War would establish a small post there under the charge of an engineer officer, and that post would have more or less soldiers just as the Secretary of War made the numhave more of less solders just as the secretary of war made the infinite regreater or smaller, and those men would perform the offices of police, and I think do it more effectively than it is done by civilians and of course a great deal cheaper to the General Government than to have to pay from \$40,000 to \$100,000 a year for administration.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Missouri that the Senate recede from the amendment.

Mr. VEST. I make the motion that the Senate recede from the amendment in regard to the Yellowstone Park in the hope that it will be voted down. A negative vote is a vote in favor of the Senate amendment; an affirmative vote is a vote for the House provision.

Mr. INGALLS. Why not make it clearer by moving that the Senate insist?

Mr. VEST. I have no objection to that.

Mr. MANDERSON. I hope the Senator from Missouri will change his motion and move that the Senate insist.

Mr. VEST. Very well, I do so.

The PRESIDENT pro tempore. The Senator from Missouri now moves that the Senate insist on its amendment in respect to the Yellow-The Senator from Missouri now stone Park

The motion was agreed to.

Mr. ALLISON. That was included in my motion. I move to insist on all the Senate amendments to the bill.

The PRESIDENT pro tempore. The Senator from Iowa moves that the Senate insist on its amendments to the bill disagreed to by the House of Representatives.

The motion was agreed to.

Mr. ALLISON. Now I move that the Senate ask for a further conference with the House of Representatives on the disagreeing votes of the two Houses.

The motion was agreed to.

By unanimous consent, the President pro tempore was authorized to appoint the conferees on the part of the Senate; and Mr. Allison, Mr. HALE, and Mr. BECK were appointed.

REPORTS OF COMMITTEES.

The PRESIDENT pro tempore. Reports of committees are in order.
Mr. BLAIR. Is it in order now to move to proceed—
The PRESIDENT pro tempore. The morning hour is not yet concluded. By one construction it will be over in fifteen minutes.

Mr. BLAIR, from the Committee on Pensions, to whom were re-ferred the following bills, reported them severally without amendment, and submitted reports thereon:

A bill (H. R. 9129) granting a pension to Rebecca Wiswell; A bill (H. R. 7988) granting an increase of pension to Bryant Waters; A bill (H. R. 8180) to increase the pension of Charles Hahneman;

A bill (H. R. 7696) for the relief of George W. Robaugh.

Mr. PLUMB. I am directed by the Committee on Public Lands, to whom was referred the bill (H. R. 3280) to restrict the ownership of real estate in the Territories to American citizens, and so forth, to report it with an amendment. I will state concerning that bill—
Mr. BLAIR. I hope the Senator will not take much time. I want

to get up one of the pension matters. I object to debate. I have only ten minutes in which to make my motion, but I will not insist on the

The PRESIDENT pro tempore. Reports of committees are still in

Mr. SPOONER, from the Committee on Claims, submitted the follow- .

The Committee on Claims, to whom was referred the petition of George Brown asking pay for property taken by the United States Army in 1862, have carefully considered the same, and, in accordance with the resolution of February 7, 1884, report as follows:

That they have referred the same to the Court of Claims under the provisions of an act entitled "An act to afford assistance and relief to Congress and the Executive Departments in the investigation of claims and demands against the Government," approved March 3, 1883.

BILLS INTRODUCED.

Mr. GIBSON introduced a bill (S. 2886) for the relief of the heirs of John R. Temple; which was read twice by its title, and referred to the Committee on Claims.

He also introduced a joint resolution (S. R. 81) making an appro priation for the construction, repair, and preservation of certain pub! works on rivers and harbors, and for other purposes; which was read twice by its title, and referred to the Committee on Commerce.

PAPERS WITHDRAWN AND REFERRED.

On motion of Mr. SHERMAN, it was

Ordered, That the petition of Capt. John Condon in regard to the jetties at the mouth of the Mississippi River, now before the Committee on the Judiciary, be at his request returned to him.

On motion of Mr. HAWLEY, it was

Ordered, That the manuscripts of a compilation of the internal-revenue laws by Daniel R. Goodloe be withdrawn from the files of the Senate and referred to the Committee on Printing.

SOLDIERS' HOME ACCOUNTS.

Mr. SEWELL submitted the following resolution:

Resolved. That the Secretary of the Treasury be directed to furnish the Senate at the next session of Congress an estimate of the amount due the Soldiers' Home on the books of the Treasury Department, said estimate to be based on amounts already ascertained for certain years, allowing for increase of number of men and increase of pay and bounties during and subsequent to the war.

Mr. PLUMB. I should like to ask a question of the Senator from New Jersey about that matter. We have appropriated money every year for a number of years-

Mr. BLAIR. Is it in order to object to the resolution?

The PRESIDENT pro tempore. It is.

Mr. BLAIR. I object to the consideration of the resolution.

The PRESIDENT pro tempore. The resolution goes over.

Several SENATORS. "Regular order!"

The PRESIDENT pro tempore. The Chair lays before the Senate a resolution that comes over under the rule.

CONSIDERATION OF HOUSE BILLS.

The resolution submitted by Mr. BECK on the 31st of July was read, as follows:

Resolved, That at the next meeting of the Senate, after the routine morning business is disposed of, the Senate will proceed under the provisions of Rule VIII to the consideration of bills which have passed the House of Representatives and have been reported favorably by the Senate committees.

Mr. BECK. I hope there will be no objection to that.

Mr. BLAIR. Is that a resolution that comes up necessarily?

The PRESIDENT pro tempore. It is a resolution that comes over under the rule.

Mr. BLAIR. Well, sir-

Mr. MILLER. I rise to a point of order. This resolution changes the rules of this body. It does not give notice of any such change at

all. It is a simple resolution. I make that point of order against it.

The PRESIDENT pro tempore. The Chair is of opinion that the resolution of the Senator from Kentucky is faulty in not having specified

the rule it proposes to change.

Mr. BECK. Perhaps so; I do not know. I had it lie over one day, and I thought that was enough. I want to take up the House bills that have been passed by that body and reported favorably by our committees, so as to do something.

Mr. BLAIR. I desire action on a few of the vetoed pension cases. I insist on my motion, if it is in order, to take up Order of Business

1630, Senate bill 2005.

The PRESIDENT pro tempore. The Chair thinks the resolution of the Senator from Kentucky is not in compliance with the rules, as it does not specify the rule which it proposes to change.

Mr. BECK. Very well; let it go over.

CONSIDERATION OF THE CALENDAR.

The PRESIDENT pro tempore. The Chair lays before the Senate a resolution that comes over under objection.

The following resolution, submitted by Mr. EDMUNDS on the 31st

of July, was read:

Ordered. That on Monday, August 2, subject to conference reports and action thereon, the Senate will, immediately after the strigt morning business, proceed to matters on the Calendar at No. 1565 and proceed therewith in order. The five-minute provision of Rule VIII shall apply to debate, and one objection shall be sufficient to pass the matter over, retaining its place.

Mr. MILLER. I make the same point of order on that.

The PRESIDENT pro tempore. The Chair is of opinion that the same point of order will lie to that.

Mr. EDMUNDS. I think it will, but I expected to get general consent at the proper time. It may as well be ruled out of order.

Mr. BECK. The Calendar is in order.

Mr. BECK. The Calendar is in order.
The PRESIDENT pro tempore. It will be at 1 o'clock. The Chair lays before the Senate another resolution that comes over under the

RELATIONS BETWEEN LABOR AND CAPITAL.

The following resolution, submitted by Mr. BLAIR on the 31st of July, was read:

Resolved. That the Committee on Education and Labor be directed to continue, with a view to its completion during the ensuing vacation, the investigation of the relations between labor and capital authorized and directed by Senate resolutions of August 7, 1882, and February 26, 1883, with the same rights and powers conferred by previous resolutions of the Senate.

Mr. BLAIR. I do not wish that considered now, but I do not desire it to lose its rights.

The PRESIDENT pro tempore. The resolution must take its place on the Calendar.

Mr. BLAIR. Very well.

INTERNATIONAL USE OF SILVER COINAGE.

The PRESIDENT pro tempore. Another resolution comes over under

The following resolutions, submitted by Mr. EVARTS on July 31, were

read:

Resolved, That the President be requested, if he shall deem it compatible with the public interests, to open a correspondence with the principal commercial powers of Europe with the view of ascertaining their estimate of the effect now operating upon commercial exchanges, and the values of commodities therein exchanged, by the great fall in silver bullion and the disuse of free silver coinage, which date, progressively, from the demonetization of silver by Germany in 1873. And, further, by such correspondence, to ascertain whether such powers or any of them are disposed, separately or in concert with others, either with or without the United States, to engage, either by domestic regulation or international convention, in any movement toward the restoration of parity between gold and silver in full function as intrinsic money, upon a ratio to be established by law.

Resolved, That the President be requested, if he shall deem it compatible with the public interests, to lay this correspondence before Congress at its next session.

Mr. EVARTS. Mr. President—
Mr. BLAIR. I should like to inquire what the desire of the Senator from New York may be. Does he wish to have the resolutions considered at this time?

Mr. EVARTS. I desire them to be considered, and I hope they will be passed before the adjournment of the Senate.

Mr. BLAIR. Is it the desire of the Senator to submit remarks at this time?

Mr. EVARTS. I gave notice that I should make a few observations. Mr. BLAIR. I was not aware of that. I will yield.

Mr. EVARTS. Mr. President, as we all remember, a debate was opened early in this session having relation to the general condition of the currency, and especially of the silver coinage and its use as currency. Interesting speeches were made and various propositions were referred, as I understand, to the Committee on Finance. I had sup-

posed that during this session, either in the shape of some legislation which would come here from the House of Representatives or of some which might be introduced from a committee of the Senate, some action and some debate looking to action might properly come about. Although I had not announced in any manner that I proposed to take part in that debate, yet I had intended so to do, and I mention this now to foreclose any suggestion that I now desire to open any of those general considerations.

The resolutions I have offered have in my mind only relation to one situation, and that I think they should be applied to and usefully. As far as I can foresee, the very necessary consideration and an important one of coinage and currency will be a topic of first prominence in the next session of this body. I should have preferred that before the elections for the House of Representatives which are to take place this fall there had been a fuller consideration and deliberation, and that some conclusions should have been presented as the views of the two Houses of Congress, whether resulting in legislation or not, upon this great subject. But the session comes to a close without any settlement of ideas on the general topic, and I do not propose to open it now.

I have, however, thought that considerable progress has been made in the public mind on some matters on which there had been great dis-

parity and a good deal sometimes of harsh expressions. I believe a good deal has passed out of the minds of men as being the prominent topics to be dealt with as bearing upon the patronage of the silver mines or their products. I think a good deal also has passed out of at-

tention as to the necessary importance of the question of the payment of interest on the public debt in silver as by law it may be made.

The PRESIDENT pro tempore. The Senator from New York will pause for a moment. The hour of 1 o'clock having arrived, it is the duty of the Chair to lay before the Senate the unfinished business of

yesterday.

The CHIEF CLERK. "A bill (H. R. 4833) relating to the taxation of fractional parts of a gallon of distilled spirits."

Mr. ALDRICH. If the Senator from New York desires to proceed with

Mr. ALDRICH. If the Senator from New York desires to proceed with his remarks, I have no objection to the bill being laid aside informally. The PRESIDENT pro tempore. If there be no objection the pending bill will be laid aside informally to proceed with the consideration of the pending resolutions. The Chair hears no objection.

Mr. EVARTS. Therefore, as it seems to me, when the new session commences we shall be enabled to take up the question on what basis our currency in respect of the two metals and in respect of the paper money of the United States is to be made. Preparatory I have desired to ask the attention of the Senate to the position in which the matter was left by the conference of 1881. At the close of those deliberations four resolutions were presented as the concurrent views of the delegates of the United States and of France, and as the opinions, as they presented them, of the governments of those two great nations, not binding them, or either of them, but as a presentation of the conclusions to which they had concurrently come in view of the debates which had been conducted at large and also in the conference itself. As those resolutions are brief I will ask the attention of the Semte to them while I read them:

Mr. Evarts, on behalf of the delegates of France and of the United States of America, read the following declaration.

The delegates of France and of the United States, in the name of their respective Governments, make the following declaration:

1. The depreciation and great fluctuations in the value of silver relatively to gold, which of late years have shown themselves, and which continue to exist, have been, and are, injurious to commerce and to the general prosperity, and the establishment and maintenance of a fixed relation of value between silver and gold would produce most important benefits to the commerce of the world.

2. A convention, entered into by an important group of states, by which they should agree to open their mints to free and unlimited coinage of both silver and gold, at a fixed proportion of weight between the gold and silver contained in the monetary unit of each metal, and with full legal-tender faculty to the money thus issued, would cause and maintain a stability in the relative value of the two metals suitable to the interests and requirements of the commerce of the world.

of the two metals suitable to the interests and requirements of the commerce of the world.

3. Any ratio, now or of late in use by any commercial nation, if adopted by such important group of states, could be maintained; but the adoption of the ratio of 15½ to 1 would accomplish the principal object with less disturbance in the monetary systems to be affected by it than any other ratio.

4. Without considering the effect which might be produced toward the desired object by a lesser combination of states, a convention which should include England, France, Germany, and the United States, with the concurrence of other states, both in Europe and on the American continent, which this combination would assure, would be adequate to produce and maintain throughout the commercial world the relation between the two metals that such convention should adopt.

If I am at all right in thinking that the general judgment in France and the general judgment in this country concurs in those general practical resolutions, and that on that basis, if these nations or other nations are to pursue the matter of restoring by law the parity between the metals, that basis may be considered as prepared, and unless some good reason can be shown to the contrary will be the basis upon which such a combination will be made.

Now, coming to the close of this conference, the adjournment of the body took place upon this statement of the case:

The president read the following draught of resolutions:
The conference, considering that, in the course of its two sessions, it has heard
the speeches, declarations, and observations of the delegates of the states hereafter enumerated: Germany, Austria-Hungary, Belgium, Denmark, Spain, the

United States, France, Great Britain, British India, Switzerland, Canada, Greece, Italy, the Netherlands, Portugal, Russia, Sweden, Norway, considering that the declarations made by several of the delegates have been in the name of their

governments:

That these declarations all admit the expediency of taking various measures in concert, under reservation of the entire freedom of action of the different

in concert, under reservation of the entire freedom of action of the different governments;

That there is ground for believing that an understanding may be established between the states which have taken part in the conference;
But that it is expedient to suspend its meetings;
That, in fact, the monetary situation may, as to some states, call for the intervention of governmental action, and that there is reason for giving an opportunity at present for diplomatic negotiations;
Adjourns to Wednesday, 12th April, 1832.

Probably to the stage of possible agreement tending to what was always and everywhere admitted to be a desirable result as far as conference could go, we had then advanced; but the general opinion of the delegates of all these states was that an interval of a year might be and should be usefully occupied by diplomatic correspondence and bringing the governments themselves to a fair and frank statement of what they either would do or would not do, what they would desire to aim at or what they would not. Circumstances in the disaster to the President of the United States, President Garfield, and the interruption of representation in the administration of the State Department, among other reasons, probably rendered any movement during that year not serious or important. So, too, subsequently no great advance was made by this Government in that direction, nor was there an active movement on the part of any of the great powers in Europe. Great Britain was occupied with its do-mestic subjects which still engross its interest, and Germany was then occupied as well with knitting together the frame of the great imperial

occupied as well with kinting together the frame of the great imperial power which had recently been established.

Mr. President, all I seek by these resolutions is that in the interval between the adjournment now and the reassembling of Congress in December the executive government, if the President shall be so inclined and advised, may not enter upon any other or further negotiations than by correspondence, to ascertain, so that when we meet together we may know, whatever may be our wishes one way or the other, what responsible attitude toward this subject the great commercial powers of Europe are disposed to take. If their answers be in favor of concert with this or that degree of interest and this or that method of execution, very well, or if their answers be that they see no opportunity and no occasion for undertaking concurrent regulation either at home or abroad on the subject, then we meet in that situa-

I submit, after an interval of five years, since 1881 to the present time, if we shall be advised that there is no intent or purpose on the part of the foreign powers to enter into a redress of this divergence between the two metals, then we shall be confronted, and properly, with the practical question of what this nation proposes to do with it. Beyond that these resolutions do not go, nor do they carry any color. They ask simply as to the situation as it now stands in 1886, what the

disposition of these great powers is. In 1876, when the domestic commission of which the Senator from Nevada [Mr. Jones] was the chairman completed its examination and made its report, and when the English commission, occupied with somewhat the same subject, made their report, I do not think that I mis-represent the general attitude and feeling of all engaged in that inves-tigation as indicated in their reports when I say that the divergence between gold and silver was imputed in good part at least to the tem-porary and commercial reasons, and that the divergence would not per-sist, or certainly would not progress.

sist, or certainly would not progress.

The feeling undoubtedly in Europe when the conference of 1881 was The feeling undoutedly in Europe when the conference of 1881 was brought to a close did not contemplate a continuous and persistent divergence between these two metals; but it is now evident from the largeness of the divergence, from its progress, and from its persistency, that it is not to be attributed to circumstantial incidents in the production of the two metals or in the exchanges of commerce.

I may perhaps not receive the entire concurrence of the Senators in expressing my opinion that the only fact and act which has substanexpressing my opinion that the only lact and act which has substantially disturbed the parity which was maintained for so many years without conventions between the two metals was the intervention by positive act of Germany. Germany intervened first in 1857, and in the opposite direction. The immense development of gold, as we remember, had led speculative and scientific observers of the subject to a conclusion that an inundation of gold was apparent. Germany then took its position under the lead of those doctrinaires and in favor of silver so its gold and single standard for increased prefering of gold. ns its own and single standard, fearing the increased profusion of gold. No disturbance took place from that, because the situation not changing that of England nor affecting at all that of France, had perhaps put the concurrence of parity on a little better footing than if Germany had not taken that position.

The progress in a few years showed that that alarm about the profusion of gold was entirely chimerical, and that all that was needed was that the doctrinaires should leave things alone, unaffected by the in-

tervention of positive law, for the redress to come about in the two metals being able to balance one another.

In 1873, upon an announcement made in 1871, Germany then discarded her sole and universal system of silver as the standard and took

gold as the sole standard, and, as I imagine, without anticipation of any greater disturbance to the world taking place by that act than had followed its action in 1857, excepting that the interest of Germany as governing its course in 1857 in espousal of silver was anew and to be again applied, that is, the same interest in the opposite direction by the profusion of silver, and meditating no disturbance to the value of its own silver or disturbance of the intercourse of commerce.

I do not intend to trench in the least upon any of these doctrines. I only wish to ask attention to the situation of silver as standing at that time. The par at 151 between gold and silver, which is the ratio of France, makes 60% pence equivalent to an ounce of silver in gold. As the matter stood in 1876, when the silver commission here and the silver commission in England were deliberating upon the situation, fluctuating month by month, in that year the average was about 54 to 55 pence an ounce. That was the situation under view when these 55 pence an ounce. deliberations by the two nations of England and ourselves in their domestic examinations treated the subject. To-day the last quotation of silver gives it but 42½ pence value in the bullion market, and our silver dollar compared with the gold dollar is now worth—in this bullion estimate I mean—71 cents and about a quarter of a cent. You will observe then this fall of bullion from $60\frac{1}{5}$, which is the par of $15\frac{1}{2}$ between gold and silver, down to $42\frac{1}{4}$ is a full amount of a third, certainly of 30 er cent

The different stages that we have passed through when silver was worth with us 93 cents, and then 87 cents, and then 85 cents, and then 80 cents, and then 77, 75, where it lingered for a long while, until now at 71, have, as it seems to me, removed from practical considera-tion any idea that this redress between the metals, if desirable, could be accomplished by coining a larger and heavier dollar. I say that these different stages in the decline of silver, proceeding quite beyond the calculations of either the friends of silver or those who are in favor of gold, have removed, it seems to me, practically from sensible consideration the question whether the redress between the metals could be accomplished by coining a heavier dollar. We should have seen

be accomplished by coining a heavier dollar. We should have seen under that instruction, which was really a sentiment of a very large part of the most intelligent people in this country, a dollar coined at 93 and then by the same reasoning at 85, and then at 80, and then at 75, and then again at 70, if it should fall.

I think it must be apparent that this idea of producing a parity in circulation by a conformity in weight is an impossible transaction and does not meet the exigency at all. Of course for trivial variations there might need to be, and there might come about after long experience and observation a readjustment, but I think it must be made apparent that if a parity and use of the two metals is to be accomplished it must be accomplished by the power of law which is the power that assigns be accomplished by the power of law which is the power that assigns

and measures the value of money as money.

One point I will suggest in support of the idea, that there was an expectation that a beneficial result might be accomplished by putting more weight of silver without any change of convention or of law, and that is from the report of the minority of the monetary commission in which a very distinguished professor, Mr. Bowen, and a distinguished gentleman, my friend, now the Senator from Louisiana [Mr. Gibson] gave the result, and this was one part of that recommendation, recommending that 345.06 grains of pure silver legal tender should be put in the dollar, a modification of currency, and that it should be a legal tender up to \$20. There seems to have been all around an opinion that the variations were not so vast but that they might be accommodated by the statement of the seems of th dated to one another by an arrangement of coinage. A modification also reducing the value of gold from 23.2 grains to 22.6 grains of pure A modification gold to the dollar was suggested by this enlightened professor in which this enlightened Senator concurred. I do not criticise the matter at all except in the point of view that there might have been a general concurrence in a feeling that an accommodation might be made by an adjustment of the coinage

Mr. President, as I think that the opinions of mankind in every great nation are an important element of its financial and its money arrangements, it seems to me that when we meet next December we should be prepared to determine whether we are further to expect any adjustment by convention or by co-operative action of the great powers of Europe with this nation, and if we are satisfied there is no reliable determination in that regard, then we should take up and debate and settle the whole basis of our currency and of our coinage. It is simply in that view that I have asked that these resolutions might be put upon their passage, that we might not longer deliberate and doubt as to whether we were to grapple with this great subject by ourselves or in concurrence with others. In whatever alternative of that result, all of us I think will be disposed to regard the subject as one of the

most momentous which can attend the action of any nation. Mr. GIBSON. Mr. President

Mr. GIBSON. Mr. Fresident—
Mr. EUSTIS. I propose the following amendment—
Mr. ALDRICH. If this discussion is to continue I shall have to object to the further consideration of the resolution at the present time.

The PRESIDING OFFICER (Mr. MANDERSON in the chair). The Senator from Louisiana [Mr. EUSTIS] proposes an amendment, which will be stated.

The SECRETARY. After the word "Resolved," in the first line, it is proposed to insert the words "by the Senate (the House of Representatives concurring)."

Mr. EUSTIS. Mr. President-

Mr. ALDRICH. If the matter is to be discussed further, I shall have to ask that the resolutions go over until to-morrow.

Mr. EUSTIS. I understood that the resolutions were up for the con-

sideration of the Senate.

Mr. ALDRICH. The unfinished business was laid aside informally, by unanimous consent, to allow the Senator from New York to finish

his remarks, and for no other purpose. Mr. BECK. I should be very glad to see the resolutions go over until to-morrow. I wish to read the speech of the Senator from New York before I suggest any amendment, but it has occurred to me that perhaps I would move to strike out all after the word "Resolved" and insert:

That Prince Bismarck be respectfully requested to advise the American Congress how best to destroy silver coinage.

Mr. ALLISON. That is a very important amendment suggested by the Senator from Kentucky.

The PRESIDING OFFICER. The Chair understands that the resolutions are being considered by unanimous consent, as the business properly before the Senate is the unfinished business of Saturday.

Mr. ALDRICH. I feel obliged to object to their further considera-

Mr. GIBSON. I should like to ask the Senator from New York a question, if the Senator from Rhode Island will permit.

Mr. ALDRICH. Certainly.

The PRESIDING OFFICER. Does the Senator from Rhode Island

withdraw his objection?

Mr. ALDRICH. For the purpose of allowing the Senator from Louisiana [Mr. Gibson] to ask a question.

Mr. EUSTIS. I have the floor.

The PRESIDING OFFICER. The Senator from Louisiana [Mr. EUSTIS] has been recognized by the Chair.

Mr. ALDRICH. I object if the Senator insists on having the floor. I did not hear the Senator from Rhode Island.

Mr. ALDRICH. I was willing to yield to the Senator from Louisiana [Mr. Gibson] to ask the Senator from New York a question, but I object to any further discussion of the resolutions at this time.

Mr. EUSTIS. Does the Senator object to my making a statement

explaining the object of my amendment?

Mr. ALDRICH. The resolutions are to be debated, and must go

over, and might as well go over now and be printed.

The PRESIDING OFFICER. If objection is made and insisted upon the resolutions must go over until to-morrow. The Chair will lay before the Senate the unfinished business which was in order at 1 o'clock.

TAX ON DISTILLED SPIRITS.

The Senate, as in Committee of the Whole, proceeded to the consideration of the bill (H. R. 4833) relating to the taxation of fractional parts of a gallon of distilled spirits.

Mr. BLAIR. With the consent of the Senator-

Mr. ALDRICH. This bill will be finished in a few moments.
Mr. BLAIR. If it is understood that it will be finished soon, I shall not move now to take up the pension cases.

The PRESIDING OFFICER. The bill is before the Senate as in

Committee of the Whole, and open to amendment.

Mr. ALDRICH. Certain amendments have been reported by the

Committee on Finance.

The PRESIDING OFFICER. The amendments will be stated.

The first amendment was, in line 6, after the words "first day of," to strike out "May, 1886," and insert "the second month succeeding the month in which this act is approved;" so as to read:

That in lieu of the existing law taxing certain fractional parts of a gallon of distilled spirits and exempting from taxation certain other parts of a gallon, all fractional parts of a gallon of distilled spirits produced on or after the first day of the second month succeeding the month in which this act is approved shall be taxed.

The amendment was agreed to.

The next amendment was, in line 13, after the words "said first day of," to strike out "May, 1886," and insert "the second month succeeding the month in which this act is approved;" so as to read:

Ing the month in which this act is approved;" so as to read:

And the Commissioner of Internal Revenue shall thereafter assess, monthly, against each distiller, owner, or person having them in possession, a tax of 90 cents upon each proof-gallon, or wine-gallon when below proof, which the fractional parts of a gallon contained in cakes or packages of distilled spirits produced by such distiller on or after said first day of the second month succeeding the month in which this act is approved, and withdrawn from distillery warehouse or from special bonded warehouse upon payment of tax, or upon which the tax has otherwise become payable, during the preceding month, may aggregate, together with the proportionate tax upon any final fraction of a gallon beyond the number of full gallons aggregated; and the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall make such regulations and prescribe such warehousing bonds as are needful to carry this law into effect.

The amendment was agreed to.

The next amendment was to add as new sections the following:

SEC. —. That the provisions of an act entitled "An act relating to the production of fruit-brandy, and to punish frauds connected with the same," approved

March 3, 1877, be extended and made applicable to brandy distilled from apples or peaches: Froeider, That each of the warehouses established under said act, receptor of a storckeeper and gauger, at the discretion of the Commissioner of Internal Revenue.

Revenue, and a storckeeper and gauger, at the discretion of the Commissioner of Internal Revenue and gauger, at the discretion of the Commissioner of Internal Revenue and gauger, at the discretion of the Commissioner of Internal Revenue and the producer of pure sweet wines, who is also a distiller, authorized to separate from formended grape-juice, under internal revenue laws, winespirits, may use, free of tax, under such regulations and after the filing of such motions and winespirits are such as a such a

regulations as to sealing packages and vehicles containing the same, and as to supervision of transportation from the point of departure, which point shall be determined as the place where such wine-spirits may be introduced into such wines, to the point of destination, as may be necessary to insure the due expor-

wines, to the point of destination, as may be necessary to insure the due exportation of such fortified wines.

SEC.—. That all provisions of law relating to the reimportation of any goods of domestic growth or manufacture which were originally liable to an internal-revenue tax shall be, as far as applicable, enforced against any domestic wines sought to be reimported; and duty shall be levied and collected upon the same to the extent of the distilled spirits contained therein which were originally liable to internal-revenue tax; and in case it is impracticable to determine the exact amount of such distilled spirits liable to tax, the rule for levying the duty thereon at the port of entry shall be by considering all the alcohol in such wines, other than sweet wines, in excess of 15 per cent., to be subject to duty at the rate of 90 cents per proof gallon, or at the same rate for each fractional gallon; and all domestic wines containing more than 24 per cent. of alcohol sought to be reimported from foreign countries shall be classed as alcoholic liquors, and taxed at the port of entry at the rate of 90 cents per wine gallon for each gallon of such liquors, if not exceeding in strength that of proof spirits, and if exceeding the strength of proof spirits, then at the rate of 90 cents per proof gallon: Provided, however, That if any distilled spirits have been added to such wines of domestic growth after they have been exported to foreign ports, or if such wines have been compounded with any foreign wines or other substances not produced from grapes, the rate of duty levied and collected on the same, when reimported, shall be equal to that levied and collected on foreign products of a similar nature.

Sec. — That any person using winesorivity or other substances not produced from exact any person using winesory of the substances not produced from exact any person using winesory other substances not produced from grapes, the rate of duty levied and collected on foreign products of a similar nature.

SEC. —. That any person using wine-spirits or other spirits which have not been tax-paid, in fortifying wine otherwise than as provided for in this act, shall be guilty of a misdemeanor, and shall, on conviction thereof, be punished for each offense by a fine of not less than \$200 nor more than \$2,000, and for every offense other than the first also by imprisonment for not less than thirty days nor more than one year.

SEC. —. That wine-spirits used in fortifying wines may be recovered from such wine only on the premises of a duly authorized grape-brandy distiller; and for the purpose of such recovery wines so fortified may be received as material on the premises of such a distiller, on a special permit of the collector of internal revenue in whose district the distillery is located; and the distiller will be held to pay the tax on a product from such wine as will include both the alcoholic strength therein produced by the fermentation of the grape-juice and that obtained from the added distilled spirits.

The amendment was agreed to.

Mr. ALDRICH. I ask that the sections may be numbered consecutively from the beginning.

The PRESIDING OFFICER. The sections will be numbered in their

consecutive order.

The bill was reported to the Senate as amended, and the amendments were concurred in.

The amendments were ordered to be engrossed and the bill to be read a third time.

The bill was read the third time, and passed.

Mr. ALDRICH. I move that the Senate insist on its amendments, and ask for a conference with the House of Representatives thereon.

The motion was agreed to.

By unanimous consent, the President pro tempore was authorized to appoint the conferees on the part of the Senate; and Mr. ALDRICH, Mr. Jones, of Nevada, and Mr. HARRIS were appointed.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had concurred in the amendments of the Senate to the bill (H. R. 2124) amendatory of and supplementary to "An act to alter the judicial districts of Pennsylvania, and for other purposes," approved May 26, 1824, and providing an additional place for holding the several courts thereof; and to the bill (H. R. 6664) to increase the naval establishment.

The message also announced that the Speaker of the House had appointed Mr. Payson one of the conferees on the part of the House on the amendment of the House to the bill (S. 2172) restoring to the United States certain of the lands granted to the Northern Pacific Railroad Company to aid in the construction of a railroad from Lake Superior to Puget Sound and to restore the same to settlement, and for other purposes, in place of Mr. FISHER, erroneously announced to the Senate.

EXPORT TOBACCO.

Mr. MAHONE. I move that the Senate proceed to the consideration of the bill (H. R. 8585) to provide for the inspection of tobacco, cigars, and snuff, and to repeal section 3151 of the Revised Statutes.

The motion was agreed to; and the Senate, as in Committee of the Whole, proceeded to consider the bill. It provides that manufactured tobacco, snuff, and cigars may be removed for export to a foreign country without payment of tax, under such regulations, and the making of such entries, and the filing of such bonds and bills of lading as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe; and repeals section 3151 of the Revised Statutes of the United States.

Mr. CULLOM. I wish to inquire if this is the bill which was recommitted to the Committee on Finance?

Mr. MAHONE. No; it is not.

Mr. BECK. I can not hear. I am trying to hear. I reported the I ask what the Senator from Illinois said.

The PRESIDING OFFICER (Mr. MANDERSON in the chair). The Senator from Illinois asked whether this was the bill which was recommitted a day or two since.

Mr. CULLOM. I noticed that it referred to tobacco.

Mr. BECK. This is another bill which was passed by the House,

referred to the Committee on Finance, and reported unanimously by me from that committee the other day.

Mr. CULLOM. I supposed from the reading that it was the bill recommitted a day or two ago on motion of the Senator from Rhode Island [Mr. Aldrich] in oposition to the wish of the Senator from Louisi-

ana [Mr. Eustis].

Mr. SHERMAN. It is due to the Senate and to the public at large, and the newspapers especially, who may fall into error, to state that there are three bills relating to tobacco pending either in the Finance Committee or before the Senate. This bill simply allows the exportation of tobacco without the payment of the tax, and also repeals the section of the statutes which provides for the inspection of tobacco to be exported, a provision which is a totally useless expense to the man-ufacturer without protecting the Government. It is recommended by the Commissioner of Internal Revenue that the section be repealed. Of the other two bills, one relates to the mode of packing cut tobacco in 10-pound packages, which was recommitted to the Committee on Finance and will no doubt remain there during the rest of the session. The other is to give a drawback for domestic articles exported. bill also remains in committee, and no report is made upon it. I think there will be no objection from any quarter so far as I know to the bill now under consideration.

The bill was reported to the Senate without amendment, ordered to

a third reading, read the third time, and passed.

WILLIAM H. WHEELER.

I ask unanimous consent to take up a little bill which Mr. BECK. has been passed by the House and reported unanimously by the Senate Committee on Military Affairs. It is the bill (H. R. 822) for the relief of William H. Wheeler. I hope it may be allowed to be passed.

The PRESIDING OFFICER. Is there objection to the consideration

of the bill?

Mr. INGALLS. It is important that there should be an executive

Mr. BECK. Do not ask for that now. I have to go away to a conference, and this is a little bill involving only four or five hundred dollars. Mr. INGALLS. I will yield to the Senator from Kentucky, as he has to return to a committee of conference.

The PRESIDING OFFICER. If there be no objection the bill is be-

fore the Senate.

Mr. BLAIR. I object. I will say to the Senator that I have been for a long time endeavoring-

Mr. BECK. All right.

Mr. BLAIR. I should like to hear the Senator's reason for desiring to take up the bill.

Mr. BECK. It is a little bill reported unanimously from the Committee on Military Affairs, and I may be out of the Senate in conference the rest of the day.

Mr. BLAIR. I do not object, but the Senator will see that I have been laboring under embarrassment and difficulty for a long time. withdraw the objection.

Mr. BECK. I am very much obliged.

By unanimous consent, the Senate, as in Committee of the Whole, proceeded to consider the bill. It proposes to pay William H. Wheeler, of Warren County, Kentucky, \$633.50, for quartermaster's stores furnished the United States Army in the year 1862.

The bill was reported to the Senate without amendment, ordered to

a third reading, read the third time, and passed.

SAINT LOUIS RIVER BRIDGE.

Mr. McMILLAN. I ask the Senate to proceed to the consideration of the bill (S. 2611) to authorize the construction of a bridge across the Saint Louis River at the most accessible point between the States of Minnesota and Wisconsin. The bill provides for a bridge at Duluth, and is in conformity with all the recommendations of the Department and the engineers.

The PRESIDING OFFICER. Is there objection to the present con-

sideration of the bill?

Mr. BLAIR. I understand it will take but a moment.

By unanimous consent, the Senate, as in Committee of the Whole, proceeded to consider the bill.

The bill was reported from the Committee on Commerce with amend-

The first amendment was, in section 2, after the word "act" in line 17, to strike out the remainder of the section in the following words:

That said bridge shall be constructed and built without material interference with the security and convenience of navigation of said river beyond what is necessary to carry into effect the rights and privileges hereby granted: *Trovited*, That as to any bridge built under this act, if the said bridge shall be made with unbroken and continuous spans, it shall not be of less elevation in any case than 50 feet above extreme high-water mark, as understood at the point of location, to the bottom chord of the bridge, nor shall the spins of said bridge be less than 150 feet in length, and the pairs of said bridge shall be parallel with the current of said river, and the main span shall be over the main channel of the river and not less than 150 feet in length: *And provided also*.

The amendment was agreed to.

The next amendment was, in section 3, line 2, after the word "draw-

bridge," to strike out the words "the same" and insert "and;" so as

That if any bridge built under this act shall be constructed as a draw-bridge, and shall be constructed as a pivot draw-bridge, with a draw over the main channel of the river at an accessible and the best navigable point, and with spans of not less than 110 feet in length in the clear on each side of the central or pivot

The amendment was agreed to.

The next amendment was, in section 3, line 7, after the word "provided," to strike out the word "also."

The amendment was agreed to.

The next amendment was to strike out section 5, in the following

SEC. 5. That the right to alter, amend, or repeal this act is hereby expressly reserved; and the right to require any changes in said structure, at the expense of the owners thereof, whenever Congress shall decide that the public interests require it, is also expressly reserved.

The amendment was agreed to.

The next amendment was to insert, as section 6:

SEC. 6. That all railroad companies desiring the use of said bridge shall have and be entitled to equal rights and privileges relative to the passage of railroad trains or cars over the same, and over the approaches thereto, upon payment of a reasonable compensation for such use; and in case the owner or owners of said bridge and the several railroad companies, or any one of them, desiring such use, shall fail to agree upon the sum or sums to be paid, and upon rules and conditions to which each shall conform in using said bridge, all matters at issue between them shall be decided by the Secretary of War upon a hearing of the allegations and proofs of the parties.

The amendment was agreed to

The amendment was agreed to.

The next amendment was to strike out section 8, in the following words:

SEC. S. That this act shall take effect and be in force from and after its pas-

The amendment was agreed to.

The bill was reported to the Senate as amended and the amendments were concurred in.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

NAVAL CADET-ENGINEERS.

Mr. McPHERSON. I desire to call up for consideration the joint resolution (S. R. 60) for the purpose of temporarily increasing the number of assistant engineers in the United States Navy by restoring certain cadet-engineers named therein to their legal rights and to their proper office and rank in the United States Navy, authorizing and directing the President to appoint such cadet-engineers (graduates) assistant engineers, to commission them as such, and to antedate their commissions. It is a very important measure, touching twenty-one naval officers, who, by the action of the Secretary of the Navy were turned out of the service, and, by the action of the court, restored. I do not think it will provoke any discussion. It has been ordered by the court and recommended by the Department.

The PRESIDING OFFICER. The Senator from New Jersey moves

that the Senate proceed to the consideration of the joint resolution.

Mr. BLAIR. Is the joint resolution open to objection at this time? If it is, I object to its consideration.

If it is, I object to its consideration.

Mr. INGALLS. A majority can take it up.

Mr. BLAIR. I understand that.

The PRESIDING OFFICER. The joint resolution can be considered by a majority vote, under the rule.

Mr. BLAIR. I object to its consideration.

Mr. MCPHERSON. I move that the joint resolution be taken up,

notwithstanding the objection.

The PRESIDING OFFICER. The Senator from New Jersey moves that the Senate proceed to the consideration of the joint resolution.

Mr. INGALLS. Pending that motion, I move that the Senate pro-

ceed to the consideration of executive business

Mr. HOAR. I desire to give notice, if the Senator will permit me, by unanimous consent, that I shall move at the first opportunity to proceed to the consideration of the bill (S. 2171) to provide for inquests under national authority, and shall resist all applications for taking up the time of the Senate except those made by the Senator from New

Hampshire with his pension bills.

Mr. McPHERSON. Will the Senator from Kansas please give me one moment before he moves to proceed to the consideration of execu-

tive business

The PRESIDING OFFICER. Does the Senator from Kansas withdraw the motion?

Mr. INGALLS. I will temporarily withdraw it for the purpose of enabling the Senator from New Jersey to say anything, but I shall in-

sist on the motion being put.

Mr. McPHERSON. I wish to say that these young naval officers were turned out of the Navy by the law of 1882, under the construction placed upon it by the then Secretary of the Navy. An appeal was made to the court, and the court ruled that they were not out of the service. The condition of the matter is simply this: The classes of 1882, 1883, and 1884 have been promoted to places which belong to these young men. To continue this condition of things longer will simply complicate the Navy still further and make it more difficult in the fut-

ure to place them back where they properly belong. The Government has done an injury to these men, and in order that the Navy Department may do them justice it is proposed to pass the joint resolution. It is recommended by the Secretary of the Navy and by the Committee on Naval Affairs of both Houses.

Mr. VOORHEES. I wish to say further—

The PRESIDING OFFICER. The Senator from Kansas has the

Does the Senator from Kansas yield?

Mr. VOORHEES. The Senator from Kansas I am quite sure will yield to me for a moment.

The PRESIDING OFFICER. Does the Senator from Kansas yield to the Senator from Indiana?

Mr. INGALLS. For a moment. Mr. VOORHEES. I am satisfied if the Senate understood the simplicity of action asked for these young gentlemen by the Senator from New Jersey, and at the same time their high merit and the cruelty it would be not to allow them this action at this session, there would be no objection at all to the consideration of the joint resolution.

Mr. McPHERSON. It is fulfilling the action of the court.
Mr. VOORHEES. It is fulfilling the action of the highest court of this Government in behalf of these young gentlemen, and we should not deprive them of their rank and of their avocation in life. I can conceive of no higher appeal that could be made to the sense of justice of the Senate.

ALE. Let me make a suggestion to the Senator from New I am with him and the Senator from Indiana upon this reso-Mr. HALE. Jersey. I am with him and the Senator from Indiana upon this lution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Indiana upon this lution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution; but I have just been informed by the Senator from Massachulution in the senator from Massachul setts [Mr. DAWES] that if this bill comes up he will move to put upon it all those other cadets who were disposed of after a long debate in the Senate; and if that is done, of course this will open the whole question and will take a great while. So I suggest to the Senator that he withdraw his motion for the present.

Mr. INGALLS. I renew my motion.
The PRESIDING OFFICER. The Senator from Kansas moves that the Senate proceed to the consideration of executive business.

EMILY J. STANNARD.

Mr. BLAIR. I wish to make a conference report.

The report was read, as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2609) granting a pension to Emily C. Stannard having met, after full and free conference have been unable to

H. W. BLAIR,
W. J. SEWELL,
E. K. WILSON,
Managers on the part of the Senate. H. B. LOVERING, W. P. TAULBEE, E. N. MORRILL, Managers on the part of the House

Mr. BLAIR. The matter between the House and Senate is this: The Senate passed a bill giving this widow \$100 a month pension. The House have amended the bill by substituting \$50 for \$100, and it has been in conference.

The committees have disagreed, and the House has asked a further conference. It is thought best by the friends of the claimant to accede to the House amendment, and, therefore, I move that the Senate recede from its disagreement to the House amendment, and that the House amendment be agreed to.

The PRESIDING OFFICER. The Senator from New Hampshire moves that the Senate recede from its disagreement to the House amendment, and that the House amendment be adopted.

The motion was agreed to.

PUBLIC BUILDING AT SPRINGFIELD, MASS.

Mr. DAWES. I ask to take from the table the bill relative to a public building in Springfield, Mas

The PRESIDING OFFICER laid before the Senate the amendments

of the House of Representatives to the bill (S. 263) providing for the erection of a public building at Springfield, Mass.; which were read.

Mr. DAWES. This is a Senate bill which passed fixing the amount of the cost of the site and building at \$150,000. The House of Representatives has cut that down to \$125,000 and put a further restriction upon the bill that nothing can be done until a site and plan for a building not to cost more than \$125,000 all told shall be completed. This is fatal to the object of the bill. It is impossible to construct such a building for that sum in Springfield, Mass. I am prepared to satisfy the Senate that they ought not to agree with the House amendments, but under the circumstances surrounding the enactment of public building bills at the present time, and at the request of the Representative from that district in the other House, I move a reference of this bill with the House amendments to the Committee on Public Buildings and Grounds, without any expectation of a report at this session.

Mr. HOAR. I should like to add to what my colleague has said on that subject that I concur in this reference which he has moved, solely because I am informed by the Representative who represents Springfield in the other House that it is the desire of the Springfield people that this subject shall go to the committee, in order that they may be

able to present more fully their views in regard to it than they can at this moment, and also in order that the bill may go to the Executive at a time when his attention may be called carefully and precisely to the distinction between this case and a case which he has vetoed, which there would not be time for at the present session of Congress

Mr. DAWES. Those are the reasons, in addition to those I have

stated, which operate on my colleague and myself.

The motion to refer to the Committee on Public Buildings and Grounds was agreed to.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House further insisted upon its disagreement to certain amendments of the Senate to the bill (H. R. 9478) making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1887, and for other purposes; insisted upon its amendments to the amendments numbered 74 and 78 to the said bill disagreed to by the Senate; agreed to the conference asked by the Senate on the disagreeing votes of the two Houses thereon, and had appointed Mr. RANDALL, Mr. FORNEY, and Mr. RYAN managers at the further conference on the part of the House.

The message also announced that the House had passed the bill (S. 201) to provide for the erection of a public building in the city of An-

napolis, Md.

ENROLLED BILLS SIGNED.

The message further announced that the Speaker of the House had signed the following enrolled bills; and they were thereupon signed by

signed the following enrolled bills; and they were thereupon signed by the President pro tempore:

A bill (H. R. 2124) amendatory of and supplementary to "an act to alter the judicial districts of Pennsylvania, and for other purposes," approved May 26, 1824, and providing an additional place for holding the several courts thereof; and

A bill (H. R. 5003) for the relief of Mary E. Casey.

THE CONGRESSIONAL LIBRARY.

Mr. VOORHEES introduced a joint resolution (S. R. 82) making additional appropriation for purchase of site for Congressional Library; which was read the first time by its title, and the second time at length,

as follows:

Whereas under the provisions of an act of Congress "authorizing the construction of a building for the accommodation of the Congressional Library," approved April 15, 1886, the sum of \$550,000 was appropriated for the purchase of a site for the Congressional Library; and

Whereas in the proceedings in the supreme court of the District of Columbia, had in pursuance of said act, the amount of damages has been assessed at about \$35,000 in excess of the amount so appropriated: Therefore,

Bettresolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the additional sum of \$35,000, or so much thereof as may be necessary, be, and the same is hereby, appropriated out of any money in the Treasury not otherwise appropriated, for the purchase of a site for the Congressional Library, to be immediately available.

Mr. VOORHEES. I move that the joint resolution be referred to the Committee on Appropriations.

The motion was agreed to.

Mr. VOORHEES. I ask that the letter from the Secretary of the Interior, who is chairman of the Library commission, may be printed in the RECORD.

The PRESIDENT pro tempore. That order will be made if there be no objection.

The letter referred to is as follows:

DEPARTMENT OF THE INTERIOR, Washington, August 2, 1896.

Department of the Interior, Washington, August 2, 1886.

Sir: In view of the fact that the second jury appointed by the supreme court of the District of Columbia to assess damages to property in squares 729, 730, and 731, for site of building for the accommodation of the Congressional Library, have placed said damages at a sum of about \$35,000 in excess of the appropriation of \$550,000, heretofore made for such purpose, I have the honor to recommend, and beg leave to urge, that an additional appropriation of from \$35,000 to \$40,000 be made as soon as practicable to enable the commission to complete the purchase of said squares without further delay.

It is further suggested that the proceeds of sale of old material upon the site in question may be made available for disbursement by the commission for any purposes contemplated by the act notwithstanding the provisions of section 3618 Revised Statutes.

Very respectfully,

L. Q. C. LAMAR, Secretary of the Interior, Chairman Library Commission. Hon. D. W. Voorhees, Chairman Library Committee, United States Senate,

EXECUTIVE SESSION.

Mr. INGALLS. I renew my motion.

The PRESIDING OFFICER (Mr. MANDERSON in the chair). The question is on the motion of the Senator from Kansas [Mr. INGALLS] that the Senate proceed to the consideration of executive business.

The motion was agreed to; and the Senate proceeded to the consideration of executive business. After four hours and thirty minutes spent in executive session the doors were reopened.

A. K. CUTTING.

The PRESIDENT pro tempore laid before the Senate the following message from the President of the United States; which, with the accompanying papers, was ordered to be printed, and referred to the Committee on Foreign Relations:

To the Senate of the United States:

In response to the resolution of your honorable body of the 26th ultimo I trans-

mit a report of the Secretary of State, with accompanying papers, communicating the information possessed by the Department of State "concerning the alleged illegal detention of A. K. Cutting, an American citizen, by the Mexican authorities at El Paso del Norte," and as to the further inquiry contained in said resolution "whether any additional United States troops have been recently ordered to Fort Bliss," I answer in the negative. GROVER CLEVELAND.

EXECUTIVE MANSION, Washington, August 2, 1886.

PRESIDENTIAL APPROVALS.

A message from the President of the United States, by Mr. O. L. PRUDEN, one of his secretaries, announced that the President had on the 31st ultimo approved and signed the following acts:

ne 31st ultimo approved and signed the following acts:
An act (S. 948) granting a pension to Joseph S. Moody;
An act (S. 1112) granting a pension to Phœbe H. Meech;
An act (S. 1289) granting a pension to Thomas J. Owen;
An act (S. 1766) granting a pension to William Brentano;
An act (S. 1853) granting a pension to Isabella Jessup;
An act (S. 2113) granting a pension to Mrs. Sarah Young;
An act (S. 2163) granting a pension to Powhattan B. Short;
An act (S. 2233) granting a pension to John P. McElroy; and
An act (S. 1625) granting a pension to Rebecca Hollingsworth Humbreys. phreys.

WILLIAM H. WEAVER-VETO MESSAGE.

The PRESIDENT pro tempore laid before the Senate the following message from the President of the United States; which was read, referred to the Committee on Pensions, and ordered to be printed: To the Senate :

To the Senate:

I herewith return without my approval Senate bill No. 1421, entitled "An act granting a pension to William H. Weaver."

The claimant named in this bill enlisted August 12, 1862, and was mustered out of service June 12, 1865. During his service he was treated in hospital for diarrhea and lumbago, and in the reports for May and June, as well as July and August, 1864, he is reported as absent sick.

He filed his application for pension in November, 1877, alleging that in March, 1863, he contracted measles, and in May, 1864, remittent fever, and that as a result of the two attacks he was afflicted with weakness in the limbs and eyes. He made statements afterward in support of his application that he was also troubled in the service with rheumatism and diarrhea.

The case was examined by several special examiners, from which, as reported to me, it appeared from the claimant's admission that he had sore eyes previous to his enlistment, though he claimed they were sound when he entered the Army.

Army.

A surgeon who made an examination in March, 1881, reported that he could not find any evidence whatever of disease of the eyes, and nothing to corroborate the claimant's assertion that he was suffering from rheumatism, piles, or diarrhea.

diarrhea.

Another surgeon who examined the claimant in 1872 reported that he found the eyelids slightly granulated, producing some irritation of the eyeball, and rendering the eyes a little weak, and that he found no other disability.

In 1882 a surgeon who made an examination reported that he discovered indications that the claimant had suffered at some time with chronic ophthalmia, but that in his opinion his eyes did not disable him in the least, and that the claimant was well nourished and in good health.

The report of the committee to whom this bill was referred in the Senate states that six special examinations have been made in the case, and that two of them were favorable to the claim.

The trouble and expense incurred by the Pension Bureau to ascertain the truth and to deal fairly by this claimant, and the entire absence of any suspicion of bias against the claim in that bureau, ought to give weight to its determination.

The claim was rejected by the Pension Bureau in July, 1885, upon the ground.

termination.

The claim was rejected by the Pension Bureau in July, 1885, upon the ground that disease of the eyes existed prior to enlistment, and that the evidence failed to show that there had existed a pensionable degree of disability, since discharge, from diarrhea or rheumatism.

It will be observed that this is not a case where there was a lack of the technical proof required by the Pension Bureau, but that its judgment was based upon the merits of the application, and affected the very foundation of the claim.

claim.

I think it should be sustained; and its correctness is somewhat strengthened by the fact that the claimant continued in active service for more than a year after his alleged sickness, that after filing his claim headded thereto allegations of additional disabilities, and that he made no application for pension until more than twelve years after his discharge.

EXECUTIVE MANSION, July 31, 1886.

GROVER CLEVELAND.

MARY J. HAGEMAN-VETO MESSAGE.

The PRESIDENT pro tempore laid before the Senate the following message from the President of the United States; which was read, referred to the Committee on Pensions, and ordered to be printed:

To the Senate

To the Senate:

I return without approval Senate bill No. 2160, entitled "A bill granting a pension to Mary J. Hageman."

The husband of this proposed beneficiary enlisted in 1861 and was wounded by a gun-shot which seriously injured his left forearm. In 1864 he was discharged; was afterward pensioned for his wound, and died in August, 1884.

Dr. Hageman, who attended the deceased in his last illness, testifies that he was called to attend him in August, 1884; that he was sick with typho-malarial fever, and that upon inquiry he (the physician) found that it was caused by hard work or overexertion and exposure. He was ill for about ten days.

The application of his widow for pension was rejected in 1885 on the ground that the fatal disease was not due to military service.

I am unable to discover how any different determination could have been reached.

To grant a pension in this case would clearly contravene the present policy of

reached.

To grant a pension in this case would clearly contravene the present policy of the Government, and either establish a precedent which, if followed, would allow a pension to the widow of every soldier wounded or disabled in the war without regard to the cause of death, or would unjustly discriminate in favor of the few thus receiving the bounty of the Government against many whose cases were equally meritorious. GROVER CLEVELAND.

EXECUTIVE MANSION, July 31, 1886.

COMMITTEE ON TRANSPORTATION ROUTES.

Mr. ALDRICH, from the Committee on Transportation Routes to the

Seaboard, who were authorized by resolutions of the Senate of July 5, 1884, and January 20, 1885, to take testimony for the purpose of "preparing statistical data relative to freights, commodities, and prices for the period from 1873 to the present time," submitted a report thereon.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had receded from its disagreement to the amendments of the Senate to the following resolutions of the House, and agreed to the same:

Concurrent resolution providing for printing the report of the Di-rector of the Mint on the production of precious metals in the United

States; and

Joint resolution (H. Res. 201) for printing the report of the Com-

missioner of Agriculture.

The message also announced that the House had agreed to the amendments of the Senate to the following resolutions of the House:

Concurrent resolution to print Senate Executive Document No. 85,

Forty-ninth Congress; and

Joint resolution (H. Res 87) providing for the printing and distribution of documents of the monetary conferences of 1878 and 1881.

The message further announced that the House had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H. Res. 160) to authorize the Commissioner of the General Land Office to cause 15,000 copies of the map of the United States and Territories to be printed.

The message also announced that the House had passed the following

joint resolutions; in which it requested the concurrence of the Senate:

Joint resolution (H. Res. 211) to continue the provisions of a joint resolution entitled "Joint resolution to provide temporarily for the expenditures of the Government;"

Joint resolution (H. Res. 212) authorizing the payment of the officers and employes of the Senate and House for the month of August as soon after the adjournment of the present session as practicable; and Joint resolution (H. Res. 213) authorizing the Secretary of War to pay

certain expenses incurred by special agents and experts of the Bureau of Labor during the month of July.

ENROLLED BILLS SIGNED.

The message also announced that the Speaker of the House had signed the following enrolled bills; and they were thereupon signed by the

President pro tempore:

A bill (S. 289) for the relief of J. A. Henry and others;
A bill (S. 1184) granting a pension to Jane D. Mumford;
A bill (S. 1398) granting a pension to Milton P. Shockley;
A bill (S. 2325) to grant a pension to Nancy Mason;

A bill (S. 2366) granting a pension to Elizabeth Garaghty;

A bill (S. 2502) granting a pension to Louise Paul.

NEW ORLEANS, BATON ROUGE AND VICKSBURG RAILROAD GRANT.

Mr. VAN WYCK, from the Committee on Public Lands, submitted the views of the minority on the bill (H. R. 3186) to declare a forfeiture of lands granted to the New Orleans, Baton Rouge and Vicksburg Railroad Company, to confirm titles to certain lands, and for other purposes, heretofore reported.

HOUSE BILLS REFERRED.

The joint resolution (H. Res. 211) to continue the provisions of a joint resolution entitled "Joint resolution to provide temporarily for the expenditures of the Government" was read twice by its title, and referred to the Committee on Appropriations.

The following joint resolutions were severally read the first time by their titles, and referred to the Committee on Appropriations:

Joint resolution (H. Res. 212) authorizing the payment of officers and employes of the Senate and House for the month of August as soon

after the adjournment of the present session as practicable; and
Joint resolution (H. Res. 213) authorizing the Secretary of the
Treasury to pay certain expenses incurred by special agents and experts of the Bureau of Labor during the month of July, 1886.

ADJOURNMENT.

Mr. EDMUNDS. I move that the Senate do now adjourn until 10 o'clock to-morrow.

The motion was agreed to; and (at 6 o'clock and 40 minutes p. m. the Senate adjourned until to-morrow, Tuesday, August 3, 1886, at 10 o'clock a. m.

NOMINATIONS.

Executive nominations received by the Senate the 2d day of August, 1886. PROMOTIONS IN THE ARMY.

Third Regiment of Infantry.

Maj. Horace Jewett, of the Sixteenth Infantry, to be lieutenant-colonel, August 1, 1886, vice Gibson, promoted to the Fifth Infantry.

Fourth Regiment of Infantry.

First Lieut. Walter T. Duggan, to be captain, August 1, 1886, vice Parke, promoted to the Sixteenth Infantry.

Second Lieut. Charles J. T. Clarke to be first lieutenant, August 1, 1886, vice Duggan, promoted.

Fifth Regiment of Infantry.

Lieut. Col. George Gibson, of the Third Infantry, to be colonel, August 1, 1886, vice Wilkins, retired from active service.

Sixteenth Regiment of Infantry.

Capt. John B. Parke, of the Tenth Infantry, to be major, August 1, 1886, vice Jewett, promoted to the Third Infantry.

CONFIRMATION.

Executive nomination confirmed by the Senate August 2, 1886.

COLLECTOR OF CUSTOMS.

James Brady, jr., of Massachusetts, to be collector of customs for the district of Fall River, Mass.

REJECTIONS.

Executive nomination rejected by the Senate July 31, 1886.

JUSTICE OF THE PEACE.

John T. C. Clark, of the District of Columbia, nominated to be justice of the peace for the District of Columbia.

Executive nominations rejected by the Senate August 2, 1886.

SURVEYOR-GENERAL.

Richmond S. Dement, of Lexington, Ill., nominated to be surveyorgeneral of the Territory of Utah.

INDIAN AGENT.

Charles H. Potter, of Homer, Dakota County, Nebraska, nominated to be agent of the Omaha and Winnebago agency in Nebraska.

POSTMASTER.

Edward M. Kinman, nominated to be postmaster at Jacksonville, Morgan County, Illinois.

HOUSE OF REPRESENTATIVES.

Monday, August 2, 1886.

The House met at 11 o'clock a. m. Prayer by Rev. Dr. Bullock, of Washington, D. C.

The Journal of Saturday's proceedings was read and approved.

COST OF PRINTING PRIVATE BILLS.

The SPEAKER laid before the House a communication from the Public Printer in response to a resolution of the House asking the cost of printing private bills for the fiscal year ending June 30, 1886; which was referred to the Committee on Rules.

JUDICIAL DISTRICTS OF PENNSYLVANIA.

The SPEAKER also laid before the House the bill (H. R. 2124) amendatory of and supplementary to "An act to alter the judicial districts of Pennsylvania, and for other purposes," approved May 26, 1824, and providing an additional place for holding the several courts thereof, with Senate amendments.

Mr. SCRANTON. I ask unanimous consent to concur in the Senate amendments

The SPEAKER. The amendments will be read subject to objec-

The Clerk read as follows:

The Clerk read as follows:

In section I, after the word "next," in the ninth line, strike out "and be continued and adjourned from time to time as the courts may deem expedient for the transaction of the business thereof."

Strike out section 2 of the bill; also section 3.

In section 4, after the word "being," insert "and with the approval of the Attorney-General;" so as amended the bill will read as follows:

"Be it enacted, &c., That besides the terms of the circuit and district courts of the western judicial district of Pennsylvania now directed by law to be held in said western district, there shall be held two terms of each of said courts in every year at Scranton, in the county of Lackawanna, which shall commence the first Mondays of the months of March and September in each and every year, beginning in September next.

"SEC. 2. That the marshal of said western judicial district shall for the time being, and with the approval of the Attorney-General, provide a suitable place at the city of Scranton for holding the several courts and for keeping the records thereof."

The SPEAKER. Is there objection to the present consideration of the bill?

Mr. HOLMAN. The effect of these amendments are not clearly understood

Mr. SCRANTON. The amendments are simply restrictive in their nature.

Mr. HOLMAN. I have no objection.

The amendments were concurred in.

Mr. SCRANTON moved to reconsider the vote by which the amendments were concurred in; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

MONETARY CONFERENCES 1878 AND 1881.

The SPEAKER also laid before the House a joint resolution (H. Res. 89) providing for the printing and distribution of documents of the monetary conferences of 1878 and 1881, with Senate amendments; which was referred to the Committee on Printing.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, announced that the Senate disagreed to the amendments of the House to the bill (S. 1532) to regulate commerce, and agreed to the conference asked by the House thereon, and had appointed Mr. CULLOM, Mr. PLATT, and Mr. HARRIS as conferees on the part of the Senate.

Also that the Senate further insisted on the amendments to the bill

making appropriations for rivers and harbers, and agreed to the further conference asked by the House on the disagreeing votes thereon, and had appointed Mr. McMillan, Mr. Conger, and Mr. Ransom as conferees on the part of the Senate.

INCREASE OF NAVAL ESTABLISHMENT.

The SPEAKER also laid before the House the bill (H. R. 6664) to increase the naval establishment, with Senate amendments.

Mr. HERBERT. I ask unanimous consent to concur in the amendments of the Senate.

The SPEAKER. They will be read, after which the Chair will ask

The amendments of the Senate were read, as follows:

In section 4, after the word "parties," strike out the words "otherwise the Secretary of the Navy is hereby authorized to purchase the same, or any portion thereof, and import it."

In section 6 strike out the first proviso: "Provided, That the Secretary of the Navy may buy abroad and import such shafting and other material or machinery as he may be unable to procure in the United States;" and the word "further," in the tenth line.

Mr. HOLMAN. I hope the effect of these amendments will be stated.

Mr. BOUTELLE. I understand they embody substantially the proposition submitted by myself in the House.

Mr. HERBERT. The amendments of the Senate have been sub-

mitted to all of the members of the committee, and they all unite in requesting a concurrence. The gentleman from Indiana desires an explanation.

I state that there is no change either in the number of vessels ordered or in the amount appropriated. In section 4 the provision is stricken

Otherwise the Secretary of the Navy is hereby authorized to purchase the same, or any portion thereof, and import it.

The section thus amended will provide that the Secretary of the Navy shall purchase the armor of domestic manufacture, provided contracts for furnishing the same within a reasonable time and at a reasonable price as well as of the required quality can be made with responsible parties.

Mr. BUCK. I would like to ask whether this amendment and the other coming from the Senate are not precisely the amendments which were adopted by the Committee of the Whole House on the state of the Union last Friday in respect to the purchase of armor abroad, with

the exception of the amendment of the gentleman from Tennessee.

Mr. HERBERT. The effect is very nearly the same, though I do not understand that the amendments are precisely similar; but I will explain the effects, although I understand that both gentlemen who make these inquiries, my colleagues on the committee, have consented

to the motion I make that the House concur.

Mr. BOUTELLE. I desire to say the object of my request for this explanation is on behalf of gentlemen on this side of the House who have asked to be informed.

Mr. HERBERT. I understand perfectly well the object of the gen-tleman's inquiry, and my answer is in brief that the first amendment strikes out the words which I have quoted, which words stricken out of that portion of the section will leave it as follows:

SEC. 4. That the armor used in constructing said armored vessels and for completing said monitors shall be of the best obtainable quality and of domestic manufacture, provided contracts for furnishing the same in a reasonable time, at a reasonable price, and of the required quality can be made with responsible par-

The Government is here protected by a discretion lodged in the Secretary of the Navy not to make these contracts unless they can be made at a reasonable price, and it also provides further that-

Such armor shall be accepted only after passing such tests as shall be prescribed by the Secretary of the Navy and inserted in the contracts.

Mr. BOUTELLE. I understand the clause stricken out prohibits Mr. BOUTELLE. I understand the clause stricken out promotes the Secretary of the Navy from purchasing any of the armor abroad. Mr. HERBERT. I think I have made the explanation sufficiently clear and plain to the House.

Mr. BOUTELLE. I would like to have it made plain to myself.

Mr. HERBERT. I think the gentleman understands it; I submitted it to him before making the motion.

The SPEAKER. If objection is made there is nothing before the House for consideration.

House for consideration.

Mr. BOUTELLE. I can not see any reason why these amendments

should not be explained thoroughly.

Mr. HERBERT. I thought I had explained this amendment. I will explain it again.

Mr. BOUTELLE. I desired to bring out a very important phase of these amendments.

The SPEAKER. Does the gentleman from Maine object to the consideration of the amendments?

Mr. BOUTELLE. No, sir.
The SPEAKER. Thep the amendments are before the House for onsideration, and the gentleman can proceed.

Mr. BOUTELLE. I am endeavoring to have the amendment un-

derstood.

Mr. PAYSON. Let there be order.
The SPEAKER. The Chair will ask gentlemen again to resume

their seats and preserve order.

Mr. BOUTELLE. The point I endeavored to bring out was that the clause stricken out by the Senate was the clause which permitted the purchase of this armor abroad.

Mr. HERBERT. I have stated that distinctly, and I am satisfied

wr. HERBERT. Except myself.
Mr. BOUTELLE. Except the gentleman from Maine, and he read it before he made this inquiry, and consented to have me make this motion to concur.

The next amendment, Mr. Speaker, is found in section 6, on page 3. These words are stricken out:

Provided, That the Secretary of the Navy may buy abroad and import such shafting and other material or machinery as he may be unable to procure in the United States.

That was stricken out. That proviso stricken out by the Senate was substantially the same as the proviso which follows, though they were both adopted by the committee. The proviso left standing by the Senate is as follows:

Provided further, That the Secretary of the Navy may purchase abroad only such shafting and other special materials as it may be impossible to obtain in the United States in time for use in the construction of the vessels herein provided for.

The words in that proviso, "and other special materials" are stricken out; and that is the third amendment.

But all these amendments taken together really amount only to a prohibition against the purchase abroad of such materials, such armor, &c., as can be obtained in this country. That is to say, there is now left in the bill no power to purchase this armor abroad. There is left in the bill power to purchase shafting abroad which can not be obtained in this country.

I do not know that it is necessary to speak further on this question. All the members of the Committee on Naval Affairs had this matter submitted to them and we all united in agreeing to ask the House to concur in these amendments. As I stated before there is no change in the amount; there is no change in the number of vessels provided for; and there is no other change than that I have spoken of. All the other provisions of the bill remain as passed by the House. There is no change as to the mode of making contracts or as to the manner of building the vessels. All these things are left as in the House bill.

Mr. SOWDEN. I ask the gentleman whether the material referred

to by him can be bought in this country, and if so why it should not be

purchased here in preference to abroad?

Mr. HERBERT. We ask the House to concur in the Senate amendments.

The SPEAKER. Does any gentleman desire a separate vote on any amendment?

Mr. BOUTELLE. I understand these amendments of the Senate provide substantially for the same prohibition of the purchase of materials abroad that was proposed in the amendments offered by myself in Committee of the Whole adopted in the committee and which only failed in the House by two or three majority. The purchase of armor abroad is prohibited by the Senate amendment. The further clause which provided that in case certain shafting "and other special ma-terial" could not be obtained in this country it might be purchased abroad, is modified so that the Secretary is permitted to obtain abroad only certain shafting which is understood to be or is said to be difficult

if not impossible to obtain immediately in this country.

I desire to call the attention of my colleague, the chairman of the committee, if he will permit me, to an observation made by him in the remarks that were printed in the RECORD of July 27, and which would seem to have been a slip of the tongue, or perhaps I should say a slip of the pen, where he says in regard to the bill then under discussion:

But, Mr. Chairman, this is not and ought not to be made a party question. I have seen some indications here that there was a disposition on the part of a few gentlemen on the other side of this Chamber to put impediments in the way of this bill—

The bill under consideration being House bill 6664, the original bill of the Naval Committee-

in order, as it occurred to me, that party capital might be made by reason of a failure of the Democratic majority here to answer the demands of the country; but, sir, I can not believe that any such motives will actuate gentlemen, now

that the question is up for consideration. This bill is not for party, but for the country—a bill for the "common defense"—the great purpose for which the Union of these States was formed.

Now I am very sure my colleague, the chairman of the committee. could hardly have intended deliberately to impute to this side of the House, as he did in his speech as printed, a disposition to obstruct or oppose the passage of the bill he was discussing, because, as the record of the debate and the record of the votes will show, House bill No. 6664 was supported on this side by a unanimous vote, and all the opposition to it that was manifested in the House was led by my friend the chairman of the committee, and sustained by his party associates.

I submit that his statement in that regard ought to be modified to comport more exactly with the record and more fully with justice to this side of the Chamber. I presume, however, that the statement was an inadvertence on the part of the chairman of the committee.

serve the remainder of my time.

Mr. HERBERT. Mr. Speaker, the statement was not an inadvertence at all, but I do not now desire to go into the discussion of that question. As I indicated in my remarks, which have been quoted by the gentleman, it was my purpose all along to endeavor to get this bill through this House and through Congress.

Mr. BOUTELLE. Which bill?
Mr. HERBERT. This bill—House bill 6664.

Mr. REED, of Maine. Why did you not get it through? We could

have given you votes enough on this side.

Mr. HERBERT. One reason was because my friend from Maine who asks the question was one of those who voted against the consideration of the bill, or against fixing a day for its consideration.

Mr. REED, of Maine. Under what circumstances? State the whole

truth about it if you are going to make any statement at all.

Mr. HERBERT. I will state the whole truth and nothing but the

truth, if I understand it.

Mr. REED, of Maine. That is a good medification.
Mr. HERBERT. Yes, and I think I understand as much about it, or perhaps more, than the gentleman thinks I do. But, Mr. Speaker, I shall not be led into the discussion of the partisan aspects of this question now, except to reply to the inquiry of the gentleman from Maine [Mr. REED]. Shortly after this bill was reported here I moved to fix a day for its consideration. The opposition to that motion came from the gentleman from Maine, as well as other leading gentlemen on that side of the House. He criticised the resolution which I had introduced. He said, in the first place, that it did not give sufficient time for the discussion of the bill. It fixed two days for the consideration of the bill, and he critisised it upon that ground. Again, he said that it did not give opportunity for amendment. I thought it did, and stated on the floor at the time that there was no purpose on my part or on the part of the committee to prevent its being amended, and that the fullest opportunity for amendment would be given when the proper time came. Nevertheless the gentleman from Maine [Mr. REED] voted against fixing a day for the consideration of the bill. Afterward, on more than one occasion, when there was but a single committee between the Committee on Naval Affairs and the hour in which that committee would be called for the consideration of business, I asked the House not to dispense with the morning hour and not with the regular call of committees for business, and stated at the time that my purpose was to reach the hour in which we could fix a day for the consideration of this bill. Knowing well the influence which the gentleman from Maine [Mr. Reed] exercises, and deservedly exercises, on that side of the House, and feeling that if I had him with me it would be a much easier matter to pass the bill, I noticed him on more than one occasion voting against me, against the consideration of the bill, and in favor of taking up some other bill.

What his motive was it is for him to say. I only state these facts, and I should not have mentioned them now if the gentleman from Maine [Mr. REED] had not risen to make the inquiry which he has Now I leave it to all the members of this House who have witnessed the different efforts on the part of the Committee on Naval Affairs to get at this bill at different times during this session to say whether the remarks which I made and which have been quoted by my colleague

on the committee [Mr. BOUTELLE] were not justified by the facts.

Mr. BOUTELLE. Will my colleague permit me to call his attention to the fact that my criticism is based entirely on remarks printed by him after the bill had been disposed of, and after he was aware of the fact that the Republicans had championed this bill while he had opposed it? My criticism is that, in his speech printed after the bill was disposed of, he criticised the Republicans as having obstructed the passage of the bill, which he knew they had all voted for, against his

passage of the bill, which is before the House—passed by the strenuous opposition.

Mr. HERBERT. This bill which is before the House—passed by the House and by the Senate and sent back here by the Senate with amendments—I thought I had been in favor of all along. I thought I had moved it in the House and urged its passage, and I am not aware that

I have ever at any time said a single word against it.

Mr. BOUTELLE. Did you not distinctly in terms oppose the original bill and favor the substitute, and did not I assume the championship of the original bill?

Mr. HERBERT. I did favor the substitute in lieu of the original bill. But, Mr. Speaker, as I said in the extract which the gentleman from Maine [Mr. BOUTELLE] has quoted, this is not a partisan bill; this is a bill for the whole country, and the record will show what part each of us has taken in dealing with the bill.

Mr. BOUTELLE. And it will show a solid Republican vote for this

very bill which you were opposing.

Mr. HERBERT. The record shows that the bill was voted for by nearly everybody on this floor, including Democrats and Republicans.

The great difficulty was—and that was what I anticipated—to reach the I was satisfied that if we could overcome all objections and get the bill before the House there would be no considerable opposition to it on any side whatever. But what I said in the extract which the gentleman from Maine has read was, that when we were trying to get at this bill the opposition came from certain leading Republicans whom I did

Mr. BOUTELLE. I beg the gentleman's pardon; he spoke in the

present tens

Mr. HERBERT. And whom I would not now name had not the gentleman from Maine asked me the question. I felt justified in making a personal allusion by simply showing what part he had taken. The record shows that he did what I said; as to his motives, it is for him to explain.

Mr. REED, of Maine. Does the gentleman from Alabama [Mr. Herbert] yield to me?

Mr. HERBERT. For how long? Mr. REED, of Maine. Ten minutes.

Mr. HERBERT. I yield to the gentleman. Mr. REED, of Maine. I am very much obliged to the gentleman

for his courtesy.

Mr. Speaker, the gentleman from Alabama seems to direct his attack upon me. I am very glad to have him do it, because I can stand it by reason of my record on this subject. The House, now that he has made his remarks, can apprehend well the reservation he made when he stated

that he would tell the truth if he understood it.

The gentleman very well knows that when he presented the original proposition for a discussion of the Navy bill, I then and there stated my reasons for the position I took, and they were valid reasons, namely that the situation of the business of the House showed that it would not be possible to get discussion on this bill. It was then proposed that it should be discussed, not in Committee of the Whole, where we could get discussion, but in the House as in Committee of the Whole, where discussion can be suppressed, and where facilities for making amendments are denied. That was early in the session, when there was ample time in the future, when there was ample opportunity to bring the matter up again. I have repeatedly since voted with the gentleman from Alabama to take up this question. If there were times, as he asserts, when I have voted in opposition to motions he has made, it was because I deemed that at those particular times certain business other than his ought to be transacted. It is one of the common charges on the floor of this House by men who delay the business intrusted to their care that at some time or other somebody voted against their proposition to take it up. The proposition to do business in this House is always in the alternative; and there may be inopportune times which show bad management. But the gentleman knows that when he presented this bill for discussion in the House, he had the promise given by me and assented to by every Republican in this House, and followed by the vote of every Republican here, in favor of the original bill appropriating six and a half million dollars for the Navy.

Now, why was the gentleman recreant to his own bill? Why did he

refuse to co-operate with the Republican party in their unanimous determination in favor of a larger appropriation and a larger increase of the Navy? Why does he endeavor to shield himself and his party by all this long personal attack? Why did he not come forward then? All it needed was thirty Democrats. All it needed was less than ten more. Why were they not forthcoming? On what account and for what reason did he get up the bill which was actually passed? was his motive? Was it not on account of opposition on his side? Was it not on account of opposition on the part of the Democratic party to the bill for the increase of the Navy which the members of the Repub-lican party were unanimously in favor of? How can he and his party

escape the responsibility?

I say that you gentlemen can not occupy both positions in this affair. If you prefer to sacrifice the Navy to a lower figure in the sum total of your appropriation bills come out like men and say so. Say that to have \$3,000,000 less in the figures in your appropriation bills was your motive in refusing to appropriate six and one-half million dollars for the Navy. Stand up before the country and say so, machine.

pretend that with 40 Democratic majority, so called, you were impotent.

Why, what is the whole history of the present House? It is a history of refusal

tory of refusals to consider important business; it is a history of refusal to transact legislation required by the public interests; and all for the sake of showing on the stump certain figures which will indicate, not economy, but that you have not spent the money of the Government for the purposes of the Government.

Why, sir, the last week and a half have witnessed scenes which ought

to make a legislator blush. Here are bills of the gravest importance, of the most serious character, thrust upon this House at the very last moment, after having been eight months in incubation, and in some instances six months in the House. These are thrust upon us now with instances six months in the House. These are thrust upon us now with no opportunity for discussion, bills the nature of which this House does not know to day, the provisions of which have never been explained, and the insufficient character of which we should find out by experience, if it were not for the staying powers of other branches of the Government.

Again, I say, look at the facts. There is a bill for putting out the surplus in the Treasury; not the surplus the Democratic party charged was put there by Republicans, but the more extraordinary surplus which has been put there by a Democratic administration. And even that was kept back solely so as to deprive us of any reason to suppose

it can pass through the Senate.

It can pass through the Senate.

It is precisely the same with the interstate-commerce bill. Instead of passing a bill which the Senate has passed, and which would afford some real relief to the business of the country, this House has insisted, without suitable discussion, after eight months of inaction and inactivity, to thrust that into a committee of conference so that no result will ever come from it. Consider this very naval appropriation. It is only because the Republican Senate in this particular instance, waiving their own wishes and belief in favor of larger increase of the Navy, we get even this small sum which now comes before us.

And we have another measure liable to meet with the same fate, the measure in favor of changing in many respects the warehousing system. That has been delayed until the very end of the session, and it will be brought up, if brought up at all, in the closing hours where we can not

have an opportunity to carefully consider its details.

I have only mentioned a few instances, I have only given a few speci-mens of the indictment which can be brought and will be brought against this House. Whatever you have done by your delays you have rendered futile. Whatever you have presented to the House you have presented in such fashion that discussion could not reach it, and it is of the very life and essence of honest and manly legislation that there should be full and free discussion. [Applause on the Republican side of the House.]

Here the hammer fell.

Mr. HERBERT. How much time have I left? The SPEAKER. The gentleman has occupied The gentleman has occupied thirty minutes of his

Mr. BOUTELLE. I also ask that he will give me ten minutes.

Mr. HERBERT. I propose to call for the previous question in the House.

Mr. BOUTELLE. But did not you agree to let me have ten minutes?

Mr. REAGAN. I should like to have five minutes.
Mr. HERBERT. I will yield to both gentlemen; and I will now yield to the gentleman from Texas for five minutes.

Mr. REAGAN. I do not know that I shall desire to occupy five minutes time.

Mr. BOUTELLE. I rise to a parliamentary inquiry.
The SPEAKER. The gentleman will state it.
Mr. HERBERT. I have already stated I would yield to the gentleman ten minutes, and will do so after the gentleman from Texas has occupied five minutes.

Mr. BOUTELLE. The parliamentary inquiry which I wish to present to the Chair is this: Am I entitled to take the floor in my own right; and, if so, am I not entitled to an hour?

The SPEAKER. When the gentleman from Maine gets the floor in

his own right he will be, of course, entitled to an hour. The gentle-man from Alabama [Mr. HERBERT] is now entitled to the floor, and has yielded for five minutes to the gentleman from Texas

Mr. BOUTELLE. I thought I was addressing the Chair in my own

The SPEAKER. No; the gentleman from Alabama still holds the floor and has thirty minutes of his time remaining. He has at present yielded for five mintes to the gentleman from Texas.

Mr. BOUTELLE. Will I not be entitled to take the floor in my own

right for an hour? The SPEAKER.

Yes, unless the previous question is ordered. Mr. REAGAN. Mr. Speaker, the gentleman from Maine [Mr. REED] in arraigning the Democratic party in its alleged shortcomings in the present session of Congress chooses to charge on it that we have presented measures and insisted on action on them without giving time for their proper consideration. Among the measures he considers as important and upon which he says time was not given for consideration was the interstate-commerce bill. He alleges while the Senate sent a bill here which passed that body we refused to accept it and insisted on a conference, which we know can never amount to anything. This is a remarkable statement to be made by a gentleman who has been a member of the House for many years and is familiar with its business. He knows the interstate-commerce bill has been discussed here at every Congress for the last eleven years.

Mr. REED, of Maine. And changed.

Mr. REAGAN. Not materially changed.

Mr. REAGAN. Not materially changed.

Mr. REED, of Maine. Changed at every one of them.

Mr. REAGAN. Still the main body, main purpose, and philosophy have always been the same. It has been the same in general purpose during these eleven years. It has been thoroughly discussed. It is well known that measure has been opposed by the whole railroad power of the country. Its officers, its lobbyists have been always able to retard action on it by this House, so that up to this time we never have been able to secure action on that bill during the first session of

any Congress.

This is the very first time in the history of the promulgation of this legislation that we have been enabled to secure consideration in the first session of Congress. It has always been heretofore postponed.

But, Mr. Speaker, the gentleman from Maine should remember that this is the third time that this bill has passed the House by a decided majority. He should remember that in two other Congresses it received on test votes an emphatic indorsement by the House, having been therefore five times indorsed by emphatic majorities of the House. But the gentleman tells us that the Senate bill should be passed now

by the House because it has passed the Senate. Why has not the House bill been passed by the Senate because it has passed the House? The same logic would apply, and with more force, with reference to the House bill, because it has passed oftenest.

The gentleman will understand that he will not make much capital by saying what he has said on this subject. Of all measures that have been brought before this House for consideration not one has ever received more earnest, continuous, persistent, and faithful attention, or has undergone more investigation and discussion than this; and I think the gentleman is mistaken in his suggestions that he fears the conference will not reach any results. If it shall lead to no results it will be because the power which has prevented action heretofore will continue to control the whole question and prevent the giving of any re-lief to the people. I am sure the House conferees will leave no efforts untried to secure a practical result as soon as possible.

[Here the hammer fell.]
Mr. HERBERT. I now yield ten minutes to the gentleman from

Maine [Mr. BOUTELLE].

Mr. BOUTELLE. Mr. Speaker, I regret exceedingly that my col-league, the chairman of the Committee on Naval Affairs, seems unwilling to make the frank amendment of his remarks which I had expected him to make. He stands recorded in his speech, printed after the de-bate and vote upon the naval increase bill, as arraigning the Republicans on this side of the Chamber for opposition to the bill which by the RECORD they are shown to have favored by voice and vote at every stage during the proceedings on that question. But as my colleague seems unwilling to modify his remarks in that regard, I will leave the RECORD to stand and speak for itself.

There is one other passage in the chairman's speech to which I feel it my duty to call attention. In the closing part of his remarks, in a very eloquent eulogy of the personnel of the Navy, the gentleman from Alabama said, after citing the gallant acts of John Paul Jones, of Preble, Perry, Hull, McDonough, and Lawrence, in the war of 1812:

Look at our civil war-at Federals and confederates-Americans all.

And then the chairman of the Naval Committee of the United States House of Representatives went on to enumerate a list, selecting such names in the order of merit as it appeared to his mind, as the men who had rendered illustrious that great branch of our military service. And his enumeration was in this order:

his enumeration was in this order:

There was Catesby Jones in the Merrimac at Hampton Roads; Buchanan on the Tennessee in Mobile Bay; Brooke, who designed the great ironclad; Hunter Davidson constructing torpedoes; Maffit, with a genius born of audacity, running the blockade in open day in the presence of a hostile fleet, whose officers could not believe, until the feat was almost accomplished, that an enemy would dare to attempt it; and there was Waddell in the Shenandoah, and Semmes, bold rover of the seas, who developed that branch of warfare inaugurated by the United States in the war of 1812, and whose wonderful career was cut short only when those two American game-cocks met—the Alabama and the Kearsarge. All these were officers trained in the American Navy.

And on the Union side there were the passage of the batteries at Vicksburg, the capture of the forts on the Mississippi, the exploits of the fleet at Fort Fisher, and many other engagements in which officers and men distinguished themselves by their gallantry. There was Porter, bold, indefatigable, fertile in expedient; John Rodgers, chivalrous and cultivated; Jouett, full of dash and courage; and Dupont and Truxtun and Farragut; and there were Worden and his men, whose courage in trusting themselves to go down in the untried Monitor and out to sea, while the waves dashed over it, even surpassed, if possible, the gallantry with which they fought that vessel when it was in that great contest with the Merrimac.

Now, without dwelling upon the question of teste involved in this

Now, without dwelling upon the question of taste involved in this classification of the naval heroes of the war, I am willing to assume for the moment that the mind of my friend may have reverted to other days, and he may possibly have thought for the time being that he was addressing another congress that once assembled in another place within the limits of his own State. But to the ordinary reader of American history it seems to me that the heroes of the United States Navy would appear in a different order and I would be unfaithful to my own convictions of justice to the gallant men of that splendid corps were I to fail to call attention to this remarkable enumeration of the men who are held up to the admiration of the country by the official representative of the naval branch of the service in a public speech in the Congress of the United States. Here are several men of the confederate service placed first on the roster of fame as officers in the Navy of the United States. Three of these were comparatively obscure officers of the Navy; three others who are thus honored, Semmes, Maffit, and Waddell, won a sort of distinction not generally coveted by brave men, and were only saved from being classed as corsairs by a construction of maritime law now happily become obsolete.

Mr. Speaker, I am sorry that the gentleman from Alabama when he saw fit to speak of the great names that the Navy had given to this country failed to make a different classification. If I had made up the gentleman's list for him I would most cheerfully have given the first place on the list to a man of Southern birth.

I should have been proud to have placed first a name which the gen-tleman has relegated to a subordinate and obscure position in his catetleman has relegated to a subordinate and obscure position in his category. I should have been proud to have named first, as the history of the Navy, the history of the country, and the common award of mankind would place first, the name of "that noblest Roman of them all," David Glascoe Farragut, of Tennessee. I would have named other officers from that part of our land. I could have named men who, filled with that nobler than mere physical courage, remained in spite of every personal influence faithful to the country's flag; who, though nurtured and trained under the influence of that fatal dogma that made a man's supreme allegiance due to his State rather than to that made a man's supreme allegiance due to his State rather than to his country, yet, when the hour of trial came, rose superior to early prejudice, resisted the seductive pleadings of State-rights' advocates, and held more sacred than all other obligations the oath they had taken in their youth to pledge "their lives, their fortunes, and their sacred

in their youth to pledge "their lives, their fortunes, and their sacred honor" to the defense of their common country.

And first, I would name that peerless naval chieftain and hero, Admiral Farragut, a name which recalls the glories of New Orleans and Mobile Bay and Vicksburg, and all the grand achievements that have placed his name unchallenged among the greatest captains of the world's history; I would add the names of Stribling and Shubrick, of South Caroline both of whom head greatest training hoth of whom head greatest training hothers. Carolina, both of whom had grown gray in their country's service when the war broke out, and who devoted their last years as they did their first to the service of their country. South Carolina has always been foremost in its claims of chivalrous devotion to the State, and has made recognition of State supremacy more arbitrarily the test of public favor than any other community; and this consideration adds to the credit and the honorable significance of the fact that of all the officers of the United States Navy from the State of South Carolina who had reached the grade of commander at the outbreak of the war only two of them deserted the flag of the nation to follow the flag of the confederacy. Those two were gallant officers in the olden time—Duncan N. Ingraham, who gained a national fame by his rescue of Martin Koszta from an Austrian fleet, and Henry J. Hartstene, who led a famous polar expedition and delivered the rescued Resolute to the British Government. These men rendered faithful service to their country before the war and conspicuous service to the confederacy, but they failed to find mention in the gentleman's list.

But grander and more illustrious to my mind are those sons of South Carolina who remained true to the flag they had sworn to defend in spite of all temptation, and who fought gallantly to preserve the life of the American Republic and to render it possible for the gentleman to speak of a common country to-day. I recall a number of such names that deserve to be remembered and ought to be mentioned here. William B. Shubrick, Cornelius K. Stribling; John L. Misroon, who, when in command of the frigate Sabine, in 1862, tenderly cared for the welfare of two sisters whose residences were within the lines of the two armies, while he sturdily and gallantly fought his own brother on the confederate side; Edward Middleton, who gave up home and property as a sacrifice to his sense of duty; Percival Drayton, that magnificent lieutenant of Farragut, one of the noblest officers whose name ever illumined the roster of any service; Drayton, in the Pocahontas, fighting his own brother in chief command on the confederate side, holding Stono River against the rebels in 1862, gallantly assaulting Fort McAllister and Fort Sumter in 1863, and acting as Farragut's trusted fleet captain in that magnificent passage of the forts in Mobile Bay, everywhere earning fresh laurels, and dying at the close of the war in the fullness of his powers, but too soon for his grateful country to reward

Charles Steedman, my old and revered commander, son of a former mayor of Charleston, and who had himself shouldered a musket on the Union side in nullification times, was another gallant gentleman who early won distinction on the Bienville at Port Royal, and afterward on the Paul Jones earned the honors that he so gracefully wears as a retired rear-admiral. And there were J. P. Bankhead and H. Rolando, also from South Carolina, but true to their allegiance when the trial

These sons of South Carolina were so conspicuous in their loyalty to the Union cause that the Legislature was said to have passed an act denouncing them by name as forever infamous. When the gallant denouncing them by name as forever infamous. When the gallant Drayton was informed of this reported action of the Legislature of his native State he is said to have quietly remarked that he should endeavor to obtain a certified copy of the act, and would leave it to his posterity as the highest honor ever conferred upon him.

Another name that I would wish to add to the list of the Southernborn naval heroes of the war is that of Alexander C. Rhind, of Georgia, under whose command I feel it an honor to have served. and impetuous officer, when in 1863 he was in command of the doubleturreted iron-clad Keokuk in the great naval assault on Fort Sumter, ordered his pilot to put his vessel as near the fort as her draught of water would admit, that he might try his heavy guns at short range upon the brick walls. The little vessel, having the lightest armor of any of the ironclads, was placed within 500 yards of the fort and held her position thirty minutes, during which time she was struck ninety times and nineteen shot went through her at and below the water-line; but she was bravely handled to the last, and sank at her anchors in the

channel next morning.

A colored pilot had been assigned to the Keokuk, and the captain, with some of the traditional prejudice, was doubtful whether a negro could have the nerve for such a desperate battle. After the fight he frankly attested that no man could have been cooler, that the colored pilot "handled the ship in that hell of fire as though we had been on

drill."

The intrepid Rhind is now a rear-admiral on the retired-list, and the pilot who shared the honors of that splendid exploit is a native of South Carolina, and now worthily represents his people on this floor,

Hon. ROBERT SMALLS.

If I had made out the gentleman's list I would have given the meed of praise to other tried and true men of the South, to whom the nation owes its gratitude. Upon the active-list of the Navy in 1860 were seventy-nine captains, which was then the highest grade; of these seventy-nine there were twenty-one of Southern birth, of whom eleven went into the rebellion. Of one hundred and fourteen commanders then on the active-list forty-one were of Southern birth and nineteen of the forty-one seceded. So that of the one hundred and ninety-three officers of the two highest grades of the Navy when the war began sixty-three, or one-third, were of Southern birth, and less than one-half of them proved regreat when their country summended them to half of them proved recreant when their country summoned them to its defense.

Among those who reached the highest rank during the war were Admirals Farragut, of Tennessee; S. P. Lee, of Virginia, long in command of the North Atlantic squadron; H. H. Bell, of North Carolina, Farragut's second in command at New Orleans; W. B. Shubrick, of South Carolina, and E. E. F. Lavalette and William Radford, of Virginia. The rank of commodore was won by Misroon, Glendy, Turner, Smith, W. D. Porter, and Craven; and as captains there were Taylor, Drayton,

W. D. Porter, and Craven; and as captains there were raylor, Draylon, Winslow, Berrien, Carter, Steedman, Middleton, Pennock, Scott, Patterson, and a long list of others.

Of these John A. Winslow, of North Carolina, in command of the Kearsarge, fought and sunk the Alabama in a little more than an hour, and thus summarily ended the career of Semmes as a "bold rover of the seas," the first time that he encountered an antagonist in fair fight.

I have thus confined myself to suggesting the names of Southern-born men which might well have been placed by the chairman of the Naval Committee on his roll of honor; and they are the more entitled to the distinction because of the powerful influences they had to resist in remaining true to their country.

There are other names from other sections of the country that will be fitly remembered side by side with those of Farragut and S. P. Lee and Bell and Drayton and Winslow and Steedman and Rhind and their

noble associates.

History will never let injustice be done to Dupont's first great and inspiring victory at Port Royal; to Foote's early triumphs at Donelson and Fort Henry; to Porter's brilliant achievements on the Mississippi; to Rowan's gallant seizure of the North Carolina sounds; to Thatcher, Palmer, and Simpson, at the capture of Mobile; to Worden's timely and glorious defeat of the Merrimac with the Monitor at Hampton Roads; to Rodgers capturing the Atlanta; to Roe, in the Sassacus, fearlessly grappling with the iron-clad Albemarle; to Cushing's startling exploits; to Craven's self-sacrificing chivalry, as he uttered the memorable words, "After you, pilot," and went down with his sinking ship.

These are but a few of the shining lights among the galaxy of heroes whose deeds will render the United States Navy illustrious forever. I need not attempt to enumerate them here. My object has been simply to hold up to the future heroes of the naval service and to the youth of our land examples that will tend to increase their devotion to their country and strengthen the sense of the paramount duty they

owe to its institutions and its flag.

The SPEAKER. The time of the gentleman has expired.

Mr. BOUTELLE. I trust the gentleman from Alabama will allow

me to complete the enumeration.

Mr. HERBERT I have to yield to the gentleman from Connecticut

[Mr. BUCK].

Mr. BOUTELLE. Then I ask permission to extend my remarks in the RECORD.

There was no objection.

Mr. HERBERT. I yield to the gentleman from Connecticut [Mr.

BUCK. One point ought to be understood. The question before the House is whether we shall concur in the amendments of the Senate to the substitute bill. A week ago last Saturday while considering the original bill in Committee of the Whole we amended that original bill by providing that the material of which these ships should be built should be made in this country, but after the original bill came from the Committee of the Whole into the House a substitute was passed for it, and that substitute unfortunately contained those identical provisions which had been stricken out in Committee of the Whole, and it was difficult to get at the matter, owing to parliamentary rules. The bill was accordingly passed in that form. It went to the The bill was accordingly passed in that form. It went to the The Senate adopted the substitute bill, which struck out this very provision in relation to armor and material purchased abroad, sent it back in this shape, and it is now precisely as it came out of Committee of the Whole House on the state of the Union a week ago last Saturday as regards the purchase of materials abroad. All that this substitute bill provides in regard to that matter is that the shafting may be purchased abroad if it is impossible to obtain it here. I hope that every gentleman on this floor will vote to concur in this amendment. The gentleman from Alabama [Mr. HERBERT] has yielded and is perwilling to support the amendment.

Mr. HERBERT. Mr. Speaker, I shall not undertake to reply at length to the aspersions of my colleague on the committee from Maine [Mr. BOUTELLE]. His mind is of so peculiar a character that if, in enumerating the exploits of confederate and Union officers during the war, which I did solely for the purpose of illustrating the sailor-like qualities developed by training in the American Navy, I had placed the confederates last and the Union men first, his comment would have been that I had reserved the confederates for a climax, mentioning them last, and that I had put the names of the Union men in a position of comparative obscurity. I despair, Mr. Speaker, of ever mentioning confederates and Federals in one breath on this floor in such a manner as to satisfy the gentleman from Maine. He says it is a question of taste. I think so too, and I submit to the House and to the country the question whether he has shown good taste this morning in his comments upon the closing words of my speech on this.

Now, as to the reply made by the other gentleman from Maine [Mr. REED] as to his course in regard to this bill. I think this House will agree with me not only that I spoke the truth as I understood it, but that his reply shows that I did understand the whole truth. the question was up of setting a day for the consideration of this bill, his comment upon the proposition in the first place was that there would be no opportunity to amend the bill if it was to be considered in the House as in Committee of the Whole. Now I at that time gave assurance on behalf of the committee that there should be the fullest and fairest opportunity not only to debate the bill but also to amend it. That, however, did not satisfy the gentleman. He admits, too, that afterward when the question came up whether we should reach the hour when we could again ask for the setting of a day for the consideration of this bill, he voted against it.

Mr. REED, of Maine. I never did anything of the sort to my knowl-

Mr. HERBERT. I say that you did, for I was particularly interested and I watched you.

Mr. REED, of Maine. I say if I did I did not know it.

Mr. HERBERT. The gentleman did, and I am sure he will not deny He can not deny it.

Mr. REED, of Maine. There may have been many times when you intended to get up the bill and nobody knew it.

Mr. HERBERT. Ah, but I announced it, and announced it as loudly as I could, and I saw the gentlemen on that side voting against reach ing the hour in which I could move to fix a day. The gentleman admits that he may have so voted, but says it was because there was other business more urgent.

The gentleman has not told us what the business was which was so

important that he and other gentlemen on that side preferred it to the consideration of this bill. What was it?

And now, Mr. Speaker, I did not desire the political turn which this discussion had taken. I endeavored to put this bill to a vote without any discussion whatever and with as little explanation as possible, but gentlemen on the other side have insisted upon discussing the political aspects of the question and I accept the challenge. I wish I had time to go into it fully, for I am perfectly willing to contrast the course of this Democratic House under a Democratic administration with that of the Republicans when they had control of the whole Government during the Forty-seventh Congress. Did they pass any such bill as this providing for ships that would cost in the end over \$10,000,000? They had the power; why did they not exercise it? I know their answer is that they demand a larger appropriation now than gentle-men on this side of the House are willing to vote for. If that demand of yours, gentlemen, is not made for political effect, if it is made for the benefit of the country, if you make it because you really want to increase the Navy, why did not you increase the Navy when you had the power?

Mr. REED, of Maine. Will the gentleman permit me to tell him?

Mr. HERBERT. No; I have not the time.

Mr. REED, of Maine. I will tell you if you will give me time.

Mr. HERBERT. I understand. I know the gentleman can make a

plausible answer to almost any proposition; but I leave it to the country to answer the question.

Mr. REED, of Maine. You do not want me to answer it, then? All

Mr. HERBERT. The gentlemen upon the other side say that this is only a small appropriation, three and a half million dollars, and they ask why I voted against the original bill. I stated my reasons fully when I moved the substitute. This Democratic House passed this bill when I moved the substitute. This Democratic House passed this bill appropriating \$3,500,000 providing for more ships, appropriating more money, and making a more substantial increase of the Navy than has been made since the close of the civil war. That fact speaks for itself.

Mr. Speaker, look at the record. The naval appropriation bill just passed by this Congress amounts to only \$13,000,000, or a little less. The present bill includes three million and a half of dollars; and this

is all that can be spent advantageously during the fiscal year upon which we have already entered. This appropriation of three and a half million dollars, added to the \$13,000,000 to which we have reduced the naval appropriation bill, would be sixteen and a half million dollars. Now, with this sixteen and a half million dollars every year, under Democratic administration, we shall gradually build up an efficient navy. Before the Democrats came into power in this House ten years ago what did we find? The expenditures for the naval service in 1876 amounted to \$18,963,309.82, in round numbers to \$19,000,000 annually nearly \$2,500,000 more than will be spent this year. This is Democratic administration. I put it before the country. We provide for the increase, the efficient increase of the Navy. Our appropriation bill of less than \$13,000,000 included more than \$185,000 for the completion and armament of the four ships begun under the former administration. In this bill we provide for the completion of four monitors and for the building of two armored vessels, one cruiser, one dynamite cruiser, and one torpedo boat. With an expenditure of \$17,500,000 per annum for four years, under a Democratic administration, we can complete all these vessels, complete the four vessels ordered by the last Congress, and the armament of all the vessels ordered by both Con-Thus will a Democratic administration gradually build up a But the Republicans, while they spent in the ten years preceding and including 1876 \$21,000,000 a year and in the year 1876 spent \$19,000,000, left our Navy to rot, to go down to the pitiable condition in which we now find it, and from which we are endeavoring to rescue it.

Mr. Speaker, I demand the previous question.
Mr. BRECKINRIDGE, of Arkansas. Mr. Speaker, pending the demand for the previous question, I desire to submit an amendment in lieu of one of the Senate amendments in which the gentleman wishes to concur.

The SPEAKER. The gentleman from Arkansas, as the Chair understands, desires to move to concur with an amendment. That is a separate and distinct motion, which will be entertained afterward. The question is first on ordering the previous question.

Mr. BOUTELLE. I ask the gentleman from Alabama [Mr. Her-

BERT] to allow me to occupy five minutes for the purpose of concluding my remarks before the previous question is ordered. [Cries of "Regular order!"]

The previous question was ordered.

The SPEAKER. The gentleman from Arkansas moves that the amendment of the Senate to section 6 be concurred in with an amendment, which will be read.

We would like to know the exact position of this Mr. RANDALL.

question

The SPEAKER. The Chair will cause the clerk to read first what the Senate proposes to strike out, and afterward what the gentleman from Arkansas moves to insert in lieu of that which the Senate amendment would strike out.

Is debate now in order? Mr. RANDALL.

The SPEAKER. The Chair thinks not, except by consent.

Mr. RANDALL. I would like to occupy a moment, if the House will permit.

Mr. REED, of Maine. There will be equal time allowed on this side,

The SPEAKER. If there be no objection, the gentleman from Pennsylvania [Mr. RANDALL] will be permitted to make a statement, and afterward equal time will be allowed on the other side.

Mr. RANDALL. I only wish to say that, in my judgment, those of us who favor the original House bill had better vote simply to con-I believe that concurrence with an amendment might endanger the bill altogether, so that we would not secure the three and one-half million dollars now provided for.

Mr. REED, of Maine. I desire to say that it seems to me we had better concur absolutely with the Senate, else we may be in danger of losing even this "half loaf," which, by reason of the engineering of the Committee on Naval Affairs seems to be all that we can get.

The SPEAKER. The Clerk will read the amendment proposed by

the gentleman from Arkansas.

The Clerk read as follows:

Insert in lieu of the part stricken out the following: Provided always

The SPEAKER (interrupting the Clerk). The Chair will state that there are several parts stricken out in the Senate amendments.

Mr. BRECKINRIDGE, of Arkansas. There are not several parts stricken out in the sixth section. This is offered as an amendment to the amendment of the Senate to the sixth section.

Mr. DINGLEY. Can this amendment be offered after the motion

has been made to concur and the previous question ordered?

The SPEAKER. The Chair thinks so, because a motion to concur in a Senate amendment with an amendment takes precedence of a motion simply to concur or non-concur; and for this obvious reason: if the House refuses to concur, that is equivalent to non-concurrence; and if it refuses to non-concur, it is equivalent to concurrence. Hence a vote on the motion simply to concur or non-concur might take the whole subject away from the House, so that there might be no opportunity to offer an amendment unless it were allowed in the first instance.

Mr. DINGLEY. But if the House desired to concur in a Senate amendment with an amendment, could it not vote down the previous

question?

The SPEAKER: This is a separate motion. The previous question was ordered upon the motion to concur. This is a distinct motion to concur with an amendment.

Mr. RANDALL. But the previous question having been ordered upon the motion to concur, does not that cut off any modification of that

motion in any particular?
The SPEAKER. The Chair thinks not, according to the rulings heretofore, which have been made after a good deal of consideration in the House; because the motion of the gentleman from Arkansas to concur in the Senate amendment with an amendment is not an amendment to the motion to concur, but a separate and distinct motion.

Mr. HERBERT. This amendment the gentleman offers to the first

amendment.

The SPEAKER. The Chair understands it and is causing it to be read.

Mr. BRECKINRIDGE, of Arkansas. If there be no objection I will withdraw it.

The amendments were then concurred in.

Mr. HERBERT moved to reconsider the vote by which the Senate amendments were concurred in; and also moved that the motion to reconsider be laid upon the table.

The latter motion was agreed to.

BULLETINS OF BUREAU OF ETHNOLOGY.

The SPEAKER laid before the House joint resolution (H. Res. 120) to print the annual bulletins of the Bureau of Ethnology, returned from the Senate with amendments; which was referred to the Committee on Printing.

L. B. TOWNSEND AND OTHERS.

The SPEAKER also laid before the House a bill (S. 2126) for the relief of L. B. Townsend, Louis S. Lovell, W. C. Page, Alonzo Sessions, Hampton Rich, Harvey Harter, Benjamin Harter, and Peter Hackett; which was referred to the Committee on Claims.

PANAMA CANAL.

The SPEAKER also laid before the House concurrent resolution providing for the printing of special intelligence report by Lieutenant Kimball and Naval Cadet Capp, United States Navy, upon the progress of the Panama Canal during the year 1885, returned from the Senate with an amendment and request for conference on the disagreeing votes of the two Houses; which was referred to the Committee on Printing.

EXECUTIVE DOCUMENT NO. 85.

The SPEAKER also laid before the House concurrent resolution providing for the printing of Senate Executive Document No. 85, Fortyninth Congress, returned from the Senate with amendment and request for a conference on the disagreeing votes of the two Houses; which was referred to the Committee on Printing.

REPORT ON ART AND INDUSTRY.

The SPEAKER also laid before the House concurrent resolution of the Senate that there be printed and bound 5,000 additional copies of the report of the Bureau of Education on art and industry; of which 1,000 copies shall be for the use of the Senate, 2,000 copies for the use of the House, and 2,000 copies for the Bureau of Education.

LEAVE OF ABSENCE. .

Leave of absence was granted by unanimous consent in the following cases:
To Mr. PEEL, for the remainder of the session.

To Mr. OUTHWAITE, for three days, on account of important busi-

To Mr. Cabell, until Saturday next, on account of important business.

To Mr. Brown, of Ohio, indefinitely, on account of illness in his family.

To Mr. OWEN, on account of sickness.

To Mr. Croxton, for five days, on account of important business. To Mr. Johnson, of New York, for the remainder of the session.

To Mr. MARTIN, for the balance of the session of the Forty-ninth Congress, on account of urgent business.

MRS. E. R. TEMPLETON.

On motion of Mr. BYNUM, by unanimous consent leave was granted to withdraw from the files of the House papers in the case of Mrs. E. R. Templeton, and they were referred to the Committee on Invalid Pensions, no adverse report having been made thereon.

HARBOR OF NEW YORK.

Mr. HEWITT, by unanimous consent, was granted leave to print in the RECORD the following correspondence with the Chamber of Com-merce of the State of New York in reference to the harbor of New York.

WASHINGTON, D. C., July 25, 1886.

Washington, D. C., July 25, 1886.

Dear Sir: An examination of the documents published in the Congrissional.

Record since Friday, July 23, will show that on the 10th of June, 1886, at a joint
session of the executive committee and the committee on harbor of the chamber of commerce, a resolution was adopted, as follows:

"Resolved, That these committees learn with pleasure and gratitude that
through the efforts of Senator Warner Miller an appropriation of \$1,000,000
has been placed in the river and harbor bill for the improvement of New York
Harbor. And we respectfully request that such amount be placed subject to
the discretion and judgment of the Secretary of War, and not be entirely confined to any one locality or plan of improvement.

"Attest:

"Cornellus N. BLISS,

"Chairman Executive Committee,
"A. FOSTER HIGGINS,
"Chairman Committee on the Harbor."

It is apparent from this resolution that the item of \$1,000,000 had been inserted

It is apparent from this resolution that the item of \$1,000,000 had been inserted without any application having been made therefor by the chamber of commerce. Its approval was given after such insertion in the river and harbor bill, upon the distinct condition that its expenditure should "not be entirely confined to any one locality or plan of improvement."

The language used in the river and harbor bill directing this expenditure is as follows:

"Harbor of New York: Continuing improvement to converge to the converge of the converge of

The language used in the river and harbor bill directing this expenditure is as follows:

"Harbor of New York: Continuing improvement to secure a 30-foot channel at mean low water at the Sandy Hook entrance to the harbor, upon such plans as the Secretary of War may approve, \$750,000."

You will observe that this appropriation is limited to continuing improvement at Sandy Hook. The only improvement in progress is under an appropriation of \$200,000 made in the last river and harbor bill for dredging Gedney's channel, and therefore this additional appropriation could only be used for continuing these dredging operations, the plan of which would be subject to the direction of the Secretary of War. This I understand to be in direct contradiction of the resolution of the executive committee above quoted, which expressly protests against any such limitation.

Under these circumstances I felt justified, and in fact constrained to resist the adoption of the appropriation; and I was confirmed in this course by communications which had been received from Mr. Higgins, the chairman of your harbor committee. What I said has already appeared in the Record, and has received the approval of Mr. Higgins, speaking on behalf of the chamber of commerce.

commerce.
You may imagine my astonishment, therefore, when I find in the Record of
July 25 a letter signed by "Cornelius N. Bliss, chairman of executive committee,
approved by James M. Brown, president, Charles S. Smith, vice-president," addressed to "Hon. Warner Miller, United States Senate, Washington, D. C.,"
under date of July 23, from which I quote the following:
"Mr. Hewirt's remarks in the House of Representatives relative to an appropriation for New York Harbor, as reported in the Record of the 21st instant,
must have been made under serious misapprehension of the position of the

chamber of commerce.

"The statement of Mr. Hewitt places the chamber before Congress as not knowing its own mind or of being divided in its counsels, neither of which is

Having acted upon the distinct resolution above quoted, and strictly in accordance with its terms, and having received the approval of your chairman of the harbor committee in thus acting, it would seem that the statement made about division in the counsels of the chamber of commerce must be true. For this I am not responsible, my desire being, as a Representative and as a member of the chamber of commerce, to secure to New York the improvement of its harbor upon some well devised system which will give us a channel of at least 30 feet of water at low tide, without wasting the public money upon tentative schemes which have not received the approval of either the engineers of the Army or of any competent board of experts. I am the more confirmed in this course by the following extract from the letter of General Newton, of the 23d instant, to Hon. A. S. Willis, chairman of the Committee on Rivers and Harbors:

instant, to Hon. A. S. Willis, chairman of the Committee on Rivers and Harbors:

"Iknow of no engineer of any experience who would rely upon dredging in this harbor, except as a temporary measure in default of a better method, and it may be said that there is no certainty even of temporary benefit from dredging to last sufficiently long to prove of advantage to navigation."

In view of the apparently contradictory position of the chamber upon the questions at issue, I deem it due to me that you will as soon as possible make an authoritative statement as to what the chamber of commerce really wishes to have done in reference to appropriations for the harbor in the pending bill. Owing to divided counsels, and apparently contradictory action, Senator Miller, who is doubtless as desirous of carrying out your views as I am, and myself are placed in the position of antagonizing each other, when both of us, I have no doubt, sincerely desire to co-operate for the good of the harbor. I venture, therefore, to ask a reply to this letter by return of mail, or by telegraph, if possible, in order that it may be used before the conference committee on the river and harbor bill shall make their final report.

I have the honor to be, very respectfully, your obedient servant,

ABRAM S. HEWITT.

James M. Brown, Esq., President of the Chamber of Commerce, New York city.

CHAMBER OF COMMERCE OF THE STATE OF NEW YORK, New York, July 26, 1886.

Dear Sir: I am in receipt of your favor of July 25 and have submitted the same to the executive committee and to the committee on harbor and shipping of this chamber and beg to say that I officially, the executive committee of the chamber, the chairman of the harbor and shipping committee, A. Higgins, esq., all unite in confirming the letter of Mr. C. N. Bliss of July 23, addressed to Senator Miller, and to which you have referred.

We also confirm the joint resolution of the executive committee and of the committee on harbor and shipping of this chamber of June 10, which was as follows:

"Resolved, That these committees learn with pleasure and gratitude that

through the efforts of Senator Warner Miller an appropriation of \$1,000,000 has been placed in the river and harbor bill for the improvement of New York Harbor, and we respectfully request that such amount be placed subject to the direction and judgment of the Secretary of War, but not to be entirely confined to any one locality or plan of improvement."

I assure you that in our united judgment there is no conflict in this chamber as to the desired appropriation. We agree with you that a commission is wise and desirable, but we emphatically support the desirability of the appropriation of the \$750,000 at this time and to be expended upon such plans as the Secretary of War may approve. Under the wording of the bill I understand the Secretary of War has full power over the plans to be adopted as well as the expenditure of this sum. If this is not carefully guarded in the bill, as your letter seems to convey that it is not, I am sure no one will object to modifying the phraseology of the bill to meet this requirement. This change would, I hope, meet your present objections, and I trust you will see your way clear to make the suggested change and then give it your hearty support.

Yours respectfully,

JAS. M. BROWN, President.

JAS. M. BROWN, President.

Hon, Abram S. Hewitt,
House of Representatives, Washington, D. C.

CHAMBER OF COMMERCE OF THE STATE OF NEW YORK, New York, July 19, 1886,

New York, July 19, 1886.

Dear Sir: The chamber of commerce has endeavored to embody in the bill S. 2157, now before the House after being passed by the Senate, legislation deemed absolutely necessary to the protection and preservation of this harbor, and, as well, prudent provisions whereby the Government will be saved useless or inexpedient expenditure of money, all the results of many years of ineffective State measures and efforts, and as the only hope of relief from acts of vandalism only to be reached by this bill. In behalf of the people of this State and city, and as well of the whole nation to which this occan highway is so important and valuable, we respectfully ask your individual consent and action in having this measure taken up and passed at this session. Your compliance can only be creditable to your wisdom, and the boon to this port and city will be so important that we will ever remember your exertions for us with gratitude.

Yours truly,

JAS. M. BROWN.

JAS. M. BROWN,
President Chamber of Commerce.
CHAS. S. SMITH,
Via President

CHAS, S. SMITH,
Vice-President,
Vice-President,
CORNELIUS N. BLISS,
Chairman Executive Committee,
SOLON HUMPHREYS,
Treasurer,
A. FOSTER HIGGINS,.
Chairman of Committee on Harbor and Shipping.

Hon. Abram S. Hewitt, House of Representatives, Washington, D. C.

PUBLIC BUILDING, ANNAPOLIS.

Mr. COMPTON. I move to discharge the Committee of the Whole House on the state of the Union from the further consideration of a bill (S. 201) to provide for the erection of a public building in the city of Annapolis, Md., and put the same upon its passage.

The bill was read, as follows:

The bill was read, as follows:

Be it enacted, &c., That the Secretary of the Treasury be, and he is hereby, authorized and directed to purchase a site for, and cause to be erected thereon, a suitable building, with fire-proof vaults therein, for the accommodation of the post-office, custom-house, and other Government offices, at the city of Annapolis, Md. The plans, specifications, and full estimates for said building shall be previously made and approved according to law, and shall not exceed for the site and building complete the sum of \$100,000: Provided, That the site purchased shall leave the building unexposed to danger from fire in adjacent buildings by an open space of not less than 50 feet, including streets and alleys; and for the purposes herein mentioned the sum of \$100,000 is hereby appropriated, out of any moneys in the Treasury not otherwise appropriated, to be expended under the direction of the Secretary of the Treasury: Provided further, That no money appropriated for this purpose shall be available until a valid title to the site for said building shall be vested in the United States, nor until the State of Maryland shall have ceded to the United States exclusive jurisdiction over the same, during the time the United States shall be or remain the owner thereof, for all purposes except the administration of the criminal laws of said State and the service of civil process therein.

The SPEAKER. Is there objection?
Mr. BURROWS. Are terms of United States courts held there?
Mr. COMPTON. I hope the House will indulge me for a few minutes to state the case.

Mr. BURROWS. I only want an answer to my question.
Mr. COMPTON. No, sir; there is not any United States court held there.

Mr. BURROWS. What are the receipts?

The office pays nearly \$10,000. What are the receipts from customs? Mr. COMPTON.

Mr. BURROWS.

Mr. COMPTON. The receipts from customs, and I speak only from memory, not having the figures at hand, are from four to five hundred

Mr. BURROWS. How much rent is paid for the post-office?
Mr. COMPTON. If the gentleman will allow me, I will state ex-

actly the reasons for this bill.

Mr. BURROWS. I do not wish to object, but simply call attention to these facts, because otherwise I am apprehensive that the bill might provoke lengthy discussion.

Mr. COMPTON. If the gentleman will hear me for a moment I

think he will be satisfied.

The SPEAKER. The gentleman from Michigan states that he does

Mr. BRECKINRIDGE, of Arkansas. I am not willing that the right to object should be altogether waived. I am willing to hear a statement from the gentleman as to the necessity for this building subject to the right to object.

Mr. COMPTON. This bill passed the Senate in the Forty-eighth

Congress by a unanimous vote and came to the House, where it was reported back unanimously from the Committee on Public Buildings and

ported back unanimously from the Committee on Public Buildings and Grounds accompanied by their report.

The facts are about as I shall state them. In the first place, as every one knows, Annapolis is the capital of the State of Maryland. It is, I believe, with but two exceptions, the only State capital in the country which has not had provision made for a public building of some kind. Mr. ADAMS, of New York. What is the necessity for it there?

Mr. COMPTON. The necessity is that there is no building at present available which can be rented to serve the purposes for which this building is contemplated. Twice the post-office in that city has been robbed, and a bill has been already passed by Congress at my suggestion appropriating nearly \$6,000 on account of money lost by robbery because of the insecurity of the building.

Everybody knows that Annapolis is the seat of the Naval Academy, one of the most important, if not the most important institution of a

one of the most important, if not the most important institution of a public character in this country. There are connected with that establishment, from the superintendent down, nearly or quite one thousand Government employés, and there is a constant communication between the Government and that institution.

Let me say in addition, Mr. Speaker, that the receipts from this office in the Treasury amount to between seven and ten thousand dollars over and above the expenditures; and \$100,000 worth of business is done

which gentlemen are familiar in the post-offices of the system with which gentlemen are familiar in the post-offices of the country.

I do think that if there is a bill before this Congress which ought to claim the consideration of the House, and which is entitled to favorable claim the consideration of the House, and which is entitled to favorable attention at the hands of the Congress of the United States, it is the bill now pending before you, and for which I ask consideration to day.

Mr. BRECKINRIDGE, of Arkansas. I will state one or two reasons why I feel constrained to oppose the bill.

The SPEAKER. Does the gentleman object? Because if there is objection the bill is not before the House for discussion.

Mr. BRECKINRIDGE, of Arkansas. I will not object to consideration if I may be permitted to give my reasons for opposing the bill. But without this privilege I shall not give my consent to its considera-

The SPEAKER. Then the Chairwill ask if there is other objection?
Mr. WARNER, of Ohio. Let us have a vote upon it.
The SPEAKER. Of course there will be a vote if consent is given

for its consideration; but the Chair desires now to know whether there is objection to its consideration.

Mr. BRECKINRIDGE, of Arkansas. I will consent to consideration upon the condition I have stated; otherwise I will not. I shall only consent with the understanding that I be permitted to make some remarks in opposition to the bill.

The SPEAKER. It will be open to debate if it is before the House

for consideration.

Mr. RANDALL: Would that give the gentleman from Arkansas one hour? For if so I shall have to object.

Mr. BURROWS. Can the report be read?

The SPEAKER. It can be as a part of the debate if the bill is con-

sidered.

Mr. BURROWS. I ask unanimous consent to have the report read,

subject to the right of objection.

Mr. RANDALL. If it gives the gentleman one hour on this bill I shall feel it incumbent upon me to object for the reason that I hope to have in the House a report from the conferees on the sundry civil bill, and I would not like to have the gentleman occupy an hour and keep me from taking up that report for consideration.

Mr. BRECKINRIDGE, of Arkansas. I have no intention of occupy-

ing over five or ten minutes.

Mr. RANDALL. Very well; I have no objection.
Mr. COMPTON. If permitted I will read the report.
Mr. O'NEILL, of Pennsylvania. Does this come up by unanimous consent?

The SPEAKER. Unanimous consent is being asked to take it up.
Mr. DINGLEY. I will reserve the right to object subject to the
same conditions made by the gentleman from Arkansas who announced his desire to be heard in reference to the bill.

The SPEAKER. Is there further objection to the consideration of the bill?

There was no objection.

Mr. BRECKINRIDGE, of Arkansas. The proposition here submitted is to spend \$100,000 for the construction of a public building in one of our towns. I have very serious doubts about my doing my duty in permitting this proposition to become a question of privilege at this time, for I am afraid the House is not very reliable in voting upon bills to erect public buildings.

Gentlemen will not fail to note that the gentleman from Maryland has stated only negative reasons why this expenditure should be made at this point. It is an old place, rich in Revolutionary traditions; but that does not furnish the commercial or business necessity for an ex-

penditure of this character.

The postmaster time and again has been robbed; but that is only a reason why we should vote a few hundred dollars to buy a burglar-

proof safe, and not a reason for our spending \$100,000 for a building to put the safe in. The gentleman wants a court-house, when he distinctly states he has no court. He wants a custom-house; and I hold in my hand the recommendation of the Secretary of the Treasury that this port be abolished as a port of customs. I have pending now before the Ways and Means Committee a bill that is indorsed by the Secretary of the Treasury to abolish that and similar ports where the cost of collecting the customs is more than \$2 for every \$1 collected. The receipts are \$875 a year, and the expenditures are \$2.51 for every dollar that is collected. And now it is proposed you should spend \$100,000 to provide a custom-house at a place where it is a shame that we maintain a customs port at all, and to provide a court-house for a place where you have no court to occupy it.

If the question should come up here of making that the seat of a United States court, of course it would receive fair consideration. But do you propose to forestall your liberty of action and your freedom of judgment by putting in \$100,000 as a hostage to compel you not to make yourselves ridiculous by refusing to give that place a court when you have agreed to give it a court-house, however unnecessary it may appear that they should have a court with all its expenses of mainte-

nance?

On these grounds I oppose this measure as a lavish and unwise piece of public policy. The gentleman has not stated what is the rental of his post-office. So far as the naval establishment is concerned we provide all the buildings that are necessary for the Naval Academy, and unless the record for this post-office is something like 5 per cent. and unless the record for this post-office is something like 5 per cent. on \$100,000, and if we take into consideration the line of expenses for a janitor and other things that always come along with these public buildings, there is not the slightest necessity or justification for erecting this public building or any other of a like character.

I am willing, although I have profound convictions in this case, to let this question be submitted to the House, but I will promise the

House I will be more scrupulous about discharging my duty if I am equally cognizant of such reasons for not erecting a public building than to grant unanimous consent again when a similar case comes up, if this bill passes. It is said I should permit a vote. I will incline to the generous and confiding side and permit a vote, and then we shall to the generous and confiding side and permit a vote, and then we shall see, and I have my fears and doubts about it, whether any proposition for erecting a public building can be too bad to pass. The tendency seems to be irresistible to stand together upon any and all propositions to vote away the public money, when the country is groaning under taxation and has a debt carrying interest which needs to be paid with surplus funds. I fully expect that this will be my last consent for the consideration of a bill proposing a lavish and unwarranted expenditure. penditure.

Mr. WARNER, of Ohio. I think on a measure like this we should have a yea-and-nay vote, at this stage of the session at any rate.

Mr. BLAND. Let the vote be first taken by a division.

Mr. McADOO. Is an amendment to the bill in order?

The SPEAKER. It is.

Mr. McADOO. I offer the amendment which I send to the desk. The Clerk read as follows:

Amend the bill by striking out "\$100,000" and inserting "\$20,000."

Mr. McADoo addressed the Chair.

Mr. BRECKINRIDGE, of Arkansas. With the permission of the gentleman from New Jersey [Mr. McADOO] I will reserve my time, yielding him what time he wants in order that I may retain the floor and not allow discussion to take too wide a range, as I promised the gentleman from Pennsylvania [Mr. RANDALL] that I would guard

The SPEAKER. The gentleman from New Jersey will, then, proceed in the time of the gentleman from Arkansas.

Mr. SCOTT. I understood the gentleman from Arkansas only claimed five minutes.

The SPEAKER. That is what the Chair understood. He stated to the gentleman from Pennsylvania, when that gentleman was about to

object, that he would not occupy more than five minutes.

Mr. RANDALL. I did not object to the gentleman from Arkansas [Mr. Breckinride] proceeding, but I did not want the right to occupy the floor for an hour should be given him, because in the mean time the sundry civil conference report might come in. Mr. BLAND. Let us have a vote.

The SPEAKER. The gentleman from New Jersey [Mr. McAdoo]

has the floor.

Mr. McADOO. Just one word in behalf of my amendment. Outside of the fact that the Legislature of Maryland meets once a year in this old, picturesque, and historic town of Annapolis, it is absolutely as stationary and dead commercially as the ancient, venerable, and interesting city of Alexandria in Virginia. I am sure that a \$20,000 building is more than sufficient to meet all the postal and revenue collection wears of this quiet and sedate old town of Annapolis. The lection wants of this quiet and sedate old town of Annapolis. The town has no commercial significance whatever, as is shown by the report of the Secretary of the Treasury asking that the customs-house at that point be abolished. It has no manufacturing interests. It has ceased long since to be a port of any considerable importance. Even in months with an R in them the native oyster comports himself in keeping with the quiet dignity of the place.

Mr. FINDLAY. Will the gentleman allow me a question?
Mr. McADOO. Yes, sir.
Mr. FINDLAY. The gentleman from New Jersey is on the Committee on Naval Affairs. Will he inform the House what part of the naval appropriation goes to the maintenance of the Naval Academy at Annapolis?

Mr. McADOO. That has nothing to do with the question, as my friend must know. I dislike to oppose my excellent friend from Maryland [Mr. COMPTON], but feel it to be my duty to ask at least a reduc-

tion of this appropriation.

Mr. COMPTON. Mr. Speaker—
Mr. BRECKINRIDGE, of Arkansas. How much time does the

gentleman want?

Mr. COMPTON. Five minutes, at most.

Mr. BRECKINRIDGE, of Arkansas. I yield the gentleman five

Mr. COMPTON. Mr. Speaker, I am surprised, sir, and I do not hesitate to express my surprise, at the opposition which has been manifested to this bill, particularly opposition coming from the quarters from which it does come. These gentlemen upon my right [Mr. Breckinrider, of Arkansas] and upon my left [Mr. McAdoo] have sat here and silently, without a murmur, have seen bills passed, and have helped to pass bills, of a similar character to this, bills of no more meritain for half so much merit as the one now pending before this House merit if of half so much merit as the one now pending before this House

which they are now opposing.

The gentleman from New Jersey says that the town of Annapolis is as dead commercially as the town of Alexandria. Sir, he does not know of what he speaks. He says that the town of Annapolis has no commercial interests and no manufacturing interests. Sir, there is being built to-day by capital from the State represented by the gentleman from Maine a railroad into that town which will bring there a trade and a connection which will make the town necessarily of commercial importance. Besides, sir, it has an oyster-packing interest which is worth ten times more than any manufacturing interest in the city of Alexandria, and very much more than many of the manufacting interests in the State which the gentleman from New Jersey represents.

Sir, as I said at the outset, this is the only capital of any State in this country, except possibly the capitals of Delaware and Florida, which has not an appropriation for a public building. This ancient town of Annapolis, connected closely as it is with this great national capital—the eyrie in which the young eaglets of the Republic are taught to plume their wings for the flights of their after lives—is certainly entitled to ask some consideration at the hands of this Congress.

Sir, who knows but that at the next robbery of the post-office of Annapolis, as a result of the opposition upon this floor to providing an adequate public building there, some Government document of value, incalculable in dollars and cents, may be carried away or destroyed? Two robberies have already occurred there. I appeal to this House not to treat this old historic town of Annapolis and its interests prejudicially when they have considered favorably so many other bills similar to this. I said that Annapolis was the only State capital which dicially when they have considered favorably so many other bills similar to this. I said that Annapolis was the only State capital which had not had an appropriation for a public building, except perhaps the capitals of Delaware and Florida. I have just been informed that Dover, the capital of Delaware, has a public building.

Mr. McADOO. Mr. Speaker, as a tribute to the eloquence of the gentleman from Maryland [Mr. Compton] I will modify my amendment so as to really the amount \$50,000.

ment so as to make the amount \$50,000.

Mr. TUCKER. Mr. Speaker, I rise to a question of almost personal

Mr. BRECKINRIDGE, of Arkansas. I yield the gentleman five min-

Mr. TUCKER. Mr. Speaker, in the absence of my friend the Representative of the eighth district of Virginia, in which the city of resentative of the eighth district of Virginia, in which the city of Alexandria is located, and as almost the senior member from Virginia (very soon to pass away from this scene), I feel constrained to rise to a question of almost personal privilege when the gentleman from New Jersey [Mr. McAdoo] speaks of the city of Alexandria as more dead than Annapolis. [Laughter.] It seems to me that the announcement of the death of so venerable a city as Alexandria ought almost to call for an adjournment of the House; but I take it for granted, sir, that "the flowers that bloom" in Alexandria "have nothing to do with this case." [Laughter.] And I hope that Alexandria will be excused from being put alongside of Americal "the nowers that bloom" in Alexandria "have nothing to do with this case." [Laughter.] And I hope that Alexandria will be excused from being put alongside of Annapolis as one of the two dead cities in which no public buildings are to be erected. [Laughter.]

The SPEAKER. The question is upon the amendment of the gentleman from New Jersey as modified.

Mr. BRECKINRIDGE, of Arkansas. I will ask the gentleman from Maryland to state what is the annual rental of the post-office building at Annapolis.

at Annapolis.

Mr. COMPTON. I am unprepared to say. I am relying upon the

reports.

Mr. BRECKINRIDGE, of Arkansas. There is not a single fact stated to justify this expenditure.

Mr. BLAND. I move to lay the bill and the pending amendment on

The SPEAKER. This is a Senate bill, and although the House may

lay a Senate bill upon the table, as a matter of courtesy it usually ab-

stains from doing so.

Mr. BLAND. I withdraw the motion.

The SPEAKER. The question is on the amendment of the gentleman from New Jersey [Mr. McADoo] to strike out "\$100,000" and insert "\$50,000,"

Mr. BRECKINRIDGE, of Arkansas. I ask for the previous question upon the bill and the amendment.

The previous question was ordered.

The amendment was rejected—ayes 34, noes 86.

The question being taken on ordering the bill to be read a third time, there were—ayes 87, noes 55. Mr. SOWDEN. No quorum.

Tellers were ordered; and Mr. Sowden and Mr. Compton were ap-

Mr. WARNER, of Ohio. We may as well have the yeas and nays.

The yeas and nays were ordered.

The question was taken; and it was decided in the affirmative-yeas 121, nays 91, not voting 110; as follows:

So the bill was ordered to be read a third time.

Mr. PETERS. As I am paired with the gentleman from Alabama [Mr. MARTIN], and do not know how he would vote on this question, I have refrained from voting.

Mr. TUCKER. Though I am paired with the gentleman from Vermont [Mr. STEWART], I have voted in the affirmative, understanding that he would vote in the same way.

The following pairs were announced:

Until further notice:

Mr. TURNER with Mr. DORSEY.

Mr. HALE with Mr. HOUK.

Mr. Green, of New Jersey, with Mr. Burleigh. Mr. Henley with Mr. Hanback. Mr. Comstock with Mr. Burrows.

Mr. McKinley with Mr. Mills

Mr. CABELL with Mr. WHITE, of Minnesota.

Mr. CANDLER with Mr. HAYNES.

Mr. John M. Taylor with Mr. IKE H. Taylor.

Mr. MILLER with Mr. BUCHANAN. Mr. Winans with Mr. Cutcheon, Mr. Wellborn with Mr. Phelps.

Mr. HAMMOND with Mr. O'DONNELL. Mr. THROCKMORTON with Mr. WADSWORTH.

Mr. REESE with Mr. ADAMS, of Illinois. Mr. STORM with Mr. DUNHAM.

Mr. Rogers with Mr. Ezra B. Taylor. Mr. Robertson with Mr. Steele.

Mr. SADLER with Mr. VAN SCHAICK.

Mr. TUCKER with Mr. STEWART, of Vermont.

Mr. BARBOUR with Mr. LIBBEY.

Mr. BRAGG with Mr. CASWELL.

Mr. BARKSDALE with Mr. DAVENPORT.

Mr. DAWSON with Mr. RANNEY.

Mr. ARNOT with Mr. THOMAS, of Illinois.

Mr. Davidson, of Florida, with Mr. Gallinger. Mr. Jones, of Alabama, with Mr. Beown, of Ohio Mr. Outhwaite with Mr. Morrill.

Mr. Gibson, of West Virginia, with Mr. Morrow.

Mr. MARTIN with Mr. PETERS. Mr. CROXTON with Mr. HAYDEN.

Mr. PEEL with Mr. Allen, of Massachusetts. Mr. Anderson, of Ohio, with Mr. Grosvenor.

For this day:

Mr. CAMPBELL, of Ohio, with Mr. GOFF.

On this vote:

Mr. LAFFOON with Mr. REED, of Maine.

Mr. ELLSBERRY with Mr. CANNON.

Mr. CLARDY with Mr. LONG.

The result of the vote was announced as above stated.

The bill was accordingly read the third time.

The question being taken on the passage of the bill, there werees 77, noes 52.

Mr. SOWDEN. No quorum. Tellers were ordered; and Mr. Sowden and Mr. Compton were appointed.

The House again divided; and the tellers reported—ayes 114, noes 51.

So the bill was passed.

Mr. COMPTON moved to reconsider the vote by which the bill was passed; and also moved that the motion to reconsider be laid on the

The latter motion was agreed to.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. Sympson, one of its clerks, announced that the Senate insisted on its amendments disagreed to by the House to the bill (H. R. 9478) making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1887, and for other purposes; asked a further conference with the House on the disagreeing votes of the two Houses, and had appointed as conferees on the part of the Senate Mr. Allison, Mr. Hale, and Mr. Beck.

ORDER OF BUSINESS

Mr. MATSON. Mr. Speaker, I demand the regular order of busi-

Mr. RANDALL. Unless the Chair desires to proceed with the call

of States I will present a conference report.

The SPEAKER. The conference report has precedence, of course, but the rules require the call of States and Territories for the introduction of bills and joint resolutions for reference, and the conference report can be called up afterward.

Mr. RANDALL. I wish to conform to the wishes of the Chair. Mr. BELMONT. I move that the morning hour for the call of States and Territories for the introduction of bills and joint resolutions be dis-

pensed with, and that by unanimous consent members shall be allowed to file their bills and joint resolutions with the Clerk, to be entered on the Journal and in the RECORD.

The SPEAKER. The gentleman from New York moves, by unani-mous consent, to dispense with the formal call of States and Territories,

and that members be allowed to present them to the Clerk for reference. Is there objection?

Mr. COLLINS. I object.

SUNDRY CIVIL APPROPRIATION BILL.

Mr. RANDALL. I will come in now. I present a report from the committee of conference, which I ask to be read.

The Clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 9478) making appropriations for sundry civil expenses of the Government for the fiscal year ending June 20, 1887, and for other purposes, after full and free conference have been unable to

S. J. RANDALL, W. H. FORNEY, THOS. RYAN, Managers on the part of the House. W. B. ALLISON, E. HALE, J. B. BECK, Managers on the part of the Senate.

Mr. RANDALL. Mr. Speaker, I hope the House will be quiet, as

my voice is not strong to-day.

The SPEAKER. The gentleman will not proceed until members

resume their seats and order is preserved.

Mr. RANDALL. Mr. Speaker, the report shows a disagreement as to the entire number of amendments of the Senate, and the whole bill is in controversy. Our conferees desired to come back with a report is in controversy. Our conferees desired to come back with a report showing where the two Houses did agree, but the Senate conferees preferred full disagreement; in fact, the conferees have really agreed to 201 amendments out of 243. So that 42 only are still in controversy. The bill as it went to the Senate appropriated \$21,311,525.24. The bill as passed by the Senate appropriated \$24,418,375.32. The increase, therefore, made by the Senate was \$3,106,150.08.

The amount receded from by the Senate is \$1,803,460.32. The amount receded from by the Senate is \$1,803,460.32.

amount receded from by the House, \$974,286.94.

The forty-two amendments about which there is disagreement involve an amount of \$229,103.82. Of the \$974,286.94 receded from by the House there are various items in reference to which recession was compelled on the part of the House conferees because of bills which have become law since action was taken on this bill by the House committee and House, those items aggregating \$476,750. So that the recession by the House of the amount within the discretion of the conferees of the House is half a million of money.

will enumerate the matter about which there is disagrement. There is disagreement in reference to amendments of the Senate from No. 80 to No. 105, which relate to the Coast and Geodetic Survey

The House desired to reduce the number of field officers and also the office force, and to make a change in some of the salaries of these officials. There are many matters, if these were out of the way, the Senate would recede from, resulting in further reduction in the amount of the bill.

The next amendments on which there is disagreement are 138 and

That is the appropriation for the completion and change of the original plan in connection with the Pension building on Judiciary Square.

The House desired, as soon as the building shall be completed in the manner provided in the House bill, certain other bureaus under the control of the Secretary of the Interior now occupying rented buildings to the extent of \$37,000 shall go into that Pension building, thus sav-

ing to the Government the amount now paid for outside rent.

There is, the House conferees thought when this was done, sufficient room to accommodate all of these bureaus, as provided for in the House bill. The Senate dissent from that view, but agree to the appropria-tions as fixed by the House for the completion of the building and put-ting it in such order as to receive all of these bureaus, or some of them at least.

Perhaps I ought to say that the Senate conferees, or some of them rather I believe, think this building, if put in complete order, would be ample for the purpose, and would not resist placing some of these bureaus, if not all of them, in that building, thereby saving to the Government \$37,000 now paid in rent.

The next matter of disagreement relates to the land service. While a settlement might have been reached on one or two or perhaps three of these amendments embraced in Nos. 146, 148, 150, 151, 152, 153, 154, and 155, there being a disagreement on some of them, the conferees thought it better to bring the entire number back. The first is under the head of protecting the public lands:

For the protection of the public lands from illegal and fraudulententry or appropriation.

The House provided \$90,000 for this service. The Senate placed the amount at \$75,000. I can say to the House I think if there could be an agreement reached as to some of the other items the Senate conferees might possibly recede and permit the House amount to be fixed as a final recommendation of the conferees. The House conferees adhere tenaciously to the \$90,000.

The next item of disagreement is that in relation to the swamp lands, amendment numbered 148, for which the House appropriated \$15,000; the Senate increased it to \$20,000. The House would recede and accept the \$20,000 provided the rest of these amendments could be agreed

upon or some conclusion reached in regard to all of those points of disagreement covered by the public-land service.

Amendment numbered 150, to enable the reproduction of worn and defaced official plats on file, was fixed by the House at \$5,000, and by the Senate at \$10,000. I think in this connection I can say also that the Senate will probably recede in that matter. Amendment 151 is for furnishing transcripts of records and plats, \$5,000, which amount is to be expended under the direction of the Secretary of the Interior. There will not be any difficulty about that if the matters embraced in the preceding amendments can be arranged.

The survey of the public lands, for which the House appropriated \$50,000, is provided for in the House bill, and to this the Senate have incorporated amendments numbered 152, 153, and 154. The language

of the House bill was-

And the sum hereby appropriated, as far as may be necessary, may be expended for the examination of surveys in the field to test the accuracy of the work, &c.

The Senate amendments, if adopted, will make it read:

And of the sum hereby appropriated \$10,000, or so much thereof as may be necessary, may be expended for the examination of surveys in the field made under this appropriation, &c.

It will be observed that while 50,000 is given for the surveys of the public lands, and the discretion is allowed for the expenditure of the entire amount for the examination of what may be called alleged fraudulent entries and the detection of fraud in connection with that matter. Both sides seem equally determined in relation to this matter, and the conferees of the House were unwilling to move at all from the position the House had taken unless they first came here and informed the House of their difficulties in this direction. My own judgment is that if the House conferees felt themselves at liberty there could be an agreement reached as to these items going to appropriate \$25,000 to be used for the survey of the public lands and the other \$25,000 for the purpose of the investigations of fraudulent entries.

The next amendment about which there is disagreement, No. 159, relates to the Yellowstone Park. Here is a park I think 55 miles in length in one direction and 65 miles in length in the other. The eleven civilian officials there which the Senate desire to continue. There are House conferees are of opinion that eleven men with the civil authority of law only are altogether inadequate to the care and protection of such vast domain as that, and desire to appropriate \$20,000, to be used in the repair of roads and bridges, and to provide that hereafter there shall be a company of cavalry stationed there by order of the proper authorities for the protection of the park. While the House is quite determined in that direction the Senate conferees seemed to be equally determined in the other.

The next amendment, No. 160, relates to the appropriation of \$50,-000 for the erection of a hospital building for convict and homicidal insane persons at Saint Elizabeth, the Government Insane Hospital. I think there could be an agreement reached as to that if the rest of these matters were reconciled.

Amendments 227 and 228 relate to the stenographers for the judges the Supreme Court. It will be remembered that I, in my own of the Supreme Court. individual relation, on the floor when this bill was under consideration offered an amendment permitting this provision to be incorpo-But when I come to act as conferee I necessarily sink rated into law. my own individual beliefs in that and conform to the opinion of the House; and we have, therefore, with unanimity I think, dissented from this proposition, believing that the House having had that provision rejected on a point of order, and not having sought in any other way possible to embrace it within the bill, we preferred to come back and give the House the opportunity of action as to this particular clause.

The next three amendments, which are the concluding amendments about which there is a difference, are Nos. 230, 232, and 233, under the heading, "Works of Art."

Amendment 230 is as follows:

For the purchase of works of art, and the necessary cleaning and repairing hereof, including new frames, under the direction of the Joint Committee on the abrary of Congress, \$10,000.

This is a provision which places at the disposal of the Joint Committee on the Library \$10,000 for the purchase of such works of art as they in their judgment see fit to buy for the ornamentation of this building. The House conferees believe that whatever the purchases are to be of this sort ought to be made with the direct approval of the two Houses of Congress

The same remark applies to the other two amendments of the Senate, No. 232 and No. 233, which are as follows:

For the purchase of the painting of "The First Fight of Ironclads," by W. F. Halsall, \$7,500.

For the purchase of the painting entitled "Farming in Dakota," by Carl Gutherz, \$3,000.

This is a summary of the disagreements. The Senate further insists, and the House conferees in form ask for like action by the House, but desire if possible by the discussion which may occur in this connection an expression of the sentiments in some degree even informally of the House in these particulars. I am now ready to yield to any gentleman who desires to be heard on any of these amendments.

Mr. SPRINGER. I desire to call attention to the amendment in Mr. SPRINGER. I desire to call attention to the amendment in regard to the Pension building. The Senate amendment strikes out that part of the House bill which provides an appropriation for completing the fourth story for the occupancy of "the General Land Office, Indian Office, Bureau of Education, Office of the Commissioner of Railroads, Bureau of Labor, the office of the agent for the payment of pensions in the District of Columbia, and Office of the Geological Survey."

Likelieus the Senate did not invest any specific amount.

I believe the Senate did not insert any specific amount.

Mr. RANDALL. There really will be no difficulty about that appropriation for the completion of the building. The only difficulty is about the occupation of the building. The Senate conferees prefer that matters should be adjusted after the completion of the building. The

House conferees thought it could be as well fixed now.

Mr. SPRINGER. I want to call attention very briefly to the proposition which is embraced in the present bill and the amendment of the Senate. It is proposed by the House provision to locate certain public offices in the new part of the fourth story of this building. I want to state to the gentleman from Pennsylvania I have taken the pains to visit the Pension building recently, since this subject was before the House a short time ago, to see for myself what rooms would be provided for the occupancy of the offices I have named if this pro-

vision as embraced in the House bill is adopted.

The fourth story of that building as now contemplated for completion will not have any openings on the outside of the building at all but will be lighted by a sky-light and will receive air only from the

inside court of the building.

Mr. RANDALL. I will state to the gentleman that that fourth story is only intended for record rooms. No clerks are to work there under

any circumstances.

Mr. SPRINGER. I am glad to hear the gentleman say so because I do not think it would be safe even for life to put a human being in that fourth story in summer, the rooms being lighted by sky-lights only and having ventilation only from the court which has no outside communication. To do so would be forcing human beings into a place not suitable for human existence.

I have endeavored to call the attention of the committee, however, and of the House to the necessity of putting another story on the building, and with that in view I desire to move at the proper time to recede from our disagreement to the Senate amendment and concur

therein with the following amendment.

Mr. RANDALL. The original bill provided that the fourth story should be used for records. I do not yield for the gentleman's amend-

Mr. SPRINGER. I will read it:

That the work on the fourth story of the building be suspended until further appropriation be specifically made therefor; and that the Architect of the Treasury Department be, and he is hereby, authorized to prepare and transmit to Congress at the next session a plan and estimates of cost for the construction of a mansard story on said building to take the place of the fourth story as contemplated on the present plan.

This will give the Government another story suitable for office-rooms over the entire area of this building; a story adapted to the very offices named in this bill; while the story provided for in the bill when completed will not be useful for anything except for storage purposes.

A very small cost will give us enough room for all the offices contemplated here, and the object of my amendment is that the Architect of the Treasury Department-it will cost the Government nothingshall make an estimate of the cost and draw plans which will provide this additional room and which when provided will afford rooms suited for public offices. We have elevators in that building and another story added will not make a tall or unsightly building, but, in fact, will

added will not make a tail or unsightly building, but, in fact, will greatly improve the present architectural appearance, if I may use such an expression in speaking of this building.

I think that a very little increase over the cost of preparing the fourth story room would put a mansard story upon the building, which would greatly improve its present unsightly appearance, and furnish a large amount of useful office room at small expense. It will certainly cost nothing to suspend work in the mean time upon the building and get a plan and estimate from the Architect of the Treasury for another story. It is with a view to that, and with a view to improving the another story. It is with a view to that, and with a view to improving the appearance of a building which is now extremely unsightly and not creditable to the architectural skill of our country, or to any person that has had anything to do with its construction, that I offer this amendment. I hope therefore the gentleman from Pennsylvania [Mr. RANDALL] and the Committee on Appropriations will agree to this amendment, as it does not involve any additional expenditure but simply asks for an estimate from the Architect as to the cost of a mansard story to take the place of the fourth story contemplated by the present plan.

Mr. RANDALL. Will the Speaker be good enough to tell me how

much time I have left?

The SPEAKER. The Chair thinks the gentleman has occupied eighteen or twenty minutes, including the time occupied by the gentleman from Illinois [Mr. SPRINGER].

Mr. RANDALL. I wish to say, Mr. Speaker, in reply to the gentleman from Illinois [Mr. Springer], that in my judgment to take this building away from the architect who has been engaged in its construction and put in under another architect would not be wise, and

therefore, if I can, I shall at the proper time prevent that amendment from interfering with the general motion which I wish to make, that the House further insist upon this point, because I believe that after discussion the conferees will feel themselves at liberty to act in the direction of the wish of the House in matters about which there is disagreement.

Mr. CANNON. Mr. Speaker, I agree with the gentleman from Pennsylvania [Mr. RANDALL] that this building ought to be completed on the present plan, whether we provide to move the offices in or not; and I want to suggest to the gentleman, if the Senate will not the building could be completed at all events, and also a modification of the law as it now is, for I believe it is held by the Attorney-General that under the law none but the Pension Office can occupy the building.

Mr. RANDALL. That is merely an opinion Mr. CANNON. But it has the force of law. That is merely an opinion.

Mr. RANDALL. But we propose to put something in the law that will change that. It can not be possible that, with room vacant which would accommodate fourteen hundred clerks and with a rental of \$37,000 a year against the Government for the use of buildings outside, the Congress can not say that that space shall be occupied when it is

ready for occupation.

Mr. CANNON. I agree with the gentleman, but I want to call his attention to the fact that unless a change is made in the existing law the Pension Office will continue to occupy the building to the exclusion

of other offices

Mr. RANDALL. The position of the Commissioner of Pensions, as I understand him, is this: While he does not deny that there is room for fourteen hundred more clerks in that building, yet he does not want that room occupied by any other Department. Now, it had occurred to us that the Secretary of the Interior himself might consider that that was a place to be preferred to his present small and confined quarters in the Patent Office. I think all the conferees look to having ultimately some of the bureaus go into that office, and as I have said, perhaps the Secretary himself may conclude to go there also. I now yield five minutes to the gentleman from Missouri [Mr. O'NEILL].

Mr. O'NEILL, of Missouri. Mr. Speaker, concerning the appropria-tion for the Yellowstone Park, as I understand the chairman of the committee, it is proposed to have a company of cavalry sent there—
Mr. RANDALL. I said a company, but I will change the remark

and say that we propose to have some cavalry sent there.

Mr. O'NEILL, of Missouri. The present assistants employed in the park are not selected alone for the protection of the curiosities in the park are not selected above for the protection of the curtostates in the park, but also for the purpose of preserving the game; and since the new superintendent has been appointed he has selected mountaineers, men familiar with the passes in the mountains, men familiar with the habits of animals, men who are accustomed to the use of snow-shoes, and who can go in winter from place to place to protect the game from the hunters who go in there to destroy it.

Aside from the preservation of objects of curiosity or interest, the purpose is to preserve the natural game in the park, and I believe that the idea of having a company of cavalry, or such a number of cavalry as may be necessary, sent up there is an excellent one. In conversation with Lieutenant Kingman, the United States officer in charge there, who certainly is remarkably competent and whose work reflects great credit upon him, he told me he believed that ultimately the only way in which we could preserve the game in the park would be by the construction of immense stockades, in which the different species of native animals abounding in that section of the country may be preserved. This could be done by troops at trifling cost to the Government.

Mr. RANDALL. Can the gentleman enumerate some of the animals out there?

Mr. O'NEILL, of Missouri. I believe there are some seventy or eighty buffaloes now in the park, and a great many deer, elk, and antelope. Two years ago, I believe, one enterprising hunter killed some forty deer in one herd that he caught in the snow.

Now, the object of these assistants is to preserve the game. Any one who has visited that park must admit that it is the grandest object of interest in the United States; it is one which to-day is very largely attracting travelers from abroad who come here to witness those grand objects of interest-nature's wonders. Hence we should be liberal in building roadways in that park, in preserving the game there, and protecting the objects of interest. The reason the Senate so tenaciously clings to this feature of retaining these assistants is that many Senators have visited the park and recognize the benefit to be derived from the labors of those competent mountaineers in preserving and protecting the game.

Mr. RANDALL. I now yield to the gentleman from Iowa [Mr.

HENDERSON] whatever time he wishes.

Mr. HENDERSON, of Iowa. Mr. Speaker, I am opposed to the Senate amendment; and I differ from my friend from Missouri [Mr. O'NEILL] when he states that the reason this amendment has been urged by the Senate is that so many Senators have wandered around the spouting springs of the Yellowstone and have become so enamored of its beauty that they feel it necessary to make large expenditures to keep up the force now running that park. If the gentleman would speak with the candor which usually characterizes him, he would say that the real

reason is that the present superintendent of that park is from the State of Missouri, and that a prominent gentleman from his State is trying to keep that superintendent with his subordinates in control of the park.

Mr. O'NEILL, of Missouri. And he is the most efficient and compe-

tent man you ever had there.
Mr. HENDERSON, of Iowa. "Most efficient!" We will look into that in a moment. In the first place I want to call attention to the fact that there is in the existing law ample power to provide for the care of that park. The act of March, 1883, contains the following provision with reference to the care of the national park:

The Secretary of War, upon the request of the Secretary of the Interior, is hereby authorized and directed to make the necessary details of troops to prevent trespassers and intruders from entering the park for the purpose of destroying the game or objects of curiosity therein, or for any other purpose prohibited by law, and to remove such persons from the park if found therein.

That is the only statute authorizing the control of the national park. You have no law for your present system of a superintendent with as-

You have no law for your present system of a superintendent with assistants, except what has been put in an appropriation bill. What I have just read is the law giving the power to exercise proper care of that park, and it is this provision that we should be governed by.

Now, here is a little empire, as has been shown, 55 by 65 miles in extent, and it is expected, as we now learn for the first time, that nine or eleven "mountaineers" are to control and regulate this park and protect the game—"mountaineers" from Illinois, "mountaineers" from Missouri, "mountaineers" from every part of the country (except the mountains), who have been imported into that section within the last few months, many of whom would not know a bear from a jackal or a few months, many of whom would not know a bear from a jackal or a jack-rabbit from a jackass! [Laughter.] These are the kind of "mountaineers" that Mr. Wear, the superintendent, is putting into that park. I say, Mr. Speaker, that we have ceased to have a national park. It is no longer a national park, but the property of a private corporation and a ring of park hotels. That is the fact of the matter. There are now in the national park, under what is called the Park Hotel Association, five hotels. When you go to Saint Paul or Minneapolis and want to buy a ticket to the national park you are furnished with a ticket with coupons to stop at these hotels, which are in combination and practically in copartnership with the Northern Pacific Railroad Company, as I am informed. The independent hotels are not recognized in the transaction. I know of one instance-

Mr. O'NEILL, of Missouri, rose.

Mr. O'NEILL, of Missouri, rose.
Mr. HENDERSON, of Iowa. Just wait a little. I will let you loose on the "mountaineers" presently.
Mr. O'NEILL, of Missouri. I only wish to ask a question.
Mr. HENDERSON, of Iowa. All right.
Mr. O'NEILL, of Missouri. Are you aware that this great corporation you speak of is in bankruptcy—in the hands of a receiver?
Mr. HENDERSON, of Iowa. No, sir. There is one bankrupt corporation; but there is another full-fledged corporation, thoroughly armed and conjuned which now practically owns the National Park poration; but there is another full-fledged corporation, thoroughly armed and equipped, which now practically owns the National Park. My friend from Missouri should read up and inform himself. He is better posted about "mountaineers" than he is about this association. Mr. O'NEILL, of Missouri. I think I am posted on the facts. Mr. HENDERSON, of Iowa. There is a regularly organized and equipped Park Hotel Association that has the National Park in its pocket; and I charge that the superintendent has gone to Saint Paul, as the agent both for the purchaser and the seller, to buy out or force

as the agent both for the purchaser and the seller, to buy out or force out other hotel-owners there.

Mr. O'NEILL, of Missouri. I do not think the gentleman's state-

ments are correct

Mr. HENDERSON, of Iowa. Absolutely correct. Let me make a further statement. The gentleman from Missouri has spoken of the present superintendent as so far superior to preceding superintendents. Let us see about him.

I have seen with my own eyes an order of the Interior Department, which I understand this superintendent had brought about, requiring every vehicle for carrying freight to have a wagon-tire 4 inches wide. Mr. CANNON. Four inches and a half.

Mr. HENDERSON, of Iowa. I am corrected by my friend from Illinois, requiring them to have a wagon-tire 4 inches and a half.

Now, Mr. Chairman, that puts it in the power of the park monopoly to freeze out every man there who has his little wagon for hauling his lumber or food through the park. The poor man is thus practically driven from the park.

Who recommended such an order? This superior gentleman who has raked the mountains for mountaineers to effectually guard this

That is not all. I appeal to members of the House who have visited the National Park within the last twelve or fourteen months. The regulations require that \$1 shall be charged for carrying passengers from the station of the Northern Pacific Railroad to the great hotel at Mammoth Hot Springs

Mr. BROWN, of Pennsylvania. They are charged \$2.
Mr. HENDERSON, of Iowa. You are right, sir; they are charged \$2. But when a member of Congress, on this floor now, pressed that "faithful" superintendent to know if such things were done he

evaded at first, but finally and reluctantly admitted that he knew it. Yet there is no letter on file from this "vigilant superintendent" to show he knew there were men who had violated the law in that great domain.

That is not all. The Government owns a great saw-mill there. I know of one little hotel whose owner went to ask to have sawed 25,000 feet of lumber at that mill. He was denied the privilege, although he offered to pay for it, and then that same mill, under the management at that park, turned around and sawed 1,000,000 feet of lumber for the ring hotels there, which fatten under the protecting wing of your "competent superintendent."

Mr. O'NEILL, of Missouri. Is not the gentleman from Iowa speak-

ing of the ring superintendent from his own State?

Mr. HENDERSON, of Iowa. No, sir; it was not. It was under the superintendence of Mr. Wear, a gentleman from your State. The superintendent from my State, Major Conger, fought the old hotel associa-tion with all his might until he brought down upon his head the whole force of that once powerful corporation.

Mr. O'NEILL, of Missouri. When did your superintendent get out?

They have not been out for six months.

Mr. HENDERSON, of Iowa. Major Conger has been out for a year and a half at least. Major Carpenter, who succeeded him, was one of

the first removals under this administration.

Mr. O'NEILL, of Missouri. I assert all these things originated under your Republican superintendent. It was done when Mr. Teller was Secretary of the Interior. Then the old hotel system which you denounce was created. It has been only within the last few months a change has been made, and that ring has been driven out of the park. therefore suggest to the gentleman not to indulge in any more rhet-

oric. [Laughter.]
Mr. HENDERSON, of Iowa. My dear boy, just keep your seat and attend to your panthers. [Laughter.] I am making specifications; I am stating facts that have occurred and are now occurring under the

present management.

Mr. O'NEILL, of Missouri. You had better furnish some plans with

the specifications.

Mr. HENDERSON, of Iowa. Let us see further about the present Mr. HENDERSON, of Iowa. Let us see further about the present superintendent. I am not done with him yet. My friend from Missouri is a great advocate of the laboring man. He is chairman of the Committee on Labor in this House. Does he, with his inquiring mind, in the interest of this superintendent, not know that there is posted up in this great hotel at the Mammoth Springs a notice that no laboring man is to be allowed to come into that hotel?

Mr. O'NELL of Missouri.

Mr. O'NEILL, of Missouri. I have never seen it or heard of it. Mr. HENDERSON, of Iowa. It is true, and I will tell you more, as chairman of the Committee on Labor, that the superintendent of that hotel, a man by the name of Strang, insults every laboring man who appears on the threshold of this hotel, a hotel which is being kept up for foreign flunkies, foreign aristocrats, and moneyed men from our own country who go there to spend their leisure hours under the protection of these "mountaineers." [Laughter.]
Mr. O'NEILL, of Missouri. Will you give me a minute to answer

that?

Mr. HENDERSON, of Iowa. I have no time to yield; the gentleman must get it from the gentleman from Pennsylvania.

Mr. WEAVER, of Iowa. If that fact is established I would vote to

put him out very quick.

Mr. HENDERSON, of Iowa. I have it on good authority. thing, too, Mr. Speaker: One man held a lease which authorized him to build a hotel of wood. He gothis lumber on the ground for the purpose of finishing the hotel this very summer in order to be prepared for the visitations of this year. This gentleman, Mr. Wear, the present superintendent of the park, came to him and questioned him like an autocrat as to what he was about to do. Being fully answered he stopped him in his work, and then when asked for the reasons why he did so, he said it was because he could build the hotel of logs, for he held that lumber was not wood, but logs were. [Laughter.] Why, this fellow lumber was not wood, but logs were. [Laughter.] Why, this fellow is a sort of a philosopher—this superintendent of the National Park. He knows and sees a fine distinction in the language of a contract, so that a man who is rearing a hotel of suitable and sightly character to be built of lumber is stopped and prevented from doing it because the superintendent holds that logs are wood but lumber is not! That is a very nice distinction indeed.

Mr. O'NEILL, of Missouri. Will you not allow me just a minute? Mr. RANDALL. If the gentleman from Iowa is through I will be

glad to arrange so as to pass from this part of the bill.

Mr. HENDERSON, of Iowa. Just in a very few minutes. I will yield the floor to the gentleman from Pennsylvania after a word or two

When this man of whom I have spoken appealed to the Secretary of the Interior he found that he could get no speedy remedy, but a tedious correspondence and a provoking delay ensued.

Mr. O'NEILL, of Missouri. Let me finish that part of the gentle-

man's speech.

Mr. HENDERSON, of Iowa. The gentleman can get time from the gentleman from Pennsylvania. I say when this man appealed to the

Secretary of the Interior by letters and telegram to have this wrong rectified, after having negotiated and negotiated, the day before yesterday I received a letter from the gentleman saying that Wear's tyranny had won and he had been compelled by the advanced season and the delay to give up the enterprise; and that, too, weeks after I had received an intimation that the superintendent of the park had sworn to freeze that man out of it.

I assert here before this House and before the country that the National Yellowstone Park is in the hands of a copartnership between the Hotel Park Association and the Northern Pacific Railroad Company, as it seems to me. I know the fact that independent lessees who had bought provisions at Saint Paul could not get them shipped to the park by the Northern Pacific Railroad, evidently hoping, as I fear, thereby to compel this single hotel to abandon its business because of not being

able to put provisions upon the tables for the guests.

It is time, I claim, that the House of Representatives of the United States should tell those pressing this amendment on the Senate that they can not put fancy officers in there to rule like tyrants over the park in the interests of a ring or corporation, when the law of the land has intended that this should be free to every American citizen whether he wears a plug hat or the garb of a workman; and my friend from Missouri will appreciate that illustration, I apprehend. [Laughter.]

I have much more that I would like to say in this connection, but having been invited to yield the floor for the purpose of proceeding as rapidly as possible with the consideration of this bill I will now yield to the gentleman from Pennsylvania [Mr. RANDALL].

Mr. RANDALL. I now yield three minutes to the gentleman from Missouri [Mr. GLOVER] and also to the gentleman on the right, Mr. O'NEILL. I want to pass from the consideration of this Yellowstone Park matter.

Mr. GLOVER. Mr. Speaker, I sincerely hope that this amendment may be adopted. I desire the House to understand that the people of Saint Louis have some higher ideas than that of merely prying open the

doors of the Treasury.

I do not know that the people of Saint Louis are particularly proud of, or particularly wrapped up in, the gentleman who is now the superintendent of the Yellowstone Park. If they are I do not know it; and I desire to state here that the last I heard of the superintendent of that park was that he had become personally interested in a coal mine which was situated on the margin of the park; and that thereupon, or immediately thereafter, no doubt without the knowledge of the Senator who introduced the bill, a bill was introduced in the Senate of the United States which would cut off that portion of the park, leaving it in his possession with a title. If that is so it indicates jobbery. I do not mean to say that this is true; but if an investigation is moved into this matter by anybody, I will undertake to introduce a gentleman of credible character to this House who claims to be able to give the information necessary to substantiate that fact.

I have carefully scrutinized this amendment, and notwithstanding the gentleman who last spoke insinuates that the members from Saint Louis can be influenced by the fact that this superintendent is from that State, I deem it only necessary to say in reply that whoever may be in charge there, I hope most devoutly this amendment may be adopted.

Mr. O'NEILL, of Missouri. I do not know where the gentleman from Iowa [Mr. Henderson] got his information. He seems to be very well up in little points and little details, which it is marvelous that a man in a busy life here can acquire. I do know the superintendent of that park has incurred the eternal ill-will and hostility of a railroad ring which to-day hangs about the corridors surrounding this Chamber asking for the building of a railroad through that park; and I believe the gentleman from Iowa has obtained some little of his information from the gentlemen who are identified with that interest. They have shadowed this Hall and the Senate Chamber from the beginning of this session.

Mr. HENDERSON, of Iowa. I will state to the gentleman that I am against any railroad going through the National Park, as my voice and vote will tell when the time comes.

Mr. O'NEILL. I say the great crime that superintendent has committed has been that he has stood up there a bulwark against that ring

which has endeavored to destroy that park by the introduction of railroads into it. These are the men who go around and make those charges.

I assert every charge the gentleman has made applies only to the former management. The leases he refers to were made under the late Republican administration, and the monopoly he refers to had for superintendent of the park a gentleman from his own State. As it proved a heavy loss, and went into the hands of a receiver, it is idle to refer to it. The present efficient superintendent has vindicated the judgment of the Secretary of the Interior in his appointment. He has enforced the law and protected the property; and to-day the fact you have any game in that park is due more to that man's courage, integrity, and faithful performance of duty than to the existing provisions of law.

[Here the hammer fell.] Mr. RANDALL. I now yield three minutes to the gentleman from Kentucky [Mr. Breckingings], who desires to be heard on the amendment providing stenographers for the justices of the Supreme Court.

Mr. BRECKINRIDGE, of Kentucky. I send a resolution to the desk with the view of obtaining on it an expression of the opinion of the House.

The Clerk read as follows:

That the House recede from its disagreement to Senate amendments 227 and 228, and agree to the same.

Mr. BRECKINRIDGE, of Kentucky. The amendment the Senate has made is as follows:

For stenographic clerks for the Chief-Justice and for each associate justice of the Supreme Court, at not exceeding \$1,600 each.

The object of the amendment is to give to that court as much more time in each year as is now occupied in the manual labor of writing their opinions. It is an increment of just that much to the working time to each of the justices.

The dearest of all things is cheap justice. The most wasteful of all extravagance is so-called economy in our courts of justice. If the Chief-Justice be worth \$10,000 a year and the associate justices \$8,000 surely it is very bad economy to require them to do the manual labor of writing their opinions when it can be done at \$1,600 a year. Our docket is behind, and we are giving it no relief. Our court is delayed, and we are offering them no additional help. This gives to them the time now taken up in most irksome and fatiguing manual worksto devote to their intellectual efforts.

I can think of no small assistance that can have so great fruit as this. Why we ourselves employ stenographers out of our own salaries.

Mr. HOLMAN. We pay for them out of half the salaries those gentlemen get.

Mr. BRECKINRIDGE, of Kentucky. We pay for them out of our salaries, which are less than the salaries of these justices; and there is not one among us that in doing it does not believe that we have been required by our constituents to do that which is unjust to ourselves. Yet we are not willing to undergo that labor. A man who has to work with his brains in the library over a record and finally has reduced it down until it is fit to be the decision of the last court of resort in a great country like this is not the man that ought to be required to take the time to write that opinion. It is a very small addition in money, while it is a very great aid to give that man a stenographer that he may dictate that opinion to him.

I confess, sir, when this was before the House and was ruled out on a point of order it hardly seemed to me to be subject to the point of order, because we had it in our power to say what should be the expenses of that court. But now it is before us legitimately and the real question involved in it is this: Is the help thus to be given to the Supreme Court worth that much money? For one, I do not hesitate to say it is. I have practiced law all my manhood before overworked men, men who have tried faithfully to do the duty that they were required to do in spite of the tremendous labor it involved. I believe that the Supreme Court can be aided somewhat by this. And if we will not take time from other and less important things to adopt some measure of relief by adding to the number of the judges, let us at least give them this small relief.

Mr. RANDALL. I now ask that the House further insist upon its disagreement to the Senate amendments, and accede to the request of the Senate for another conference.

Mr. Reagan and Mr. Holman both addressed the Chair.

Mr. RANDALL. I yield first to the gentleman from Texas [Mr. REAGAN

Mr. REAGAN. Mr. Speaker, referring to the question of the Yellow-stone National Park, which as I understand is a territory 65 miles in extent one way by over 50 in the other, large enough for a quarter of a State, which has been set apart as a public park, it seems to me that the amendment which ought to be made to the bill would be one which would repeal all laws setting that territory apart as a park, discharging all the men engaged in taking care of it, and providing that the property, under such regulations as might be made by the proper Government offi-cers, should be sold, and should pass into the hands of private parties. I do not think it is the duty of this Government to go into the show business, or to undertake to provide imperial parks for the few wealthy persons who can take advantage of them at the expense of the great mass of the people, and I hope the time will come, and that as early as possible, when that park will be abandoned, for as long as it lasts it will be a source of corruption, jobbery, and scandal.

Mr. RANDALL. I now yield three minutes to the gentleman from Indiana [Mr. HANDALL].

Indiana [Mr. HOLMAN].

Mr. HOLMAN. Mr. Speaker, I do not agree with the gentleman from Texas in regard to the Yellowstone Park. I think it is very clear that we should adopt with reference to that park the same policy that we have adopted with reference to the other parks. If I remember correctly we transferred the island at the Straits of Mackinaw at the head of Lake Michigan, a very interesting island, to the State of Michigan, and the Yosemite Valley to the State of California, both public parks, both to be held in trust for the original objects to which they were dedicated. The same ought to be done with the Yellowstone Park.

It is now a precinct of one of the counties of Wyoming. Two justices of the peace and two constables are employed under the laws of Wyo-

ming to administer justice in the park, and that Territory has expended heretofore \$5,000 a year to maintain the public peace and order in that region. In my judgment the park ought to be turned over to the Territory of Wyoming in trust for the purposes for which the dedication was originally made. Gentlemen will see upon examining the subject that a very carefully prepared law has been enacted defining criminal offenses in the park, a law intended to protect the objects of interest there from injury and destruction and the wild animals, and to protect the forests from fire.

I think that the Government ought to give Wyoming the trusteeship of the park. At the same time I think the Government should aid somewhat in keeping up bridges and highways for the convenience of the people who flock to that park from all portions of the United States.

But Wyoming can manage that park much better than Congress.

But, Mr. Speaker, I rose for another purpose. I hope the House will not consent to go any further this session in increasing the number of public employés. Gentlemen will be astonished when they come to look at the list of new offices created by this Congress. They will find that it is almost without precedent since the close of the war, or at least since the 4th of March, 1873.

The list is much larger than gentlemen who have not kept a vigilant watch of the record apprehend. And yet no increase in the public em-

plotments ought to have occurred.

It is proposed now to add quite a number of salaried officers at \$1,600 a year each, nine in number, involving \$14,400 in salaries. Why, sir, the main objection made to allowing clerks to Senators was that it was an indirect mode of increasing salaries. The salaries of the supreme judges are now very ample, made so by the famous act of the 4th of March, 1873, which increased them from \$8,000 to \$10,000 a year, the salary of the Chief-Justice being \$10,500, very ample salaries for life; yet it is now deliberately proposed to add, in effect, \$1,600 to each salary, making the salary of the supreme judges \$11,600 to each sulary in the salary of the supreme judges \$11,600 to each sulary in the salary of the supreme judges \$11,600 a year. I hope that will not be done. I hope gentlemen will stop the increase of public employments and salaries, at least for this session of Congress.

Mr. RANDALL. I now ask the previous question.

The SPEAKER. The report has been accepted, and two motions are pending before the House, one made by the gentleman from Pennsylvania [Mr. RANDALL] that the House further insist upon its disagreement, and the other by the gentleman from Kentucky [Mr. Breck-

Mr. BRECKINRIDGE, of Kentucky. After consultation with the chairman of the Committee on Appropriations, I withdraw the amendment and leave the matter in the hands of the committee.

The SPEAKER. The question is on ordering the previous question.

The previous question was ordered.

Mr. RANDALL. I move that the House further insist upon its disagreement to the amendments of the Senate, and agree to a further con-

The motion was agreed to.

Mr. RANDALL moved to reconsider the vote by which the motion was agreed to; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

The SPEAKER appointed as managers on the part of the House upon the disagreeing votes of the two Houses Mr. RANDALL, Mr. FORNEY, and Mr. RYAN.

CONTINUING APPROPRIATIONS.

Mr. RANDALL. I now ask leave to introduce a joint resolution, and ask its immediate consideration.

The SPEAKER. The joint resolution will be read.

The Clerk read as follows:

Joint resolution (H. Res. 211) to continue the provisions of a joint resolution en-titled "A joint resolution providing temporarily for the expenditures of the Government."

Resolved by the Senate and House of Representatives, &c., That the provisions of a joint resolution entitled "A joint resolution to continue the provisions of the joint resolution approved July 1, 1886, entitled 'A joint resolution to provide temporarily for the expenditures of the Government, approved July 15, 1886," be, and the same are hereby, extended and continued in full force to and including the 5th day of August, 1886.

Mr. RANDALL. I ask for the previous question on the passage of the joint resolution.

Mr. HISCOCK. That takes in Thursday.

Mr. RANDALL. It takes in the day which I have learned unofficially the Senate will report as the day of final adjournment, Thursday, the 5th day of August.

The previous question was ordered.

The joint resolution was ordered to be engrossed and read a third time; and being engrossed, it was accordingly read the third time, and passed.

Mr. RANDALL moved to reconsider the vote by which the joint resolution was passed; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

SESSIONS OF APPROPRIATIONS COMMITTEE DURING RECESS.

Mr. RANDALL. I ask unanimous consent to present for considera-

tion at this time a resolution authorizing the Committee on Appropriations to sit during the vacation.

The Clerk read as follows:

Resolved, That the Committee on Appropriations, or such subcommittees as they may designate, are hereby authorized to sit during the vacation, for the purpose of considering and facilitating the business of the committee in advance of the next regular session; to be convened at such time as the chairman of said committee may order.

There being no objection, the House proceeded to consider the reso-

Mr. RANDALL. One word of explanation. A resolution of this kind is usually adopted by the House at the end of the first session of each Congress, the object being to permit the Committee on Appropria-tions to assemble about the 15th of November preceding the short session. It involves no extra pay to anybody nor any extra expense in any way, so far as I am aware.

Mr. RYAN. The extra expense is only to the members of the com-

mittee?

Mr. RANDALL. Yes, sir. The resolution was adopted.

Mr. RANDALL moved to reconsider the vote by which the resolution was adopted; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

PAY OF HOUSE AND SENATE EMPLOYÉS.

Mr. BUTTERWORTH. I desire consent to introduce at this time a joint resolution such as is usually passed at the close of every session.

The joint resolution was read, as follows:

Resolved by the Senate and House of Representatives, &c., That the Secretary of the Senate and the Clerk of the House of Representatives be, and they are hereby, authorized and directed to pay to the officers and employés of the Senate and House borne upon the annual roll their respective compensations, including the Capitol police, for the month of August, 1886, as soon as practicable after the adjournment of the present session of this Congress.

There being no objection, the joint resolution, entitled "Joint resolution (H. Res. 212) for the pay of House and Senate employés for the month of August" was read a first and second time, ordered to be engrossed and read a third time; and being engrossed, it was accordingly read the third time, and passed.

Mr. BUTTERWORTH moved to reconsider the vote by which the joint resolution was passed; and also moved that the motion to recon-

sider be laid on the table.

The latter motion was agreed to.

EXPENSES OF BUREAU OF LABOR.

Mr. HOLMAN, by unanimous consent, introduced a joint resolution (H. Res. 213) authorizing the Secretary of the Treasury to pay certain expenses incurred by special agents and experts of the Bureau of Labor during the month of July, 1886; which was read a first and second

Mr. HOLMAN. I ask the immediate consideration of this resolution; and after it has been read I desire to submit a word of explanation

The Clerk read as follows:

Resolved by the Senate and House of Representatives, d.c., That the Secretary of the Treasury is hereby authorized to pay the subsistence and traveling expenses of the special agents and experts of the Bureau of Labor for the month of July current, as they may be certified to him by the Secretary of the Interior; such payment to be made from the appropriation for the Bureau of Labor for the fiscal year ending June 30, 1887.

Mr. HOLMAN. The legislative, executive, and judicial appropriation bill contained provisions for the Bureau of Labor, which, as the House will remember, very materially increased the force of that bureau. Acting upon the assumption that when the bill became allow to would operate from the 1st of July, experts and agents of that bureau have already been sent into the field. It is, however, the opinion of the First Comptroller that the money appropriated by the legislative, executive, and judicial appropriation bill for that service can not be applied to meet these expenses. This resolution has therefore been suggested for the purpose of curing that defect, so that the employés Acting upon the assumption that when the bill became a law it of the bureau may be paid their expenses for the month of July immediately preceding the passage of the bill.

Mr. BUTTERWORTH. As I understand, this will pay them from the last of June until the time of the approval of the bill.

Mr. HOLMAN. It does not make any additional appropriation; it simply provides that these employés shall be paid out of money appropriated for the present fiscal year.

There being no objection, the House proceeded to the consideration of the joint resolution, which was ordered to be engrossed and read a third time; and being engrossed, it was accordingly read the third time, and passed.

Mr. HOLMAN moved to reconsider the vote by which the joint resolution was passed; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

ORDER OF BUSINESS.

Several members called for the regular order.

The SPEAKER. The regular order is the call of States and Terri-

tories for the introduction of bills and resolutions.

Mr. BELMONT. I believe the gentleman from Massachusetts [Mr. Collins] is willing to withdraw the objection he made to my proposition that gentlemen desiring to introduce bills or resolutions may send them to the desk.

Mr. COLLINS. I am willing to withdraw the objection if I can have permission to have printed in the RECORD a bill which I desire

Mr. SCOTT. If the gentleman from Massachusetts withdraws the objection I renew it.

EDWARD HEALY.

Mr. LOUTTIT introduced a bill (H. R. 9991) to place on the pension-roll the name of Edward Healy; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

MARGARET CONDON.

Mr. BYNUM introduced a bill (H. R. 9992) for the relief of Margaret Condon; which was read a first and second time, referred to the Committee on Military Affairs, and ordered to be printed.

MRS. SARAH M'ADAMS.

Mr. PERKINS introduced a bill (H. R. 9993) granting an increase of pension to Mrs. Sarah McAdams; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

COMMERCIAL INTERCOURSE.

Mr. COLLINS introduced a bill (H. R. 9994) relating to commercial intercourse with foreign countries; which was read a first and second time (the first reading being at length, upon the demand of Mr. Col-LINS)

Mr. COLLINS. I ask unanimous consent that this bill may be printed

in the RECORD.

The SPEAKER pro tempore (Mr. TOWNSHEND). If there be no objection that order will be made.

There was no objection.

The bill is as follows:

The bill is as follows:

Be it enacted, &c., That whenever by the laws, decrees, regulations, or acts of any foreign country, full freedom of commercial intercourse or full commercial privileges are denied to any citizens of the United States, their vessels in the ports or waters, or their cars or other vehicles within the limits of such foreign country, the President, upon receiving satisfactory proof thereof, is hereby authorized to issue his proclamation excluding, from and after such date as he may fix, from all commercial privileges in the ports and waters of the United States, all vessels of such foreign country, and excluding from the limits of the United States all cars and vehicles used in the transportation of passengers or merchandise owned, operated, managed or controlled by any corporation or association organized under the laws of such foreign country; and thereupon it shall be unlawful for any such foreign vessel to enter any port or come within the waters of the United States for any purpose, or for any such car or vehicle to come within the limits of the United States; and for any violation of the terms of this act, the provisions of the seventeenth section of the act approved June 19, 1886, entitled "An act to abolish certain fees for official services to American vessels, and to amend the laws relating to shipping commissioners, seamen, and owners of vessels, and for other purposes," shall be applicable.

The SPEAKER pro tempore. The bill will be referred to the Committee on Commerce.

Mr. BELMONT. Is not the proper reference the Committee on For-

eign Affairs?

The SPEAKER pro tempore. The Chair thinks the bill should properly go to the Committee on Commerce. But, unless there is objection, the bill will be referred to the Committee on Foreign Affairs.

Mr. REAGAN. I object. I think the bill ought to go to the Committee on Foreign Affairs.

mittee on Commerce.

Mr. DINGLEY. There is no propriety in referring it to the Committee on Foreign Affairs.

The SPEAKER pro tempore. The question will be taken on the motion of the gentleman from New York [Mr. Belmont] to refer the bill to the Committee on Foreign Affairs.

The motion was not agreed to.

The bill was then referred to the Committee on Commerce, and ordered to be printed.

DAY FOR FIRST MEETING OF CONGRESS.

Mr. GILFILLAN introduced a bill (H. R. 9995) appointing the day for the assembling of Congress at the first meeting thereof; which was read a first and second time, referred to the Committee on the Judiciary, and ordered to be printed.

LEWIS I. CUNDIFF.

Mr. CLARDY (by Mr. DOCKERY) introduced a bill (H. R. 9996) for the relief of Lewis I. Cundiff; which was read a first and second time, referred to the Committee on War Claims, and ordered to be printed.

SALLY B. WILSON.

Mr. WADE introduced a bill (H. R. 9997) granting a pension to Sally B. Wilson; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

THOMAS GOODWIN.

Mr. WADE also introduced a bill (H. R. 9998) granting an increase

of pension to Thomas Goodwin; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

ELIZABETH WARD.

Mr. WADE also introduced a bill (H. R. 9999) granting a pension to Elizabeth Ward; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

WINBURN HICKS.

Mr. WADE also introduced a bill (H. R. 10000) granting a pension to Winburn Hicks; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

HOUSE RETURNS RESOLUTION TO ITS AUTHOR.

Mr. BAKER. I send up a resolution which I ask to be read.

The Clerk proceeded with the reading of the resolution.

Mr. REAGAN. I make the question of order against that resolu-

The SPEAKER pro tempore (Mr. Townshend in the chair). The gentleman will state it.

Mr. REAGAN. This is neither a bill nor a resolution, but a stump speech. [Laughter.]

Mr. KELLEY. Is not that the case with most of the resolutions

offered here? Mr. BLAND. We ought to appoint a committee of cranks and refer

what has been read to its author as the chairman of that committee. Mr. BAYNE. Let the Clerk go on with the reading of the resolu-

The SPEAKER pro tempore. The gentleman from New York [Mr. BAKER] submitted the resolution to the House when his State was called. It purports to be a resolution. The reading of the paper has not been completed, and the Chair is unable to determine the nature of the resolution until it has been read.

Mr. REAGAN. It is evidently an imposition on the House.

The Clerk proceeded with the reading of the resolution.

Mr. REAGAN. I again raise the point of order that this is neither a bill nor a resolution, but merely a political stump speech. It is a fraud upon the House. [Cries of "Order!"]

Mr. REED, of Maine. If it is nothing but a political stump speech,

as the gentleman alleges, there can be no objection to that in this House. Laughter.

Mr. HOPKINS. The Chair has already decided the question.

The SPEAKER. The Clerk will proceed with the reading of the resolution.

The Clerk proceeded with the reading of the resolution.

Mr. REAGAN. I renewmy point of order. It is perfectly manifest what this is.

Mr. WARNER, of Ohio. It is the political slush of that side of the House, and that is all.

Mr. REAGAN. It is not a bill or a resolution, but merely political

The SPEAKER. What the Clerk is reading now appears to be a preamble. [Laughter.] The Chair understands by inspection of the paper there are resolutions to it. It is for the House to determine the character of resolutions introduced, whether offensive or not.

Mr. REAGAN. This seems to be a mere stump speech. The SPEAKER. The resolution must be read before th

The resolution must be read before the House can determine what action it will take.

The Clerk concluded the reading of the preamble and resolutions.

Mr. RANDALL. Mr. Speaker, I do not consider this as either respectful or decent.

Mr. REED, of Maine. Is this debatable?

The SPEAKER. The gentleman has the right to make a motion in regard to it.

Mr. RANDALL. I state again, Mr. Speaker, this is a thing neither respectful nor decent, and I move it be referred back to the gentleman from whom it came.

Mr. BAKER. I desire, modestly, it should go to the steering com-

ittee. [Laughter.] Mr. SPRINGER. It should go to the Committee on Ventilation and

Acoustics

The SPEAKER. The gentleman from Pennsylvania moves the resolution be returned to the member who offers it.

Mr. REED, of Maine. The original motion is for reference to a committee.

The SPEAKER. The House always has the right to determine for itself whether it will receive matter which it deems offensive and in-

Mr. BAKER. Mr. Speaker—

Mr. BAKER. I rise to a question of order.

The SPEAKER. The gentleman will state it.

Mr. BAKER. I wish to ask if it is in order for the gentleman who introduced the resolution by consent of the House to withdraw it, [Cries of "No!" on the Democratic side.]

The SPEAKER. It can be done only by unanimous consent.

The SPEAKER. The point of order being made that no quorum has

Mr. BAYNE. I withdraw it.

So (no further count being demanded) the previous question was

The SPEAKER. The question is on agreeing to the motion of the gentleman from Pennsylvania to return the resolution to the gentleman who introduced it.

Mr. BAYNE. Is that question debatable?

The SPEAKER. Under the rule of the House thirty minutes are allowed for debate, fifteen in support of and fifteen in opposition to the motion.

Mr. BAKER. I ask unanimous consent to withdraw the resolution.

I do not want to take up the time of the House.

Mr. CALDWELL and others objected. [Cries of "Vote!" "Vote!"]

Mr. BAYNE. Mr. Speaker, I demanded the reading of that resolution, but did not know what its contents were, only assuming that they would be found to consist of pertinent and valuable truths, and I find I was not mistaken in that assumption. I paid very close attention to the reading of the resolution, and my observation and experience here during this session of Congress enable me to say that I do not believe they contain one word which is not strictly true. [Cries of "Oh!" and derisive laughter on the Democratic side.]

I see nothing whatever that is disrespectful in the resolutions, unless the truth itself is so unpalatable to the majority party of this House that they do not like it to be honestly told, and therefore reject the

resolutions on that ground.

may never emerge.

The facts are, that although we have been sitting here in continuous session for eight months, and although we have been struggling with one proposition or another, there is not one single important legislative enactment that has passed the two Houses, excepting, as I believe, the oleomargarine bill, which I regard as a very important enactment.

Mr. McMILLIN. How about the land-grant forfeiture bills?

Mr. PAVNE. The interested compared bill and excessively the

Mr. BAYNE. The interstate-commerce bill, and especially the proposition of the Senate, is one which should have received favorable and early attention from both Houses of Congress, and should have been enacted into a law long before this late date in the session. Yet it comes in at the very heels of this long session of Congress, and is now lodged in the hands of a committee of conference, from which it

The bankruptcy bill was one which deserved prompt consideration. The bill with reference to regulating the coinage of silver has not met with that favorable consideration which it merited at the hands of the American Congress. We were told that the agitation of that subject had brought down the value of silver bullion, and that as soon as the matter was adjusted here, and legislation upon the subject had become settled, the silver bullion in a 412½-grain dollar would rise to the equality of the gold dollar. The agitation was then done away with. There

was a refusal on the part of the majority side of this House to consider a bill which would have remedied our silver coinage and made it safe. That measure was rejected. They declined to consider it; and yet the bullion in that silver dollar continued to depreciate. Is that the effect of good or bad legislation?

A resolution went from the House to the Senate at the very close almost of this session of Congress, taking from the Secretary of the Treasury the command of any fund as a working balance for the necessary expenditures of the Government, and leaving in the hands of the Secretary only the \$100,000,000 which were pledged as a reserve fund for the redemption of the greenback currency. It passed the House of Representatives in that form and went to the Senate, and is now back in the hands of the conferees; and there does not seem to be any haste even at this late day on the part of the Democratic majority to take up that resolution and either agree to the amendment of the Senate or else reject it, and thus arrive at a final conclusion on that important question.

So that I think, Mr. Speaker, on a hasty examination of the field of legislation during this session of Congress, that the propositions embodied in the preamble and resolution of my friend from New York set forth merely the truth, which is borne out by the record; and I do not doubt that he himself prepared this resolution and that preamble from the legislative records which contain our proceedings from day to day. We now find that the best that the Democratic majority can do, after having their misdeeds and shortcomings successfully embodied in this preamble and resolution, is to hurl it back into the teeth of the mover of it, because the truth seems to be so objectionable to that majority in this House.

I reserve the remainder of my time.

I reserve the remainder of my time.

Mr. RANDALL. Mr. Speaker, I have only to say that I made the motion I did in no spirit of temper. This is a proceeding the like of which I have never known in my long experience in this House. I thought it unworthy of an American House of Representatives, and have all the motion. hence it was that I submitted the motion.

I reserve, if necessary, the remainder of my time

Mr. BAKER rose.

The SPEAKER. Does the gentleman from Pennsylvania yield? Mr. BAYNE. I yield to the gentleman from New York [Mr. Ba-

KER]

Mr. BAKER. The writer of the preamble and resolution read had no purpose or intention, I am sure, of writing or saying anything that should be disrespectful to the majority of this House. I think it is hardly necessary for him to assure his friends on the other side of his personal esteem and regard.

Mr. CALDWELL. We were surprised you were the author of the

resolution.

Mr. BAKER. It was my purpose to relieve, it might be, some member of the other side of the labor of preparing a résumé of the excellent work which has been performed this session. But in view of the fact that my honored friend from Pennsylvania is somewhat grieved by the presentation of the resolution-Mr. RANDALL. Not a bit.

You are the one that ought to feel

badly about it and suffer.

Mr. BAKER. I trust unanimous consent will be given to the mover of the resolution to withdraw it.

Mr. ADAMS, of New York. I object.
Mr. WARNER, of Ohio. I desire to ask the Chair whether the reading of that paper will carry it into the RECORD?
The SPEAKER. It will not, especially if the House directs it to be

returned.

Mr. REED, of Maine. It seems to me there is good ground for the indignation expressed on the Democratic side, for while this matter assumed in its final results the form of a jest, it still contained so many unpleasant truths that the indignation of the gentleman from Pennsylvania certainly could not have been feigned. It is true that this Democratic House with 40 Democratic majority has determined and has acted upon that determination to keep half a million of citizens of the United States out of the Union. It has flouted the demand of the great Territory of Dakota to become one of the sisterhood of the States. That is a fact. That is a fact that can not be gainsaid, and it is a fact which no jest can obliterate. And it is another fact that the gentlemen upon the Democratic side have not dared to bring that measure into the light of day.

There is an omission with relation to the Territories which was unfortunately made by the gentleman from New York, and that naturally ought to arouse the indignation of the gentleman from Pennsylvania and of the Democratic party. He never made mention of the fact that this House has deliberately suppressed legislation with regard to the Territory of Utah. The Senate passed strong legislation on that subject. The House Committee on the Judiciary, in their desire to appear to do something, added amendments still more stringent. And this

to do something, added amendments still more stringent. And this Democratic House, with forty majority, have suppressed that legislation, and Mormondom continues in possession of the Territory of Utah. That was omitted. No wonder that in the detail of their great achievements they are angered to have this greatest one left out.

Why, sir, it is all of a piece. There is always the same kind of paint that goes over the whole of this surface. They have pretended much legislation. They pretended even to be more eager than the Senate upon the Mormon question; and yet they have done nothing. much legislation. They pretended even to be more eager than the Senate upon the Mormon question; and yet they have done nothing. They have pretended on interstate commerce to be more radical than the Senate, and yet so act as to do nothing. The gentleman from Texas [Mr. Reagan] said of me this morning that I would gain no capital by alluding to that question. Capital! I did not come here to gain capital. [Derisive cheers on the Democratic side.] I came here for the purpose of doing what is decent and proper, and I see the fine scorn with which that is treated by the Democratic party. [Laughter and applause on the Republican side.] They can no more comprehend it than the gentleman from Texas [laughter and applause], whose business all his life has been to defend a Constitution unassailed and a people unattacked.

These things are going into history. These gentlemen can not con-cal their doings. They will find that their little parrot speeches about ceal their doings. what the figures of appropriation bills foot up are not going to stand them in stead as a victorious party. It is a party that has discredited every department of the Government which had not already discredited itself; and here they flame out into a fine state of indignation about

an affair like this.

Mr. PETERS. And unite on it.

Mr. REED, of Maine. Yes; and unite on it. The Democratic party for the first time comes up solid; even the gentleman from New York [Mr. ADAMS] is with the brethren. [Laughter.] Now, what a great party to govern a country! The SPEAKER. The ti

The time in opposition to the motion has expired.

Mr. RANDALL. How much time is left?

The gentleman from Pennsylvania occupied just The SPEAKER. one minute.

Mr. RANDALL. That leaves me fourteen minutes. I would like three minutes of my time, and the rest I am willing to give as the Chair may see fit. I yield now to the gentleman from Texas [Mr. REAGAN].

Mr. REAGAN. This is a rare presentation by one branch of the greatest legislative body in the world—allowing a member, in fraud of

the rules and in contempt of his associates, to introduce as a resolution a statement bearing scarcely the semblance of truth on it in the form

of a political harangue against an adverse party.

The gentleman from Maine [Mr. Reed], finding the dilemma into which his associate had put himself, comes to the front, of course, as always-but never with a desire to make any capital out of it-to arraign the Democratic party.

Mr. REED, of Maine. I did not arraign them. I merely stated

Mr. REAGAN. The Democratic party of this House has passed some bills declaring the forfeiture of land-grants and restoring public lands for the use of settlers, a measure which has been long demanded

and which the gentleman from Maine opposed.

This House has passed a resolution proposing to pay out the surplus in the Treasury for the redemption of a portion of the interestbearing debt in order to relieve the people from paying interest upon that much money, and that measure of relief the gentleman from Maine opposed. The House of Representatives by a vote of 192 to 40 Maine opposed. The House of Representatives by a vote of 192 to 40 passed a bill, which has been long considered, to regulate interstate commerce and to give relief to the people against the oppressions under which they have groaned for years, which bill the gentleman from Maine opposed. On yesterday the House passed a bill to prevent the absorption of the public lands in the Territories by alien aristocrats and speculators, which the gentleman from Maine opposed. Those and speculators, which the gentleman from maine opposed. Those four measures will go to the American people as a part of the action of this Democratic House, and the gentleman from Maine will have to answer to the country for having opposed them and each of them [applause on the Democratic side]; and his party will have to answer for it. The gentleman again enters his complaint about the passage of the interstate-commerce bill without sufficient discussion. trouble with the gentleman is that it passed at all. His pretense now is that it was too slow in passing, but his real complaint is that it passed at all, for he has fought it continuously at every session of Congress since it first came before this House, and has sought to refuse to the American people the relief which they have demanded by their periods. titions, by their memorials, through their press, through their public

speakers, in every way and in every portion of the country.

The gentleman understands very well that in a body of three hundred and twenty-five Members and eight Territorial Delegates, each struggling to advance the measures in which his own constituents are most directly interested, it is very difficult to bring forward and mature in a single session bills affecting great public interests, and on that account, as he very well understands, a number of bills, such as that in relation to Utah, have not yet been acted upon. But the gentleman will find in due time that this Democratic House means to have proper and efficient legislation with reference to the suppression of Mormondom, as he calls it. I do not wish to occupy the time of the House further than to say that when the number of bills passed at this session of Congress comes to be considered and when the number of reports made from the committees comes to be considered, it will be found that this Democratic House, which the gentleman takes so much pains to upbraid, has performed more labor, made more reports, passed more bills than any House of Representatives since the foundation of this overnment. [Renewed applause on the Democratic side.]
Mr. RANDALL. How much time have I left?
The SPEAKER. The gentleman has nice.

Government.

Mr. BOUTELLE. I would like to ask the gentleman from Texas if those four important measures which he has enumerated have become

Mr. REAGAN. This Democratic House has acted upon them. Whether the Republican Senate has acted upon them is another ques-

Mr. BOUTELLE. They passed the House too late to become laws. Several MEMBERS (on the Democratic side). Oh, no. Mr. SPRINGER. The gentlemen on the other side have referred to Mr. SPRINGER. The gentlemen on the other side have referred to the fact that no legislation has been enacted at this session in regard to the admission of Dakota into the Union. The gentleman from Maine [Mr. Reed] has said that this House has refused the demand of the 500,000 people of Dakota for the admission of that Territory as a State. That is not the fact. The people of Dakota, or a portion of the people of Dakota, asked that one-half of that Territory should be admitted into the Union as a State, the other half remaining as a Territory. There are only about 225,000 people in the southern portion of Dakota, which is seeking admission into the Union as a State. Now I undertake to say that there is not a precedent from the foundation of the Government to this time where any political Territory has sought to divide itself in two and asked for the admission of one-half as a State, the other half remaining as a Territory. There is no precedent for this action on the part of a portion of the people of Dakota.

The Committee on Territories, on the 25th day of May last, reported a bill for the admission of the whole of the Territory of Dakota into the Union. If that bill should pass—and I hope it will pass; I am in favor of it—it will enable the people of that Territory to form a constitution and to be admitted into the Union by the ordinary processes by which States are admitted. That bill has not been reached upon the Calendar. There are a great many good bills upon the Calendar that have

not been reached. I am sorry that we have not been able to reach that I am willing to take it up at any moment and pass it, in order to enable the people of Dakota to form a State constitution and to be admitted into the Union. The gentleman from Maine said that we had suppressed legislation in regard to Utah. The only bill on that subject that I remember that has been suppressed in this House is one that was suppressed by the single, solitary objection of the gentleman from Maine himself when the gentleman from Ohio [Mr. Hill] asked unanimous consent to consider it. I mean the bill providing for an extra session of the Legislature of Utah to make provision to carry on the insane asylum, the deaf and dumb asylum, and to make provision for educational and charitable objects in that Territory which the Legislature had failed to provide for.

That bill met with the solitary objection of the gentleman—
Mr. REED, of Maine. It was my objection that did it.
Mr. SPRINGER. And the gentleman now objects to that bill.
Mr. REED, of Maine. Yes; but I am ready to appropriate every

Mr. SPRINGER. Yes, the gentleman wants now to go through the farce of appropriating by an act of Congress money to be paid cut of the Territorial treasury of Utah—a thing utterly without precedent. Mr. REED, of Maine. I am for that. Are you opposed to it?

Mr. SPRINGER. Opposed to appropriating money out of the Territorial treasury of Utah?

Mr. REED, of Maine. For the benefit of the Territory.

Mr. SPRINGER. I know of no precedent-Mr. REED, of Maine. Are you opposed to it?

Mr. REED, of Maine. Are you opposed to it?
Mr. SPRINGER. I am.
Mr. REED, of Maine. Well, I am glad to get the gentleman's answer at last; it required a good deal of coaxing.
Mr. SPRINGER. I am opposed to it; and every man who has any sort of knowledge of the proper proceeding in such cases is opposed to it. The gentleman wants to pass an act of Congress to take money out of the Territorial treasury of Utah—
Mr. REED, of Maine. For the benefit of the Territory.
Mr. SPRINGER. Such a proceeding is without a precedent; and the centleman knows it can not be done.

gentleman knows it can not be done.

Mr. REED, of Maine. I am in favor of it, and I know it can be

Mr. SPRINGER. Meanwhile the blind, the deaf and dumb, and the insane in that Territory are without the means of support; and the gentleman from Maine is alone responsible.

Mr. REED, of Maine. No, he is not.

[Here the hammer fell.]

Mr. RANDALL. Mr. Speaker, if this had been legitimate political warfare my motion would not have been made, for I do not believe anybody here supposes I would shrink from any fair political contest. But the gentleman from New York took advantage of the rules to introduce a proposition which was neither respectful nor decent, and from the responsibility for which he himself, the moment after it was read, sought to escape.

Mr. BAKER. Not on my own account at all, but as a concession to the gentleman from Pennsylvania.

Mr. CALDWELL. And a confession of the gentleman from New

Mr. RANDALL. I needed no concession.

Mr. Speaker, we are all about to return to the people who sent us here; and the record of this House will be weighed and measured by them. The results of our actions will be carefully scanned, and the elections will show whether in the popular judgment the party in control of this House to-day should receive the respect and approval for the future of the American people. Let me recite a few of the results of their legislation:

We have returned to the public domain millions of acres of public lands sought to be unlawfully kept by insatiate corporations, reaching

70,000,000 acres. [Applause.]

We have entered upon the work of constructing a new navy. We have passed every act that we have been asked to pass for the purpose of bettering the condition of the working people of the United States. We have not in a single instance, so far as I remember, passed through this House a bill in favor of monopolies. We have given to the Senate an opportunity to join with us in passing an interstate-commerce bill which only forty men on the other side dared to vote against. But for the delay involved in the present proceeding on the part of gentlemen on the other side we should probably have reached to-day an opportunity of passing a bill to increase the pensions of one-armed and onelegged soldiers.

Finally, I say deliberately that the appropriation bills as they have passed this House are, so far as I know, freer from suspicious or unnecessary propositions than they have been in any Congress since the war, whether this remark applies to the appropriations reported from the committee over which I have the honor to preside or those emanating from the other committees having charge of appropriation bills. What-ever may be the result of the next election, I venture to say we have done so well that we ought to command, and I believe will command,

the confidence and approval of the American people.

Nay more; when we came here thousands and thousands of working people throughout the United States were idle. Even in my own city the number ran up to tens of thousands. But to-day, so far as my information gives me knowledge, there are few laboring men who want work who can not secure it [applause]; and I add that this is due in a large degree to the confidence which this Democratic House and the Democratic Executive in direction of good government have given to the American people. [Applause.] [Cries of "Vote!" "Vote!" The SPEAKER. The question is on the motion of the gentleman from Pennsylvania [Mr. RANDALL].

Mr. BAYNE. I rise to a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. BAYNE. In the event of this resolution being referred back to the member who presented it, will it be printed in the RECORD?

The SPEAKER. It will not be, unless the House so orders.

Mr. REED, of Maine. Will the member have a right to report it back for immediate consideration? back for immediate consideration?

The SPEAKER. He could reintroduce the proposition the Chair supposes, before the Chair had passed from the call of his State.

Mr. BAYNE. As I understand, then, if a vote be taken and this be re-

ferred back, the situation of the Journal and of the RECORD will be that the House will have referred back to a member a resolution introduced by him, and there will be no evidence on record of what that resolu-

on was. Is that the situation?
The SPEAKER. The resolution was read to the House, and the House heard what it was. The proposed order is not to refer the resolution back to the gentleman, but that the House declines to receive

the proposition—that it be returned to him.

Mr. REED, of Maine. That was not the motion, as I understood it.

The SPEAKER. The motion of the gentleman from Pennsylvania was that the resolution be returned to the gentleman who introduced

Mr. REED, of Maine. Can the language of the motion be given? The SPEAKER. The Chair will cause the motion to be read. Mr. REED, of Maine. The motion, as we understood, was to refer

it back; that, I think, was the language of the gentleman from Penn-

The SPEAKER. The gentleman from Pennsylvania, according to the understanding of the Chair, moved that the resolution be returned to the gentleman who introduced it.

Mr. REED, of Maine. "Referred back."
The SPEAKER. Not "referred," but "returned."
Mr. REED, of Maine. "Referred."

The SPEAKER. The Chair will cause the notes of the official stenographer to be read.

The Official Reporter read as follows:

The gentleman moves that the resolution be returned to the member who offers it.

Mr. BAYNE. If the resolution is returned or referred or committed to the gentleman, is it not implied that the member to whom it is returned or referred shall have the right to report it again to the House?

The SPEAKER. The House on the statement of the gentleman from Pennsylvania [Mr. RANDALL] that the resolution was not respectful to the House proposes to return it to the gentleman; that is, it refuses to receive the proposition which is considered by the House to be disrespectful. That is all there is about it.

Mr. BAYNE. The gentleman proposes to return the resolution to the member from whom it came on the ground that it is disrespectful, and if it is not printed no one can judge from the RECORD in reference to the matter whether it is or not.

The SPEAKER. No one has the right to judge but the House it-

Mr. BAYNE. How are they to judge if it was disrespectful?

The SPEAKER. No one has the right to judge of it but the House itself. The House has heard it read, and it must determine for itself whether the resolution is disrespectful or not. The question recurs on

the motion of the gentleman from Pennsylvania [Mr. RANDALL] that the resolution be returned to its author.

The motion was agreed to; and the resolution was accordingly returned to Mr. BAKER.

CANCELLATION OF PATENTS.

Mr. PARKER introduced a bill (H. R. 10001) to provide for the repeal and cancellation of patents in certain cases; which was read a first and second time, referred to the Committee on the Judiciary, and ordered to be printed.

NICHOLAS BUSH.

Mr. PARKER also introduced a bill (H. R. 10002) for the relief of Nicholas Bush; which was read a first and second time, referred to the Committee on War Claims, and ordered to be printed.

TAXES ILLEGALLY ASSESSED.

Mr. BINGHAM introduced a bill (H. R. 10003) to amend section 3220 of the Revised Statutes; which was read a first and second time, referred to the Committee on the Judiciary, and ordered to be printed.

COINAGE OF STANDARD SILVER DOLLARS.

Mr. SCOTT submitted the following resolution; which was referred to the Committee on Coinage, Weights, and Measures:

to the Committee on Coinage, Weights, and Measures:

Resolved, That the Secretary of the Treasury be, and is hereby, requested to furnish this House with a statement, showing:

First. The actual profit, if any, accruing to the Treasury of the United States from the coinage of the standard silver dollar since February 28, 1878.

Second. The cost of the bullion in such coin as compared with its bullion value on the 2d day of August instant.

Third. The percentage of cost to the Government of the coinage of such silver coin, as well as the amount, if any, paid out by the Treasury Department for the transportation of silver in connection with its circulation or its transportation for the ordinary disbursements of the Treasury, in excess of what the cost would have been for the transportation of gold or greenbacks.

Fourth. Whether the difference between the cost of the bullion in our present silver coin, and the nominal value of such coin can be considered as a profit to or a liability of the Treasury, and, if a profit or a liability, the amount thereof.

WILLIAM MYERS.

Mr. SWOPE introduced a bill (H. R. 10004) placing on the pension-roll the name of William Myers, Company H, Third Pennsylvania Vol-unteer Cavalry; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

W. J. M'GILL

Mr. BROWN, of Pennsylvania, introduced a bill (H. R. 10005) to place the name of W. J. McGill on the pension-roll; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

IMPROVEMENTS OF RIVER RHONE, FRANCE.

Mr. BAYNE submitted the following resolution; which was referred to the Committee on Rivers and Harbors.

Resolved. That the Secretary of War be requested to submit, without delay, to the House of Representatives the report recently made by Capt. F. A. Mohan, Corps of Engineers, on the improvements of the river Rhone, in France, now on file in the office of the Chief of Engineers, United States Army.

ACQUISITION OF REAL PROPERTY BY CORPORATIONS.

Mr. ATKINSON introduced a bill (H. R. 10006) to prevent the acquisition of real property by corporations, and for other purposes; which was read a first and second time, referred to the Committee on the Public Lands, and ordered to be printed.

Mr. McMILLIN introduced a bill (H. R. 10007) for the relief of John Wood; which was read a first and second time, referred to the Committee on War Claims, and ordered to be printed.

GEORGE W. CONATZER.

Mr. McMILLIN also introduced a bill (H. R. 10008) for the relief of George W. Conatzer; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

ENROLLED BILLS SIGNED.

Mr. NEECE, from the Committee on Enrolled Bills, reported that the committee had examined and found truly enrolled bills of the following titles; when the Speaker signed the same:

A bill (S. 289) for the relief of J. A. Henry and others;
A bill (S. 1184) granting a pension to Jane D. Mumford;
A bill (S. 1398) granting a pension to Milton P. Shockley;
A bill (S. 2366) granting a pension to Elizabeth Garaghty;
A bill (S. 2502) granting a pension to Louise Paul; and
A bill (S. 3225) to grant a pension to Nancy Mason.

JOHN NELSON.

Mr. RICHARDSON introduced a bill (H. R. 10009) for the relief of the legal representatives of John Nelson, deceased; which was read a first and second time, referred to the Committee on War Claims, and ordered to be printed.

JERE WEBB.

Mr. RICHARDSON also introduced a bill (H. R. 10010) for the relief of Jere Webb, relieving him from the charge of desertion; which was read a first and second time, referred to the Committee on Military Affairs, and ordered to be printed.

LUDWIG SOMMERFIELD.

Mr. GUENTHER introduced a bill (H. R. 10011) granting a pension to Ludwig Sommerfield; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

PUBLIC LANDS, SAINT AUGUSTINE, FLA.

Mr. DOUGHERTY introduced a bill (H. R. 10012) donating certain lands to the city of Saint Augustine, Fla., for public schools, parks, and a public library; which was read a first and second time, referred to the Committee on the Public Lands, and ordered to be printed.

CHANGE OF REFERENCE.

Mr. DOUGHERTY. During my absence the other day the gentleman from Florida, Mr. DAVIDSON, my colleague, introduced a bill (H. R. 9941) of similar purport to the one I have just introduced, which was referred to the Committee on Public Buildings and Grounds. I ask that the reference be changed, and that it go to the Committee on the Pub-

There was no objection, and the change of reference was ordered.

JOEL J. GOSS.

Mr. CLEMENTS introduced a bill (H. R. 10013) for the relief of Joel J. Goss, of Georgia; which was read a first and second time, referred to the Committee on Public Buildings and Grounds, and ordered to be

ENROLLED BILLS SIGNED.

Mr. NEECE, from the Committee on Enrolled Bills, reported that they had examined and found duly enrolled bills of the following titles; when the Speaker signed the same:

A bill (H. R. 2124) amendatory of and supplementary to "an act to alter the judicial districts of Pennsylvania, and for other purposes," approved May 26, 1824, and providing an additional place for holding the several courts thereof; and

A bill (H. R. 5003) for the relief of Mary E. Casey.

ORDER OF BUSINESS.

Several members addressed the Chair.

The SPEAKER. The regular order has been demanded.

Mr. OATES. I ask unanimous consent to present a report from the Committee on the Judiciary.

The SPEAKER. The Chair can not recognize any gentleman for such requests unless the demand for the regular order is withdrawn. The Chair understands the gentleman from Indiana to insist upon it.

Mr. McRAE. Mr. Speaker, I ask consent—

The SPEAKER. The regular order is demanded. If the demand for the regular order is withdrawn the Chair must recognize gentlemen in the order in which they stand.

The Chair will state that there are two messages from the President of the United States which should have been laid before the House this morning, but being in a drawer they were overlooked, jection they will now be presented. Without ob-

There was no objection, and it was so ordered.

JENNETTE DOW.

The SPEAKER laid before the House the following message from the President of the United States, returning without his approval the bill (H. R. 3363) granting a pension to Jennette Dow; which was read, as follows:

To the House of Representatives:

To the House of Representatives:

I herewith return without approval House bill number 3363, entitled "An act granting a pension to Jennette Dow."

The husband of the claimant enlisted August 7, 1862; received a gunshot wound in his left knee in September, 1863, and was mustered out with his company June 10, 1865. He was pensioned for his wound in 1878, at the rate of \$4 per month, dating from the time of his discharge, which amount was increased to \$8 per month from June 4, 1880. The pensioned soldier died December 17, 1882, and in 1833 his widow, the claimant, filed an application for pension alleging that her husband's death resulted from his wound. Her claim was rejected in 1885, upon the ground that death was not caused by the wound.

The physician who was present at the time of the death certifies that the same resulted from apoplexy in twelve hours after the deceased was attacked.

It also appears from the statement of this physician that the deceased was employed for years after his discharge from the Army as a railroad conductor, and that at the time of his death he had with difficulty reached his home. He then describes as following the attack the usual manifestations of apoplexy, and adds that he regards the case as one of "hemiplegia, the outgrowth primarily of nerve injury, aggravated by the life's calling, and eventuating in apoplexy, as stated."

Evidence is filed in the Pension Bureau showing that after his discharge he was more or less troubled with his wound, though one witness testifies that he railroaded with him for fifteen years after his injury. I find no medical testimony referred to which with any distinctness charges death to the wound; and it would be hardly credible if such evidence were found.

I am sure that in no case, except in an application for pension, would an attempt be made in the circumstances here developed to attribute death from apoplexy to a wound in the knee received nineteen years before the apopletic attack.

EXECUTIVE MANSION, July 31, 1896.

EXECUTIVE MANSION, July 31, 1886.

GROVER CLEVELAND.

Mr. MATSON. I move to refer the bill and message of the President to the Committee on Invalid Pensions, and on that I demand the previous question.

The previous question was ordered, under the operation of which the motion of Mr. MATSON was agreed to.

PUBLIC BUILDING-CLARKSBURG, W. VA.

The SPEAKER also laid before the House the following message from the President of the United States in relation to House bill No. 4335 making an appropriation to continue the construction of a public building at Clarksburg, W. Va., and changing the limit of cost thereof; which was referred to the Committee on Public Buildings and Grounds:

which was referred to the Committee on Public Buildings and Grounds: To the House of Representatives:

I have approved House bill No. 4335, entitled "An act making an appropriation to continue the construction of a public building at Clarksburg, W. Va., and changing the limit of cost thereof."

A law passed by the last Congress authorized the construction of this building, and appropriated \$50,000 for that purpose, which was declared to be the limit of its cost. A site has been purchased for said building, and, as is too often the case, it is now discovered that the sum appropriated is insufficient to meet the expense of such a building as is really needed.

The object of the bill which I have approved is to extend the limit of cost to \$50,000, and to make the additional appropriation to reach that sum. The first section fixes the limit above mentioned, but the second section appropriates \$55,000, and thus, with the appropriation of \$50,000 heretofore made, the aggregate appropriations exceed the sum to which the cost of the building is limited by \$5,000.

Inasmuch as this latter sum can not properly be applied to the construction of the building, attention is called to the existence of this excess of appropriation, and the suggestion made that it be returned to the Treasury.

GROVER CLEVELAND.

EXECUTIVE MANSION, July 31, 1886.

REPORT OF COMMISSIONER OF AGRICULTURE.

Mr. REID, of North Carolina. I rise to submit a privileged report. The SPEAKER. The gentleman will send it to the desk.

Mr. REID, of North Carolina. I am directed by the committee of

conference to report back House joint resolution No. 201, and move to concur in the Senate amendments.

The SPEAKER. The report will be read.

The Clerk read as follows:

The Clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution of the House No. 201, for printing the Report of the Commissioner of Agriculture, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendments of the Senate numbered 1, 2, 3, and 4; and the Senate agree to the same.

JAMES W. REID,
JOHN M. FARQUHAR,
WILLIAM H. HATCH,
Managers on the part of the House,
CHARLES F. MANDERSON,
JOSEPH R. HAWLEY,
A. P. GORMAN,
Managers on the part of the Senate,
Mr. WARNER, of Ohio, I would like to hear some explanation of

Mr. WARNER, of Ohio. I would like to hear some explanation of

the effect of this report.

The SPEAKER. The rules require that the report shall be accompanied by a statement signed by the managers of the conference on the part of the House. There is no written statement accompanying this

Mr. REID, of North Carolina. I will state the effect of the report. It reduces the cost of the report about \$20,000 and lessens the number originally proposed 40,000. As compared with the previous year it increases the number to each member of the House from 590 to 901, and it gives the Senate 75,000 copies instead of 76,000 copies. Representatives and Delegates will each receive 310 copies more of the report than last year, the number then being only 590.

The report was agreed to.

REPORT ON PRODUCTION OF PRECIOUS METALS.

Mr. REID, of North Carolina. I present another conference report. The Clerk read as follows:

The Clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the House concurrent resolution for printing the report of the Director of the Mint on the production of the precious metals in the United States, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendments of the Senate numbered I and 2, and agree to the same.

JAS. W. REID,
JOHN M. FARQUHAR,
RICHARD P. BLAND,
Managers on the part of the House.

ARTHUR P. GORMAN,
CHARLES F. MANDERSON,
JOS. R. HAWLEY,
Managers on the part of the Senate.

Mr. REID, of North Carolina. I move that the report be adopted.

Mr. REID, of North Carolina. I move that the report be adopted. raises the number of copies from 6,000 to 9,000. It increases the It raises the number of copies from 6,000 to 9,000. number to be printed and the cost correspondingly.

Mr. McMILLIN. How many were printed last year?

Mr. BLAND. This provides for the same number as last year. Mr. McMILLIN. And it cuts the number down to the number printed last year?

Mr. REID, of North Carolina. Yes, sir.

The report was agreed to.

Mr. REID, of North Carolina, moved to reconsider the vote by which the report was agreed to; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

MAP OF UNITED STATES AND TERRITORIES.

Mr. REID, of North Carolina. I present another conference report. The Clerk read as follows:

The Clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (II. Res. 160) to authorize the Commissioner of the General Land Office to cause 15,000 copies of the map of the United States and Territories to be printed, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate numbered I, and agree in lieu thereof to insert the following: "7,500;" and the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate numbered 2, and agree in lieu thereof to insert the following: "2,000;" and the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate numbered 3, and agree in lieu thereof to insert the following: "4,000;" and the Senate agree to the same.

That the House agree to the insertion, after the word "office," on line 8 of the joint resolution, the following: "And that 1,000 copies be printed and mounted, to be sold under direction of the Secretary of the Interior, at \$1.50 each;" and the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate agree to the same.

numbered 4, and agree in lieu thereof to insert the following: "10,125;" and the Senate agree to the same.

That the House recede from its disagreement to the title of the joint resolution as amended by the Senate, and agree in lieu thereof to insert the following: "Joint resolution to authorize the Commissioner of the General Land Office to cause 7,500 copies of the map of the United States and Territories to be printed;" and the Senate agree to the same.

JAMES W. BEID

JAMES W. REID,
JOHN M. FARQUHAR,
P. DUNN,
Managers on the part of the House.
CHARLES F. MANDERSON,
JOS. R. HAWLEY,
A. P. GORMAN,
Managers on the part of the Senale.

Mr. SPRINGER. Is there a statement accompanying the report? The SPEAKER. The Chair has already called the attention of the gentleman from North Carolina to the fact that the rules require a written statement signed by the House conferees to accompany every report of a conference committee. There is no written statement here.

Mr. SPRINGER. Let the gentleman state verbally the effect of the

report.

Mr. REID, of North Carolina. It reduces the number to be printed down to 7,500 from 15,000 as it was in the bill as it passed the House, and of course it also reduces the cost. I can withdraw the report and present it again accompanied by a statement.

The SPEAKER. That is not insisted upon.

The report was agreed to.

PRINTING OF DIGEST.

Mr. FARQUHAR. I present a privileged report from the Committee on Printing.

The Clerk read as follows:

The CIERK read as follows:

"Resolved, That 2,000 copies of the Digest for the second session of the Fortyninth Congress be printed for the use of the House."

The Committee on Printing, to which was referred the foregoing resolution, having had the same under consideration, report it back with the recommendation that it do pass. The edition for the present session is exhausted, and as there have been several changes in the standing rules and orders during the session, as well as changes in the membership of the House and committees, it is necessary that this resolution should be passed in order that the Digests may be ready for members at the commencement of the next session. As each edition is stereotyped, a portion of the book only will have to be reset, the cost of which is estimated by the Public Printer to be about \$455.

The resolution was adopted.

The resolution was adopted.

Mr. FARQUHAR moved to reconsider the vote by which the resolution was adopted; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

REPORT OF MONETARY CONFERENCES OF 1878 AND 1881.

Mr. FARQUHAR. Can the Committee on Printing at this time make a report recommending a concurrence in amendments of the Sen-

The SPEAKER. That is a privileged matter if it is printing for the two Houses

Mr. FARQUHAR. It is.

The Clerk read the title of the joint resolution on which a conference was asked by the Senate on the disagreeing votes of the two Houses, as

A joint resolution (H. Res. 87) providing for the printing and distribution of documents of the monetary conferences of 1878 and 1881.

The Clerk read the Senate amendments, as follows:

In line 3, after "1881," insert "also the report of the monetary commission created under joint resolution of August 15, 1876, being Senate Report No. 703, second session of the Forty-fourth Congress, with such indices to the three reports as may be supplied by the Secretary of State."

Amend the title so as to read: "Joint resolution providing for the printing and distribution of documents of the monetary conferences of 1878 and 1881 and the report of the monetary commission created under the joint resolution of August 15, 1876."

Mr. FARQUHAR. I move that the House concur in the amend-

ments of the Senate.

The SPEAKER. Unless separate votes are demanded the question will be put upon agreeing to the amendments in gross.

The amendments were agreed to.

Mr. FARQUHAR moved to reconsider the vote by which the amendments were agreed to; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

SENATE EXECUTIVE DOCUMENT NO. 85.

Mr. FARQUHAR. I desire to present another privileged report. The SPEAKER. The report will be read.

The Clerk read as follows:

In the House of Representatives, July 27, 1886.

Resolved by the House of Representatives (the Senate concurring therein), That 10,000 copies of Senate Executive Document No. 85, Forty-ninth Congress, be printed; one-half for the use of the Senate and the other half for the use of the House.

The Senate proposes to amend as follows:
In line 2 strike out "ten" and insert "six;" in line 5 strike out the word "half" and insert "thousand five hundred;" in line 5 strike out "the other" and insert "three thousand five hundred;" and in line 6 strike out "half."

Resolved, That the Senate request a conference with the House of Representatives on the resolution and the amendments.

Ordered, That Mr. MANDERSON, Mr. HAWLEY, and Mr. GORMAN be the conferees on the part of the Senate.

Mr. FARQUHAR. I move to concur in the amendments of the Senate.

The amendments were concurred in.

Mr. FARQUHAR moved to reconsider the vote by which the amendments were concurred in; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

INDEX TO SOUTHERN CLAIMS COMMISSION REPORTS.

Mr. SPOONER. Mr. Speaker, I desire to present a privileged re-

port from the Committee on Accounts.

The SPEAKER. The report will be read.

The Clerk read as follows:

IN THE HOUSE OF REPRESENTATIVES, July 19, 1886.

In the House of Representatives, July 19,1886.

Resolved, That the Clerk of the House be authorized to employ, for a period not exceeding two months, a clerk, at the rate of § per diem, to be paid out of the contingent fund of the House, to complete the index of Southern Claims Commission Reports, and cases referred to the Court of Claims under the Bowman act, as heretofore authorized by the House.

The Committee on Accounts, after consideration of the accompanying resolution authorizing the Clerk of the House to employ a clerk at §6 per day for two months to complete the index of Southern Claims Commission Reports, and cases referred to the Court of Claims under the Bowman act, find that it will be necessary to employ a clerk three months to complete such work. The index is now complete for two years, and unless the work is followed up all that has been done to date will be valueless. The committee therefore recommend that the resolution be passed with this amendment: Strike out the word "two," in line 2 of the resolution, and insert in its place the word "three."

The amendment was agreed to.

The resolution as amended was then adopted.

Mr. SPOONER moved to reconsider the vote by which the resolu-tion was adopted; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

INCREASED PENSIONS FOR ONE-ARMED AND ONE-LEGGED SOLDIERS.

Mr. MATSON. Mr. Speaker, I move to suspend the rules and pass the bill which I send to the Clerk's desk, with the amendments indi-

The SPEAKER. The bill will be read.

The Clerk read as follows:

The Clerk read as follows:

A bill (8, 2056) to amend the pension laws by increasing the pension of soldiers and sailors who have lost an arm or leg in the service.

Be it enacted, &c., That from and after the passage of this act all persons on the pension-rolls, and all persons hereafter granted a pension, who, while in the military or naval service of the United States and in line of duty, shall have lost one hand or one foot, or been totally or permanently disabled in the same, shall receive a pension of \$30 a month; that all persons now on the pension-rolls, and all persons hereafter granted a pension, who in like manner shall have lost either an arm at or above the elbow or a leg at or above the knee. or been totally or permanently disabled in the same, shall receive a pension of \$35 per month; and that all persons now on the pension-rolls, and all persons hereafter granted a pension, who in like manner shall have lost either an arm at the shoulder-joint or a leg at the hip-joint, or so near the joint as to prevent the use of an artificial limb, shall receive a pension at the rate of \$45 per month: Provided, That nothing contained in this act shall be construed to repeal section 4690 of the Revised Statutes of the United States, or to change the rate of \$18 per month therein mentioned to be proportionately divided for any degree of disability established for which section 4635 makes no provision.

The Committee on Invalid Pensions, recommended an amendment

The Committee on Invalid Pensions recommended an amendment, striking out in line 7, and again in lines 11 and 12, the words "or per-

The SPEAKER. Is a second demanded?

The SPEAKER. Is a second demand a second.

Mr. BURROWS. Let a second be considered as ordered

The SPEAKER. The gentleman from North Carolina objects. The SPEAKER. The gentleman from North Carolina objects. The Chair will appoint the gentleman from Indiana [Mr. MATSON] and the gentleman from North Carolina [Mr. CowLES] to act as tellers.

The question was taken; and the tellers reported—ayes 158, noes 5.

Mr. COWLES. No quorum.

The SPEAKER. There is a quorum and a second is ordered. Under the role thirty minutes are allowed for debate, fifteen minutes in sup-

the rule thirty minutes are allowed for debate, fifteen minutes in supthe rule thirty minutes are allowed for debate, lifteen minutes in support and fifteen minutes in opposition to the bill. The gentleman from Indiana [Mr. MATSON] will control the time in support of the bill and the gentleman from North Carolina [Mr. COWLES] the time in opposition to it. [Cries of "Vote!" "Vote!"

Mr. MATSON. I will detain the House only two or three minutes. This bill proposes to increase the pensions of soldiers or sailors who

have lost a limb in the military or naval service of the United States. It proposes an increase of \$6 a month to those who have lost a hand or a foot, an arm or a leg, and an increase of \$7.50 a month to those who have lost an arm of a leg, and an increase of \$7.50 a month to those who have lost an arm at the shoulder joint or a leg at the hip joint. The cost of this bill will be \$615,000 per annum. It appears that there are eight thousand survivors with this kind of disability. The amendment proposed to the Senate bill is simply the striking out of two words. The Senate bill provides that those who are so disabled totally "or permanently" in one hand or foot shall receive the same rate of pension. The Committee on Invalid Pensions thought that those two words "or permanently" might be construed to apply to a permanent disability which did not amount to a total disability, so to guard

against that the words are proposed to be stricken out, and with that amendment the committee ask that the bill as it came from the Senate I reserve the remainder of my time.

Mr. COWLES. I yield ten minutes to the gentleman from Ohio [Mr. WARNER].

Mr. WARNER, of Ohio. Mr. Speaker, I know the position in which a member of this House places himself when he rises to oppose a measure of this kind; and I should not do so if I did not think good reasons

exist why the bill should not pass.

Certainly no class of soldiers are entitled to higher honors or greater consideration than those who lost limbs in battle, save those who lost their lives on battlefields. But the loss of limbs was not the only severe injuries which were sustained. Often an injury to some vital organ or part compels a man to go through life under greater difficulty than would the loss of an arm below the elbow, or even the loss of a leg. Many a soldier who is now drawing but \$4 a month for an injury to some vital organ—perhaps a diseased or injured lung—suffers more severely and goes through life under greater difficulty than a man who has lost a limb; and his life, too, is more likely to be shortened.

Again, there are thousands and tens of thousands not on the pension-

roll at all, and who can scarcely keep out of the poor-house, who, though their disabilities are not so marked or so apparent, are suffering perhaps quite as severely as those who have lost limbs.

But, Mr. Speaker, I have another reason for voting against this bill,

which I shall do reluctantly but from a sense of duty. That reason is this: I take as a fair standard for the equivalent of total disability the average earnings of laboring men who toil all day from morning to night. If we give to one totally disabled for performing manual labor for his support the full earnings of another man who must toil through the day, it seems to me we give the full measure of compensation which there is any right to demand.

If, however, in addition to the loss of a limb, which is counted total disability (although it really is not total disability), the one disabled is put to an expense or cost for medical or surgical attendance, an allowance should be made for that; and if his disability is such that he can not minister to or help himself, then he should be entitled to the proceeds of the labor of two men. That I think is the true standard, and the one that should guide us in these matters.

I have never heard any good reason why we should go above that standard. There are now twenty millions of men in this country who must labor to maintain themselves and to support and educate their families. Their average earnings are not \$30 a month. They can not earn that working all day on the average; and besides they have to take all the chances of being thrown out of employment and of loss of time from sickness and other causes; while the pensioner draws quarted with a school of the causes; terly with regularity his full pension. And it should not be forgotten that these same men who toil for less than \$30 per month on the aver-

age have in the end these pensions to pay.

A former Secretary of State, Mr. Evarts, tersely gave as the cause of the greater burdens sustained by countries in Europe that every peasant there had to carry a soldier on his back. Now, I do not think we are in danger of coming to that condition of things here. I hope not, at any rate. But when you give to one who has lost a limb the earnings of another man for his relief you make, as things go, reason-

able provision. You afford reasonable compensation.

Besides, Mr. Speaker, a considerable part of these men, if not a majority of them, are either in Government employ or otherwise occupied at regular and full salaries. So that their disability is not that kind of total disability suffered by many other men whose wounds were not of a nature to cause the loss of a limb. There are many wounded soldiers in Government employ, and I am glad of it, drawing the same salaries that other employes draw. A man who has lost an arm below the elbow, as everybody knows, is not so disabled that he can not do anything. He can help himself in many ways. He can earn in many kinds of employment about the same as others earn. He can do more than a man with a diseased lung or heart or other vital organ can. Who would not rather lose an arm, bad as it is, than be compelled to go through life with half-destroyed lungs or otherwise diseased?

I think, therefore, to increase the pensions of the class contemplated in this bill is to raise them out of proportion to the pensions granted for other kinds of disability, and to give more than a just standard which such disability requires. It is lifting higher a few from the top while those at the bottom, who now get the least compensation, are left untouched. Hence, I do not think this is a just measure. In ethics it is laid down as a maxim that the essence of injustice is inequality where there ought to be equality, unfairness in granting favors where there should be a fair distribution.

These, Mr. Speaker, briefly stated, are the reasons which constrain me reluctantly to cast my vote against this bill. I would much rather give something to that class who are drawing no pensions but who are more or less disabled and who are hardly able to keep out of the poorhouses. I think it would be far more equitable and a far better measure of relief to give some assistance to these rather than increase the pensions of those who are now receiving \$24, \$30, and \$37.50 per month. regret that the chairman of the Committee on Invalid Pensions [Mr. MATSON] did not see fit to bring forward, instead of this measure, some

measure which would give even a little belp to the many who are in need and who are receiving nothing at all.

Mr. BUCK Why not provide for both classes?

Mr. BUCK. Why not provide for both classes?

Mr. WARNER, of Ohio. But let us at any rate give first to those who now have nothing. But I have given my reasons for voting against increasing the pensions of the class whom this bill will benefit. The average earnings of a healthy laboring man is the highest standard and let me and is higher than that of any other nation in the world; and let me say that no other country in the world has ever been so generous to its say that no other country in the world has ever been so generous to its soldiers as ours. We have been none too generous; but in no other country are pensions so general nor is the grade of pensions so high. In this bill we pass beyond all precedent in fixing the rating for total disability. Formerly \$8 a month was full pension for the loss of a limb.

Mr. SOWDEN. To what class of soldiers does the gentleman refer when he speaks of those who though entitled to pensions are getting

Mr. WARNER, of Ohio. A very large class.

[Here the hammer fell.]

Mr. COWLES. I will now yield for five minutes to the gentleman

from Alabama [Mr. OATES].

Mr. OATES. During the period of my service in this House I have never uttered a word on this floor on the subject of pensions. Now, the original purpose of pensioning a soldier is that he who has been faithful to his Government and has become disabled in its service or becomes so from disease engendered in it should not be compelled to go to the poor-house, but should receive sufficient allowance from the Government to maintain him comfortably. There is no estimating in dollars the suffering of men who have lost an arm or leg. I can speak from experience. That is not the question; the question is how much is a proper allowance to maintain them in comfort. As I understand the present law it allows these unfortunates from \$35 to \$40 a month.

I will not be positive.

Mr. WARNER, of Ohio. Twenty-four dollars.

Mr. OATES. Twenty-four to thirty dollars, I believe.

Mr. WARNER, of Ohio. Twenty-four dollars to \$37.50.
Mr. OATES. That allowance, in my judgment, is large enough to

meet the objects and purposes of our pension laws.

This disposition to have an increase is common not alone to pensioners, but nearly all the officials of the Government. I, sir, am the last man who would deny to these unfortunates the bounty of the Government to any extent necessary. The fact I wore the gray when I lost my own good right arm does not affect my sympathy for those who wore the blue.

[Applause.] My sympathy is for the man who met me gallantly in

[Applause.] My sympathy is for the man who met me garanty in battle. [Applause.] Remember he is his country's stay in the hour of danger. I recognize every one of them as my brethren.

But, sir, I think this extension is wholly unnecessary. Look at the unfortunate confederate soldier; they have no government to pension them. They have lost an arm or a leg, and you find them following the plow or using the hoe with one arm and hobbling along on one leg, and yet, sir, I have never seen a beggar among them all. [Applause.] Certainly, if men thus circumstanced can earn a living, and none of them are found to be beggars, our brethren who fought them in battle and who likewise have been unfortunate, who now receive from \$25 to \$30 per month, ought, it seems to me in all justice, to consider that amount enough. I am, therefore, opposed to this bill; I do not believe it is necessary.

I will say in conclusion, Mr. Speaker, that if I believed it were not sufficient to maintain these men I would give my vote even if it should require \$100 a month in order to supply them with the necessaries of life. [Cries of "Vote!"]

The question recurred on Mr. MATSON'S motion to suspend the rules and pass the bill.

Mr. SPRINGER demanded the yeas and nays. The yeas and nays were ordered.

The question was taken; and it was decided in the affirmative-yeas 166, nays 51, not voting 105; as follows:

and pass the bill was agreed to.
On motion of Mr. EDEN, by unanimous consent the reading of the

names was dispensed with.

The following additional pairs were announced: Mr. CLARDY with Mr. OWEN, until further notice. Mr. HARRIS with Mr. WAIT, for the rest of the day.

Mr. STONE, of Missouri, with Mr. ANDERSON, of Kansas, for the rest

Mr. BALLENTINE with Mr. WAKEFIELD, for the rest of the day. Mr. White, of Minnesota, with Mr. Martin, on this vote. The result of the vote was then announced as above recorded.

Mr. BURROWS. Mr. Speaker, I am paired with my colleague, Mr. COMSTOCK. On examining the pair I find it applies to political questions. This is not regarded as a political question, and I would like to vote. I have no doubt that my colleague if present would vote "ay,"

and under the circumstances I shall record my vote in favor of the bill.

Mr. CAMPBELL, of Ohio. I wish to ask, Mr. Speaker, if I am an-

nounced as paired?

The SPEAKER. The Chair is informed that the gentleman is paired

for the day Mr. CAMPBELL, of Ohio. If I were not paired, I should vote "ay" on this question. Can I transfer my pair to the gentleman from West

The SPEAKER. The Chair thinks the gentleman could do so if he

saw proper.

Mr. WILSON. The gentleman from Ohio is paired with my colleague, Mr. Goff. I am satisfied that if Mr. Goff were present he would vote in the affirmative on this motion.

The SPEAKER. The Chair has no doubt the gentleman from West Virginia would so record his vote.

Mr. CAMPBELL, of Ohio. Believing that to be true, I shall also record my vote in the affirmative.

Mr. ATKINSON. Mr. Speaker, it is possible that I may be interested in this bill, and I ask leave to withdraw my vote. [Cries of "Regular order!"]

The SPEAKER. Is there objection to permitting the gentleman from Pennsylvania to withdraw his vote?

There was no objection, and the vote was withdrawn.

MESSAGE FROM THE PRESIDENT.

Several messages in writing from the President of the United States | deficiency appropriation bill.

were communicated to the House by Mr. PRUDEN, one of his secre-

The message also announced the approval of an act (H. R. 3379)

granting a pension to George G. Early;
An act (H. R. 5051) to place the name of Jacob Madison Pruitt on

the pension-roll;
An act (H. R. 7531) granting a pension to Catharine Nickert; and
An act (H. R. 8328) defining butter, also imposing a tax upon and
regulating the manufacture, sale, and importation and exportation of oleomargarine.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, announced that the Senate receded from its disagreement to the amendment of the House to the bill (S. 2609) granting a pension to Emily J. Stannard, and agree to the same.

Also, that the Senate had passed without amendment bills of the House of the following titles:

A bill (H. R. 822) for the relief of William H. Wheeler; and
A bill (H. R. 8585) to provide for the inspection of tobacco, cigars,
and snuff, and to repeal section 3151 of the Revised Statutes.

Also, that the Senate had passed a bill of the following title; in
which the concurrence of the House was requested:

A bill (S. 2611) to authorize the construction of a bridge across the Saint Louis River at the most accessible point between the States of

Minnesota and Wisconsin. The message further announced that the Senate had passed with amendments the bill (H. R. 4883) relating to the taxation of fractional parts of a gallon of distilled spirits, asked a conference with the House on the disagreeing votes thereon, and had appointed Mr. Aldrich, Mr. Jones of Nevada, and Mr. Harris as managers at the conference on the part of the Senate.

ORDER OF BUSINESS.

[Cries of "Regular order!"]
The SPEAKER. If there be no objection the message from the President of the United States accompanying the approval of the bill

Mr. MORRISON. Regular order.
And then (the hour of 5 o'clock and 5 minutes p. m. having arrived) the House adjourned.

PETITIONS, ETC.

The following petitions and papers were laid on the Clerk's desk, under the rule, and referred as follows:

By Mr. BYNUM: Petition of W. M. Ford and other citizens, for a pension to Tilman Bush-to the Committee on Invalid Pensions.

By Mr. CATCHINGS: Petition of Columbus Love and of James D. McAllister, of Monroe County, Mississippi, asking that their war claims be referred to the Court of Claims—to the Committee on War Claims.

By Mr. DORSEY: Petition of citizens of Nebraska, praying for the age of the bill to open up the Sioux reservation—to the Committee on Indian Affairs

By Mr. ERMENTROUT: Memorial of Messrs. Sullivan & Bro., of

Philadelphia, for the redemption of the trade-dollar—to the Committee on Coinage, Weights, and Measures.

By Mr. HARMER: Papers relating to the bill for the relief of W. H. Clay Fisher, United States Marine Corps—to the Committee on

By Mr. MAYBURY: Petition of Fairbanks Post, Grand Army of the Republic, of Detroit, Mich., for the passage of the bill for the relief of Mrs. Cornelia R. Schenek notwithstanding the objections of the President-to the Committee on Invalid Pensions.

By Mr. PERRY: Petition of C. M. Furman and others, for relief-

to the Committee on the Judiciary.

By Mr. SNYDER: Petition of C. D. Fitzwater and others, of Nicholas County, West Virginia, in relation to the coinage of silver—to the Committee on Coinage, Weights, and Measures.

By Mr. TUCKER: Petition of citizens of Georgia, for relief in respect

to the Freedman's Bureau, &c .- to the Committee on the Judiciary.

By Mr. WEST: Protest of Luther M. Wheeler, Post No. 92, Grand Army of the Republic, and veterans of the late war, against legislation attaching to pension bills propositions for raising revenue—to the Committee on Invalid Pensions.

SENATE.

TUESDAY, August 3, 1886.

The Senate met at 10 o'clock a. m.

Prayer by the Chaplain, Rev. J. G. BUTLER, D. D. The Secretary proceeded to read the Journal of yesterday's proceedings, when, on motion of Mr. EDMUNDS, and by unanimous consent, the further reading was dispensed with.

DEFICIENCY APPROPRIATION BILL.

Mr. HALE. I present the report of the conference committee on the

The PRESIDENT pro tempore. The report will be read. The Chief Clerk read as follows:

The PRESIDENT pro tempore. The report will be read.

The Chief Clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 9726) making appropriations to supply deficiencies in the appropriations for the fiscal year ending June 39, 1886, and prior years, and for other purposes, baving met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 4, 7, 17, 18, 22, 23, 24, 28, 36, 43, 44, 53, 55, 56, 66, 70, 71, 85, 100, 107, 112, 114, 115, 116, 119, and 120.

That the House recede from its disagreement to the amendments of the Senate numbered 3, 5, 10, 11, 2, 13, 14, 15, 16, 21, 25, 26, 27, 31, 33, 34, 54, 90, 51, 52, 64, 55, 65, 75, 66, 69, 92, 23, 99, 109, 111, and 132.

Amendment numbered 20: That the House recede from its disagreement to the amendment of the Senate numbered 20, and agree to the same with an amendment as follows: In lieu of the sum proposed in the amended paragraph insert "\$200,000;" and the Senate agree to the same.

Amendment numbered 30: That the House recede from its disagreement to the amendment of the Senate numbered 30, and agree to the same with an amendment as follows: At the end of the matter proposed to be inserted insert the following: "and the Senate agree to the same.

Amendment numbered 32: That the House recede from its disagreement to the amendment of the Senate numbered 32, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted insert the following: "and the Senate agree to the same.

Amendment numbered 32: That the House recede from its disagreement to the amendment of the Senate numbered 32, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted insert the following: "and the Senate agree to the same.

Amendment numbered 6: That the House recede from its disagreement to the amendment of the Senate

Amendment numbered 67: That the House recede from its disagreement to the amendment of the Senate numbered 67, and agree to the same with an amendment as follows: Strike out the amended paragraph; and the Senate agree to the same.

Amendment numbered 98: That the House recede from its disagreement to the amendment of the Senate numbered 98, and agree to the same with an amendment as follows: Strike out, after the name "William M. Olin," the word "as," and insert in lieu thereof the following: "The difference between the amount of compensation received by him as an employé of the Government and the salary of;" and the Senate agree to the same.

Amendments numbered 102, 103, 104, 105, and 106: That the House recede from its disagreement to the amendments of the Senate numbered 102, 103, 104, 105, and 106, and agree to the same with an amendment as follows: Strike out the amended paragraph; and the Senate agree to the same.

Amendment numbered 108: That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate numbered 108, and agree to the same.

Amendment numbered 109: That the House recede from its disagreement to the amendment as follows: Restore the matter stricken out, and in lieu of the matter proposed to be inserted insert the following: "And the Secretary of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury to re-examine the same and to certify anew the sums due and to whom due, respectively by name, as non-resident aliens entitled to refunding of taxes collected prior to July 1, 1883;" and the Senate agree to the same.

Amendment numbered 117: That the House recede from its disagreement to the amendment as follows: Restore the matter stricken out, and in lieu of the matter proposed to be inserted insert the following: "That the House recede from its disagreement to the amendment as follows: Restore the matter stricken out, and in lieu of the matter pr

JAS. N. BURNES, BEN. LE FEVRE, LOUIS E. MCCOMAS Managers on the part of the House

The PRESIDENT pro tempore. The question is on agreeing to the

report.

Mr. EDMUNDS. I should like to hear it explained. Will the Senator in charge please explain the changes to us?

Mr. HALE. As Senators well know, the great object of this bill is to provide for necessary deficiencies in the appropriations of the last

year, and in a few cases of years preceding last year. All of these are sent in by regular estimates from the Departments, which are found in the various documents referred to in the bill.

When the bill reached the Senate and the Committee on Appropriations proceeded to consider it, the committee found that in these regular estimates in several cases the House had put a portion into the bill and excluded other portions. That obliged the Senate committee to of and excluded other portions. That offiged the Senate committee to of course consider every item—the items put in by the House to see what the foundation might be for them, and also the items rejected; and whenever the committee found that regular estimates from the heads of Departments were properly sustained by the accounting officers, in cases where they had been submitted to those accounting officers, the Senate committee added those to the bill as passed by the House, and I think in every case the Senate adopted the action of its committee.

When we came into conference, further examination and personal communication with the conferees disclosed the fact that in certain claims which had been sent down from the different Departments and which had passed through the hands of the accounting officers of the Treasury there were still objections, there were old claims, stale claims, and war claims, around which some doubt was thrown from the very fact of their age. The Senate conferees found that the House conferees had examined into those and in some cases had detected what appeared to be defects in substance; and in those cases the bill as now reported under this report provides for a further examination by the accounting officers of the Treasury, a reopening, and directs the Secretary of the Treasury to have the claims which are in dispute, and upon which the conferees of the Senate found their associates of the House very firm, fully examined and reported to the next session of Congress with the reasons, if they are certified as allowed, for such certification and allowance

Mr. EDMUNDS. All those the House put in are left?
Mr. HALE. No; in this examination that the committee were led to make they also discovered that the House had put in of this same kind and nature of claims, and in making up the direction to the Secretary of the Treasury the items put in by either House of this kind subject to dispute and raising naturally in careful minds questions are all comprehended there.

Mr. EDMUNDS. Not to be paid until December?
Mr. HALE. In fact they go over for future examination under the direction of Congress. It will put the accounting officers more upon their guard and will make them, as it should, very careful.

The Committee on Appropriations finds every time that it considers a deficiency appropriation bill that the accounting officers of the Treas-

ury Department have a great burden resting upon them in auditing and deciding upon these accounts. They are very numerous, and it would be a strange thing if they did not sometimes make mistakes.

That is the way that the bill has been left.

May I inquire of the Senator from Maine if the ac-Mr. SEWELL. counts for sites of public buildings are included in those of which he

Mr. HALE. No; I am referring now more to those accounts in the nature of transportation accounts in the different Departments.

Mr. SEWELL. Are they not adjudicated accounts?

Mr. SEWELL. Are they not adjudicated accounts?

Mr. HALE. Yes.

Mr. SEWELL. Then why are they not allowed?

Mr. HALE. Because, as I have just stated (the Senator probably was not in), there are certain claims which the Senate conferees found the House conferees had examined into and got all the papers upon, and they presented the facts and conditions of the case in such a way as to put the Senate conferees upon their guard.

Mr. SEWELL. Were the conditions different from those presented by the accounting officers of the Government?

by the accounting officers of the Government?

Mr. HALE. The papers themselves convinced the committee that the accounts ought not to have been passed; or at any rate they raised such a doubt that we did not venture to appropriate for them. There are some cases which, if the Senator himself would examine, he would not want to take the responsibility of passing without further exami-

Mr. CALL. I should like to ask the Senator from Maine a question. I understand that by the report of the committee of conference a provision for the repayment of certain taxes which was contained in the bill as passed by the Senate has been stricken out. I should like to

bill as passed by the School and Mr. HALE. We found the House conferees very determined upon that subject. The main question they raised was that under the form of the appropriation sought the money thus given might not, and indeed would not, go direct to the parties whom the Government owes, the foreign holders of the stock upon which the tax was assessed; and we settled that by providing that the Secretary of the Treasury should report to the next session of Congress in detail the names of the persons who were such stockholders.

Mr. EDMUNDS. Who are the beneficiaries.

Mr. HALE. Who are to be the beneficiaries and to whom the money should go. When the House insisted upon that the Senate conferees did not feel that they were justified in refusing that demand. Next year we shall get a list of the stockholders themselves, and the appro-

priation can be made directly to them rather than to the railroad com-

panies as trustees for them.

Mr. EDMUNDS. That is a good point.

Mr. CALL. I will ask the Senator from Maine if there were not among the papers unquestionable evidence of who were the owners of this money, and a power of attorney from them to entirely responsible and respectable persons to collect it.

Mr. HALE. Only for a portion.

That portion was left unprovided for with the others, Mr. CALL. I understand?

Mr. HALE. With all the others.

Mr. EDMUNDS. Is there any legislation in this bill? Mr. HALE. I think not.

Mr. MANDERSON. Mr. President-

The PRESIDENT pro tempore. Does the Senator from Maine yield?

Mr. HALE. Certainly.

Mr. MANDERSON. Simply for a question. I find it so difficult to keep track of the changes made in conference by the numbers mentioned in the report that I desire to ask one or two questions. First, in reference to an amendment placed upon the deficiency bill by the Senate proposing to pay a certain amount of money for paving in front of the public building at Saint Louis. I ask what disposition was made by the conference committee of that item?

Mr. HALE. Those paving matters were the subject of a great deal of controversy, the House conferees declaring that until a general policy had been fixed by law the Government should pave the streets opposite their own buildings, and we finally agreed upon propositions which involve the making of sidewalks opposite the Government buildings, providing for those in a few cases; but the paving of the streets

upon the insistance of the House conferees was thrown out.

Mr. MANDERSON. There was but one such item in the deficiency bill, and that was placed in the bill by the action of the Senate Com-

mittee on Appropriations. Was that thrown out?

Mr. HALE. That was thrown out.

Mr. MANDERSON. I ask the Senator whether he recalls the fact

that there was abundant precedent for paying for the paving?

Yes; sometimes the House itself has agreed to such Mr. HALE. provisions, and I think in one case some time ago it put a provision of this kind upon such a bill as this; but all the same they insisted very strongly that they would not agree that the Government upon this bill should commit itself to the proposition of paving streets.

Mr. MANDERSON. And yet the House placed upon the deficiency

bill of last year two items paying for paving in front of public build-

The House agreed to the Senate provisions.

Mr. MANDERSON. Perhaps the Senate placed the provisions upon the bill, but the House agreed to it, and established the precedent.

Mr. HALE. It has never yet been adopted.

Mr. HAWLEY. Do I understand that the actual paving at the front doors of a post-office itself, the sidewalk paving right at the doors, is not to be paid for?

Mr. HALE. Yes; sidewalks laid at the doors. We do not make any point on that, and the House do not make any point on it.

Mr. HAWLEY. There is an item in the bill concerning the Hart-

ford post-office that the Senate put in.

I am not certain that that is in.

Mr. MANDERSON. I think that was in the sundry civil bill, not in the deficiency bill.

Mr. HAWLEY. Possibly. Mr. MANDERSON. I should like to ask with reference to the appropriation of \$90,000 to render it possible to give the fifteen days' leave of absence to the employés of the Public Printing Office, an amendment placed upon the bill by the Senate. Is that held to by the conferees?

Mr. HALE. It is Mr. MANDERSON. It remains in the bill?

Mr. HALE. It does.

Mr. SEWELL. I wish to ask the Senator from Maine whether the House conferees define the status of the Government in relation to a municipality as a lot and property owner in the paving of streets? it not as just a claim against that property as it is against an individual citizen in that municipality?

Mr. HALE. That is a question which has not yet been settled by any affirmative law. As I have said, the precedents have been that in a few cases they have been allowed, and in many other cases they have been disallowed. The cases have been accumulating, and there are a good many of them now pending and waiting to come in again the next

Mr. SEWELL. A few get in from time to time. Mr. HALE. A few get in, and more are kept out. It is one of those cases where if either House insists they are not allowed. There has not been any precedent fixed for allowing them on the appropriation bills.

Mr. SEWELL. Are we not to infer from that state of affairs that the conferees on the part of the House have more backbone than those on the part of the Senate?

Mr. HALE. The Senator has been in conference with House con-

ferees before now, and he has as good an opportunity as I have of judging which has the most backbone.

Mr. HOAR. Every Senator seems to be entitled to have a lick at

the Senator from Maine, and I should like to have mine.

Mr. HALE. As the Senator was not in when the very careful and illuminating report was read from the desk, I yield very willingly to

Mr. HOAR. I merely wanted to ask my honorable friend from Maine (I do not know but the report covers it, but if it does I will ask him to repeat it for my information) what is the tendency of late years in regard to these deficiency bills, whether they are increasing in proportion to the general appropriation bills, and whether there has been any such increase growing out of a struggle in any quarter to make the general appropriation bills show a greater economy than really belongs to them? I do not know but that that has been dealt with in the report by the Senator.

Mr. HALE. The committee find that the Departments of the Government are just as earnest and just as strenuous for supplemental appropriations to eke out their supplies as they ever were. We do not find-and this deficiency bill settles that-that the Departments of the Government as administered at present can get along with any less sum than their predecessors, as they were formerly administered.

Mr. HOAR. I meant to put my question to call out this point: I have seen, and of course every Senator, by the assignment of committee work that he has, has occasion to know something about the method of dealing with this matter of public expenditure on the Appropriations Committees of the two branches; and it seems to me that I have seen evidence that bills come up here from the House intended to make a great show of economy by omitting items which the necessities of the public service will require the Senate to put in those bills, and then the Senate is taunted with being lavish while the House is economical; or if the items are kept out of the regular appropriation bills, the necessity of the case requires the passage of a deficiency bill and the items in the deficiency bill to eke out this want, this deficiency which is occasioned by the attempt at economy elsewhere.

I wish to say, if I may be pardoned in connection with this (and I will not detain the Senator in getting the bill through for more than a moment), the attitude of the Democratic and Republican parties seems to me to be exactly this: The Democratic party comes to us omitting some provision which is essential to the very life of national administration, and they rely on the fact that we will not destroy the child, that the Republicans are so interested in good and reasonably well-conducted government that we will take upon ourselves that burden to that portion of the public who are deceived by such a proceeding, and not let the appropriation bills fail at all, because we do not want the confusion which would come from it; and therefore that year after year these gentlemen are enabled to make a certain pretense of superior economy to us, relying on us rather than have the Government suffer to take upon our shoulders that burden of obloquy and reproach, and give them that advantage.

I wanted to ask in reference to that point how this deficiency bill compares with former years, and whether there is not a great deal in it which might have been fairly foreseen and which ought to have been fairly foreseen and put in the general appropriation bills?

Mr. HALE. The Senator is undoubtedly correct. The Senate Committee on Appropriations when it comes to deal with these bills that are sent over by the House (and in what I say I do not mean to cast any improper reproach on the co-ordinate branch of the Legislature) finds these bills fragmentary, and a great many items which have to be put on for the running of the Government are left out. We find a page of regular estimates upon which two-thirds of the items have been put into the bill by the House and the other third left out, when there

is no difference between the two that we can find on examination.

So the Senate committee has to add to the bills as the House sends them over, and it does give rise to statements and to more or less declamation in another branch of the Government as to the extravagance of the Senate in increasing the appropriations made by the bills of the House of Representatives, while the fact is that the Senate is very careful in its examinations and seeks to put on nothing but what is necessary to run the Government.

An impatience has been felt not only by the Senator from Massachu-setts but by other Senators and by the Committee on Appropriations at this course, at our being charged and saddled with these increased

appropriations which we must put on.

I am bound to say that in the Committee on Appropriations in dealing with this subject it is not in any way considered as a party matter. The Democratic members of the Committee on Appropriations, as they have taken occasion to say here upon this floor before, and as I know they feel now, have the same impatience at our being submitted to this course as the Republicans. But there is nothing for the Senate to do but to find the subjects which are needed for the administration of the Government and to put them on, even if we are charged with extravagance.

As to the Senator's question whether as compared with previous years this evil is greater or less, my impression is that it is greater than it has been for the last few years; that we feel more and more that we

are confronted with bills which do not complete the appropriations necessary for the running of the Government; and that we have to take the burden of being charged with increasing the bills more and more. That is my impression.

Mr. EDMUNDS. What is the total amount of the bill?

Mr. HALE. I have not the figures here. They are in the report, but I can not give them exactly. The amount will be found in the report at the desk.

Mr. MANDERSON. Mr. President-

The PRESIDENT pro tempore. Does the Senator from Maine yield

Mr. HALE. Yes; I ask for the adoption of the report. I yield the floor to the Senator from Nebraska.

Mr. EDMUNDS. The report can not be adopted until he yields the

The PRESIDENT pro tempore. The Senator from Maine paused, and the Chair merely inquired whether he was through.

Mr. HALE. If any Senator has any questions I shall be very glad to answer them. I am desirous of getting the report to the other House as soon as possible.

Mr. MANDERSON. I feel like congratulating the Senator from Maine upon possessing a degree of firmness and determinatirn beyond that which he claims for himself. I can realize that in the multitude of changes made in this bill he might very readily forget as to the action concerning some items.

I find upon examination that the House recedes from the disagreement as to paying for the paying in front of the public building at Saint Louis, following the precedent of last year. I simply make reference to this fact in order if possible to strengthen the conferees of the Senate that they may hold to similar items in the sundry civil bill, hav-

are that they may hold to similar items in the sundry civil bill, having not only the abundant precedent of past years but a precedent in the action of the House conferees at this session.

Mr. HALE. There are so many items that I could not pretend to be accurate as to a particular item.

Mr. MANDERSON. Of couse; I realize that.

Mr. HALE. I know that on the general subject we had a good deal of discussion, and that there are a great many of these cases which are accumulating, and which have not been settled.

Mr. MANDERSON. I submit to the Senator there should be no exception made. If the paving in front of a public building at Saint Louis is to be paid for to that municipality, certainly it should be so with others

Mr. HALE. Undoubtedly.
Mr. COCKRELL. I intended to explain to the Senator that he has in his explanation rather confused the sundry civil and the deficiency bills.

Mr. HAWLEY. Being on both committees.

Mr. COCKRELL. Being on both subcommittees. The pavement question was receded from by the House on the deficiency bill.

Mr. HALE. On that single item. Mr. COCKRELL. All that was in it.

Mr. HALE. Are there not other items than that?
Mr. COCKRELL. Yes; the Texas matter at Galveston.

Mr. HALE. There may have been one or two others.
Mr. COCKRELL. Probably there are two or three others. They

Mr. COCKRELL. Floods, were all yielded by the House.

Mr. MANDERSON. All of them paving matters?

Mr. COCKRELL. The Galveston was a paving matter which was a paving matter which was a paving matter which was wrong. appropriated for at the last session of Congress, but the name was wrong and the pavement could not be made. This was simply a reappropriation to the correct name.

Mr. MANDERSON. This certainly should be no matter of favor-Ido not mean to insinuate that it has been-but it is a matter of right. These municipalities have paid from their treasury the money ne sary to pay for the paving of the streets in front of these public buildsary to pay for the paving of the streets in Iront of these public bindings. In most cases, notably in the case of Omaha, the land upon which the public building is situated was donated by the city, and the Government of the United States is the only exception to the rule or the law which requires that the State, the church, the school-house, that everything in the way of property shall pay its proportion of the pavement in front of the property. I submit that it is a matter of common honesty and fairness on the part of the Government that it should pay.

Mr. COCKRELL. I should like to ask the Senator in connection

with that if any estimate has ever been made for it, and if it has ever been reported to Congress?

Mr. MANDERSON. In the case I mention? Mr. COCKRELL. Yes.

Mr. MANDERSON. It was reported by the officers of the municipality of Omaha to the Treasury Department, approved by the Treasury Department, put in the Book of Estimates, introduced in the form of an amendment, and referred to the Committee on Appropriations. It comes strictly within the rule, and was adopted on the sundry civil bill by the Senate. Mr. COCKRELL.

That was adopted on the sundry civil bill. If the money had ever been paid out by the city it ought not to have gone

on the sundry civil bill, because it was then a deficiency. There were two claims on the part of Saint Louis, one was for work which had actually been done, and the other was for the two unpaved streets. One, the first amendment, was put on the deficiency bill, where the work had been done, and that has been acceded to; the other is on the sundry civil bill. Not being a member of the conference committee on that bill, I do not know what its fafe will be.

Mr. MANDERSON. I know what its fate ought to be.
Mr. COCKRELL. I know the item to which the Senator refers

ought to have gone on the deficiency bill.

Mr. CALL. Mr. President, I think it due to myself to say that I should prefer if I had any power in this matter that Congress should not adjourn until the 1st day of next December to consenting to what I regard as a disgrace and a dishonor to the Government and the peo-

ple of the United States.

It is within my knowledge that in regard to these taxes to be repaid to the owners of the tax which was improperly and illegally collected from them under the income act, that there was no possible question in regard to the obligation of the Government to pay those people; that it has been so adjudicated by the Treasury Department; that the amounts have been fixed; that the claim has been urged time and time again; that it is nothing but the taking from the citizen and subject of another country a tax upon his income in no respect justified by the law in either its letter or its spirit; and that these people have been here before Congress with this adjudication of our own Department, with the full and ample and unquestionable authority from the owners of the tax for the payment to their representatives, and that they are entirely responsible people.

This fact came to my knowledge in the person of one of my neighbors, whom I have known for several years, a man of the highest respectability, a lawyer of character and capacity, upon whose character no stain rests. He brought the papers to me as a member of the Appropriations Committee, exhibiting a power of attorney from the most respectable banking firms in this country direct from the owners of this tax which has been adjudicated by the Government, and which was originally extorted by the tax collectors under an improper construction of the law, a tax upon the income of a citizen and subject of a foreign country who happened to own the bonds of corporations in this country when the income tax existed. There is no language which can too forcibly condemn this robbery of honest and unoffending people whose property has been forcibly taken away from them, to which we become a party when we fail or refuse to restore their property to them.

Mr. President, the reason alleged for it is a pretense, and one not worthy of consideration—of having the Treasury Department re-examine them and report to whom these claims are to be paid, as if the Treasury authorities could not do so as well after this appropriation was made, and require the evidence that the parties who represented them were properly authorized to do so. To delay and refuse this payment for years upon a pretense of that kind is unworthy the Senate of the United States, and for one I should never consent to such a repudiation of the honest obligations of the Government.

I desire to call attention, if my words can be heard elsewhere, to another fact in regard to this bill. There was placed upon the bill by the Senate a provision authorizing and requiring the reauditing of the disallowed accounts for the last four or five years where the evidence showed that the money had been paid under proper authority for services performed under proper executive authority, and the claim disallowed by reason of some technical objection or point in the law. It comes within my knowledge that one of those cases was of this character, where a contract was made in Florida for the survey of certain of the public lands of the United States, and the Surveyor-General instructed the surveyor, in the interpretation of that contract, to survey certain adjacent tracts of land.

The person who made that survey, a poor man, an honest and a capable man, borrowed the money upon a mortgage of his homestead that protected his wife and children, performed the contract, it was accepted by the Government, the survey approved, but the money never paid because it was not specifically described in the written contract, and to-day an execution is about to turn out that man's wife and children upon the street because the Government of the United States will not pay its honest obligation.

What object the committee has in persecuting this poor man and his wife and children, who are not known to them, can not be discovered. Certainly no proper object of public policy can justify a failure to make

provision by law of such ca

Mr. President, I undertake to say that that is dishonest and dishonorable, and as one Senator of the United States I would stay here until the next session before I would allow the poor people of this country and their wives and children, who have honest claims against the Gov-ernment of the United States, to be turned upon the street because of some idle and unreasonable objection on the part of those who have the appropriations to make.

Mr. HALE. The Senate conferees stood out very long upon the proposition which the Senate put on in reference to suspended accounts, but it was undoubtedly in the form of legislation, and the House conferees would not for a moment yield or consent even to discuss it, and in the end it had to go out with one or two other propositions that the House put on involving legislation.
I ask the adoption of the report.

Mr. EDMUNDS. Mr. President, on the general subject of these deficiencies I see in the estimate of deficiencies submitted on the 8th of February that the things which this bill is to provide for, and I supe does, are deficiencies in the State Department for \$80,000-I leave off the odd hundreds to condense-in the Treasury Department, \$394,-000; the District of Columbia, \$18,000; the War Department, \$1,409,000; the Navy Department, \$442,000; the Interior Department, \$6,000; the postal service, from the general Treasury, \$6,000, and from the postal revenues \$918,000; the Department of Justice, \$432,000, and besides that there is already an appropriation at this session of \$50,000 for urgent deficiencies in that Department, and some others for the other Departments.

Anybody knows that as to nine-tenths of all that sum, amounting, including the Post-Office deficiency, to three and a half million dollars, it was just as well known when we passed the regular bills at the last session of Congress that they were not adequate to the public service as it is now; and when we come to the next session of Congress with all this deficiency made up and all the regular appropriation bills passed, we shall find a still larger deficiency again; but meanwhile we shall be able to tell the dear people, the hard-working men, the farmers, and so on, how we have cut down the appropriations, and have been more economical than any of our predecessors, which will be true until after

the election, but then it will be false.

The PRESIDENT pro tempore. The question is on concurring in the report of the conference committee.

The report was concurred in.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had passed the bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service.

TRANSFER OF APPROPRIATIONS.

Mr. HALE. I am directed by the Committee on Appropriations, to whom was referred the bill (H. R. 4083) to empower the Commissioner of Agriculture to transfer certain appropriations, to report it with an amendment.

Mr. EDMUNDS. Let it go on the Calendar. Mr. HALE. I do not ask for action. Let it go on the Calendar with the amendment of the committee.

The PRESIDENT pro tempore. That course will be pursued.

THE CONGRESSIONAL LIBRARY.

Mr. ALLISON. I am instructed by the Committee on Appropriations, to whom was referred the joint resolution (S. R. 82) making additional appropriation for purchase of site for Congressional Library, to report it without amendment, and I ask for its immediate consideration. Mr. EDMUNDS. Let it be read subject to objection.

The joint resolution was read.

Mr. EDMUNDS. Let the letter of the Secretary of the Interior be read in the same connection so that the whole case may appear alto-

The PRESIDENT pro tempore. The letter will be read although it

is not in order, being in the nature of debate.
Mr. EDMUNDS. In the nature of debate

Mr. EDMUNDS. In the nature of debate?
The PRESIDENT pro tempore. The Chair is of opinion that objection should be made on the reading of the resolution. If there be no

objection, the letter will be read.

Mr. EDMUNDS. I do not so understand. The resolution was read for consideration, subject to objection. Now the resolution being under consideration, I ask for the reading of the letter of the Secretary of the Interior explaining the necessity for the resolution. I admit if anybody objects to it the Chair would probably have to put the question.

The PRESIDENT pro tempore. If there be no objection the letter will be read, although it is usual for objection to be stated on the read-

ing of the bill or resolution.

Mr. EDMUNDS. I stated distinctly that I would only consent to this resolution being read and considered subject to objection.

The PRESIDENT pro tempore. The letter will be read.

The Chief Clerk read the letter, as follows:

Department of the Interior, Washington, August 2, 1886.

Sir: In view of the fact that the second jury appointed by the supreme court of the District of Columbia to assess damages to property in squares 729, 730, and 731, for site of building for the accommodation of the Congressional Library, have placed said damages at a sum of about \$35,000 in excess of the appropriation of \$550,000, heretofore made for such purpose, I have the honor to recommend, and beg leave to urge, that an additional appropriation of from \$35,000 to \$40,000 be made as soon as practicable to enable the commission to complete the purchage of said squares without further delay.

It is further suggested that the proceeds of sale of old material upon the site in question may be made available for disbursement by the commission for any purposes contemplated by the act not with standing the provisions of section 3618 Revised Statutes.

Very respectfully, DEPARTMENT OF THE INTERIOR, Washington, August 2, 1886.

L. Q. C. LAMAR, Secretary of the Interior, Chairman Library Commission. Hon. D. W. VOORHEES, Chairman Library Committee, United States Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of this resolution? Mr. PLUMB. I object.

The PRESIDENT protempore. Objection being made, it will be placed on the Calendar.

Mr. VOORHEES. It went over yesterday.

Mr. EDMUNDS. But it is reported from a committee now.

Mr. VOORHEES. It was referred to the Committee on Appropriations yesterday and is reported to-day from that committee.

The PRESIDENT pro tempore. And therefore is open to objection.

TEMPORARY APPROPRIATIONS.

Mr. ALLISON. The Committee on Appropriations, to whom was referred the joint resolution (H. Res. 211) to continue the provisions of a joint resolution entitled "A joint resolution to provide temporarily for the expenditures of the Government," have instructed me to report it favorably, and I ask for its present consideration.

Mr. PLUMB. I object to the present consideration of that. Mr. ALLISON. I hope the Senator from Kansas will not object to the consideration of this resolution. I will explain it briefly.

The PRESIDENT pro tempore. Is there objection to the present con-

sideration of the resolution?

Mr. EDMUNDS. Yes, sir; we all object for the present. We have done this thing often enough.

The PRESIDENT pro tempore. Objection being made, the joint resolution goes to the Calendar.

Mr. EDMUNDS. I do not object to the Senator from Iowa making speech.

Mr. ALLISON. I think if I had unanimous consent to say a word both Senators would withdraw their objection.

The PRESIDENT pro tempore. The Senator from Iowa asks unanimous consent of the Senate to make some remarks on this resolution. Is there objection? The Chair hears none.

Mr. ALLISON. The appropriations of last year were extended to the 31st of July and the sundry civil bill undoubtedly will not be signed until to-morrow, so that there is a period of three days not provided for under the injury resolution and invent the 31st of July and which see under the joint resolution ending on the 31st of July, and which can not very well be provided for in the sundry civil bill. So all those who have been in the employ of the Government from the 31st of July to the 4th day of August will be in such employ without pay unless this resolution is passed. If this resolution shall pass they will be provided

for. That is all there is in it.

Mr. EDMUNDS. May I ask a question, Mr. President, by unanimous consent? I should like to have the Senator explain how, when the sundry civil bill passes, it being a bill to provide for paying the current expenses of the Departments that it covers from the 1st day of July inclusive to the 30th day of June next inclusive, it is possible that these people who are now working can not be paid out of it.

Mr. ALLISON. There are two laws which stand in absolute opposition to that view. The first is that no money shall be expended without a specific appropriation. The second is a provision attached to an appropriation bill two years ago whereby persons are prohibited from receiving pay for voluntary service to the Government in every case where there is no specific appropriation made at the time the service was rendered, except only in cases where life is involved. That will be found in an appropriation act of 1884.

Mr. PLUMB. If I may be permitted to say a word, I will state the

The PRESIDENT pro tempore. The Chair hears no objection.

Mr. PLUMB. I will say first that I do not think this resolution will meet the case as stated by the Senator from Iowa because voluntary

service has been rendered already from the first day of the month until

Mr. ALLISON. For one day.
Mr. PLUMB. It is not as wide as a barn door or deep as a well, but it will do. Part of the time, at all events, the employés will not get any pay for, and I think we ought to take the whole subject into consideration when we get to that point and know what we have to provide for.

But there is another objection. The Senator from Iowa knows better than I that the House has been very tardy in sending the appropria-tion bills to the Senate this year. This is the third time that we have been asked to extend last year's appropriations in order that the Gov-

ernment might go on.

This is a proposition to extend appropriations for the third time, not on account of any neglect of the Senate to do its duty thoroughly and promptly and fairly and conscientiously with reference to all the interests of the public service so far as they are connected with appropriations, but simply because the House during the last eight months has been neglecting its plain duty in matter of making appropriations for the carrying on of the Government. When the new rules came to be adopted in that body, for the purpose of relieving the Committee on Appropriations from what had been considered an overload, some five or six of the fourteen appropriation bills were taken away from that committee and given to other committees. The bills thus taken away from the regular Appropriations Committee came to this body in due time and in better shape than heretofore and have passed and become laws,

and all of them with possibly a single exception passed before the 1st day of July. The bills which came from the regular Appropriations Committee have all been delayed, from which it would seem that the House did not cut quite deep enough, did not take work enough away from the regular Appropriations Committee. If more bills had been sent to other committees Congress would have adjourned by or before July 1, and been saved the spectacle of incompetency and disregard of the public interest which has been exhibited during the last six weeks, one part of which has been the extension of last year's appropriations by such resolutions as the one now before us-a confession that the legislative machinery of the House of Representatives has failed in the most important particular.

most important particular.

The Senator from Iowa also knows very well that the appropriation bills as they came to the Senate according to the judgment of the heads of Departments failed, very signally failed, to provide for the necessities of the public service. He knows that the Committee on Appropriations and the Senate, following that committee, put on various items for the different branches of the public service, which these Department officers said were absolutely necessary in order that those Departments might run during this fiscal year. They asked that and received that at the hands of their political opponents which they had not been able to get by solicitation or otherwise from the hands of their political to get by solicitation or otherwise from the hands of their political friends in the other body; and when those items came into conference the Senator from Iowa well knows that objection was made to everything the Senate had put on in toto upon the ground that the appropriation bills had originated in and been passed by a House of Representatives in full accord with the administration, and that the Republican Senate had no business to put anything on those bills which related to administration; and out of that contention has grown also other days of delay but for which the necessity of this joint resolution would not exist.

We have staid here at great discomfort and inconvenience and to the peril of the Government for the last two months simply because of the tardiness of the House of Representatives.

I might particularize a little further and say precisely where the responsibility for this delay and this course of proceeding rests. That is not, however, a part of my duty. The House of Representatives of course by tolerating the autocracy which controls and delights to control it simply for the sake of control, without reference to any public interest to be subserved thereby, becomes itself responsible for all this delay. This particular instance is the first at any rate in my experience where the old appropriations have been extended twice and were sought to be extended the third time. As far as I am concerned, accepting the declaration made on behalf of the House by its conferees on the question of the rights of the Senate in regard to the appropriations to carry on the Government, I am willing to have the matter stand just where it is and let the House accept the responsibility of the failure of appropriations to carry on the Government during the few days in August until the sundry civil bill shall pass.

The PRESIDENT pro tempore. Is there objection made to the consideration of the resolution?

Mr. EDMUNDS. Yes, there is objection.

ADJOURNMENT SINE DIE.

Mr. ALLISON. I report from the Committee on Appropriations a concurrent resolution of the House of Representatives with an amend-

The PRESIDENT pro tempore. The resolution will be read. The Chief Clerk read as follows:

Resolved by the House of Representatives (the Senate concurring), That the President of the Senate and the Speaker of the House of Representatives declare their respective Houses adjourned sine die at 3 o'clock p. m. July 23, 1886.

The amendment reported by the Committee on Appropriations was, at the end of the resolution, to strike out "at 3 o'clock p. m. July 28" and insert "at 4 o'clock p. m. August 4;" so as to make the resolution

Resolved by the House of Representatives (the Senate concurring), That the President of the Senate and the Speaker of the House of Representatives declare their respective Houses adjourned sine die at 4 o'clock p. m. August 4, 1886.

Mr. MANDERSON. I object to the present consideration of that

Mr. HOAR. I wish to say a word on the resolution.

Mr. MANDERSON. I withdraw the objection to enable the Senator from Massachusetts to be heard.

Mr. ALLISON. I do not wish to adopt the resolution now. I ask

that it lie on the table for the present.

Mr. HOAR. I wish to say a few words on the resolution.

The PRESIDENT protempore. It lies on the table, objection being

Mr. ALLISON. I did not desire to take up the resolution at this

moment; but I am perfectly willing to take it up and consider it now if Senators wish to speak on it.

Mr. HOAR. It is debatable, and I desire to say a few words on it.

The PRESIDENT protempore. The resolution is debatable, although

the adjournment of this body until it has considered a bill introduced by me and reported from the Judiciary Committee on the 19th of April, 886, entitled "A bill to provide for inquests under national au-

I suppose that I am violating no propriety in saying that a committee of Republican Senators had considered the question of the business to be taken up during this session and had assigned to that bill, as its importance demanded, a very early place in the order of business, which promised its consideration long ago, and it was well understood, I suppose, on both sides of the Chamber that I for one desired the consideration of that measure.

Circumstances such as often happen in the course of legislation have arisen which from time to time have caused the attention of the Senate to be occupied with measures which seemed to have a most immediate and pressing demand and which have prevented that proposed order from being scrupulously observed, until at last we are in the situation which I never would have consented to if I had anticipated it when it seems unlikely that this bill can be taken up and disposed of if the Senate adjourn at the time proposed by the Committee on Appropria-

Mr. President, I ask the Chief Clerk to read at the desk the bill which

The Chief Clerk read the bill (S. 2171) to provide for inquests under national authority, as follows:

national authority, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That whenever any three citizens of the United States shall, under oath, present to any judge of a circuit court, either in termitime or vacation, their petition setting forth that within the circuit for which such judge has jurisdiction, and within the State of which the petitioners are residents, any person has been killed, or has sustained serious bodily injury, or serious injury in his estate, or been threatened with injury in person or estate, because of any political opinion which such person so killed, injured, or threatened may have held in regard to matters affecting the general welfare of the United States, or with design to prevent such person so killed, injured, or threatened, or others, from expressing freely such opinion, or from voting as he or they may see fit at any election of officers whose election is required or provided for by the Constitution or laws of the United States, or to influence or affect the votes of such persons or others at such elections, it shall be the duty of such judge, as soon as may be, to open a special session of such circuit court at such place within said circuit as he may appoint, and the duty of such court to hold an inquest into the circumstances of such killing, injury, or threatening, and to cause to be summoned and examined all such witnesses as the court may think proper.

eause to be summoned and examined an extended the proper.

Sec. 2. That said judge shall forthwith report the evidence by him taken, and his conclusions of fact thereon, to the President of the United States, to be by him laid before Congress.

Sec. 3. That the judge may require any district attorney of the United States within his circuit to attend such inquest, and to aid in preparing for and conducting the same, or he may, in his discretion, appoint any other counselor-at-law to prepare and conduct such inquest.

Sec. 4. That the expenses of such inquest shall be certified by the judge to the Department of Justice, and paid out of the appropriation made for the expenses of the courts of the United States.

May 110 AP. Mr. President, 17de not propose at this time to recapitu-

Mr. HOAR. Mr. President, I'do not propose at this time to recapitulate the familiar history of the methods by which, as a large and respectable portion of the American people believe, honest and fair elections have been suppressed throughout a considerable portion of this

As long ago as 1874 General Sheridan, now the illustrious head of the armies of the United States, then in command of the department which contains the State of Louisiana, declared that more men had been slain in that single State for political opinion than were slain in the whole Whether that were true or not, there were reported by committees of this or the other House, and scarcely disputed, the details of eight terrible massacres, the result of which, in spite of every exertion of the national power to prevent them, led to the overthrow of the rule of the majority in that State, as was the belief of a large number of American citizens

In the State of South Carolina it is not necessary to go beyond the columns of the chief Democratic paper of that State to establish a similar history. The Charleston News and Courier from time to time has expressed its regret at the necessity of the political methods which have been adopted there, admitting them, excusing, hoping that nothing will occur to make it necessary to have them again recurred to.

The press has brought to us within three weeks, without any contradiction which has met my eye, the statement that in the State of Alabama the first Republican meeting of the campaign at Birmingham, a large manufacturing city, has been broken up by Democratic violence, three weeks ago or thereabouts.

From the State of Mississippi, the history of whose political revolution in 1876 is fresh in the memory of the American people, there came last year the transactions at Copiah, and have come too in the course of this winter the account of the transactions at Carrollton.

In every one of these cases, so far as is made known to the people of the North by the press, a negro and a Republican is the victim, and a Democrat and a white man is the aggressor. Not only come these accounts from time to time, but here is a statement made in a pamphlet which has been sent to me, a little while ago, printed in Washington in 1886 by Mr. Frederick Douglass, the most distinguished and conspicuous it is subject to objection.

Mr. HOAR. Mr. President, I wish to express my dissent from the passage of this resolution or the passage of any resolution providing for relates to the relations between these two races, and in everything

which relates to the relations between these two parties, Mr. Douglass has been famous for his kindly and gentle utterances and the pacific counsels to his people, and for the generous judgment and allowance which he makes for the difficult position in which their former masters are placed. Now, let us see what Mr. Douglass states to us in this pamphlet, which is the report of three addresses: one delivered at Louisville, Ky., in 1883; one delivered at Washington in 1885 on the occasion of the twenty-third anniversary of the abolition of slavery in the District of Columbia; and one delivered in Washington in 1886. read several passages which I have marked. The first is from the address of 1883. Mr. Douglass said, speaking of the condition of the people of his race:

ple of his race:

There are occasional cases in which white men are lynched; but one sparrow does not make a summer. Every one knows that what is called Lynch law is peculiarly the law for colored people and for nobody else. If there were no other grievance than this horrible and barbarous Lynch-law custom we should be justified in assembling as we have now done to expose and denounce it. But this is not all. Even now, after twenty years of so-called emancipation, we are subject to lawless raids of midnight riders, who, with blackened faces, invade our homes and perpetrate the foulest of crimes upon us and our families. This condition of things is too flagrant and notorious to require specifications or proof. Thus in all the relations of life and death we are met by the color line. We can not ignore it if we would, and ought not if we could. It haunts us at midnight; it denies us accommodation in hotels and justice in the courts, excludes our children from schools, refuses our sons the chance to learn trades, and compels us to pursue only such labor as will bring the least reward.

Then, in a later passage:

Then, in a later passage:

We therefore throw off the burden of disgrace and reproach from the laborer, where Mr. Calhoun and others of his class would place it, and put it on the land-owner, where it belongs. It is the old case over again. The black man does the work and the white man gets the money.

Then he speaks of what is called the order system. See what is the testimony of this representative colored man as to the condition of his race on this subject:

No more crafty and effective device for defrauding the Southern laborers could be adopted than the one that substitutes orders upon shopkeepers for currency in payment of wages. It has the merit of a show of honesty, while it puts the laborers completely at the merey of the land-owner and the shopkeeper. He is between the upper and the nether millstones, and is hence ground to dust. It gives the shopkeeper a customer who can trade with no other shopkeeper, and thus leaves the latter no motive for fair dealing except his own moral sense, which is never too strong.

Here is another passage:

Flagrant as have been the outrages committed upon colored citizens in respect to their civil rights, more flagrant, shocking, and scandalous still have been the outrages committed upon our political rights by means of bulldozing and kukluxing, Mississippi plans, fraudulent courts, tissue ballots, and the like devices. Three States in which the colored people outnumber the white population are without colored representation and their political voice suppressed. The colored citizens in those States are virtually disfranchised, the Constitution held in utter contempt, and its provisions nullified. This has been done in the face of the Republican party and successive Republican administrations.

Now I come to the speech of 1885, in which Mr. Douglass, at a large meeting to which he was introduced by Mr. Bruce, late an honored member of this body, states the methods which were open to President Cleveland in dispessing of this question. dent Cleveland in disposing of this question:

First. He may adopt a policy of total indifference. He may sbut his eyes to the fact that in all of the Gulf States political rights of colored citizens are literally stamped out; that the Constitution which he has solemnly sworn to support and enforce is under the feet of the mob; that in those States there is no such thing as a fair election and an honest count. He may utterly refuse to interfere by word or deed for the enforcement of the Constitution and for the protection of the ballot, and let the Southern question drift whithersoever it will to a port of safety or to a rock of disaster.

Secondly. The President may pursue a temporizing policy.

Thirdly.

I read these passages to show Mr. Douglass's statement of the existing fact as it presents itself to him and to the people of whom he is a conspicuous representative-

Thirdly. He may decide to accept the Mississippi plan of conducting elections at the South; encourage violence and crime; elevate to office the men whose hands are reddest with innocent blood; force the negroes out of politics by the shotgun and the bulldozer's whip; cheat them out of the elective franchise; suppress the Republican vote; kill off their white Republican leaders, and keep the South solid; and keep its one hundred and fifty-three electoral votes—obtained thus by force, fraud, and red-handed violence—ready to be cast for a Democratic candidate in 1888.

Now comes the statement of 1886, from which I will read two or three passages:

three passages:

As far as the colored people of the country are concerned; their condition seems no better and not much worse than under previous administrations. Lynch law, violence, and murder have gone on about the same as formerly, and without the least show-of Federal interference or popular rebuke. The Constitution has been openly violated with the usual impunity, and the colored vote has been as completely nullified, suppressed, and scouted as if the fifteenth amendment formed no part of the Constitution, and as if every colored citizen of the South had been struck dead by lightning or blown to atoms by dynamite. There have also been the usual number of outrages committed against the civil rights of colored citizens on highways and by-ways, by land and by water, and the courts of the country, under the decision of the Supreme Court of the United States, have shown the same disposition to punish the innocent and shield the guilty, as during the Presidency of Mr. Arthur. Perhaps colored men have fared a little worse, so far as office-holding is concerned.

Then Mr. Douglass goes on:

Then Mr. Douglass goes on:

This protection is given to the vilest white criminal in the land. He can not be convicted while there is even a reasonable doubt in the minds of the jury as to his guilt. But to the colored man accused of crime in the Southern States a different rule is almost everywhere applied. With him, to be accused is to be con-

victed. The court in which he is tried is a lynching mob. This mob takes the place of "due process of law," of judge, jury, witness, and counsel. It does not come to ascertain the guilt or innocence of the accused, but to hang, shoot, stab, burn, or whip him to death. Neither courts, jails, nor marshals are allowed to protect him. Every day brings us tidings of these outrages. I will not stop to detail individual instances. Their name is legion. Everybody knows that what I say is true, and that no power is employed by the Government to prevent this lawless violence. Yet our chief magistrates and other officers, Democratic and Republican, continue to go through the solemn mockery, the empty form of swearing by the name of Almighty God that they will execute the laws and the Constitution; that they will establish justice, insure domestic tranquility, and secure the blessings of liberty to ourselves and to our posterity.

Mr. RIDDLEBERGER. Allow me to ask whether he includes Vir-

ginia in that section of country.

Mr. HOAR. I am reading what Mr. Douglass says.

Mr. RIDDLEBERGER. I know, but it goes into the Record, and if Virginia is considered as within those Southern States, I say that is not true.

Mr. HOAR. I do not yield to the Senator.
Mr. PLUMB. I should like to ascertain under what order this dis-

cussion is going on.

The PRESIDENT pro tempore. Under the presentation of the resolution to fix a time for adjournment, reported from the Committee on Appropriations.

Mr. GIBSON. I rise to a parliamentary inquiry. What is before the Senate?

The PRESIDENT pro tempore. If the Senator from Massachusetts will allow, the Chair will have the question before the Senate read.

Mr. HOAR. Very well.

The Chief Clerk read the resolution of the House of Representatives,

Reso'red by the House of Representatives (the Senate concurring), That the President of the Senate and the Speaker of the House of Representatives declare their respective Houses adjourned sine die at 3 o'clock p.m., July 28, 1886.

Mr. PLUMB. The Senator from Iowa said he did not ask for the present consideration of the resolution.

Mr. HOAR. I rose to make some remarks on the resolution.

Mr. KENNA. Allow me to ask whether that resolution is under consideration.

The PRESIDENT pro tempore. It is under consideration.

Mr. HOAR. I will proceed with the reading of the statement of Mr. Douglass:

Only a few weeks ago, at Carrollton (court-house), Miss., in the absence of all political excitement, while the government of the nation as well as the government of the Southern States, was safely in the hands of the Democratic party; when there was no pending election, and no pretense of a fear of possible negro supremacy, one hundred white citizens on horseback, armed to the teeth, deliberately assembled and in cold blood opened a deadly fire upon a party of peaceable, unarmed colored men, killing eleven of them on the spot and mortally wounding nine others, most of whom have since died. The sad thing is that, in the average American mind, horrors of this character have become so frequent since the slaveholding rebellion that they excite neither shame nor surprise, neither pity for the slain nor indignation for the slayers.

Mr. President, it is said that these are political charges: that the

Mr. President, it is said that these are political charges; that the transactions have no political significance; that they have no relation to the difference of race or to the difference of party; that they are sporadic; that they grow out of a condition of things following a great and excited civil war, which is inevitable so long as human nature remains the same. If that be true, so much the more is this measure which seeks to substitute for the reports of newspapers, for the discussions of orators, for the accusations of politicians or partisans a judicial inquiry presided over by a judge removed from politics. There is not a homicide on the face of the earth wherever the common law prevails except this class, which, so far as the reports come to us, goes unpunished and uninquired into, which would not be the subject of examina-

Now, we ask that within the national power, in a judicial district of the United States where an offense of this kind is committed against the United States where an offense of this kind is committed against the citizen and it is alleged by three respectable citizens under oath that that offense is committed because of the political opinion or because of the race of the person against whom it is committed, the facts shall be ascertained by the judge of the United States court and shall be properly reported to Congress for its proper action.

I think this measure is needed for the vindication of these communities if they be reported to the constant of the communities of the constant of the constant of the communities of the constant of the con

ties if they be unjustly accused. I think it is needed for the vindication of American honor if it be unjustly suspected. The Republican party have had no power of affirmative legislation in this country since the year 1875. At that time the Democrats took possession of the House of Representatives and they have held it in every Congress since except on occasions when the Democrats held control of the Senate. It has therefore been in the power of the Democratic party now for nearly twelve years to prevent any affirmative legislation which they did not approve, and by their control of the appropriations to prevent the vigorous enforcement of any existing law which they did not like.

I appeal to them to remove this question from the domain of parti-

sanship, to remove it as a temptation to political orators North or South, to remove it as a special grievance in the belief of the representatives of a race now numbering seven millions in this country, to remove it even from forensic discussion here or elsewhere, and transfer the investigation of these facts to the courts where they shall be investigated under judicial sanction, under judicial responsibility, and by judicial processes.

I have not now undertaken to express an opinion as to the truth or falsity of these transactions; I have not uttered a word upon the merits of the particular questions; I only affirm that there is a belief prevailing in the minds of a large number of American citizens that these things are true, and I demand that the facts be investigated. Why, Mr. President, on that statement of Frederick Douglass alone, if there were an affirmance of a single outrage such as he describes in these eloquent passages inflicted on a single American citizen of white blood in Mexico or on a fisherman in a Canadian port this Congress would not adjourn until it had put the national defenses in order for war.

I will not put this measure as a measure of redress for an injury. put it now on the ground that it is demanded to remove from a large number of people in this country a belief which is injurious alike to their affection for their country and to their happiness and contentment

as American citizens.

Mr. KENNA. Mr. President, I ask the Secretary to read the resolution to which the Senator from Massachusetts has addressed his remarks

The PRESIDENT protempore. The resolution with the amendment will be read.

The Chief Clerk read the resolution of the House of Representatives, and also the amendment of the Committee on Appropriations, which was to strike out "3 o'clock p. m., July 28," and insert "4 o'clock p. m., August 4;" so as to make the resolution read:

Resolved by the House of Representatives (the Senate concurring), That the President of the Senate and Speaker of the House of Representatives declare their respective Houses adjourned sine die at 4 o'clock p. m., August 4, 1886.

Mr. KENNA. I desire simply upon my own responsibility to make a very brief commentary upon this extraordinary spectacle. Here we are in the last hours, in the very last moments of an expiring session We have been here day after day, and month after month, since the early part of last December. On the 19th day of April, as shown by a printed copy of the bill to which the substance of the remarks of the Senator from Massachusetts has been devoted, that measure was reported to the Senate. Up to yesterday, as far as my knowledge goes, no evidence has been furnished to this body by the Senator from Massachusetts or by any other Senator that any attempt would be made at any time during this session of Congress to secure action upon this measure. If any such purpose has been suggested it has not been acted on.

Mr. HOAR. I have informed Senators on the other side of the Chamber for the last two or three weeks of my purpose to bring this up in some form and insist upon it.

Mr. KENNA. The bill has been on the Calendar for three months and more

Mr. GEORGE. The Senator from Massachusetts has informed me several times in the last week or two that it was his unalterable determination to call the bill up and have action upon it at this session of

Mr. KENNA. No action has been taken by the Senator from Massachusetts, so far as I know, to carry out that unalterable purpose on his part, and now, when Congress is within twenty-four hours of its final adjournment, on a resolution looking to the consideration of the question of adjournment, even I believe down to a question of the very hour of adjournment, this speech is injected in this body. It goes into our RECORD; it goes into this campaign as a bloody-shirt campaign document, with the privilege of the public frank upon it, carried free through the mails of the United States, for purposes which, so far as I am concerned, are to agitate sectional sentiment and feeling, and which, so far as I am concerned further, is a thing of the dead past, to remain so forever.

I confess that I do not understand it. I confess that I do not see how the Senate and this country can understand the conditions or the purposes for which this sort of discussion without opportunity on this side of the Senate or anywhere to reply should be precipitated on an issue which invites the Senate to discuss a question involving a resolution for adjournment ...

Mr. HOAR. I gave public notice in my seat here two or three days

ago of my determination to bring this bill up.

Mr. KENNA. The fact that the Senator gave that notice two or three days ago, when we were practically in the same condition we are in now, and when we all know this bill can not be considered maturely does not alter the case or the purposes of my remarks, and I am willing to leave the matter there.

Mr. SAULSBURY, Mr. BERRY, and others addressed the Chair.

The PRESIDENT pro tempore. Reports of committees are still in order. This matter will be passed over informally.

Mr. BERRY. Is the resolution up for consideration? If so, I have a right to debate it.

The PRESIDENT pro tempore. Do to address himself to this resolution? Does the Senator from Delaware rise

Mr. SAULSBURY. Yes, sir.
The PRESIDENT pro tempore. The Senator from Delaware was recognized. Several Senators rose, as the Chair supposed, to morning

Mr. GORMAN. I rise to a parliamentary inquiry. This resolution

was only reported to-day, and can only be considered by unanimous consent

The PRESIDENT pro tempore. Objection was made to it, but that objection was withdrawn. It is now under consideration unless the objection is renewed, and the Senator from Delaware [Mr. Saulsbury] is recognized.

Mr. CULLOM. May I inquire on which resolution?

The PRESIDENT pro tempore. The Senator from Delaware is recognized as entitled to the floor.

Mr. SAULSBURY. I do not intend to occupy much of the time of the Senate.

Mr. CULLOM. I desire, by consent of the Senator from Delaware, to make an inquiry whether it is the resolution of the Senator from Massachusetts or the resolution of adjournment that is before the Senate?

The PRESIDENT pro tempore. The resolution providing for final

adjournment.

Mr. SAULSBURY. On that question I rise.

Mr. CULLOM. It may make some difference as to the method of discussion. That is all.

Mr. SAULSBURY. I had hoped, as I supposed every Senator on the

floor did, that we were about reaching a conclusion of our labors here, and I rise now more especially to express my surprise that a Senator with the experience of the Senator from Massachusetts, having served in both bodies of Congress for a number of years, should have so far departed from all legislative propriety as to inject into the discussion of a resolution in reference to adjournment the virulent spirit which has been manifested by the Senator in the discussion which he has made. He has risen here in his place to make a political speech of a malignant type against men of a different political persuasion at a time when he knew there was no opportunity to reply to him.

I say for one that the Senator will make no reputation for himself, he will make no advantage for his party by the injection of this speech into the discussion of this resolution, for I am satisfied from the empty seats while the Senator was delivering his tirade, quoting from speeches of Mr. Douglass in order to put them into the RECORD to go out as a political campaign document—from the exhibition I saw on his own side of the Chamber I knew he had not the approval of those with whom he is politically affiliated, and I exonerate his party of all com-plicity with the great impropriety which has been manifested by the

Senator from Massachusetts on this occasion.

I shall not go into a discussion. I hope we shall adopt the resolution offered by the Senator from Iowa, that we shall adjourn and go home, but I do want to emphasize my disapproval, my condemnation, my reprobation of the attempt on the part of the Senator from Massachusetts in the closing hours of the session to make political capital for his party when he knew there would be no opportunity to reply to him.

MINT REPORT.

Mr. GORMAN. I ask leave to make a report from a committee of conference

The PRESIDENT pro tempore. The Chair will receive it.

Mr. EDMUNDS. What has become of the concurrent resolution?

The PRESIDENT pro tempore. A report of a committee of confer-

ence is a privileged question.

Mr. EDMUNDS. Do I understand the Senator from Maryland to object to the adjournment resolution?

The PRESIDENT pro tempore. Does the Senator from Maryland

object to the pending resolution as to adjournment?

Mr. GORMAN. I ask that the report I make be considered.

The PRESIDENT pro tempore. The report is in order under the express terms of the rule.

The Chief Clerk read the report, as follows:

The committee on conference on the disagreeing votes of the two Houses on the amendments of the Senate to the House concurrent resolution for printing the report of the Director of the Mint on the production of the precious metals in the United States, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendments of the Senate numbered 1 and 2, and agree to the same.

A P GORMAN

ne.
A. P. GORMAN,
CHARLES F. MANDERSON,
JOS. R. HAWLEY,
Managers on the part of the Senate. JAS. W. REID, JOHN M. FARQUHAR, R. P. BLAND, Managers on the part of the House.

Mr. EDMUNDS. To avoid there being a precedent about this business I respectfully submit to the Chair that the resolution about adjournment is a matter of higher consideration than a conference report.

The PRESIDENT pro tempore. The Chair does not understand that a resolution to provide for the adjournment of the two Houses of Congress has any preference over any other bill or resolution, and the rule expressly gives to reports of committees of conference precedence whenever presented.

No action is necessary on the report of the committee of conference, the Chair thinks.

Mr. GORMAN. Am I to understand that the conference report is lagreed to?

The PRESIDENT pro tempore. No action is necessary, the House having receded from its disagreement; the resolution is passed

ADJOURNMENT SINE DIE.

The Senate resumed the consideration of the resolution of the House

of Representatives providing for final adjournment.

Mr. EUSTIS. Mr. President, as the Senator from Massachusetts

[Mr. HOAR] has referred to occurrences in the State of Louisiana, I desire very briefly to state that he has not referred to a single occurrence in that State which has not been the subject of investigation, of discussion, and of decision. I do not propose at this time to be enticed into any discussion of such stale subjects. At the proper time and on any proper occasion I hope that I shall find myself prepared both by the facts and the truth to defend the white people of the State of Louisiana

against any such accusations as have been made.
Since 1876, which was the year when the Democratic State government was inaugurated, I can not recall a single occurrence represent-ing any condition of things in Louisiana that does not exist in the State ing any condition of things in Louisiana that does not exist in the State of Massachusetts itself, which should require the attention of this body or of any national tribunal. There have prevailed peace and quiet and contentment among all the people of the State of Louisiana, irrespective of race or class or conditions, and the Senator from Massachusetts knows as well as I do, and it is known by every one in this country, that whatever disturbances and conflicts prevailed in Louisiana previous that whatever disturbances are constituted to the collisions of two roses which ous to that period were on account of the collisions of two races which were inhabiting the same territory and among whom was thrown the prize of political supremacy and political domination, and whatever happened in the State of Louisiana would have happened in any other State, even in the State of Massachusetts or any other Northern or Western State.

It was never for the interest of the white people of Louisiana to have any conflict or any disturbance with the colored race. All their interests, everything that they possess, everything that they can desire is involved in the question of peace and fraternity between those two races, and I must express my surprise that the Senator from Massachusetts, knowing him to be familiar with the political history of Louisiana, he having served upon committees of investigation, should at this late period, without any propocation whatsoever, endeavor to revive this late period, without any provocation whatsoever, endeavor to revive those unpleasant reminiscences.

Mr. HOAR. Will the Senator inform me why, then, he objects to

having these matters judicially ascertained by the courts?

Mr. EUSTIS. Because that involves an entirely different question. I do not consider that such a bill is constitutional, or that a United States judge has any such duty to perform, which is strictly political and not judicial.

Mr. HOAR. Does the Senator claim that the question whether a

homicide is committed or a serious attack on life or property is committed is a political and not a judicial question?

Mr. EUSTIS. Where the court has jurisdiction to try and convict, that is an entirely different proposition from a mere question of in-

Mr. HOAR. If the act be done for political motives or to suppress the constitutional rights guaranteed by the Constitution, does the Sen-ator deny that the courts of the United States have a right to inquire? Mr. EUSTIS. The Federal courts have no such jurisdiction in a

State.

Mr. HOAR. I want to give them jurisdiction.
Mr. EUSTIS. I say one of the objects of this inquiry would be to

accomplish a political purpose.

Mr. GIBSON. I ask the Senator from Massachusetts if this bill does not impose on the judge not only a duty to inquire but to report to

Mr. HOAR. To report the facts. It imposes on the judicial branch of the Government the right to inquire whether an offense has been committed against the constitutional rights secured by the Constitution of the United States

Mr. BERRY. Mr. President, I do not rise at this time for the purpose of discussing the bill introduced by the Senator from Massachusetts, and which he has discussed to some extent on this adjournment resolution. My friends on this side of the Chamber, notwithstanding the provocation which has been given by the Senator from Massachusetts so unexpectedly, think that this is not the time when this bill should be discussed in all its bearings. I am unwilling, however, that the statements made by Mr. Douglass and read by the Senator from Massachusetts should go out to the world as true as applying to the whole South, without entering my denial on this occasion so far as they

Mr. HOAR. The Senator says this has been precipitated upon the Mr. HOAR. The Senator says this has been precipitated upon the Senators on his side unexpectedly. I desire to ask that Senator if several days ago, two or three days ago, he did not himself call upon me, or send a message to me to inquire if I intended to bring up this bill, and say that, if I did, there were some twelve or fourteen speeches all ready on the other side of the Chamber to be made on it. I received such a message.

Mr. BERRY. I will say to the Senator that I stated to his colleague [Mr. DAWES] that I hoped the bill would not be pressed at this session, because a number of gentlemen desired to discuss it, and we had not time to do so. I stated that, having heard he was going to present it, but being informed that it was the universal sentiment on that side of the Chamber that it ought not to come up, I supposed their good judgment would prevail, and that the Senator would not bring it up. simply, however, intended to say this— Mr. HOAR. Will the Senator pardon me one word? Mr. BERRY. Certainly.

Mr. BERRY. Certainly.
Mr. HOAR. Does the Senator say my colleague told him that that was the universal sentiment on this side of the Chamber?

Mr. BERRY. No, sir; I made no such statement.
Mr. HOAR. I should like to know where that information came from

Mr. BERRY. The Senator charges me with words that I did not use. I did not say what his colleague had said one way or the other. I said that my information was that it was in opposition to a large number of Senators on that side of the Chamber.

The Senator will say in justice to my colleague and Mr. DAWES.

myself that I did not state that.

Mr. BERRY. I stated that the senior Senator from Massachusetts Mr. DAWES], for whom I have the highest regard, made no statement

about it one way or the other.

I intended to say, if I had not been interrupted, that I have been intimately associated with the public affairs in my own State for a period now almost continuously of twenty years. I wish to state that since 1874, when a war broke out between two Republican factions in the State of Arkansas, no one has been killed on account of politics; that while I have been four years in the General Assembly, four years that while I have been four years in the General Assembly, four years judge of the circuit court, and two years governor of the State, and thereby had every opportunity to know, I do not know since 1874 of a single, a solitary instance where a colored man has been killed on account of politics in my State. I state that since the Democrats came into power in 1874 peace and order and good government have prevailed. I state that the people there, the leading citizens of that State, are earnestly seeking to bring about the best feeling between the white and colored people. Last year we paid out over \$700,000 in school money, of which the colored people received a due and just and fair proportion. We are earnestly trying to settle the opestions of labor proportion. We are earnestly trying to settle the questions of labor there, and the questions between labor, and capital, to secure every colored man, as well as every white man, the right to vote, the right to sit upon a jury, the right to sue in the courts, and every right that is guaranteed to any man in the State of Massachusetts or elsewhere. I say the fact is that peace and order prevail; and I regret the more that the Senator from Massachusetts is willing at this time to precipitate a matter here which may disturb the kindly relations which exist

between these people.

It seems to me that it matters nothing to him that he is outside of the Constitution of his country; it matters nothing to him that he may embarrass those who are earnestly seeking to elevate the colored man to educate him, and to teach him to be a good citizen, to secure to him equal rights in all respects to every other citizen before the law; it matters nothing to him that he may bring about and arouse the worst passive that was registed that was registed in that section of the country. sions that may exist between the two races in that section of the country. I earnestly insist that this ought not to be done at this time without full

opportunity to be heard.

I simply rose for the purpose of uttering this denial. the matter will rest where it is. But I want the people of this country to understand that the statements made in the document read are not true; that it is not true that colored men are killed and murdered by midnight raiders. Such a thing has never been charged for a period now of more than ten years, and is not true, at least in the State from which I come.

Mr. GEORGE. Mr. President, the questions raised by the bill which has been read and discussed by the Senator from Massachusetts and reported by the Judiciary Committee I consider of very great importance to the American people. I do not know of any more important in all my legislative experience, or any questions which more deserve the careful, the calm, and the dispassionate consideration of statesmen and of people than the questions raised by this bill.

I have been aware for some weeks that it was the purpose of the Senator from Massachusetts at some time or other to press the consideration of the bill. Having that notice I have considered as carefully, as intelligently as I could the various questions which it raises. prepared, if it be the wish of the Senate to consider this bill in an orderly manner, with proper time and proper care for its full discussion and deliberation, to discharge in my humble way my part of the duties which will devolve on me in that discussion. I do not wish upon a mere resolution to adjourn to enter upon the discussion of these ques-

The Senator from Massachusetts belongs to the majority of this body. That majority can control the business of this body. If it be the wish of that majority to take up this bill for consideration, I am content and I am ready for its consideration. I should like to know now whether it be the wish and the intention of the majority of this body

to accede to the wishes of the Senator from Massachusetts to call up this bill for consideration. If it be, and it is called up, I make no complaint of the lateness of the session, provided that no hour, no day shall be fixed for adjournment until this discussion is over.

I do not wish to be understood at this late hour as challenging a discussion of this measure. I do not challenge it. I simply desire to be understood as saying that if it be the wish of the majority to consider this bill I am content, but I do not wish to discuss it under the pressure of an hour fixed for adjournment. There are very grave constitutional questions in my opinion involved in the bill; there are constitutional tional objections to it which extend not only to the end and the aim of the bill, but which extend with very great force to the instrumentalities by which this proposed investigation is to be had. I desire to consider both of these questions calmly and coolly, and I desire to contribute what little may be in my power to enable the American Senate to settle these great questions in accordance with the Constitution which we have sworn to support.

There is another question, Mr. President, raised by this bill which I think demands at some time or other the careful consideration not only of the American Senate but of the American people, a question which grows out of the very extraordinary condition in which the Southern States find themselves by what the Senator from Vermont on a former occasion denominated the want of homogeneity in our population. do not want this discussion opened or considered in a partisan spirit. These interests are too grave, they are too important, they too much concern the welfare of both races in the State in which I live to be discussed in a partisan or sectional spirit.

Having said this much, I think I may with propriety ask that the Senate may determine now whether it will consider this bill or not. If it be the purpose of the Senate to consider it, I am prepared. If it be the purpose of the Senate to not consider it, to postpone it until the next session, I am content with that.

Mr. DAWES. Mr. President, before this matter is laid aside I desire to add a word after the statement of the Senator from Arkansas [Mr. BERRY], who has stated truthfully, I believe precisely, the conference between himself and myself upon this matter. It is possible, however, that the impression may be left, if I remain silent, that the bringing of this matter before the Senate by my colleague has been without my approbation. My colleague communicated to me some time since his intention to bring this matter before the Senate before adjournment, and although it is of no consequence to him, yet it is to me that I say that that proposition of his met with my approval; and when the Senator from Arkansas sent to my colleague through me the message, I had heard from no quarter on the side of the majority of the Senate any disapprobation of the matter that has been brought before the Senate by my colleague. I took the message to my colleague from the Senator from Arkansas precisely as it was delivered to me, and returned to him such answer as was given me by my colleague.

I wish to say, however, that my colleague truly represents the feeling in the State of Massachusetts on this question. The painful thing about it is in the minds of the people of Massachusetts that those where these occurrences have recently taken place are indifferent. massacres have occurred from some cause or other in some of the Southern States, and so far as I know in this body or the other branch and in the States themselves there has been manifested such an indifference to them as that the people of Massachusetts infer from this absolute silence and from the absence of any effort to seek out the cause or the proper remedy that there is necessity for some action to secure the rights of citizens. To the people of Massachusetts it is a matter of serious concern when they consider that the life and liberty of one citizen of the United States, wherever he may reside, are just as dear to them, and his safety is of as much importance to them, as are the life and liberty and safety of those citizens of the United States who dwell within her own borders.

It may be that such a proposition as my colleague has submitted is not the best remedy. The trouble among these people is that no attempt at a remedy finds the slightest response where there ought to be the greatest interest and the greatest assiduity in seeking out the proper remedy. My colleague can justify himself without my help for bringing the matter up at this time. I have said thus much lest what has passed between the Senator from Arkansas and myself might be interpreted here or elsewhere as if I felt an indifference to the transactions out of which this measure has grown-a feeling I do not pos-I am in entire sympathy with an earnest and honest and calm effort of some kind to try to make the life and liberty and political rights of every citizen of the United States, wherever he may live, to

be more secure than they are now.

Mr. GIBSON. Mr. President, I must express my surprise and re-Mr. GIBSON. Mr. Fresident, I must express my surprise and regret that a gentleman of the learning and accomplishments of the Senator from Massachusetts [Mr. Hoar] should, at this hour, bring into the Senate a subject calculated to create sectional debate. I have served for many years in Congress with that distinguished Senator, and I had cherished the hope that his patriotism, extending beyond the Commonwealth he represents, might gradually widen until it embraced the whole country from one end of it to the other.

The speech of the Senator from Massachusetts comes to us like an ice-

berg from an arctic region into an atmosphere of genial warmth and sunshine, pervading not only this Senate Chamber but every part of our common country. It has drifted from its moorings and is out of season and out of place, and can not survive the patriotic warmth of this epoch

and out of place, and can not survive the patriotic warmth of this epoch of unity and concord and friendship, but will melt and fade out of sight. Edmund Burke declared that "to restore order and repose to an empire so great and so distracted as ours is merely in the attempt an undertaking that would ennoble the flight of the highest genius and obtain pardon for the efforts of the meanest understanding." He declared with all his genius and learning he found it impossible to frame an indictment against a whole people. The Senator from Massachusetts rejects the example and the advice of this one of the most gifted statesmen who who expects the English to great and the set the seat the senator. men who ever spoke the English tongue, and brings in here at the very end of the session a bill the effect of which is to frame an indictment against the entire population from the Potomac to the Rio Grande.

But, Mr. President, I will not enter into the discussion of this mat-

ter, for I do not believe it is brought into the Senate for any serious purpose; but I should feel that I was derelict in my duty to the people who have honored me with a seat on this floor if I did not bear testimony to the peace, to the repose, to the good order that exists in the Commonwealth of Louisiana.

I have been familiar with the people of that State since the year of my birth. I have been identified with them in every form and phase of their fortunes. I was identified with the old society that existed in Louisiana during my boyhood. I was associated with her sons in the darkest hours of the struggle during the civil war. I have been honored by the good people of my State beyond my deserts. I have traveled through the State from one end of it to the other recently, and I must bear testimony here to the perfect quiet and concord which exists between the white and the colored people, and to the earnest desire of the white people to educate and elevate the colored people to the extent of their ability.

The senior Senator from Massachusetts who sits on my right [Mr. DAWES has referred to massacres in the Southern States. of none such. I know there have been disorders in American society in the last twelve months. I know that occurrences have taken place in certain parts of the country that have cast their shadows over the American Capitol and awakened the deepest concern in the minds of Senators with respect to the peace and to the permanency of existing relations between our people in different parts of the country. I know that in Chicago the peace of society was stirred to its lowest depths and that throughout the whole section in which that city is located we have heard the murmurings of discontent threatening not the rectification of any particular wrongs in respect of any particular person or matter, but affecting the entire framework of society itself, the very foundation upon which titles to property rest, the very guarantees and safeguards which it has taken two hundred years of statesmanship to erect And yet in the presence of these disorders that are so grave, that

menace the very elements that constitute civil society, we are asked to turn away from them, as unworthy of our solicitude or concern. are asked to turn our attention to the South-and when we look out upon the section stretching from the Potomac to the Rio Grande we see peace, quiet, not a ripple upon the surface, God blessing the people with abundant crops, relations between capital and labor undisturbed not a strike, not a tumult, not a disorder, the law is executed, life and property protected; and yet we are told by the veteran Senator from Massachusetts that these conditions do not represent health but disease do not represent civil concord, but on the contrary are evidences of civil death and the denial of political rights!

Sir, if this be so, by what human standard are we to judge of the conditions of society in any part of the world? Where are the petitions coming into this body from any portion of the Southern people asking for examination, for investigation, for inquiry? Point to one that has been introduced here during this session. Where have there been any conventions or meetings in the Southern States demanding that the Federal Government should invest its judges with the ordinary powers of inquest into the political relations that exist between the races in Southern society?

But, sir, I will not betray myself into a further discussion of this bill. I express my deep regret that the learning and accomplishments of the Senator from Massachusetts should be dedicated to a purpose like this when that ampler field, the relations between capital and labor, the reform of our land laws, of our currency and of our revenue system—all the great questions that to-day tax American statesmanship—invite him to put forth his very best exertions; a more fruitful field never awaited the coming of an able and fearless statesman. Let him turn to these questions and trust the South. Those principles of home rule and that sense of self-respect and responsibility which after all afford the only safeguards for free institutions will insure the just right of all persons there. We are all devoted to liberty and will pre-serve all its muniment. We ought to know their value, for they were our inheritance from men you are proud to call your countrymen.

Mr. HOAR. Mr. President, I think the excited utterances of the

Senator from Delaware [Mr. SAULSBURY] and the Senator from West Virginia [Mr. Kenna] have been pretty well disposed of by the state-

ments made upon the Democratic side of the House. They charge that I have brought in here unexpectedly, out of time, in the dying hours of the session, a bill which they speak of, some of them, as an indictment against a whole people, involving sectional strife.

Why, Mr. President, just look at the history of this thing. On the 19th of April, 1886, now four months ago or thereabouts, the law com-

mittee of this body directed me to introduce a bill-I violate no committee secret when I say that, of course, the Democratic minority, the four able gentlemen who represent the Democracy, on that committee knew all about the bill, knew its contents, its purpose, its scope, and its effect.

Mr. RIDDLEBERGER. Will the Senator allow me to ask him a

question?

Mr. HOAR. No, I wish to proceed.

Mr. RIDDLEBERGER. I would like him to answer just this, whether the law committee of the Senate—

The PRESIDENT pro tempore. The Senator from Massachusetts de-

clines to yield.

Mr. RIDDLEBERGER. I will ask the Senator after a while by inquiry whether the law committee of this Senate directed him to make an indictment against all the Southern States for committing lynch

The PRESIDENT pro tempore. The Senator from Massachusetts has

Mr. HOAR. I will now proceed.

Mr. President, the bill was introduced by direction of the law committee of this body with the knowledge of every man on it on the 19th of April, 1886, in its present form without the dotting of an "i" or the crossing of a "t."

Next, the Republican majority of this committee held a meeting to

determine upon the order of business, and by the advice of a commit-tee of their number they determined an order of business which they communicated by authority to the other side, so that there is no secret as to what they did; and without a dissent so far as I know—if there was one I never heard of it—this bill was put down among the principal and leading public objects which were to be taken up in their order at this session, and that was done more than two months ago.

Next that official and most important fact was communicated to the other side through a similar committee of their number, that the Republicans had determined upon a certain order of business in which after disposing of five or six other topics they were going to take this up. That is the next fact which relates to this bringing it up out of

order!

Next it appears that that order of business was proceeded with until about four or five days ago every other matter upon it which preceded this was disposed of; and if the appropriation bills had not taken the place as they always do this would have come up, subject only to the constitutional obligation of dealing with the Presidential vetoes.

So then it is in its place where it has been put by a majority of the Senate and a place notice of which was given in the most formal man-

ner to the Democratic side of the body.

The appropriation bills have taken up the time for the last two or three weeks. The thirteen great appropriation bills and the river and harbor bill have at last got out of the way, and the time has come when this matter comes up in its order with greater formality of action by the Senate than any other subject, with the exception perhaps of half a dozen that have come up here. Then I gave notice three or four days are in my seat in the Senate that I proposed to demand a heaving days ago in my seat in the Senate that I proposed to demand a hearing by this body on the first practicable opportunity. I gave that notice to the whole Senate. There is the next fact. In addition to that, as the Senator from Arkansas has himself honorably stated, a message came to me through my colleague wishing to know whether it was my purpose to take up this bill, with the information that the other side of the Chamber had twelve or fourteen speeches ready to make upon it.

of the Chamber had twelve or fourteen speeches ready to make upon it.

Mr. BERRY. The Senator will excuse me.

Mr. HOAR. Certainly.

Mr. BERRY. The statement that I made was this: That I hoped
the Senator would not press this bill at this session, because if the
Senator did I thought it would bring ten or fifteen speeches from our
side and would delay the adjournment for a great many days.

Mr. HOAR. Very well; take it in that form.

Mr. BERRY. I did not say any speech was prepared.

Mr. HOAR. Take it that way. In the next place, as the honorable
Senator from Mississippi [Mr. GEORGE] most candidly and frankly
stated when the question was raised on his side of the Chamber, he
being a member of the Judiciary Committee, that he has been aware being a member of the Judiciary Committee, that he has been aware for weeks of my unalterable determination to bring this matter before the Senate

Mr. GEORGE. Will the Senator allow me to interrupt him right there?

Mr. HOAR. Certainly. I wish to be corrected if I misstate any-

thing.

Mr. GEORGE. No, sir; I do not wish to make any correction, but I inquire whether it is the purpose of the Senator now to ask the Senate to take this up in an orderly way?

Mr. HOAR. Of course it is.

Mr. GEORGE. That is all I want to know.

Mr. HOAR. Of course it is; and I suppose I am violating no confidence or propriety when I say that the Senator from Mississippi, being about to depart from the Senate in search of health a few days ago, asked me if I would permit it to rest until he came back, because he was prepared to speak upon it and wished to be here when it came up; and I told him that although I did not think it would be reached before Monday of this week (which was the time when he expected to return), such was my sense of the importance of the measure that I could not consent not to take it up if I saw a chance, but that I did not believe if it was taken up it would be concluded before his return, and I would see that it was not so concluded before his return.

Mr. GEORGE. That statement is entirely correct. Now, all I want

is this: I want an order of the Senate to take up the bill, if that is the

sense of the Senate, and let us consider it in an orderly way.

Mr. HOAR. The Senator from Delaware and the Senator from West
Virginia, if they have heard these statements confirmed by gentlemen
on the other side of the Chamber, will as gentlemen, as they are, take back what they said.

Mr. KENNA. If the Senator refers to me and will give me the opportunity at this moment, I will state that so far as the declaration of his purpose to have this bill considered is concerned, I have no issue with him whatever, but frankly I do not see, and I can not see, no matter what his purpose may have been, that the history as stated by him of this subject and of his connection with it furnishes either the cause or the pretext for the speech which has been precipitated upon this body to-day, when he knows as well as every one must know that the bill would not and could not be considered.

Mr. HOAR. I am coming to that next.

Mr. MAXEY. Before the Senator goes to that I should like to have one thing explained. The Senator has stated that this bill has been before the Senate by report for about two months.

Mr. HOAR. Nearly four.

Mr. MAXEY. And passed through the Republican caucus as one

of its pet bills.

Mr. HOAR. I did not say any such thing.

Mr. MAXEY. Substantially that.
Mr. HOAR. I did not say the Republican caucus had passed the

Mr. MAXEY. It was placed on the basis of bills to be considered?
Mr. HOAR. Yes.
Mr. MAXEY. That being the case, and it having been there for two months, I ask why it is that it has not been called up when the Republicans have the majority and have the absolute power to call up any bill they see proper at any time? Why has it not been called up and placed before the Senate in ample time to give Democratic mem-

bers full opportunity of discussing it?

Mr. HOAR. I have answered that once and I will cheerfully answer it again. An order of business was agreed on. It was made known to the other side, and the bills which preceded this in that order of business and the appropriation bills have taken up the time up to this day. That being the case, and I having done everything that in reason and decency I could by public notice, by private notice, by securing the approbation of the committee of the Republican caucus, by securing the caucus itself, at last it turns out that there comes into the Senate a resolution for adjournment leaving this matter on the edge, and I rise, as is my duty, to say at the first moment that that resolution comes in that we ought not to adjourn without completing the consideration of this

Mr. GEORGE. Will the Senator allow me a moment?

Mr. HOAR. Certainly.

Mr. GEORGE. I do not join the complaint made of the Senator's conduct in this matter, but right there I believe I have a right to object that the Senator in protesting against the adjournment of the Senate and speaking to that resolution injected a rather objectionable speech without an opportunity of reply. That is the point I object to.

Mr. HOAR. I am glad I have got your approbation, as I am quite sure I ought to have so far, and now I am coming to that point.

Mr. President, before I come to that immediate point, however, let me say what I was about to say. What is there in the nature of this bill that is an indictment against a whole people, that is going to stir up sectional strife? The bill simply says that if three citizens of the United States, inhabitants of any judicial district, shall under oath declare to a court that there has been a homicide or other serious offense against life or property by reason of the fact that the person killed or injured held certain political opinions or was of a certain race, by reason of the race or politics, thereupon the judge should do what is done in the case of every fire inquest and every coroner's inquest throughout the land, inquire into the facts, report them to the Attorney-General and to Congress, so that if the existing law furnishes a remedy the Attorney-General may set it in motion, and if the existing law is defect-

what is there on earth that should require gentlemen to plead that that bill is an indictment against a whole people? It includes the North as well as the South. It defends the Chinaman as well as the negro. It defends the Democrat in Vermont, where I suppose Dem-

ocrats are not a fifth of the voters-I do not know exactly what the proportion is-as much as the Republican in Louisiana. There is not a mention in the bill of which race is likely to be attacked by any other. There is not a mention in the bill of which party is likely to be attacked by any other; but it substitutes, and its purpose is to substitute, for the heated, angry political complaint the cool, dispassionate, non-partisan judicial finding of the court. That is all which excites my brethren on the other side of the Chamber.

Mr. GEORGE. Will the Senator allow me right there?
Mr. HOAR. Certainly.
Mr. GEORGE. It is very true that the bill on its face appears to be non-sectional and non-partisan, but there was a preamble to the bill, not printed with it but contained in the speech made by the Senator

from Massachusetts when he introduced it, which defined its character.

Mr. HOAR. That is precisely what I was going to deal with next,
as I had assured my honorable friend I would before I sat down. So far I think I shall have the assent of all candid minds on both sides of this Chamber that the bill was not precipitated, that I was not rash or hasty, that it was not out of its place, but that my duty to the measure required me to give this notice.

When I gave the notice I stated the reasons which seemed to me to make the bill important to be dealt with at once. I stated that there were rumors that the General of the Army had made a statement against one State. Is there any doubt about that? In former times

Mr. GIBSON. Over twenty years ago.
Mr. HOAR. I dare say.
Mr. EUSTIS. Has itever been verified?
Mr. HOAR. I think it is abundantly and amply verified.

Mr. EUSTIS. I think not.

Mr. HOAR. But I am not going into that.
Mr. EUSTIS. The matter was investigated.
Mr. HOAR. You can not find a respectable white Republican in the

State of Louisiana, in my opinion-whether right or wrong, I do not know; I never met one-who will admit that they have a fair and honest opportunity to cast the vote and to carry that State by a majority and vote as they see fit. I am not charging Louisiana. Do not get up now and say that I have made a charge against your State. I say that those reports come to me when I talk with men. I say that the leading Democratic paper in South Carolina, the Charleston News and Courier, again and again, down to this very year, has made certain allegations about the condition of things in that State. I am not saying now whether they are true or false.

Mr. Eustis rose.

Mr. HOAR. Let me make my point, and then I will yield to the Senator. I say that Frederick Douglass, the leading, candid, and honored representative of the colored race, has made these statements as to his belief of the condition of his people. I do not say whether they are true or false. I say that in the State of Mississippi, which my friend the state of Mississippi. represents who has just interrupted me, there came a rumor, and it was stated throughout the press of the whole country, that an attack was made on certain men, all of one race, by certain men, all of another race; and those statements are verified by the affirmations of respectable Democratic papers in Mississippi itself among others.

I say it is affirmed that within three weeks an attack was made on certain colored laborers there, forbidding them to labor, by certain white

Mr. President, I am not here making these things as charges. I am here saying that the existence of such a belief, whether in the press or in the minds of representative men throughout this country warrants inquiry, and that such a belief in regard to one American citizen in Mexico or Canada, if it were not removed, would produce war. I am here simply saying that while that belief exists we had better

am here simply saying that white that belief exists we had better substitute the judicial inquiry for the political inquiry.

Mr. EUSTIS. Will the Senator allow me to interrupt him?

Mr. HOAR. Certainly. That is my point.

Mr. EUSTIS. The Senator from Massachusetts dees not seem to commit himself as to whether he believes such a state of things to exist, but he quotes the testimony of witnesses. Among other things he said that there was not a respectable white Republican in the State of Louisiana who did not state that the elections in Louisiana were unfair.

Mr. HOAR. No; I did not. I said I did not believe there was.
Mr. EUSTIS. I dislike to correct or to challenge the testimony of Republican witnesses, but I will make the statement that at the election in 1884, as regards the election of President of the United States and Representatives in Congress, the election in the State of Louisiana was as fair as in the State of Massachusetts.

Mr. HOAR. I hope it was.

Mr. EUSTIS. I know it was.
Mr. HOAR. I hope it was.
Mr. EUSTIS. Therefore I am surprised that the Senator has insinuated otherwise.

Mr. HOAR. The Senators on the other side of the Chamber are very hard to please. First they criticise me for making a charge, and when I point out to them I did not make it, but merely said this belief was entertained, then they criticise me for not making the charge and say I am merely quoting the language of witnesses.

What is it that is producing the anger of the State of Texas with Mexico to-day and the demand for the forcible interference of the administration, and war if need be? It is an affront to one or two American citizens, and it warrants, if the reports be true, the feeling of indignation and excitement which prevails in that community and which should prevail throughout the entire United States. Is an American citizen to be safer in Mexico than in Carrollton or Copiah? If reports justify inquiry in the one case, do they not justify and demand inquiry alike in the other? Is the Mexican flag to give more safety to the American citizen than the Stars and Stripes?

Mr. GIBSON. Will the Senator from Massachusetts permit me to

interrupt him?

Mr. HOAR. Certainly.

Mr. GIBSON. If the State of Texas should be so excited about a wrong done to an American citizen in Mexico—perhaps not a citizen of Texas—can we not presume that the State of Texas would become equally indignant at a wrong done within her own jurisdiction against one of her own citizens entitled to her protection? Would it not naturally follow that Texas would take more interest in affording a remedy for a wrong done within her own household against one of the members of her own political family than on account of any wrongs inflicted upon a citizen of the United States in a foreign country?

Mr. HOAR. If the wrong be to an American because of his American citizenship in Mexico it is the national duty to redress it, and not

that of the State of Texas.

Mr. GIBSON. The State of Texas is manifesting, the Senator says, its indignation at a wrong done against an American citizen.

Mr. HOAR. Suppose she is. If the offense be committed against

an American citizen in regard to those political or personal rights which belong to his American citizenship at home, it is equally the duty of the American Government to afford the redress, and here is the place.

Mr. GIBSON. If the Senator from Massachusetts will permit me, suggest that primarily it is the duty of the State of Texas to protect her citizens within her own jurisdiction, and if a wrong were done to a citizen in Texas, no matter what may be the character of that wrong, whether in respect to the rights guaranteed to him by the Constitution of the United States or by the constitution of the State of Texas, nevertheless it is the duty, and I have no doubt it will be the will, of the people of Texas, of the government of the State of Texas, to protect one of her citizens in respect of either of these classes of right, and to afford

ample and just remedy.

Mr. HOAR. Now, the Senator put me a question. I will put him one. Does the Senator from Louisiana himself believe that there are not communities in this country where if a Republican was shot down as Print Matthews was because of his Republicanism or a negro outraged because he wanted to vote, that they would find grand juries to indict or petit juries to convict? Will the Senator, who everybody knows to be a man of honor, say that there are not communities to whom protec-

tion would be denied, and has been denied in the past?

Mr. GIBSON. I will answer the Senator from Massachusetts. lieve that there is not a community in the United States in which if any citizen were denied his right to vote or any other right to which he was entitled under the laws of the State in which he resided, that this or any other wrong would not be righted. In other words, I be-lieve that American citizens are as secure in their rights in the Southern States as in the Northern States, I will admit that at seasons of excitement growing out of neighborhood difficulties or of politics it might happen that in any part of the United States wrongs might be done against particular individuals without their being righted with that promptness which the Senator would desire and which I would

desire, but these are exceptional cases.

Mr. HOAR. Well, Mr. President, "I have not found so great faith; no, not in Israel;" but if the Senator be right, and I admit his opportunities of examination and of ascertaining the facts, then certainly this is a most harmless bill; it will not increase either the labor or the expense of the judiciary of the United States.

Mr. GIBSON. If the Senator from Massachusetts will permit me, to

place a man on inquiry, to assume that there is something wrong in the character of a citizen which should justify his fellow-citizens, his neighbors or friends in instituting an inquiry into his character or his life, creates of itself a suspicion that there is reasonable ground to believe that he has done wrong; and to frame a bill to put whole com-munities under inquiry and investigation in respect of their conduct, the manner in which they enforce their laws—
Mr. HOAR. How does this bill do it?
Mr. GIBSON. It authorizes the district judges—
Mr. HOAR. The Senator mistakes the character of the bill.

Mr. GIBSON. It authorizes the district judges to make inquiries into all these proceedings and to report them to Congress.

Mr. HOAR. The bill provides—

Mr. GIBSON. If the Senator from Massachusetts will permit me—

The PRESIDENT pro tempore. Does the Senator from Massachusetts yield? Mr. HOAR.

Mr. HOAR. Certainly.
Mr. GIBSON. I desire to call the Senator's attention to that principle in human nature which will always impel certain men in communities when they receive invitations from a powerful political organization to account for the shortcomings of that organization in that

political community.

It is an invitation which many men construe, without a very grave sense of responsibility, to pick up the current rumors which are circulated in the community, to pick up the current thiors which are circulated in the community, to he neighborhood scandals, to become scavengers in the community, to weld them together and present them as they would grave charges against respectable citizens of the community. The Senator from Massachusetts will remember the effect which the Lion's Mouth at Venice had upon that community during the reign of the

Mr. HOAR. Mr. President, I can not yield further. Mr. GIBSON. It was a perpetual and standing invitation to every man to become a witness against his neighbor.

Mr. HOAR. I do not yield.

Mr. GIBSON. And this, in my opinion—

Mr. HOAR. I do not yield to the Senator for a long speech.

The PRESIDENT pro tempore. The Senator from Massachusetts declines to vield further.

Mr. GIBSON. I do not wish to trespass upon the Senate or the courtesy of the Senator from Massachusetts. I supposed he was yielding. Mr. HOAR. I yielded for the Senator's question and his explanation. Mr. GIBSON. I have given it.

Mr. GIBSON. I have given it.
Mr. HOAR. But the Senator is making a comment on the bill which shows that he has not read it. It is the ordinary case which provides everywhere for a coroner's inquest, except this is to be done under the direction of the judges of the United States in instances which are under the cover of our national constitutional protection; and it simply says that when a man is killed or injured seriously in body or estate and three citizens petition the court and set forth that is done on account of his race or political opinion, the judge shall ascertain the The Senator from Louisiana has not been ignorant that whether true or false investigating committees by the hundred almost (one or two of which you have been chairman, sir, two of which I have been chairman, and one of which the Senator from Colorado [Mr. Teller] was chairman, and one of which the Senator from Colorado [Mr. TELLER] was chairman, and so on) have reported that such things exist, and rumors are in the press, and they are going on now; and how any Senator, when it is asked to substitute for the future for this kind of political investigation the calm and quiet of the judiciary, can get up and say why you are indicting a whole people, passes my comprehension.

Mr. GIBSON. The Senator confesses that it is a political consider-

ation.

Mr. RIDDLEBERGER. Mr. President-

The PRESIDENT pro tempore. Is there objection to the further consideration of the resolution?

Mr. ALLISON. I think I shall object for a moment. Mr. RIDDLEBERGER. I would have supposed an objection would have come just at this time

Mr. ALLISON. I do not object. I yield to the Senator from Virnia. I did not know that the Senator wished to make any remarks. Mr. RIDDLEBERGER addressed the Senate. [See Appendix.]

Mr. BLAIR. Mr. President-

Mr. SPOONER. I wish to ask the Senator from Virginia a question.
The PRESIDENT pro tempore. The Senator from New Hampshire has been recognized.

Mr. BLAIR. I object to the further consideration of the resolution

at the present time.

The PRESIDENT pro tempore. Objection is made, and the resolution goes over.

REPORT OF COMMISSIONER OF AGRICULTURE.

Mr. MANDERSON submitted the following report:

Mr. MANDERSON Submitted the ionowing report:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H. Res. 201) for printing the Report of the Commissioner of Agriculture, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendments of the Senate numbered 1, 2, 3, and 4, and agree to the same.

CHARLES F. MANDERSON, JOS. R. HAWLEY,
A. P. GORMAN,

Managers on the part of the Senate.

JAS. W. REID.

Managers on the J JAS. W. REID, JOHN M. FARQUHAR, W. H. HATCH, Managers on the part of the House.

The report was concurred in.

UNITED STATES MAP.

Mr. MANDERSON submitted the following report:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H. Res. 160) to authorize the Commissioner of the General Land Office to cause 15,000 copies of the map of the United States and Territories to be printed, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses

ference have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate numbered 1, and agree in lieu thereof to insert the following: "7,500;" and the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate numbered 2, and agree in lieu thereof to insert the following: "2,000;" and the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate numbered 3, and agree in lieu thereof to insert the following: "4,000;" and the Senate agree to the same.

That the House agree to the insertion, after the word "office," on line 8 of the joint resolution, of the following: "And that 1,000 copies be printed and mounted, to be sold under the direction of the Secretary of the Interior, at \$1.50 each;" and the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate numbered 4, and agree in lieu thereof to insert the following: "10,125;" and the Senate agree to the same.

That the House recede from its disagreement to the title of the joint resolution as amended by the Senate, and agree in lieu thereof to insert the following: "Joint resolution to authorize the Commissioner of the General Land Office to cause 7,500 copies of the map of the United States and Territories to be printed;" and the Senate agree to the same.

CHARLES F. MANDERSON,

CHARLES F. MANDERSON, JOS. R. HAWLEY, A. P. GORMAN, Managers on the part of the Senale. JAS. W. REID, JOHN M. FARQUHAR, P. DUNN, Managers on the part of the House.

The report was concurred in.

ENROLLED BILLS SIGNED.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the Speaker of the House had signed the following enrolled bills and joint resolutions; and they were thereupon signed by the President pro tempore:

by the President pro tempore:

A bill (S. 201) to provide for the erection of a public building in the city of Annapolis, Md.;

A bill (S. 2056) to amend the pension laws by increasing the pension of soldiers and sailors who have lost an arm or a leg in the service;

A bill (S. 2609) granting a pension to Emily J. Stannard;

A bill (H. R. 822) for the relief of William H. Wheeler;

A bill (H. R. 6664) to increase the naval establishment;

A bill (H. R. 8585) to provide for the inspection of tobacco, cigars, and snuff, and to repeal section 3151 of the Revised Statutes;

Joint resolution (H. Res. 87) providing for the printing and distribution of documents of the monetary conferences of 1878 and 1881 and

bution of documents of the monetary conferences of 1878 and 1881 and the report of the monetary commission created under the joint resolution of August 15, 1876; and

Joint resolution (H. Res. 201) for printing report of Commissioner

of Agriculture.

FORTIFICATIONS APPROPRIATION BILL.

Mr. DAWES. I move that the House of Representatives be requested to return to the Senate the bill (H. R. 9798) making appropriations for fortifications and other works of defense, and for the armament thereof, for the fiscal year ending June 30, 1887, and for other purposes.

The motion was agreed to.

MARY J. NOTTAGE-VETO MESSAGE.

Mr. BLAIR. I move that the Senate proceed to the consideration of the bill (S. 2005) granting a pension to Mary J. Nottage, a vetoed

The motion was agreed to.

The PRESIDENT pro tempore. The bill is before the Senate, and the question is, Shall the bill pass, the objection of the President of

the United States to the contrary notwithstanding?

Mr. BLAIR. Mr. President, the bill now before the Senate is one of the twenty-five private pension acts originating in the Senate which have been vetoed by the President of the United States, the veto messages having been referred to the Committee on Pensions and returned for action by the committee to the Senate. Since then I think two more vetoes have been received, which are in possession of the committee. The reports of the committee and the views of the minority covering the general considerations touching all these vetoes are before the Senate. They are in the form of ordinary printed reports, and they are also to be found printed at large in the RECORD of last Saturday's proceedings, the RECORD of August 1, to which Senators can refer if they desire.

I had contemplated in my remarks to the Senate upon this or some other case a somewhat extended discussion of these vetoes, the causes apparently which have led to this action on the part of the Executive, the effect it has had on the country, upon public sentiment, the apparthe effect it has had on the country, upon public sentiment, the apparent effect it has had upon pending legislation, general legislation touching the pensions which have been granted and on which it has been proposed to give to our soldiery and to their dependent relatives. It certainly has had this effect, that general legislation, providing substantially for all the grievances which have been alleged by our soldiery, has been arrested in its progress; and in the other branch of Congress, where amarently these bills were passed to a rapid and to a gress, where apparently these bills were passed to a rapid and to a favorable consummation, we now find them locked up as with a clamp and an end put to their progress for the present.

But the approaching close of the session and my extreme anxiety that there shall be action upon some of these cases, in order that the sense of the Senate may be tested to see whether it is possible to obtain action such as will override the veto in any of these cases upon their merits, will preclude any attempt upon my part at general discussion. I will only say that so far as I am personally concerned I have taken occasion

in such of the reports to which I have alluded and in the preparation

of which I have been concerned to give my views at length.

I desire to call immediate and particular attention to the facts in this case, and before so doing I wish to state the exact form in which the question is presented to the Senate. It is a bill upon which both branches of Congress through their committees have passed favorable judgment, and so far as it was possible for them to do so have redressed the grievance of Mary J. Nottage. The bill then going to the Executive met with his veto. The facts in the case are none of them different as they come from the Executive from what they were as considered by the two Houses of Congress. There is, in other words, nothing new in the case. There is nothing new in this case as it is presented to the two Houses of Congress, nothing different from what appeared in the case as it was considered by the Pension Office itself. So from the beginning of the consideration of this case, from the time when it was first decided in the Pension Office until the present moment, there is no increase, there is no accumulation, there is no change in the evidence itself.

To the Senate the question presented is this: What ground for a change of action is there so that we are at the present time called upon to pass a different verdict upon these facts from that which we did when we originally passed the bill and sent it to the House for its consideration? That is the real question, the only question that is now presented to the Senate. As I stated before, there is neither increase nor diminu-tion in the evidence itself, and if the Senate now changes its judgment it can not be from any other consideration save that the Executive, upon the same evidence, upon the same state of facts, has come to a different conclusion from that which was reached by the Senate, and which was also reached by the other House.

I may say further that this case came from your committee to the Senate with a unanimous report; that this case went through the Senate and to the House of Representatives without opposition, with the unanimous indorsement of the Senate; that there was no opposition so far as I know in the other branch of Congress; that it has had the unanimous approval in committee and in the action of the two branches upon the facts as they appear now and as they always have been before the Senate.

That, sir, is the precise issue, and the form in which the question is presented to us for consideration, and that form in constitutional language, is stated thus: Shall the bill be passed, the objections of the President to the contrary notwithstanding?

To come a little closer to this particular case, it is one in which there is no conflicting evidence whatever—not a particle. It is a case where there is no question raised of the respectability of the applicant or of the deceased husband, and there is no contradiction of the testimony of a single witness that is in the case; so that it can not be claimed that here is a different finding upon matters of fact by reason of conflict of testimony. Every witness stands unimpeached; every fact that is proven at all is proven without contradiction; and thus it is that if upon an examination and review of this evidence, every particle of which is in print before the Senate, the several propositions which it is necessary to maintain in order to establish a claim for a pension are established at all, if there is the necessary unimpeached evidence to establish these propositions, they must be accepted by the Senate for the reason that there is no contradictory testimony whatever.

As I said before, all the parties in the case are of the highest respecta-

bility. There is no reason for impeaching a single witness. no reason whatever, no testimony, no suggestion from any source that this is a bogus claim; that there is anything wrong about it; that there is any assertion throughout the testimony of any question of fact which is to be contradicted, or any witness whose truthfulness, whose uprightness and reliability is in any wise to be impeached. It is that character of a case which it is now for the Senate to consider.

Mary J. Nottage is the widow of Thomas Nottage. Thomas Nottage

was a soldier of the Third New Hampshire Regiment. He enlisted the 31st day of July, 1861. He was mustered in a few days later. He was in the service nearly fourteen months. Practically he was in the service somewhat longer, but he was discharged on the 15th day of September of the year following the 31st day of July when he enlisted. He was a man of excellent character. He enlisted as a private. He rose to the position of a sergeant.

The first question which would arise in the establishment of the claim of the widow to a pension which is derived from the service of her deceased husband is as to his soundness and fitness for the service at the time he was mustered in. Upon that point there is no contradictory testimony whatever. In the year 1853 he took the only sickness of which there is any account in the evidence or from any source whatever prior to his muster-in. Then he had a lung fever. He was treated by a regular physician, who made him some fifteen visits, as I recollect the statement of the evidence. He was thoroughly cured; and the same physician who was the family physician of his father and of this man also for some forty years says that he was thoroughly recovered, and that he was sound and well at the time of his enlistment; and had there been anything to the contrary his relations with the family were such that he would have known of it.

life insurance, and he was carefully and fully examined by the officers of the life insurance company, pronounced a good subject, and insurance upon his life was effected. The evidence shows this conclusively and fully.

In addition to the testimony of the family physician, in addition to the testimony of the officers of the life insurance company who testified to the examination and to the insurance just prior to the enlistment, there is the further fact which by several bills which have passed, first the one and then the other branch of Congress, is held to be conclusive in the general judgment of Congress—the fact that he was actually mustered in and accepted as fit for the service by the officers of the United States. This I think the Senate must accept as conclusively establishing the fact of physical ability to render the service at the time of the muster-in.

As I said before, there is no trace of any evidence further than I have stated bearing upon the physical incapacity or disability of this man prior to his muster-in.

With reference to the service actually rendered by him, as I stated, he was mustered in in the summer of 1861; he rendered about four teen months' service, and was discharged in the month of September, 1862. The evidence shows that during this period of time he performed his duties as a soldier acceptably. His officers and others have testified as to his efficiency and high character and to his good desert as a soldier in the Army of the Union.

The captain of his company, who is now an officer in the regular Army, Capt. James F. Rundlett, a man who by his gallantry; good conduct, and good character while in the volunteer service was afterward accepted in the regular Army and has been in the regular Army ever since, says Nottage was always a good soldier. He states this substantially, and he says in his certificate of discharge as follows:

He was born in Quincy, in the State of Massachusetts; is thirty-one years of age, 5 feet 10 inches high, dark complexion, black eyes, black hair, and by occupation when enlisted a bootmaker. During the last two months said soldier has been unfit for duty thirty days. Sergt. Thomas Nottage, jr., has been sick nuch of the time since enlistment with gravel complaint. Although always willing, his services are ever uncertain.

The certificate of the physician upon which the discharge is made is to this effect:

I certify that I have carefully examined the said Sergt. Thomas Nottage, jr., of Captain Rundlett's company, and find him incapable of performing the duties of a soldier, because of lithier renalis arenosa, which has troubled him several years, and now increasing. He has passed stones several times since in service, and been under treatment. A few days since two passed as large as small sized peas, attended with the usual symptoms.

These extracts from the testimony I read at this time in order that the strongest possible presentation may be had to the Senate of whatever testimony there is indicative of any physical unsoundness at the time of the muster in. The captain of the company says, as I have stated, that he had been sick much of the time since enlistment with gravel complaint, and the surgeon of the regiment makes a statement with reference to the difficulty under which he was then suffering and on account of which immediately he was discharged.

But there is not in the testimony anywhere any trace of the origin of this difficulty prior to his entering the service. Here is the gratuitous statement by the surgeon of the regiment that the difficulty had been of several years standing, but there is no evidence of his acquaintance with the man, and there is no testimony from any other source that

any difficulty of this kind existed prior to the service.

I call the particular attention of the Senate to the point that however this may have been, and whether it was the fact or was not the fact, he was discharged by reason of this existing difficulty at the time, and that that was not the cause of death. The cause of death alleged is consumption, and that consumption is traced to the service by other evidence. The claim of the widow to her pension is based upon the death of the husband by reason of consumption, which was the result of other diseases, other disabilities contracted in the service from which he never recovered.

So this testimony, which is all that can possibly be relied upon from any source or which can be drawn from anything that is in the case itself, is entirely aside of the mark, and unless it may have contributed of itself it is not claimed that the ultimate result of consumption is in no wise connected with the cause of death which is the basis of the claim for pension. As I have stated before, in the testimony there is nothing to show that disease originated prior to the service, but on the contrary there is much in the testimony tending to show that it was itself the result of the service, the gratuitous statement of the acting assistant surgeon that it had troubled him for several years not being in itself in the nature of evidence, for there is nothing to lead to the supposition that the assistant surgeon had any previous knowledge whatever of the soldier himself.

Passing that point and coming to the evidence which bears directly upon the origin of the consumption which was the cause of death, the surgeons of the regiment are both dead. It was impossible for the claimant to produce testimony of a medical character in regard to the condition of this man while in the service, the treatment being by the surgeons of the regiment in regimental hospital, a very common occurrence, as every one familiar at all with the service well knows. Hence In the year 1860, the enlistment being July 31, 1861, he applied for | it is not to be charged to this account as showing any improbability as

to the facts in this case; and there is no general hospital record of his disabilities. As I said before, the medical evidence of the surgeons of the regiment it is impossible to produce by reason of their death.

The practice of the Pension Office and the law of course under these circumstances give us recourse to the testimony of non-professional persons, or non-expert testimony, that is to say the testimony of ordinary witnesses. I read first a statement by Mr. Copp, who was the adjutant of the regiment. He swears that he was the adjutant of the Third New Hampshire Volunteers:

That I was well acquainted with Thomas Nottage, sergeant in Company F of said regiment; that I have a distinct recollection of the serious sickness and intense suffering of said Nottage during the summer of 1862, while the regiment was stationed at Hilton Head, S. G., the disease being chiefly from malaria and kidney trouble, and resulting in his discharge from the service for disability; that I was well acquainted with said Nottage at the time of enlistment, and for some years before, and know he was an able-bodied, healthy man; that I met him frequently since 1864. living most of the time in the same city, and that he was out of health, gradually growing worse to the time of his death.

He says that he has no interest in the claim. Another witness I will read, Mr. E. P. Emerson, a man of high character and the agent of the insurance company who effected the insurance upon his life. He says:

Insurance company who effected the insurance upon his life. He says: I Edward P. Emerson, on oath depose and say that I reside in Nashua, N. H., and am the general agent for New Hampshire and Vermont of the New England Mutual Life Insurance Company of Boston, Mass., and I have access to the records of said company, and the foregoing is a correct copy from said records of the examination of Thomas Nottage, jr., for life insurance in said company, and said Nottage was insured in said company, and the said Thomas Nottage, jr., was well known to me for twenty-five years or more, and was the identical Thomas Nottage, jr., who was a sergeant in Company F of the Third Regiment New Hampshire Volunteers and who died in said Nashua some time in the month of January, 1879, and I have no interest whatever in the claim of his widow for a pension; that I have no hesitation in saying said Nottage was sound and free from disease at the time of enlistment, and that from and after his discharge from the service aforesaid up to the time of his death he was sick and ill from exposure, hardship, and disease contracted in said service, and that he finally died in consequence thereof.

This is the testimony of a witness who had constant browledge.

This is the testimony of a witness who had constant knowledge of the man before enlistment, after his discharge, and so on up to the time of his death. I now read the testimony of two comrades who were with him in his company during his service, and who testified in regard to the origin of the disease and his treatment for disease while in the service:

Personally came before me, a justice of the peace in and for aforesaid county and State, Alfred P. Hayden, aged forty-two years, and Norman E. Cobb, aged forty-seven years, residents of Nashua, in the county of Hillsborough, State of New Hampshire, who, being duly sworn, declare in relation to aforesaid case as

forty-seven years, residents of Nashua, in the county of Hillsborough, State of New Hampshire, who, being duly sworn, declare in relation to aforesaid case as follows:

That they were members of said company (said Hayden, sergeant, said Cobb, private); that they well knew said Nottage; that he was in good health, robust and strong, and he remained in good health until the summer of 1862; that in the summer of 1862; while on Hilton Head Island, doing picket duty, when it came his turn to go on duty from Stony Plantation, where the company was, to White House Landing, he was unable to go, which was the first we noticed of his being sick. He did some light duty after. The regimental hospital was with us in the Stony Plantation mansion. He was treated in said hospital. He had swamp fever, the result of malaria, and before the summer was out suffered very much from irritation of kidneys and bladder. He grew thin and pale and weak, and kept growing worse so that he suffered the most intense pain. His countenance became yellow, as though he had the jaundice. It was understood that he could not live but a short time unless sentaway; so that in the fall of 1862 he was discharged on account of his said disability. To our knowledge he passed gravel, which was attended with much suffering. The surgeon of the regiment, Moulton, was away North, sick. Assistant Surgeon Eaton attended said Nottage, and said B. F. Eaton is, we are informed, dead. We saw but little of said Nottage after our return from the Army.

We further declare that we have no interest in said case, and are not concerned in its prosecution, and are not related to said claimant.

These two witnesses make oath to what I have read. I again read an additional certificate by Captain Rundlett, who enlisted this man, observed his service, and was acquainted with him afterward. I read what he says under date of July 30, 1884, in a letter to the Commissioner of Pensions; and it will be observed that this is to be treated as testimony, he being an officer near in the service and even make that testimony, he being an officer now in the service and every such statement being understood to be upon honor and accepted as upon oath:

ment being understood to be upon honor and accepted as upon oath:

Sir: The widow of the late Thomas Nottage, of Nashua, N. H., having applied to me for testimony with regard to her husband's service, to be used in support of her claim to be placed upon the pension list. I hereby certify that at time of enlistment of said Thomas Nottage in the Third Regiment New Hampshire Volunteers he was well known to me and believed to be in sound physical condition, and known to have passed all the examinations required of him preparatory to his "muster into service"

He was enrolled in Company F, of the Third New Hampshire Volunteers. I was captain of said company; Nottage became a sergeant, and was discharged as such on surgeon's certificate of disability at Hilton Head, S. C., about the 20th of September, 1862.

I know by personal knowledge that the said Thomas Nottage was broken down with faithful service, and that he was not discharged until it was evident to all that it was necessary to save his life.

I further certify that I met the said Thomas Nottage several times after the war at his home at Nashua, N. H., and always found him suffering from the effects of his service, and advised him to apply for the pension I believed him entitled to receive from the Government.

From the facts known to me, I believe that his death was hastened from effects of disease contracted during the war, and that his widow's claim is entitled to all consideration provided for like cases.

At this point in passing I call attention to this statement of the cap-tain of his company, still in the regular service of the country, that he saw him several times after his discharge and prior to his death. He always found him suffering from these disabilities contracted in the

service, and advised him to apply for a pension to which he believed him to be entitled.

I call attention to this because it is sometimes urged against the claimant for a pension that those entitled to it have allowed years to elapse without application. It seems to be understood by some persons of this country that it is utterly impossible that there should have been any delay to make application for a pension when the party believed himself to be entitled to it. But the contrary is the fact, and any one familiar with the pension records of this country and the many soldiers and officers who have not made application for a pension at all knows that the most patriotic motives have, as a rule, been the reason why these applications have failed to be made; and it is a pretty hard thing after the Government has profited and the people have profited by the withholding of pensions to which men have been entitled during all these years, at last when they are obliged to have them or suffer, or where their relatives are living in want by reason of their death, and have come forward and claimed a pension, that they should be refused a pension for the very reason that they have been dilatory in enforcing their right, when that failure or delay has been the result of the same patriotic reasons which took them to the war and which led them to risk more for their country than those who have nothing to do but simply to assist in paying the bills.

I now read the testimony of Jonathan H. Nottage, a brother of the deceased soldier:

I, Jonathan H. Nottage, on oath depose and say that I reside in East Boston, Mass., and am employed in the iron works at the United States navy-yard at Charlestown, Mass., and have been so employed about two years, and that prior thereto I was assistant foreman, having charge of one room, for eight or nine years in said East Boston, of the Atlantic Works, and worked at the Hoosac Tunnel and in Nevada, and that I am a brother of Thomas Nottage, jr., late of Nashua, N. H., and a sergeant in Company F of the Third Regiment New Hampshire Volunteers, who died January 8, 1879, and whose widow, Mary J. Nottage, is an applicant for a widow's pension. That said Thomas Nottage, jr., incurred malarial poisoning in said service, and was discharged in consequence; that when he came home in fall of 1862 he was very emanciated, weak, and ill—

I call attention to this as the most particular history of the case that

at that time he looked as if he could not live a month. He was a shoemaker by trade, but during that year did not gain sufficiently to work at his trade. He was suffering with remittent fever. In the latter part of 1863 or first of 1864 I secured him a place in my room in the Atlantic Works, where no hard work was required, he not being obliged to lift a pound, but had charge of a machine where judgment and skill were required more than any bedily exertion.

This was done with a full understanding of his case by the foreman. Here he worked with me in my room until about 1871, and during the whole time I favored him about his work so that he had no hard manual labor to perform, and this was because during the whole of said time he was unft for any hard manual labor, and remained so until he died, on account of his disabilities contracted in the service aforesaid; and after he left East Boston he went to Fitchburg, Mass., and for a few months worked for the Fitchburg Machine Company, at work similar to what he had done under me in the Atlantic Works. Following that work at East Boston he came to me at the Hoosac Tunnel, where I was master mechanic in charge of the machines of the eastern division; here I gave him light employment for a year or more, such as he could do, which enabled him to live without charity. His mechanical skill stood in place of muscular exertion, of which he was incapable. His family had their home at Nashua, N. H., where also his mother resides. His work at Fitchburg was of short duration, and was after he left the Hoosac Tunnel. From 1873 or thereabouts he worked in the repair shop of the Jackson Company about five years as he was able, but lost a great deal of time, and finally became unable to work, and, growing worse, died January 8, 1879, at said Nashua. During the last year he worked for the Jackson Company he lost nearly half the time.

During all the years that he was employed he suffered a great deal, and frequently kept about his business while he was suffering with remittent fev

Signed and sworn to by Jonathan H. Nottage.

There is other testimony to the same effect from witnesses who knew him in the various places where he worked as he was able to be employed from the time he was discharged until his death, all showing his weak and emaciated and feeble condition and his frequently suffering from these diseases contracted in the service. The physician who attended him at his death certifies:

That during the years '73, '4, '5, and 6 he suffered from repeated attacks of remittent fever, occasioned by malarial poisoning. Also from irritability of bladder with inorganic deposits.

He had professional care from 1873 to 1879, the time of his death. This physician further says:

That in '77 (autumn) he had an ischio-vectal abscess, which culminated in anal stula, which never healed. That in the spring of '78 he had sore throat and ough, which gradually increased, phthisis pulmonalis resulting.

And from that disease as the culmination of all his ailments he

finally died on the 8th of January, 1879.

Not to weary the Senate with too much reading of this testimony, all of which is printed and to be found in the report of the committee, I will submit the case substantially upon this statement of facts. As I said in the first place, it is not a case open to suspicion. Nobody has raised a suspicion of this testimony or of this man, for he was a man of as good standing in the community as any of us. It is not a bogus case. There is no contradiction of the testimony. It shows that the man was a well man; that he entered the service and was accepted as a well man and served fourteen months; that when he was finally discharged it was for a disease which pursued him, to be sure, the rest of his life, but was not the disease from which he actually died, but that the disease from which he did die, consumption, was the natural and inevitable result of remittent fever, of swamp fever, of kidney complaint, the piles, and other things which he contracted in the service, which left him an enfeebled and emaciated and broken-down man from the day of his discharge until the day of his death, all these diseases in their future tendency, as any man of common sense, to say nothing about a medical expert, knows, tending so to enfeeble the constitution as to result in the disease of which he finally died—consumption.

Mr. President, these are the facts in the case. The widow I do not need to say anything in regard to further than that she is a woman of respectability, that she was left alone without any property and with two small children. She applied for the pension to which her husband was entitled, as I believe, upon these facts, a pension for which he was urged by his commanding officer to apply during his lifetime, but for which he failed to apply although he evidently was entitled to it as a matter of right. She applied for it after his death, being left in dependent circumstances, and the application was rejected by the Commissioner of Pensions.

As I have stated before, upon these facts I believe the Commissioner of Pensions should have allowed the claim. I admit, however, that upon a narrow, close, and technical, and illiberal construction of the law and of the evidence, if you please, it was possible to disallow this claim in the Pension Office. At all events, it was disallowed, and on application being made for its reconsideration, its reopening was refused. There was then only one remedy and that was for this woman to come with her case to Congress, and here it has been the universal rule ever since I have known anything of this class of legislation, ever since the records of the Government and the history of this legislation, ever since the enactment of our pension laws, it has been the rule to give to the facts in the case a liberal, fair construction.

Wherever there is any taint of fraud, any indication that the claim is, in common parlance which has come to be applied to many of these cases, a bogus claim, of course the closest scrutiny and the readiest repulsion and rejection of such claims is exercised by Congress; but wherever a claim is made in good faith and seems to be a fair one upon the merits, it has always been the tendency of Congress to give the testimony a fair, liberal construction, to give, in other words, to these people the benefit of the doubt, if there be any doubt, in the case, rather than to give it to the people at large. Congress is by no means bound by the action of the Pension Office; it seems an absurdity to lay down this proposition; and yet in nearly all the cases which have been vetoed, in one which came in yesterday, the thought of the Executive evidently is that these cases are to be allowed or ought to be allowed or disallowed under the state of the law and under the rules of action which govern the Pension Office itself.

But I understand quite the contrary in regard to the rule which should govern Congress. These cases come to Congress when disallowed in the Pension Office for the very reason that a remedy should be afforded, but on account of the restrictions which are imposed upon a mere executive or administrative officer he is unable sometimes to afford that relief which, under the equitable powers and those powers of general legislation which exist in Congress, should be afforded in order to do justice to the applicant. Under these general legislative powers to do justice it seems to me that this bill ought to pass, vetoed, as it has been, evidently, from the reading of the veto message itself and the veto messages generally which have come before us, under an impression that Congress should be bound by the same state of facts that applied to restrict the action of the Pension Office. It seems to me that the veto ought not to have weight with the Senate in its decision of this case. That it is one of justice I think must strike every Senator who has examined the facts. It is not open to suspicion. A poor woman left with nothing save two children, with no helper but God and the American Congress and the American Executive, this law-making power, it does seem to me that this case is entitled to the necessary two-thirds' vote to pass it over the executive yeto. I submit the case.

to pass it over the executive veto. I submit the case.

Mr. PLATT. Mr. President, when the vetoes of the President of the United States began to rain upon Congress like hail out of a summer cloud, I was led to make a somewhat critical examination of the circumstances under which the power called the veto power was given to the Executive in the convention which framed the Constitution and of the circumstances under which it has been exercised by Presidents of the United States prior to the accession of Mr. Cleveland, and I came to the conclusion that, while the present Executive is undoubtedly within the letter of the Constitution in the manner in which he has exercised this power, he is entirely outside of the spirit of the Constitution in that exercise; I had intended, and I should be glad now if time permitted, to go somewhat at length into the history of the origin of this power, into the history of its exercise, citing the views not only of the fathers of the Republic, but of all the great men who have preceded the present administration, and the views of Presidents who have exercised this power, for the purpose of showing that in no instance has it been claimed that the veto power should be used as it is being exercised by the present incumbent of the office of President of the United States.

There have been great and notable discussions in this country with regard to the veto power. Great men have differed as to how and when it ought to be exercised by the Executive; but I undertake to say that in all these discussions it has never been claimed by any one that it should be exercised as the Executive has seen fit to use it during the present session of Congress. The veto of pension bills is unprecedented in our history.

I hold in my hand a little table which I have prepared of the number of vetoes prior to this administration, giving each administration and the number of vetoes in each administration. Up to the commencement of the present administration the veto power had been exercised one hundred and nine times, a little more than an average of one a year. John Adams did not exercise it at all. Neither did Thomas Jefferson. John Quincy Adams did not exercise it. Van Buren did not exercise it. It was not exercised during the administrations of Taylor and Fillmore. It was exercised but once by Abraham Lincoln. And yet prior to July 12, 1886, Mr. Cleveland had sent to Congress one hundred and three vetoes, and the additional vetoes since July 12, 1886, will, I think, make up the number so that it will equal the number of the vetoes of all Presidents who have gone before him. As the table may be of use I will insert it, in the RECORD. It is as follows:

Vetoes.

Administration of—	Period,		No.	
Washington Adams, J. Jefferson Madison Monroe Adams, J. Q. Jackson Van Buren Harrison and Tyler Polk Taylor and Fillmore Pierce Buchanan Lincoln Lincoln and Johnson Grant Hayes Garfield and Arthur.	1797 to 1801. 1801 to 1809. 1809 to 1817. 1817 to 1825. 1825 to 1829. 1829 to 1837. 1837 to 1841. 1841 to 1845. 1841 to 1845. 1845 to 1849. 1849 to 1853. 1853 to 1857. 1867 to 1861. 1861 to 1865. 1865 to 1869.	888484444444	9 3 3 9 4 1 20 27 12 4	
Cleveland	1885 to July 12, 1886		103	

I think it quite time to stop and consider for a moment, in all courtesy and with all kindness to the Executive, whether such an unusual exercise of the veto power is not one never contemplated by the Constitution. I agree that there is no absolute, express limitation of the veto power in the Constitution, but I hold that, though it may have been exercised within its letter, the spirit of the Constitution has been violated in its exercise, and "it is the letter which killeth, but the spirit giveth life."

I hold further that while there may be no express limitations upon the use of the veto power by the President, there must in the nature of the case, there must in the history of its origin and from a consideration of the other provisions of the Constitution, be, and there is, a moral and equitable limitation upon the exercise of the veto power by the President. In other words, the President who conceives that he should veto every bill which as a member of the Senate or of the House he would feel called upon to vote against has mistaken entirely the purpose of the veto and the circumstances under which it was intended that it should be exercised.

In reply to this it is said that the Constitution provides that "every bill which shall have passed the House of Representatives and the Senate shall, before it becomes a law, be presented to the President of the United States; if he approve he shall sign it, but if not he shall return it, with his objections to that House in which it shall have originated."

In discussions which have gone before it has been attempted to lay emphasis upon the words "if he approve he shall sign it," as if it was an argument to the effect that whenever the President examining a bill felt that if he were a member of the Senate or of the House he would be compelled to vote against it he was, under the Constitution, compelled to veto it. But manifestly that can not be so.

In the first place, this veto power is in no sense a legislative function; the President has no legislative power whatever. All legislative power is conferred upon Congress, and that is the very first sentence in the Constitution of the United States. Article 1, section 1, clause 1, says: "All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives."

House of Representatives."

The President then has no legislative function, no legislative power.

The exercise of the veto is not a legislative function. I know that the
Executive has somtimes been spoken of as an independent power or
factor in legislation. I know that in 1879 the Democratic papers accused

General Garfield, when in the House of Representatives, of saying that the President was an independent factor in legislation, and then proceeded to comment upon and denounce the statement.

take; General Garfield did not say it.

All legislative power is vested in Congress, and if it be established that the President of the United States may properly veto any and every bill which is submitted to him for approval which as a legislator he might not "approve," then the legislative power which is declared to be vested in Congress is a snare and a delusion. If it be established that the President can by vetoing any and every bill which is passed by the two Houses, having at his back a faction of one-third of each House, prevent legislation, then the day of majority rule in this Government is over with us and the day of minority legislation has been ushered in.

When the Constitution says regarding the President "if he approve he shall sign," that word possesses another meaning from what it would have if it were applied to were legislative duty. The President, in considering whether he "approves" a bill or not for the purpose of affixing his signature, must remember that by the Constitution of the States "all legislative power" is committed to Congress and no particle of it is committed to him. He must remember the circumstances under which the qualified negative was conferred and why it was given to the President of the United States. He must remember that it was intended not to destroy the legislative power of Congress, but as a check only in rare instances.

Not having the time to elaborate this matter fully, I wish here in these closing hours to enter my dissent against any such exercise of the veto power as we have seen during this present session of Congress. I hope that at the next session I may be able at length, recurring to the past, recurring to the adoption of our Constitution, to the views of the fathers, of the great men of the Republic, to show that I am right in the view which I now take.

I will call attention to a very few authorities only at this time. I

shall probably not occupy fifteen minutes in doing so.

First, in the convention which formed the Constitution probably no matter was more thoroughly discussed or more frequently discussed than the conferring on the President a negative on bills with certain limitations. The word "veto" was then never heard. It was not then called "the veto power." That term came into use subsequently. It was called then a qualified negative given to the President. On four separate oc-casions in that constitutional convention this matter was discussed at great length by the ablest and strongest men in that convention; first, when the Virginia plan was under discussion in the convention as in committee of the whole; second, when it was reported to the house; third, when the report of the committee of detail was made; and fourth, on the very last day of the convention just before the signing of the document the whole matter was discussed and discussed at length; and I want to put on record here without referring to the debate this statement that in all that discussion but one man ever suggested that the qualified negative of the Executive was to be used except in two instances, those two being to defend the President when the Legislature should encroach upon the executive prerogative or upon the Executive branch of the Government; and second, when a bill which he believed to be clearly unconstitutional should have been passed by both Houses

One single member only of that convention (Mason, of Virginia) when it was urged that there was no danger to popular government in bestowing this qualified negative on the Executive, when it was urged that it would be like the power of the monarch of Great Britain, a valuable power in repose-when it was urged that it would never be exercised by a President except to defend the executive branch of the Government or to prevent the passage of unconstitutional laws, it was suggested by Mr. Mason, of Virginia, that it might be used for other purposes, that it might be used to "prevent the passage of unjust or pernicious laws." His view found no support in the convention.

That was the only suggestion which was made in the convention that the Presidential negative could ever be used except for the two purposes to which I have already alluded. It was decried even then as a power which would lead to the establishment of "one-man power" in this All the debates in the convention ranged around the question whether this qualified negative should be given to the President for those two purposes and those two purposes only, with the single exception to which I have alluded in the debate.

The first time that it was thought of exercising this power was when President Washington inquired of his Cabinet whether he ought to veto the bill establishing a national bank. Mr. Jefferson, his Secretary of State, was opposed to the bank, and gave an opinion that it was un-constitutional. Mr. Randolph, the Attorney-General, and Mr. Hamilton, the Secretary of the Treasury, wrote opinions that in their judgment it was constitutional; but Mr. Jefferson, though opposed to the bank, believing it to be unconstitutional, arguing against it and in favor of a veto, concluded his opinion with some observations on the question of whether the President ought to exercise that power, which are very short and which I will take occasion to read, reading from Jefferson's Works, volume 7, page 560:

The negative of the President is the shield provided by the Constitution to

protect against the invasions of the Legislature: (1) the right of the Executive, (2) of the judiciary, (3) of the States and State Legislatures. The present is the case of a right remaining exclusively with the States, and consequently one of those intended by the Constitution to be placed under its protection.

It must be added, however, that unless the President's mind on a view of everything which is urged for and against this bill, is tolerably clear that it is unauthorized by the Constitution; if the pro and the con lang so even as to balance his judgment, a just respect for the wisdom of the Legislature would naturally decide the balance in favor of their opinion. It is chiefly for cases where they are clearly misled by error, ambition, or interest, that the Constitution has placed a check in the negative of the President.

There is Thomas Jefferson, the father of the Democratic party, as we are told, who in the day and time of it, February 1, 1791, held that the veto was a shield provided by the Constitution to protect against the invasions of the Legislature as to the right of the Executive, of the judiciary, of the States, and the State Legislatures, and mentions no other purpose which it was to serve.

I am not going to go over the authorities, but I want to call attention to Mr. Webster. In his speech at Worcester, on the 12th of October, 1832, after the exercise of the veto power by President Jackson,

he said:

The power of the veto is exercised, not as an extraordinary, but as an ordinary power; as a common mode of defeating acts of Congress not acceptable to the Executive.

And again in his speech he said, referring to the use of the veto:

This practical innovation on the mode of administering the Government so much at variance with its general principles, and so capable of defeating the most useful acts, deserves public consideration. Its tendency is to disturb the harmony which ought always to exist between Congress and the Executive, and to turn that which the Constitution intended only as an extraordinary remedy for extraordinary cases into a common means of making executive discretion paramount to the discretion of Congress in the enactment of laws.

I call attention to that paragraph from Mr. Webster, and I ask for its application to the case now under consideration. Again: Mr. Webster, as is well known, was in Mr. Tyler's Cabinet as Secretary of State, was one of the Cabinet officers, and the only one who did not resign after Tyler's historical vetoes of the bank and the tariff, and Mr. Webster in his speech at Boston, while still Secretary of State, the exercise of the veto power having then become a burning question in American politics, said this:

Gentlemen, in speaking of events that have happened, I ought to say, and will, since I am making a full and free communication, that there is no one of my age, and I am no longer very young, who has written or spoken more against the abuse and indiscreet use of the veto power than I have. And there is no one whose opinions upon this subject are less changed. I presume it is universally known that I have advised against the use of the veto power on every occasion when it has been used since I have been in the Cabinet.

Yet it was used by President Tyler to veto great measures only, measures which, in comparison with these separate private pension bills, measures which, in comparison with these separate private pension only, assume an importance which would almost justify a President in the exercise of the veto power. Subsequently, in the administration of Tyler there was such universal indignation in reference to the manner in which he exercised the veto power that Mr. Clay introduced in the Senate a proposed amendment to the Constitution making it necessary to obtain only a majority to pass a bill over the President's veto, and almost the last speech he made in the Senate of the United States was upon this subject. I will not stop to read much, for the extracts would e so long that too much time would be consumed thereby in these closing hours, but he characterized the veto as a despotic power.

There, there, was the security-

He said-

and not in this miserable despotic veto power of the President of the United States.

Mr. Clay had already given his views of the exercise of the veto power in 1832, when he said:

The veto is an extraordinary power, which, though tolerated by the Constitution, was not expected by the convention to be used in ordinary cases. It was designed for instances of precipitate legislation in unguarded moments. Thus restricted, and it has been thus restricted by all former Presidents, it might not be mischievous. During Mr. Madison's administration of eight years, there occurred but two or three cases of its exercise. During the last administration, I do not now recollect that it was once. In a period little upward of three years, the present Chief Magistrate has employed the veto four times. We now hear quite frequently, in the progress of measures through Congress, the statement that the President will veto them, urged as an objection to their passage.

I had intended to read somewhat at length but I will forego doing so. Now, sir, to go outside of the authority of men who have been politicians as well as statesmen I want to refer only to Kent's Commentaries and a single other authority. Kent in the fourth volume of his Commentaries comments upon the origin and exercise of the veto power, and in the twelfth edition, published in 1873, is appended this note to what he had already written:

This qualified negative of the President has, in the progress of the administration of the Government, since the first publication of these commentaries. in 1826, become a very grave power, and applied, under the ordinary name of veto, with a familiarity which appears not to have been anticipated by the generation which adopted the Constitution.

What would the men who adopted the Constitution have thought if in their discussion about conferring this power upon the President they had been told that in future years a President of the United States would veto in a single session a hundred bills passed to pension the disabled soldiers of the war, their widows and their dependent rela-

I want to turn for a moment to the views of one whom I regard as perhaps the first, if not the first, among the first, of the publicists of this country, Dr. Francis Lieber. In his Political Ethics, volume 2, page 391, he says:

The veto question, in modern political law, can never be properly treated, except as a part of the greater question of executive concurrence in the great political act of making laws. This concurrence is the primary question, the veto a consequence only. The concurrence, however, is, as it appears to me, one of those necessary conciliatory principles so indispensable in politics. But it must appear, likewise, plain that the veto, being but incident to the concurrence, while the concurrence is the last finish given to a law, not the essential production and generation of it, which is the province proper of the Legislature, ought to be used with the utmost caution, and only when it appears to the Executive that insurmountable obstacles are in the way of his sanctioning the proposed measure.

Lest it should be said that I am to some extent reviving here the old Whig doctrine that there should be, there must be, in the nature of the case and that there is some limitation to be placed upon the exercise of the veto power by the President, I wish to refer to two good Democratic authorities, President Polk and President Pierce. President Polk in his fourth annual message discussed at length this power, and from that message I take this passage which I commend to the present Executive:

EXECUTIVE:

The power of the executive veto was exercised by the first and most illustrious of my predecessors, and by four of his successors who preceded me in the administration of the Government, and, it is believed, in no instance prejudicially to the public interests. It has never been, and there is but little danger that it ever can be, abused. No President will ever desire unnecessarily to place his opinion in opposition to that of Congress. He must always exercise the power reluctantly, and only in cases where his convictions make it a matter of stern duty which he can not escape. Indeed there is more danger that the President, from the repugnance he must always feel to come in collision with Congress, may fail to exercise it in cases where the preservation of the Constitution from infraction or the public good may demand it than that he will ever exercise it unnecessarily or wantonly.

To the Executive who can send to Congress messages returning bills without his approval, breathing executive sneers such as are contained in very many of these messages, I commend this language of President

He must always exercise the power reluctantly, and only in cases where his convictions make it a matter of stern duty which he can not escape.

Then, President Pierce, when he vetoed the French spoliation bill,

It is apparent, therefore, that the circumstances must be extraordinary which would induce the President to withhold his approval from a bill involving no violation of the Constitution.

And yet almost a hundred of those extraordinary occasions have, in the judgment of the present Executive of the United States, occurred at this very session—ninety-seven, the Senator from Colorado [Mr. Teller] says, pension vetoes alone. I go no further with these authorities. I have cited them to recall to the attention of the Senate of the United States and the country the idea which has prevailed universally hitherto in the history of our country with regard to the exercise of this veto power. I have spoken of them to arrest attention, to suggest inquiries as to whither we are tending, as to whether power is to be centralized in the executive branch which was intended by the Constitution to reside alone in Congress.

I do not stop to quote here the views of Abraham Lincoln, of John, M. Clayton, and of many other distinguished statesmen, Representatives, and Senators who have discussed this subject hitherto in the Senate and House of Representatives. If occasion shall offer at the next session of Congress I will go more fully into the subject.

Mr. WHITTHORNE. Mr. President—

Mr. WHITTHORNE. Mr. President—
Mr. CULLOM. Will the Senator yield to me to make a motion? Mr. WHITTHORNE. Yes, sir.

CENSUS REPORT.

Mr. CULLOM. On the 19th of July a communication was received from the Secretary of the Interior, transmitting, in response to a resolution of the 15th instant, a report of Fred. H. Wines, special agent of the Tenth Census, on the defective, dependent, and delinquent classes, which I ask to have referred to the select committee to make provision for taking the Tenth Census, and ascertaining the results thereof, and printed. It was referred without printing. I ask that an order be made for the printing.

The PRESIDING OFFICER (Mr. PALMER in the chair). That order will be made if there be no objection. The Chair hears none.

RETURN OF COTTON TAX.

Mr. WHITTHORNE. Mr. President, before commencing any remarks on the pending question may I ask unanimous consent to take from the table a bill introduced by myself, being the bill (S. 2864) to return the tax on cotton collected by the United States in 1865, 1866, 1867, and 1868 from the people of certain States of the Union, to be held and used by said States for educational purposes, and refer it to

the Committee on Education and Labor.

The PRESIDING OFFICER. That request will be granted if there be no objection. The Chair hears none.

EXTRA PAY TO EMPLOYÉS.

Mr. JONES, of Nevada. I wish to make a report. The Committee on Contingent Expenses, to whom was referred the joint resolution (S. R. 80) providing for one month's extra pay for certain employés of the

Senate and House of Representatives, report it without amendment. I ask for its present consideration.
Mr. EDMUNDS. I object.

I object The PRESIDING OFFICER. Objection being made, it can not be considered at this time.

BILL INTRODUCED.

Mr. DOLPH introduced a bill (S. 2887) granting a pension to Polly H. Smith; which was read twice by its title, and, with the accompanying papers, referred to the Committee on Pensions.

FORTIFICATIONS APPROPRIATION BILL

A message from the House of Representatives, by Mr. CLARK, its Clerk, returned to the Senate, in compliance with its request, the bill (H. R. 9798) making appropriations for fortifications and other works of defense, and for the armament thereof, for the fiscal year ending June 30, 1887, and for other purposes

Mr. DAWES. I ask that that bill be laid before the Senate at this

The PRESIDING OFFICER. The Senator from Tennessee has the

Mr. WHITTHORNE. I yield. The PRESIDING OFFICER. The Chair lays before the Senate the bill (H. R. 9798) making appropriations for fortifications and other works of defense, and for the armament thereof, for the fiscal year ending June 30, 1887, and for other purposes.

Mr. DAWES. I move that the Senate insist on its amendments to

the bill and ask a conference with the House on the disagreeing votes.

The motion was agreed to.

By unanimous consent, the presiding officer was authorized to appoint the conferees on the part of the Senate; and Mr. DAWES, Mr. PLUMB, and Mr. GORMAN were appointed.

MARY J. NOTTAGE-VETO MESSAGE.

The Senate resumed the consideration of the bill (S. 2005) granting a pension to Mary J. Nottage, returned by the President of the United States with his objections.

Mr. WHITTHORNE. Mr. President, one thing I have been grati-

fied with, that the acting chairman of the Committee on Pensions has this morning in addressing the Senate on the subject-matter now pend-

ing avoided crimination and recrimination.

Looking at the question whether we shall approve the reasons given by the President of the United States in making known to the Senate, in which it originated, his objections to the pending bill, I have to say that I believe the Committee on Pensions, during the short acquaintance I have had with it, has been actuated by a single desire to do its duty

alike to the country and to the applicants for pensions.

I may add that I believe for that committee that it is moved, as I believe every man ought to be moved, by his sympathy for the unfortunate, for the widow and for the orphan; but I should be unjust to everybody if I did not say that standing as we do as members of that committee, so likely to be moved by our sympathies, so easily approached by those who know how to move us, and the committee being composed of a large number there is more or less of divided responsibility, and then knowing as we all must know how liable it is on the part of humanity to err, it is not to be wondered at that with this divided responsibility, with our liability to yield to sympathetic appeals, mistakes shall be more or less committed. Possibly if the responsibility was lodged on each one there would not be the same liability to error or mistake.

Mr. President, in the consideration of a Presidential veto it is right and proper that honesty and correctness of motive shall be allowed upon either side; and no case presents itself, at least to my mind, which better illustrates this than the pending case. I am frank to say to the Senate that in my own judgment upon the face of the case it is one of merit. I was not a member of the committee when the bill passed this body. I was not a member of this body at the time. I came therefore to look at it myself without any prejudice, and I make the frank admission that on the face of it the case is not without merit; and yet when I come to look at the President's veto and to examine the President's collation and marshaling of the facts I am, as a just man, in my own opinion at least, bound to say, I am compelled to say, that the objections made by the President are well founded. What are they?

Before I go to that may I turn back for a moment to notice the ar-

gument made by the Senator from Connecticut [Mr. PLATT] that the President is violating his privileges and prerogatives as conferred by the Constitution when upon a mere question of fact—I shall so put it—he places his judgment against that of this body. That can not be so. The history of the veto power is the history of our country. For years in the public opinion of the country there was waged a contest over the construction of this prerogative of the President such as belongs to only one other provision of the Constitution. In that contest were enlisted the best applied to the provision of the constitution of the contest were enlisted. the best political talent and wisdom of that age, in which it is said the giant statesmen of the country flourished. It was in the days of Webster, Calhoun, Clay, and others, and upon popular appeals after that contest, commenced in the year 1832 and running down to 1844, the popular judgment and verdict was in favor of a large and liberal discretion on the part of the Executive in the exercise of this power, and since that day that judgment of the country unappealed from stands as

the judgment of all parties.

I might retort to the Senator from Connecticut and point to him, if I spoke in the spirit of a partisan, that possibly the greatest exercise of this power in mere special matters, individual matters, by any other President than the present one was by him who has been as largely enshrined in the affections of his countrymen as any other President we have ever had, to wit, General Grant. To be sure, hitherto in the history of our country the veto power has only been exercised upon theoretical propositions or political questions; but in the history of the country there has been very little of special and individual legislation. Special and individual legislation is largely the result of the last few years; and, sir, may I not appeal to United States Senators here to-day if they will not agree with me that the great danger to popular institutions is the increase of special legislation, or job legislation, or individual profit secured by legislation that has permeated the municipal bodies of the country, running from the town corporation up to the Congress of the United These special individual matters, in their corrupting influences, are destroying the confidence of the people in a popular form of government. To-day, if I had no other credit to give to President Cleveland, I have this, that he knows and realizes this great danger to our popular form of government, and that he has the nerve, the courage, and the wisdom to grapple with it, although it come in this insidious, appeal-

But, says the Senator from Connecticut, in his construction for himself individually of this clause of the Constitution the President is not a part of the legislative power of the Government. Possibly the form in which the Senator puts it is not subject to criticism; but I submit that before any proposition of the Congress of the United States can become a law it must have the approval of the President, and in that act of approval the very act itself makes him a part of the legislative

power of the Government.

But, says the Senator from Connecticut, he ought not to exercise any discretion in mere matters of fact or detail, though the Constitution says if he approves a bill he, the President, shall sign it. My friend from Connecticut would say if he shall not approve it he shall sign it also. If his construction is to be taken as the correct one, why have any check? Why this conservative power that represents the great body of the people as against sections, as against localities, and as against States? Why have this check at all in the Government? Sir, the wisdom of our fathers was such as to provoke to this day the admiration and devotion of men of all nations who are friends of popular rights and constitutional liberty.

With these remarks, I come simply to refer for a moment to the facts involved in this case. I have said I frankly admit it is one of merit. Now note for a moment the objections of the President:

The beneficiary named in this bill is the widow of Thomas Nottage, who enlisted in August, 1861, and was discharged for disability September 17, 1862.

He died of consumption January 8, 1879, nearly seventeen years after his discharge, without ever having made any application for a pension.

For what was he discharged? Says his certificate of discharge in September, 1862, "disease of the urinary organs," and he died sixteen years afterward of consumption. I appeal to the experience and knowledge of every gentleman and his reading if that soldier had died of diabetes or gravel there might have been some necessary connection with the cause of his discharge.

Mr. BLAIR. At a convenient time on this point I wish to ask the

Senator a question.

Mr. WHITTHORNE. Do not interrupt me now. He was discharged in 1862 and died of consumption sixteen years afterward. When did a physician see him? Eleven years afterward. No physician was called to see this soldier until 1873. If a disease so fatal in its character had been his enemy in 1862 would he have slept for eleven years without making its appearance known? If the cause was what my friend from making its appearance known? If the cause was what my friend from New Hampshire will refer to, a statement on the part of his captain that every time he called upon him he was complaining. Complaining of what? During what years? If you want to follow from cause to effect, trace it step by step, but do not make a slip of eleven years at a time. What more? For sixteen years this soldier was living himself. If he had been suffering as gentlemen would argue to-day, why is it that the soldier himself did not apply for a pension? The patriarch of old served seven years to get a wife. Here sixteen years aleased and this

served seven years to get a wife. Here sixteen years elapsed, and this gentleman does not apply for a pension, and it is only after his death that the application is made, and that by his widow.

Mr. BLAIR. I do not want to interrupt the Senator's statement of facts, but I wish to call his attention and that of the Senate to a point which I discussed in my report, and which I think it may be well to call the Senator's attention to, and that is this: He seems to be reasoning that because the soldier at the time of his discharge was suffering from one disease and he died from something else, the connection must be made in proof between the difficulty for which he was discharged and the cause of death.

I expressly passed over and arranged the testimony with reference to that. He had swamp fever, he had the remittent fever, he had the

piles, he had kidney complaint, all these diseases, although they are not named in his discharge. Nevertheless the evidence shows that he contracted them in the service and that they pursued him and that they broke him down and that they drove him to consumption. It is not necessary to establish the connection between the consumption which killed him and the gravel with which he suffered at the time when he was discharged.

Mr. WHITTHORNE. Mr. President, it would strike the expert and the inexpert mind the same way I take it.

In 1880 his widow made an application for pension, alleging that he contracted in the service "malarial poisoning, causing remittent fever, piles, general debility, consumption, and death."

Mr. BLAIR. It does not say that he was discharged for those, but that he contracted them in the service.

Mr. WHITTHORNE. The discharge was for "disease of the urinary

organs."
Mr. BLAIR. That was what he suffered from at that particular time.

Mr. WHITTHORNE. Now, the proof by ex parte affidavits is that "somewhere in South Carolina while in the service he was heard to complain, after having stood on picket duty, of debility." No physician testifies to it. That was in 1862. Some comrade heard him complain. I take it for granted that the Senator from New Hampshire is familiar with the facts; but such a statement, unless backed by the statement of the surgeon, does not go for a great deal, particularly when a man is on hard duty. Then after he returned home among his friends, among his relatives, with physicians near him, it was eleven years before any physician was called to see him. After that, if you will observe his physician's statement, the disease of which he died made its first appearance a year or two after the physician had been called to see him. been called to see him.

I submit without arguing this case or without arguing the facts of all the cases presented here, that the reasons presented by the President are of sufficient character and weight-first, to attest the fidelity of the President; second, to attest his sound discretion in weighing the facts presented in the various cases. Take the great volume of cases approved by the President and it demonstrates his sympathy with the soldier. I can say for myself, and I think I may state for every one upon this floor, that the true soldier of the country, no matter where he is to be found, as long as he lives, is the object of our admiration, and when he dies his widow and dependent ones are the objects of our care, attention, and sympathy. Wherever their needs are demonstrated, I know I can speak for myself, and I believe I can speak for all others, when I say that the case shall receive our aid and assistance.

Mr. TELLER. Mr. President, the Government of the United States

is a constitutional Government, with the powers and duties of the several departments thereof clearly defined. There ought to be no real difficulty in determining the province of each department of Govern-

The legislative powers, with all that the term legislative implies, has been intrusted to Congress.

The executive power to the President.

The judicial, to the judges of the Supreme and other courts created

Each department is supreme in the exercise of the duties imposed on it by the Constitution. If there is any control by one department of Government with another, or mixing of powers, it is provided for by the Constitution, and such control or joint exercise of powers must be in the manner provided for by the Constitution and limited to the case mentioned in that instrument.

The framers of our Constitution saw fit to impose on the President the duty of executing the laws; and in order that he might discharge the duty thus imposed on him he was given the power to appoint his officers or agents, by whose hands he was to execute the laws, subject only to the approval of the Senate of the United States.

The duty of legislating for the country was imposed on Congress, subject only to the disapproval of the Executive.

It has been said that the approval or disapproval of a bill on the part of the President of the United States is the exercise of a legislative. function.

The Constitution declares that "all legislative power herein granted shall be vested in a Congress, which shall consist of a Senate and House of Representatives." (Section 1, Article I.)

If approving or withholding approval is a legislative function, it is not of the same character as that exercised by the Congress when it

passes a bill:

There is high authority for the statement that approval or disapproval is the exercise of a legislative function, and yet it can hardly be said that the legislative power of the Government is vested in Congress and the President. It is evident that the framers of the Constitution did not intend to vest legislative power in the President, or they would not have, ex industria, confined such power to Congress.

If the withholding approval to a bill is the exercise of a legislative function, the Executive is clothed with two-thirds of the legislative power of the United States, which the Constitution declares is vested

in Congress.

It will hardly be claimed by any one that the veto power was given to the President to clothe him with legislative authority; certainly not an authority equal to the two-third vote of both House

The President is not the direct representative of the people, but of the States. He has received his position from the electoral colleges of The act of the college is not the act of the people in their

representative capacity, but the act of a sovereign State.

The House of Representatives is the confessed, recognized, and acknowledged representative of the popular will; and it can not be believed that the founders of our Government, with their jealousy of the one-man power, intended to clothe the Executive with legislative power equal to two-thirds of the representation of the people in the House of Representatives, and two-thirds of the representation of the States in the Senate.

The framers of the Constitution, recognizing the tendency of the legislative department of the Government to encroach on the executive

department, provided a qualified veto for the Executive. It was not suggested that such power was necessary to secure wise legislation, but that it was necessary to prevent encroachment on the executive department, and to hold in check the legislative department in time of public excitement, and in case that the proposed legislation should be thought by the President in violation of the Constitution or a fundamental principle of government.

The power thus given to the Executive is a shield and not a sword. It is a negative power. It is not to create, but to destroy the work of If he withholds his assent or approval, and does nothing more, the bill becomes a law without further action of Congress or the President, "unless Congress by their adjournment prevents its return,

in which case it shall not be a law."

The President is required by the Constitution to "give Congress information concerning the state of the country, and to recommend to their consideration such measures as he shall judge necessary and ex-He shall take care that the laws are faithfully expedient. ecuted." There is no legislative function in this.

Congress is declared in section 1, article 1, to possess all the legislative

power granted in the Constitution.

In section 8 of article 1 the powers of Congress are declared in de-

Such power can only be exercised in form of bills, resolutions, or orders; and all are subject to the disapproval of the Executive if he

chooses to exercise such power.

The language of the Constitution is broad enough to authorize the Executive to veto all bills, orders, votes, and resolutions that Congress may pass, yet in so doing the Executive does not exercise a legislative function, but a function especially imposed on him by the Constitu-

It was maintained by those opposed to the adoption of the Constitution that this was power that would become dangerous in the hands of one man. It was said, on the other hand, that such power was essential to the preservation of the Executive and necessary to prevent the encroachment of the legislative branch of the Government on the executive.

It was said this power would only be used in extreme cases; in case of doubt in the mind of the Executive as to the constitutionality of the proposed law; in case of hasty and dangerous legislation; on great and extraordinary occasions; and such appears to have been the opinion of the early Presidents, who rarely used the veto power, and some of them

not at all.

Between 1789 and 1885 the veto power had been exercised only one hundred and nine times, making an average of only about one a year. Since that time I believe the veto power has been exercised over one hundred times. That its exercise is sometimes demanded can not be questioned. It is a constitutional function, and, whether we call it legislative or executive, it belongs to the President, and he is responsible alone for the proper exercise of the power.

Story, in his work on the Constitution, speaking of the exercise of

the veto power, says:

The truth is, as has been hinted, the real danger is the Executive will use the power too rarely. He will do it only on extraordinary occasions, when a just regard to the public safety or public interest or a constitutional obligation or necessity of maintaining the appropriate rights and prerogatives of his office compels him to the step, and then it will be a solemn appeal to the people themselves from their own representatives. (Section 887.)

Hamilton, speaking of the apprehended danger of the too frequent exercise of the veto power, said:

The superior weight and influence of the legislative body in a free government and the hazard to the executive in a trial of strength with that body afford a satisfactory security that the negative would generally be employed with great caution; and that in its exercise there would oftener be room for a charge of timidity than of rashness.

A king of Great Britain, with all his train of sovereign attributes, and with all the influence be draws from a thousand sources, would, at this day, hesitate to put a negative upon the joint resolutions of the two houses of Parliament. He would not fail to exert the utmost resources of that influence to strangle a measure disagreeble to him in its progress to the throne, to avoid being reduced to the dilemma of permitting it to take effect, or of risking the displeasure of the nation by an opposition to the sense of the legislative body. Nor is it probable that he would ultimately venture to exert his prerogative but in a case of manifest propriety or extreme necessity. All well-informed men in that kingdom will accede to the justness of this remark. A very considerable period has elapsed since the negative of the Crown has been exercised.

If a magistrate so powerful and so well fortified as a British monarch would have soruples about the exercise of the power under consideration, how much greater caution may be reasonably expected in a President of the United States clothed for the short period of four years with the executive authority of a government wholly and purely republican?

It is evident that there would be greater danger of his not using his power when necessary than of his using it too often or too much. An argument, indeed, against its expediency has been drawn from this very source. It has been represented on this account as a power odious in appearance, uscless in practice. But it will not follow that because it might rarely it would never be exercised. In the case for which, it is chiefly designed, that of an immediate attack upon the constitutional rights of the Executive, or in a case in which the public good was evidently and palpably sacrificed, a man of tolerable firmness would avail himself of his constitutional means of defense, and would listen to the admonitions of duty and responsibility.

No English sovereign has ventured to exercise the veto power since 1707, a period of one hundred and seventy-nine years.

There has been much controversy over the exercise of the veto power, and the greatest men of our history have added to our stock of knowledge on this question. I think I may say without exaggeration all have contended that it was a power to be exercised only in exceptional cases. It is true Calhoun declared the exercise of such power was a legislative function, yet he condemned its use except in extreme cases. Not a man of all the number of great men who have discussed this question in the House and Senate or the public forum but has united in the declaration that the veto power was a power to be exercised only on great and extraordinary occasions, only to defeat unconstitutional or otherwise bad legislation, and that such exercise was to be a solemn appeal to the people of the United States by the Executive from the act of their chosen representatives—an appeal so solemn that Washington exercised the veto power but twice in eight years; John Adams, not at all; Jefferson in his eight years had no occasion for its use; Madison exercised it six times, and Monroe once; John Quincy Adams, not at all; Andrew Jackson only eight times; Martin Van Buren, not at all; Tyler, with his continued struggle with the legislative department of the Government, but nine times, and James K. Polk but three times; Abraham Lincoln, but once.

Surely these early Presidents did not consider it their duty to controvert questions of fact with Congress; did not attempt to control by the exercise of the veto power that discretion that must be conceded to the legislative department of the Government, if it is to legislate with that independence that is absolutely necessary to proper action.

Investigation by committees, discussion, and deliberation are essential

to successful legislation. Congress may give weeks and months to such investigation, discussion, and deliberation to find its determination of facts and its settled determination of policies destroyed by the action of the President, who at best can have but scanty opportunity to consider the bill within the ten days given for consideration.

If he is to be equal to two-thirds of the Legislature in legislative function, greater opportunity ought to be given to him to examine and de-liberate on the bill before he must return it with his reasons than is possible within the limited time provided for in the Constitution.

Many of the great and renowned men of history have expressed fears that the Executive might override and control Congress by means of

official patronage.

What would these great man have said if they had been told that to this great engine of power and corruption—patronage—there should be added absolute control over the legislation of the country, save as that might be resisted by two-thirds of each House of Congress acting separately on the President's vetoes; that until two-thirds of the House of Representatives and two-thirds of the Senate could be induced to disagree with the Executive all legislation was under his control.

Patronage is still left to the Executive. It may be used to prevent the concurrence of the two Houses, and thus place in the hands of the Executive not only all the power to preserve to himself his patronage

but to dictate what laws shall be passed.

It is true that the exercise of the veto power does not put statutes on the statute-books, but if it is understood that all bills must undergo the scrutiny of the President, not only as to their constitutionality but as to their general policies, there will be but few bills passed that it is not understood before passage will receive his sanction.

Is there danger to representative governments in the exercise of the veto power? I think not, if exercised in the spirit and in accordance

with the Constitution as understood and expounded by the fathers of

the Republic.

If the Executive follows the precedents of the early Presidents, and only exercises the power in extraordinary occasions to prevent extraor-dinary legislation, there will be no real interference with legislative departments of the Government.

But if the President insists that it is his duty to pass on the merits of all bills, determining for himself questions of policies and discretion heretofore in practice left to Congress, there is danger that the will of the Executive will be substituted for the judgment of Congress.

That this can not advance the cause of good government can be readily seen, and no argument can make the case stronger than the mere statement of the facts that it will be the will and judgment of one man, overburdened with executive duties, as against the judgment of the House and Senate, charged by the Constitution with the exercise of all regislative powers.

Can it be possible that the people of the United States will be satisfied with the judgment of one man, and that his judgment must be final, unless that judgment is disapproved by the concurrent action of two-thirds of both branches of the National Legislature?

It is true it is but a negative power the President exercises, but it prevents the majority of the representatives of the people and States from putting into law the principles and ideas advocated and demanded by the people themselves. If such claim is made by the executive department of the Government, and an attempt is made by the executive department of the Government, and an attempt is made to exercise the power in accordance with the claim, the people will demand a change in the Constitution, and that the executive department of government be restricted to the exercise of the veto power in the exceptional and extraordinary cases heretofore recognized as the only cases in which the President should exercise so dangerous a power.

The people of the United States are not apt to be alarmed at trifles. They feel secure in their position as free men, and are attached to the idea of self-government, and at first they may not resist encroachments by the executive department of the Government on the legislative department, and may not realize the danger in the assumption of control over this branch of the Government by the Executive; but they are not slow to learn, and are jealous of their rights and deadly hostile to the "one-man power," and they will not be slow to resist such inter-

ference when it is fairly called to their attention.

He must be strongly entrenched in the confidence and affection of the people who can arrogate to himself such extraordinary powers without the most unequivocal constitutional authority for such a claim.

It is doubtful whether in the history of our country any man has ap-

peared who has been capable of maintaining and enforcing such claim; and it is late now, after nearly one hundred years under the Constitution, for such a claim to be made with success.

Other Presidents have exercised the veto power, but no one has claimed the right to exercise it to the extent now claimed by the pres-

ent Executive.

It is becoming and proper that, in the several Departments of the Government, in the discharge of duties provided for by the Constitu-tion, they should not invade the functions of any other Department; and it is equally becoming and proper that the discharge of such duties must, so far as it is possible, be without criticism or disparagement of other Departments of Government.

Congress is not responsible to the Executive, and he has no power over Congress, except as it is specifically given him in the Constitution. It is in no sense a subordinate branch of the Government, and it is not in the province of the Executive to dictate or control legislative action, except through the veto power. He ought not to criticise or condemn Congress, only so far as may be necessary in giving his reasons why he disapproves a bill.

As I have before said, each branch of Government is supreme in the

discharge of the duties conferred to it by the Constitution.

The House of Representatives may, for what appears to it proper cause, prefer articles of impeachment and the Senate may try the Executive on such articles. This, however, does not make the Executive subordinate to the House and Senate; each is independent in its sphere.

The President appears to suppose that if a member of Congress he should think it his duty to withhold his vote for a bill, that it is his

duty to veto the same when it comes to him. He says:

From the information furnished me, I am convinced that the difficulty alleged by this applicant had its origin in causes existing prior to his enlistment, and that his present condition of disability is not the result of his service in the Army. (Senate bill, 1253.)

Again he says:

The facts here presented come so far short of furnishing a satisfactory excuse for his delay that, in my judgment, the discrimination asked in his favor should not be granted. (Senate bill, 153.)

Considering that the injury complained of is merely a dislocation of the shoulder, and in view of the other facts developed in the case, I think the Pension Bureau arrived at a correct conclusion when this claim was rejected. (Senate bill, 789.)

Again he says:

Again he says:

His continued performance of military duty after he incurred this infirmity, the fact that he made no claim for pension on that account until twenty years had passed, and the unsatisfactory evidence now produced to support his allegation tend to induce the suspicion that the decision of the Pension Bureau was entirely just, and that this bill is not based upon substantial merits.

I find nothing in the facts presented to me which, in my opinion, justifies the reversal of the judgment of the bureau and the Secretary of the Interior. (House bill 1707.)

I am of the opinion that a correct conclusion was reached when the application for pension in this case was denied by the Pension Bureau. (Senate bill 1288.)

I am not prepared either to gratuitously set at naught two determinations of the Pension Bureau, one very lately made, after a special examination—and especially when the evidence produced before the committee to reverse the bureau's action is admitted to be "contradictory" and "biased in about equal proportion for and against the claimant." (Senate bill 1726.)

I am entirely satisfied with the rejection of this claim by the Pension Bureau. (House bill 7401.)

(House bill 7401.)

I concur in the judgment of the Pension Bureau which rejected for pension on the ground that "the death of the soldier was not due to his military service." (House bill 7162.)

This claim was rejected by the Pension Bureau, and I have no doubt of the correctness of its determination. (House bill 6688.)

I can hardly see how the Pension Bureau could arrive at any conclusion ex-

cept that the death of the soldier was not due to his military service, and the acceptance of this finding, after an examination of the facts, leads me to disapprove this bill. (House bill 2043.)

It is very clear to me that the Pension Bureau properly rejected the widow's claim for pension for the reason that the soldier was not in the line of duty at the date of his death. It is also impossible to connect the death with any incident of the soldier's military service.

It will be seen from the foregoing that if the President is satisfied with the action of the Pension Bureau he vetoes the bill.

And it will be seen from the following that the President is not in favor of extending the power of the existing laws to take other and different classes of disabled soldiers, for he says:

The passage of this law would in my opinion establish a precedent so far-reaching, and open the door to such a vast multitude of claims not on principle within our present pension laws, that I am constrained to disapprove the bill under consideration. (House bill 539).

Why disapprove of it? Congress has the power to declare by law

who and in what manner soldiers shall be pensioned.

It is well known that the Commissioner of Pensions does not personally pass on the claims of the applicants for pension. It is impossible that he should. It is his duty to direct the general course of the business in that office. He lays down general rules for the government of his force, and the actual determination of the merits of applicants' claims is left to the clerks of that bureau, acting under the general line of policy and the rules declared by the Commissioner; so the determination of the Pension Bureau is not actually the determination of the Commissioner.

When we reflect on a well-known fact that the employes of the bureau are not, as a general thing, men trained especially for the work in hand, and are in but a few cases fitted by their education and training to determine questions of fact or law, we need not wonder that very many cases are determined in a way to do great injustice to the claimants or

the Government.

It does not reflect on the Pension Bureau that a committee of Congress should come to a different conclusion from that arrived at by that bureau, or that Congress, not disapproving the action of the Pension Bureau, but accepting its judgment as a final disposition of the case under existing laws, should by special act give the applicant that which he has failed to secure under existing law through the Pension Bureau.

Such Congressional action is in no sense a review or a reversal of the

Pension Bureau.

The President in a great number of his vetoes expresses his satisfaction and approval of the action of the Pension Bureau. Why should not the President be satisfied with the action of the Commissioner of Pensions, for the action of the Commissioner is the action of the President, and, therefore, when the President affirms the finding of the Pension Bureau he only says in substance, I have examined this case through my proper officer, and I am satisfied with his conduct in the premises

But is Congress to have no opinion in a matter purely one of legis-

lation?

Is Congress estopped by the determination of the Commissioner of Pensions because the Executive especially signifies his approval of such determination?

The granting of pensions by Congress in special bills is not, and has not heretofore been understood to be, a reversal of the action of the Pension Bureau. If the applicant falls within the provisions of the statutes he is left to make his case in the Pension Bureau, unless it is impossible for him to do so because of technical difficulty in the proof.

If his case appears to be a deserving one and yet not within the statutes, or he may be unable to make proof, Congress by special bill may dispense with the lack of proof or declare the case to fall within the

law made for that particular ease.

Under the general law a soldier not mustered at the time of incurring the disability can not be allowed a pension by the Pension Bureau, but as Congress might by general law declare all soldiers disabled while serving in the Army should be entitled to a pension, even if they had not been mustered, it will hardly be contended that it may not declare that such shall be the law for the particular case.

The soldier to entitle him to a pension under existing law must have been disabled in the line of duty. It is certainly in the power of Congress to say that all disabled soldiers may be pensioned, whether their disabilities were incurred in the line of duty or not. If it can do that for all soldiers it may for one, if the service of the soldier, his condition, or the circumstances under which his disability was incurred convinces Congress that it is a proper thing to do.

If the soldier's case falls within the provision of the statutes as to disability and proof, Congress need not interfere by special bill; and it is not a proper reason for the Executive to give that he returns the bill because the soldier is not entitled to a pension under the existing laws. It is because he is not entitled under existing laws that he applies to Congress for special relief. To say that Congress can not in such a case great relief is to deny to Congress in a pension case what it is admits grant relief is to deny to Congress in a pension case what it is admitted it may do in all other cases. It is also to deny to Congress the exercise of a power frequently exercised from the commencement of the Government to the present time with reference to pensions.

I do not understand the President denies the power of Congress to grant special pensions, but he asserts that he is to be the judge whether

the services of the soldier are such as to merit such a favor. He asserts that it is for him to determine whether the applicant is disabled or not; and if disabled, whether he received such disability in the line of duty In a word, all questions of law and fact decided by Congres as well as Congressional discretion, must be reviewed by him; and that if he differs with Congress as to law, fact, or discretion, he will veto the bill. "For," he says, "I am satisfied there is not a particle of merit in this claim, and no facts are presented to me which entitle it to charitable consideration." (Senate bill 1192.)

If the President is to pass on all questions of fact, questions of law, and supervise the discretionary power of Congress with reference to a pension, why not in all cases of legislation? Surely there is nothing in a pension case different from the many other questions presented for the action of Congress. Shall we have a liberal general law in dealing with our disabled soldiers; or shall we have a hard, harsh law, full of difficulties and technicalities? That is a question surely for Congress. Shall we give to the soldier, disabled in the public service, sufficient to keep him from the poor-house; or shall we give him a mere pittance on which he will be unable to-live, is a question for Congress and not

for the Executive.

Shall dependent father and mother, deprived of the care of their sons, be cared for by Government, or neglected, is not a question for the Ex-

ecutive but for Congres

If it is true as to this class of legislation, it is as to all. that the President of the United States may supervise the action of Congress in this class of cases is to allow him to do it in all others, and to put the will and judgment of one man against two-thirds of the repto put the will and judgment of one man against two-thirds of the representatives of the people and the States. If this is allowed Congress will sit to register the decrees of the Executive. The Executive has sufficient power with the immense influence his position gives him. He has social position; public favors to bestow. The Executive of sixty millions of people will not be without great influence and control over Congress, and if to that we add the right to use and the consent that he do use the veto power to the extent indicated by the President's vetoes, the whole theory of representative government will be changed; or, I should say, will be at an end.

It may be said that no great danger can come to the country by the

veto of a few hundred private pension bills. That is true; and it is not contended that great harm will be done in that direction, but the danger lies in the assumption by the President of a power that may, when freely exercised, set at naught the will of the people as expressed

through their constituted agency.

It is no answer to the objection of the assumption of power to say that it is exercised only in cases of minor importance, and that because of the insignificance of the consequences that must follow such exercise, no danger need be apprehended. If the President may supervise the discretion of Congress in a matter of no importance, he may do the same in the most important legislation. In fact, the most alarming feature of this exercise of power, heretofore exercised with great caution and only in matters of the gravest character, is the fact that the President exercises this power in matters of trifling importance. Other Presidents appeared to think it was a power given to be used only where danger might come to the Republic by the legislation proposed, either because the proposed legislation was a violation of fundamental law or some great principle of government, and that the exercise of the veto power was necessary to the welfare of the people.

The President of the United States is charged with great duties, all clearly defined in the Constitution of the United States. It is his duty to call the attention of Congress to the needs and demands of the peo ple. He must inform Congress of the condition of the country as well as its wants. He is charged with direction of our relations with other rations; he must make and submit to the Senate treaties concerning in-tercourse and trade with all the world. He must receive embassadors and other foreign ministers, and see that the laws of the United States are executed. All this involves labor beyond the strength of one man; and much of this he must do by his Cabinet and other officials.

All these matters are of great importance; worthy of the attention of

the greatest and best. How can he do all this and attend also to this branch of the public service, intrusted by the Constitution to the House of Representatives and the Senate?

It was never intended that the President should review the action of Congress as an appellant court reviews the findings of an inferior court. It certainly can not be supposed that the President is charged with the duty of investigating the action of Congress and determining the question whether Congress did or did not err in a question of fact necessary to be determined as the first step in legislation. The utter interacticability of the President's doing this in an intelligent and satisfactory manner can at once be seen. If the President attempts this it must manner can at once be seen. If the President attempts this it must be admitted that he must do it in person. It would not comport with the high character of the function he is performing to allow it to be done by a subordinate. He certainly should not leave a matter of so much importance and delicacy to be performed by a clerk or a subordinate of any degree.

The relation that ought to exist between the President and the coordinate branches of the Government would preclude the idea that such action could be reviewed by any one save the President himself. To

do this in all cases, important and unimportant, is an impossibility; and in some cases the character of the work would be of so little importance compared with the greater cases presented to the President for his consideration that it would appear to be folly to attempt it.

The founders of our Government did not intend he should do that.

It was supposed the President would devote himself to the great matters of public interest, and that matters clearly intrusted to him would

occupy all his time.

The Romans had a maxim: Aquila non capit muscas—An eagle doos not catch flies. The President of the United States spending his time on the facts in a pension case, endeavoring to ascertain whether Congress had determined the facts correctly or not, involving \$8 a month, is very like an eagle catching flies. "Trifles ought not to engage the attention of kings." Eagles should have bigger prey than flies.

Questions of fact necessary to be determined in a pension case not infrequently require the skill of the medical fraternity, and are more

likely to be correctly determined by a doctor than a statesman.

As I have before said, the great and important interests intrusted by

the Constitution and laws to the charge and control of the Executive, as well as the many questions which he must of necessity make himself familiar with, precludes the possibility of the Executive giving his attention to the minor details of legislation; and the people neither demand nor expect that he will attempt this, or spend his time in determining questions that a doctor receiving \$1,800 a year is better qualified to determine than he.

Important as the question may be to the claimant for a pension, the people will hardly be satisfied that the Executive of sixty million of people shall spend his time to determine the pathological connection between chronic diarrhea and sore eyes, even if they shall be satisfied

that his conclusions are correct.

A President should find enough to engage his attention without attempting to correct errors of fact of a co-ordinate branch of the Government in a matter involving less than \$100 a year.

If these reviews and revisions were in the interest of an honest administration of Government, to prevent the robbery of the public Treasury or to compel the observance of good faith on the part of the Government, there would be no complaint; but when the great affairs of State go unattended, when our foreign commerce receives little or no notice from the Executive, when our hardy fishermen on our northern coast are insulted and plundered by a neighboring nation with scarcely a passing remark from the Executive office, our financial affairs in a deplorable condition and intrusted to a bank clerk, that the President may raise an issue with Congress on a question whether a soldier did or did not receive his disability in the line of duty, or whether he was sound or unsound when the Government accepted and received his services in its great war, the people have just cause of complaint.

The people are slow to complain of their Chief Magistrate. resents the sovereignty of the people as well as the States. No matter who he may be, nor of what political party, for the time being he is entitled to and receives the respectful consideration of all the people; and if the respect that they owe to the Chief Magistrate has induced silence on their part, it will be ultimately discovered that they do not want

their cagle to spend his time catching flies.

But does the President give to these vetoes of small pensions to our disabled soldiers his personal attention? Does he attempt to ascertain Does he attempt to ascertain by a personal examination of the proofs before the committees of the House and Senate before he determines the question that must have been determined in the affirmative by the committees of Congress be-

fore the bills could pass?

It is said that the committees are the eyes and ears of Congress. is through that source that facts are brought in an official way to Con-Who performs this service for the Executive? We know as a matter of fact that the President does not give his personal attention to these bills. As I have said, it is physically impossible he should do so. If he attempts it in one case he must in all. If one applicant do so. If he attempts it in one case he must in all. If one applicant for special relief receives the attention of the Executive in the consideration of his claim, it is but just and fair that all others should. This he can not do, even if he should devote himself, as it is claimed he does, on the Fourth of July and other holidays to the examination of these bills

The committees of Congress charged with the examination of these ases call on the Pension Bureau for the evidence filed in that bureau. Such evidence is transmitted to the committees. The applicant files such other evidence as he can get and all the evidence that can be produced. The committees act, and when the bill passes one House the evidence is sent to the committee of the other House, and when the bill is ready to go to the President the evidence received from the Pension Bureau, and that only, is returned to that office. Whatever may have been before the committee not received from the Pension Bureau is not sent. When the President receives the bills he sends them to the Secretary of the Interior, and he to the Commissioner of Pensions, for examination.

Heretofore it has been the practice of the Department of the Interior to examine only as to the form of the bill to ascertain whether it would or would not secure to the soldier what Congress by the bill evidently intended he should have. If correct in form it was sent back for executive approval. The practice now is to submit the bill to clerical inspection in the Pension Bureau, and a clerk makes up a synopsis of the evidence in that bureau, which, with such remarks as he chooses to make, is transmitted to the President with the bill. Thus it appears that the discretion and judgment of Congress is subject to the review of an inferior clerk in a bureau of the Government. It may be that the very clerk who has in the first instance examined and rejected the claim for pension passes on the question whether Congress ought or ought not to have granted a pension.

Many of the cases contain a large amount of evidence contradictory in character, requiring much time and patience to sift the truth from the abundance of material which must be examined.

The clerk being informed of the former action of the bureau, even if he has had nothing himself to do with it, can readily, and in most cases will, without intending so to do, color the character of the synopsis so as to give the President an impression not warranted by the facts

It is apparent by an examination of the several vetoes sent to Congress that either the committees and Congress have been in error as to condition of the soldier, the service rendered, and all the material facts necessary and proper to consider in determining whether the relief should be granted or not, or the President has been in error.

Congress can quite as correctly determine what the facts are in a case as the Executive, and it by no means follows because the President vetoes the bill and asserts a different state of facts from that stated by the committee in its report to Congress that the President is right and

the committees and Congress wrong.

An issue of fact is at once raised between the Executive and Congress. Who is to be the final arbitrator? It must be apparent to all that such a condition of affairs ought not to be brought lightly about. Such differences between co-ordinate branches of the Government are not calculated to promote that harmonious relation between co-ordinate branches of the Government indispensable to good government.

If such differences must arise they should only arise in matters of great importance and when they can not be avoided without great det-

riment to the public service.

Fortunately in our history controversies of this character have rarely ever occurred, and then only concerning matters of great public in-

If the President has doubts about a bill presented for his approval he should submit it to his Cabinet; and I doubt whether any of his illustrious predecessors ever sent a veto message to Congress that had not been submitted to his Cabinet. I hardly think from the insignificance of the sums involved, as well as the character of some of the messages transmitting these vetoes, that this rule has been observed in reference to recent vetoes.

Insinuations in the veto messages of the soldier's lack of soldierly qualities, a charge that his application was a scheme to rob the public Treasury, would seem to be out of place in a case where Congress had declared that there was sufficient merit to justify the special interposi-

tion of Congress making provision for his relief.

Justice to the applicant who was a soldier (whether he is entitled to a pension or not) should deter the Executive from speaking lightly of his service or sneeringly of his wounds or disabilities. It is bad enough that a soldier who has served his country and who believes he is entitled to a pension should be refused that boon without accompanying such refusal with insult and contumely. Accident, partiality, or good fortune may elevate one man to high public station, while another with equal merit may remain in the humblest obscurity. The difference is one of station and not of worth.

Official elevation adds nothing of value to head or heart; and all offi-

cial declarations of and concerning the great and respectable class of people who hold no official position should be couched in language implying no inferiority or lack of moral worth in them.

Great injustice may be and doubtless has been done to worthy and deserving men, whose only crime appears to be in believing that service in the Army of the United States entitles them to receive a pension from the Government that they faithfully served, by the harsh language from the Government that they faithfully served, by the harsh language of the President in reply to these claimants suffering with disease and disability that at least they claim were received in the service of the Government. They are entitled to courtesy and kindness at the hands of every Department of Government. If they must continue in want and distress they at least ought not to be subjected to insults and contumely at the hands of the officials of the Government that they did their part to save and preserve.

Contumely and reproach ought not to be heaped on them until there is better evidence of their misconduct than is afforded to the President by the examination of a clerk in the Pension Office or a special

examiner in the field.

I do not think it can be said that there has been reckless legislation concerning pensions; certainly not beyond the ability of the Government to meet. With an overflowing Treasury, with an income greatly beyond the needs of the Government, there ought to be no complaint about lavish expenditures in the interest of our sick and disabled soldiers, their widows or orphans.

The Government receives every week-day over a million of dollars,

more than \$40,000 each hour. Every minute of time during the three hundred and thirteen working days of the year there drops into the coffers of the Government nearly enough to pay the pensions of ninety private soldiers for a month, and had the President signed all the bills passed during the Forty-ninth Congress granting pensions to all classes of people who were supposed by Congress to be entitled to Government aid the whole annual sum could be paid by the income of one-third of a day, and all that has been saved by the vetoes could be paid by the income of the Government for one half-hour.

Surely a Government for one national.

Surely a Government so great and so rich will not honor itself by attempting to save in that direction. If there is necessity for economy it is not that kind of economy that sends the soldier to the pauper's home or consigns his widow and children to privation and want.

It has been said that there are now within the walls of public poor-

honses seven thousand men who served the Government in the hour of its danger and distress for the paltry wages of a soldier. If this be true Congress has not been lavish in its grant of special aid to that deserving class, whose claim on the Government is not for what they are

but for what they did.

All communications between the executive and the legislative departments of Government should be characterized with dignity, frankness, and courtesy; free from contemptuous or discourteous terms. cisms, sneers, criticisms, reprimands, or rebukes ought not to find place cisms, sneers, criticisms, reprimands, or redukes ought not to find place in an official communication—certainly not in a veto message. Questions of "quorum" or the proper and orderly procedure of the legislative branch of the Government, not being subject to the review or revision of the Executive, are not matters either for his approval or disapproval. Each House must of itself determine whether the bill passed in accordance with the formalities required in such cases.

I regret that the President appears in some instances to have departed from the rules here laid down, which I think have been studiously observed by his predecessors. It is to be hoped that this has arisen from inattention on his part, and not intended as a discourtesy to a co-ordi-

nate branch of the Government.

Keeping in view the rules that I have laid down in reference to the character of communications between the different departments of Government, and desiring to keep within the spirit of that rule, I have not attempted to impugn the motives of the Executive, nor to speak lightly of his work; but to point out the error into which he has fallen in supposing it to be his province to participate in legislation and his duty to review the action of Congress in matters of comparative unimportant details.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had concurred in the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 7480) making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes.

PRESIDENTIAL APPROVALS.

A message from the President of the United States, by Mr. O. L. PRUDEN, one of his secretaries, announced that the President had on the 2d instant approved and signed the act (S. 2794) to amend an act entitled "An act for the erection and construction of a public building at Oxford, Miss.," approved July 12, 1882.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. Clark, its Clerk, announced that the House requested the return of the bill (S. 2056) to amend the pension laws by increasing the pension of soldiers and sailors who have lost an arm or leg in the service.

RIVER AND HARBOR BILL.

Mr. McMILLAN. I submit the conference report on the river and harbor bill.

The PRESIDENT pro tempore. The report will be read.

The Secretary proceeded to read the report.

Mr. HOAR. I inquire whether the rule of the Senate demands that the portions of that bill which have been read already not only when it passed the Senate but on a former report of a conference committee should be read again, or whether only those portions shall be read which are affected by the former disagreement of the two Houses?

Mr. EDMUNDS. The whole of this report must be read, of course.

The PRESIDING OFFICER (Mr. HAWLEY in the chair). The Chair thinks the whole of the report should be read.

Mr. HOAR. I suggest that only the points of disagreement need be

Mr. EDMUNDS. Let the report be read through. I did not hear any of it before.

Mr. HOAR. I desire to say that this bill was read through when it

passed. It is not the ordinary case of a bill amended in certain particulars, but a new draught of the entire bill was substituted as one amendment. Then when the first disagreement took place that was read to the Senate, and now the Senate will have all the substance if what is found in the conference report on those parts of the bill about which the two Houses have heretofore disagreed is read. I submit that when a bill has been read twice it is pretty hard on the rest of the Senators to take two or three hours to read it over again for mere form because one highly respected and esteemed Senator absented himself from his seat when the rest of the Senate listened to it before and demands now that it shall be read because he has not heard it before. Still, of course, it is within the power of any Senator to object.

I ask unanimous consent that so much of the bill as is not the sub

ject of disagreement be omitted in the reading.

Mr. EDMUNDS. That is a most extraordinary proposition, Mr. President. We do not know without reading this report whether this report contains the parts of the bill that were read before or whether it does not. This is not the report that was read before. It is a new report. It may contain, and probably does in point of fact, a very large part of what was read before and of which it was said there was no point of disagreement. I certainly do not wish to insist on anything that will give any discomfort to anybody, but it seems to me that it is a very dangerous way to legislate, having a new report here, to leave it to the Chair or to the committee or to somebody to say how much of it or of some other report is or is not embraced in this, and to only read what is new.

Mr. HOAR.

Mr. HOAR. Everybody I think understands it.
Mr. McMILLAN. Let the reading proceed.
The PRESIDING OFFICER. The Senator from Massachusetts asks unanimous consent that so much of the bill as has not been in controversy before this report be omitted in the reading.

Mr. EDMUNDS. Every single item in the bill was in controversy,

Mr. EDMONDS. Every single team in the second of the control of the Minnesota allow me to call up a message from the House requesting the return of a bill?

Mr. McMILLAN. Yes.

ARMLESS OR LEGLESS PENSIONERS-RECALL OF A BILL.

Mr. SEWELL. I ask to call up the message of the House of Repre-

sentatives requesting the return of a general pension bill.

The PRESIDING OFFICER. The Chair will lay before the Senate a message from the House, which will be read.

The Chief Clerk read as follows:

IN THE HOUSE OF REPRESENTATIVES, August 3, 1886. Resolved, That the Clerk be directed to request the Senate to return to the House the bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service.

Mr. SEWELL. I move that the request of the House be granted and the bill returned.

The PRESIDING OFFICER. Is there objection to that motion? The Chair hears none, and it is so ordered.

THE CONGRESSIONAL LIBRARY.

Mr. PLUMB. I ask leave to withdraw the objection I interposed to the consideration of Senate joint resolution 82 making additional appropriation for purchase of site for Congressional Library. The Senator from Indiana [Mr. VOORHEES] is so much interested in the matter and I defer to his judgment and his wish about it, and therefore withdraw my objection to the consideration of the resolution.

ARMLESS OR LEGLESS PENSIONERS-RECALL OF A BILL.

The PRESIDENT pro tempore. The Chair wishes to call the attention of the Senate to an order just made. He feels a hesitation about executing the order without the Senate knowing the situation. The House of Representatives has recalled the bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service for amendment. The bill has been enrolled, and the Chair has signed the enrolled bill.

Mr. EDMUNDS. And it has been signed by the Speaker also?

The PRESIDENT pro tempore. It has been signed by the Speaker of the House and the President of the Senate and is ready to be presented to the President of the United States. The Chair is in doubt whether the bill is in such a condition that the Chair can withhold it. It is for the Senate to say. The Chair would not feel at liberty to do so without the unanimous consent of the Senate, his signature to the bill having been announced.

Mr. HARRISON. Do I understand the Chair that the bill was a

Senate bill or a House bill?

The PRESIDENT pro tempore. A Senate bill.

Mr. HARRISON. Has it been signed by the Speaker? The PRESIDENT pro tempore. By the Speaker of the House and

by the presiding officer of the Senate.

Mr. SEWELL. The case is simply this: There was an amendment offered and adopted, as I believe, but it did not appear in the engrossed bill. The House desire to put that amendment in. There is no possible birties the senate of t sible objection to the amendment. It simply removes a duplication of words in the bill.

The PRESIDENT pro tempore. The bill would have to be re-enrolled and resigned. As a matter of course it can not be altered after

the signature is attached.

Mr. SEWELL. I should think the presiding officer could strike his

signature out

Mr. EDMUNDS. The way that has been done, I think, hitherto-I remember one or two instances—has been that by a concurrent resolution the enrollment of the bill was agreed to be canceled, both Houses agreeing to it, and then the bill, of course, would be open to reconsideration as an engrossed bill in whichever House it then belonged, and the matter could be reached; but it certainly requires concurrent action of both Houses to change the bill now that it is enrolled. Sometimes by unanimous consent it has been agreed to direct the Secretary of the Senate or Clerk of the House to put in something omitted, but the correct way is by concurrent resolution to set aside the enrollment, and that leaves the bill open.

Mr. SEWELL. That requires a concurrent resolution. Mr. EDMUNDS. I know it.

The PRESIDENT pro tempore. The Chair would not feel at liberty to change an enrolled bill.

Mr. CULLOM. I inquire if the bill is effective as it is?
Mr. SEWELL. It is complete as it is. The desired change is only necessary to avoid tautology. It is of no consequence really to make the amendment.

Mr. CULLOM. Then I would not disturb the bill.

The PRESIDENT pro tempore. It can only be done by unanimous consent by destroying the present enrolled bill by the order of the two

Mr. SEWELL. I think in order to satisfy the House we had better have unanimous consent that the bill be returned.

The PRESIDENT pro tempore. Shall the enrolled bill be returned

to the House of Representatives? Mr. EDMUNDS. They can not erase the signature of the President

of the Senate.

Mr. CULLOM. I think the Senator had better have the House notified of the condition of the fill, that it has been signed by the pre-

siding officer, and that we have no power to do anything further with it.

Mr. SEWELL. Well, I ask that that be done, that the House be notified that the presiding officer of the Senate has signed the bill, and

it is too late to interrupt proceedings upon it.

The PRESIDENT pro tempore. If there be no objection, the House will be advised of the present situation of the bill.

RIVER AND HARBOR BILL.

The Senate resumed the consideration of the report of the committee of conference on the bill (H. R. 7480) making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes.

The PRESIDENT pro tempore. The reading of the conference report

will proceed.

The Secretary resumed the reading of the report.

Mr. CALL. I ask if the bill is required to be read entirely through from beginning to end? The PRESIDENT pro tempore. The reading of the report is called

Mr. CALL. I make the point of order. It seems to me that it is not in order to read that bill through from beginning to end.

The PRESIDENT pro tempore. The whole bill having been in dispute between the two Houses, and the report embracing the whole bill,

any Senator has a right to demand its reading.

Mr. CALL. I do not understand that the whole of that bill has been in controversy. I understand that certain amendments made by the Senate were disagreed to by the House.

The PRESIDENT pro tempore. There was but one amendment, and that was an entire substitute for the House bill, and a substitute is reported now for that amendment.

Mr. CALL. I beg pardon.

The reading of the report was continued and concluded, as follows:

The reading of the report was continued and concluded, as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 7489) "making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes" having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate with an amendment as follows: Strike out all after the enacting clause and insert the following:

Amendment numbered 1: That the House recede from its disagreement to the amendment of the Senate numbered I, and agree to the same with an amendment as follows: Strike out all after the enacting clause and insert the follow-

ment as follows: Strike out all later the channes ing:

That the following sums of money be, and are hereby, appropriated, to be paid out of any money in the Treasury not otherwise appropriated, and to be expended under the direction of the Secretary of War, for the construction, completion, repair, and preservation of the public works herein named:

Improvement of entrance to Galvesion Harbor, Texas: Continuing improvement, \$30,000.

Improving Pass Cavallo, Texas: Continuing improvement, \$37,500.

Improving Sabine Pass and Elue Buck Bar, Texas: Continuing improvement, \$198,700.

ment, \$198,750.

Improving ship-channel in Galveston Bay, Texas, from Morgan's Cut to Bolivar Channel: Continuing improvement, for which purpose the balance now remaining of the money heretofore appropriated for this work is hereby directed to be expended by the Secretary of War in the completion of said channel, in accordance with the plans heretofore adopted, and in marking out said channel by piles or stakes, so as to enable navigators to find the same without difficulty. Improving harbor at Ashtabula, Ohio: Continuing improvement, \$30,000.

Improving harbor at mouth of Black River, Ohio: Continuing improvement,

Improving harbor at Ashtabula, Ohio: Continuing improvement, \$30,000.

Improving harbor at mouth of Black River, Ohio: Continuing improvement, \$10,000.

Improving harbor at Cleveland, Ohio, on the last plan projected, \$93,750; of which \$30,000 are to be used in building a parapet on the existing breakwater, and the \$100,000 now on hand to be available for work on the last plan. Improving harbor at Fairport, Ohio: Continuing improvement, \$18,750.

Improving harbor at Huron, Ohio: Continuing improvement, \$30,000.

Improving harbor at Huron, Ohio: Continuing improvement, \$30,000.

Improving harbor at Port Clinton, Ohio, by repairs of existing works, \$2,000.

For the purpose of acquiring the title to the land adjoining the inner end of the west pier built by the United States for the improvement of the harbor at Port Clinton, Ohio, the Secretary of War shall negotiate with the owner or owners of the land for the purchase thereof at a reasonable price, to be approved by Congress; and if an agreement as to price can not be made with the owner, then the value of the same shall be assectained in the mode provided by the laws of Ohio for the condemnation of lands for public uses in that State, the result of said proceedings of condemnation, if taken, to be reported to the next Congress for its approval.

Improving harbor at Sandusky City, Ohio, by dredging the channel through the outer bar and within the bay; and for this purpose the money appropriated by act of July 5, 1884, now on hand, is hereby made available, and the further sum of \$5,000 is hereby appropriated.

Improving harbor at Toledo, Ohio: Continuing improvement of the Maumee River by a straight channel along such line as may be approved by the Secretary of War, \$112,500; and the balance of the \$25,000 heretofore appropriated are hereby made available for clearing the old channel.

Improving harbor at Vermillion, Ohio: Continuing improvement, \$3,000.

Improving harbor at Chicago, Ill.: Continuing improvement, \$3,000.

Improving harbor at Chicago, Ill.: Conti

Improving harbor at Crana Marias, Mich.: Continuing improvement, \$26,250.

Improving harbor at Manistee, Mich.: Continuing improvement, \$56,250.

Improving harbor at Manistee, Mich.: Continuing improvement, \$10,000.

Improving harbor at Manistee, Mich.: Continuing improvement, \$10,000.

Improving harbor at Muskegon, Mich.: Continuing improvement, \$12,500.

Improving harbor at Muskegon, Mich.: Continuing improvement, \$12,500.

Improving harbor at Pentwater, Mich.: Continuing improvement, \$12,500.

Improving harbor at Pentwater, Mich.: Continuing improvement, \$13,000.

Improving harbor at Pentwater, Mich.: Continuing improvement, \$15,000.

Improving harbor at Pentwater, Mich.: Continuing improvement, \$15,000.

Improving harbor at Saugatuck, Mich.: To complete improvement, \$10,000.

Improving harbor at Saugatuck, Mich.: To complete improvement, \$10,000.

Improving harbor at Saugatuck, Mich.: Continuing improvement, \$5,000.

Improving harbor at White River, Mich.: Continuing improvement, \$5,000.

Improving harbor at Manister, Mich.: Continuing improvement, \$5,000.

Improving harbor at Manister, Mich.: Continuing improvement, \$5,000.

Improving harbor at Ahnapee, Wis.: Continuing improvement, \$5,000.

Improving harbor at Green Bay, Wis.: Continuing improvement, \$15,000; but no part of said sum is to be expended until the wharfage over the Government piers at that port shall be made free.

Improving harbor at Kenosha, Wis.: Continuing improvement, \$10,000.

Improving harbor at Manitowoc, Wis.: Continuing improvement, \$5,000.

Improving harbor at Manitowoc, Wis.: Continuing improvement, \$5,000.

Improving harbor at Oconto, Wis.: Continuing improvement, \$5,000.

Improving harbor at Oconto, Wis.: Continuing improvement, \$5,000.

Improving harbor at Oconto, Wis.: Continuing improvement, \$5,000.

Improving harbor

ing improvement, \$22,500; and the engineer in charge, in his next annual report, shall submit an estimate of the cost of a dredge-boat or other facilities that may be needed for dredging the harbors of Duluth and Superior. Thirteen thousand five hundred dollars of the money hereby appropriated are to be expended in dredging in said Superior Bay and Harbor, and in repairing piers at natural entry, and \$9,000 in dredging Saint Louis Bay, along the dock-line on the Wisconsin shore, from deep water at Connor's Point toward deep water at Grassy Point.

Improving harbor at Sheboygan, Wis.: Continuing improvement, \$15,000. Improving harbor at Sturgeon Bay, Wisconsin: Continuing improvement, \$5,000.

Improving harbor at Sturgeon Bay, Wisconsin: Continuing improvement, \$5,000.

Improving harbor at Ashland, Wis: Continuing improvement, \$22,500.

The Secretary of War is authorized and directed to appoint a board of three engineers from the United States Army whose duty it shall be to examine, in all their relations to commerce the Sturgeon Bay and Lake Michigan Ship-canal, connecting the waters of Green Bay with Lake Michigan, in the State of Wisconsin, with a view to making the same a free passage way and harbor of refuge, to consider their value, and all other matters connected with their usefulness to navigation, and which shall give information as to the expediency of the work and the desirability of their acquisition and improvement. The said board shall report to the Secretary of War, who shall lay its report before Congress at its next session, together with the views of himself and the Chief of Engineers of the United States Army thereon; and \$5,000, or so much thereof as may be necessary, is hereby appropriated for this purpose.

Improving harbor at Duluth, Minn.: Continuing improvement, and enlarging basin between Minnesota and Rice's Points, \$56,250; of which a sum not exceeding \$500 may be used in placing buoys in the channels and elsewhere where needed in the harbor: and the consent of the United States is hereby given to a change of existing dock-line on the east side of Rice's Point by the municipal authorities of Duluth: Provided, That such change meets the approval of the Secretary of War.

Improving harbor at Grand Marais, Minn.: Continuing improvement, \$10,000. Improving harbor at Agate Bay, Minn., \$22,500.

Improving harbor at Agate Bay, Minn., \$20,500.

Improving harbor at Marais Minn.: Continuing improvement, \$10,000. Improving harbor and bay at Humboldt, Cal.: Continuing improvement, \$10,000. Improving Pamlico and Tar Rivers, North Carolina: Completing improvements, \$5,000.

Improving Black River, North Carolina, \$3,000: Provided, That all claims of private parties to the navigation of the river shall be ceded to the United States, free of charge, before the commencement of said improvement.

Improving Roanoke River, North Carolina: Continuing improvement, \$20,000. Two thousand five hundred dollars, or so much thereof as may be necessary, of the aforesaid \$20,000 shall be used for the purpose of removing obstructions in Thoroughfare and Coshoke Creek.

Improving Trent River, North Carolina: Continuing improvement, \$3,500.

Improving Dan River, North Carolina: Continuing improvement between Madison, N. C., and Danville, Va., \$10,000.

Improving Yadkin River, North Carolina: Continuing improvement, \$1,000.

Improving the inland water way between Beaufort Harbor and New River, North Carolina, through Bogue Sound, \$10,000.

Improving Edisto River, South Carolina: Continuing improvement, \$1,000.

Improving Great Pee Dee River, South Carolina: Continuing improvement, \$3,000.

Improving Salkehatchie River, South Carolina: Continuing improvement, \$20,000.

Improving Salkehatchie River, South Carolina: Continuing improvement, \$20,000.

Improving Salkehatchie River, South Carolina: Continuing improvement,

Improving Santee River, South Carolina: Continuing improvement, \$18,750; no part of which sum to be used for the construction of any road-bridge across the Mosquito Creek Canal: Provided, That if salt water be found flowing into said Mosquito Creek, \$5,000 of said sum, or so much thereof as may be necessary, shall be nsed for the construction of a flood-gate at upper end of the canal, to prevent the same.

Improving Waccamaw River, South Carolina: Continuing improvement \$15,-

Improving Wappoo Cut, South Carolina: Continuing improvement, \$5,000.
Improving Wateree River, South Carolina: Continuing improvement, \$7,500.
Improving Congaree River, South Carolina, \$7,500.
Improving Altahama River, Georgia: Continuing improvement, \$20,000; of which \$10,000 are to be used on Doboy Bar, or so much thereof as may be nec-

essary.
Imroving Chattahoochee River, Georgia and Alabama: Continuing improve-ment, \$20,000. Improving Coosa River, Georgia and Alabama: Continuing improvement, \$45,000.

Improving Flint River, Georgia: Continuing improvement, \$20,000; of which sum \$5,000 are to be expended between Albany and Montezuma, and \$15,000

sum \$5,000 are to be expended between Albany and Montezuma, and \$15,000 below Albany.

Improving Ocmulgee River, Georgia: Continuing improvement, \$7,500.

Improving Oconee River, Georgia: Continuing improvement, \$9,000; \$1,500 of said sum to be expended between Skull Shoals and the railroad bridge.

Improving Romely Marsh, Georgia: To complete improvement, \$17,475; and so much of said sum as may be necessary may be applied by the engineer in charge, with the approval of the Secretary of War, to pay for work done on said improvement, under the direction of the War Department, since the last appropriation was exhausted. priation was exhausted.

Improving Savannah River below Augusta, Ga.: Continuing improvement, \$15,000.

\$15,000. Improving Apalachicola River, Florida: Continuing improvement, \$1,000. Improving Caloosahatchee River, Florida: Continuing improvement, \$4,000. Improving Choctawhatchee River, Florida and Alabama: Continuing improvement, \$15,000; of which sum \$5,000 to be expended below Geneva, and \$10,000 to be expended between Geneva and Newton, Ala. Improving Conceuh-Escambia River, Florida and Alabama: Continuing improvement, \$12,000.

Improving La Grange Bayou, Florida: Continuing improvement, \$2,000.
Improving Manatee and Pease Rivers, Florida: Continuing improvement, \$13,000; of which \$5,000 may be expended on Pease River.
Improving channel over the bar at the mouth of Saint John's River, Florida: Continuing improvement, \$150,000.
Improving Suwanee River, Florida: Continuing improvement, \$5,000.
Improving Volusia Bar, Florida: To complete improvement, \$5,000.
Improving Withlacoochee River, Florida: Continuing improvement, \$3,000.
Improving Alabama River, Alabama: Continuing improvement, \$15,000.
Improving Black Warrior River from Tuscaloosa to Daniels Creek, Alabama, \$56,250, together with the \$47,000 on land; to be expended in accordance with the plan adopted by the board of engineers.
Inproving Cahawba River, Alabama: Continuing improvement, \$7,500: Provided, That no part of said sum shall be expended until the officer in charge shall have reported that the railroad and other bridges across said river have been provided with good and sufficient draw-openings.
Improving Tallapoosa River, Alabama: Continuing improvement, \$7,500.
Improving Warrior River, Alabama: Continuing improvement, \$18,750; to be expended below Tuscaloosa.
Improving Tombigbee River, Alabama and Mississippi: Continuing improvement, \$18,750; to be expended below Tuscaloosa.
Improving Big Sunflower River, Mississippi: Continuing improvement, \$1000.
Improving Big Sunflower River, Mississippi: Continuing improvement, \$2000.

Fulton, \$7,500.

ment, \$18,750; to be expended below Vienna, \$11,250; and between Vienna and Fulton, \$7,500.

Improving Big Sunflower River, Mississippi: Continuing improvement, \$5,000; of which \$2,000 to be expended between Woodburn and Lehrton.

Improving Noxubee River, Mississippi: Continuing improvement, \$7,500.

Improving Pascagoula River, Mississippi: Continuing improvement, including bar at the mouth, and from there to the mills at Moss Point, \$20,000; and the balance of the money now on hand heretofore appropriated for improving Horn Island Pass is to be applied to the same purpose.

Improving Pearl River, Mississippi: Continuing improvement, \$17,625; of which \$2,250 are to be expended between Edinburg and Carthage, \$2,250 between Carthage and Jackson, and the remainder below Jackson, including bar at the mouth of East Pearl River.

Improving Steele's Bayou, Mississippi, including Washington Bayou: Continuing improvement, \$2,500.

Improving Tallahatchee River, Mississippi: Continuing improvement, \$2,000.

Improving Bayou Pierre, Mississippi: Continuing improvement, \$2,000.

Improving Bayou Pierre, Mississippi: Continuing improvement, \$5,000.

Provided, That no part of this appropriation shall be used until the State of Mississippi shall have first caused the bridges over said stream: south of the Vicksburg and Meridian Railroad to be so constructed as not to obstruct the navigation of said stream.

Improving Bayer River, Louisiana: Continuing improvement, \$2,000.

Improving Romite River, Louisiana: Continuing improvement, and for closing

Improving Amite River, Louisiana: Continuing improvement, \$2,000.
Improving Bouf River, Louisiana: Continuing improvement, and for closing Outlet No. 1, \$5,000.

outlet No. 1, \$5,000.

Improving Bayou Bartholomew, Louisiana and Arkansas: Continuing improvement, \$5,000.

Improving Bayou Courtableau, Louisiana: Continuing improvement, \$5,000.

Improving Bayou Untrebonne, Louisiana: Continuing improvement, \$2,000.

Improving Bayou Terrebonne, Louisiana: Continuing improvement, \$2,000.

Improving Bayou Terrebonne, Louisiana: Continuing improvement, \$2,000.

Improving Cypress Bayou and the lakes between Jefferson, Tex., and Shreveport, La., Texas and Louisiana: To complete improvement, \$18,000.

Improving Tensas River and Bayou Macon, Louisiana: Continuing improvement, \$4,000.

Improving Red River, Louisiana, and Arkansas: Continuing improvement from Fulton, Ark., to the Atchafalaya River, Louisiana, including completing the work at Alexandria, \$75,000; to which sum \$25,000, or so much thereof as may be necessary, shall be used in making a thorough survey of the river from Fulton, Ark., to the Atchafalaya River, and in completing the survey of Bayou Pierre, Louisiana.

Improving Tenefuncte River and Bogue Falia, Louisiana: Continuing improvement, \$2,500; to be expended in the improvement of Bogue Falia up to Covington.

Fulton, Ark., to the Atenatalaya River, and in completing the survey of Bayou Pierre, Louisiana.

Improving Tehefuncte River and Bogue Falia, Louisiana: Continuing improvement, \$2,500; to be expended in the improvement of Bogue Falia up to Covington.

Improving Tickfaw River, Louisiana and Arkansas, and Black River, Louisiana: Continuing improvement, \$2,000; to be expended on its navigable tributaries.

Improving Ouachita River, Louisiana and Arkansas, and Black River, Louisiana: Continuing improvement, \$17,500; of which \$7,500, or so much thereof as may be necessary, for repairing snag-boat Wagner.

Improving Calcasieu River and Pass, Louisiana: Continuing improvement to secure a navigable channel 8 feet deep over the bars affecting the entrance to said river and pass, and for this purpose the money on hand heretofore appropriated for improvement of Calcasieu River is to be used.

Improving Buffalo Bayou, Texas: Continuing improvement, \$18,750.

Improving Buffalo Bayou, Texas: Continuing improvement, \$18,750.

Improving Saint Francis River, Arkansas and Missouri, to the town of Saint Francis: Continuing improvement, \$8,000.

Improving Arkansas River, Arkansas: Continuing improvement, \$75,000, according to the plan and recommendations in Appendix V 13, Executive Document 1, Forty-ninth Congress; of which there are to be expended \$8,000 at Pine Bluff, \$13,000 at Fort Smith, and \$10,000 at Dardanelles, or so much thereof under those sums, respectively, as may be necessary at those points.

For the removal of snags, wrecks, and other obstructions in the Arkansas River, \$19,875; of which sum \$1,125, or so much thereof as may be necessary, shall be used to complete the survey of the Arkansas River between Little Rock, Ark., and Wichita, Kans.

Improving Black River, Arkansas, above Fulton, Ark., \$7,000.

Improving Black River, Arkansas, and Missouri, \$5,000.

Improving Bligh River, Francessee: Continuing improvement, \$3,000.

Improving Clinch River, Tennessee: Continuing improvement, \$3,000.

Improving Clinch River,

Improving Hiawasse River, Tennessee: Continuing improvement, \$2,500. Improving South Fork of Forked Deer River, Tennessee: Continuing improvement, \$5,000.

Improving Tennessee River above Chattanooga, Tenn.: Continuing improvement, \$7,500.

Improving Tennessee River at Big Muscle Shoals, Little Muscle Shoals, and Elk River Shoals, Alabama: To complete improvements at these localities, \$262,500

Elk River Shoals, Alabama: To complete improvements at these localities, \$262,500

Improving South Fork of Cumberland River, Kentucky: Continuing improvement, \$5,000.

Improving Kentucky River, Kentucky: Continuing improvement, \$187,500.

Improving Tradewater River, Kentucky: Continuing improvement, \$2,000.

Improving the Falls of the Ohio River at Louisville, Ky.: Continuing improvement, according to the last plan of the engineer in charge, and to be first applied to the completion of the work now in progress, \$150,000: Provided, That of that sum \$50,000 shall be expended in enlarging the canal-basin, as recommended in the last report of the engineer in charge.

The Secretary of War is hereby authorized and directed to ascertain the value and commercial importance of the works and property of the Green and Barren River Navigation Company, situated on the Green and Barren Rivers, in the State of Kentucky, and of the Monongahela Navigation Company, situated on the Monongahela River, in the State of Pennsylvania; and in order to acquire such information the Secretary of War shall appoint a board of three competent engineers from the Engineer Corps of the United States Army, which board shall in each case report to the Secretary of War, who shall report thereon to Congress at its next succeeding session; and the cost of such examination shall be paid out of the sum appropriated by this act for surveys: Provided, That nothing herein shall be construed as committing Congress to the purchase of the said works.

Improvement, \$2,000.

nothing herein shall be construed as committing Congress to the purchase of the said works.

Improvement of the Muskingum River, Ohio, between Zanesville and the mouth of the river, and for operating the same, \$20,000. And the United States hereby accepts from the State of Ohio the said Muskingum River improvement, and all the locks, dams, and their appurtenances, and the canals belonging to said improvement, and all the franchises and property of every kind, and rights in said river, and its improvements, now owned, held, and enjoyed by the State of Ohio, including all water leases and rights to use water under and by virtue of any lease of water now running and in force between the State of Ohio and all persons using said water, hereby intending to transfer to the United States such rights in said leases and contracts as are now owned, held, or reserved by the State of Ohio; but not to affect any right to the use of the water of said river now owned and held by the lessees of any water right under any lease or dontract with the State of Ohio. And the United States hereby assumes control of said river, subject to the paramount interest of navigation. The provisions of this act, so far as they relate to the Muskingum River, shall not take effect, nor shall the money hereby appropriated be available, until the State of Ohio, acting by its duly authorized agent, turns over to the United States all property ceded by the act of the General Assembly aforesaid, and all personal property belonging to the improvement aforesaid, and used in its care and improvement, and any balance of money appropriated by said State for the improvement of said river, and which is not expended on the 15th day of July, 1886.

Improving Clinton River, Michigan: Continuing improvement, \$3,000.

Improving Saint Clair Ship-canal, Michigan: Continuing improvement by a new lock and approaches \$250,000.

Improving Saint Clair Ship-canal, Michigan: Continuing improvement, \$13,750.

Improving Saint Mary's River, Michigan: Continuing improvement by a new lock and approaches, \$250,000.

Improving Hay Lake Channel, Michigan: Continuing improvement, \$150,000.

Improving Saginaw River, Michigan: Continuing improvement, \$33,750; of which \$16,875 are to be used above Bay City, and \$5,000 in improving the west channel along West Bay City.

The Secretary of War is authorized and directed to appoint a board of three engineers from the United States Army, whose duty it shall be to examine in all their relations to commerce the two improved water ways known as the Portage Lake and River Improvement Company Canal and the Lake Superior Ship-canal, Railway, and Iron Company Canal, being the improved harbors of refuge and the water communication across Keweenaw Point, from Keweenaw Bay to Lake Superior, by way of Portage River and lake, in the State of Michigan, with a view to making the same a free passage way and harbors of refuge, to consider their value and all other matters connected with their usefulness to navigation, and which shall give information as to the expediency of the work and the desirability of their acquisition and improvement. The said board shall report to the Secretary of War, who shall lay its report before Congress at its next session, together with the views of himself and the Chief of Engineers of the United States Army thereon; and \$10,000, or so much thereof as may be necessary, is hereby appropriated for this purpose.

Improving Chippewa River, Wisconsin: Continuing improvement below Montello, on the approved plan, \$56,250. And the Secretary of War is hereby directed to have the examination and survey of the Wisconsin River from Portage to the mouth, now being made by a board of engineers, completed as soon as practicable, and a report thereof made on or before the meeting of the next session of Congress. And the sum of \$6,000 of the above appropriation, or so much thereof as may be necessary, may b

Improving White River, Indiana: Continuing improvement, \$30,000; of which \$11,250 are to be used between the Forks and one-half mile east of Hammond, Ind., \$5,625 of which are to be used in dredging the river between the Forks and the State line of Illinois and Indiana, and \$5,625 on the river at Hammond Ind: Provided, however, That no part of said sum, nor any sum heretofore appropriated, except the said \$11,250 for the river above the Forks, shall be expended until the entire right of way, as set forth in Senate Executive Document No. 9, second session Forty-seventh Congress, shall have been conveyed to the United States free of expense, and the United States shall be fully released from all liability for damages to adjacent property-owners, to the satisfaction of the Secretary of War; and if any of the owners of real estate required to be taken or that is damaged for the purpose of straightening or widening that portion of the Calumet River for which the appropriation herein is now made, can not be induced to convey to the United States such real estate so required, and release their claim for damages caused by said improvement, or should the owner or owners be incapable of conveying and releasing, or should his or her name or residence be unknown, or he or she be a non-resident of the State of Illinois, it shall then be the duty of the United States attorney for the northern district of Illinois to immediately file a petition in any court having jurisdiction thereof, in the manner and as authorized by the laws of the State of Illinois in such cases, for the purpose of ascertaining the just compensation to be paid to the respective owners of the land taken or damaged: Provided, however, That the other owners of property and parties interested in said improvement shall first execute a bond to the United States, to be approved by the Secretary of War, for the

payment of the costs of such proceedings, and to pay any judgment that may be rendered therein; and on failure to do so the proceedings shall be dismissed. Improving Illinois River, Illinois: Continuing improvement, \$112,500; of which sum \$3,750 may be expended in dredging the river in front of Peoria.

The Secretary of War is authorized and directed to appoint a board of three engineers from the United States Army, whose duty it shall be to examine in all their relations to commerce the Illinois and Michigan Canal and the proposed Hennepin Canal, to consider their value and all other matters connected with their resultiness to navigation and shall record turns the acquisition and with their usefulness to navigation, and shall report upon the acquisition and improvement of the Illinois and Michigan Canal and the construction of the Henimprovement of the Illinois and Michigan Canal and the construction of the Hennepin Canal. The said board shall report to the Secretary of War, who shall lay its report before Congress at its next session, together with the views of himself and the Chief of Engineers of the United States Army thereon; and \$15,000, or so much thereof as may be necessary, is hereby appropriated for this purpose: Provided, That nothing in this paragraph shall be construed as committing the Government to the said improvement.

Improving Gasconde River, Missouri: Continuing improvement, \$7,500.

Improving Osage River, Missouri: Continuing improvement by snagging and removing obstructions, \$10,000.

Improving Red River of the North, Minnesota: Continuing improvement from Breckenridge to the northern boundary-line of the United States, including dredging, removal of snags and bowlders, and construction of wing-dams, &c., and the money heretofore appropriated for locks and dams is hereby made available for this purpose.

ing dredging, removal of snags and bowlders, and construction of wing-dams, &c., and the money heretofore appropriated for locks and dams is hereby made available for this purpose.

Improving Yellowstone River between Glendive and the mouth, Montana: Continuing improvement, \$18,750.

Improving Mokelumne River, California, by removing obstructions, \$2,500.

Improving Sacramento and Feather Rivers, California, \$40,000 of the money heretofore appropriated for improving said rivers that may remain unexpended at the end of the present fiscal year, for snagging and dredging operations and the cost of the proceedings hereinafter authorized; also \$10,000 to complete dredges authorized by act of July 5, 1884; the balance of said unexpended money not to be used until the Secretary of War be satisfied that hydraulic mining hurtful to navigation has ceased on said rivers and their tributaries. If he be not so satisfied, he is hereby instructed to institute such legal proceedings as may be necessary to prevent the washing, sluicing, dumping, or discharging distritus, dibris, or slickens, caused by or arising from such hydraulic mining, into either of said rivers or any of its tributaries, or into the San Joaquin River or any of its tributaries, or in or to such place or situation from which such detritus, dibris, or slickens may be liable to be washed or carried by storms or floods into either of said rivers or tributaries; and he is hereby instructed to use out of said sum as much as may be necessary for said purpose.

Improving San Joaquin River and Stockton and Mormon Sloughs, California: Continuing improvement, \$187,500.

Improving canal at the Cascades, Oregon: Continuing improvement, \$187,500.

Improving Lower Willamette River, and Columbia River below Portland, Oreg.: Continuing improvement, \$10,000.

Improving Lower Willamette River, and Columbia River below Portland.

Improving Coulile River, Oregon: Continuing improvement, \$20,000.

Improving Chehalis River, Washington Territory: Continuing improvement, \$2,000.

I

Improving Cowlitz River, Washington Territory: Continuing improvement,

Improving Skagit, Steilaquamish, Nootsack, Snohomish, and Snoqualmie Rivers, Washington Territory: Continuing improvement, \$10,000.

Improving Missouri River from its mouth to Sioux City: Continuing improvement, including necessary work at Omaha, Atchison, Saint Joseph, Fort Leavenworth reservation, Arrow Rock, Kansas City, Plattsmouth, Brownsville, and Nebraska City, \$375,000: to be expended under the direction of the Secretary of War, in accordance with plans and estimates to be furnished by the Missouri River Commission.

worth reservation, Arrow Rock, Kansas City, Plattsmouth, Brownsville, and Nebraska City, \$375,000; to be expended under the direction of the Secretary of War, in accordance which plans and estimates to be furnished by the Missouri River Commission.

Improving Missouri River from Sioux City to Fort Benton: Continuing improvement, \$00,000, under the direction of the Secretary of War.

For removing obstructions in the Missouri River, \$22,500.

Improving the Ohio River: Continuing improvement, \$375,000; out of which sum \$37,500 are to be expended at Grand Chain in removing rocks and other obstructions to navigation at that locality; also \$18,750 may be expended in constructing or aiding in the construction of such an embankment on the south side of the Great Miami River, near its junction with the Ohio, as may be necessary to confine the waters of the Great Miami in great floods to the general course of its channel at or near the Ohio, to the end that the formation of the bar in the Ohio River now forming and obstructing navigation may be arrested; also \$37,500, or so much thereof as may be necessary, of said appropriation shall be expended in constructing five ice-piers, pursuant to the present or prospective plans of the Chief of Engineers, at or near the following places, to wit: One at Pomeroy, Ohio; one at Middleport, Ohio; one at Gallipolis, Ohio; and one at Ironton, Ohio; and one at or near Ashland, Ky., on the south side of the Ohio River: Provided, That the Secretary of War is hereby authorized and directed to obtain, if he can do so without cost to the United States, perpetual leases or conveyances of the riparian rights of the property-owners at each of said localities, in the event said ice-piers, or any one of them, shall be located where there is no improved landing-place: And provided further, That at localities where there are improved landing-place: And provided further, That at localities where there are improved landing-place: And provided further, That at localities where there are improved land

For dry-dock at Des Moines Rapids, \$48,750.

Improving ice-harbor at Dubuque, Iowa, the unexpended balance, or so much thereof as shall be necessary, shall be applied to paving instead of riprapping said ice-harbor.

Improving Mississippi River from Des Moines Rapids to the mouth of the Illinois River, including the river at Quincy Bay and the removal of the bars at the mouth of Whipple Creek and Hamburg Bay, including also the strengthening of Sny Island Levee where it crosses Snicarte Slough and other sloughs: Continuing the improvement, \$150,000.

Improving Mississippi River from the mouth of the Illinois River to the mouth of the Ohio River, including the completion of the work at Alton, and, at the discretion of the Seretary of War, the protection of the Illinois shore opposite the mouth of the Missouri River: Continuing improvement, \$375,000; of which \$37,500, or so much thereof as may be necessary, to be expended in extending the work for the protection of the eastwardly bank of the Mississippi River at Cairo, and the prevention of its wash or erosion, commencing at the southerly end of the present Government revetment work and continuing down stream, and \$22,500 for continuing improvement at Cape Girardeau, Mo., and Montona Point, Illinois: Provided, That the Secretary of War, in his discretion, may use not to exceed \$75,000 of said sum of \$375,000 to correct the current of the river and improve the channel at Saint Louis.

Improving Mississippi River from head of the passes to the mouth of the Ohio River: Continuing improvement, \$2,000,000; which sum shall be expended under the direction of the Secretary of War, in accordance with the plans, specifications, and recommendations of the Mississippi River Commission: Provided That no portion of this appropriation shall be expended to repair or build levees for the purpose of reclaiming lands or preventing injury to lands or private property by overflows: Provided, however, That the commission is authorized to repair and build levees if, in their judgment,

lized to repair and build levees if, in their judgment, it should be done as part of their plan to afford ease and safety to the navigation and commerce of the river and to deepen the channel.

And provided further, That no works of bank protection or revetment shall be executed in said reaches or elsewhere until after it shall be found that the completion of the permeable contracting works and uniform width of the highwater channel will not secure the desired stability of the river banks: Provided, however, That nothing herein contained shall prevent the construction of revetment works where the banks are caving at Greenville reach, Delta Point, in front of the cities of Vicksburg, Memphis, Hickman, and Columbus: And provided further, That contraction works shall be built at the same time in the wide portions of the river immediately above the said revetment works. Of the amount herein appropriated for the Lower Mississippi, \$75,000 are to be expended in continuing the work in progress at New Orleans; \$187,500 for the rectification of the Red and Atchafalaya Rivers by preventing further enlargement of the latter stream and restricting its outlet capacity, and for keeping open a navigable channel through the mouth of Red or Old River into the Mississippi; \$75,000 in improving navigation in the Greenville reach by preventing the bank at Greenville from further caving; \$75,000 in deepening the channel at Vicksburg by dredging through the bar existing there; but this last-named sum shall not be expended unless after another examination or survey the commission shall deem it advisable; and if they shall not, then \$37,500 shall be expended in the improvement of navigation at Vicksburg by constructing suitable dikes and other appropriate works, and \$56,250 in completing the work on the river at Memphis; also \$18,750 for work on the river at Hickman, and \$18,750 for work on the river at Hickman, and \$18,750 for work on the river at Columbus, Ky.

For examinations and surveys at South Pass of the Mississippi River, pur

improvement.

SEC. 4. The Secretary of War shall prescribe such rules and regulations as may be necessary to secure a judicious and economical expenditure of the money herein appropriated, and shall cause to be made and submitted to Congress annual reports, together with maps and plans, including the report of the Mississippi River Commission, on or before December 1, giving detailed statements of the work done, contracts made, the expenditures thereunder or otherwise, and balances of money on hand up to November 1, and the effect of such work, together with such recommendations as he may deem proper. He shall, at the same time, report to Congress all cases in which piers, breakwaters, locks, and dams, or other structures or works built or made by the United States in aid of commerce or navigation are used, occupied, or injured by a corporation or an individual, and the extent and mode of such use, occupation, or injury. He shall report, at the same time, whether any bridges, causeways, or structures now erected or in process of erection do or will interefere with free and safe navigation. navigation.

navigation.

SEC. 5. It shall be the duty of the Secretary of War to apply the money herein appropriated for improvements, other than surveys and estimates, in carrying on the various works, by contract or otherwise, as may be most economical and advantageous to the Government. Where said works are done by contract, such contract shall be made after sufficient public advertisement for proposals, in such manner and form as the Secretary of War shall prescribe; and such contracts shall be made with the lowest responsible bidders, accompanied by such securities as the Secretary of War shall require, conditioned for the faithful prosecution and completion of the work according to such contracts, and for the prompt payment of all liabilities incurred in the prosecution thereof for labor and materials.

SEC. 6. The Secretary of War is hereby directed, at his discretion, to cause ex-

SEC. 7. For examinations, surveys, and contingencies, and for accidental repairs, for which there is no special appropriation, for rivers and harbors, \$100,000: Provided, That no survey shall be made of any harbors or rivers until the Chief of Engineers shall have directed a preliminary examination of the same by the local engineer in charge of the district, or an engineer detailed for the purpose; and such local or detailed engineer shall report to said Chief of Engineers whether, in his opinion, said harbor or river is worthy of improvement, and shall state in such report fully and particularly the facts and reasons on which he bases such opinion, including the present and prospective demands of commerce; and it shall be the duty of the Chief of Engineers to direct he making of such survey if, in his opinion, the harbor or river proposed to be surveyed be worthy of improvement by the General Government; and he shall report to the Secretary of War the facts, and what public necessity or convenience may be subserved thereby, together with the full reports of the local engineer. Said reports of preliminary examinations and surveys shall be made to the House of Representatives, and are hereby ordered to be printed when so made.

SEC. 3. That the Secretary of War shall report to Congress, at its next and each succeeding session thereof, the name and place of residence of each civilian engineer employed in the work of improving rivers and harbors by means and as the result of appropriations made in this and succeeding river and harbor appropriation bills, the time so employed, the compensation paid, and the place at and work on which employed.

And the Senate agree to the same.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 9726) making appropriations to supply deficiencies in the appropriations for the fiscal year ending June 30, 1886, and for prior years, and for other purposes.

HELEN PLUNKETT.

Mr. HOAR. I ask unanimous consent that the House be asked to return to the Senate the bill (S. 757) granting a pension to Helen Plunkett. An amendment was put into the bill by the Senate which wrongly described the service of the husband of the widow for whom the bill provides, describing him as belonging to Company A instead of Company E. I should like to have the bill sent back and the correction made at once. It is a Senate bill which has not passed the House and has not been reported from the committee there.

The PRESIDENT pro tempore. If there be no objection a message will be sent to the other House as requested by the Senator from Massa-

chusetts.

PHIENIX NATIONAL BANK.

Mr. EVARTS submitted the following report:

Mr. EVARTS submitted the following report:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 1599) for the relief of the Phœnix National Bank of the city of New York, having met, after full and free conference have agreed to recommend and do recommend that the House of Representatives do recede from its amendment to said bill.

WM. M. EVARTS,
JOHN J. INGALLS,
G. G. VEST,
Managers on the part of the Senate.

W. M. SPRINGER,
S. W. T. LANHAM,
JAMES BUCHANAN,
Managers on the part of the House.

The PRESIDENT pro tempore. The report requires no action on the part of the Senate.

Mr. EVARTS. Except to be sent over to the other House, as the bill is with us.

The PRESIDENT pro tempore. The bill will be sent over.

ARMLESS OR LEGLESS PENSIONERS-RECALL OF A BILL.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had passed a resolution requesting the President to return to the House of Representatives the bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service.

The PRESIDENT pro tempore. The Chair lays before the Senate a resolution of the House of Representatives, which will be read.

The Chief Clerk read the resolution, as follows:

Resolved by the House of Representatives (the Senate concurring), That the President be requested to return to the House of Representatives the bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service.

I suggest that the resolution be amended so as to Mr. SEWELL. request the President to send the bill to the Senate, as it originated in the Senate.

Mr. EDMUNDS. That ought to be done, as he received it from the

Senate and can only send it back here.

The PRESIDENT pro tempore. The Senator from New Jersey moves that the resolution be amended by striking out "the House of Representatives" and inserting "the Senate."

Mr. EDMUNDS. That dugit to be done, as he received it from the senate and can only send it be done, as he received it from the senate and can only send it back here.

The PRESIDENT pro tempore. The Senator from New Jersey moves that the resolution be amended by striking out "the House of Representatives" and inserting "the Senator from New Jersey moves that the resolution be amended by striking out "the House of Representatives" and inserting "the Senator from New Jersey moves that the resolution be amended by striking out "the House of Representatives" and inserting "the Senator from New Jersey moves that the resolution be amended by striking out "the House of Representatives" and inserting "the Senate."

sity of the resolution.

The PRESIDENT pro tempore. The explanation has been made.

Mr. SEWELL. The explanation has been made. The House amended the bill but did not get it in the record, so that the clerks did not get it in the engrossed copy. They insist on making an amendment, which is of no importance practically, but they insist on it.

Mr. EDMUNDS. Then let the President sign the bill. It will hazard its passage very much to recall it.

The PRESIDENT pro tempore. Does the Senator from New Jersey press his motion?

press his motion?

Mr. SEWELL. Yes, sir.

The PRESIDENT protempore. The Senator from New Jersey moves to amend the resolution by striking out "the House of Representatives" and inserting "the Senate."

The amendment was agreed to.

The resolution as amended was agreed to.

RIVER AND HARBOR BILL. The Senate resumed the consideration of the report of the committee of conference on the bill (H. R. 7480) making appropriations for the construction, repair, and preservation of certain public works on rivers

and harbors, and for other purposes.

The PRESIDENT pro tempore. The question is on concurring in the report of the committee of conference.

Mr. McMILLAN. Mr. President, I desire to make a brief statement

to the Senate in connection with this report. The bill as it first came from the House appropriated \$15,142,200.

As it passed the Senate it contained twenty-six new items and appropriated \$14,013,393.25.

The bill as agreed upon by the conference committee, and now reported to the Senate, appropriates \$14,473,900, which is \$668,300 less than the amount of the House bill.

The principal changes in appropriations made by the conferees in the bill as it passed the Senate are as follows:

INCREASES.

Mississippi River, from head of passes to mouth of the Ohio River, from \$1,687,500 to \$2,000,000.

For examinations and surveys at South Pass, from \$3,750 to \$5,000.

For the general surveys of the Mississippi River, from \$18,750 to \$30,000.

Red River, Arkansas, from \$71,250 to \$75,000.

Saint Mary's River, Michigan, from \$187,500 to \$250,000.

Hay Lake channel, Michigan, from \$12,500 to \$150,000.

James River, Virginia, from \$75,000 to \$112,500.

Arkansas River, Arkansas, from \$56,250 to \$75,000.

Sandy Bay Harbor of Refuge, from \$75,000 to \$100,000.

Appropriation for general surveys, from \$75,000 to \$100,000.

Wilmington Harbor, California, from \$56,250 to \$75,000.

All items of appropriations which were contained in the bill reported to the Senate by the Senate Committee on Commerce and which amounted to not more than \$20,000 each and which by the Senate amendment were reduced 25 per cent., the Senate conferees consented to restore to their original amounts respectively, thus restoring the reduction of 25 per cent. as to those items; the gross amount of this increase is in round numbers \$457,000.

Sturgeon Bay Canal from \$112,500 to \$5,000. Portage Lake Canal from \$262,500 to \$10,000. Hennepin Canal from \$225,000 to \$15,000.

The principal subjects upon which the conferees differed were the harbor of refuge at Sandy Bay, New York Harbor, Mississippi River, Potomac flats, Sturgeon Bay and Lake Michigan Ship-canal, Portage Lake and Lake Superior Ship-canal, and the Hennepin Canal.

The House conferees receded from their disagreement to the harbor of

refuge at Sandy Bay, and the amount of the appropriation was increased to \$1000,000. They also receded from their disagreement to New York

Harbor and to the Potomac Flats.

The House conferees receded from their disagreement to the Sturgeon Bay and Lake Michigan Ship-canal, the Portage Lake Canal, and the Hennepin Canal respectively, with amendments providing for a board of engineers to examine and report upon each of these improvements as stated in the conference report.

The Senate amendment in relation to the Mississippi River from the head of the passes to the mouth of the Ohio River was agreed to, increasing the appropriation therefor from \$1,687,500 to \$2,000,000 and striking out that portion of the provision directing the application of the amount appropriated indicated in the report.

There were some other changes, which I have not noted, but if any Senator desires to obtain any information upon the report, if I can give

it I shall be glad to do so.

Mr. CULLOM. Mr. President, I suppose it is decreed that this report is to be agreed to. I do not know that it is worth while for me to offer any objections to the report or to make any suggestions in reference of the control of the ence to it; but I shall not feel satisfied with myself at least without saying what I think, with due respect to the honorable gentlemen who have composed the committee on conference on the part of the Senate because I believe they have done exactly what they thought was best, yet taking that report it seems to me a very strange one.

We have had two or three conferences in reference to this bill, and there seemed for a time to be substantially no objection to the bill that I could hear of, except as to the canals that were incorporated in the

bill by the Senate in the first instance; but after we have conferred and reconferred and come to the subject again we have at last got rid of the reconserved and come to the subject again we have at last got rid of the canals and increased the appropriations for the rivers and little bays and harbors in the country scattered all about, especially if they happen to lie close by the localities represented by some new conferce. It seems very remarkable that the committee on the part of the Senate should allow these important measures to go out, and in addition to that, after we had scaled down the bill 25 per cent., should make fish of one and fowl of another and put up a good many of the items that we had passed upon. I do not understand it.

The honorable chairman of the committee who makes this report acts.

The honorable chairman of the committee who makes this report says that the conferees on the part of the House recede from their opposition to the appropriation for the Hennepin Canal with an amendment. What is the amendment? The amendment is to wipe the whole thing out and consent to another survey. The Government of the United States has been surveying that canal ever since I can recollect. There is a beaten path almost from the Illinois to the Mississippi River made by engineers sent out by the Government year after year to survey the Hennepin Canal. After all that long, tedious, and laborious effort on the part of the Government to find out where the canal ought to be located, the honorable conference committee comes in again and says that the House conferees recede from their opposition to the Hennepin Canal with an amendment, which is to survey it again. That is all there is of it. It is mere trifling, so far as the Congress of the United States is concerned.

I have stood here, and I expect to do so, year after year in favor of the improvement of the water ways of the country. I believe that the Government of the United States ought to make these improvements, and I want to act in good faith in reference to this measure; but when I am to be told for the fifth or sixth time that the Hennepin Canal is all right, that it is going to be surveyed again, I think it is pretty near time to stop and see what it all means. It simply means that it is not intended to do anything; and why do not the committee say so like men, strike out the item, and stop spending the money of the Government in surveying the line?

I do not know that it is worth while for me to stand here and talk about this matter, unless I could talk until the session ends, and I should be glad if I could and get rid of this thing; but I want to say, and I say it in perfect candor, that it does seem to me strange, if Senators upon this floor are looking upon the interests of this country as a whole, that the Congress of the United States is not willing to enter upon the work of building that great canal in the interest of the commerce of this country. In my opinion the construction of that canal, or a canal between the Mississippi River and the lakes in the region of Chicago, is worth more to the commerce of this country than all the rest of the bill outside of the harbor of New York. I believe, taking this nation as a whole, that that improvement is of more public utility to the commerce of this country than all the rest of the bill except, as

I say, the improvement of the harbor of New York.

Take the bill as it now comes here and as it has been acted upon before by the Senate, take the multitude of little bayous and rivers that we find in the bill, put them all together and they do not begin to compare with the advantage to this country which would come from the construction of that canal between that great river and the lake at

Just look at this bill, Mr. President, full of appropriations of small sums for the improvement of little rivers: Steele's Bayou in Mississippi, Tchula Lake, Mississippi River, \$1,500; Yalobusha River, Mississippi, \$1,500, raised to \$2,000. I should like to know of the chairman what was the reason for that?

Mr. McMILLAN. What item is that?

Mr. CULLOM. The raising of the appropriation for Yalobusha River from \$1,500 to \$2,000. That was a very momentous question to be considered by the committee of conference. It was very important to get that up \$500 and skip these improvements of importance to the country. Then when you get down to the Amite River in Louisiana, there was \$1,500 in the bill, but by some influence or other that item has been raised to \$2,000 in this last report that the committee has brought When you get down to Bayou Bartholomew in Louisiana, \$3,500 was the bill as passed by the Senate, and by a strong effort from Louisiana or some place else that amount has been raised to \$5,000. Then go down to another bayou, Courtableau, \$3,750, and the influence of my distinguished friend from Louisiana, I expect, raised it to \$5,000. So when you get over into Texas, represented on the committee by my distinguished friend the Senator from Texas [Mr. Coke], the amount for Cypress Bayou is increased from \$13,500 to \$18,000. I wonder what influence got hold of the committee of conference to give such a boost for that bayou down in Texas.

So you may go through the bill, and for some unexplained reasons or other the rivers and bayous in the South, which to-day is running the country so far as legislation is concerned, have managed by some means or other to get all that was wanted for them, and I do not know but more; while all the important improvements in the North have been passed by with the statement to me occasionally, "Do not ask for any more for Illinois River, or for Chicago River, because it might

injure the Hennepin Canal," and when the end comes the Hennepin Canal has disappeared from the bill.

Mr. GIBSON. Will the Senator from Illinois permit me to inter-

rupt him for a question?

Mr. CULLOM. Yes, sir.

Mr. GIRSON. I wish to state to the Senator from Illinois that I supported the Hennepin Conal, and that I have had about as much to do with increasing the appropriations for the bayous in Louisiana as he had. I do not now mean to speak, however, of the merits of those improvements. I merely wish to correct the intimation of the Senator that had sought to exert influence on the conferees. I have not been before them, nor have I attempted to exercise their judgment.

Mr. MILLER. I suppose the Senator from Louisiana, who is a member of the Committee on Commerce, heard the report which was made, which was to the effect that every item in the bill less than \$20,000 had been put back to the figure at which it originally passed the Senate before the reduction of 25 per cent. was made. That accounts for

all these additions.

Mr. McMILLAN. That is correct. I made the statement, and it

is in the RECORD.

Mr. GIBSON. If the Senator from Illinois will permit me, I have no doubt the improvements alluded to, though they appear to him to bear strange names, are meritorious. In fact I may say that they are meritorious. The Bayou Bartholomew, to which he refers, runs for 300 miles in the State of Arkansas, and is therefore an international stream, because it runs through two States, and that is the definition some strict constructionists require; but the appropriation in the bill about which I concern myself I think is quite as important as the Hennepin Canal. That is the Mississippi River, a stream with which I suppose the Senator from Illinois is familiar.

Mr. CULLOM. Perfectly.
Mr. GIBSON. If I understand the object of the Hennepin Canal it is to get communication with the Mississippi River, and I am sure that the Senator from Illinois will not undertake to deny that if it is important to improve the streams tributary to the Mississippi River and to dig canals in order to obtain communication from the lakes of the interior States in the Valley of the Mississippi River with that great river itself, it is equally important that we should deepen and improve the Mississippi River, the trunk line, to which all these other streams are tributaries. streams are tributaries.

I desire now with the permission of the Senator from Illinois to say that there has been no appropriation whatever for the Mississippi River Commission. This commission was organized under an act of Congress approved June 28, 1879, and the Senate adopted an amendment on the sundry civil bill providing for their salaries and expenses. I understand that the conferees on the part of the Senate consented that that appropriation should be stricken from the sundry civil bill, and that the conferees on that bill sent the amendment of the Senate respecting the Mississippi River Commission and the Missouri River Commission to the conferees on the river and harbor bill, and that instead of placing this amendment for the maintenance of the commissions intrusted with the improvement of these rivers and incorporating it upon the bill, they rejected it. I am constrained to express my profound regret at this, though I have no doubt they did all that was possible under the circumstances. The appropriation for the commission is, therefore, one under existing law not new legislation.

one under existing law not new legislation.

Here we are improving the Mississippi River, providing by law for the expenditure of \$2,000,000 on that river, and \$500,000 for the improvement of the Missouri River, the next river in this country, and yet denying the necessary funds for the payment of the salaries of the commission and for their expenses, and yet that commission has a plant of over a million and a quarter dollars. Now, there is no business in that.

Mr. COCKRELL. Then no such bill as this ought to pass.

Mr. GIESON. On general principles it should not, and but for the

Mr. GIBSON. On general principles it should not, and but for the perplexities and embarrassment attending this important bill I would make a motion to non-concur, but that motion might be construed to reflect upon the conferees, which, with my knowledge of the difficulties they have had to overcome, I can not get my own consent to do. I shall hope the Senator from Iowa [Mr. Allison], chairman of the Committee on Appropriations, will at the proper time offer the joint resolution I have prepared to meet the case. And at the worst, in my judgment, the salaries and expenses of the commissioners may be paid out of the appropriations for the Mississippi and Missouri Rivers. The Secretary of War will, I hope, so determine. Of course the officers on the commission authorized by law will be entitled to their salaries.

the commission authorized by law will be entitled to their salaries.

Mr. CULLOM. I desire to say in response to my honorable friend, the Senator from Louisiana that I had no intention whatever of intimating that he had improperly attempted to meddle with any conference or had done anything either in the Senate or out of it which was not entirely right and proper. I am only glad, if the rivers to which he refers are of the merit he seems to think they are, that the conference committee glided into them so nicely and gave the amount of money they wanted without the asking for it on his part. I am only sorry they did not see some of the rivers up in my country and do likewise.

Mr. McMILLAN. They did not come into the same classes. Mr. CULLOM. We did not seem to come into the same classes.

I wish to say furthermore that no man in the Senate or out of it has a greater desire than myself to see the grand Mississippi River improved as fully as it is possible to do it by money and skill and engineering; and I say it because I have always felt that way and have always advocated that policy on the part of the Government, and not only in relation to the Mississippi River but all the great rivers of the country, and the lakes, and the seaboard on our East and our West as well; and while I am for this grand improvement, which I regard as the most important measure that can come before Congress, I also want to see Senators take a little broader view than simply to look to the neighborhoods in which they live and get the rivers in which they are interested provided for and let other improvements go simply because work upon them has not yet been begun.

Now, sir, referring to this bill a little more, I see that when we get

over into Arkansas the rivers there fare splendidly under the administration of this last conference committee. I do not know how to explain it, unless it is because one of the new conferees happens to live

close by Arkansas.

Mr. McMILLAN. Will the Senator state who that was?

Mr. CULLOM. The Senator can tell. I suppose he was a gentleman from the House from the city of Saint Louis who got onto the conference committee. If he desires that I should name him, I can do so. The result was that the appropriations for a number of rivers in

that State have been increased.

Then after going a little further on in the bill we get over after a while into California, and there a new conferee turns up and there increases in appropriations are made. So that while I repeat again that I believe and have said all the time that the honorable conferees on the part of the Senate did the very best they could to resist these increases proposed in the South, and resisted the efforts on the part of the House conferees to get these canals out of the bill, yet their feeling was such that they yielded. I do not pretend to stand up and blame them for it, because it is a serious question, when it comes to the question whether we are to have no bill at all or the best we can get, what it is best to do, and I am willing to say that so far as they were concerned they felt that the time had come, if they were to get any bill, that they had to yield these measures and submit to the dictation of the conferees on the part of the House. The result is before us.

But I repeat again that so far as I am concerned, however much I

may feel interested in these improvements, taking the country over I do not feel that I can, consistently with my own sense of duty and my ideas of what ought to be done in this matter, submit to the passage of

this bill as reported without objection on my part.

I do not desire to take up the time of the Senate in discussing it for the purpose of consuming time, but I wish simply to say that I feel that the Senate conferees ought not to have consented to allowing those canals to go out of the bill and then report it here for the adoption of the Senate

The PRESIDENT pro tempore. The question is on concurring in the report of the committee of conference on the river and harbor bill. The report was concurred in.

ARMLESS OR LEGLESS PENSIONERS-RECALL OF BILL.

Mr. SEWELL. The House having adjourned for the day and the resolution amended a short time since not having gone to the House for action there, I move to reconsider the amendment adopted by the Senate asking the President to return the general pension bill to the

The PRESIDENT pro tempore. The Senator from New Jersey moves to reconsider the action of the Senate amending a resolution of the House in regard to recalling the bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service. If there be no objection, the amendment

will be reconsidered and disagreed to.

Mr. EDMUNDS: I wish the Chair would put the question to a

The PRESIDENT pro tempore. The Chair will put the question on the motion of the Senator from New Jersey to reconsider the vote.

The motion was agreed to.

The PRESIDENT pro tempore. The resolution stands agreed to without amendment.

RECESS.

Mr. ALLISON. I move that at 6 o'clock the Senate take a recess

until 8 p. m.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Iowa that at 6 o'clock the Senate take a recess until 8 o'clock p. m.

The motion was agreed to.

MARY J. NOTTAGE-VETO MESSAGE.

Mr. BLAIR. I call for the regular order.

The PRESIDENT pro tempore. The regular order is called for.
Mr. PUGH. I ask the Senate to proceed to the consideration of Order of Business 1827, being House bill 5196. It will not take five

minutes. It is a bill of local importance and it is very much desired by the two Senators from California that it should pass

Mr. BLAIR. I feel obliged to call for the regular order.

The PRESIDENT pro tempore. The regular order is the Nottege pension bill.

Mr. CONGER. I hope the Senator from New Hampshire will allow

this bill to pass.

Mr. BLAIR. I can not. I must insist on the regular order unless I am overruled by a vote of the Senate.

Mr. PUGH. I ask the Senator from New Hampshire to allow this bill to pass. It will not take five minutes. Unless that House bill is acted on now it can not go back to the House.

Mr. BLAIR. The House has adjourned.

The PRESIDENT pro tempore. Pending the regular order, the pension bill, the Senator from Alabama asks—

Mr. BLAIR. I call for the regular order.

The PRESIDENT pro tempore. The regular order is before the Senate. Pending that, the Senator from Alabama moves to proceed to the consideration of a bill the title of which will be stated.

consideration of a bill the title of which will be stated.

The CHIEF CLERK. A bill (H. R. 5196) to detach certain counties from the United States judicial district of California and create the United States judicial district of Southern California.

Mr. EDMUNDS. I appeal to the Senator from Alabama. I reported that bill myself, and it ought to go through; but it is the fair thing about this vetoed pension bill that we should act upon it, and we can provide for that bill in a little while. Do let us do one thing at a time. There is no objection to the bill, but there are a great many others, and I think as a matter of fair play to the President we ought to take one I think as a matter of fair play to the President we ought to take one square vote on one of these vetoed bills.

Mr. KENNA. Can not we arrange an hour for the consideration of

the House bills on our Calendar?

Mr. EDMUNDS. When we can get the one vote on this pension bill we shall see about that.

The Chair will receive a message The PRESIDENT pro tempore. from the House of Representatives.

Mr. PUGH. The bill could be passed while we are talking about it.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had concurred in the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 9478) making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1887, and for other purposes.

MARY J. NOTTAGE-VETO MESSAGE.

The PRESIDENT pro tempore. Does the Senator from Alabama withdraw his motion?

Mr. PUGH. Yes, sir.

The PRESIDENT pro tempore. The question before the Senate is on the passage of the bill (S. 2005) granting a pension to Mary J. Nottage, the objections of the President of the United States to the contrary notwithstanding. On this question the yeas and nays will be taken according to the requirement of the Constitution.

The Secretary proceeded to call the roll.

Mr. HALE (when Mr. FRYE's name was called). My colleague
[Mr. FRYE] is absent and paired with the Senator from Maryland

Mr. GEORGE (when his name was called). I am paired with the Senator from New Hampshire [Mr. Pike]. If he were present, I

should vote "nay."

Mr. KENNA (when his name was called). I vote "nay," but I desire in that connection to state that I have been instructed to announce a number of pairs, but in the confusion of the closing hours of the session I can not recall them, so that I may announce generally

that everybody who does not vote on this question is paired.

Mr. PALMER (when his name was called). I am paired with the
Senator from North Carolina [Mr. VANCE]. If he were here, I should

Mr. PLATT (when his name was called). I am paired with the Senator from South Carolina [Mr. HAMPTON]. If he were present, I should vote "yea."

Mr. RANSOM (when his name was called). I am paired with the

Senator from Illinois [Mr. LOGAN]. If he were here, I should vote

Mr. McMILLAN (when Mr. Sabin's name was called). My league [Mr. Sabin] is detained from the Senate by indisposition. has a general pair with the Senator from West Virginia [Mr. KENNA].

He would vote "yea" if he were here.

Mr. KENNA. If the Senator from Minnesota [Mr. McMillan] states that his colleague [Mr. Sabin] would vote "yea" if present, I withdraw my vote. Not knowing how he would vote, I will not take any risk of misrepresenting him. I cheerfully withdraw my vote if the Senator thinks his colleague would vote "yea."

Mr. McMILLAN. I have no doubt in my own mind how he would

vote if present.

Mr. KENNA. Then I withdraw my vote.

Mr. SEWELL (when his name was called). I am paired with my bleague [Mr. McPherson]. Otherwise I should vote "yea." colleague [Mr. McPherson].
The roll-call was concluded.

Mr. RANSOM. The Senator from Colorado [Mr. Bowen] is paired on this question with the Senator from Alabama [Mr. Morgan].

Mr. TELLER. My colleague [Mr. Bowen] is paired with the Senator from Alabama [Mr. Morgan]. The Senator from Rhode Island [Mr. Chace] is paired with the Senator from Tennessee [Mr. Whitthorne]. The Senator from Rhode Island would vote "yea," if present, as would my colleague.

Mr. CAMERON. I am paired with the Senator from South Caro-

lina [Mr. BUTLER].

Mr. SAULSBURY. Iam paired with the Senator from Vermont [Mr.

MORRILL]. If he were present, I should vote "nay." The result was announced—yeas 26, nays 19; as follows:

Allison, Blair, Cameron, Conger, Cullom, Dolph, Edmunds,	Evarts, Hale, Harrison, Hawley, Hoar, Ingalls, McMillan,	Mahone, Manderson, Miller, Mitchell of Oreg., Riddleberger, Sawyer, Sherman,	Spooner, Stanford, Teller, Wilson of Iowa, Wilson of Md.
--	--	--	--

		NA1S-19.		
Beck, Berry, Blackburn, Brown, Butler,	Call, Coekrell, Coke, Eustis, Gibson,	Gray, Harris, Hearst, Jones of Arkansas, Maxey,	Payne, Pugh, Vest, Walthall.	

ABSENT-31.

Aldrich, Bowen, Camden, Chace, Colquitt, Dawes, Fair, Frye,	George, Gorman, Hampton, Jones of Florida, Jones of Nevada, Kenna, Logan, McPherson,	Mitchell of Pa., Morgan, Morrill, Palmer, Pike, Platt, Plumb, Ransom,	Sabin, Saulsbury, Sewell, Vance, Van Wyck, Voorhees, Whitthorne.

The PRESIDENT pro tempore. Two-thirds not having voted in favor of the bill, it is not passed.

JOSEPH ROMISER-VETO MESSAGE.

Mr. BLAIR. I desire to call the attention of the Senator from Maryland [Mr. WILSON] to the bill which he has in charge, in regard to which I do not understand that there is any controversy, which might be disposed of at this time, and very likely without any discussion at all, if the Senator will call it up. It is on the sixteenth page of the Calendar. It is the bill which has passed the House over the veto and which has been reported unanimously by the Senate committee.

Mr. HARRIS Is that a vetoed bill?

Mr. HARRIS. Is that a vetoed bill?

Mr. EDMUNDS. Yes.

Mr. WILSON, of Maryland. It was returned to the House by the President and there passed by a two-thirds vote over his objections. ask that it be taken up.

The Senate proceeded to consider the bill (H. R. 1059) to grant a

pension to Joseph Romiser.

The PRESIDENT pro tempore. The question is, Shall the bill pass, the objections of the President of the United States to the contrary,

notwithstanding?

Mr. WILSON, of Maryland. This bill was vetoed by the President under the supposition that no application had been made to the Pension Office for the allowance of a pension by the applicant in this case. The President had been informed from the Pension Office that no application had been made and no proof filed. Under that supposition he vetoed the bill, not having the facts of the case before him. In fact, the veto was not the deliberate judgment of the President. I have the papers here now, which the President knew not of at the time he vetoed the bill. These papers contain proof sufficient to satisfy anybody that the applicant is entitled to the pension. I firmly believe if the President had seen these papers and examined them the bill would now be a law and we should be saved the necessity of acting on the veto.

Mr. HARRIS, Does the Senator from Maryland state that the President sent to the Pension Office for the papers and was told they were

not there?

Mr. WILSON, of Maryland. The President sent for the papers, but it appears that when they were sent back from Congress after the bill had passed they were in some way misplaced in the Pension Office, and when the President sent there the clerks could not find them, and a message was sent to the President from which he inferred that no application had been made and no papers filed.

Mr. HARRIS. He came to the conclusion that no application had ever been made to the Pension Office; and you think if he had seen the papers he would have signed the bill?

Mr. WILSON, of Maryland. I feel certain that pensions have been granted from the foundation of this Government and even before its foundation during the old Continental Congress under precisely such circumstances as these. Such bills were signed by General Jackson, and there are precedents back to the time of Washington. They were passed in the time of Lincoln; they were passed in the time of Grant,

and they have been passed in the time of President Cleveland under

precisely similar circumstances.

Mr. COCKRELL. I should like to know how it is that a clerk competent to discharge the duties of his office in the Pension Office could

make such a report.

Mr. WILSON, of Maryland. It is very strange.

Mr. COCKRELL. Do they not keep in the Pension Office a record, independent of the bundles of papers with the labels on them in each

Mr. WILSON, of Maryland. I can not state to the Senator from Missouri all the circumstances under which this report was made, but certain it is that the President had not the papers before him; certain it is that the President states in his veto message that he has been informed by the Pension Office that such papers were not there and were not in existence. I hold in my hand now the papers, and I think they prove the state of facts beyond all controversy, which if the President had known he never would have vetoed the bill. As I said before, there are precedents innumerable in the history of the Government of pension bills passed in just such cases.

Mr. COCKRELL. One question. I want to get at the point of how this information came to be sent to the President that there were no papers on file and that there had been no application filed. Do they not keep in the Pension Office a record showing the name of the application of the arming the pension of the pension of

not keep in the Pension Office a record showing the name of the applicant, the date of his application, his post-office address, and whether the application has been acted on, whether it is pending, or whether it

has been allowed?

Mr. WILSON, of Maryland. I presume they do, but I can only account for it by the carelessness on the part of the clerk on whose infor-

mation the President acted.

Mr. WHITTHORNE. I am thoroughly satisfied myself from my examination of this case, not being on the committee at the time it was originally examined, that there was a mistake, and that this is a meritorious case, and that it ought to pass, everybody to the contrary notwithstanding

The PRESIDENT pro tempore. The question is on the passage of the bill, the objections of the President of the United States to the contrary notwithstanding; on which question the yeas and nays will be taken in accordance with the requirement of the Constitution.

The Secretary proceeded to call the roll.

Mr. PLATT (when his name was called). I am paired with the Senator from South Carolina [Mr. HAMPTON], but I think on this vote I I vote "

may vote. I vote "yea."

Mr. SAULSBURY (when his name was called). I am paired with the Senator from Vermont [Mr. Morrill].

The roll-call having been concluded, the result was announced—yeas

50, nays 0; as follows:

The PRESIDENT pro tempore. The bill is passed unanimously. COURTS IN CALIFORNIA.

Mr. BLAIR. We should like to consider some more of these cases

Mr. EDMUNDS. I want to ask unanimous consent to do something, I ask unanimous consent that the bill for the southern district of California may be taken up, considered, and passed. We can do it before 6 o'clock, and our friends from California have not asked any favors of the Senate, and for them I make this request.

By unanimous consent the Senate, as in Committee of the Whole, proceeded to consider the bill (H. R. 5196) to detach certain counties from the United States judicial district of California and create the

United States judicial district of Southern California. Mr. EDMUNDS. I ask unanimous consent to extend the time for the recess five minutes.

The PRESIDENT pro tempore. That order will be made if there be no objection. The Chair hears none. The amendments reported by the Committee on the Judiciary to this bill will be stated.

The first amendment reported by the Committee on the Judiciary was to strike out section 4, in the following words:

SEC. 4. That the circuit or district court for either of said districts may, in its

discretion, order special terms, and order a grand or petit jury, or both, to attend the same, by an order to be entered of record twenty days before the day at which said special terms shall be ordered to convene; and said courts, respectively, at such special terms shall have all the powers that they have at a regular term appointed by law: Provided, houever, That no special term of said circuit court for either district shall be appointed except by and with the concurrence and consent of either the circuit judge or circuit justice.

The amendment was agreed to.

The next amendment was, in section 8, line 4, after the word "payable," to strike out "monthly" and insert "quarterly;" so as to

SEC. 8. That there shall be appointed a district judge for said southern district of California, who shall reside therein, and who shall receive an annual salary of \$4,000, payable quarterly from the Treasury.

The amendment was agreed to.

The next amendment was, in section 9, line 6, after the word "fixed," to insert "and limited;" and in the same section, after the word "law," at the end of line 7, to strike out the words:

The same person may be appointed clerk of both courts.

So as to make the section read:

SEC. 9. That the circuit and district judges of said southern district of California shall each, respectively, appoint a clerk for their respective courts, who shall reside and keep their office at Los Angeles, in said district, and who shall receive such fees and compensation for services performed by them, respectively, as are now fixed and limited by law.

The amendment was agreed to.

The next amendment was, in section 11, line 5, after the words "and emoluments now," to strike out "received by them" and insert "provided by law;" so as to make the section read:

SEC. 11. That nothing in this act shall in any manner affect the tenure of office of the judge, marshal, United States attorney, or other officers of the present district of California, who shall, respectively, be entitled to the same salaries, fees, and emoluments now provided by law.

The amendment was agreed to.

The next amendment was, after section 11, to insert the following new section:

SEC. 12. That all offenses heretofore committed in the district of California shall be prosecuted, tried, and determined in the same manner and with the same effect, to all intents and purposes, as if this act had not been passed.

The amendment was agreed to.

The next amendment was to strike out section 12 of the bill, as

SEC. 12. That this act shall take effect from and after its passage.

The amendment was agreed to.

The bill was reported to the Senate as amended, and the amendments were concurred in.

The amendments were ordered to be engrossed and the bill to be read a third time.

The bill was read the third time, and passed.

Mr. EDMUNDS. I move that the Senate insist on its amendments and ask for a conference with the House of Representatives thereon.

The motion was agreed to.

By unanimous consent, the President pro tempore was authorized to appoint the conferees on the part of the Senate, and Mr. EDMUNDS, Mr. INGALLS, and Mr. PUGH were appointed.

ENOLS LLOYD.

Mr. HARRISON. I want to ask the Senate to consider a little House bill of nine lines favorably reported from the Committee on Military Affairs-House bill 3318.

The PRESIDENT pro tempore. The Senator from Indiana asks the unanimous consent of the Senate to proceed to the consideration of a bill the title of which will be stated.

The CHIEF CLERK. "A bill (H. R. 3318) for the relief of Enols

Lloyd."

By unanimous consent the Senate, as in Committee of the Whole. proceeded to consider the bill. It provides for payment to Enols Lloyd of the pay of a wagoner of artillery from the 10th of May, 1863, to the 1st of September, 1864, on account of services rendered in that capacity in Battery G, First Michigan Light Artillery Volunteers.

The bill was reported to the Senate without amendment, ordered to

a third reading, read the third time, and passed.

PACKING AND SELLING CUT TOBACCO.

Mr. MAHONE. I offer an amendment which I intend to propose to the bill (H. R. 8738) to so further amend section 3362 of the Revised Statutes as amended and section 3363 as makes a distinction in the mode of packing and selling tobacco, and I move that it be referred to the Committee on Finance.

The motion was agreed to.

REPORTS OF COMMITTEES.

I had no opportunity in the morning hour to make Mr. MAHONE. I had no opportunity in the morning nour to make some reports. I now desire to report from the Committee on Public Buildings and Grounds without amendment the bill (H. R. 9371) for the completion of a public building at Santa Fé, N. Mex.

I also report from the same committee with an amendment the bill (S. 1597) for the erection of a public building at Yonkers, N. Y.

Mr. MILLER. I ask that that may lie on the table instead of go-

ing to the Calendar; I desire to ask utanimous consent this evening or to-morrow morning to passuit.

Mr. HARRIS. It will be in the same position if put on the Calen-

The PRESIDENT pro tempore. The bill will lie on the table.
Mr. MAHONE. The Committee on Public Buildings and Grounds report a joint resolution from the House of Representatives, that only embraces about five lines, which is necessary to give effect to a public building bill passed for the State of Georgia some weeks ago, and I ask

its immediate consideration.

Mr. EDMUNDS. There is not time now.

The PRESIDENT pro tempore. The hour of 6 o'clock and 5 minutes having arrived, it is the duty of the Chair to declare a recess until 8 o'clock.

EVENING SESSION.

The Senate reassembled at 8 o'clock p. m.

PETITION.

Mr. BLAIR presented the petition of Mrs. Sarah E. Rose, of Bloomfield, N. J., praying remuneration on account of confiscation of the schooner W. H. Rutan by the Government; which was referred to the Committee on Claims.

R. A. FENNELL.

Mr. VANCE, from the Committee to audit and Control the Contingent Expenses of the Senate, reported the following resolution for con-

Resolved, That one month's pay, from 15th April to the 15th May, be paid by the Secretary of the Senate out of the contingent fund of the Senate to R. A. Fennell, a messenger removed from office.

BILL INTRODUCED.

Mr. BLAIR introduced a bill (S. 2888) granting a pension to Mary J. Nottage; which was read twice by its title, and referred to the Com-

MISSISSIPPI AND MISSOURI RIVER COMMISSIONS.

Mr. ALLISON. I ask unanimous consent to introduce a joint reso-

lution and to put it upon its passage.

The joint resolution (S. R. 83) for the payment of the salaries of the Mississippi and Missouri River Commissions, and for other purposes, was read the first time by its title.

The PRESIDENT pro tempore.

Is there objection to the present consideration of the joint resolution?

Mr. EDMUNDS. I have no objection to its being considered sub-

ject to objection.

Mr. ALLISON. Very well.

The PRESIDENT pro tempore. The joint resolution will be read, subject to objection.

The joint resolution was read the second time at length, as follows: Be it resolved, &c., That the sum of \$50,000, out of any money in the Treasury not otherwise appropriated, be, and is hereby, appropriated for the payment of the salaries, traveling and office expenses, and contingencies of the Mississippi River Commission and the assistant engineers under them; and the sum of \$20,000 is hereby appropriated for the payment of the salaries, traveling and office expenses, and contingencies of the Missouri River Commission and assistant engineers under them.

Mr. EDMUNDS. I shall reserve the right to object. As it is taken up, I should like to have the Senator from Iowa explain how it happens that after the sundry civil bill, and the deficiency bill, and the river and harbor bill, and every other kind of a bill has been disposed of, that it turns out that it requires a special and speedy appropriation of

this kind to carry on the affair.

Mr. ALLISON. I will explain. Hitherto it has been the custom to appropriate for these two commissions in the sundry civil bill. The Senate inserted these two items in the sundry civil bill, and they passed the Senate. When the bill came into conference it was insisted on the part of the conferees of the House that this properly and appropriately belonged to the river and harbor bill, which I think was a very reasonable claim, and they insisted that they would not appropriate for it in the sundry civil bill. Thereupon the Senate conferees agreed that the item might be stricken from the sundry civil bill, and it was so done.

Immediately I notified the chairman of the Committee on Commerce and another conferee on the part of the Senate on the river and harbor bill that this was stricken from the sundry civil bill, and that if provided for at all it should be provided for in the river and harbor bill.

The conferees on the river and harbor bill provided for the continuance of the work on the Mississippi River and on the Missouri River under these commissions, but failed to make provisions for the neces-sary expenses of the two commissions, so that the river and harbor bill thus having passed to-day without this provision, and the sundry civil bill also having been passed without the provision, if these two commissions are to remain in charge of the work on the Mississippi and Missouri Rivers it is necessary that the joint resolution should be passed.

Mr. EDMUNDS. It is certainly a very singular thing that this empirical kind of legislation in what is supposed to be happily the last hours of the session has to be resorted to, when two committees

within twenty-four hours, one or the other or both of which ought to have had this item, if it be proper, as I have no reason to doubt it is, in one or the other of those bills, should follow right on after the passage of those bills, and it is necessary to have a separate measure to piece out one or the other of those two bills. I do not like that kind of legislation, but I shall not object if my friend from Iowa states, as I understood him to do, that this provision is precisely in the form in which it stood in the sundry civil bill.

Mr. ALLISON. It is, except that the amount is reduced in one in-

stance from \$100,000 to \$50,000.

Mr. EDMUNDS. But the modus is the same.
Mr. ALLISON. The modus is substantially the same.
Mr. EDMUNDS. Then I shall not object, but I hope it will never

Mr. ALLISON. I hope not either; and I wish to say that the Committee on Appropriations is in no sense responsible for this failure. It

is a matter which properly and legitimately belongs to the river and harbor bill, and it ought to have been provided for in that bill.

Another reason why the sundry civil bill does not contain it is the fact that up to the very last moment, and up to the report of the conferees on the part of the two Houses, it was not known whether the Mississippi River Commission would be abolished or continued, because the House bill abolished the Mississippi River and Missouri River Com-missions. The matter was thus held in controversy until the very last moment, and it was not until to-day that it was known whether the river and harbor bill would include these two commissions.

Mr. RANSOM. Mr. President, I shall not detain the Senate. I will simply say that the chairman of the Committee on Appropriations is mistaken in saying that this provision properly belonged to the river and harbor bill. It never has been put upon that bill. However, I do not care to debate the question. I wish to have the joint resolution

By unanimous consent the joint resolution was considered as in Committee of the Whole, reported to the Senate without amendment, ordered to be engrossed for a third reading, read the third time, and passed.

PUBLIC BUILDING AT SAVANNAII.

Mr. SPOONER. When the Senate took the recess the Senator from Virginia [Mr. MAHONE] I think had the floor to make some reports from the Committee on Public Buildings and Grounds. He had not finished, and asked me, stating that he could not be here this evening, to make for him a favorable report, and to ask that the measure be

acted upon at this time.

Mr. EDMUNDS. The last part I object to.

Mr. SPOONER. It will take but a moment; it is a House resolu-

The PRESIDENT pro tempore. The resolution reported by the Senator from Wisconsin will be read by its title.

The CHIEF CLERK. A joint resolution (H. Res. 209) permitting the public building authorized by act of Congress approved June 30, 1886, at Savannah, Ga., to be located not less than 40 feet from any other building, instead of 50 feet, as provided in said act.

The PRESIDENT pro tempore. Is there objection to the present consideration of the joint resolution?

Mr. EDMUNDS. I object for the time being, until I can understand it.
Mr. SPOONER. I can explain it in a moment.
Mr. EDMUNDS. I want to see the old law.
Mr. SPOONER. The old law which was passed—

PUBLIC BUILDING AT YONKERS.

Mr. MILLER. I ask unanimous consent to take up the bill (S. 1597) for the erection of a public building at Yonkers, N. Y., which was reported favorably by the Senator from Virginia [Mr. MAHONE] just be-

The PRESIDENT pro tempore. Is there objection?

Mr. EDMUNDS. I object for the time being, until I can under-

Mr. BLAIR. I desire to call up Order of Business 1865. Mr. MILLER. I should like to inquire for my own satisfaction what information the Senator from Vermont desires to have in regard to these measures.

RELATIONS BETWEEN LABOR AND CAPITAL.

The PRESIDENT pro tempore. The Senator from New Hampshire moves that the Senate proceed to the consideration of a resolution on the Calendar. The resolution will be read.

the Calendar. The resolution will be read.

The Chief Clerk read the following resolution, submitted by Mr. BLAIR July 31, 1886:

Resolved, That the Committee on Education and Labor be directed to continue, with a view to its completion during the ensuing vacation, the investigation of the relations between labor and capital authorized and directed by Senate resolutions of August 7, 1882, and February 26, 1883, with the same rights and powers conferred by previous resolutions of the Senate.

The PRESIDENT protempore. The question is on proceeding to the consideration of the resolution.

Mr. COCKRELL. Is that in order?

Mr. COCKRELL. is that in order?

The PRESIDENT pro tempore. A motion is made to proceed to the consideration of the resolution, which is in order.

Mr. BLAIR. It will take but a moment.

The motion was agreed to.

The PRESIDENT pro tempore. The resolution is before the Senate, and the question is on agreeing to it.

Mr. BLAIR. Last year the committee was directed to proceed to the completion of its investigation, which is already substantially completed. It remains to prepare a single volume. Much of the evidence has been obtained and taken; but I was chairman of the committee, and owing to the fact that my election did not take place until after the termination of the session a question was raised as to my authority to proceed in the expenditure of public money. I thought it was a question which was so serious that I did not undertake the completion of the work; and so it has not been done to the present time. There will not be any great amount of expense attending it, and I simply desire authority to do in the coming vacation what otherwise would have been done in the last.

Mr. TELLER. How much will be the expense?

Mr. BLAIR. Of course I can not tell exactly. I have no idea that

it will be \$2,000.

Mr. COCKRELL. It will be the expense of a regular clerk and stenographer and the paraphernalia, I suppose, that attends these special committees

Mr. BLAIR. There have been some eight or ten of the kind already granted at this session; and I assure the Senator that if the committee has a clerk, and it needs to have one, there will not probably be occasion for the amount of expense that would otherwise attend the employment of a clerk, as it is impossible to complete this work without some assistance

Mr. COCKRELL. Does this refer to those four or five volumes of

reports that were printed two or three years ago?

Mr. BLAIR. It refers to the completion of the last volume. Four of them are already complete and published. The remaining, the fifth

wolume, is partially prepared.

Mr. COCKRELL. Are you going to commence the work over again and go over the same field that you did in the beginning, and get up another investigation, going all over the country, taking additional testimony, and bringing in four or five volumes more?

Mr. BLAIR. There is not the slightest design of anything of the

sort. A corresponding committee of the House of Representatives has been authorized to go on and make a similar investigation during the coming vacation. I assure the Senator that the committee, so far as I know anything about it, has only one desire, and that is to get through with what it has undertaken. It is not likely to attempt anything further than is absolutely necessary to the completion of the work that has been placed upon it.

Mr. COCKRELL. I am opposed to all these peripatetic committees.
Mr. TELLER. I do not know that I want to object to the completion of the work of the committee, but I wish to give notice that hereafter I shall object to all this class of expenditures. I believe that we have been expending a great deal of money which has been thrown away in enterprises of this kind. I want now to give notice that I shall feel at liberty hereafter, when a proposition of this kind is made, to antagonize it, no matter who makes it.

to antagonize it, no matter who makes it.

The PRESIDENT pro tempore. The question is on agreeing to the

resolution.

The resolution was agreed to-ayes 21, noes not counted.

MILITARY SITE ON LAKE MICHIGAN.

Mr. CULLOM. Before my colleague [Mr. Logan] went away he made one or two efforts to get up a joint resolution which he had introduced and which he was very anxious to have passed. I hope the Senate will allow it to come up and be acted upon at this time. Senate joint resolution 78.

The PRESIDENT pro tempore. The Senator from Illinois moves that the Senate proceed to the consideration of the joint resolution (S. R. 78) authorizing the Secretary of War to accept certain lands,

&c., near Chicago, Ill.

Mr. BECK. That can not go by unanimous consent. I do not object to its consideration, but I desire to debate it.

Mr. CULLOM. I move that it be now considered.
Mr. BECK. I do not object to its consideration, but I shall oppose the passage of the joint resolution.
The PRESIDENT protempore. The Senator from Illinois moves that the Senate proceed to the consideration of the joint resolution which has been indicated.

The motion was not agreed to.

SUNDRY CIVIL APPROPRIATION BILL.

Mr. ALLISON submitted the following report; which was read:

The committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 9478) making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1887, and for other purposes, having met, after full and and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 4, 10, 11, 14, 15, 16, 21, 22,

26, 29, 31, 32, 33, 34, 35, 37, 41, 45, 50, 59, 61, 75, 76, 77, 81, 82, 83, 84, 87, 89, 18, 103, 104, 105, 106, 107, 110, 113, 119, 122, 124, 125, 126, 134, 135, 136, 146, 149, 150, 154, 159, 161, 162, 163, 164, 174, 176, 178, 182, 183, 185, 188, 193, 199, 200, 201, 207, 219, 222, 232, 233, 231, 235, and

the amendment of the Senate numbered 48, and agree to the same with an amendment as follows: Strike out the amended paragraph; and the Senate agree to the same.

Amendment of the Senate numbered 63, and agree to the same with an amendment of the Senate numbered 63, and agree to the same with an amendment insert the following: "The Light-House Board is hereby authorized to place a light-ship off the south end of Ram Island Reef, Fisher's Island Sound, Long Island Sound, New York;" and the Senate agree to the same.

Amendment numbered 71: That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate numbered 74, and agree to the same.

Amendment numbered 78: That the House recede from its amendment to the Senate amendment to the Senate amendment as follows: Strike out of said Senate amendment the words "Great Kanawha River, West Virginia;" and the Senate agree to the same.

Amendment numbered 79: That the House recede from its disagreement to the amendment of the Senate numbered 79, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$190.000;" and the Senate agree to the same.

Amendment numbered 80: That the House recede from its disagreement to the amendment of the Senate numbered 80, and agree to the same with an amendment as follows: In lieu of the matter proposed to be stricken out insert the following: "And including traveling expenses of officers and men of the Navy on duty; for commutation to officers of the field force while on field duty, at a rate to be fixed by the Secretary of the Treasury not exceeding \$2.50 per day each;" and the Senate agree to the same.

Amendment as follows: In lieu of the sum proposed insert "\$3,000;" and the Senate agree to the same.

Amendment numbered 85: That the House recede from its disagreement to the amendment of the Senate numbered 88, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$3,000;" and the Senate agree to the same.

Amendment numbered 79: T

amendment as follows: In lieu of the sum proposed insert "\$4,000;" and the Senate agree to the same.

Amendment numbered 79: That the House recede from its disagreement to the amendment of the Senate numbered 79, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$190,090;" and the Senate agree to the same.

Amendment numbered 80: That the House recede from its disagreement to the amendment of the Senate numbered 80, and agree to the same with an amendment as follows: In lieu of the matter proposed to be stricken out insert the following: "And including traveling expenses of officers and men of the Navy on duty; for commutation to officers of the field force while on field duty, at a rate to be fixed by the Secretary of the Treasury not exceeding \$2.50 per day each;" and the Senate agree to the same.

Amendment numbered 85: That the House recede from its disgreement to

the amendment of the Senate numbered 85, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$3,005;" and the Senate agree to the same.

Amendment numbered 85: That the House recede from its disagreement to the amendment of the Senate numbered 86, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$3,000;" and the Senate agree to the same.

Amendment numbered 88: That the House recede from its disagreement to the amendment of the Senate numbered 88, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$1,500;" and the Senate agree to the same.

Amendment numbered 90: That the House recede from its disagreement to the amendment of the Senate numbered 90, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$1,000; and the Senate agree to the same.

Amendment numbered 91: That the House recede from its disagreement to the amendment of the Senate numbered 91, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$2,250;" and the Senate agree to the same.

Amendment numbered 92: That the House recede from its disagreement to the amendment of the Senate numbered 92, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$2,250;" and the Senate agree to the same.

Amendment numbered 92: That the House recede from its disagreement to the amendment of the Senate numbered 92, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$1,500;" and the Senate agree to the same.

Senate agree to the same.

Amendment numbered 94: That the House recode from its disagreement to the amendment of the Senate numbered 94; and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$3,000;" and the Senate agree to the same.

agree to the same.

Amendment numbered 95: That the House recede from its disagreement to the amendment of the Senate numbered 95, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$101,550;" and the Senate agree to the same.

Amendment numbered 96: That the House recede from its disagreement to the amendment of the Senate numbered 96, and agree to the same with an amendment as follows; In lieu of the matter proposed to be inserted insert the following: "For furnishing points for State surveys, to be applied as far as practicable in States where points have not been furnished, \$8,000;" and the Senate agree to the same.

amendment of the Senate numbered 96, and agree to the same with an amendment as follows; In lieu of the matter proposed to be inserted insert the following: "For furnishing points for State surveys, to be applied as far as practicable in States where points have not been furnished, \$8,000;" and the Senate agree to the same.

Amendment numbered 99: That the House recede from its disagreement to the amendment of the Senate numbered 99, and agree to the same with an amendment as follows: Strike out line I of the matter proposed to be inserted by said amendment, and in lieu of the sum proposed in the last two lines of the matter proposed to be inserted insert "\$123,178.82;" and the Senate agree to the same.

Amendment numbered 132: That the House recede from its disagreement to the amendment of the Senate numbered 123; and agree to the same with an amendment as follows: In lines II and 12 of gaid amendment strike out the words: "\$5,000;" and the Senate agree to the same.

Amendment numbered 138: That the House recede from its disagreement to the amendment of the Senate numbered 138, and agree to the same with an amendment as follows: In lieu of the sum proposed in said amendment into the same with an amendment as follows: In lieu of the matter proposed to be stricken out insert the following, namely: "For extending the fourth floor around the whole building, to extend the wrought-iron gallery, and to provide light, heat, and ventilation for the new fourth-story rooms to be used for record rooms, \$61,000;" and the Senate agree to the same.

Amendment numbered 139: That the House recede from its disagreement to the amendment of the Senate numbered 139, and agree to the same with an amendment as follows: In lieu of the matter proposed to be stricken out insert the following: "In all, \$150,000; and the said Pension Office building shall be under the control of the Senate numbered 143, and agree to the same with an amendment as follows: In lieu of the matter proposed to be stricken out by said amendment as follows: In l

amendment as follows: In lieu of the sum proposed insert "\$225,000;" and the Senate agree to the same.

Amendment numbered 187: That the House recede from its disagreement to the amendment of the Senate numbered 187, and agree to the same with an amendment as follows: In lieu of the matter proposed insert the following: "Wharf at Fort Monroe, Virginia: In full for the construction and completion of a new wharf, and improvements to the roadway leading thereto, on the Government reservation at Fortress Monroe, Va., upon plans to be approved by the Secretary of War, \$100,000, or so much thereof as may be necessary for the purpose;" and the Senate agree to the same.

Amendment numbered 195: That the House recede from its disagreement to the amendment of the Senate numbered 195, and agree to the same with an amendment as follows: In lieu of the matter proposed by said amendment insert the following: "And in reducing the force the enlisted men at Fort Myer, Virginia, denoted the 'permanent party,' shall first be mustered out: Provided, That this restriction shall not apply to the pay or commutation or expense of return from their stations to their homes of any enlisted men in excess of the four hundred and seventy men, accruing prior to the passage of this act;" and the Senate agree to the same.

Amendment numbered 212: That the House recede from its disagreement to the amendment of the Senate numbered 212, and agree to the same with an amendment as follows: In lieu of the matter proposed insert: "For necessary

construction and repairs at Southern Branch, Hampton, Va., under estimate in Appendix J j, pages 299 and 300, Book of Estimates for 1887, \$57,500;" and the Senate agree to the same.

Amendment numbered 213: That the House recede from its disagreement to the amendment of the Senate numbered 213, and agree to the same with an amendment as follows: In lieu of the sum proposed insert "\$1,631,000;" and the Senate agree to the same.

Amendment numbered 220: That the House recede from its disagreement to the amendment of the Senate numbered 220, and agree to the same with an amendment as follows: In lieu of the sum proposed in said amendment insert "\$5,000;" and the Senate agree to the same.

Amendment numbered 221: That the House recede from its disagreement to the amendment of the Senate numbered 221, and agree to the same with an amendment as follows: In lieu of the sum proposed in said amendment insert "\$40,000;" and the Senate agree to the same.

Amendment as follows: That the House recede from its disagreement to the amendment of the Senate numbered 237, and agree to the same with an amendment as follows: In line 1 of said amendment, after the word "and," where it first occurs, insert the word "hereafter;" and the Senate agree to the same.

Amendment numbered 243: That the House recede from its disagreement to the amendment of the Senate numbered 243, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by said amendment insert the following:

"SEC, 2. That the appropriations herein provided for shall take effect from and after July 31, 1385."

And the Senate agree to the same.

Manag

W. B. ALLISON, EUGENE HALE, J. B. BECK, rs on the part of the Senate. SAM. J. RANDALL, WM. H. FORNEY, THOS. RYAN, Managers on the part of the House.

Mr. EDMUNDS. I wish to hear that explained.

Mr. DAWES. I should like to make an inquiry of the chairman of the committee. In a recent act a light-house was authorized to be the committee. erected at Gould Island in Narragansett Bay, and an appropriation was inserted by way of an amendment by the Senate Committee on Appropriations for the equipment of that light-house. I should like to make an inquiry what disposition was made of that amendment by the committee of conference.

Mr. ALLISON. That light-house, I think, was omitted from the bill as finally agreed on for the reason that on consultation with the two secretaries of the Light-House Board they stated that this light-

house could be postponed until next year.

Mr. DAWES. I suppose that was on the ground that if there an accident did not happen, and if no wreck should occur there, caused by the absence of it, it would do just as well next year. If there was any need of the light-house, which is provided for by statute, that need it seems to me would be just as pressing between now and next year as after next year. Was the Senator informed by the secretaries of any reason why they thought it would be safe to do without a light-house

until next year

Mr. ALLISON. I may say respecting the entire light-house provision, covering an aggregate amounting to nearly \$500,000 inserted by the Senate because of a bill which had passed the Senate a day or two before, and which was reported by the Senate Committee on Commerce, the House conferees insisted that they would not agree to an appropriation for all these light-houses. We said to the House conferees that inasmuch as there had been a recent statute upon this subject, and an examination by the Committee on Commerce, we could make no dis-tinction between these light-houses in respect to our obligation to insert them in the bill, and that as it appeared to us from a recent adjudica-tion of one of our own committees and the action of the Senate and of the House, we proposed to insert the whole of it. Thereupon the House conferees stated that they knew a portion of these light-houses could be postponed until next year; whereupon the two secretaries, the naval

postponed until next year; whereupon the two secretaries, the naval secretary and the Army secretary of the board, were called to ascertain what should be done with these lights.

The Gorld Island light—I speak from memory—is a light which is now supported, I believe, by one of the steamship companies whose boats traverse Long Island Sound, and it was thought that possibly they could maintain this light for another year, as they have maintained it for a good many years, and that the Government could build it next year as well as now; and it was more that idea that the conit next year as well as now; and it was upon that idea that the con-

ALM-

ferees acted. Mr. DAWES. The amendment was left out on the advice of the Light-House Board?
Mr. ALLISON. It was.
Mr. TELLER. How much would it cost to put it in?

Mr. ALLISON. It would cost \$10,000.

Mr. DAWES. One question more. I should like to inquire of the Senator what disposition was made of the amendment making an ap-

propriation of \$25,000 for the purposes of education in Alaska?

Mr. ALLISON. The Senator from Massachusetts takes the beginning and the ending of this bill and makes inquiries. The House conferees were not quite as vigorous on education in Alaska as were the Senate conferee

Mr. EDMUNDS. They did not want light on either side of the con-

Mr. ALLISON. No, they insisted that this item should be stricken out. After many friendly expressions of opinion on both sides it was

finally arranged that \$15,000 should be appropriated to the education of the native races in Alaska.

Mr. DAWES. I should like to inquire if the committee went into an investigation to ascertain about how much schooling in Alaska

\$15,000 would support?

Mr. ALLISON. We did not go into a detailed statement of that matter, although I think it would be healthy to make some investigation upon the subject. We had before the conferees a report made by a responsible agent of the Government in Alaska, in which he stated distinctly that there was one school of which he had familiar knowledge wherein there were five pupils and three teachers, and we supposed there might fairly be a reduction in the number of teachers and in the expenses in view of the statement made.

Mr. DAWES. Did the committee consider whether it might not be

better to improve the administration than to cut down the appropria-

Mr. ALLISON. Of course we should be very glad to improve the administration if we could do so, but that we find is a very difficult task at this moment.

Mr. DAWES. One question more, if the Senator will excuse me. There was an amendment inserted by the Senate appropriating a sufficient sum for the purchase of some land at the Carlisle school. What

disposition was made of that amendment?

Mr. ALLISON. I will say that the Senate conferees very reluctantly surrendered that appropriation, and we did it upon the statement from the House conferees, first, that we were paying a considerable sum be-yond the value of the land, and, secondly, that the land which it was proposed to purchase was not in the immediate neighborhood of the present Carlisle school farm.

Mr. TELLER. Then you were told what was not true.

Mr. ALLISON. Very likely, but in the hurry of the moment we could not send to Carlisle for further information upon the subject, and

concluded to let the matter go over until next winter.

Mr. DAWES. It seems that I have been very unfortunate in my selection of inquiries thus far, and I shall omit making any more, lest

I meet with further disappointment.

Mr. TELLER. I should like to say with reference to the Carlisle school that the committee had before it the report of the Department showing exactly how much this land would cost, the statement that it snowing exactly now much this land would cost, the statement that it was adjoining the school, abutting right on the present ground. Every fact that was necessary the committee had in print, which had been submitted by the Department. I do not see why they should have taken the information of the conferees of the House upon the question when the Department had sent here under the signature of the Secretary of the Interior a full and complete statement.

Mr. DAWES. And a statement of the precise cost.
Mr. TELLER. Together with a statement of the cost and just what was to be done with the money. If the conferees of the House made any statement that this land was not adjoining the land now occupied

with buildings they were certainly ignorant of the facts.

Mr. ALLISON. It adjoins the barracks but, not the farm.

Mr. TELLER. The Government has not got any farm. The pub-Mr. TELLER. The Government has not got any farm. The public-spirited, enterprising people of this country have bought a farm and put it in the hands of trustees and it is held for the benefit of that school. The Government has never put a dollar in it, and it has no business to exact that it should be adjoining that farm, which is 2½ miles away. It had nothing to do with this farm. The Government has not any claim on it. It is getting the value of rents and the profits out of it for the school, but it has never put in a dollar.

Mr. DAWES. The farm spoken of was donated to the school by a woman out of her own means, because the United States has never appropriated a dollar for the maintenance of the plant of that school.

Every dollar that has been put in there has been put in by the charitable contributions of those who have yielded to the solicitation of Captain Pratt; and this is the first attempt that was ever made to get the Government enlisted in purchasing means to carry on the school in the manner in which it ought to be done.

Mr. ALLISON. I must congratulate the generous woman who donated this fund.

Mr. DAWES. Congratulate the school.
Mr. ALLISON. I do. But so far as these particular 90 acres are concerned-

Mr. TELLER. One hundred and nine and a half acres.
Mr. ALLISON. Very well. Will the Senator from C

Very well. Will the Senator from Colorado tell me the price per acre?

Mr. TELLER. I understand that there are 109.57 acres that have been sold to parties who hold it for the purpose of turning it over to the Government at \$18,500, without the intention or purpose of making a cent out of it. That is the fact, and that fact was before the committee.

Mr. ALLISON. The appropriation proposed to be made was \$37,000. Mr. TELLER. The Senate inserted \$37,000 at the request of the Interior Department in a detailed statement which came to the committee and which was before the Senate and was, or ought to have been, before the conference committee, showing exactly where every dollar of that money was to be used.

And the items.

Mr. DAWES. Mr. TELLER. Mr. TELLER. And the attempt now to say that that was all to buy a farm is simply an admission on the part of the conference committee that they have not given attention to this matter. They ought not to come here with such a report; they ought not to be allowed to bring in a report here and legislate against the will of the Senate. The Sen-ate put this provision in the bill with understanding when the facts were before the Senate; and if the committee could not read that which was submitted to them, it was very strange, to say the least.

Mr. BECK. I have only to say that we were in conference with the House conferees, and they believed that the price was extravagant; that the land adjoined the barracks and did not adjoin the farm, and that just as good land could be had for half the price; and they positively

refused to agree to the Senate amendment.

When the Senator from Colorado says the conferces should not be allowed to come here with a report of this character, he forgets that the House of Representatives has as many rights as the Senate, that we have no power to control them, and that when we make a proposition to buy a farm and they will not agree to it, it not being a matter necessary to carry on the Government, we must yield if they insist upon it. A propesition made by one House and rejected by the other can not be enforced by the one that makes it.

When it came to any proposition to carry on the Government under any existing law, then a different position was presented, but when a proposition came to buy a farm at a price which the House conferees said was double the value of it, detached altogether from the farm that is now used, no matter how they got their information, we were com-pelled to yield; but for any sentimental gentlemen to come here and tell us, after sitting in conference three days and three nights struggling

to get what we could, that we ought not to be allowed to present a report that we can not force the House to agree to, I think is hardly becoming. I was about to use stronger language.

Mr. TELLER. Very well; I will not take any exception to what the Senator says and I will not take back anything I have said. I say that when the committee come here and make a statement, as they have come here, and give the Senate to understand that the whole \$37,000 was for the purpose of buying the farm, they have simply failed to read the papers that were before them and that were before the Senate, and I say they ought not to make such a report to give the Senate to understand that they have receded from this amendment of the Senate because there was a job in it, or because there was an extravagant outlay of money, when that statement is not supported by the facts before them. I do not care what the Senator from Kentucky may say or may think about it either. If they had not had the means of information, then there might have been some excuse. The committee of the House had it; they all had it; every member of the conference committee had it, or could have got it; and what is more, to the personal knowledge of some members of that committee attention was called to the fact that only one-half of the money was to be paid for the farm, and the statement that the land can be bought for one-half the price proposed to be paid for this farm is not supported by a single fact. More money has been offered for that farm in cash than the parties now holding it propose to sell it to the Government of the United States for.

Mr. BECK. I did not say that particular farm. I said they were

seeking to buy a farm.

Mr. TELLER. Itadjoins the ground on which all these public buildings are. It is the most suitable piece of ground that can be had in that section, and there is no necessity for its being adjoining the farm that somebody gave, not one woman, as the Senator from Massachusetts has mistakenly supposed, but a great number of people, one woman giving \$5,000, a farm that cost \$23,000 as I recollect it-one woman giving \$5,000, others giving \$500, a thousand, &c., to do what the Government of the United States is abundantly able to do and that which it undertakes to do. This picayune method of doing business, of asking the people of the United States to contribute for a work that the Government by its attempts to do admits its obligation to do, is unworthy of a great and rich people. Either we ought to do it, and do it like men, or we ought to abandon the whole thing. We might as well ask the charitable people to contribute to the payment of the expenses of the Senate and House of Representatives as to contribute to support the Indian schools if there is any obligation on the Government of the United States to support those schools, and if there is not, then we should abandon them at once.

Mr. HAWLEY. Before we pass from the recollection of the appropriation concerning Alaska, I wish to enter my protest, without blaming anybody but the United States Government for its gross neglect of the people, whom it may be said to have purchased from Russia. Russia people, whom it may be said to have purchased from Russia. Russia cared for them, I will say, tenderly, took care of their education, their schools, and their churches. For the first time since the United States acquired that land, last year—I think that was the first time—we appropriated \$25,000 for the purposes of education in Alaska. I do not know how far progress has been made in establishing schools; I do not know the details of the administration of that fund; but, as the Senator from Massachusetts says, the remedy is to correct the administration and not cut the appropriation down and leave the body of teachers to make their way home as best they can and to abandon 40 per cent of make their way home as best they can, and to abandon 40 per cent. of

the first attempt we have ever made to discharge our duty toward these people. A very considerable portion of them are not wild Indians by any means, but educated and religious people, people tolerably well advanced in civilization, and this conduct of the United States is simply That is all.

Mr. CONGER. Mr. President, the Senate by a decisive vote, after some discussion, put in an item of \$25,000 for education in Alaska, the same appropriation as last year, and after the members of the commitsame appropriation as last year, and after the members of the commit-tee had acknowledged the propriety and necessity of it. I wish more Senators would read the report of the agent in relation to education in Alaska than have read it. Instead of showing that there was a school there with five children and three teachers it goes on to state that the very action of the men sent by this Government into Alaska had broken up the schools, that when the charitable and religious public had carried on for years education in Alaska, the only gleam of light came from an appropriation by the United States, previous to which that people were sinking from their former education and from their former work in their churches and from their comfortable homes under rigid rules, sinking gradually into ignorance, forsaking to some extent their churches, losing entirely their educational opportunities and privileges under the

rule of the Christian nation and people of the United States.

There was a little appropriation given last year; and I have to say that but for the opposition, the wrongdoing, the shameful wrongdoing of officials of the United States sent there a few years ago, those schools which were flourishing would have continued to flourish until this time; but the persecution of the representatives of a Christian people destroyed here and there one or another of the schools and they left without scholars the teachers who had gone from motives of charity, of without scholars the teachers who had gone from motives of charity, of mercy, and of Christianity to that far-off land to teach for a pittance for the good of their kind. These agents of the Government drove away the children, brought suits against the teachers and against those who were carrying on the schools, turning them out of the old warehouses built by the Russians and improved and finished for school-houses by these missionaries and by these teachers. They were driving them out to make play-grounds for officers of this Government with the dancing

to make play-grounds for officers of this Government with the dancing girls of that Territory. That is the history of education in Alaska.

I have before this expressed my gratitude that this administration had removed that class of officers, had sent better men there, who had some idea of the obligations which this country was under to a people whom we acquired by treaty, and to a people who by treaty we promised to take care of, and to look after the interests and the education of, to preserve to them their rights of religion, their schools, their churches, their houses, and keep them in their position as the Russians had done be-The Senate saw and heard some of these things. They knew something about the condition of this country. It was discussed here somewhat, and by a positive and decided vote the Senate put into this bill, as the expression of its wish and the expression of its will, an appropriation of \$25,000 for education in Alaska.

I have no knowledge which would authorize me to say why the committee of the Senate did not carry out the will of the Senate, but I have a feeling for the people of that far-off land, in their ignorance and in their persecution and in their approaching degradation; I have an interest in them, partly because I am an American citizen and those people were acquired by treaty from a semi-barbarous government, and we have let them sink day by day, month by month, year by year, decade by decade from a peaceful and to some extent an educated condition, enjoying a quiet and a somewhat happy life, down to penury and want and ignorance, and, as far as the restraining influences of their religion do not protect them, down to degradation. I have no knowledge which would authorize me to say why the comdo not protect them, down to degradation.

It is unworthy of the Senate, unworthy of Congress, unworthy of the American people that we should have to make appeals for fifteen or twenty-five or one hundred thousand dollars to educate those we this nation—not Indians, but civilized people, Christian people.

Whatever the committee of the other House may have thought or whatever the committee of the Senate may heedlessly have admitted I regret; but I have no reproach to cast on any one. I regret more than I can express that when the attention of all the people of the United States was called by recent and frequent communications in the press to the condition of that country and by the indignation which followed the acts of our own agents there as they became known and were published in the religious and secular papers of the day—I say I regret more than I can express the shame that brands my people and my nation by failing to do even a small part of its duty to these remote, faroff people.

I desire to call the attention of the Senator from Kentucky to the fact that I asked him to examine this subject and to examine it in reference to the necessities and to the wants and to the condition of these people, and to some extent the Senator from Kentucky did it and was in favor of this amendment when it was presented in the Senate, favored its passage, and did what an honest Scotchman ever will do—the right

thing for the people.

Mr. BECK. Now, I want to say to the Senator from Michigan that he called my attention specially to this, and I examined it with all the care I could. We did urge it upon the House conferees as earnestly as we could, but we were met by a letter from one of our agents up there, which showed a very bad condition of things, and it was a struggle for

days to keep even the \$15,000 that we retained in the bill. It was the best we could possibly do under the circumstances; and we came very near not getting one dollar allowed; and had it not been for the earnest effort made by the Senator from Michigan, and the efforts I tried to make because of the faith I had in his statements and because of the examination I made at his request, I doubt whether he would have been able to do better in the face of such a letter as was read to us (which, I am sorry to say, reflected somewhat severely on the management of the schools up there and was very hard to answer). I am glad we got this much; I am sorry we did not get more; but I assure him we could not get another dollar.

Mr. CONGER. Is the Senator willing to give the name of the

Mr. BECK. I have not the letter with me; it was carried to the House, and I would not like to call names.

Mr. CONGER. I think I know.

Mr. ALLISON. I do not remember the name of the writer, but it

Mr. ALLISON. I do not remember the name of the writer, but it was written by a Treasury agent.

Mr. BECK. Yes, it was a Treasury agent; I know that.

Mr. CONGER. No doubt of it; it is such kind of men that we send to that region, who join with the Indians in making with their rum and molasses their kootchinoo. I know them; they are tracked all over that country; any one who goes there will see them. Whoever reads their statements will find out what kind of men they are. I characterized those men a short time ago-the Lord knows I did not believe this administration had sent there one of that class. I thought they had rooted them out, root and branch; but if there is anybody there left to write letters to a conference committee to give up education in Alaska, to turn over the children, the girls to degradation and the boys to infamy, I trust that the President of the United States, whether the person be a Treasury agent or governor or commissioner or judge or district attorney of that region, will do as he has done heretofore in regard to officials there, reach out, even far off across the British territory, his strong hand of power and drag the villain home.

That is the kind of men who destroy the prospects of the people in Alaska; that is the kind of men who are thwarting and have been for years the earnest endeavors of Christian people, of philanthropic peo-ple, of the Government itself, to do something good and useful to those wards of this nation. I had hoped that they were all gone; I had hoped that that class would never reappear there as the representatives of the dignity and majesty of this nation. Many of them have been

recalled.

Now, in contrast with this man, whoever he may be-I do not care for his name if he has written such a letter as that-take the conduct of the naval officers and the revenue marine officers, whose names are reverenced wherever their good deeds have been known for the last five or six years, without authority of law but yielding to the manly and noble and decorous influences which they had as they went up and down on the Government boats there, restraining vice, preventing drunkenness, preventing lechery, preventing degradation, until their names have become a watchword for virtue and honor and manliness among the officers of the United States.

Then compare that conduct with that of some of the men whose

names were sent here, and I am ashamed to say by an administration with which I was in accord, and who have been removed properly by an administration with which I am not politically in accord. Contrast those officers of the Navyand the revenue marine, whose names are held in remembrance by all the good people of that region and of the United States for their kindly influence and protection to schools, with these other officers of the United States, paid with the money of the United States, sent there to represent the honor and dignity and glory of the United States, who write back such letters as this man has written and as many other agents of the United States have written. I have them in my possession now, letters which I would be ashamed to read in the presence of a virtuous and enlightened audience.

Now, may we not have a further conference on this matter? I do not know whether this report is final or only partial; but if we could have a further conference we could express the opinion of the Senate upon that appropriation of \$25,000, for it is not the amount, it is the cutting down even of the little pittance given that is so shameful. I should hope that another committee would insist upon retaining at least what the Senate has voted in.

Sir, I speak with some feeling on this subject. I have read and studied as carefully as I was able the reports of Wilkes's expedition in 1836 and 1837, I think it was, and Gouverneur Morris's report when he was the agent of the Government in that country, and the reports of other offi-cers; I have read all that I could find and two or three lately published books in regard to the condition of Alaska, and I am interested in that people and I have become interested in the honor of the United States in maintaining its own dignity and its own interests there, and I have no reproaches, as I said, to east on the committee. I believe they have done all they thought they could, but if it be further opened, unless this report is final, I would ask the committee in the name of the Senate that put the appropriation there to stand by that appropriation, and I have no doubt, on proper representations, the House con-

ferees would see its importance and yield to the desire of the Senate in this respect

Mr. HAWLEY. Before we leave this point I beg leave to say just a few words.

I do not know who that anonymous man was who vilified the schools and the cause of education in Alaska, but I look to higher official sources. Here is an official report of the officer in charge of education in Alaska under the laws passed a year or two ago, which was transmitted to the Senate in response to a resolution and referred to the Committee on Territories March 4, 1886, and ordered to be printed-a considerable pamphlet, thoroughly reviewing the whole subject. Governor Swineford, of Alaska, in his annual report of last autumn, says:

of Alaska, in his annual report of last autumn, says:

The native Alaskans, as a rule, are industrious and provident, living in permanent and substantial homes, and all are self-sustaining. These people, it should be understood, are not Indians. Their appearance, habits, language, complexion, and even their anatomy, mark them as a race wholly different and distinct from the Indian tribes inhabiting other portions of the United States. They are far superior intellectually, if not in physical development, to the Indian of the plains; are industrious, more or less skillful workers in woods and metals; and that they are shrewd, sharp traders all who have had dealings with them will, I think, be willing to testify. They yield readily to civilizing influences, and can, with much less care than has been bestowed upon native tribes elsewhere, be educated up to the standard of good and intelligent citizenship.

F. A. Walker, Commissioner of Indian Affairs, as long ago as 1872, in an official communication, said:

For myself, I have never believed that the natives of Alaska were Indians within the meaning of the Constitution any more than are Esquimaux or Kanakas, and I am disposed to avoid entirely the use of the word "Indian" as applied to them.

He goes on to speak well of them, as Governor Swineford does. I put this report of Mr. Jackson and also the report of the governor of Alaska against this unknown agent of the Treasury Department. The governor in his official report as governor says—I read this language to correct an error into which I fell when I was up before:

The organic act, approved May 17, 1884-

The first time we ever attempted to organize anything like a government for these people-

provided an appropriation of \$25,000 "for the education of the children of school age in the Territory of Alaska, without reference to race," and by act of July 4, 1884, a further appropriation of \$15,000 is made.

Forty thousand dollars in the aggregate, and it was \$25,000 last year and \$15,000 this year, and next year where will it be? The Russians had very good schools in portions of Alaska, but the schools were abandoned and the teachers went home to Russia when we took pos-session of the Territory. The governor says:

The general agent reports that he has, during the past summer, established and placed competent teachers in charge of schools at Juneau, Sitka, Wrangell, Jackson, Boyd (Hoonah), Haines, and Unalaska. A corps of teachers has also been sent to establish schools on the Kuskokwim River, 150 miles above where it empties into the Bering Sea. The schooner on which these teachers sailed arrived at the mouth of the river on the 19th of June, and presumably by this time have their buildings up and their schools in operation.

I suppose they must come home. The governor proceeds to say:

In this connection I desire to say that in my opinion the sum appropriated for the establishment and maintenance of common schools in Alaska is not nearly sufficient. No argument is needed to establish this fact. A glance at a map showing the location of the schools enumerated as having already been and remaining yet to be established ought to be sufficiently convincing. Aside from the cost of their original establishment, the supervision and control involves many thousands of miles of expensive travel annually on the part of the general agent and the teachers. The appropriation should be increased to at least \$50,000.

From two or three little islands up in that sea we get a very good interest on all the money we paid for Alaska, and the manner in which

interest on all the money we paid for Alaska, and the manner in which we are discharging our duty to the people whom Russia educated is seen by the appropriation in this bill.

Mr. DOLPH. Mr. President, I do not feel like letting this opportunity pass without adding my protest to those which have already been made against the action of the committee, and my disapproval of the inadequate appropriation for schools in Alaska, which is less by the conference report than the amount placed in the bill by the Senate. By the act providing a civil government for the district of Alaska, section 13. it was provided: tion 13, it was provided:

That the Secretary of the Interior shall make needful and proper provision for the education of the children of school age in the Territory of Alaska, without reference to race, until such time as permanent provision shall be made for the same.

. By the same act there was appropriated \$25,000 for the support of schools in Alaska for children without reference to race. At the same session by the Indian appropriation bill there was appropriated \$15,000 for industrial schools, and at the second session of the Forty-eighth Congress there was appropriated \$20,000 for industrial schools. Those are all the appropriations for schools in Alaska, except the appropriation made at the present session of \$20,000 for industrial schools, and as my recollection now serves me a previous appropriation of \$50,000 which was never expended and which lapsed into the Treasury.

The appropriation of \$20,000 for industrial schools will not afford school privileges for over one hundred and seventy-five pupils. There are in Alaska to-day, besides the white and Russian inhabitants, from thirty-three to thirty-five thousand natives. There are at least ten thousand children in Alaska of school age, from six to twenty-one years There are in Southern Alaska, where schools have been established and are now in operation, at least twenty-five hundred children of school age. There were in the schools which were established last year, and carried on by the appropriation made at the first session of the Forty-eighth Congress, at least a thousand children, Indian, white,

Russian, and Aleutian.

It took the Interior Department a year to devise a plan for the expenditure of the money appropriated by the organic act of the Territory, so that the schools in 1885 and 1886 have been carried on by appropriations made for the year 1884-'85. There never has been but one appropriation of \$25,000 for day schools, schools in which all the children of school age in the Territory, without reference to race, are to be edu-The teachers who are engaged in these schools were brought from the East. They went to Alaska with the expectation that Congress would continue the policy of educating the children there. If there is an appropriation of only \$15,000 for the support of these schools a large portion of the thousand children who have been in school during the last year must be remanded back to ignorance, and the teachers will be left without employment and without the means of returning to their homes, three or four thousand miles away

Mr. President, I do not agree with what has been said in regard to the conduct of the schools in Alaska. It must be remembered that the day schools have been in operation but a single year; that Alaska is a last critory, containing over 500,000 square miles, without reads, withand eans of transportation, and that these native children are scattered over all this vast territory, living, some of them, in villages along the coast at great distances from each other. To expect that schools established and governed by rules established by an executive department of the flovernment should become models of excellence in a single year and that we should have efficient schools for ten thousand childred with the small appropriation of \$25,000 for an entire school year te proposterous.

in Alaska myself last year and made inquiry in regard to these a hools and saw some of them, and I disagree with the writer of the letter which has been mentioned as having been received from a Treasury regent. So far as I could learn, the schools were being conducted with soiling and with economy, and were doing a good work. In this economic I submit, and ask the Secretary to read, an extract from a coport of the first grand jury ever assembled in the Territory to show what this official body says in regard to these schools, and place their statement against the letter of the Treasury agent.

The PRESIDENT pro tempore. The paper will be read.

The Chief Clerk read as follows:

Extract of a report of the grand jury, in the district court of the United States for the district of Alaska, May term, 1886.

for the district of Alaska, May term, 1880.

We have visited the several schools in Sitka under Government patronger and have been much pleased with their showing. The Indian school is gradually winning its way to the favor of the natives. The white school is largely attended, and much interest is manifested by its pupils in their stadies. The training school under charge of the Presbyterian mission board seems to be well conducted, and all these schools are under zealous management and evidently accomplishing much good. A proper Government building, however, should be provided for the Indian school, as the present a rented) one is not at all suitable or comfortable. That used for the white children is not conveniently located or efficiently large. It is desirable that a new building should be creeted sufficiently large to accommodate the increase of attendance and in a locality affect ing convenient play-grounds, which do not exist inthe neighborhood of the halfful go now used. g now used.

Mr. DOLPH. Many of the children who are being elimited in these schools are not Indians. They are natives, but many of them are citizens under the treaty of cession of this Territory to the United States. The third article of the treaty provides:

The inimibitants of the ceded territory, according to the reduced receiving their initial allegiance, may return to Russia within their pairs; but if their receives to remain in the ceded territory, they, with the excelling of uncivilized matrix tribes, shall be admitted to the enjoyment of all their but and incomparities of citizens of the United States, and shall be according to the received in the free enjoyment of their liberty, property, and religious

Phono never has been any question but that the Aleuts are citizens, and there two thousand children of school age to-day in Alaska of American, Russian, and Aleut parentage. Then the district court of the Perritory has decided that the Thlinget tribes are also citizens, and there are two thousand children of school age belonging in the tribes, no that there are four thousand children of citizens of Territory of Alaska who must depend on appropriations by Congression schools. We give the people of Alaska no Legislature, we allow them to make no laws, we make no provision for taxing property, for organschool districts or educating their children, to give them no Jis.

The governor of the Territory recommends an approximation of 859,000 for these day schools, which are entirely distinct from the industrial relicols. The Secretary of the Interior recommends \$25,000. The House of Prepresentatives made no appropriation for the support of the 22 schools. The Senate placed a meager appropriation in the bill, and over the conprovision for their education. And all this notwithstanding we give tire a sent of both the Houses to do it; but when the House of Repre-

the people of Alaska no power, as I have said, to organize schools or levy taxes or to make any expenditure for school purposes.

is a disgrace to Congress and to the American people.

I hold in my haud the estimate of the amount required for schools which have been established and which it is proposed to establish in the southern part of Alaska alone, giving the estimate for each school, the salaries of teachers, and all the amounts necessary for the organization of these schools. It is as follows:

*Salary, tracelleg and incidental expenses,

It will be very well to improve the administration of these schools, hot you never will have a school system for Alaska, or, at least for want years, without adequate appropriations by Congress. These seduple are detached; they are many miles apart; there are no roads in the Territory, and there are no regular means of communication. Many of the female teachers to reach these schools have to travel for many sailes and for days and nights in Indian canoes, paddled by naties, in order to reach places to educate the native children. They have gene there from motives of duty, not for the compensation which they receive; they have gone there from the East to devote themselves to this work, and now it is proposed to cut down the appropriation and leave them without support, and, as I said before, to remand these children, who have been receiving the benefits of instruction in these schools, back to ignorance.

I desired to say this much, without reflecting on anybody, because I take an interest in this matter. I repeat it is a disgrace to Congress to appropriate only \$15,000 to educate ten thousand children.

Mr. EDMUNDS. Mr. President, it must be pretty clear that there

is an invincible repugnated on the part of the House of Representatives of whom I may now speak with propriety on this conference report) to relevation. The Senate has sent to the House a bill to aid the States tog ducation. The Senate has sent to the House a bill to aid the States in educating the children in our own States, chiefly with a view to help these states that did not seem to havefully the means of doing it, which his gone, apparently, to its last repose.

Now, when under a treaty which has put these people under our

therege, and a people to whom we have given, as the Senator from the gon [Mr. Dolph] has so well said, no authority to tax themselves or to set up any kind of a school government even among themselves, who are entirely in our hands and at our mercy and demanding our

who are entirely in our harms and at our mercy and demanding our judice, and entitled to it the House of Representatives is unwilling that anything more than the mere shadow and pretense of doing our duty shall go into this bill. That is the way it stands.

These people are entirely different in their situation from the people of any other Territory to whom we have given an automatic means of self-regulation and self-support and self-taxation. They have no such power, and therefore it depends entirely upon Congress, and the Executive in carrying out the laws of Congress, to make any provision at all for the civil and religious and educational welfare of that people, for whom every obligation of public faith toward Russia, of honor and patriotism toward our cryp citizens, should appeal to us, not only to be liberal but to be generous, to take a large view of the case, and to provide ample means for education last year and this year and every year, until they shall have grown into a condition where we shall allow them by a Territorial government, whenever that time may come, to take vare at themselves

scrence committee come and propose to reduce it to the potent sum of And yet at much be said, as the chairman of the committee has said, \$15,000 to educate ten thousand children of school age, and that in a much as the scenario from Kennucky has said, that where money is to be case where the obligation rests on the Government to make adequate appropriated from the Treasury for any object it requires the affirma-

sentatives sent us after the expiration of the fiscal year, for the first time, this sundry civil appropriation bill, and when as rapidly as we can, after a month of consideration, we have come to an end about it and sent it back to them and have put in what is really a pittance at the best for these purposes, the representatives of the House of Representatives say to us, "You can have no bill at all, or you must leave that item out."

That is what it comes to, and for one, although I am rather anxious to see the green hills of Vermont, I would rather stay here until December on a question of this kind—not to undertake to force the House of Representatives to do anything that they will not on consideration do, they are independent, but to undertake to persuade them that honor and justice and humanity and public policy require that a liberal

provision should be made for these objects.

You may, as the chairman of the committee has apparently convinced the Senator from Massachusetts, postpone the building of a light-house until next year, for the sea will be there and the islands will be there and, perhaps, the wrecks, and you can build it then; but what would be thought of any legislator in a State who postponed the school appropriation for his State for one year? There is the loss of a year that can never be repaired and that can never be brought back to you; and therefore it does not do for me to be told, "Oh, well, we will wait, now as it is late in the session, and let it go to next year or some other year when the House of Representatives shall have been sufficiently educated to understand the value of education and will be willing to appropriate some money for these far-off dependent people."

Mr. President, I am make the value of education and will be willing to appropriate some money for these far-off dependent people."

Mr. President, I am going to vote against this report on this ground alone, to say nothing of others that might be mentioned, as a means of expressing my sense of disapprobation of this way of treating appropriation bills at the very tail end of the session after eight months have gone by, and then being told, under the pressure of being in the last days of the session, that we can not now appeal to the reason and reflection and reconsideration of our friends at the other end of the Capitol to do what I think when they shall come to consider it they will

Mr. MITCHELL, of Oregon. I should like to ask the chairman of the committee if he can inform me as to the fate of the amendment put in this bill by the Senate for the construction and introduction of new boilers for the steamer Albatross and for expenses of the voyage from New York to San Francisco?

Mr. ALLISON. That was agreed to in the conference. The Alba-

tross is safe

Mr. MITCHELL, of Oregon. I should also like to know from the chairman of the committee what was done with the amendment of \$17,000, I think, on page 8 of the bill as reported from the Senate Committee on Appropriations, for approaches and heating apparatus for the custom-house and post-office at Port Townsend, Washington Terri-

Mr. ALLISON. That is also safe, I am glad to say.

Mr. MITCHELL, of Oregon. I am very glad to hear it. Then I would like to know what became of the amendment appropriating \$60,000 for the establishment of a light-house at Cape Meares, Oregon?

Mr. ALLISON. That appropriation shares the fate of the Gould Island light-house. On consultation with the proper officers of the Light-House Board I regret to say that we were obliged to leave that out.

Mr. MITCHELL, of Oregon. On what ground?
Mr. ALLISON. On the ground that it would be difficult to procure the site for this light-house within the present fiscal year. That is our recollection here, The Senator from Kentucky [Mr. Beck] and myself concur that the difficulty was about obtaining the site. That was the difficulty with the Cape Meares light.

Mr. MITCHELL, of Oregon. What about the appropriation put in for a fish-hatchery on the Columbia River, its tributaries, or their branches?

branches?

Mr. ALLISON. I am sorry to say that also was left out.
Mr. MITCHELL, of Oregon. On what ground?
Mr. ALLISON. On the ground that the House of Representatives did not seem to be quite ready to commence the work on the Columbia

Mr. VEST. I wish to inquire of the Chairman of the Committee on Appropriations in what condition is the provision as to the Yellowstone National Park?

Mr. ALLISON. I am sorry to say to my friend that so far as his view and my own are concerned it is left rather dubious. The House of Representatives refused to agree to the Senate amendment, and I believe the very last thing we did before finally separating was to surrender the amendment put on by the Senate in reference to the Yellowstone Park.

Mr. EDMUNDS. Does the House bill change the law?

Mr. ALLISON. No.

Mr. VEST. The House simply appropriated \$20,000 for the construction and improvement of roads in the Yellowstone National Park, and made no appropriation for the salaries of the superintendent or the ten assistant superintendents. I have taken considerable interest in the Yellowstone National Park, and I do not propose now to deliver any valedictory on the subject.

I am profoundly disgusted with the condition in which this park is now left, but I am not disheartened. I believe the sentiment of the people of this country is in favor of that park. I know the sentiment of this Senate is in favor of it, and I propose at the next meeting of Congress to urge the adoption of a bill now upon the Calendar providing for the permanent government and improvement of that great reservation.

I had been aware for some time that an organized attempt would be made in the interest of speculators and land-grabbers to break up that park. The geysers and the waterfalls and the Yellowstone Lake remained there unnoticed until the greed and avarice of these people have been aroused by the number of visitors who have lately gone there, and this whole thing is intended for the purpose of breaking up that reservation, in order that these speculators, that these children of avarice and greed may grab, each one of them, as they can, one of these great, wonderful products of nature, that he may make as much money out

of it as is possible at the expense of the people at large

The park was originated by my distinguished friend from Massachusetts on my right [Mr. DAWES], who was the author of the law, and I have simply supplemented his exertions and acted as his adjutant in the whole matter. It was said yesterday in a very public place in this Capitol where I can neither speak nor vote that my interest in this Yellowstone Park arose from the fact that a constituent of mine had been appointed superintendent and that a number of Missourians had been appointed to positions under him. It is false. It is false, Mr. President. Colonel Wear, the superintendent of that park, was appointed at the instance of my colleague and myself on account of his peculiar fitness for that position. The park had been going sadly to ruin and decay, and it was necessary to put some vitality in the enterprise, and we believed honestly that his appointment would do that thing.

He was a distinguished soldier, a colonel in the Federal Army, was an ardent sportsman, devoted to the chase, to outdoor life. were not mistaken in that appointment; and a great deal of this opposition has arisen from the fact that he has stood against the speculators and adventurers even at the peril of his life, and so stands there to-

day.

This present legislation breaks up the park as effectually as if the original act introduced by the Senator from Massachusetts had been repealed. It is proposed to put troops there. Soldiers are as utterly unfit for that duty as they would to become professors of astronomy

in any college in the land.

It was stated publicly yesterday in another place from this that the present superintendent had put in a lot of political appointees. It is not true. So far from that park being filled with my constituents, I have distinctly refused to give one single recommendation to Colonel Wear of a single citizen of my State, and I have invariably written to him to appoint men upon his personal acquaintance and upon their knowledge of the mountains and their fitness from their past lives for those positions

I allude to this because Colonel Wear can not speak for himself, and he now goes out of office under this legislation. For the motive that prompts this attack upon me I have only the most unmitigated contempt. It could only emanate from a small politician, whose political horizon is limited and bounded by the area of greed for office and pat-

It was said here the other day, and it was a cheap species of rhetoric which I shall not emulate, that this park was reserved for the rich and for the distinguished, and that the poor of the country were excluded from it. I assert here to-night that there is not one place of public tesort on this whole continent where travel and accommodation are so cheap as in the Yellowstone National Park. There is no place where the tourist or the visitor can travel and can be entertained for so small

a sum as to-day upon that reservation.

In the same line of attack upon the park it was said that the poor man's cart was excluded, and that only wagons with tires 4½ duches broad were permitted in the park. Colonel Wear was held up here before the public opinion of the country as an aristocrat, an autocrat, who was seeking to exclude the carryalls and the humble farm wagons that the poor man desired to take into that park, and that none but

broad tires could be admitted there.

Mr. President, the Senator from Nebraska [Mr. MANDERSON], when this charge was made, telegraphed to the Department of the Interior, and here is the reply.

The PRESIDENT pro tempore. The paper will be read.

DEPARTMENT OF THE INTERIOR, August 2, 1886.

HOH, CHAS. F. MANDERSON:

In compliance with recommendation of Lieutenant Kengman an order was issued to the superintendent May 25, 1889, requiring that all wagons engaged in heavy freighting over roads constructed or improved by Government in Yellowstone Park shall be equipped with tires not less than 4 inches wide.

H. L. MULDROW, Acting Secretary.

Mr. VEST. So it seems instead of this being a movement in favor of the aristocracy and titled and distinguished visitors, in lieu of this picture so graphically drawn on this floor a few days ago of a Senator before whom the officials of the park made oriental salaams and genuflections of humility, this order was issued at the instance of the engi-

neer officer in charge of the park, and not at the instance of Colonel Wear, and it was issued and properly issued to protect the roads in the park from being destroyed by the heavy ore wagons that haul from

Cinnabar to Cooke City.

It is said that this park to-day is under the control of a hotel mo-nopoly. If the men who make this charge had the fairness and honesty to go to the Interior Department and investigate the lease under which these hotels are built they would see that the Government has provided against a monopoly in every shape, form, or conception. It was intended in that lease, of which I myself was a critic at the instance of the Secretary of the Interior—it provided in that lease in the most complete terms that every citizen of the United States should have free access and there should be no especial privileges granted to any one. If I know myself, without pretending, without making the demagogic plea of being the especial friend of the poor man-if I know myself, I would be accessary to no act of legislation which would look to a monopoly on that subject in any shape or form. It is not true that any monopoly exists there to-day.

But, Mr. President, I come now to a matter somewhat personal to myself, which I desire to notice very briefly. It was said also in a

very public place in this Capitol yesterday:

I desire to state here that the last I heard of the superintendent of that park was that he had become partially interested in a coal mine which was situated on the margin of the park; and that thereupon, or immediately thereafter, no doubt without the knowledge of the Senator who introduced the bill, a bill was introduced in the Senate of the United States which would cut off that portion of the park, leaving it in his possession with a title. If that is so, it indicates jobbery. I do not mean to say that it was jobbery; but if an investigation is moved into this matter by anybody, I will undertake to introduce a gentleman of credible character to this House who claims to be able to give the information necessary to substantiate that fact.

Mr. TELLER. I should like to ask the Senator on which side of the park that is.

Mr. VEST. The northern portion of it.

Mr. TELLER. I can say that that was recommended by the Department a long time before the bill was introduced, that the northern line should be moved south.

Mr. VEST. Not only that, but the

Mr. TELLER. The Senator will allow me a moment. The line is now north, running into Montana. The Department propose to have it moved south far enough to get upon the Wyoming line. mendation, involving I think about 6 miles, was made at least three

years ago.

Mr. MANDERSON. Two miles in width.

Mr. TELLER. Whatever it was. There was an attempt to move it down on a recommendation made to Congress a long time ago.

Mr. VEST. Not only that, but the identical language, every word of it which is contained in the fourth section of the bill that I introduced, and I believe I introduced every bill in regard to the Yellowstone Park, its government, and its boundaries—every syllable of this section of the bill was written by Mr. Hague, a member of the Geological Bureau, who had been stationed in the park and who was familiar with all the lines, and he desired a change in the boundary that would bring it down 2 miles south, so as to conform with the boundary line between the Territories of Wyoming and Montana. And to show how absurd this whole intimation is that there could have been any job in this matter, I hold in my hand the bill I introduced on February 4, 1884, containing this change of boundary, during Mr. Arthur's administration, long before Colonel Wear was thought of in connection with the park in any capacity, and when the most sanguine hardly dared to hope that a Democratic President would be inaugurated at the coming election.

These are the simple facts, and there could have been no job unless there had been a prescience which the Deity Himself only could have

had.

Mr. MANDERSON. I ask the Senator from Missouri whether the motive that actuated the Interior Department and actuated him in introducing the bill changing this northern boundary of the park and that actuated the Committee on Territories, was not that the jurisdictional extent of the park should be within the limits of the Territory of Wyoming so as to reach more nearly the punishment of crimes?

Mr. VEST. It was.

Mr. TELLER. Not to have an additional criminal jurisdiction.

Mr. VEST. Exactly. That was the object of the amendment, and of the Committee on Territories, of which I was a member, when I introduced the bill, and of Mr. Hague, who wrote the section himself and brought it to me and I incorporated it in the bill a year and a half before Mr. Wear was ever thought of in connection with the superintendency of the park.

I apologize to the Senate for having noticed this matter at all. It is so absurd and ridiculous, that I should have a very poor opinion of myself if my character needed any defense in regard to such an allega-

Now, sir, as I said, I am not making any valedictory in regard to this enterprise. I propose at the next session of Congress to urge the bill now on the Calendar. I know that there are many Senators and Representatives who honestly think that this park should be destroyed. I know that there are other persons who are actuated by the meanest and the basest motives of avarice and of greed that can be found in any degraded human breast. For them and their motives I have only the feeling which I have for any other loathsome object, and I shall waste no more words upon them or upon their attacks on me or those who like me favor the Yellowstone National Park.

But, God willing, with health and strength, I will devote myself to reversing this conference report. It strikes down this park, it gives up this magnificent reserve to those people who are unworthy to press their feet upon its soil. I shall vote against the report for this reason,

if for no other.

Mr. BECK. I only desire to say a word about the Yellowstone National Park. There are \$20,000 given in the House bill as it now stands for the improvement of the roads and bridges in the park, and the law which authorizes the Secretary of the Interior to call on the Secretary of War for sufficient force to guard it remains. While I regret as much as the Senator from Missouri does that the Senate amendment was stricken out, and while I believe that everything he says in regard to the park is true, and while I will go as far as he will to maintain it, I believe that under the House provision, with the aid of the Secretary of War, the park can be preserved until some suitable provision for it can be made hereafter. Therefore I was unwilling, much as I differed with the House in this regard, to jeopardize a bill of this importance by re-fusing to agree to it. Notwithstanding this was stricken out, believ-ing and feeling assured that the Secretary of the Interior, with the aid of the Secretary of War, will take care of the park until something better can be done, I shall vote for the adoption of the report.

The PRESIDENT pro tempore. The question is on the adoption of the report of the committee of conference.

Mr. ALLISON. I call for the yeas and nays.

The yeas and nays were ordered.

Mr. ALLISON. Now, Mr. President, before the vote is taken, I desire to say a word in reference to this report. There are many things in it which are not agreeable to me; there are many things in it which I opposed to the last moment; but if appropriation bills are to be passed, they must be passed by mutual concession between the two Houses, and not because every Senator or any Senator has a particular item in the bill which he approves or disapproves. This hill has occupied the attention of three members of this Senate for twenty-five hours between last Thursday and last night, and we have done the best we could with reference to every item in this bill.

The item of which the Senator from Missouri speaks was the last item that was given up by the Senate at the very last moment of the conference. The items which have been so severely criticised by Senators were saved to the extent and ability of your conferees upon the part of the Senate; unless, as intimated by the Senator from Vermont, we propose to remain here until December, when we shall be no better off than we are at this moment with reference to these controversies with the House of Representatives; in which they have an equal voice with us and in which we have an equal voice with them. Therefore I desire to say that if this conference report is voted down the effect of it will be in my judgment to prolong this session (I only mention that in order that Senators may know what they do with reference to this report) from a week to ten days.

Mr. VEST. I know very well the weight of the threat with which

the Senator from Iowa closed his energetic address. I know that the Senate and the other House of Congress are permeated now with an intense desire to leave this Capitol; but I want to say one other thing as a reason for the vote which I shall cast against the report. I have said what I desire to say in regard to one item of the bill. Now there is

another to which I wish to refer.

I had the most intense interest in forming the river and harbor bill in the appropriations for the Mississippi and Missouri Rivers. We re-versed the action of the House, which destroyed the Mississippi and Missouri River Commissions, and put those two great streams back into the hands of those commissions. Those of us who favored these streams particularly were informed then that the proper mode of appropriation for the evpenses of the commission was by an amendment to the sundry civil bill and not by a provision in the river and harbor bill, and that this had been the practice. Relying upon that, we did put an amendment in the sundry civil bill, now reported here from the conference committee, appropriating \$25,000 for the expenses of the Missouri River Commission and \$100,000 for the commission on the Mississippi River. How does this report leave those appropriations? Under the report as it now stands not one dollar will be expended upon either the Mississippi or the Missouri River Commissions.

Mr. ALLISON. The Senator is not aware that the Senate this evening passed a joint resolution for the purpose of paying the expenses

of those commissions.

Mr. EDMUNDS. But suppose the other House chooses not to pass it? Mr. VEST. I am aware that the Senate passed such a joint resolu-tion this evening, and it will not be heard of again at this session. The same autocratic will which struck the item out of the sundry civil bill will strike down that joint resolution like a sheep in the shambles. know it has been whispered around this Hall that it would be passed. One single objection will stop it, and out of three hundred and twentyfive men eager and hot to leave this Capitol for domestic life and to take care of their political fortunes, who does not know that that joint

resolution will be stricken down?

We are told then that we shall have an appropriation in December. For the three months intervening the works upon the Mississippi and Missouri Rivers are going to ruin, the boats are idle, there is no use for the hands of the engineers in charge of those rivers; and am I, a Western Senator living upon the banks of the Missouri River, to stand here and deliberately by my vote say that our conferees did right? I can not say it and I shall not say it.

Mr. HOAR. Mr. President, I wish to say only one word. In my judgment this Alaska business is as criminal as it would be if the Legislature of any State in the Union, North or South, was to legislate or so to neglect to legislate as to shut up their common schools and leave

a generation of children without education.

would not lightly vote to strike down this conference report, but I think it is a case and object in which the honor and decency of the United States are concerned. I think we ought at the cost of staying here several days longer to compel the House of Representatives to express its own purpose and opinion upon this question of dealing with those people who have to their infinite sorrow and hurt passed from the control of semi-barbarous Russia, where they were educated and decently cared for, into the control of free, enlightened America.

I want that thing to be submitted to the House of Representatives. I

know something by report of the methods by which a one-man power is made to control that House against its will, when measures which ninetenths of that body desire to have passed are stifled by its system of rules. I think the condition of things is such that the true will and the true sense of honor and the true sense of the public interest in the House of Representatives will make its way over that obstacle, and I

want at any rate to have the experiment tried.

Mr. SAULSBURY. Mr. President, I hope that the conference report will not be voted down. It may not be all that we desire. Perhaps if any one member of the Senate could have shaped this conference report according to his own will it would not have been such a report as has been presented; but you have had a committee of intelligent Senators, men selected by the Senate itself to meet the conferees of the House. They have labored assiduously, earnestly to reflect the will of the Senate in reference to all its amendments, and I think the criticisms the committee are patther generous per just. They have not been on the committee are neither generous nor just. They have not been able to accomplish all they desired, but they had to meet a co-ordinate branch of Congress represented by their conferees, and they had to confer with them, and now they have come here with the best they

I think that the criticisms on the House of Representatives are unjust. They have as much right to say what shall be the expenditures of the Government as the Senate of the United States. I have no doubt that they have been actuated by as honest motives and as honest purposes as the Senate of the United States is actuated by. It is a simple difference of opinion between the two Houses. It is not to be expected that there can be a concurrence of opinion between the House with three hundred and twenty-five members of that body and the seventysix members of the Senate. You can get an equal number of men to concur in opinion upon scarcely any subject. I have no question but that the House of Representatives and its conferees have been just as honest in the position which they have taken as have been fished and its conferees. I have no doubt that the conferees representing each of the Houses have been actuated by a desire to accommodate themselves as far as they could to the wishes of the whole Congress of the United States.

Therefore I do not join in this criticism on the House of Representatives and this attempt to throw all the blame for every miscarriage of legislation on the House of Representatives. They have equal rights with us and they have asserted their rights. They have yielded some things and the conferees on the part of the Senate have yielded some

As to this attempt to force the House I apprehend that whenever the House learns that there is a disposition on the part of the Senate to force them from the positions they have assumed, they will, as every brave man will do, teach by their acts that no attempt at compulsion will force them from the propriety of their acts.

I hope, therefore, that this conference report will be adopted and that we may be allowed to return to our homes, although we may be indi-vidually disappointed in our wishes as to what has been incorporated

 Mr. HALE. Mr. President, so far as the Yellowstone Park goes, I for one agree with the Senator from Missouri as to the importance of maintaining it and of not giving it up as a great national institution. The more that I hear about it from those who have visited it the more I believe in maintaining it, but the conferees representing the Senate upon this matter did not by any means believe that by agreeing to this report the park is abandoned.

We found the conferees of the House firm, fixed, immovable. The

whole subject had been discussed both here and there; and at last what I think controlled the conferees of the Senate in yielding more than anything else was the fact that the fundamental law, which up to to-day has been fixed by the two Houses and is established as the law

for that park, summons two Departments of the Government to protect and maintain it and not to give it up. The law as it stands to-day upon the statute-book, if it be enforced in a fair and consistent and sincere way, amply protects that park from any danger that has been mentioned here or been marshaled to-night as a danger. The Secretary of the Interior is given jurisdiction in the park to care for it, to direct his attention and that of his Department to it, and whatever is needed upon his request may be furnished by the War Department for every step of protection needed.

There are two Departments with their whole force. Whatever the Secretary of the Interior may in his discretion believe is necessary to

Secretary of the Interior may in his discretion believe is necessary to be done, he as the representative and head of the Interior Department calls upon this other Department, and there is the whole Army; and it has not very much to do, and its officers are intelligent and enlightened men, and most of their experience is in Western and frontier

While it does not suit me, while I would rather have kept what we have now as a system, I have no doubt in my mind that all of the benefits which shall be derived by American citizens in the years to come from that park will be maintained if the Secretary of the Interior and the Secretary of War sit down together and consulting about this mat-ter decide what is needed for the further protection of that park until Congress can establish its will in a permanent law. If the Secretary of the Interior says to the Secretary of War, "I need a force there as great as that which has been heretofore employed by the Interior Department," the Secretary of War has ample material to call upon.

Believing that, for one I consented rather than that this bill should fail, rather than that it should come back here with the delay of a report of a conference without any agreement, rather than to develop more antagonism in the House of Representatives, I agreed for one to this report. Fully concurring with those Senators who believe in the park, and who do not want it given up in every respect, I am here to maintain the belief and conviction that no harm is coming to that great

institution of the Government.

The Mississippi and Missouri River Commissions are disposed of practically by the joint resolution submitted by the Senator from Iowa, which will receive easy passage. The question that now confronts us is whether the report shall be defeated and the whole subject thrown open and new controversies entered into with the House of Represent-atives. While I do not claim that the conferees have not made mistakes, and they are the furthest in the world from an infallible body, I think they have done the best they could under the conditions.

Several Senators addressed the Chair.

Mr. BUTLER. I move that the Senate proceed to the consideration executive business. ["No! no!"]
The PRESIDING OFFICER (Mr. HARRIS in the chair). The Senator from South Carolina moves that the Senate proceed to the consideration of executive busines

Mr. DAWES. Let us finish this matter. Mr. BUTLER. It is perfectly obvious—

Mr. BUTLER. It is perfectly obvious— The PRESIDING OFFICER. The motion is not debatable.

Mr. BUTLER. I do not want to debate it, but simply to explain my motion. It is perfectly obvious that we can do no business here to-night as long as the galleries are as full as they are. If the galleries

are cleared we shall get to business.

The PRESIDING OFFICER. The Senator from South Carolina moves that the Senate proceed to the consideration of executive busi-

The motion was rejected.

Mr. DAWES. Mr. President, I wish to say one word. There are many disappointments to me in this bill. There are many points in the many disappointments to me in this bill. that I regret exceedingly have been lost in the conference; but although I was not upon the conference, I know something about the work the conference committee have been compelled to perform. Ido not think there has been for many years so laborious and so difficult a conference

I wish to say in regard to the Alaska appropriation that I agree with my colleague that it is an utter shame that such a miserable pittance should be found in the bill from this Congress, but the summer is wellnigh gone, especially in Alaska. There is no time to expend much money there now. The bill which should have become a law as early as last March is now into August before it can become a law, and there is probably not more than a month or six weeks left for the expenditure of money there. We had better not, therefore, in my opinion, spend much time upon the question whether the appropriation should be \$15,000 or \$25,000.

All these other matters have received the attention of the committee in a manner which ought to receive the commendation of the Senate. Much as I am disappointed, I am for maintaining the report, and for attempting at the next session of Congress to undo much there is in this bill and to do much that the bill has omitted to do.

I hope, therefore, that the report will be concurred in.

Mr. CALL. Mr. President, I wish to say a single word. I do not understand this question to be a question of agreeing with the House of Representatives upon the amendments to the bill. I regard it as a question in the light which the Senator from Missouri has stated it to

be, of an agreement on the part of the Senate to sacrifice the plain and apparent public interest and public service of the country.

There are various items in the conference report and in the bill, with-

out criticising or condemning the members of the Senate who have been on the committee and who have doubtless striven to do their duty, which are a disgrace to the country, and we ought to sit here until the end of this year and until the people of this country should decide whether such a sacrifice of the public interest as is apparent here should

The idea of refusing to make a small appropriation in the interest of education, which we are bound by treaty to do, is a disgrace to the country, which ought not to be tolerated. The idea of submitting in the last hours of this session to a demand made upon this co-ordinate body to reverse a solemn law of this country passed by both Houses of Congress setting apart the Yellowstone National Park and organizing it with its proper staff upon the demand of a few individuals, however they may control a co-ordinate branch of this Government, without consideration, without an opportunity for argument, without time to give consideration to it, and upon the pressure of a necessity of the Senate to go to their homes and attend to their business, is a method of legislation which ought not to be submitted to. It is not a question whether the Army can protect the National Park; it is the question whether we shall be forced to abandon the law passed by both Houses of Congress organizing that park in a particular manner and asssigning a particular staff of officers for its preservation.

The question whether the great Mississippi and Missouri Rivers and their tributaries covering half the continent, the improvement of which has been provided for by acts of Congress time and again, and a commission appointed, whether good or bad, to carry it into effect, shall be set aside and destroyed and no provision made for it, without consideration on the part of Congress and without a repeal of that legislation—these are questions important to the very existence and preservation of the Government, questions which are utterly indefensible, and which demand, in my judgment, that the conference report should not be

agreed to.

The PRESIDING OFFICER. The question is on concurring in the report of the committee of conference, on which the yeas and nays have been ordered.

The Secretary proceeded to call the roll.

Mr. CHACE (when Mr. Aldrich's name was called). My colleague

[Mr. Aldrich] is paired with the Senator from West Virginia [Mr.

Mr. SAULSBURY (when his name was called). I am paired with the Senator from Vermont [Mr. MORRILL], but I believe if he were here he would vote for this conference report, and I shall therefore vote. I vote "yea."

The roll-call was concluded.

Mr. MANDERSON. I am paired with the Senator from Kentucky [Mr. Blackburn]. If he were present, I should vote "nay." The result was announced—yeas 37, nays 14; as follows:

Transita.		
YEA	00 1	9~
1 11/11	_	34.

So the report was concurred in.

JOHN ELLIS.

Mr. SAWYER. I move that the Senate proceed to the consideration of the bill (H. R. 3908) for the relief of John Ellis. It is simply a bill for the relief of a messenger of the House of Representatives.

The motion was agreed to; and the Senate, as in Committee of the

Whole, proceeded to consider the bill. It proposes to pay John Ellis \$210, in full for services rendered as messenger to the Forty-fifth Congress from October 15, 1877, to February 1, 1878.

The bill was reported to the Senate without amendment, ordered to

a third reading, read the third time, and passed.

CONGRESSIONAL LIBRARY.

Mr. ALLISON. I ask now to take from the table the joint resolution (S. R. 82) making additional appropriation for purchase of site for | for the district of Minnesota, in the State of Minnesota.

Congressional Library, which was up this morning for consideration and objected to and the objection afterward withdrawn. It will take but a

By unanimous consent the Senate, as in Committee of the Whole, proceeded to consider the joint resolution.

The joint resolution was reported to the Senate without amendment, ordered to be engrossed for a third reading, read the third time, and passed.

The preamble was agreed to.

PUBLIC BUILDING AT SAVANNAH.

Mr. SPOONER. I ask that the joint resolution which I reported from the Committee on Public Buildings and Grounds this evening relative to the public building at Savannah, Ga., be taken up at this

By unanimous consent, the Senate as in Committee of the Whole, proceeded to consider the joint resolution (H. Res. 209) permitting the public building authorized by act of Congress approved June 13, 1886, at Savannah, Ga., to be located not less than 40 feet from any other building, instead of 50 feet, as provided in said act.

The joint resolution was reported to the Senate without amendment,

ordered to a third reading, read the third time, and passed.

CHARLES HAHNEMAN.

Mr. DAWES. I ask for the present consideration of the bill (H. R. 8180) to increase the pension of Charles Hahneman.

Mr. BUTLER. I object. Let us go into executive session.
Mr. DAWES. Let that poor fellow's bill pass. It is a House bill which has come over here

Mr. BUTLER. There have been so many poor fellows, and I am

not going to sit here all night. I object.

Mr. CULLOM. I should like to make a motion to take up the House pension bills, all of them.

Mr. COCKRELL. When we take them up we will take them all

up at once.

EXECUTIVE SESSION.

Mr. BUTLER. I move that the Senate proceed to the consideration of executive business.

The motion was agreed to; and the Senate proceeded to the consideration of executive business. After 43 minutes spent in executive session the doors were reopened, and (at 11 o'clock p. m.) the Senate adjourned until to-morrow, Wednesday, August 4, 1886, at 11 o'clock

NOMINATIONS.

Executive nominations received by the Senate the 3d day of August, 1886. CLERK OF SURVEYS

John A. Parsons, of Salisbury, Md., to be principal clerk of surveys in the General Land Office, vice Frank Gordon, resigned.

COLLECTOR OF INTERNAL REVENUE.

Thomas Cooper, of Illinois, to be collector of internal revenue for the eighth district of Illinois, vice Jacob Wheeler, resigned.

The nomination of Thomas Cooper to the above-named office, delivered to the Senate December 15, 1885, is this day withdrawn.]

REGISTER OF LAND OFFICE.

Frank J. Mott, of Denver, Colo., to be register of the land office at Denver, Colo., vice Louis Dugal, commission expired.

RECEIVERS OF PUBLIC MONEYS.

Allen Wood, of Susanville, Cal., to be receiver of public moneys at Susanville, Cal., vice Frank G. Ward, who has resigned.

William J. McClure, of Cour d'Alene, Idaho, to be receiver of public moneys at Cour d'Alene, Idaho, vice James F. Legate, who has resigned.

INDIAN AGENT.

Joseph Hollman, of Emerson, Nebr., to be agent for the Indians of the Omaha and Winnebago agency in Nebraska, vice George W. Wilkins, who has resigned.

REJECTIONS.

Executive nomination rejected by the Senate August 2, 1886.

UNITED STATES MARSHAL

James H. Freeman, of Tennessee, nominated to be marshal of the United States for the western district of Tennessee.

Executive nominations rejected by the Senate August 3, 1886.

POSTMASTERS.

George P. Sanford, nominated to be postmaster at Lansing, in the county of Ingham and State of Michigan.

Henry H. Porter, nominated to be postmaster at Dowagiac, in the county of Cass and State of Michigan.

COLLECTOR OF CUSTOMS.

Adelard Guernon, of Minnesota, nominated to be collector of customs

HOUSE OF REPRESENTATIVES.

TUESDAY, August 3, 1886.

The House met at 11 o'clock a. m. Prayer by Rev. Dr. Bullock, of Washington, D. C.

The Journal of yesterday's proceedings was read and approved.

FORT DOUGLAS MILITARY RESERVATION.

Mr. PAYSON, by unanimous consent, introduced a bill (H. R. 1014) making appropriations for lands, &c., at the Fort Douglas military reservation, Utah; which was read a first and second time, referred to the Committee on Appropriations, and ordered to be printed.

ARREST OF A. K. CUTTING.

Mr. LANHAM, by unanimous consent, introduced a joint resolution (H. Res. 214) relating to the arrest and imprisonment of A. K. Cutting, an American citizen, by Mexico; which was read a first and second time, referred to the Committee on Foreign Affairs, and ordered to be printed.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, informed the House that the Senate had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 9726) making appropriations to supply deficiencies in the appropriations for the fiscal year ending June 30, 1886, and for prior years, and for other purposes.

VETO MESSAGE-RACHEL BARNES.

The SPEAKER. The Chair lays before the House a message from the President of the United States.

The Clerk read as follows:

To the House of Representatives:

I return without approval House bill No. 9106, entitled, "An act granting a pension to Rachel Barnes,"
William Barnes, the husband of the beneficiary named in this bill, enlisted in the United States Infantry in February, 1838, and was discharged February 24,

the United States Infantry in February, 1838, and was discharged February 24, 1841.

In 1880 he applied for a pension, alleging that while serving in Florida in 1840 and 1841 he contracted disease of the eyes. He procured considerable evidence in support of his claim, but in 1852, and while still endeavoring to furnish further proof, he committed suicide by hanging.

The inference that his death, thus occasioned, was the result of despondency and despair brought on by his failure to procure a pension, while it adds a sad feature to the case, does not aid in connecting his death with his military service.

That this was the view of the committee of the House to whom the bill was referred is evidenced by the conclusion of their report in these words:

"And while your committee do not feel justified under the law as at present existing in recommending that the name of the widow be placed upon the pension-roll for the purpose of a pension in her own right as widow of the deceased soldier and by reason of the soldier's death, they do think that she should be allowed such pension as, had her husband's claim been favorably determined on the day of his decease, he would have received."

And yet the bill under consideration directs the Secretary of the Interior to place this widow's name on the pension-roll, and to "pay her a pension as such widow from and after the passage of this act, subject to the provisions and limitations of the pension laws."

GROVER CLEVELAND.

EXECUTIVE MANSION, July 31, 1886.

EXECUTIVE MANSION, July 31, 1886.

GROVER CLEVELAND.

Mr. TAULBEE. I move to refer the President's message and the bill to the Committee on Invalid Pensions.

Mr. BROWNE, of Indiana. Why?

The SPEAKER. This bill originated with the Committee on Pen-

Mr. TAULBEE. I thought it was an Invalid Pensions case. I move to refer to the Committee on Pensions.

Mr. BROWNE, of Indiana. It appears to me we might as well determine the question now. Our past experience, I think, has demonstrated to us the tendency of the House in regard to these pension

The SPEAKER. If the House refuses to refer (and the motion to refer is not debatable), the message and bill are before the House for consideration.

Mr. BROWNE, of Indiana. Does not a motion to pass the bill, the objections of the Executive to the contrary notwithstanding, take precedence?

The SPEAKER. It does not. That is the course which must be pursued as the regular order if the message and bill are not referred. The bill comes up for consideration in the first instance, and the gentleman from Kentucky moves to refer it.

Mr. TAULBEE. I believe that motion is not debatable? The SPEAKER. The Chair has so stated.

Mr. TAULBEE. But I may be permitted to say it is in the interest of the claimant that I make that motion. The result of the former action of the House on these bills doubtless grew out of the indiscretion of those moving and pressing their immediate consideration.

Mr. BROWNE, of Indiana. I withdraw any objection to the reference.

The message, with the accompanying bill, was referred to the Committee on Pensions, and ordered to be printed.

VETO MESSAGE-DUNCAN FORBES.

The SPEAKER. The Chair also lays before the House the following message from the President of the United States.

The Clerk read as follows:

To the House of Representatives :

To the House of Representatives:

I return herewith without approval House bill No, 8336, entitled "An act granting an increase of pension to Duncan Forbes."

The beneficiary named in this bill enlisted under the name of Alexander Sheret, January 7, 1862, in the regular Army, and was discharged January 8, 1885. He applied for a pension in 1879, alleging that he was wounded. In his right breast December 31, 1862, and in his right ankle September 20, 1863. He was pensioned in 1883, dating from January 9, 1865, for the ankle wound, but that part of his claim based upon the wound in his breast was rejected upon the ground that there was no record of the same, and the testimony failed to show that such a wound had its origin in the service.

Though the lack of such a record is sufficiently accounted for, I am convinced that, conceding both the wounds alleged were received, this pensioner has been fairly and justly treated.

It appears from the allegations of his application to the Pension Bureau that after the wound in his breast, in December, 1862, he continued his service till September, 1863, when he was wounded again in the ankle, and that with both wounds he served until his discharge, in January, 1865. It also appears from the records that after his discharge, in January, 1865. It also appears from the Tevary, 1865, he enlisted as landsman in the United States Navy, and served in that branch of the service for three years.

A medical examination in May, 1885, disclosed the appearance of a gunshot wound in the right breast, which is thus described: "The missile struck the seventh rib of right side and glanced off, leaving a horizontal sear two and one-fourth inches long and one-half inch wide, deeply depressed and firmly adherent."

I credit this claimant with being a good soldier, and I am willing to believe

I credit this claimant with being a good soldier, and I am willing to believe that his insistence upon a greater pension than that already allowed by the Pension Bureau, under liberal general laws enacted for the benefit of himself and all his comrades, is the result of the demoralization produced by ill-advised special legislation on the subject.

Mr. TAULBEE. I move to refer the message and bill to the Committee on Invalid Pensions.

Mr. ROWELL addressed the Chair.

The SPEAKER. The motion to refer is not debatable. The gentleman from Kentucky moves to refer the message and bill to the Committee on Invalid Pensions

mittee on Invalid Pensions.

Mr. ROWELL. I would like, with the permission of the House, to make a statement. I introduced this bill, and know the man personally. He is getting the "liberal" pension of \$2 a month, and yet, being supported by a Grand Army post, is a totally disabled man with two wounds. His application was rejected by the Pension Department as to one wound, although there was ample testimony as to the second wound. He receives a pension of \$2 a month, and yet it is said he gets a "liberal" pension.

Mr. TAULBEE. From the reading of the message—

Mr. BLAND. I demand the regular order.

The House divided; and there were—ayes 72, noes 57. So (further count not being called for) the motion was agreed to; and the message, with the accompanying bill, was referred to the Committee on Invalid Pensions, and ordered to be printed.

OLEOMARGARINE.

The SPEAKER. The Chair also lays before the House the following message from the President of the United States.

The Clerk read as follows:

To the House of Representatives :

The Clerk read as follows:

To the House of Representatives:

I have this day approved a bill originating in the House of Representatives entitled "An act defining butter, also imposing a tax upon and regulating the manufacture, sale, importation, and exportation of oleomargarine."

This legislation has awakened much interest among the people of the country, and earnest argument has been addressed to the Executive for the purpose of influencing his action thereupon. Many in opposition have urged its dangerous character, as tending to break down the boundaries between the proper exercise of legislative power by Federal and State authority; many in favor of the enactment have represented that it promised great advantages to a large portion of our population who sadly need relief; and those on both sides of the question whose advocacy or opposition is based upon no broader foundation than local or personal interest have outnumbered all the others.

This upon its face and in its main features is a revenue bill, and was first introduced in the House of Representatives, wherein the Constitution declares that all bills for raising revenue shall originate.

The Constitution has invested Congress with a very wide legislative discretion both as to the necessity of taxation and the selection of the objects of its burdens. And though if the question was presented to me as an original proposition I might doubt the present need of increased taxation, I deem it my duty in this instance to defer to the judgment of the legislative branch of the Government, which has been so emphatically announced in both Houses of Congress upon the passage of this bill.

Moreover, those who desire to see removed the weight of taxation now pressing upon the people from other directions may well be justified in the hope and expectation that the selection of an additional subject of internal taxation, so well able to bear it, will in consistency be followed by legislation for revenue, upon the proposition of the protection and benefit of another.

and legitimate manufacture and sale of the thing upon which it is levied. If this article has the merit which its friends claim for it, and if the people of the land, with full knowledge of its real character, desire to purchase and use it, the taxes exacted by this bill will permit a fair profit to both manufacturer and dealer. If the existence of the commodity taxed and the profits of its manufacture and sale depend upon disposing of it to the people for something else which it deceitfully imitates, the entire enterprise is a fraud and not an industry; and if it can not endure the exhibition of its real character which will be effected by the inspection, supervision, and stamping which this bill directs, the sooner it is destroyed the better, in the interest of fair dealing.

Such a result would not furnish the first instance in the history of legislation in which a revenue bill produced a benefit which was merely incidental to its main purpose.

main purpose.

There is certainly no industry better entitled to the incidental advantages which may follow this legislation than our farming and dairy interests; and to none of our people should they be less begrudged than our farmers and dairymen. The present depression of their occupations, the hard, steady, and often unremunerative toil which such occupations exact, and the burdens of taxation which our agriculturists necessarily bear, entitle them to every legitimate consideration.

men. The present depression of their occupations, the hard, steady, and often unremunerative toil which such occupations, the hard, steady, and often unremunerative toil which such occupations exact, and the burdens of taxation which our agriculturists necessarily bear, entitle them to every legitimate consideration.

Nor should there be opposition to the incidental effect of this legislation on the part of those who profess to be engaged honestly and fairly in the manufacture and sale of a wholesome and valuable article of food, which by its provisions may be subject to taxation. As long as their business is carried on under cover and by false pretenses, such men have bad companions in those whose manufactures, however vile and harmful, take their place without challenge with the better sort, in a common crusade of deceit against the public. But if this occupation and its methods are forced into the light and all these manufactures must thus either stand upon their merits or fall, the good and bad must soon part company, and the fittest only will survive.

Not the least important incident related to this legislation is the defense afforded to the consumer against the fraudulent substitution and sale of an imitation for a genuine article of food of very general household use. Notwithstanding the immense quantity of the article described in this bill which is sold to the people for their consumption as food, and notwithstanding the claim made that its manufacture supplies a cheap substitute for butter, I venture to say that hardly a pound ever entered a poor man's house under its real name and in its true character.

While in its relation to an article of this description there should be negovernmental regulation of what the citizen shall eat, it is certainly not a cause of regret if by legislation of this character he is afforded a means by which he may better protect himself against imposition in meeting the needs and wants of his daily life.

Having entered upon this legislation, it is manifestly a duty to re

EXECUTIVE MANSION, August 2, 1886.

The message was referred to the Committee on Ways and Means, and ordered to be printed.

A. K. CUTTING.

The SPEAKER. The Chair also lays before the House the following message from the President of the United States.
The Clerk read as follows:

To the House of Representatives:

In performance of the duty imposed upon me by the Constitution, I herewith transmit for your information (the same having heretofore been communicated to the Senate in response to a resolution of inquiry adopted by that body July 26, 1886), certain correspondence and accompanying documents in relation to the arrest and imprisonment at Paso del Norte by Mexican authority of A. K. Cutting, a citizen of the United States.

GROVER CLEVELAND.

EXECUTIVE MANSION, August 2, 1886.

The message was referred to the Committee on Foreign Affairs, and ordered to be printed.

Mr. LANHAM. I ask that the accompanying correspondence and

documents communicated by the Secretary of State be printed in the RECORD.

There was no objection, and it was so ordered.

The correspondence and documents are as follows:

To the President:

In response to the resolution of the Senate of July 26, 1886, asking for such information as has been received by you through this Department concerning the alleged illegal detention of A. K. Cutting, an American citizen, by the Mexican authorities at El Paso del Norte, and whether any additional United States troops have been recently ordered to Fort Bliss, Texas, the undersigned, Secretary of State, has the honor to submit to the President all the information and correspondence of the Department of State on the subject.

It is believed that the history of the case will be best understood if stated chronologically.

Under date of July 1, 1886, Mr. Brigham, United States consul at Paso del Norte, Mexico, forwarded to Mr. Nenry R. Jackson, United States minister at the city of Mexico, a full statement of the arrest and imprisonment by Mexican author-

ities of A. K. Cutting, a citizen of the United States. This statement was accompanied by sundry documents and affidavits disclosing the facts of the case and announcing the failure of the consul, Mr. Brigham, to procure any reply to his applications for a fair hearing or trial, or for the release on bail of Mr. Cutting, whose imprisonment began on June 18, 1886, and continues unrelieved to this day. A copy of this report of Consul Brigham and the accompanying documents is hereunto appended.

Immediately upon the receipt-of Mr. Brigham's statement, Mr. Jackson, by a note dated July 6, 1886, fully informed Mr. Mariscal, the Mexican secretary for foreign affairs, of the case, and besought proper relief for Mr. Cutting at the carliest moment and through the speediest practicable channel.

On July 7, 1886, Mr. Mariscal wrote, in reply to Mr. Jackson, that by advices of the president he had addressed the governor of the State of Chihuahua, recommending him to see that prompt and due justles should be administered. The Department of State, all of which the consultation of the propondent of the president had been defined to present the consultation of the propondent of t

pended.

This conflict of laws is even more profound than the literal difference of corresponding statutes, for it affects the underlying principles of security to personal liberty and freedom of speech or expression, which are among the main objects sought to be secured by our framework of government.

The present case may constitute a precedent fraught with the most serious results.

results.

The alleged offense may be—and undoubtedly in the present case is—within the United States held to be a misdemeanor not of high grade, but in Mexico may be associated with penal results of the gravest character. An act may be created by a Mexican statute an offense of high grade which in the United States would not be punishable in any degree. The safety of our citizens and all others lawfully within our jurisdiction would be greatly impaired, if not wholly destroyed, by admitting the power of a foreign state to define offenses and apply penalties to acts committed within the jurisdiction of the United States.

The United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States committed within the jurisdiction of the United States and the States are stated to the present th

States.

The United States and the States composing this Union contain the only forum for the trial of offenses against their laws, and to concede the jurisdiction of Mexico over Cutting's case, as it is stated in Consul Brigham's report, would be to substitute the jurisdiction and laws of Mexico for those of the United States over offenses committed solely within the United States by a citizen of the United States.

States over offenses committed solely within the United States by a citizen of the United States.

The offense alleged is the publication in Texas, by a citizen of the United States, of an article deemed libelous and criminal in Mexico. No allegation of its circulation in Mexico by Mr. Cutting is made, and indeed no such circulation was practicable or even possible, because the arrest was summarily made on the same day of the publication in the English language in Texas, on the coming of the alleged writer or publisher into Mexico. And the Mexican correspondence accompanying Mr. Mariscal's refusal te release Cutting, found in the accompaniments to Minister Jackson's dispatch, No. 272, of July 22, 1886, shows that the one hundred and eighty-sixth article of the Mexican code is the ground of the jurisdictional claim.

Under this pretension, it is obvious that any editor or publisher of any newspaper article within the limits and jurisdiction of the United States could be arrested and punished in Mexico if the same were deemed objectionable to the officials of that country, after the Mexican methods of administering justice, should he be found within those borders.

Aside from the claim of extraterritorial power, thus put forth for the laws of Mexico and extending their jurisdiction over alleged offenses admittedly charged to have been committed within the borders of the United States, are to be considered the arbitrary and oppressive proceedings which, as measured by the constitutional standard of the United States, deetroy the substance of judicial trial and procedure, to which Mr. Cutting has been subjected.

The correspondence, and the case as constituted by the Mexican proceedings, and the action of this Department, are respectfully submitted.

UNITED STATES CONSULATE, Paso del Norte, Mexico, July 1, 1886.

UNITED STATES CONSULATE,
Paso det Norte, Mexico, July 1, 1886.

SIR: I have the honor to communicate the following facts in regard to the arrest and imprisonment of Mr. A. K. Cutting, an American citizen, by one of the courts in this city.
Mr. Cutting is a resident of Paso del Norte, and engaged as an editor of a newspaper called El Centinela, in a recent edition of which he published some strictures upon one Emigdio Medina, who proposed engaging in the newspaper business also.

For this offense Mr. Cutting was arrested and brought before the court to answer. Under the law here, when the parties agree to and sign a "reconciliation" the case was dismissed, which was done in this instance, Mr. Cutting being required by the court to publish it in his paper, which he did.

On the 18th day of June Mr. Cutting proceeded across the Rio Grande River to the United States, to El Paso, Tex., and published a card in the El Paso Herald, in which he reiterated his former charges, and makes some others, branding Medina's conduct as "contemptible and cowardly," &c., copy of which card I inclose, marked No. 1.

When Mr. Cutting returned to Paso del Norte he was again arrested, presumably at the instance of Medina, and taken before the judge of the second court. Before this court Mr. Cutting was refused counsel and an interpreter, both of which he requested, and with closed doors, no one being present but the judge, the court interpreter, and the accused, the so-called examination of the case was proceeded with, which resulted in the committing of Mr. Cutting to jail.

At this stage of the proceedings and before he was taken to jail Mr. Cutting to jail.

both of which he requested, and with closed doors, no one being present but the judge, the court interpreter, and the accused, the so-called examination of the case was proceeded with, which resulted in the committing of Mr. Cutting to jail.

At this stage of the proceedings, and before he was taken to jail, Mr. Cutting notified the court that he claimed the protection of his Government, and would refer the matter to the American consul, which he did by the following communication to me, dated June 23, 1886, marked No. 2.

On the receipt of this communication I proceeded to the office of the official interpreter of the court to ascertain the exact charges against Mr. Cutting, and was informed that he was arrested for the publication in the El Paso (Texas) Herald; that he was examined upon this charge alone, and committed to jail on the same. I suggested that the court acted without jurisdiction, and had done a wrong to Mr. Cutting, to which the interpreter replied that if the judge had made a mistake in the case it was in the power of the prosecuting attorney to dismiss prosecution when the case came up, which he thought he would do the next morning.

I then wrote a note to Mr. Daguerre, the partner of Mr. Cutting in the newspaper, and engaged his services to see the prosecuting attorney and have the case would be dismissed the next day, which was the 24th day of June. On the morning of that day (being confined to bed by sickness) I sent my clerk to the court-room to ascertain what was done in the case, and, in company with Mr. Daguerre, they called at the court-room, where they found the judge, the prosecuting attorney, and the official interpreter. The prosecuting attorney notified them he could do nothing on that day, as it was a legal holiday, and they returned and so reported to me.

Believing that the authorities would take no action in the case, and release Mr. Cutting, on the morning of the 25th of June I dictated from my sick bed a formal communication, copy of which I herewith inclose, marked No. 3.

demand an immediate release of the prisoner and a full indemnity for the outrage.

I would here suggest that the parties culpable in this matter are the judge who issued the order for the arrest and illegal detention of the accused, one Regino Castañeda, and the prosecuting attorney, one José Maria Sierra, who had it in his power to have dismissed the case, and who still has that power, but refuses to exercise it. Both of said officers should be deposed as unworthy the places they fill.

I will further state that I have demeaned myself throughout with every proper courtesy and respect to the authorities in this matter, and urged Mr. Cutting to do likewise, and to obey all the orders and decrees emanating from the court, which he has done. That the court has so treated me, personally or officially, does not so clearly appear, and the failure to reply or take any notice of my official communication is a matter of which the Department is fully capable of judging, and will be prepared intelligently to act.

From the very inception of the case I am satisfied there has been no desire or intention to do Mr. Cutting justice, and it has been boasted that they can keep him in jail for six months or a year if they see proper to do so.

The claim that the 2th day of June was a legal holiday was a mere subterfuge, and was, in point of fact, untrue, the mayor's court being in session, and the post-office and custom-house kept open the usual hours during the day.

I herewith inclose the affidavit of A. K. Cutting, marked No. 4; affidavit of Mr. Daguerre, marked No. 5; affidavit of Mr. Henry G. Turner, marked No. 6, substantiating the facts set forth in this dispatch. Also extracts from the El Paso Daily Times and Daily Tribune as an index of public sentiment on this subject.

Paso Daily Times and points and pointedly because I am fully persuaded that I have written thus plainly and pointedly because I am fully persuaded that the necessities of the case demand it.

I am, &c.,

J. HARVEY BRIGHAM, Consul.

Consul Brigham is a lawyer, has been a judge, and is a man of much ability and experience. I fully concur in what he says in this case as to the Mexican courts in general. A reading of my reports on previous cases will show that I have said substantially the same things over and over again. With this comment I submit the case to the Department.

WARNER P. SUTTON,
Consul-General,

MATAMOROS, July 7, 1880.

[Inclosure 1 in No. 45.]

ADVERTISEMENT.-A CARD.

EL PASO, TEX., June 18, 1886.

Et Paso, Tex., June 18, 1886.

In a late issue of El Centinela, published in Paso del Norte, Mexico, I made the assertion that Emigdio Medina was a "fraud," and that the Spanish newspaper he proposed to issue in Paso del Norte was a scheme to swindle advertisers, &c. This morning said Medina took the matter to a Mexican court, where I was forced to sign a "reconciliation."

Now, I do hereby reiterate my original assertion, that said Emigdio Medina is a "fraud," and add "dead-beat" to the same. Also, that his taking advantage of the Mexican law and forcing me to a "reconciliation" was contemptible and cowardly, and in keeping with the odorous reputation of said Emigdio Medina, And should said Emigdio Medina desire "American" satisfaction for this reiteration, I will be pleased to grant him all he may desire, at any time, in any manner.

A. K. CUTTING.

[Inclosure 2 in No. 45.]

PASO DEL NORTE, MEXICO, Wednesday, June 23, 1886.

SIR: For an alleged offense committed in Texas, United States of America, I have been arrested and jailed in Paso del Norte, Mexico, by a Mexican judge, Now, as an American citizen I place myself under the protection of yourself as United States consul.

I am, &c.,

A. K. CUTTING.

[Inclosure 3 in No. 45.]

Mr. Brigham to judge of the second court, Paso del Norte.

CONSULATE OF THE UNITED STATES OF AMERICA, Paso del Norte, Mexico, June 25, 1886.

Pass of Norte, Mexico, June 25, 1886.

Sir: I have the honor to officially communicate with you in regard to the arrest and imprisonment of A. K. Cutting, an American citizen, by your order. I have been informed by the official interpreter to your court that Mr. A. K. Cutting was arrested, examined, and incarcerated for an offense (if offense at all) committed in the State of Texas, United States of America, which was the publication of a card in the El Paso (Tex.) Herald.

It is scarcely necessary for me to call the attention of your honor to the fact that for an offense committed in the United States your court can not possibly have any jurisdiction. Therefore the arrest and detention of Mr. Cutting in jail is wholly unwarranted and oppressive, and in violation of one of the sacred principles of American liberty. This communication is for the purpose of making a formal demand upon your honor for the immediate release of Mr. Cutting, which I do in the name of the United States Government, which I have the honor to represent at this point.

Trusting that you will comply with my request and petition in his behalf, and order his immediate release,

J. HARVEY BRIGHAM, Consul.

J. HARVEY BRIGHAM. Consul.

[Inclosure 4 in No. 45.] Affidavit of A. K. Cutting.

Affidavit of A. K. Cutting.

Before me, J. Harvey Brigham, United States consul at Paso del Norte, Mexico, on this 1st day of July, 1886, personally came and appeared Augustus K. Cutting, who, being duly sworn, deposes and says as follows, to wit:

My name is Augustus K. Cutting; I am an American citizen, born in the State of New York, on the 30th day of August, 1841, and am forty-five years of age.

I am and have been a resident of the city of Paso del Norte, Mexico, for the past eighteen months, off and on, and am engaged as editor and proprietor of the weekly newspaper called El Centinela.

I had a disagreement with one Emigdio Medina, and on the 18th day of June, 1886, I published a card in the El Paso (Tex.) Herald, in which I made some strictures on the said Medina. The annexed copy of said card is correct. For this publication in the Texas paper I was arrested on the 23d day of June, 1886, and taken before one Regino Castafieda, judge of the second court of this city, When before the court I asked the privilege of counsel and an interpreter, both of which were denied me, and the said judge (including all other parties) except the official interpreter, one police officer, and one Mexican, and myself proceeded with closed doors to investigate the case, which he did solely by asking me questions which I refused to answer, claiming that the card having been published in the United States, he had no jurisdiction.

At the conclusion of the examination the judge notified me that I would be held to answer to the charge of having published the card in the Texas paper, and that I would have to go to jail. At this point I claimed the protection of the United States Government, and so informed the court, and wrote a letter to Hon. J. Harvey Brigham, United States consul, informing him of the fact. The court refused me bail, which I could at any time have given, and I went to jail, where I have been incarcerated since the 23d June, 1886, in a filthy, loathsome prison.

During the day I am allowed the freedom of the c

prison.

During the day I am allowed the freedom of the court-yard, or inclosure of the prison, but at night I am locked up with all the other prisoners, of every grade and stamp, in the same room, some I 8 by 40 feet, with only one door, which is locked at night, making it a closed room in every respect, there being no other means of ventilation. The room is filthy and loathsome, with only a ground floor. No bed clothing of any kind has been furnished me, and but for the kindness of friends outside I would have to sleep on the bare ground in all this filth, as other prisoners have to do.

I am allowed six telacos Mexican money per day (equal to 8) cents American money) upon which to subsist, and would have suffered for food but for assistance and food from the outside.

AUGUSTUS K. CUTTING.

worn to and subscribed before me this day,

J. HARVEY BRIGHAM,

United States Consul.

[Inclosure 5 in No. 45.] Affidavit of A. N. Daguerre.

[Inclosure 5 in No. 45.]

Affidavit of A. N. Daguerre.

Before me, J. Harvey Brigham, United States consul at Paso del Norte, Mexico, came and appeared, on the 1st day of July, 1886, Mr. A. N. Daguerre, who, being duly sworn, deposes and says as follows, to wit:

I am personally well acquainted with A. K. Cutting, and know him to be an American citizen. I am engaged with him as partner in the publication of a newspaper called El Centinela. I know that he was arrested and imprisoned for publishing a card in the El Paso (Tex.) Herald, June 18, 1886, reflecting upon Mr. E. Medina. I was present in the court-room and heard the judge announce these facts in reply to questions asked by Mr. D. J. Sarback, clerk to the United States consul. I am myself a Mexican, and speak the Spanish language, and knew exactly what he stated. The judge stated emphatically that Mr. Cutting was not in jail for contempt of court, but for the publication of the card in the El Paso (Tex.) Herald. I was present in the court-room, June 24, 1886, when we hoped to have Mr. Cutting released, as I had been informed that the prosecuting attorney would probably dismiss the case.

The prosecuting attorney informed everybody present that he could do nothing in the case that day, claiming that it was a legal holiday. I do not understand that it was a legal holiday, and all the other courts were in session and the custom-house and post-office were open on that day. I was present in court when bail was refused Mr. Cutting by the judge. I know that he is able to give ball in any reasonable amount and by some of the wealthlest men in the city. As long as I have known Mr. Cutting he has been a peaceable and law-abiding citizen and diligent and attentive to his business. Never knew him to be in any other difficulty. I have visited him in jail daily since his imprisonment and know it to be a loathsome and filthy place. I know that at high the is locked there are no other means of ventilation. It is an adobe house, almost airtipht, and has a dirt floor. He i

J. HARVEY BRIGHAM,

United States Consul.

[Inclosure No. 6 in No. 45.] Affidavit of H. G. Turner.

Affidavit of H. G. Turner.

Personally came and appeared before me, J. Harvey Brigham, United States consul at Paso del Norte, Mexico, on this 1st day of July, 1886, Mr. H. G. Turner, who, being duly sworn, deposes and says as follows, to wit:

I am personally well acquainted with A. K. Cutting, and know him to be an American citizen, and that he is engaged in the newspaper business in this city. Herald, June 18, 1886, reflecting upon Mr. E. Medina; that he had been examined and was being held on that charge. I frequently visited him in prison, and know that it is a loathsome, filthy place, with a dirty ground floor, and that it smells very badly, and that he is incarcerated with eight or ten other prisoners, all in one roomeat night. These prisoners are in jall for various offenses, and some of them dirty, filthy creatures. I know that he would have had no bedding (not even a blanket) unless they had been provided by friends outside, and that I personally provided these things for him. Mr. Cutting informed me that he was allowed only six Mexican telacos a day) equal to about \$\frac{3}{2}\$ cents in American money) upon which to subsist. I have been personally rattending to the matter of sending his meals to him daily, knowing the absolute necessity therefor. When the prisoners are locked in said room at night, it is entirely closed up, and there are no means of ventilation left. It is a close adobe house, nearly air-tight. It is an exceedingly unwholesome and filthy place.

I know that Mr. Cutting is able to give bond in almost any amount by the best

place.

I know that Mr. Cutting is able to give bond in almost any amount by the best men in this city. I am satisfied, from my knowledge of this case, that the arrest and imprisonment of Mr. Cutting is mainly for the purpose of oppressing and humiliating him. and I will state that this is the general impression. I have been residing in this city for the past three years, and am an employé of the

Mexican Central Railway

H. G. TURNER.

United States Con

[Inclosure 7 in No. 45.-Newspaper articles.] Another Mexican outrage.

[Inclosure 7 in No. 45.—Newspaper articles.]

Another case of the bad faith of the Mexican officials toward American citizens is instanced by the treatment of A. K. Catting by the authorities of Paso del Norte.

A review of the circumstances by which Cutting was brought in contact with the Mexican law was given in the Times of Wednesday, but the offense for which he was arrested on Tuesday seems to have been misunderstood by him at the time, as he stated to a Times representative that it was the ridiculous manner in which he published the "reconciliation" which he had been compelled to sign by the suit of Emigdio Medina. Since then it has transpired that the arrest was made on account of the publication about Medina in last Sunday's Herald. When this fact was developed at his trial on Wednesday, he informed the court which had refused his request to be allowed to employ counsel that he would invoke his rights as an American citizen and throw himself on the protection of United States Consul Brigham. Accordingly he communicated with Judge Brigham, who at the time was unwell, and the judge, with his characteristic zeal, in spite of his ill health, called on the magistrate who had committed Cutting to jail, and insisted on his release from custody.

The magistrate informed the consul that if a mistake had been made in sending Cutting to jail to await his trial, the district attorney was empowered to order his release. To the district attorney he went accordingly, and that functionary told him that Cutting should be allowed to sleep at the house of Mr. Daguerre that night, instead of in jail, as had been ordered, and that his trial would come off in the morning. This, it seems now, was only a ruse to get rid of the consul, for late on Wednesday evening Cutting was carried off to jail in spite of the assurance to the contarry, and has been there ever since.

Consul Brigham, upon hearing of this breach of faith, insisted yesterday morning upon the prisoner's release, but was informed that it was a legal holiday, and

and to the State of Texas alone he is amenable for it; the idea of punishing a man for an offense committed in a foreign country being purely Mexican. It is on this ground that Consul Brigham will proceed, and it is to be hoped that he can compel the authorities with which he is contending to do justice to his countryman.

More Mexican atrocities,

More Mexican atrocities.

The antipathy of the Mexican Government and its people in general toward Americans is again illustrated in the case of Mr. Charles Merkley, the worthy station agent of the Mexican Central at Chihuahua, who was imprisoned last week at that place and denied bond for defending himself from an attack made by a pelado who became enraged because he did not see fit to turn over freight to him without a written order, in accordance with the instructions of the company in every instance. He struck Mr. Merkley first, and the offense of the latter consisted in resisting the blow. Mr. Scott, United States consul at that point, up to the present has seen fit to make no intercession in behalf of Mr. Merkley as a citizen of the United States. He enjoys the reputation among the Americans of Chihuahua of being a "veritable chump," who is wedded to a Mexican, and, of course, thoroughly in accord with Mexican ways.

In Paso del Norte we happen to have a most efficient consul, Judge Brigham, who has ever been alive to his duty as a representative of this Government, and if his report to Washington in regard to the audacious interference with the liberty of American citizens by the authorities of Paso del Norte meets with no attention on the part of the powers that be, we might as well dispense with such official appendages to our Department of State and throw ourselves upon the mercy of our persecutors, or else redress our wrongs as best we can as a community.

mercy of our persecutors, or else redress our wrongs as best we can as a community.

Mr. Cutting, the editor of El Centinela, for publishing an article on this side of the river, languishes in their bastile, a place of filth and dirt, where thieves and murderers would more than expiate their crimes in lingering a single night; and this is Mexican justice meted out to a loyal citizen of a land upon whose escutcheon there lingers no stain, and whose past history, replete with heroic deeds, has made her a star among nations, her only fault being her leniency toward this unappreciative neighbor, who has mistaken sympathy for her weakness for fear, and shows her gratitude by flaunting insult after insult in the very face of our Government. A few palliating words from the city of Mexico can not make reparation for such flagrant outrages. There are no extenuating circumstances in these cases. Unless our citizens are protected, of what value are our treaties?

[Inclosure 8 in No. 45-Newspaper articles.]

The Cutting case.

Inclosure 8 in No. 45—Newspaper articles.]

The Cutting case.

Regino Castefieda, the judge of the second court of Paso del Norte, a diminutive specimen of humanity, who is weighted down with the high functions of "el judicio," and wears the dignity of his petty office with more pomp and circumstance than the Czar of Russia, and before whom it was Mr. Cutting's "mala suerte" to be arraigned, became incensed at the American consul, Judge Brigham, who, in sending his official request that Mr. Cutting should be liberated, deemed it it to say that he was informed by the official interpreter, instead of saying he was informed by his honor, the high muck-a-muck, the all-potent jues, through said interpreter; and upon such quibbling he has procrastinated and sought the opportunity to exhibit his power. The interpreter, seeing that this only involved the changing of a few words, took the responsibility upon himself to change the document, and then his honor again was piqued, because he did not wish it known that he had imparted any information of an official character to a United States consul, and wished the document changed again.

At this juncture Mr. Daguerre intercepted and took the document back to Judge Brigham, who has been exceedingly ill and is now confined to his room. The latter reproved the interpreter severely for changing an iota of the document, and refused to have any further parlance with his majesty. Castefieda, but will write to Washington for immediate instructions on the matter and see if Uncle Sam will forever submit to such insults, this time from a petty little juez segunda in a frontier town, in a republic that would crawl in its hole at the first command "To arms!" given by this Government.

This is not the first occasion of the kind, and it is about time Mexco should be taught to respect this Government. The fault is with the Government in not exacting reparation for all such flagrant breaches of the comity that should exist between neighboring and friendly nations. The supineness of the Gov

United States Consulate,

Paso del Norte, Mexico, July 3, 1885.

Sir: I have the honor to inform you that after I had finished my dispatch No. 45, in relation to the Cutting case, I received on that day (the 1st of July) a communication from the judge of the court to whom I addressed my note, which purports to be an answer to the same, but, however, without any date. I inclose herewith a translation of said communication, for the information of the Department.

I am, &c.,

[Inclosure in No. 45-Translation.]

Judge Castañeda to Mr. Brigham.

In answer to your favor of this month I have the honor to state to you that all public officers for criminal cases are prohibited by a special law to give any

information in regard to the criminal cases that are up before the court to people that have no legal intervention in those cases, the more so when, according to the "International Rights" of Calvo, consuls have no jurisdiction, either civil or criminal, in cases concerning their countrymen. (Book 10, paragraph 490, page 614, volume 1.) All of the above refers to Mr. Cutting, in consequence of which I can not order his release in any but the forms prescribed by the laws of this country. country. I remain, &c.,

R. CASTAÑEDA

No. 3.

Mr. Jackson to Mr. Bayard.

No. 266.]

LEGATION OF THE UNITED STATES, Mexico, July 8, 1886.

SIR: The inclosed copies of note addressed by me to Mr. Mariscal, and of his reply thereto, with translation of the latter, will indicate the action I have felt myself called upon to take in the matter of the imprisonment at Paso del Norte of Mr. A. K. Cutting, an American citizen. Having learned from the United States consul, Mr. Brigham, that the Department had been fully advised by him of the affair, I shall take no further step in the matter unless I be instructed by yourself to do so.

I am, &c.,

HENRY R. JACKSON.

[Inclosure 1 in No. 266.] Mr. Jackson to Mr. Mariscal.

LEGATION OF THE UNITED STATES, Mexico, July 6, 1886.

Sir: I am in receipt of an official communication from J. Harvey Brigham, esq., consul of the United States at El Paso del Norte, accompanied by affidavits of several persons, from which it appears that, on the 23d of June last, Mr. A. K. Cutting, an American citizen of respectable character, was imprisoned in that city, by order of the judge of the second court. Hon. Requa Castafieda; that the place of his incarceration is "loathsome and filthy; " that he is locked up with eight or ten other * * * in jail for various offenses * * * in one room 18 by 40 feet, with only one door, which is locked at night, making it a close room in every respect, there being no other means of ventilation. The room is filthy and unwholesome, with only a ground floor."

The affidavits further establish the facts that Mr. Cutting is not only able to give ample security from the best and wealthiest men of the city for hisappearance to stand his trial, but that he actually offered such bail and it was refused; that he thereupon applied to the United States consul for protection, which Mr. Brigham undertook to extend in a respectful note addressed to the judge, but that his interposition met with contemptuous silence, and that Mr. Cutting has been retained in jail despite of it.

The affidavits further show that the only offense charged against him is the publication of a "card," addressed "to Emigdio Medina, of Paso del Norte," in a newspaper published in El Paso, which reflects upon the character of the latter.

It is not my nursesse in this paste to discuss the question whether a Mexican

a newspaper published in El Paso, which reflects upon the character of the latter.

It is not my purpose in this note to discuss the question whether a Mexican court can take jurisdiction of an offense committed upon the soil of Texas; not to enter into the merits of the controversy between Mr. A. K. Cutting on the one hand, and Mr. Emigdio Medina on the other. I learn that these matters have been submitted by Mr. Brigham, the consul, to the Department of State at Washington. My object is simply to direct the attention of your excellency to the fact that an American citizen, of respectable character, charged with no scrious crime, but with acts which, even if he be guilty, constitute the simplest of misdemeanors, is now undergoing a very severe punishment before conviction, and after offering the best of security for his appearance to stand his trial; and that his health, and even his life, are placed and held in jeopardy, despite of the efforts of an official representative of his country in his behalf. But for this serious aspect of the case I should have awaited instructions from my own government before approaching your excellency on the subject, and do so now only for the purpose of praying that proper relief may be extended to Mr. Cutting at the earliest moment and through the speediest practicable channel.

I seize, &c.,

HENRY R. JACKSON.

[Inclosure 2 in No. 266.—Translation.] Mr. Mariscal to Mr. Jackson.

DEPARTMENT OF FOREIGN AFFAIRS, Mexico, July 7, 1886.

Mr. Minister: I have the honor to acknowledge receipt of your excellency's communication, dated the 6th instant, relative to the imprisonment in Paso del Norte of Mr. A. K. Cutting, and to state that by advice of the President I to-day address the governor of the State of Chihuahua recommending him to see that prompt and due justice be administered, to the alleviation of the rude situation in which Mr. Cutting is found, as well as all else permitted by the laws.

Promising to communicate to your excellency as soon as received the reply of the said governor, it pleases me to renew, &c.,

IGNO. MARISCAL.

Mr. Adee to Mr. Jackson.

[Telegram.]

DEPARTMENT OF STATE, Washington, July 22, 1886. Summarize reasons briefly by telegraph. ADEE, Acting Secretary.

No. 9.

Mr. Jackson to Mr. Adec.

Mr. Jackson to Mr. Adec.

Legation of the United States, Mexico, July 22, 1886.

The telegraphic summary of the Mexican Government's reply in the Cutting case shows that it is at present in the state courts, but that the federal government has not the power to direct the state officials or the executive of the state of Chihuahua or the judiciary to release the accused, especially where the order interferes with due legal process instituted by a complaining person. In this respect it is maintained that Mexico resembles the United States, It is contended that a pressure of private interests or a totally uninformed press in the United States must have induced so imperative a demand for the prisoner's release, and that it is morally impossible to comply therewith. It is asserted that as the moral influence of the Mexican President has been interposed to have the case conducted in accordance with principles of justice the confidence is expressed that the case will soon be terminated in a satisfactory manner.

BRIGHAM, Consul.

No. 13.

Mr. Bayard to Mr. Jackson.

DEPARTMENT OF STATE, Washington, July 27, 1886. No. 228 1

No. 228.]

DEPARTMENT OF STATE, Washington, July 27,1886.

SIR: Since my No. 221, of the 20th instant, I have received no further communication from Mr. Brigham, consul at El Paso, nor from yourself, in connection with the imprisonment of Mr. A. K. Cutting by Mexican authority.

On Saturday last, the 24th instant, I was called upon by M. Romero, the minister from Mexico at this capital, in relation to the case referred to.

Mr. Romero produced to me the Mexican laws, article 186, whereby jurisdiction is assumed by Mexico over crimes committed against Mexicans within the United States or any other foreign country; and under this he maintained the publication of a libel in Texas was made cognizable and punishable in Mexico. And thus Mr. Cutting was assumed to be properly held.

This claim of jurisdiction and lawful control by Mexico was peremptorily and positively denied by me, and the statement enunciated that the United States would not assent to or permit the existence of such extraterritorial force to be given to Mexican law, nor their own jurisdiction to be so usurped, or their own local justice to be so vicarlously executed by a foreign government.

In the absence of any treaty of amity between the United States and Mexico providing for the trial of the citizens of the two countries respectively, the rules of international law would forbid the assumption of such power by Mexico asis contained in the Penal Code, article 186, above cited. The existence of such power was and is denied by the United States.

Mr. Romero informed me that the local or state jurisdiction over Cutting's case did not allow interference by the national Government of Mexico in the matter, and that it was this conflict that had induced delay in responding to the demand of this Government for Mr. Cutting's release.

Mr. Romero finally assured me that I might rely confidently upon Mr. Cutting's release in a very short time, and that there would be no doubt about the complance of his Government with the demand made through you.

I communic

of the case as it appears here, and the disposition of the Mexican government as here expressed.

There was a more extended conversation on my part with Mr Romero on the general subject of the treatment by the Mexican authorities of American citizens and cases affecting their property and interests.

I stated to him personally and at some length the single voice that had come to this Department from Mr. Foster, Mr. Morgam, and yourself, in which a declaration was made of the hopelessness of obtaining justice to our citizens in cases where they had been wronged by the officials and Government of Mexico. I also called his attention to the avowed policy and action of Mr. Mariscal of compelling all claims wherein the Government of Mexico was sought to be held liable for tortious proceedings to be tried and decided in tribunals of her own creation and under her sole control, whose judgments, he claimed, should be held final and conclusive against citizens of the United States.

As this pretension of exclusive control was now under consideration and the subject of correspondence, notably in the case of the Rebecca, I stated merely that the United States did not accept the judgments of Mexican tribunals in cases where Mexico was a party to the dispute to be binding upon the United States.

I passed, however, to the broader view of the necessity of administering in-

cases where Mexico was a party to the dispute to be binding upon the United States.

I passed, however, to the broader view of the necessity of administering international laws in a spirit of amity, comity, and justice; that these were the wise and true paths of peaceful government, and that the alternatives of reprisal and force were the last and most unsatisfactory resorts.

Mr. Romero is too well convinced to make my renewed avowal necessary that nothing inconsistent with the self-respect, honor, and prosperity of Mexico is desired or intended by the United States, and that it was in the interest of Mexico even more than of the United States that no friction or exasperation should be permitted in the intercourse of the two governments and of their inhabitants; that to avoid all such irritation or the straining of our friendly relations it is essential that a spirit and readiness to redress wrongs and enforce equitable settlements of matters of difference should be constantly and practically manifested.

I am persuaded of the good intent of Mr. Romero toward this Government, and believe him also to be patriotically faithful to his own. From him I have assurances that a desire to respond in a friendly and conciliatory spirit influences the present Mexican administration. And if this be the true state of affairs, it can be readily demonstrated, and all questions of conflicting interests and opinions now under consideration diplomatically between the two governments en without difficulty be equitably, honorably, and satisfactorily adjusted.

I am, &c.,

T F BAVARD

No. 14.

[Handed to Mr. Bayard by Mr. Romero July 29, 1886.] Article 186 of the Mexican Penal Code.

Article 186 of the Mexican Penal Code.

Any crimes that may be committed on the territory of a foreign state by a Mexican against Mexicans or against foreigners, or by a foreigner against Mexicans, may be punished in Mexico, in conformity with the laws of the country, under the following provisions:

1. That the accused party should be in Mexico, whether of his own free will or by having been extradited.

2. That a proper complaint should be made by the legitimate party in case the guilty person should be a foreigner.

3. That the accused party should not have been tried in the country where the crime was committed, or, in case he has been tried, that no acquittal, amnesty, or pardon should have been pronounced in the matter.

4. That the violation of which he may be accused should be considered a crime both in the country where it was committed and in Mexico.

5. That the crime should be liable, in accordance with the laws of Mexico, to a more severe punishment than that of arrest.

Mr. Jackson to Mr. Bayard.

LEGATION OF THE UNITED STATES, Mexico, July 22, 1886. No. 272.1

No. 272.]

LEGATION OF THE UNITED STATES, Mexico, July 22, 1886.

SIR: On the evening of the 19th instant, immediately after the receipt of your telegram of that date, I addressed a note to Mr. Mariscal, of which I now forward a copy. I thought it wise, for the purpose of avoiding possible delay in his action, to direct Mr. Mariscal's attention to the fact that his note of 7th instant, relating to Mr. Cutting's case, was probably before you when the instruction was sent by wire to me, and was therefore not satisfactory.

After making the demand I telegraphed to Mr. Brigham to give me prompt notice of Mr. Cutting's release. Having heard nothing from him nor from Mr. Mariscal during the 20th, on the 21st I addressed another note to Mr. Mariscal, a copy of which I also inclose, and late in the evening received his answer, of which a copy and translation are now sent. They go by the earliest mail after the receipt of the original note by me, but were anteceded by a telegram, in the following words:

"Instant release of Cutting refused. Reasons given at length. Shall I telegraph them?"

I also inclose a translation copy of Article 260, Code of Penal Procedure, referred to in the communication from the governor of Chihuahua to Mr. Mariscal, which accompanied the note of the latter to myself.

HENRY R. JACKSON.

HENRY R. JACKSON.

Mr. Jackson to Mr. Mariscal.

LEGATION OF THE UNITED STATES, Mexico, July 19, 1886.

LEGATION OF THE UNITED STATES, Mexico, July 19, 1886.

SIR: I hasten to communicate to your excellency the following telegram, which I have just received from Mr. Bayard, Secretary of State, a Washington: "You are instructed to demand of the Mexican Government the instant release of A. K. Cutting, a citizen of the United States, now unlawfully imprisoned at Paso del Norte."

It is proper for me to state that, upon referring to my correspondence with my own Government, I ascertain that a copy of your excellency's esteemed note of 7th instant was forwarded to Mr. Bayard on the 8th, immediately upon its receipt, and must, consequently, have been received by him prior to the 19th instant, the date of his telegram.

In making this demand through your excellency, I beg to renew the assurance of my most distinguished consideration.

HENRY R. JACKSON,

HENRY R. JACKSON,

[Inclosure 2 in No. 272.]

Mr. Jackson to Mr. Mariscal

LEGATION OF THE UNITED STATES, Mexico, July 21, 1886.

Sir: On the 19th instant I had the honor of making a demand through your excellency upon the Mexican Government for the instant release of Mr. A. K. Cutting, a citizen of the United States, unlawfully imprisoned at Paso del Norte. This demand was made under directions by telegram from my own Government.

Although instructed by me to communicate by telegram the fact of the release of Mr. Cutting, up to this moment I have heard nothing from Mr. Brigham, United States consul at Paso del Norte.

For these reasons I apprehend that possibly my note of the 19th instant, though sent by the usual channel, may not have been placed in your excellency's hands.

In calling attention to this matter I renew the assurance of my most distinguished consideration.

[Inclosure 3 in No. 272.—Translation.]

Mr. Mariscal to Mr. Jackson.

DEPARTMENT OF FOREIGN AFFAIRS, Mexico, July 21, 1886.

Department of Foreign Affairs, Mexico, July 21, 1886.

Mr. Minister: Yesterday I had the honor of receiving your excellency's communication, dated the day before, and containing a telegram from Mr. Bayard, the Secretary of State, addressed to that legation, to demand from the Mexican Government the instant release of A. K. Cutting, imprisoned i-legally, as that message said, in Paso del Norte; and to-day there has reached my hands another communication of this morning, in which your excellency, not having received notice that the prisoner had left the jail, supposes that I have not received the first of the said notes.

As soon as I had noted the contents of that communication I telegraphed to the governor of Chihuahua, re-recommending the matter to him, asking him to advise me as to its status. As yet I have not received a reply to that telegram up to this hour (2 p. m.), and this I should not wonder at, in fact, as I know that the said functionary has had to address the supreme tribunal of the state and the tribunal, the judge, at Paso del Norte. Mr. Minister, these are delays that are inevitable in a country governed by institutions like ours, where the federal executive is unable to communicate directly with the local-authorities of the states. Much less could it give them orders. To do thus would imply a positive offense, especially in the case of judges independent even of the administrative power of the state to which they belong, and that offense would be even more aggravated if designed to trample out and peremptorily stop a legal process, instituted by an interested party, as I understand the case of Mr. Cutting to be.

These considerations can not but have been evident to the judgment of your

more aggravated if designed to trample out and peremptorily stop a legal process, instituted by an interested party, as I understand the case of Mr. Cutting to be.

These considerations can not but have been evident to the judgment of your excellency's Government, as they refer to the nature of institutions in that particular identical to those in force in the United States of America. I believe, therefore, that only the pressure brought to bear by private persons, or perhaps by an ill-informed press, can have been able to bring about the result that a Government friendly to Mexico, and which up to the present has no complaint against this nation for lack of compliance with its international obligations, should demand in an absolute manner what is, in every light, morally impossible.

In the matter under treatment all has been done up to the present by this government that comes in the sphere of its facilities; all that can be asked of it while amity and peace reign between the two nations.

Interposed, as has been the moral influence of the president of the republic, to the end that the case may be conducted with justice, it should be confidently hoped that very soon the matter will be terminated in a satisfactory manner.

I infer this, not only from these reflections, but also from the recommendation made by the supreme tribunal of justice of Chinabua, which your excellency will see in the accompaniment which I have the honor to inclose, and which document I received in original to-day, sent to me in consequence of the communication which I addressed to the governor of that state on the 7th instant, relative to the matter.

I am, &c.,

IGNO. MARISCAL

IGNO. MARISCAL

[Inclosure 4 in No. 272.]

Mr. Maceuro to Mr. Mariscal.

[Mexican Republic, government of the state of Chihuahua, second section, department of justice No. 1333.]

The president of the supreme tribunal of justice No. 1333.]

The president of the supreme tribunal of justice of the state, in a communication, No. 733, of the 14th of the current month, says to this government:

"The supreme tribunal of justice, over which I have the honor to preside, having noted the contents of your esteemed communication, No. 1279, of the 12th instant, in which you are pleased to forward a communication addressed to you by the secretary of state and of the department of foreign affairs recommending that justice be administered to Mr. A. K. Cutting, in the imprisonment of which he complains; under this date the supreme tribunal decreed what I copy, without preventing the second judge of Bravos from administering prompt and due justice in the matter referred to by the secretary of state and of the department of foreign affairs, in the communication forwarded by the executive of the state, let the said second judge report within the term of three days, and through the justice of peace of the district, regarding the acts which said communication mentions, said report in original to be sent to him, recommending the application of the two hundred and sixtieth article of the Code of Penal Procedure," and "I am honored in communicating the same to you for your information and in due reply to your note referred to."

I have the honor to inclose the above to you for your information, and as resultant on your communication of the 7th instant relating thereto.

Liberty and constitution.

Chiluahua, July 17, 1886.

FELIX FRANCISCO MACEYRA.

FELIX FRANCISCO MACEYRA.

To the Secretary of State and of the Department of Foreign Affairs, Mexico.

[Inclosure 5 in No. 272.—Translation.]

Article 260, Code of Penal Procedure.

Every person detained or imprisoned for an offense whose punishment may not exceed five years' imprisonment can obtain his liberty under ball, with the consent of the prosecuting attorney, provided, always, that he has a fixed and known domicile; that he possesses property, or exercises some profession, industry, art, or trade, and that in the judgment of the court there is no fear that he will escape.

TAXATION OF DISTILLED SPIRITS.

The SPEAKER laid before the House a bill (H. R. 4833) relating to the taxation of fractional parts of a gallon of distilled spirits and Senate amendments thereto; which were referred to the Committee on Ways and Means.

BRIDGE ACROSS SAINT LOUIS RIVER.

The SPEAKER also laid before the House the bill (S. 2611) to authorize the construction of a bridge across the Saint Louis River at the most accessible point between the States of Minnesota and Wisconsin.

Mr. NELSON. Mr. Speaker, I ask unanimous consent—

ATLANTIC AND PACIFIC SHIP RAILWAY COMPANY.

Mr. REAGAN. I ask the gentleman to yield to me while I offer a resolution to fix a day for the consideration of the bill to incorporate the Atlantic and Pacific Railway Ship Company, and for other purposes.

Mr. NELSON. I yield to the gentleman. Mr. REAGAN. I ask consent to offer for present consideration the resolution I send to the Clerk's desk.

The Clerk read as follows:

Resolved, That Wednesday, the 8th day of December next, be set apart for the consideration of House bill 5855 to incorporate the Atlantic and Pacific Ship Railway Company, and for other purposes, and that its consideration be continued from day to day until disposed of, not to interfere with revenue or appropriation bills.

Mr. PAYSON. I object.

BRIDGE ACROSS SAINT LOUIS RIVER.

Mr. NELSON. I move that the House non-concur in the Senate bill (S. 2611), and ask a committee of conference.

The SPEAKER. This is an original Senate bill, and the gentle-man's motion is not in order. The gentleman can ask unanimous con-

sent to put the bill upon its passage.

Mr. BLAND. I demand the regular order.

The SPEAKER. The gentleman from Missouri [Mr. BLAND] demands the regular order.

The Senate bill (S. 2611) will be referred to the Committee on Commerce.

LEAVE OF ABSENCE.

By unanimous consent leave of absence was granted, as follows:

To Mr. MORRILL, for one week, an account of important business.

To Mr. Hale, indefinitely, on account of important business. To Mr. LOUTTIT, indefinitely, on account of illness. To Mr. Sawyer, for the remainder of the session, on account of important business.

To Mr. Worthington, for the remainder of the session, on account of important business.

To Mr. Cox, for the remainder of the session.

To Mr. HARRIS, for the remainder of the session, on account of important business.

. To Mr. Holmes, for the remainder of the session, on account of important business.

TARIFF-LEAVE TO PRINT.

Mr. KELLEY, by unanimous consent, obtained leave to print in the CONGRESSIONAL RECORD remarks on House bill 7652.

ORDER OF BUSINESS.

Mr. WILLIS. I rise to make a privileged report, and send to the Clerk's desk a report from a committee of conference.

Mr. BURNES. Mr. Speaker— The SPEAKER. The gentleman from Kentucky [Mr. WILLIS]

The SPEAKER. The gentleman from Kentucky [Mr. WILLIS] makes a report from a committee of conference. For what purpose does the gentleman from Missouri [Mr. BURNES] rise?

Mr. BURNES. I hold in my hand a privileged report from a committee of conference in regard to the Senate amendments to the general deficiency bill, and I desire to raise the question of consideration against the report just submitted by the gentleman from Kentucky.

The SPEAKER. The gentleman from Missouri raises the question of consideration against the conference report presented by the gentleman from Kentucky.

man from Kentucky. The report will be read, after which the question will be put to the House.

Mr. JOHNSTON, of Indiana. Mr. Speaker, before the report is

read, I ask unanimous consent that members of committees having re-

Mr. BLAND. I call for the regular order.

Mr. BLAND. I can for the regular order.

Mr. GLOVER. I rise to a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. GLOVER. The House did not hear the proposition of the gentleman from Indiana [Mr. Johnston].

The SPEAKER. Because the gentleman from Missouri [Mr. BLAND] demanded the regular order several minutes ago and now repeats his demand, and there is nothing in order except to proceed under the rules. demand, and there is nothing in order except to proceed under the rules of the House

Mr. GLOVER. Did the gentleman from Missouri-The SPEAKER. The Clerk will read the report. I rise to a parliamentary inquiry. Mr. HEPBURN. The SPEAKER.

The gentleman will state it.

I desire to ask if it is competent to demand that Mr. HEPBURN. the items of the report of the committee of conference shall be read in connection with the text of the original amendments, so that we can

understand what changes have been made.

The SPEAKER. The rules of the House require the managers upon the part of the House to submit with their report a statement in writing, showing the effect of each amendment, and that statement must of course be read; but it is not in order to demand the reading of the original amendments on the question of agreeing to the conference report. That could be done only by unanimous consent. The Clerk will read the report.

The Clerk proceeded to read the report.

Mr. DIBBLE (interrupting the reading).

Mr. Speaker, as the statement accompanying this report contains probably all the information the House can derive from the reading of the bill as agreed to by the conferees, I ask unanimous consent that the statement of the committee be read, instead of reading the whole bill.

Mr. HEPBURN. I object.
Mr. DIBBLE. Then I ask unanimous consent that the statement be read first, reserving the right on the part of any member to call for the

reading of the report afterward.

Mr. BURNES. I rise to a parliamentary inquiry. that if this report and bill be now read they may, unless by unanimous consent, have to be read again after the question of consideration is determined. Therefore, for the purpose of saving time, I ask unanimous consent to test at once the question of consideration between the two measures, unless it be the fact that the reading of this report and bill

will not be required a second time.

The SPEAKER. The Chair thinks a second reading will not be required; but the gentleman from Missouri [Mr. BURNES] asks unanimous consent that the question of consideration be voted upon at once

mous consent that the question of consideration be voted upon at once before the reading of the report.

Mr. WILLIS. I object.

Mr. DIBBLE. I believe there was no objection to my proposition.

The SPEAKER. The gentleman from South Carolina [Mr. DIBBLE] asks unanimous consent that the statement made by the managers on the part of the House be first read, the report to be read afterward if the reading be demanded by any member. Is there objection?

Mr. SPRINGER. I object.
The SPEAKER. The Clerk will proceed with the reading of the

The Clerk resumed and concluded the reading of the report, which is as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 7489) "making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes" having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows: That the House recede from its disagreement to the amendment of the Senate with an amendment as follows: Strike out all after the enacting clause and insert the following:

Amendment numbered 1: That the House recede from its disagreement to the amendment of the Senate numbered 1, and agree to the same with an amendment as follows: Strike out all after the enacting clause and insert the following:

ment as follows: Strike out all after the enacting clause and insert the following:

That the following sums of money be, and are hereby, appropriated, to be paid out of any money in the Treasury not otherwise appropriated, and to be expended under the direction of the Secretary of War, for the construction, completion, repair, and preservation of the public works herein named:

\$2.500.

Improving harbor at Pensacola, Fla.: Continuing improvement, \$20,000.

Improving harbor at Tampa Bay, Fla.: Continuing improvement, \$10,000.

Improving harbor at Gedar Keys, Fla., \$7,000.

Improving harbor at Mobile, Ala.: Continuing improvement, \$90,000.

Improving harbor at Biloxi Bay, Mississippi: Continuing improvement, \$12,-500; which sum, together with the money on hand heretofore appropriated for the roadstead, is hereby directed to be used in deepening the channel from Mississippi Sound to the wharves at Biloxi.

Improving Arkansas Pass and Bay up to Rockport and Corpus Christi, Tex.: Continuing improvement, \$101,250.

Improving Brazos Santiago Harbor, Texas: Continuing improvement, \$37,-500.

Improvement of entrance to Galveston Harbor, Texas: Continuing improvement, \$300,000.

Improving Pass Cavallo, Texas: Continuing improvement, \$37,500.

Improving Sabine Pass and Blue Buck Bar, Texas: Continuing improvement, \$198,750.

Improving ship-channel in Galveston Bay, Texas, from Morgan's Cut to Bolivar Channel: Continuing improvement, for which purpose the balance now remaining of the money heretofore appropriated for this work is hereby directed to be expended by the Secretary of War in the completion of said channel, in accordance with the plans heretofore adopted, and in marking out said channel by piles or stakes, so as to enable navigators to find the same without difficulty. Improving harbor at Ashtabula, Ohio: Continuing improvement, \$30,000.

Improving harbor at mouth of Black River, Ohio: Continuing improvement,

Improving harbor at Ashtabula, Ohio: Continuing improvement, \$30,000. Improving harbor at mouth of Black River, Ohio: Continuing improvement, \$10,000.

Improving harbor at Cleveland, Ohio, on the last plan projected, \$93,750; of which \$30,000 are to be used in building a parapet on the existing breakwater, and the \$100,000 now on hand to be available for work on the last plan. Improving harbor at Fairport, Ohio: Continuing improvement, \$18,750. Improving harbor at Huron, Ohio: Continuing improvement, \$3,000. Improving ice-harbor at the mouth of the Muskingum River, Ohio: Continuing improvement, \$3,000. Improving ice-harbor at the mouth of the Muskingum River, Ohio: Continuing improvement, \$3,7500.

Improving harbor at Port Clinton, Ohio, by repairs of existing works, \$2,000. For the purpose of acquiring the title to the land adjoining the inner end of the west pier built by the United States for the improvement of the harbor at Port Clinton, Ohio, the Secretary of War shall negotiate with the owner or owners of the land for the purchase thereof at a reasonable price, to be approved by Congress; and if an agreement as to price can not be made with the owner, then the value of the same shall be ascertained in the mode provided by the laws of Ohio for the condemnation of lands for public uses in that State, the result of said proceedings of condemnation, if taken, to be reported to the next Congress for its approval.

Improving harbor at Sandusky City, Ohio, by dredging the channel through the outer bar and within the bay; and for this purpose the money appropriated by act of July 5, 1884, now on hand, is hereby made available, and the further sum of \$5,000 is hereby appropriated.

Improving harbor at Toledo, Ohio: Continuing improvement of the Maumee River by a straight channel along such line as may be approved by the Secretary of War, \$112,500; and the balance of the \$25,000 heretofore appropriated are hereby made available for clearing the old channel.

Improving harbor at Vermillion, Ohio: Continuing improvem

Improving harbor at Ludington, Mich.: Continuing improvement, \$56,250.

Improving harbor at Manistee, Mich.: Continuing improvement, \$56,250.

Improving harbor at Manistee, Mich.: Continuing improvement, \$10,000.

Improving harbor at Manistee, Mich.: Continuing improvement, \$10,000.

Improving harbor at Monroe, Mich.: By repairs, \$2,000.

Improving harbor at Monroe, Mich.: By repairs, \$2,000.

Improving harbor at Ontonagon, Mich.: Continuing improvement, \$12,500.

Improving harbor at Pentwater, Mich.: Continuing improvement, \$12,500.

Improving harbor at Pentwater, Mich.: Continuing improvement, \$10,000.

Improving harbor at Pertage Lake, Mich.: Continuing improvement, \$15,000.

Improving and repairing harbor of refuge at Sand Beach, Mich.: Continuing improvement, \$15,000.

Improving harbor at Saint Joseph, Mich.: Continuing improvement, \$1,000.

Improving harbor at Saugatack, Mich.: To complete improvement, \$8,000.

Improving harbor at South Haven, Mich.: Continuing improvement, \$5,000.

Improving harbor at Mhite River, Mich.: Continuing improvement, \$1,000.

Improving harbor at Ahnapee, Wis.: Continuing improvement, \$1,000.

Improving harbor at Ahnapee, Wis.: Continuing improvement, \$1,000.

Improving harbor at Kenosha, Wis.: Continuing improvement, \$7,000.

Improving harbor at Kenosha, Wis.: Continuing improvement, \$7,000.

Improving harbor at Kewaunee, Wis.: Continuing improvement, \$10,000.

Improving harbor at Kewaunee, Wis.: Continuing improvement, \$10,000.

Improving harbor at Manitowoe, Wis.: Continuing improvement, \$10,000.

Improving harbor at Manitowoe, Wis.: Continuing improvement, \$10,000.

Improving harbor at Menomonee, Wis.: Continuing improvement, \$3,000.

Improving harbor of refuge at Milwaukee, Wis.: Continuing improvement on bay and harbor, \$60,000.

Improving harbor at Oconto, Wis.: Continuing improvement, \$8,000.

Improving harbor at Port Washington, Wis.: Continuing improvement, \$5,000.

Improving harbor at Raeine, Wis.: Continuing improvement, \$10,000.

Improving harbor at Superior Bay and Saint Louis Bay, Wisconsin: Continuing improvement, \$22,500; and the engineer, in charge, in his next annual report, shall submit an estimate of the cost of a dredge-boat or other facilities that may be needed for dredging the harbors of Duluth and Superior. Thirteen thousand five hundred dollars of the money hereby appropriated are to be expended in dredging in said Superior Bay and Harbor, and in repairing piers at natural entry, and \$9,000 in dredging Saint Louis Bay, along the dock-line on the Wisconsin shore, from deep water at Connor's Point toward deep water at Grassy Point.

Improving harbor at Sheboygan, Wis.: Continuing improvement, \$15,000. Improving harbor at Sturgeon Bay, Wisconsin: Continuing improvement, \$5,000.

Improving harbor at Sturgeou Bay, Wisconsin: Continuing improvement, \$15,000.

Improving harbor at Ashland, Wis.: Continuing improvement, \$22,500.

The Secretary of War is authorized and directed to appoint a board of three engineers from the United States Army whose duty it shall be to examine, in all their relations to commerce the Sturgeon Bay and Lake Michigan Ship-canal, connecting the waters of Green Bay with Lake Michigan, in the State of Wisconsin, with a view to making the same a free passage way and harbor of refuge, to consider their value, and all other matters connected with their usefulness to navigation, and which shall give information as to the expediency of the work and the desirability of their acquisition and improvement. The said board shall report to the Secretary of War, who shall lay its report before Congress at its next session, together with the views of himself and the Chief of Engineers of the United States Army thereon; and \$5,000, or so much thereof as may be necessary, is hereby appropriated for this purpose.

Improving harbor at Duluth, Minn.: Continuing improvement, and enlarging basin between Minnesota and Rice's Points, \$56,200; of which a sum not exceeding \$500 may be used in placing buoys in the channels and elsewhere where needed in the harbor; and the consent of the United States is hereby given to a change of existing dock-line on the east side of Rice's Point by the municipal authorities of Duluth: Provided, That such change meets the approval of the Secretary of War.

Improving harbor at Agate Bay, Minn.: Continuing improvement, \$10,000. Improving harbor at Agate Bay, Minn.: Continuing improvement, \$10,000. Improving harbor at Agate Bay, Minn.: Continuing improvement, \$10,000. Improving harbor at Jake City, Minn.: Continuing improvement, \$10,000. Improving harbor at Okaland, Cal.: Continuing improvement, \$10,000. The sum of \$10,000, or so much thereof as may be necessary, is hereby appropriated for a survey of San Francisco Harbor, San Pablo Bay, Suisun Bay, Strait of

of Carquinez, mount of San Josquin River, and mount of Sacramento River, California.

Improving harbor at Red Wood, Cal.: Continuing improvement, \$5,000. The sum of \$5,000, or so much thereof as may be necessary, is hereby appropriated for examination, survey, and estimated cost of obtaining a channel 250 feet wide and 24 feet deep at mean low water across the outer bar, and from thence to a point abreast of beacon No. 2, in San Diego Harbor, California; also, of obtaining a navigable channel at least 8 feet in depth at mean low water at Newport Harbor, California; also, of the establishment of a breakwater extending in a southeasterly direction ene-fourth of a mile, more or less, along the sunken reef commencing at or near Whaler's Point, so called, at San Luis Obispo Harbor, California.

Improving harbor at Wilmington, Cal.: Continuing improvement, \$75,000. Improving harbor at Yaquina Bay, Oregon: Continuing improvement, \$75,000. Improving Lubec Channel, Maine: Continuing improvement, \$10,000. Improving Moosebec Bar, Maine: Continuing improvement, \$10,000. Improving Penbescot River, Maine: Continuing improvement, by widening the channel opposite Bangor and removing obstructions near Crosby's Narrows, \$15,000. Improving Saco River, Maine, \$12,500.

the channel opposite Bangor and removing obstructions hear Crosby's Narrows, \$15,000.

Improving Saco River, Maine, \$12,500.

Improving Narragaugus River, Maine, \$10,000.

Improving Cocheco River, New Hampshire: Continuing improvement, \$10,000.

Improving Pawtick River, Massachusetts, \$2,500.

Improving Pawtucket River, Rhode Island, \$5,000.

Improving Pawtucket River, Rhode Island: Continuing improvement, \$30,000.

Improving Powtidence River and Narragansett Bay, Rhode Island: Continuing improvement, \$30,000.

For removing Green Jacket Shoal, Providence River, Rhode Island, \$25,250.

Improving Paweatuck River, Rhode Island, \$12,000.

Improving Connecticut River below Hartford, Conn.: Continuing improvement, \$26,250.

Improving Housatonic River, Connecticut, \$5,000.

Improving Thames River, Connecticut: Continuing improvement, \$22,500.

Improving Hudson River, New York: Continuing improvement, \$26,250; of which \$15,000 may be used for the removal of the rock in channel at Van Wie's Point.

Point.
Improving Newtown Creek and Bay, New York: Continuing improvement, \$37,500; of which \$9,375 to be expended on west branch between Maspeth avenue and Dual Bridge, at Grand street and Metropolitan avenue; \$9,375 to be expended on main branch between Easterly Grand street bridge to Metropolitan avenue; and balance on lower end, from Maspeth avenue to the mouth of the

avenue; and balance on lower end, from Maspeth avenue to the mouth of the creek.

Improving Hell Gate, New York: Continuing improvement, \$112,500.

Improving Narrows at Lake Champlain, New York, from Benson, Vt., to canal locks at Whitehall, N. Y., \$30,000.

Improving Ticonderoga River, New York: Continuing improvement, \$2,000.

Improving Maurice River, New Jersey: Continuing improvement, \$26,200.

Improving Passaic River, New Jersey: Continuing improvement, \$26,250; of which \$2,250 are to be used above Newark.

Improving Raritan River, New Jersey: Continuing improvement, \$26,250, Improving Saritan River, New Jersey: Continuing improvement, \$20,000.

Improving Saint Jones River, Delaware: Continuing improvement, \$10,000.

Improving Nanticoke River, Delaware: Continuing improvement up to and near the town of Laurel, Del., \$10,000.

Improving Monongahela River, Pennsylvania and West Virginia: Continuing improvement, \$90,900; but no charges or tolls shall be collected on any other part of the river on any commerce on said river which originates above the works herein appropriated for.

For beginning the construction of a dam at Herr's Island, in the Allegheny River, near Pittsburgh, Pa., \$37,500.

Improving Allegheny River, Pennsylvania: Continuing improvement, \$30,000.

Improving Schuylkill River, Pennsylvania: Continuing improvement, \$18,-

Improving Delaware River, Pennsylvania: Continuing improvement from Trenton to its mouth, \$210,000; of which \$30,000 shall be applied to improving the channel between Camden, N. J., and Philadelphia, Pa., and \$7,500, or so much thereof as may be needed, shall be expended on said river and its tidal tributaries above Bridesburg.

Improving Choptank River, Maryland: Continuing improvement, \$10,000. Improving Corsica Creek, Maryland: Continuing improvement, \$10,000. For rebuilding piers at Battery Island, head of the Chesapeake Bay, which were carried away by ice, strengthening and protecting the works at that point from future destruction, \$17,275.

Improving Susquehanna River, Maryland and Pennsylvania: Continuing improvement, \$5,000; to be expended above the Philadelphia, Wilmington and Baltimore Railroad bridge.

Improving Pocomoke River, Maryland: Continuing and completing improvement, \$8,000.

Improving, by dredging and otherwise, the inland water way from Chinco-

ment, \$8,000.

Improving, by dredging and otherwise, the inland water way from Chincoteague Bay, Virginia, to Delaware Bay at or near Lewes, Del., to be used from Chincoteague Bay to Indian River Bay, \$18,750.

Improving Appomattox River, Virginia: Continuing improvement, \$18,750.

Improving Chickahominy River, Virginia: Continuing improvement, \$4,000.

Improving James River, Virginia: Continuing improvement below Richmond, \$112,000.

S112,000. Improving Mattaponi River, Virginia: Continuing improvement, \$5,000. Improving New River, Virginia: Continuing improvement between the leadmines, in Wythe County, and the mouth of Wilson's Creek, in Grayson County, \$10,000, together with the \$3,000 now on hand. Improving Pamunky River, Virginia: Continuing improvement, \$5,000. Improving Rappahaunock River, Virginia: Continuing improvement, \$20,-

000.

Improving Staunton River, Virginia: Continuing improvement, \$10,000; one-half of which is to be expended between the mounth of Pig River and the Midland Railroad Crossing.

Improving York River, Virginia: Continuing improvement, \$18,750. Improving Dan River, Virginia: Continuing improvement, \$10,000. Improving Big Sandy River, West Virginia and Kentucky: Continuing improvement, \$30,000; of which sum \$3,750 are to be expended on Tug Fork, in West Virginia, and \$3,750 on Lavisa Fork, in Kentucky.

Improving Buckhannon River, West Virginia: Continuing improvement, \$1,500.

Improving Great Kanawha River, West Virginia: Continuing improvement, \$187,500.

Improving Great Kanawha River, West Virginia: Continuing improvement, \$18,500.

Improving Guyandotte River, West Virginia: Continuing improvement, \$1,500.

Improving Guyandotte River, West Virginia: Continuing improvement, the amount heretofore appropriated is made available for this purpose.

Improving Little Kanawha River, West Virginia: Continuing improvement, \$16,875; of which \$1,875 shall be used in continuing the improvement of navigation above the west fork. But no toll shall be collected by any person or corporation for this improved navigation; and such right, if any exist, shall be relinquished, in a manner satisfactory to the Secretary of War, before the expenditure of any of the money herein appropriated for this work.

Improving Cape Fear River, North Carolina: Continuing improvement, \$168,750; of which sum \$11,250 are to be expended above Wilmington, the remainder below and opposite the city of Wilmington, including as much of its northeast branch as lies in front of Wilmington, within the city limits.

Improving Contentnia Creek, North Carolina: Continuing improvement, \$15,000.

Improving Currituck Sound, Coanjok Bay, and North River Bar, North Carolina; Continuing improvement, \$22,500.

Improving New River, North Carolina: Continuing improvement, \$22,500.

Improving Pamlico and Tar Rivers, North Carolina: Completing improvements, \$5,000.

Improving Black River, North Carolina, \$3,000: Provided, That all claims of private parties to the navigation of the river shall be ceded to the United States.

ments, \$5,000.

Improving Roanoke River, North Carolina: Continuing improvement, \$20,000. Two thousand five hundred dollars, or so much thereof as may be necessary, of the aforesaid \$20,000 shall be used for the purpose of removing obstructions in Thoroughfare and Coshoke Creek.

Improving Trent River, North Carolina: Continuing improvement, \$3,500. Improving Dan River, North Carolina: Continuing improvement between Madison, N. C., and Danville, Va., \$10,000.

Improving Yadkin River, North Carolina: Continuing improvement, \$10,000. Improving the inland water way between Beaufort Harbor and New River, North Carolina, through Bogue Sound, \$10,000.

Improving Ashley River, South Carolina: Continuing improvement, \$1,000. Improving Edisto River, South Carolina: Continuing improvement, \$3,000. Improving Great Pee Dee River, South Carolina: Continuing improvement, \$3,000.

\$20,000.

Improving Salkehatchie River, South Carolina: Continuing improvement, 2,000.

\$2,000.

Improving Santee River, South Carolina: Continuing improvement, \$18,750; no part of which sum to be used for the construction of any road-bridge across the Mosquito Creek Canal: Provided, That if salt water be found flowing into said Mosquito Creek, \$5,000 of said sum, or so much thereof as may be necessary, shall be used for the construction of a flood-gate at upper end of the canal, to prevent the same.

Improving Waccamaw River, South Carolina: Continuing improvement \$15, 000

Improving Wappoo Cut, South Carolina: Continuing improvement, \$5,000.
Improving Wateree River, South Carolina: Continuing improvement, \$7,500.
Improving Congaree River, South Carolina, \$7,500.
Improving Altahama River, Georgia: Continuing improvement, \$20,000; of which \$10,000 are to be used on Doboy Bar, or so much thereof as may be necessary.

Imrroving Chattahoochee River, Georgia and Alabama: Continuing improve-ment, \$20,000.

Improving Coosa River, Georgia and Alabama: Continuing improvement, \$45,000.

\$45,000.

Improving Flint River, Georgia: Continuing improvement, \$20,000; of which sum \$5,000 are to be expended between Albany and Montezuma, and \$15,000 below Albany.

Improving Ocmulgee River, Georgia: Continuing improvement, \$7,500.

Improving Ocmulgee River, Georgia: Continuing improvement, \$9,000; \$1,500 of said sum to be expended between Skull Shoals and the railroad bridge.

Improving Romely Marsh, Georgia: To complete improvement, \$17,475; and so much of said sum as may be necessary may be applied by the engineer in charge, with the approval of the Secretary of War, to pay for work done on said improvement, under the direction of the War Department, since the last appropriation was exhausted.

Improving Savannah River below Augusta, Ga.: Continuing improvement, \$15,000.

Improving Apalachicola River, Florida: Continuing improvement, \$1,000. Improving Caloosahatchee River, Florida: Continuing improvement, \$4,000. Improving Choctawhatchee River, Florida and Alabama: Continuing improvement, \$15,000; of which sum \$5,000 to be expended below Geneva, and \$10,000 to be expended beloween Geneva and Newton, Ala. Improving Conceuch-Escambia River, Florida and Alabama: Continuing improvement, \$12,000. Improving La Grange Bayou, Florida: Continuing improvement, \$2,000. Improving La Grange Bayou, Florida: Continuing improvement, \$13,000; of which \$5,000 may be expended on Pease River. Improving channel over the bar at the mouth of Saint John's River, Florida: Continuing improvement, \$15,000. Improving Suwance River, Florida: Continuing improvement, \$5,000. Improving Suwance River, Florida: Continuing improvement, \$5,000. Improving Withlacocchee River, Florida: Continuing improvement, \$5,000. Improving Mithlacocchee River, Florida: Continuing improvement, \$5,000. Improving Black Warrior River from Tuscaloosa to Daniels Creek, Alabama, \$56,250, together with the \$47,000 on land; to be expended in accordance with the plan adopted by the board of engineers.

Inproving Calawaba River, Alabama: Continuing improvement, \$7,500. Provided, That no part of said sum shall be expended until the officer in charge shall have reported that the railroad and other bridges across said river have been provided with good and sufficient draw-openings.

Improving Tombigbee River, Alabama: Continuing improvement, \$7,500. Improving Warrior River, Alabama: Continuing improvement, \$5,000; of which \$2,000 to be expended below Vienna, \$11,200; and between Vienna and Fulton, \$7,500.

Improving Tombigbee River, Mississippi: Continuing improvement, including bar at the mouth, and from there to the mills at Moss Point, \$20,000; and the balance of the money now on hand heretofore appropriated for improving Horn Island Pass is to be applied to the same purpose.

Improving Pascagoula River, Mississippi: Continuing improvement

of said stream.

Improving Amite River, Louisiana: Continuing improvement, \$2,000.

Improving Bœuf River, Louisiana: Continuing improvement, and for closing Outlet No. 1, \$5,000.

Improving Bayou Bartholomew, Louisiana and Arkansas: Continuing improvement, \$5,000.

Improving Bayou Courtableau, Louisiana: Continuing improvement, \$5,000.

Improving Bayou D'Arbonne, Louisiana: Continuing improvement, \$2,000.

Improving Bayou Terrebonne, Louisiana: Continuing improvement, \$2,000.

Improving Cypress Bayou and the lakes between Jefferson, Tex., and Shreveport, La., Texas and Louisiana: To complete improvement, \$18,000.

Improving Tensas River and Bayou Macon, Louisiana: Continuing improvement, \$4,000.

Improving Red River, Louisiana and Arkansas Continuing improvement, \$18,000.

ment, \$4,000.

Improving Red River, Louisiana and Arkansas: Continuing improvement from Fulton, Ark., to the Atchafalaya River, Louisiana, including completing the work at Alexandria, \$75,000; of which sum \$25,000, or so much thereof as may be necessary, shall be used in making a thorough survey of the river from Fulton, Ark., to the Atchafalaya River, and in completing the survey of Bayou Pierre, Louisiana.

Improving Tchefuncte River and Bogue Falia, Louisiana: Continuing improvement, \$2,500; to be expended in the improvement of Bogue Falia up to Covincton.

Pierre, Louisiana.

Improving Tehefuncte River and Bogue Falia, Louisiana: Continuing improvement, \$2,500; to be expended in the improvement of Bogue Falia up to Covington.

Improving Tickfaw River, Louisiana: Continuing improvement, \$2,000; to be expended on its navigable tributaries.

Improving Ouachita River, Louisiana and Arkansas, and Black River, Louisiana: Continuing improvement, \$17,500; of which \$7,500, or so much thereof as may be necessary, for repairing snag-boat Wagner.

Improving Calcasieu River and Pass, Louisiana: Continuing improvement to secure a navigable channel 8 feet deep over the bars affecting the entrance to said river and pass, and for this purpose the money on hand heretofore appropriated for improvement of Calcasieu River is to be used.

Improving Buffalo Bayou, Texas: Continuing improvement, \$18,750.

Improving Buffalo Bayou, Texas: Continuing improvement, \$18,750.

Improving Buffalo Bayou, Texas: Continuing improvement, \$18,750.

Improving Saint Francis River, Arkansas and Missouri, to the town of Saint Francis: Continuing improvement, \$8,000.

Improving Arkansas River, Arkansas: Continuing improvement, \$75,000, according to the plan and recommendations in Appendix V 13, Executive Document 1, Forty-ninth Congress; of which there are to be expended \$8,000 at Pine Bluff, \$13,000 at Fort Smith, and \$10,000 at Dardanelles, or so much thereof under those sums, respectively, as may be necessary at those points.

For the removal of snags, wrecks, and other obstructions in the Arkansa River, \$19,875; of which sum \$1,125, or so much thereof as may be necessary, shall be used to complete the survey of the Arkansas River between Little Rock, Ark., and Wichita, Kans.

Improving Black River, Arkansas, above Fulton, Ark., \$7,000.; Improving Black River, Arkansas, \$3,000.

Improving Herok shoals in Fourche River, Arkansas, situate 4 miles south of Perryville, in Perry County, Arkansas, according to the plans of the engineers for creating a 50-foot channel, \$5,000.

Improving Cumberland River, Ten

Improving French Broad River, Tennessee: Continuing improvement, \$6,-

Improving Hiawasse River, Tennessee: Continuing improvement, \$2,500.
Improving South Fork of Forked Deer River, Tennessee: Continuing improvement, \$5,000.
Improving Tennessee River above Chattanooga, Tenn.: Continuing improve-

Improving Tennessee River at Big Muscle Shoals, Little Muscle Shoals, and Elk River Shoals, Alabama: To complete improvements at these localities, \$262,500

Elk River Shoals, Alabama: To complete improvements at these localities, \$262,500 Improving South Fork of Cumberland River, Kentucky: Continuing improvement, \$5,000. Improving Kentucky River, Kentucky: Continuing improvement, \$2,000. Improving Tradewater River, Kentucky: Continuing improvement, \$2,000. Improving the Falls of the Ohio River at Louisville, Ky.: Continuing improvement, according to the last plan of the engineer in charge, and to be first applied to the completion of the work now in progress, \$150,000: Provided, That of that sum \$50,000 shall be expended in enlarging the canal-basin, as recommended in the last report of the engineer in charge.

The Secretary of War is hereby authorized and directed to ascertain the value and commercial importance of the works and property of the Green and Barren River Navigation Company, situated on the Green and Barren Rivers, in the State of Kentucky, and of the Monongahela Navigation Company, situated on the Monongahela River, in the State of Kentucky, and of the Monongahela Navigation Company, situated on the Monongahela River, in the State of Fennsylvania; and in order to acquire such information the Secretary of War shall appoint a board of three competent engineers from the Engineer Corps of the United States Army, which board shall in each case report to the Secretary of War, who shall report thereon to Congress at its next succeeding session; and the cost of such examination shall be paid out of the sum appropriated by this act for surveys: Provided, That nothing herein shall be construed as committing Congress to the purchase of the said works.

Improvement of the Muskingum River, Ohio, between Zanesville, and the mouth of the river and for execution; the same 200000. And the Husted States

nothing herein shall be construed as committing Congress to the purchase of the said works.

Improvement of the Muskingum River, Ohio, between Zanesville and the mouth of the river, and for operating the same, \$20,000. And the United States hereby accepts from the State of Ohio the said Muskingum River improvement, and all the locks, dams, and their appurtenances, and the canals belonging to said improvement, and all the franchises and property of every kind, and rights in said river, and its improvements, now owned, held, and enjoyed by the State of Ohio, including all water leases and rights to use water under and by virtue of any lease of water now running and in force between the State of Ohio and all persons using said water, hereby intending to transfer to the United States such rights in said leases and contracts as are now owned, held, or reserved by the State of Ohio; but not to affect any right to the use of the water of said river now owned and held by the lessees of any water right under any lease or contract with the State of Ohio. And the United States hereby assumes control of said river, subject to the paramount interest of navigation. The provisions of this act, so far as they relate to the Muskingum River, shall not take effect, nor shall the money hereby appropriated be available, until the State of Ohio, acting by its duly authorized agent, turns over to the United States all property ceded by the act of the General Assembly aforesaid, and all personal property belonging to the improvement aforesaid, and used in its care and improvement, and any balance of money appropriated by said State for the improvement, and any balance of money appropriated by said State for the improvement, and river, and which is not expended on the 18th day of July, 1886.

Improving Clinton River, Michigan: Continuing improvement, \$6,000.

Improving Saint Clair Ship-canal, Michigan: Continuing improvement, \$7,500.

Improving Saint Mary's River, Michigan: Continuing improvement by a new lock and annecedus \$250,000.

Improving Detroit River, Michigan: Continuing improvement, \$18,750.

Improving Saint Clair Ship-canal, Michigan: Continuing improvement, \$18,750.

Improving Saint Mary's River, Michigan: Continuing improvement by a new lock and approaches, \$250,000.

Improving Hay Lake Channel, Michigan: Continuing improvement, \$150,000.

Improving Saginaw River, Michigan: Continuing improvement, \$150,000.

Improving Saginaw River, Michigan: Continuing improvement, \$33,750; of which \$16,875 are to be used above Bay City, and \$5,000 in improving the west channel along West Bay City.

The Secretary of War is authorized and directed to appoint a board of three engineers from the United States Army, whose duty it shall be to examine in all their relations to commerce the two improved water ways known as the Portage Lake and River Improvement Company Canal and the Lake Superior Ship-canal, Railway, and Iron Company Canal, being the improved harbors of refuge and the water communication across Keweenaw Point, from Keweenaw Bay to Lake Superior, by way of Portage River and lake, in the State of Michigan, with a view to making the same a free passage way and harbors of refuge, to consider their value and all other matters connected with their usefulness to navigation, and which shall give information as to the expediency of the work and the desirability of their acquisition and improvement. The said board shall report to the Secretary of War, who shall lay its report before Congress at its next session, together with the views of himself and the Chief of Eugineers of the United States Army thereon; and \$10,000, or so much thereof as may be necessary, is hereby appropriated for this purpose.

Improving Chippewa River, Wisconsin: Continuing improvement from the Dalles Dam to its mouth, \$18,750.

Improving Fox River, Wisconsin: Continuing improvement from the Dalles Dam to its mouth, \$18,250.

And the Secretary of War is hereby directed to have the examination and survey of the Wisconsin River from Portage to the mouth, now being made by

Improving White River, Indiana: Continuing improvement below Hazelton, \$7,500.

Improving Calumet River, Illinois: Continuing improvement, \$30,000; of which \$11,250 are to be used between the Forks and one-half mile east of Hammond, Ind., \$5,625 of which are to be used in dredging the river between the Forks and the State line of Illinois and Indiana, and \$5,625 on the river at Hammond Ind: Provided, however, That no part of said sum, nor any sum heretofore appropriated, except the said \$11,250 for the river above the Forks, shall be expended until the entire right of way, as set forth in Senate Executive Document No. 9, second session Forty-seventh Congress, shall have been conveyed to the United States free of expense, and the United States shall be fully released from all liability for damages to adjacent property-owners, to the satisfaction of the Secretary of War; and if any of the owners of real estate required to be taken or that is damaged for the purpose of straightening or widening that portion of the Calumet River for which the appropriation herein is now made, can not be induced to convey to the United States such real estate so required, and release their claim for damages caused by said improvement, or should the owner or owners be incapable of conveying and releasing, or should his or her name or residence be unknown, or he or she be a non-resident of the State of Illinois, it

shall then be the duty of the United States attorney for the northern district of Illinois to immediately file a petition in any court having jurisdiction thereof, in the manner and as authorized by the laws of the State of Illinois in such cases, ive owners of the land taken or damaged: Provided, however, That the other owners of property and parties interested in said improvement shall first execute a bond to the United States, to be approved by the Secretary of War, for the payment of the costs of such proceedings, and to pay any judgment that may be rendered therein; and on failure to do so the proceedings shall be dismissed. Improving Illinois River, Illinois: Continuing improvement, \$112,500; of which sum \$3,750 may be expended in dredging the river in front of Peorla.

The Secretary of War is authorized and directed to appoint a board of three engineers from the United States Army, whose duty it shall be to examine in all their relations to commerce the Illinois and Michigan Canal and the propriet of the Illinois and Michigan Canal and the propriet of the Illinois and Michigan Canal and the propriet of the Illinois and Michigan Canal and the propriet of the Illinois and Michigan Canal and the propriet of the Illinois and Michigan Canal and the propriet of the Illinois and Michigan Canal and the propriet of the Illinois and Michigan Canal and the construction of the Hennepin Canal. The said board shall report to the Secretary of War, who shall lay its report before Congress at its next session, together with the views of himself and the Chief of Engineers of the United States Army thereon; and \$15,000, or so much thereof as may be necessary, is hereby appropriated for this purpose: Provided, That nothing in this paragraph shall be construed as committing the Government to the said improvement.

Improving Gasconde River, Missouri: Continuing improvement, \$7,500.

Improving Osage River, Missouri: Continuing improvement, \$7,500.

Improving Osage River, Missouri: Continuing improvement, \$7,500.

Improving Mis

Improving Chehalis River, Washington Territory: Continuing improvement, \$2,000.

Improving Skagit, Steilaquamish, Nootsack, Snohomish, and Snoqualmic Rivers, Washington Territory: Continuing improvement, \$10,000.

Improving Missouri River from its mouth to Sioux City: Continuing improvement, including necessary work at Omaha, Atchison, Saint Joseph, Fort Leavenworth reservation, Arrow Rock, Kansas City, Plattsmouth, Brownsville, and Nebraska City, \$375,000; to be expended under the direction of the Secretary of War, in accordance with plans and estimates to be furnished by the Missouri River Commission.

Improving Missouri River from Sioux City to Fort Benton: Continuing improvement, \$60,000, under the direction of the Secretary of War.

For removing obstructions in the Missouri River, \$22,500.

Improving the Ohio River: Continuing improvement, \$375,000; out of which sum \$37,500 are to be expended at Grand Chain in removing rocks and other obstructions to navigation at that locality; also \$18,750 may be expended in constructing or aiding in the construction of such an embankment on the south side of the Great Miami River, near its junction with the Ohio, as may be necessary to confine the waters of the Great Miami in great floods to the general course of its channel at or near the Ohio, to the end that the formation of the bar in the Ohio River now forming and obstructing navigation may be arrested; also \$37,500, or so much thereof as may be necessary, of said appropriation shall be expended in constructing five ice-piers, pursuant to the present or prospective plans of the Chief of Engineers, at or near the following places, to wit: One at Pomeroy, Ohio; one at Middleport, Ohio; one at Gallipolis, Ohio; and one at Ironton, Ohio; and one at or near Ashland, Ky, on the south side of the Ohio River: Provided, That the Secretary of War is hereby authorized and directed to obtain, if he can do so without cost to the United States, perpetual leases or convoyances of the riparian rights of the property-owners at each

Adams; but if not so used the sum shall remain as a part of said appropriation, and be used for the purposes first in this paragraph specified.

Project, \$20, 20; of which sum \$15,000 are to be used for pier construction, in extending the outer wall of canal to the pivot-pier of the bridge.

For dry-doc's at Des Moines Rapids, \$45,50.

Largoving its barbor at Dubeque, lowa, the bridge.

For dry-doc's at Des Moines Rapids, \$45,50.

Largoving its barbor at Dubeque, lowa, the properties of the mouth of the Illimois River, including the river at Quincy Bay and the removal of the bars at said ice-harbor.

Improving Mississippi River from Des Moines Rapids to the mouth of the Illimois River, including the river at Quincy Bay and the removal of the bars at ing of Sny Island Laves where it crosses Suicarto Slough and other sloughs: Continuing the improvement, \$150,000.

Improving Mississippi River from the mouth of the Illinois River to the mouth of the Ohlo River, including the completion of the work at Alton, and, which \$37,500, or so much thereof as may be necessary, to be expended in extending the work for the protection of the eastwardly bank of the Mississippi River at Canton, and the prevention of its wash or exposence, commencing at the remain and \$22,500 for continuing improvement at Cape Girardeau, Mo., and Montona Point, Illinois: Provided, That the Secretary of War, in his discretion, may use not to exceed \$75,000 of said sum of \$375,000 to correct the current of the river and improve the channel at Sain Louis.

River: Continuing improvement, \$2,000,000; which sum shall be expended under the direction of the Secretary of War, in a scondance with the plans, specifications, and recommendations of the Mississippi River Commission: Provided, Than to portion of this excetary of War, in a condance with the plans, specifications, and recommendations of the Mississippi River Commission is authorized to repair and build levess! in the high plans and the plans and the property by overflows: Provided, Monton Provided,

said harbor most judicious and practicable and for the best interests of such improvement.

SEC. 4. The Secretary of Warshall prescribe such rules and regulations as may be necessary to secure a judicious and economical expenditure of the money herein appropriated, and shall cause to be made and submitted to Congress annual reports, together with maps and plans, including the report of the Mississippi River Commission, on or before December 1, giving detailed statements of the work done, contracts made, the expenditures thereunder or otherwise, and balances of money on hand up to November 1, and the effect of such work, together with such recommendations as he may deem proper. He shall, at the same time, report to Congress all cases in which piers, break waters, locks, and dams, or other structures or works built or made by the United States in aid of commerce or navigation are used, occupied, or injured by a corporation or an individual, and the extent and mode of such use, occupation, or injury. He shall report, at the same time, whether any bridges, causeways, or structures now erected or in process of erection do or will interefere with free and safe navigation.

SEC. 5. It shall be the duty of the Secretary of War to apply the money hereiz

navigation.

SEC. 5. It shall be the duty of the Secretary of War to apply the money hereix appropriated for improvements, other than surveys and estimates, in carryit on the various works, by contract or otherwise, as may be most economical and advantageous to the Government. Where said works are done by contract, such contract shall be made after sufficient public advertisement for proposals, in such manner and form as the Secretary of War shall prescribe; and such contracts shall be made with the lowest responsible bidders, accompanied by such securities as the Secretary of War shall require, conditioned for the faithful prosecution and completion of the work according to such contract, and for

the prompt payment of all liabilities incurred in the prosecution thereof for labor and materials.

SEC. 6. The Secretary of War is hereby directed, at his discretion, to cause examinations or surveys, or both, to be made, and the cost of improvements to be estimated, at the following localities, to wit:

In the States of—

Arkansas: Re-examination of Little River. The lakes connecting with Red River, between Shreveport, La., and Fulton,

Re-examination of Ouachita above Camden, Ark.

Saline River. Cache River.

California:

San Pedro Bay near the entrance to Wilmington Harbor, with a view to establishing an outer harbor for the protection of deep-draught vessels.

Mouth of Smith's River.

Orescent City Harbor, with a view to a sea-wall from Battery Point to Flat

Connecticut:
Five-Mile River Harbor.
Resurvey of Duck Island Harbor, on Long Island Sound, including plans, specifications, and estimate of cost for making the same a harbor of refuge.

Dakota Territory;

Delaware: Duck Creek.

Duck Creek.
Florida:
Punta Rassa Harbor.
Resurvey of Tampa Bay, including Hillsborough River up to the city of Tampa.
Resurvey of outer and inner bars at Pensacola.
Charlotte Harbor, including San Carlos Bay.
Clear Water Harbor, including Anclote and Saint Joseph's Bays and the Narrows into Boga Ciega Bay.
Wakulla River from its mouth to Wakulla Springs.
Survey of the channel from Haul-over, on Indian River, to Gilbert's Bar.
Saint Augustine, for a deep sea-channel on the outer bar.

Georgia:
Savannah River from cross-tides above Savannah to the bar, with a view to obtaining 25 feet of water in the channel.
Flint River from Montezuma to Old Agency.
From Doboy Island to Doboy Bar.
Jekyl Creek.

Illinois:

Farm Creek, with a view to changing its course.
Kaskaskia River from New Athens to mouth.
Bars in Hamburg Bay.
Calumet River from the forks of the river near its entrance into Lake Calumet to Riverdale; also Calumet River from Riverdale to Blue Island.
Mississippi River at Rush Island Bend and Ivy Landing, with a view to confining and deepening the channel.

Indiana:

For a survey of the Ohio River near the city of Evansville, Ind., with a view to determine what, if anything, will be necessary to prevent a change of the channel of the river in front of that city.

Kentucky: Pond River.

Pond River.

The Secretary of War is directed to report to the next session of Congress whether or not the Government dry-dock at Louisville and Portland Canal is adequate for the purposes of commerce, and what alterations, if any, are necessary, and the cost of making the same.

Licking River from Farmer's to West Liberty.

Salt River.
For ice-harbor at Paducah, Ky.
The bar at the mouth of Limestone Creek, in the harbor of Maysville.

· Louisiana: Little River.

Little River.
Bayou Rouge.
Dugdemona River.
Mouth of Bayou Plaquemine, with a view to its connection with the Mississippi River by locks; also Bayou Plaquemine and other connecting streams, to form the best route to Grand Lake.
Bogue Falia from present landing to Covington.
Calcasieu Pass, the two bars obstructing the navigation thereof.
Mouth of Calcasieu River, the bar obstructing its mouth.
Bayou Terrebonne from Houma to Thibodeaux.
Bayou Teche from Saint Martinsville to Fort Barre.
Mouth of Bayou La Fourche, with a view to the construction of a lock and dam; Clear Lake, Black Bayou, Red Bayou, Black Lake, and Kelly Bayou, to reopen navigable communication between those streams and Red River; Bayou La Fourche, to secure navigation at low water.
Cornay River.
Ouchita River from Camden to mouth, with a slack-water navigation.
Bayou Vermillion, to secure navigation from Abbeville to the railroad bridge of the Louisiana and Texas Railroad.
Bayou Rondeway.
Cypress Bayou.

Cypress Bayou, Bayou Vidal,

Bayou Vidal.

Maine:
Bayodue River between the towns of Penobscot and Brooksville.
Big Rapids of Saint John's River.
Camden Harbor,
Rockport Harbor.
Kennebee River at Bath, and from Augusta to lower end of Perkin's Island.
Saint George's River from Warren to Thomaston.
Matinicus Isle, with a view to a harbor of refuge.
Penobscot River from Bangor to Bucksport Narrows.
Saint Croix River from Ferry Point bridge, at Calais, to Breakwater Ledge.
Bar Harbor, Me., with the view to establishing a breakwater and deepening the waters of said harbor, and especially the channel between Rodick's Island and Mount Desert Island.

Maryland: Cambridge Harbor. Fairlee Creek. Patuxent River from Benedict to Hill's Landing. For widening the channel of Baltimore Harbor to 600 feet,

Massachusetts: Manchester Harbor, Duxbury Harbor,

Wellfleet Harbor,
Falmouth Harbor of Refuge,
Vineyard Haven Harbor.
Cottage City Harbor.
Menemsha Harbor of Refuge,
Taunton River,
Winthrop Harbor.
New Bedford Harbor.

Michigan:
Bar in Saint Clair River opposite Saint Clair City,
Grand River.
North River between Essex and North bridges.
Biddle's Point at Mackinac Harbor, with a view to a breakwater.
Harbor at Forestville, Lake Huron.

Harbor at Forestville, Lake Huron.
Pigeon River.
Mouth of Black River, Saint Clair County.
Carp River at Leland, with a view to affording an entrance to Carp Lake for harbor of refuge.
Lake Michigan at Empire, with a view to cutting a channel across the bar from Lake Michigan to Bar Lake.
Grand Traverse Bay, with a view to connecting it with Torch Lake, near Eastport.
Pinepog River.
Rouge River at its junction with Detroit River, and up the river to bridge of Saint Louis and Wabash Railroad.
Torch Lake Channel, Lake Superior.
Minnesota:

Minnesota:
Red River of the North from Moorhead to Fergus Falls.
Red River from Grand Forks to Red Lake.
Mississippi River between Saint Paul and Saint Anthony's Falls.
Minnesota River, with a view to its improvement by locks and dams.

Minnesota River, with a view to its improvement by locks and dams.

Mississippi:
Tombigbee River, to ascertain what improvement is necessary to make said river continuously navigable from Vienna, Ala., to Walker's Bridge, Mississippi.
Cassity Bayou.
Noxubee River, to ascertain whether it can be made continuously navigable by a system of locks and dams, or otherwise.

Bear Creek.

Missouri:
Resurvey of the Osage River from its mouth to Osceola, with a view to movable locks and dams, or other methods of improvement.
Little River from Hornersville to its junction with the Saint Francis River.
Saint Francis River from Greenville to the Arkansas State line.

New Hampshire: Bellamy River.

North Carolina:
Alligator River.
Lockwood's Folly River.
Lumber River.
Yadkin River from South Carolina line to the Narrows.
Catawba River.

New Jersey: Thoroughfare running back of the ocean from Cape May to the Great Bay north of Atlantic City.

-Channel back of Brigantine Beach, between Absecon and Brigantine Inlets.

Channel back of Brigantine Beach, between Absecon and Brigantine Inlets.

New York:
Channel between Jamaica Bay and Rockaway Inlet.
The East River, with a view to the removal of a ledge of rocks situated between five and six hundred feet from the foot of Tenth and Eleventh streets in the city of New York.

Spring Creek.
Waddington Harbor.
Mouth of Patchouge River.
Hudson River between New Baltimore and Coxsackie.
Peter's Neck Bay.
Tonawanda Harbor and Niagara River between Black Rock and Tonawanda, with a view to a 18-foot channel.
Glen Cove Harbor.

Overon.

Oregon:
Wood River,
Link River,
Suislaw River and Bar,
Coquille River between Coquille City and Myrtle Point,
Nahalem Bay and Bar,
Tillamook Bay and Bar,
Umpqua River.
Obia.

Ohio:

Onto:
Sandusky Harbor, with a view to a straight channel from the north end of ledar Point to the eastend of the existing channel in front of the city.

Big Hockhocking River from its mouth to Coolville.

Chagrin River at its mouth.

Pennsylvania: Darby Creek.

Rhode Island: Little Narragansett Bay, entrance to the wharves at Watch Hill.

South Carolina:

Mosquito Creek between the South Edisto and Ashepoo Rivers, with a view to connect the South Edisto with the Ashepoo at or near Fenwick's Island.

Mingo Creek.
Clark's Creek.
Little Pee Dee River.
Alligator River and other waters connecting Santee River and Bull's Bay.

North Fork of the Forked River below Dyersburg.

Obeils River from the point where improvements have heretofore been made to the mouth of the West Fork.

Texas: Cedar Bayou where it empties into Galveston Bay.

Virginia:

Wisconsin:
Harbor at Hudson, Lake Saint Croix.
Examination and report on the causes of the extraordinary overflows of the Chippewa River, and what means, if any, can be adopted to prevent their recur-

Chippewa River, and what means, if any, can be adopted to prevent their recurrence.

SEC. 7. For examinations, surveys, and contingencies, and for accidental repairs, for which there is no special appropriation, for rivers and harbors, \$100,000: Provided, That no survey shall be made of any harbors or rivers until the Chief of Engineers shall have directed a preliminary examination of the same by the local engineer in charge of the district, or an engineer detailed for the purpose; and such local or detailed engineer shall report to said Chief of Engineers whether, in his opinion, said harbor or river is worthy of improvement, and shall state in such report fully and particularly the facts and reasons on which he bases such opinion, including the present and prospective demands of commerce; and it shall be the duty of the Chief of Engineers to direct the making of such survey if, in his opinion, the harbor or river proposed to be surveyed be worthy of improvement by the General Government; and he shall report to the Secretary of War the facts, and what public necessity or convenience may be subserved thereby, together with the full reports of the local engineer. Said reports of preliminary examinations and surveys shall be made to the House of Representatives, and are hereby ordered to be printed when so made,

SEC. 8. That the Secretary of War shall report to Congress, at its next and each succeeding session thereof, the name and place of residence of each civilian engineer employed in the work of improving rivers and harbors by means and as the result of appropriations made in this and succeeding river and harbor appropriation bills, the time so employed, the compensation paid, and the place at and work on which employed.

And the Senate agree to the same.

ALBERT S. WILLIS, JOHN M. GLOVER.

ALBERT S. WILLIS, JOHN M. GLOVER, H. H. MARKHAM, Managerson the part of the House. S. J. R. McMILLAN, O. D. CONGER, M. W. RANSOM, Managers on the part of the Senate.

The gentleman from Missouri [Mr. BURNES] The SPEAKER. raises the question of consideration against this report.

Mr. WILLIS. I ask whether the statement of the House conferees

which accompanies the report ought not to be read now.

The SPEAKER. Not necessarily, as it is rather in the nature of debate, and will come up appropriately when the matter is before the House for consideration.

Mr. WILLIS. I desire to have it read.

Mr. SPRINGER. I desire to reserve all points of order on this re-

The SPEAKER. If there be no objection, the Clerk will read the statement of the House conferees, as it is not long. The Chair understands that the gentleman from Illinois [Mr. Springer] reserves all questions of order.

The statement of the House conferees was read, as follows:

The managers on the part of the House of the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 7480) known as "the river and harbor bill," submit the following statement:

The Senate struck out all after the enacting clause in the House bill and inserted a bill of their own, taking the House bill as the basis therefor. Their ac-

The Senate struck out all after the enacting clause in the House bill and inserted a bill of their own, taking the House bill as the basis therefor. Their action was treated as one amendment.

The House receded from its disagreement to this amendment and concurred in the same with an amendment, to which the Senate agreed.

The Senate amendment contained all the items of the House bill except three, the Hiawassa River, the South Forked Deer, and the South Fork of the Cumberland, amounting in the aggregate to \$12,500, or, subjected to the 25 per cent. reduction, to \$9,375.

The Senate increased forty-five House items, amounting in the aggregate to \$1,961,800, or, subjected to the 25 per cent. reduction, to \$1,473,600. The eight principal items are New York Harbor, mouth of Columbia River, Cape Fear River, the Cascades, Baltimore Harbor, Norfolk Harbor, Savannah Harbor, and Great Kanawha River. These eight items comprise in amount four-fifths of the whole increase.

The Senate inserted twenty-six new items, amounting to \$1,707,275, or, when reduced 25 per cent., to \$1,280,456. The five principal new items were Sandy Bay, Potomac River and Flats, Sturgeon Bay Canal, Portage Lake Canal, and Hennepin Canal. These five items aggregate \$1,400,000, or five-sixths of the whole amount.

After increasing these forty-five items which were in the House bill and inserting the twenty-six new items the total of the bill was \$18,685,775. Thereupon a 25 per cent. reduction was made upon all the items, which brought the amount of the Senate bill to \$14,013,333.

The bill which the present conference committee herewith reports is based upon the Senate amendment.

All items which were contained in the bill reported to the Senate by the Senate committee, and which amounted to not more than \$20,000 each, and which by the Senate amendment were reduced 25 per cent., are restored by the present bill to their original amount. The aggregate amount of the items thus restored is \$456,750.

The Sandy Bay, New York Harbor, and Potomac River an

The Sandy Bay, New York Harbor, and Potomac River and Flats items are the same as in the Senate amendment, both as to amount and verbiage.

No appropriation is made for the purchase of Sturgeon Bay Canal, but a board of three engineers is required to report to the next Congress as to the facts connected with its construction, cost, and the relation it bears to the commerce of the Northwest.

No appropriation is made for the purchase of Portage Lake Canal, but a similar board with like duties as in the case of the Sturgeon Bay Canal is author-

No appropriation is made for the Illinois and Michigan or Hennepin Canals, No appropriation is made for the Illinois and Michigan or Hennepin Canals, but a board of three engineers is authorized to consider their value to commerce and their usefulness to navigation, with a proviso that nothing in said clause shall be construed as committing the Government to the improvement thereof. The House appropriations for Saint Mary's and Hog Lake channel and for Wilmington, Cal., were restored.

The compulsory levee clause in the Senate amendment is stricken out, and the amount of the House appropriation reduced two hundred and fifty thousand, leaving the present amount at \$2,000,000.

The total amount of the present bill is \$14.473,900.

ALBERT S. WILLIS, JOHN M. GLOVER, H. H. MARKHAM, Managers on the part of the House.

Mr. WILLIS. I demand the previous question.

The SPEAKER. There is no previous question at this stage of proceeding. The question of consideration is raised. If the House determines to consider the report, then the gentleman from Kentucky having charge of it can move the previous question if he desires to do so. The gentleman from Illinois [Mr. Springer] reserved some point of order, which he will state.

Mr. SPRINGER. I desire to reserve any points of order till after the question of consideration has been determined. The House may decide to take up first the report on the deficiency appropriation bill.

The SPEAKER. The Chair supposed the gentleman desired to make some point of order which would be appropriate now. A point of order on the report itself can not be made until the House has determined to consider it. The gentleman from Missouri raises the question of consideration against this report. The question is, Will the House now proceed to consider the report? proceed to consider the report?

Mr. BUTTERWORTH. I understand that practically the present question is whether the river and harbor bill or the deficiency bill

shall first be considered.

The SPEAKER. The gentleman from Missouri has raised the ques-

tion of consideration, and stated his purpose.

The question being taken, there were—ayes 97, noes 31.

Mr. SPRINGER. I make the point that no quorum has voted.

Tellers were ordered; and Mr. SPRINGER and Mr. WILLIS were ap-

The House again divided; and the tellers reported—ayes 143, noes 21.

Mr. SPRINGER called for the yeas and nays. The yeas and nays were not ordered.

So the House determined to consider the report of the committee of conference on the river and harbor bill.

Mr. WILLIS. I demand the previous question.

The SPEAKER. The gentleman from Illinois [Mr. SPRINGER] has

a point of order pending, which he will state.

Mr. SPRINGER. This report on its face embraces an entirely new bill, being in the form of a proposition to strike out all after the enacting clause of the House bill and insert what has been read by the Clerk. Under the rule all matters relating to appropriations must have their first consideration in the Committee of the Whole House on the state of the Union. On the face of the paper all these propositions here presented are new, an entirely new bill having been inserted by the conference committee; but as an actual fact several of these propositions have not been considered at all by this House-one, particularly, appointing a commission of, I believe, five engineers

A MEMBER. Three. Mr. SPRINGER. Whose duty it shall be to investigate and report to the next Congress upon the feasibility of certain public works, among them the various canals mentioned in the former bill; and \$15,000 is appropriated to pay the expenses of that commission. These items have never been considered by this House. Even if it be contended that though upon the face of this proposition a new bill is presented the mass of matter embraced in it is not new, yet as a matter of fact there are, as I have just suggested, several entirely new propositions, which have never had consideration here in Committee of the Whole House.

Mr. HEPBURN. In that connection allow me to call the attention of the Chair to the third clause of the twenty-third rule, which is in

the following language:

All motions or propositions involving a tax or charge upon the people; all proceedings touching appropriations of money or bills making appropriations of money or property, or requiring such appropriations to be made, or authorizing payments out of appropriations diready made, &c., * * * shall be first considered in a Committee of the Whole.

Now, Mr. Speaker, there are three propositions embodied in this bill that are entirely destructive of three of the propositions to which they are claimed to be amendments. There were three propositions by which the Senate had determined to enter upon the prosecution of certain public works. They were actually determined upon. They were enumerated among the public improvements to be adopted by the Government under the appropriations made in this bill. The purpose, the scope, and the result of this amendment as now reported from the committee of conference is to entirely change that determination and purwar and to a commission who are at some future time to examine and report upon them, which report is to form the basis for future action on the part of Congress when it shall be submitted. It seems to me that ose in regard to these works, and to remand them to the Secretary of there is such a radical and entire change, such a marked and manifest difference between the two propositions, that it can not be claimed the one now proposed by the committee of conference is a germane amendment to the original proposition.

It is entirely new, in fact; new in all of its parts; new in its results, and in its first determination; and therefore it seems to me, as it has never been considered by the House, and as our rule is so broad and comprehensive, embracing as it does all propositions and including all proceedings looking to the appropriation of money, it certainly includes conference reports as well; and such being the case, if that report carries an appropriation it ought to be and must be considered in a Committee of the Whole House on the state of the Union when the point

of order is made.

Mr. SPRINGER. I wish to state more explicitly the point I make. The first is as to the new matter embodied in this report, that it is not germane to this bill; and if germane it must, under the rules of the House, have its first consideration in a Committee of the Whole House

on the state of the Union.

The SPEAKER. The House passed a bill to provide for the improvement of rivers and harbors and making an appropriation for that purpose. That bill was sent to the Senate where it was amended by striking out all after the enacting clause and inserting a different proposition in some respects, but a proposition having the same object in view. When that came back to the House it was treated, and properly so, as one single amendment, and not as a series of amendments as was contended for by some gentlemen on the floor at the time.

It was non-concurred in by the House and a conference was appointed upon the disagreeing votes of the two Houses. That conference committee having met, reports back the Senate amendment as a single amendment with various amendments, and recommends that it be concurred in with the other amendments which the committee has incorporated in its report. The question, therefore, is not whether the provisions to which the gentleman from Illinois alludes are germane to the original bill as it passed the House, but whether they are germane to the Senate amendment which the House had under consideration and which was referred to the committee of conference. If germane to that amendment the point of order can not be sustained on the ground claimed by the gentleman from Illinois. The Chair thinks they are germane to the Senate amendment, for though different from the provisions contained in the Senate amendment, they relate to the same subject; and, therefore, the Chair overrules the first point of order.

The second point of order is submitted by the gentleman from Iowa that these proposed modifications must have their first consideration in Committee of the Whole House on the state of the Union under the rule of the House. The Chair is not aware of any case in the history of the House where a conference report has been sent to the Committee of the Whole on the state of the Union, and it could not well be done for the obvious reason that measures sent to the Committee of the Whole on the state of the Union are sent there for the purpose of being amended and debated under the five-minute rule. A conference report can not be amended, for it is one entire proposition which must be agreed to in its entirety or rejected by the House upon a single vote. The Chair,

therefore, overrules the point of order.

The gentleman from Kentucky demands the previous question.

Mr. BROWNE, of Indiana. Let me make a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. BROWNE, of Indiana. I desire, if it may be done at some time during the consideration of the conference report, to move to concur, with an amendment striking out this provision in regard to the improvement of the Mississippi River from the head of the passes to the mouth of the Ohio under the plans of the Mississippi River Commis-This has already been voted upon and disagreed to by the House. The inquiry I wish to make is, whether after the previous question has been ordered such a motion would be in order?

The SPEAKER. As just stated by the Chair the report of the conference committee can not be amended at all, even if the previous question was not ordered; but if the House refuses to agree to the report of the conferees then the whole subject is open, and the gentleman can make a motion to concur with an amendment or to concur absolutely

as he may see proper.

Mr. BROWNE, of Indiana. Then the House can not reach this matter as a separate and distinct subject unless the report is rejected?

The SPEAKER. No; for the House must agree or refuse to agree. If it agrees to the report, that ends the matter.

The question is on ordering the previous question.

The House divided; and there were—ayes 106, noes 15.

Mr. SPRINGER. No quorum.

Mr. SPRINGER. No quorum.

The SPEAKER. The point of order being made that no quorum has voted, the Chair will order tellers.

Mr. SPRINGER and Mr. WILLIS were appointed tellers.

The House again divided; and the tellers reported-ayes 145, noes 21.

So the previous question was ordered.

Mr. SPRINGER. I move that the House do now adjourn. And pending that motion I move that when the House adjourns to-day it be till Thursday next.

The SPEAKER. The question is on the latter motion.

The question being taken, the Speaker stated that the "noes" seemed to have it.

Mr. SPRINGER. I call for a division.

The House divided; and there were—ayes 3, noes 128.

Mr. SPRINGER. No quorum.

The SPEAKER. The Chair appoints as tellers the gentleman from Illinois [Mr. SPRINGER] and the gentleman from Kentucky [Mr.

Mr. GLOVER. I desire to make a parliamentary inquiry.
The SPEAKER. The gentleman will state it.
Mr. GLOVER. Does it require a quorum to vote on a question of adjournment?

The SPEAKER. It requires a quorum to fix the day to which the House shall adjourn. A quorum is not required on a motion to ad-

Mr. BURROWS. While we are waiting for a quorum would it be in order to ask unanimous consent to consider a little bill?

The SPEAKER. The Chair thinks not. The House can not act on two motions at the same time.

The House again divided; and the tellers reported—ayes 4, noes 160.

So the motion was not agreed to.

The SPEAKER. The question now is on the motion of the gentlemen from Illinois [Mr. SPRINGER] that the House do now adjourn.

Mr. HEPBURN. Pending that I move that when the House adjourns it be till 12 o'clock on Thursday.

The SPEAKER. That is a change of the rules of the House.

Mr. HEPBURN. I move then that when the House adjourns it be to meet on Friday.

The question being taken on Mr. Hepburn's motion, the Speaker stated that the "noes" seemed to have it.
Mr. SPRINGER. I call for a division.

The House divided; and there were—ayes 3, noes 90.

Mr. SPRINGER. No quorum.

The SPEAKER. The Chair appoints as tellers the gentleman from Illinois [Mr. SPRINGER] and the gentleman from Missouri [Mr. O'NEILL]

Mr. SPRINGER. The motion was made by the gentleman from

Iowa [Mr. HEPBURN].

The SPEAKER. But it was the gentleman from Illinois [Mr. SPRINGER] who made the point of no quorum.

The House again divided; and the tellers reported—ayes 4, noes 160. So the motion was not agreed to.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. Sympson, one of its clerks, requested the return of the bill (H. R. 9798) making appropriations for fortifications and other works of defense, and for the armament thereof,

for the fiscal year ending June 30, 1887, and for other purposes.

The message also announced that the Senate had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H. Res. 160) to authorize the Commissioner of the General Land Office to cause 15,000 copies of the map of the United States and Territories to be printed.

FORTIFICATIONS APPROPRIATION BILL.

The SPEAKER. If there be no objection an order will be made for the return of the fortifications appropriation bill to the Senate, in compliance with the request of that body.

There was no objection.

RIVER AND HARBOR APPROPRIATION BILL.

Mr. SPRINGER. I move that the House take a recess till 4 o'clock this afternoon.

The question being taken, the Speaker stated that the "noes" seemed to have it.

Mr. SPRINGER. I call for a division.

The House divided; and there were—ayes 4, noes 81.

Mr. SPRINGER. No quorum.

The SPEAKER. The Chair will appoint as tellers the gentleman from Arkansas [Mr. DUNN] and the gentleman from Illinois [Mr. SPRINGER].

The House again divided; and the tellers reported-ayes 4, noes 159.

So the motion was not agreed to.

The SPEAKER. The question is on the motion of the gentleman from Illinois [Mr. SPRINGER] that the House do now adjourn.

The question having been taken on a division by sound, The PEAKER said: The "noes" seem to have it. have it, and the House refuses to adjourn. The "noes"

Mr. SPRINGER. I call for a division.
The SPEAKER. The Chair thinks the gentleman's call for a divis-The SPEAKER. The Chair thinks the gentleman's call for a divisor comes to late. The Chair had not only announced the vote, but
the result of the vote. That is to say, that the House had refused to
adjourn. The question is upon agreeing to the report of the committee of conference, upon which the previous question has been ordered.
Under the rules thirty minutes are allowed for debate, fifteen minutes in support and fifteen minutes in opposition. The Chair will recognize the gentleman from Kentucky [Mr. WILLIS] to control the time in favor of the report and the gentleman from Illinois [Mr. SPRINGER] to control the time in opposition.

Mr. WILLIS. I
"Vote!" Vote!"]
Mr. SPRINGER. I will reserve my time for the present. [Cries of

I have endeavored to defeat the passage of this bill for the reason that I think one of the most important of all the improvements that have been suggested to this House has been omitted. The State of Illinois proposed to Congress to donate to the United States what is known as the Illinois and Michigan Canal, a canal connecting the waters of Lake Michigan with those of the Illinois River. That canal was built out of the proceeds of lands donated to the State of Illi-nois for canal purposes. The State received that donation, sold the nois for canal purposes.

lands, and applied the proceeds to the construction of this canal, and has maintained it charging only sufficient tolls, as nearly as could be

estimated, to pay for the expenses of keeping it in repair.

That canal has not been an expense to the State. The receipts for it have more than paid for repairs and keeping it in operation. In view of the fact, however, that this canal connects the waters of Lake Michigan with the waters of the Gulf of Mexico, it is regarded by that State as a great highway between the greatest city in the Northwest and the Gulf of Mexico, one that the Government of the United States ought to own, one that is essentially a channel for interstate com-

The State has, by a vote of the people, proposed to cede this great work to the United States. This Congress, if this bill should pass, will deliberately refuse to accept it. If the State of Illinois should convey that work to a private corporation it would sell for millions of dollars, but the State does not propose to do so. It proposes that the canal shall be taken by the Government of the United States and maintained forever as a free channel for commercial purposes between the great lakes of the North, the Illinois and Mississippi Rivers, and the Gulf of Mexico. No more important public work could be suggested. Gentlemen have called this a local improvement. Sir, it is as national as the Mississippi River itself. If our country should at any time be engaged in war with Great Britain there would be no more important channel of communication that which would connect the waters of Lake Michigan with the Mississippi River; and yet, utterly disregarding the national importance of this great work, gentlemen have here stigmatized it as a local improvement, merely for the benefit of the State of Illinois.

That proposition stands independent of and disconnected with the proposition to construct the Hennepin Canal, but if the two be united they will form a line of water communication between the Hennepin Canal, and the state of the

they will form a line of water communication between the Upper Mississippi and Lake Michigan practically extending the navigation of Lake Michigan from the city of Chicago to the city of Saint Paul. The whole Northwest, therefore, is interested in this improvement, and it is of more importance to the people of this country in the future than any other fifty propositions that are now embraced in the river and harbor bill. Gentlemen have insisted upon striking out this great work from the bill, and when the subject was before us a few days ago those who are now so anxious to pass this bill were willing to hazard the fate of the whole measure in order to defeat these two propositions.

Mr. DUNN. Not all of them.

Mr. SPRINGER. Not all of them; I beg the gentleman's pardon. Some gentlemen were not willing to take so great a risk.

Now, Mr. Speaker, it seems to be evident that the House is determined to pass the bill in its present shape. I had hoped that the proposition of which I have spoken would receive fair consideration, and that the House would treat these great national improvements in a manner worthy of the United States and markly and the contract of the United States and worthy of the representatives of the people; but they have seen fit to disregard the appeals of the farmers of the great Northwest and of the business men of that region, the great grain-pro-ducing region of this country. This bill contains many provisions that ought not to pass; but I do not claim that every item in a bill of this kind should meet the approbation of every member. I do claim, however, that if you are going to embrace the great public works of the country in one bill, you should not give us the play of Hamlet with Hamlet left out, retaining the characters which are comparatively unimportant and insignificant.

That is what you are doing in this case. You have stricken from this bill one of the greatest and most important of the public improvements of the country, and filled the bill up with creeks and canals, bayous and little lakes. But, Mr. Speaker, I recognize the necessity for some of the works that are proposed to be constructed; I recognize the necessity for some bill of this character to pass at this session in order to preserve existing works; and therefore, in order that those worthy objects may not be interfered with by any act of mine, I shall now withdraw further opposition to the bill and leave the gentlemen who favor it to pass it and take the responsibility of their action be-

fore the people.

I reserve the balance of my time, and yield to the gentleman from Indiana [Mr. Browne].

The SPEAKER. The gentleman has seven minutes remaining.

Mr. BROWNE, of Indiana. Mr. Speaker, I do not put my opposition to the property of the seven description of the seven description. tion to concurring in this report upon the grounds stated by the gentleman from Illinois. I think that if the committee had consented to incorporate his measure it would have made the bill infinitely worse than it is. As I presume gentlemen generally know, I am opposed to the river and harbor bill, first, because the whole principle pervading it has a tendency to promote on the part of the Government what is known as the paternal idea. Congressional legislation is tending very rapidly in that direction. The people, or rather a section of the people, when they desire anything to be done that is in their interest and the expense of which they ought to pay, appeal to Congress to do it at the expense of the people of the whole country, compelling the many to contribute for the benefit of the few. It may be true that some of these canals in the Northwest are of importance to that section of the country, but unless they are strictly national in their character and advantageous to the whole people we have no right to ask the people as

a whole to contribute to their construction. However, as I do not desire to protract this discussion or to delay action upon this bill, I will say that my special objection to the measure as it now stands is to the provision in regard to the improvement of the Mississippi River from the head of the passes to the mouth of the Ohio. When that question was pending in the House an important amendment was made by a very decisive vote, and I now desire that we non-concur in the report of the committee of conference in order that we may provide that the whole amount of the appropriation shall be given to the improvement of the river between the points named, and that the method of its expenditure shall be committed to the Secretary of War; that is, that he shall be permitted to expend so much as is here appropriated according

I desire also that there shall be preserved in the clause the first proviso that "no portion of this appropriation shall be expended to repair or build levees for the purpose of reclaiming lands, or preventing injury to lands or private property by overflow." I would also further provide that so much of the sum as might in the opinion of the Secretary of the War be necessary should be applied by him in procuring snag-boats and dredge-boats and expended in keeping the channel of the Mississippi River open. It is the opinion of the most experienced of those who have been engaged in the navigation of the Mississippi River that the only hope of improving it is by keeping in employment the means of removing the bars and snags and other obstructions which may be found in its channel. There is not an experienced riverman—I speak now of the masters and engineers and pilots of vessels-there is not one of these with whom I am acquainted-and I have received many communications from gentlemen of this class—who has any faith in the system which has been adopted by what is known as the Mississippi -who has any faith in the River Commission. The only hope of this class of men is that the navigation of this river will be improved by a constant and vigilant system of dredging, with the addition of snag-boats and the erection of lights and signals upon the shore.

I think our experience has demonstrated that the lower end of the Mississippi River is too large to be improved, the volume of water is too great to be kept within limits by mere embankments or revetments. It can not be done. If we should attempt the necessary expenditure for that purpose it would be beyond the limits of the Treasury of the United States. As I have had occasion to say before, these improvements are asked not because there is too little water in the lower end of the Mississippi River, but because there are times when there is too much—not for navigation, but for the interests and the property of those who happen to own lands upon either shore. What we need, speaking merely in regard to the improvement of navigation, is to keep constantly at work the dredge-boats and the snag-boats in removing the sand-bars and other obstructions. In this way we can make the

Mississippi River navigable at all times in the year.

As a matter of course, there is no interruption of navigation when the waters of the stream become so high as to inundate the country upon either shore; yet if it were not for these inundations there would be no demand for these extraordinary appropriations for the improvement of that river. I believe gentlemen know this to be the fact. These large appropriations are demanded for the purpose of getting clear of the sur-plus water in some way and protecting the adjacent country against an extraordinary rise of the river-not for the purpose of making the channel navigable for the steamers that may ply upon it, not for the purpose of opening the river for commerce, not to make it possible for boats to go up and down it, but for the purpose of rescuing the inundated lands, and for nothing else.

Here the hammer fell.]

Mr. WILLIS. I yield two minutes to the gentleman from Louisiana

[Mr. Blanchard]

Mr. BLANCHARD. Mr. Speaker, I take advantage of the opportunity afforded me to express my gratification at the success which has attended the further efforts of the managers on the part of the House in their conference with the Senate. I am all the more gratified because that success has been to me an agreeable surprise. I did not believe it possible. The bill presented here is one which I think will commend itself to the sober judgment of the great body of American commend itself to the soder judgment of the great body of American people. It is one which is needed to complete a number of valuable works of the Government and to prosecute a number of others already begun. If passed, it will save to the Government not less, in my opinion, than \$5,000,000, for that would be the loss which, if no river and harbor bill should pass, would result to the Government in the way of destruction of works in an incomplete state and the deterioration of the large and valuable plant now owned by the Government and used in pass the House. [Cries of "Vote!" "Vote!"]

Mr. WILLIS. Mr. Speaker, I desire to occupy just three minutes, and then I shall ask for a vote. I appreciate the kindly sentiments of

my former colleague on the conference committee [Mr. BLANCHARD], and desire to say that at no time did I or any one acting with me have any criticism to make upon what we believed to be the judgment he had at that time as to his duties. We have all been laboring with the best ability we could command to bring about a reconciliation as to the points of difference on this bill. It is a measure on which, as we all know, a reconciliation of differences is very difficult. Touching those matters which were put on this bill in the Senate, we came back and fairly presented them to the judgment of this House; and I hold it is republican doctrine, I hold it is democratic doctrine, that the will of the majority shall rule in all matters of legislation. I congratulate the gentleman from Illinois [Mr. SPRINGER] that at last he has seen fit to bow to that supreme will.

This bill (touching upon it but for a moment) appropriates \$14,473, 900. This is two and one-half million dollars less than the amount 900. This is two and one-half million dollars less than the amount embraced in the last bill which we passed, which was accepted by the country everywhere as a proper and just bill. Yet we know that the demands of commerce are greater to-day than they were two years ago. This bill covers appropriations for two years; hence, the appropriation in it is equivalent to an annual expenditure of only \$7,000,000.

In regard to the action of the House, I desire to say that the bill came from the Committee on Rivers and Harbors with its unanimous approval and with no vote which had been given upon sectional or local issues. It came into the Committee of the Whole of this House and was ratified without a single amendment: it came into the House

and was ratified without a single amendment; it came into the House and was voted upon without an amendment. It went to the Senate; and there every item of the House bill was retained except three; and those three were amended only to the extent of \$9,000. So far, therefore, as the action of the House is concerned, it has been thoroughly indorsed by four consecutive votes in four different stages of proceedings Now, Mr. Speaker, recognizing the fact that other important bills

are pressing and time is precious I respectfully ask for a vote.

Mr. HEWITT. Before my friend the chairman of the committee

takes his seat I should like to ask him a question.

Mr. WILLIS. Yes, sir. Mr. HEWITT. I under I understand in the statement submitted it is stated

the language of the amendment in regard to New York harbor remains unchanged. Is not that an oversight?

Mr. WILLIS. It is; the word "continuing" is stricken out. The objection of the gentleman from New York was to the existing plan of improvement. He desired to leave it to the engineers, and according to his request and carrying out his wishes the committee struck out the word "continuing" and left the appropriation to be determined by the will of the board of engineers.

Mr. HEWITT. That rooks appears most of the criticisms and mis-

Mr. HEWITT. That reply answers most of the criticisms and mis-representations made in regard to my position on this question. Mr. WEAVER, of Iowa. I demand the yeas and nays on the adop-

tion of the report.

The yeas and nays were ordered.

The question was taken; and it was decided in the affirmative-yeas 121, nays 98, not voting 103; as follows:

So the report was adopted.

During the roll-call,

Mr. BROWNE, of Indiana. I move that the reading of the names be dispensed with.

Mr. WEST. I object.

The following pairs were announced:
Mr. Green, of New Jersey, with Mr. Burleigh; if present, Mr. Green, of New Jersey, would vote "no" and Mr. Burleigh would

Mr. CROXTON with Mr. HAYDEN; if present, Mr. CROXTON would vote "ay" and Mr. HAYDEN would vote "no."

Until further notice:

Mr. MILLER with Mr. Long.
Mr. Cox with Mr. Anderson, of Kansas.
Mr. Stone, of Missouri, with Mr. Sawyer.
Mr. Worthington with Mr. Millard.
Mr. Cabell with Mr. Campbell, of Pennsylvania.
Mr. Clardy with Mr. Oven.

Mr. Jones, of Alabama, with Mr. Brown, of Ohio. Mr. Outhwaite with Mr. Morrill.

Mr. Gibson, of West Virginia, with Mr. Morrow. Mr. Martin with Mr. Peters.

Mr. PEEL with Mr. ALLEN, of Massachusetts. Mr. BARKSDALE with Mr. DAVENPORT.

Mr. Dawson with Mr. RANNEY.

Mr. ARNOT with Mr. THOMAS, of Illinois.

Mr. DAVIDSON, of Florida, with Mr. GALLINGER. Mr. HALE with Mr. HOUK.

Mr. SADLER with Mr. VAN SCHAICK.

Mr. TUCKER with Mr. STEWART, of Vermont.

Mr. BARBOUR with Mr. LIBBEY.

Mr. Bragg with Mr. Caswell. Mr. Hammond with Mr. O'Donnell. Mr. Throckmorton with Mr. Wadsworth.

Mr. REESE with Mr. Adams, of Illinois. Mr. Storm with Mr. Dunham.

Mr. Rogers with Mr. EZRA B. TAYLOR.

Mr. ROBERTSON with Mr. STEELE.
Mr. WINANS with Mr. CUTCHEON.
Mr. WELLBORN with Mr. PHELPS.
Mr. JOHN M. TAYLOR with Mr. IKE H. TAYLOR.

Mr. CANDLER with Mr. HAYNES.

Mr. TURNER with Mr. DORSEY. Mr. HENLEY with Mr. HANBACK.

Mr. Comstock with Mr. Burrows.

Mr. MILLS with Mr. McKINLEY.

Mr. McCreary with Mr. Dingley.

Mr. HARRIS with Mr. HOLMES.

Mr. O'FERRALL with Mr. WHITE, of Minnesota.

Mr. MATSON with Mr. BOUTELLE.

For this day:

Mr. PINDAR with Mr. WADE. Mr. STAHLNECKER with Mr. JOHNSON, of New York.

Mr. Stone, of Kentucky, with Mr. Brumm.
Mr. Reed, of Maine, with Mr. Grosvenor on river and harbor bill, and until the close of the session.

Mr. Anderson, of Ohio, with Mr. Laird, on this vote. Mr. Bingham with Mr. Lyman, on river and harbor bill.

Mr. CAMPBELL, of Pennsylvania. I am paired with Mr. CABELL on political questions, but not regarding this as a political question, I

Mr. JONES, of Alabama. I am paired with Mr. Brown, of Ohio, on all political questions, but not regarding this as a political question, I have voted.

The vote was then announced as above recorded.

MESSAGE FROM THE SENATE

A message from the Senate, by Mr. SYMPSON, one of its clerks, announced the adoption of the conference report on the disagreeing votes of the two Houses on the bill (H. R. 9798) making appropriations for the fortifications and other works of defense, and for the armament thereof, for the fiscal year ending June 30, 1887, and for other purposes, and had appointed Mr. Dawes, Mr. Plumb, and Mr. Gorman as managers of said conference on its part.

ENROLLED BILLS SIGNED.

Mr. FISHER, from the Committee on Enrolled Bills, reported that the committee had examined and found truly enrolled bills and joint resolutions of the following titles; when the Speaker signed the same:

A bill (S. 201) to provide for the erection of a public building in the

city of Annapolis, Md.;
A bill (S. 2609) granting a pension to Emily J. Stannard;
A bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or a leg in the service;

A bill (H. R. 822) for the relief of William H. Wheeler; A bill (H. R. 6664) to increase the naval establishment;

A bill (H. R. 8585) to provide for the inspection of tobacco, eigars, and snuff, and to repeal section 3151 of the Revised Statutes;

Joint resolution (H. Res. 87) providing for the printing and distribu-tion of documents of the monetary conferences of 1878 and 1881; and Joint resolution (H. Res. 201) for printing report of Commissioner

of Agriculture. DEFICIENCY APPROPRIATION BILL.

Mr. BURNES. I present a privileged report. The Clerk read as follows:

Mr. BURNES. I present a privileged report.

The Clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 0728) making appropriations to supply deficiencies in the appropriations for the fiscal year ending June 30, 1886, and prior years, and for other purposes, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 4, 7, 17, 18, 22, 23, 24, 28, 26, 43, 44, 53, 58, 59, 63, 64, 66, 70, 71, 85, 100, 107, 112, 114, 115, 116, 119, and 120.

That the House recede from its disagreement to the amendments of the Senate numbered 3, 5, 10, 11, 12, 13, 14, 15, 16, 21, 25, 26, 27, 31, 33, 34, 35, 49, 50, 51, 52, 54, 55, 55, 57, 60, 61, 69, 29, 23, 39, 109, 111, and 113.

Amendment numbered 20: That the House recede from its disagreement to the amendment of the Senate numbered 20, and agree to the same with an amendment as follows: In lieu of the sum proposed in the amended paragraph insert "\$200,000;" and the Senate agree to the same.

Amendment numbered 30: That the House recede from its disagreement to the amendment of the Senate numbered 30, and agree to the same with an amendment as follows: At the end of the matter proposed to be inserted for said purpose;" and the Senate agree to the same.

Amendment numbered 32: That the House recede from its disagreement to the amendment of the Senate numbered 32, and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted insert the following: "The board of engineers for fortifications and for river and harbor improvements whether any changes are demanded for reasons of safety or economy in the method of lining said tunnel heretofore adopted and pursued, and whether any changes are required in the method of lining and perfecting the reservoir: Provided, That said board shall make full report thereon, and pending such examination the work

the same.

Amendment numbered 98: That the House recede from its disagreement to the amendment of the Senate numbered 98, and agree to the same with an amendment as follows: Strike out, after the name "William M. Olin," the word "as," and insert in lieu thereof the following: "The difference between the amount of compensation received by him as an employé of the Government and the salary of;" and the Senate agree to the same.

Amendments numbered 102, 103, 104, 105, and 106: That the House recede from its disagreement to the amendments of the Senate numbered 102, 103, 104, 105, and 106, and agree to the same with an amendment as follows: Strike out the amendment numbered 108: That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate numbered 108, and agree to the same.

and agree to the same.

Amendment of the House to the amendment of the Schatc humbered 10s, and agree to the same.

Amendment numbered 110: That the House recede from its disagreement to the amendment of the Schatc numbered 110, and agree to the same with an amendment as follows: Restore the matter stricken out, and in lieu of the matter proposed to be inserted insert the following: "And the Secretary of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting the treasury is accounted to the treasury is accounted t

ury to re-examine said excepted claims and to cause the said accounting officers to re-examine the same and to certify anew the sums due and to whom due, respectively by name, as non-resident aliens entitled to refunding of taxes collected prior to July 1, 1833;" and the Senate agree to the same.

Amendment numbered 117: That the House recede from its disagreement to the amendment of the Senate numbered 117, and agree to the same with an amendment as follows: Restore the matter stricken out, and in lieu of the matter proposed to be inserted insert the following: "And the Secretary of the Treasury is hereby directed to cause the proper accounting officers of the Treasury is hereby directed to cause the proper accounting officers to re-examine said excepted claims and to cause the said accounting officers to re-examine the same and to certify anew the sums due and to whom due, respectively by name, as non-resident aliens entitled to refunding of taxes collected prior to July 1, 1883;" and the Senate agree to the same.

Amendment numbered 118: That the House recede from its disagreement to the amendment of the Senate numbered 118, and agree to the same with an amendment as follows: In lieu of the matter stricken out and proposed to be inserted insert the following: "Except the claims numbered 437,7545, and 1398 enumerated therein, \$48,655.81." And the Secretary of the Treasury is hereby directed to cause the proper accounting officers of the Treasury to re-examine said excepted claims and also claim numbered 1212, as certified in said executive document, page 22, and if said claims or either of them shall be again certified to Congress the reasons in full for said certification shall be submitted to Congress with a detailed statement of the facts upon which said claims originated;" and the Senate agree to the same.

Amendment numbered 122: That the House recede from its disagreement to the amendment as follows: In line 1, page 4, of said amendment, before the word "compensation," insert "Section 8;" and the Senate

Mr. BURNES. I now ask for the reading of the statement accompanying the report.

The Clerk read as follows:

The Clerk read as follows:

The managers on the part of the House of the conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill H. R. 9726, making appropriations to supply deficiencies for the fiscal year 1886, and prior years, submit the following written statement in explanation of the effect of the action agreed upon on each of the amendments as submitted in the accompanying report, namely:

On amendments 3, 4,5, and 7: Appropriates \$8,100 for salaries of charges d'affaires ad interim for 1886, strikes out \$30,000 for the same service for the years 1879 and 1880, provides that the accounts for contingent expenses of the foreign missions for 1885 may be settled without regard to the division of the amount therefor, and strikes out provision to pay Fulton Paul, late consul-general at Bucharest for protest fees.

On amendment 10: Appropriates \$73.62 for contingent expenses of the Civil Service Commission.

On amendment 11: Appropriates \$585.84 to pay W. R. Beatty, internal revenue gauger at Denver, Colo.

On amendment 11: Appropriates \$585.84 to pay W. R. Beatty, internal revenue gauger at Denver, Colo.

On amendments 12 to 16, inclusive: Appropriates \$2,442.53 to pay deficiencies on account of the Coast Survey.

On amendments 17 and 18: Strikes out provision for healing, hoisting, and ventilating apparatus for public building in New York, and to pay Mrs. Imagene R. Morrell for painting portraits of Howell Cobb and John C. Spencer, ex-Secretaries of the Treasury.

On amendments 20 and 21: Appropriates \$200,000 for repayment to importers the excess of deposits for unascertained duties, &c.

On amendment 22: Appropriates \$696.25 to pay George Wardman, late assistant agent in Alaska.

On amendment 22: Appropriates \$395.25 to pay George Wardman, late assistant agent in Alaska.

On amendment 23: Strikes out provision touching the settlement of certain accounts suspended or disallowed since January 1, 1885.

On amendment 24: Strikes out provision to pay extra compensation to certain employés in the Treasury for services rendered in 1882.

On amendments 25 and 26: Appropriates \$5,199.39 for paying around public buildings in Saint Louis, Mo., and \$8,223,13 for paying around arsenal in San Antonio.

On amendments 27 to 32, inclusive, touching the District of Columbia: Appropriates \$20,000 to complete boundary sewer, \$1,000 for counsel fees in defending claims of Samuel Strong, increases the sum for the new school buildings in the District bill from \$50,000 to \$75,000, refers to board of fortifications and for river and harbor improvements whether any changes should be made in the method of lining the tunnel and reservoir of the new water-works, and that the work shall proceed pending their report.

On amendment 33: Strikes out provision to pay claim of Meredith Kidd.
On amendments 34 and 35: Provides for payment of \$2,500 to widow of the late Surgeon J. J. Woodward, and gives \$8,952 for completion of hospital at Hot Springs.

Surgeon J. J. Woodward, and gives \$8,952 for completion of hospital at Hot Springs.

On amendment 36: Appropriates \$95,000 for Army transportation.

On amendment 43: Strikes out \$2,500 for contingent expenses of Navy Bureau of Ordnance.

On amendments 44 and 46: Strikes out \$2,800 for expenses of naval exploration in Alaska, and gives \$4,000 for completion of coaling shed and naval storehouse at Port Royal Harbor.

On amendments 49 to 52, inclusive: Provides for the settlement of the accounts of Richard Joseph, late disbursing clerk of the Interior Department.

On amendments 53 to 58, inclusive: Strikes out certain provisions touching Indian Affairs.

On amendment 59: Strikes out \$6,365,05 for lighting Capitol and grounds.

On amendment 59: Strikes out \$6,365.05 for lighting Capitol and grounds. On amendment 59: Strikes out \$6,365.05 for lighting Capitol and grounds. On amendments 60 and 61: Appropriates \$780.83 for the National Museum. On amendment 62: Provides that the Postmaster-General shall examine and report to Congress on the claim of the United States and Brazil Steamship Company for carrying the mail.

On amendments 63 and 64: Strikes out provision for preparing a digest of the opinions of the Attorney-General, and for settling certain accounts of Lieut. W. P. Duvall.

On amendment 65: Strikes out \$1,449.37 for the National Board of Health.

On amendments 66 and 67: Strikes out proposed increase of amount for the marshals' fees from \$20,000 to \$50,000, and \$2,195.09 for fees of district attorneys.

On amendment 69: Strikes out provision limiting fees of United States commissioners to \$800 per annum.

On amendments 70 and 71: Strikes out provisions for certain judicial expenses in Utah.

On amendment 85: Strikes out provision to pay commissioners to ascertain damages by reason of flowage of lands by the Fox and Wisconsin Rivers.

On amendments 92, 93, 98, and 99: Provides for certain expenses of the Senate.
On amendment 100: Strikes out provision to pay for draping the Capitol on the occasion of the death of ex-President Grant.

On amendments 102 to 106: Strikes out provision to pay to the sisters of Hon. Michael Hahn balance of his salary for unexpired term of his service.

On amendment 107: Strikes out provision to pay family of William Hunter

On amendment 107: Strikes out provision to pay family of William Hunter one year's salary.

On amendment 109: Appropriates \$5,850 to pay printers on the Congressional Record for time lost.
On amendments 110 and 117: Requires the Secretary of the Treasury to have re-examined certain claims for refund of taxes to non-resident aliens and to certify the same to the next session of Congress.
On amendment 111: Strikes out provision to pay certain fees of jurors and witnesses.
On amendment 112: Strikes out provision to pay the claim of A. G. Boone.

On amendment 111: Strikes out provision to pay certain fees of jurors and witnesses.

On amendment 112: Strikes out provision to pay the claim of A. G. Boone. On amendment 113: Appropriates \$25,954.06 to pay certain claims of the Atchison, Topela and Santa Fé and Northern Pacific railroad companies.

On amendments 114, 115, and 116: Strikes out provision to pay the claims of the Flint and Pierre Marquette and the Missouri, Kansas and Texas railroad companies for transporting the mail.

On amendments 118 and 119, requires the Secretary of the Treasury to cause to be re-examined the claims of the Hoboken Land Company, T. J. League, Baltimore and Ohio Railroad Company, and of L. A. Von Hoffman, and others, and to certify the finding to the next session of Congress.

On amendment 120, strikes out the provision to pay the claims of the non-subsidized railroads operated by the Central Pacific Railroad Company for transportation of the mails.

On amendment 122, provides for the payment of certain claims audited and certified to Congress in Senate Executive Document No. 218, and the claims of postmasters for difference in compensation adjusted under act of March 3, 1883.

The bill as finally agreed upon appropriates \$6,850,325.03, being \$955,833.06 less than it was passed by the Senate and \$935,333.71 more than it was passed by the House.

JAS. N. BURNES, BEN. LE FEVRE, LOUIS E. McCOMAS, Managers on the part of the House

Mr. BURNES. Mr. Speaker, it will no doubt be remembered that this bill, as it passed the House, aggregated a total appropriation of \$5,914,962.32. As it passed the Senate the aggregate total was \$7,807,-158.09. It will be seen that the increase by the Senate was \$1,892,195.77. The net reduction in conference was \$956,833.06. The amount of the bill as agreed to in conference is \$6,850,325.03.

It will take me some time to go over the full particulars of the transaction and give a full account of each item discussed in the conference. If it be desired I will do so; if it is not desired we will save valuable time. [Cries of "No!"] I will not undertake then to go through every single item but will move the adoption of the report. [Cries of "Vote!"] Mr. CRAIN. I rise to make a point of order against one of the items

of this report.

The SPEAKER. But the gentleman from Missouri has proceeded to discuss the report and the point of order now comes too late. It should have been made before the House entered upon the consideration of the

report.

Mr. CRAIN. I was upon my feet ready to proceed, but the gentle-

man from Missouri was recognized, and I supposed he was simply giving the reasons for not discussing the report.

The SPEAKER. The House had entered upon the consideration of the report, and the gentleman from Texas rose, as the Chair supposed, for the purpose of making a point of order of which the Chair had been informed. But the gentleman when he rose did not address the Chair, and the gentleman from Missouri proceeded to explain the report. Mr. CRAIN. I rose under the impression that the gentleman from Missouri had precedence, having charge of the conference report.

The SPEAKER. A point of order in the House must always be made before the House has entered upon the consideration of the sub-

Mr. CRAIN. I was prepared to make it. I ask the gentleman from

Missouri to permit me now to make the point of order.

Mr. BURNES. If the consequences were not so serious with regard to the delay, a point of order might be made. I would not hesitate to render any accommodation or favor to my friend from Texas. But I am quite sure the arrangement made in the bill with regard to the claim to which I understand he refers will give a full and complete opportunity to consider it at the next session of Congress. It will, therefore, be impossible for me to yield to the request of my friend at this time.

Mr. CRAIN. I thought the proper time to make the point of order

was after the gentleman presented the report.

The SPEAKER. Of course; but the proper time is when the bill or proposition, or whatever it may be, is read and presented for consideration. After the House has entered upon its consideration it is then too

late to make a point of order.

Mr. BRECKINRIDGE, of Arkansas. I wish to ask the gentleman from Missouri a question. I wish to know if the conference committee in this report which has been read to the House, and of course it is impossible to follow all of the details of such a report with reference to the various amendments as to what items are stricken out or which have been adopted or which have been amended by the conferees-I wish to ask is if the conferees have stricken out any item which has been already adopted by both the Senate and the House.

Mr. CRAIN. Yes, they have; and it was with reference to that very point that I rose.

Mr. BRECKINRIDGE, of Arkansas. I want to know from the gentleman from Missouri if the conference committee has adhered to its legitimate sphere?

Mr. BURNES. My impression is that it is not necessary to answer the question, since the point of order comes too late.

Mr. BRECKINRIDGE, of Arkansas. It is entirely necessary.

Mr. BURNES. But we have no desire to withhold anything occur-

ring in conference which the House ought to know or may desire to know. In one single paragraph of the bill as it passed the House there were certain items in Executive Document No. 210 excepted from appropriation. One of the items in that document which the Committee on Apprepriations has reported to the House as so excepted was sustained by the House and the exception was stricken out. The Senate amended the paragraph by striking out all of the other excepted items. The House non-concurred in the Senate amendment and the conference ensued.

The conference was, of course, upon the disagreeing votes of the two Houses. The paragraph was, if I may be allowed the expression, a single entity. The Senate never agreed to the paragraph in its entirety. By its amendment the Senate said to the House, the paragraph will not be agreed to by the Senate unless the House will agree to the Senate amendment. The House replied by non-concurrence and a request for a conference—a full and free conference, mark you; that perhaps in such conference the House might recede from its disagreement, or the Senate might recede, or either might recede with or without amendment, any sort of an amendment, or by agreement the entire paragraph might be stricken out.

Now, if the whole paragraph could have been stricken out, as the greater includes the less, any part of it could have been stricken out. The whole of the paragraph was in conference. The Senate had not agreed to the paragraph or any part of it. The Senate only proposed to agree to the paragraph in the event that the House would concur in the Senate amendment. The House refused to concur and the Senate was free to do as it pleased in a full and free conference. No one will claim for a moment that if a complete paragraph-complete in itselfis agreed to by both Houses it can be changed in conference; but that is not this case. Here the two Houses did not agree as to this particular paragraph, nor as to any part of it. The Senate merely tendered

an offer to agree to the paragraph on a specified condition.

The SPEAKER. The Chair thinks it is too late to raise the ques-

tion of order.

Mr. BRECKENRIDGE, of Arkansas. No, this is for information. It is a question which goes to the merit of this report.

Mr. HENDERSON, of Iowa. On a question of information can we go into the merits of the whole question and open up this debate?

The SPEAKER. But the gentleman from Arkansas may desire to give that as a reason for not sustaining the report of the conference. The Chair does not know the purpose for which the gentleman rose, but assumes that the gentleman objects to the report because the conference have stricken out a matter which had been previously agreed to ferees have stricken out a matter which had been previously agreed to by the two Houses

Mr. BRECKINRIDGE, of Arkansas. That is my purpose. The merits of the amendments which had been adopted in both the House and Senate was not in controversy; and I wish to say that I care nothing about the claim. I know nothing about it, or of the merits of the claim. I refer only to the legislative question which is presented here where a proposition that has been agreed to by both Houses of Congress is stricken out of the bill entirely by the conference committee, contrary, as I claim, to any power with which it was clothed. And it is just that naked, simple question of the power of the conferees

We send bills into conference, and if they are to reconstruct them from foundation up, and in this manner annul the action of both branches of Congress, what confidence can the House or Senate or the two together have in the integrity of conference reports that are brought back here and rushed through in the last hours of the session? I think the House, utterly regardless of the merits of the claim on which they have agreed to make payment, should insist on the integrity of its own authority; and that therefore this report should be voted down and the committee instructed to report the agreement in conformity with the conclusions of both branches of Congress.

I believe the question will recur on the adoption of the report?

The SPEAKER. That is the pending question.

Mr. BRECKINRIDGE, of Arkansas. I believe the gentleman states in explaining his report that they have taken single items that are com--each of course is but one among many in the bill, but each is complete in itself-and on the ground of adjusting a separate claim have thrown this one entirely out of the bill.

I can not see where they got the power; and I think it is a most dangerous encouragement of a most unauthorized and unlawful proceeding for the House to permit it when it perceives this has been done.

INCREASED PENSIONS FOR ONE-ARMED AND ONE-LEGGED SOLDIERS.

The SPEAKER. On yesterday the House acted on a motion to suspend the rules and pass the bill (S. 2056) to amend the pension laws by increasing the pension of soldiers and sailors who have lost an arm or leg in the service. The House agreed to the motion to suspend the rules and passed the bill with sundry amendments. By an oversight the bill has been sent to the Senate without the amendments.

Chair thinks the House should recall the bill that the amendments may be inserted.

Mr. HENDERSON, of Iowa. I make that motion if it be necessary. The SPEAKER. If there be no objection the order will be made, and the Clerk will be directed to request the return of the bill from the Senate.

There was no objection.

DEFICIENCY APPROPRIATION BILL.

Mr. BURNES. Not as speaking to a point of order, but in justification of the action of the conferees on the part of the House, I beg to submit to gentlemen better qualified to discuss parliamentary considerations and law than myself whether the facts in this case are of such a startling nature as to justify the House in manifesting any want of confidence in the gentlemen to whom they intrusted the duty of conducting that conference.

Here is a single paragraph in a bill. It has passed the House and been acted upon by the Senate. The Senate put upon the paragraph an amendment. If the paragraph had been agreed to by the Senate without amendment no one could even pretend to believe that the conferees could reconsider, amend, or change it in the slightest particular; but this single paragraph, as I have shown, was amended in the Senate, and thereby the whole of it was in conference. The Senate conferees proposed to recede from the Senate amendment on this paragraph

with an amendment striking out another part of it.

Every word and line of the bill as it passed the House had been agreed to by the House. One part of that which passed the House was as sacred in conference as any other part. But only those parts were open to a full and free conference which were in a paragraph involved by a Senate amendment and a House non-concurrence therein.

The Houses had disagreed. They had not agreed. The paragraph was in a formative condition. The conferees found that the House had agreed to some of the provisions of the paragraph. The Senate had agreed to some provisions of the paragraph on condition only. Under these circumstances the conferees treated the paragraph as an entirety, and held that it was before them for alteration or amendment

Mr. CRAIN. Will the gentleman permit me to interrupt him? Mr. BURNES. In a moment. The Senate conferees were determined to defeat this claim or refuse to recede from the Senate amendment to the paragraph. This was a claim, like the others, excepted from allowance, and they very properly thought they ought all to fail together or be alike appropriated for. They said: "Let the Senate recede from its amendment to this paragraph, with an amendment striking out the appropriation and referring all these claims to the accounting officers of the Treasury to be reported together to the next session of Congress for consideration."

Whether the conferees have exceeded their powers is a question not

now involved in the discussion. That is a question of law for the Speaker. If the House is at all alarmed that the gentlemen who represented the House failed to stand for its rights and prerogatives as thoroughly as they might have done, let the fact be signalized by disagree-

ing to the conference report.

Mr. CRAIN. May I now ask the gentleman from Missouri a ques-

Mr. BURNES.

Mr. CRAIN. Is it not a fact that there is a difference between the items in that paragraph to this extent that all but one were stricken out by the House and put back by the Senate and thereby became legitimate subjects for consideration by the conference committee, whereas the other item was passed in this House by a yea-and-nay vote, and was afterward passed by the Senate, and, therefore, was not a legitimate subject for consideration by the conference committee? If a conmate subject for consideration by the conference committee: If a conference committee is permitted to strike out items that have passed both Houses, and which, therefore, do not come within their purview, they could take any bill passed by the Senate and the House, strike out all after the enacting clause, and bring in an entirely new measure.

Mr. BURNES. I will answer my friend from Texas. I think I have already answered him. This one paragraph contained three items, two

of which the House excepted from appropriation, one of which the House sustained. The Senate struck out the two exceptions—the two items that the House had so excepted from appropriations-all of them in this one paragraph. We went into conference on the Senate amendment which put back the two items the House had excepted. The claim alluded to by my friend was not objected to by the Senate until we were in conference.

Mr. CRAIN. It had been passed by both Houses.

Mr. BURNES. The paragraph had been passed by the House, but was amended in the Senate. My claim is that the action of the Senate was, as to every word in the paragraph, a mere offer, on condition, to agree to it or any part of it.

True this claim met with the sanction of the House by a vote; and the other claims and every part of the bill as it was sent to the Senate was the solemn action of the House; but the non-concurrence in the Senate amendment was of equal solemnity. We secured two points for the House by surrendering one. Each was equally indorsed.

Mr. CRAIN. It voted on that item by a yea-and-nay vote.
Mr. BURNES. It voted on one item of this paragraph. The quescre simply is whether we have transcended our powers. The will of tion simply is whether we have transcended our powers. the House is expressed without a yea-and-nay vote just as solemnly as with such vote.

Mr. McCOMAS. This is not a question of order, but it is a question of the propriety of procedure. Upon that question it seems to me there can be no room for doubt. This is a paragraph of a bill which provides for the payment of the claims on account of transportation of the Army and its supplies contained in a certain schedule in a certain executive document appropriating a round sum of money to pay the claims of that class in that schedule not by name respectively but as a total.

Upon a single paragraph the House agreed to appropriate \$59,405.81.

It was the appropriation of a lump sum of money. Upon that the Senate differed, and determined to appropriate \$107,994. The controsenate differed, and determined to appropriate \$107,994. The controversy between the conferees representing the wishes of the House and those representing the Senate was the difference between those two sums of money. It was not an isolated claim which we were passing upon. It was an aggregation of claims in one paragraph, making up one total, and we were to determine whether the total adopted by the House or the total adopted by the Senate should be retained in the bill.

Mr. ADAMS, of New York. Will the gentleman yield for a ques-

Mr. McCOMAS. In a moment. Now, Mr. Speaker, in that confer-Mr. MCCOMAS. In a moment. Now, Mr. Speaker, in that conference every item that goes to make up the difference between the two amounts must be in controversy. They were all together. They were there, and we could not put them out. The question was, shall we take the one total sum or the other total sum? The items were all involved, and when it was insisted that the claims excepted by the House which made the total which had been agreed to by the House belonged in the same category with this other claim, upon the principles involved there was nothing to do but to take the sum fixed by the House or the sum fixed by the Senate or something between the two. For the first sum fixed by the Senate, or something between the two. For the first time it is stated here by gentlemen that there has been an attempt to strike out of this bill an item which had been passed upon by the House.

The strength of that is simply in the form of the statement, but a fair and candid examination of the bill as it is will show that in dealing with a single paragraph which involved a difference of totals we simply went between the totals of the two Houses and came to an agree-Was it not in the power of the conferees to do that? not in their power they certainly do not care to enlarge their power.

I yield now for the question of my friend from New York.

Mr. ADAMS, of New York. My question is, whether you, as one of the conferees, claim for the committee the power, after the House had by a yea-and-nay vote inserted an item in the bill which had not been inserted by the Committee of the Whole, to meet the conferees on the part of the Senate and consent to have that item struck out, with-

out first coming and obtaining the consent or approval of the House.

Mr. McCOMAS. So far as I am concerned, and I have no doubt so far as all the conferees are concerned, we do not desire any sort of extension of power, we do not seek to change the effect of anybody's vote or to change the action of the House; but what I claim is that we were obeying the final vote of the House when it determined that it would appropriate \$59,405 instead of the \$107,994 which the Senate had agreed

Mr. ADAMS, of New York. In other words, you as a conferee on the part of the House claim the right to agree with the Senate conferees to strike an item out of this bill, after the House had put it there ex-pressly by a yea-and-nay vote and the Senate had agreed that it should

Mr. McCOMAS. I used no such words and made no such statement. make my statement of my thought in my own language, and I say that when the House had instructed the conferees to have a conference, it was not upon the crossing of a "t" or the dotting of an "i;" it was upon the appropriation of large sums of the public money here and there, and the House instructed us as conferees to insist upon the sum which it had agreed to appropriate, and we came as near as we could to doing that.

Mr. ADAMS, of New York. The House took away your power as

to that item.

Mr. McCOMAS. The House instructed us to insist, and we did so as far as we could. This item was part of the paragraph, and you can not divide up a paragraph in the way gentlemen contend. [Here the hammer fell.]

Mr. CRAIN. Will the gentleman answer a question?
Mr. McCOMAS. I would be glad to answer it, if I had the time.
Mr. BURNES. I now yield five minutes to the gentleman from

Texas [Mr. CRAIN].

Mr. CRAIN. Mr. Speaker, I do not think this is a question a vote upon which if in the affirmative will decide that this House lacks confidence in this conference committee. Doubtless the conferees believed that they had the power under the rules to do what they have done, and I do not intimate that they were governed by any other motives than those of honor and justice.

Mr. WEAVER, of Iowa. State what the point is.

Mr. CRAIN. I propose to do that. As I have said, Mr. Speaker, I do not impugn the motives of the conferees, but they certainly have erred as to their powers under the rules of the House. There was an item contained in the original bill providing an appropriation of \$10,750 for the rent and occupation of certain property in the city of Galveston,

Tex. Other items were put in the same paragraph by the committee.

The committee recommended that these amounts should not be allowed, whereupon a yea-and-nay vote was taken in the House upon the motion of the gentleman from Indiana [Mr. HOLMAN], which vote resulted in favor of this appropriation, the House deciding by a majority of 20 that the item should be restored to the bill. Subsequently, upon motion of the other gentleman from Indiana [Mr. Browne] to recommit the bill with instructions to strike out this item, the House again decided that the item should remain. The bill went to the Senate with that paragraph in it, and the Senate passed the bill in that

Mr. GUENTHER. The Senate left your item in.

Mr. CRAIN. Yes; the Senate left my item in the bill. In other words, it reaffirmed the action taken by the House upon two votes by yeas and nays.

A MEMBER.

There was no disagreement as to that.

There was no disagreeing vote of the two Houses as Mr. CRAIN. There was no disagreeing vote of the two Houses as to that item. The bill went to the conference committee; and as the chairman of the managers on the part of the House says, the Senate, speaking through its conferees, decided that they would not agree to the bill unless this item should be stricken out. Now we maintain that this question was outside the jurisdiction of the conference committee. It had never been submitted to them; and they had no jurisdiction over any other question than those which arose by the disagreement of the two Houses

This question was raised when the honorable gentleman from Pennsylvania [Mr. RANDALL] was Speaker of the House—in the Forty-sixth Congress, I believe—and I desire to refer to his ruling on that occasion.

I read from the Journal:

Mr. Springer made the point of order that it was not in order to instruct said committee at the present time, and the further point of order that the portion of the bill which the resolution proposes shall be open to consideration by the conference committee had been settled by the two Houses and should not be made the subject of conference.

The Speaker held that it was not in the power of a conference committee to change a paragraph which had been agreed to by both Houses, for the reason that the conference was only on the disagreeing votes of the two Houses, which necessarily excluded from consideration any matter agreed to by the two Houses.

Now, the gentleman from Maryland [Mr. McCoMAS] maintains that

simply because this item-

Mr. McCOMAS. This paragraph, and the totals in the paragraph. Mr. CRAIN. The gentleman maintains that simply because this item was put in the same paragraph with other items which were not voted upon separately, therefore because those other items in the paragraph were made the subject of conference that necessarily took in the item which had been passed by both Houses. I say there is no reason and no authority for that position.

What would be the object of the gentleman from Indiana [Mr. Hol-MAN] in demanding a separate vote by yeas and nays upon this item? If it was but a part of a paragraph, which way did the House decide? If the paragraph is to be taken as an entirety, shall the majority of the items control in determining what the action of the House is? How are you going to separate them? What is the use, what is the sense, what is the reason in dividing the items and in calling for a separate vote by yeas and nays in the House? What was the motive which activated the other words are four Legione What was the motive which activated the other words are four Legione What was the motive which activated the other words are four Legione What was the motive which activated the other words are four Legione What was the motive which activated the other words. uated the other gentleman from Indiana [Mr. Browne] in demanding a separate vote upon his proposition to recommit this bill with instructions to the Committee on Appropriations to strike out this item, if it was carried along by the action of the House in deciding upon the other items in that paragraph?

There is no reason, there is no justice in the distinction which the gentleman from Missouri [Mr. BURNES] and the gentleman from Maryland [Mr. McComas] draw in regard to this item. It is not so intimately blended with the other items in the paragraph that it is necessarily involved in the action of the House on those items, because I repeat if it were there would be no sense and no utility in calling for

a separate vote upon the items. [Here the hammer fell.]

Mr. BURNES. Mr. Speaker, I have but one word to say in reply to my friend from Texas [Mr. CRAIN]; and that is in regard to the deto my friend from Texas Lair. CRAIN j; and that is in regard to the decision of the Speaker in a former Congress which the gentleman has read to the House. In that case the question was with regard to a paragraph to which both Houses had agreed. That is not this case. I now demand the previous question.

Mr. CANNON. I ask the gentleman to yield to me.

Mr. BURNES. I withdraw the demand for the previous question,

and yield to the gentleman.

Mr. CANNON addressed the House. [See Appendix.]

Mr. BURNES. I yield two minutes to the gentleman from Arkansas

[Mr. Breckinridge].

Mr. BRECKINRIDGE, of Arkansas. Mr. Speaker, there is presented here no question of a personal character between the House and

the gentlemen who compose the conference committee; everybody has the highest regard for them personally. The sole question is as to the jurisdiction of a conference committee, whether or not they can strike out items which are not in dispute between the two Houses. The grave question here presented is whether we should accept this report striking out items which were not in dispute between the two Houses. It is very important for this House and for Congress that there should be no impingement upon the integrity of the rule that matters on which there has been no disagreement between the two Houses should not be interfered with by a conference committee. Why, sir, if you will turn to page 321 of the Manual you will find it stated that—

It is not competent for a conference committee to consider matters or subjects not in dispute between the two Houses; nor can the committee change the text of a bill to which both Houses have agreed.

Again, it is said, on page 322:

While it is unusual to instruct a conference committee, there are instances of the kind, but only in cases of disagreement on some particular item or items.

Why, sir, if disagreement about an item in a paragraph unsettles every other part of the paragraph see what then would be the condition if you differed about the first item or any item in a paragraph in the river and harbor bill. It would unsettle three hundred and odd items in that bill and refer them to be settled to a conference committee, although you had agreed to every one but that particular one. The limitation is clearly to the exact text and particular items and substantive propositions in dispute.

[Here the hammer fell.]

Mr. BURNES. I now yield to the gentleman from Indiana. Mr. HOLMAN. Mr. Speaker, I submit this whole paragraph went to the conference—the entire paragraph. I do not claim any extraordinary experience in regard to the action of conference committees. I have had the general experience of gentlemen on this floor. I remember a number of instances where this has occurred. Here is a paragraph appropriating on certain claims \$59,405.81. The Senate never agreed to that paragraph at all; the Senate never agreed to any part of it independently, but it agreed to a paragraph with certain amendments striking out exceptions which were placed in the original paragraph and increasing the amount \$437,964.29. From the necessity of the case the whole paragraph went before the conferees.

If I had time I could run over report after report made during the

present Congress where the conferees have acted on the same principle. The Senate have only agreed to the text of the measure as it went to the House on the condition all the exceptions should be omitted. have stricken out the exceptions and increased the aggregate amount to be appropriated to \$107,994.29. The objection of the Senate, from the necessities of the case, carries the whole provision before the conferees. I should be astonished to hear a doubt raised as to the whole

provision being before the conferees.

Mr. BURNES. I demand the previous question on the adoption of the report.

The previous question was ordered.

The House divided; and there were—ayes 110, noes 24.

Mr. CRAIN. No quorum has voted.

The SPEAKER appointed as tellers Mr. Crain and Mr. Burnes.
Mr. RYAN. Let us have the yeas and nays; that is the shortest way.
Mr. JOHNSTON, of Indiana. I demand the yeas and nays. [Cries "No!"] Very well; I will withdraw it.
Mr. WILKINS. I renew the demand for the yeas and nays. of "No!"]

The yeas and nays were refused, 17 only voting in the affirmative.

Mr. CRAIN. I withdraw the point of no quorum.

So the report was adopted.

Mr. BURNES moved to reconsider the vote by which the report was adopted; and also moved that the motion to reconsider be laid on the

The latter motion was agreed to.

SUNDRY CIVIL BILL.

Mr. RANDALL. I submit the report of the committee of conference on the sundry civil bill. Before it is read I ask, by unanimous consent the session of the House be extended until this report is disposed of, if it shall be found necessary to do so.

Mr. BROWNE, of Indiana. On condition it shall not be extended

beyond 10 o'clock to-night.

Mr. RANDALL. I do not suppose it will go beyond 5 o'clock, and only make the proposition out of abundant caution.

The SPEAKER. It will take some time to read the report, as it is

Mr. RANDALL. Say not to extend beyond 6 o'clock, then. The SPEAKER. Is there objection?

Mr. BRECKINRIDGE, of Arkansas. Before assenting to it I will ask the gentleman from Pennsylvania a question about the report. I ask whether the salaries for the Mississippi River Commission and the continuation of surveys—

A MEMBER. And the Missouri.

Mr. BRECKINRIDGE, of Arkansas. And the Missouri River Commission-whether those provisions are included?

Mr. RANDALL. The Senate receded from both of those amend-

Mr. BRECKINRIDGE, of Arkansas. I wish to ask if the Senate did not proceed upon the understanding these amendments could be adopted in the river and harbor bill, which we found could not be done.

Mr. RANDALL. I do not recollect any condition about it.

I am talking about "under-

Mr. BRECKINRIDGE, of Arkansas. standing," not "condition."

Mr. RANDALL. In abundance of caution the conferees, if I remember aright, sent these amendments to the conferees on the river and harbor bill. I so understood. I did not do it myself.

The SPEAKER. Does the gentleman object?
Mr. BRECKINRIDGE, of Arkansas. I do object.

Mr. RANDALL. Then the gentleman takes the responsibility. Mr. BRECKINRIDGE, of Arkansas. I am perfectly willing to take

the responsibility. I am glad always to take that kind of responsibility.

Mr. JOHNSTON, of Indiana. Mr. Speaker, I ask unanimous consent that members who have reports to make from committees be permitted to file them with the Clerk for to-day.

Mr. DUNN. I suggest that had better be made to apply to the remainder of the session. [Cries of "Oh, no; for to-day only!"]

The SPEAKER. Is there objection to the request of the gentleman

Mr. HATCH. I object.

Mr. BURROWS. Mr. Speaker, I would like to suggest the propriety of taking a recess at 5 o'clock this evening until 8 o'clock, so as to complete this bill; and I ask unanimous consent, for the purpose of testing the sense of the House, that a recess be taken from 5 to 8 for that purpose.

that purpose.

Mr. RANDALL. I object.

Mr. HOLMAN. I ask unanimous consent, inasmuch as the reading of the report of the conference committee will convey but slight information to the House, that the reading be omitted and the statement of the conferes be taken up and read. Very few can follow the amendof the conferves be taken up and read. Very few can follow the amendments to a bill even with the utmost vigilance in connection with the reports of conference committees usually, while the statement of the House conferees covers the whole question.

Mr. RANDALL. I do not know that the statement in this case would cover absolutely every item, and I think it will save many inquiries and possibly considerable debate and time to have the report read.

The SPEAKER. The clerk will read the report.

Mr. RANDALL. The gentleman from Illinois has a conference re port on the measure known as the surplus resolution, and I shall yield to him for the purpose of reporting that, with a view to having an order made for its printing.

TREASURY SURPLUS.

Mr. MORRISON. Mr. Speaker, I am instructed by the committee of conference to submit a report on the disagreeing votes of the two Houses on the joint resolution (H. Res. 126) directing the payment of the surplus in the Treasury on the public debt, and to ask that the original resolution of the House, together with the amendment of the Senate and the report and statement of the conferees, be printed in the RECORD, to be called up hereafter.

Mr. HISCOCK. That includes the printing of the House resolution

with the Senate amendment?

The SPEAKER. It does, and the conference report also.

The report and resolution with Senate amendments are as follows:

[Forty-ninth Congress, first session.-H. Res. 126.]

IN THE HOUSE OF REPRESENTATIVES.

August 3, 1886.—Ordered to be printed as reported by the committee of conference on the amendments of the Senate.

Amendments of the Senate printed in *italies*; committee of conference recommend omitting parts inclosed in brackets and inserting parts printed in SMALL CAPITALS.

Joint resolution directing payment of the surplus in the Treasury on the public debt.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled. That whenever the surplus or balance in the Treasury, including amount held for redemption of United States notes, shall exceed the sum of \$100,000,000, it shall be, and is hereby made, the duty of the Secretary of the Treasury to apply such excess, in sums notless than ten millions per month, during the existence of any such surplus or excess, to the payment of the interest-bearing indebtedness of the United States payable at the option of the Government. The surplus or balance herein referred to shall be the available surplus, ascertained according to the form of statement of the United States Treasurer, of the assets and liabilities of the Treasury of the United States employed on June 30, 1886 (1): Provided, That no call shall be made under the provisions of this resolution until a sum equal to the call is in the Treasury over and above the reserve herein mentioned: And provided further. That the Secretary of the Treasury, in his discretion, may have in the Treasury, over and above the Treasury, in his discretion, may have in the Treasury, over and above the foregoing sums, a working balance not exceeding \$20,000,000; and whenever, in the case of any extraordinary emergency not now existing, and when, because thereof, in the opinion of the [President] SECRETARY OF THE TREASURY, the public interest shall require it, he may, by written order [direct the Secretary of the Treasury to suspend] POSTPONE the further call for the payment of such indebtedness for such period of time as shall be necessary to maintain the public oredit unimpaired; and that such [suspension] POSTPONEMENT, and the reasons therefor, shall be reported to Congress within ten days after its next meeting, or immediately if Congress shall be in session.

(2) [Sec. 2. That for a period of six months after the passage hereof, United States trade-dollars, if not defaced, mutilated, or stamped, shall be received at their face whice in paymen

[Sec. 3. That the holder of any United States trade-dollars, during the period aforesaid, on presentation of the same at the office of the Treasurer or any assistant treasurer of the United States, may receive in exchange therefor a like amount and value, dollar for dollar, in standard silver dollars or in subsidiary coins (at the option of the holder) of the United States.]

[Sec. 4. That the trade-dollars received by, paid to, or deposited with the Treasurer or any assistant treasurer or national depositary of the United States shall not be paid out or in any other manner issued, but, at the expense of the United States, shall be transmitted to the coinage mints and recoined into standard silver dollars.]

[Sec. 5. That all laws and parts of laws authorizing the coinage and issuance of United States trade-dollars are hereby repealed.]

Passed the Senato with amendments July 30, 1886.

ANSON G. McCOOK, Secretary.

ANSON G. McCOOK, Secretary.

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H. Res. 126) directing payment of the surplus in the Treasury on the public debt, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

Amendment No. 1: That the House recede from its disagreement to the amendment of the Senate numbered one, and agree to the same with an amendment as follows: In line 8 of said amendment strike out the word "President" and insert in lieu thereof the words "Secretary of the Treasury;" in line 9 strike out the words "direct the Secretary of the Treasury; to suspend" and insert in lieu thereof the word "postpone;" in line 12 strike out the word "suspension" and insert the word "postponement" in lieu thereof; and the Senate agree to the same.

Amendment No. 2: That the Senate recede from its amendment No. 2.

ne same.

Amendment No. 2: That the Senate recede from its amendment No. 2.

W. R. MORRISON.

WM. C. P. BRECKINRIDGE,
FRANK HISCOCK.

Managers on the part of the House. W. B. ALLISON,
N. W. ALDRICH,
J. B. BECK,
Managers on the part of the Senate.

House of Representatives of the United States, Washington, D. C., August 3, 1886.

The undersigned, managers on the part of the House, make the following statement in respect to the conference report on H. Res. 125 directing payment of the surplus in the Treasury on the public debt:

The Senate added two amendments to the resolution. The House conferees have recommended that the House recede from its disagreement to the first amendment and agree to it in the following amended form:

Provided, That no call shall be made under the provisions of this resolution until a sum equal to the call is in the Treasury over and above the reserve herein mentioned:
And provided further, That the Secretary of the Treasury, in his discretion, may have in the Treasury, over and above the foregoing sums, a working belance not exceeding \$20,000,000; and whenever, in the case of any extraordinary emergency not now existing, and when, because thereof, in the opinion of the Secretary of the Treasury, the public interests shall require it, he may, by written order, postpone the further call for the payment of such indebtedness for such period of time as shall be necessary to maintain the public credit unimpaired, and that such postponement and the reasons therefor shall be reported to Congress within ten days after its next meeting, or immediately if Congress shall be in session.

The Senate conferces have agreed to recommend that the Senate recede from its amendment numbered 2, which provided for the redemption of the tradedollars.

W. R. MORRISON.

W. R. MORRISON. WM. C. P. BRECKINRIDGE, FRANK HISCOCK.

Mr. LITTLE. I ask unanimous consent for leave to print some remarks in the RECORD on that report.

Mr. EVANS. I ask the same privilege.

There was no objection.

SUNDRY CIVIL APPROPRIATION BILL.

Mr. RANDALL, from the committee of conference, submitted the following report:

The committee of conference on the disagreeing votes of the two Houses on certain amendments of the Senate to the bill (H. R. 9478) making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1887, and for other purposes, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 4, 10, 11, 14, 15, 16, 21, 22, 26, 29, 31, 32, 33, 34, 35, 37, 41, 45, 50, 59, 61, 78, 76, 77, 81, 82, 83, 84, 87, 89, 83, 103, 104, 105, 106, 107, 110, 113, 119, 122, 124, 125, 126, 134, 135, 136, 146, 149, 150, 154, 159, 161, 162, 163, 164, 174, 176, 178, 182, 183, 183, 183, 193, 199, 200, 201, 207, 219, 222, 232, 233, 234, 235, and 236.

106, 107, 110, 113, 119, 122, 124, 125, 126, 134, 125, 136, 146, 149, 150, 154, 159, 161, 162, 163, 164, 174, 176, 178, 182, 183, 183, 183, 189, 200, 201, 207, 219, 222, 232, 233, 234, 235, and 235.

That the House recede from its disagreement to the amendments of the Senate numbered 2, 3, 8, 9, 17, 18, 19, 20, 24, 27, 28, 20, 42, 46, 47, 49, 51, 52, 53, 54, 55, 56, 57, 58, 60, 62, 64, 65, 66, 67, 97, 98, 100, 101, 102, 111, 112, 114, 115, 116, 118, 120, 123, 127, 121, 133, 137, 140, 141, 142, 148, 151, 152, 155, 160, 155, 166, 167, 168, 169, 175, 177, 180, 181, 134, 189, 190, 191, 192, 194, 196, 197, 198, 202, 203, 205, 206, 208, 209, 210, 211, 214, 215, 216, 217, 226, 227, 228, 229, 230, 238, and 239, and agree to the same.

Amendment numbered 1: That the House recede from its disagreement to the amendment of the Senate numbered 1, and agree to the same with an amendment as follows: In lieu of the sume proposed in said amendment insert "\$10,000;" and the Senate agree to the same.

Amendment of the Senate numbered 5, and agree to the same with an amendment as follows: In lieu of the sum proposed in said amendment insert "\$50,000;" and the Senate agree to the same.

Amendments numbered 6 and 7: That the House recede from its disagreement to the amendments as follows: In lieu of the Senate numbered 6 and 7, and agree to the same with an amendment as follows: In lieu of the sum proposed in said amendment insert "\$50,000;" and the Senate numbered 12; and agree to the same.

Amendment numbered 12: That the House recede from its disagreement to the amendment as follows: In lieu of the sum proposed in said amendment insert "\$50,000;" and the Senate agree to the same.

Amendment numbered 23: That the House recede from its disagreement to the amendment of the Senate numbered 12, and agree to the same with an amendment as follows: In lieu of the sum proposed in said amendment insert "\$500;" and the Senate agree to the same.

Amendment numbered 23: That the House recede from its disagreement to the amendment of the Senat

the amendment of the Senate numbered 25, and agree to the same with an amendment, as follows: In lieu of the sum proposed in said amendment insert "\$15,000;" and the Senate agree to the same.

Amendment numbered 36: That the House recede from its disagreement to the amendment of the Senate numbered 36, and agree to the same with an amendment as follows: In lieu of the sum proposed in said amendment insert "\$12,000;" and the Senate agree to the same.

Amendment numbered 38: That the House recede from its disagreement to the amendment of the Senate numbered 38, and agree to the same with an amendment as follows: In lieu of the sum proposed in said amendment insert "\$35,000;" and the Senate agree to the same.

mentasfollows: In lieu of the sum proposed in said amendment insert "\$55,000;" and the Senate agree to the same.

Y., \$6,000; Chicago, Ill., \$15,000; Fort Wayne, Ind., \$5,000; Lincoln, Nebr., \$4,500; New Orleans (La.) mint building, \$8,000; Port Townsend, Wash., \$5,000; Winona, Minn., \$13,000; Savannah, Ga., \$50,000; Springfield, Ohio, \$2,000; Winona, Minn., \$13,000; Treasury building, \$47,000; Engraving and Printing Bureau, sewer, \$600.

Printing Bureau, sewer, \$600.
 Appropriations contained in the bill as it passed the House for public buildings are stricken out as follows: Brooklyn, N. Y., \$165,000: Denver, Colo., \$97,-

000; New Orleans marine hospital, \$10,000.

On amendments numbered 46 to 66, inclusive, touching light-houses, beacons and fog-signals, the following action is agreed upon:

For the light-house at Mosquito Inlet, Florida, \$50,000 is given for the comple-

The entire provision of the Northwest Seal Rock light station, California, is stricken out

stricken out.

New provisions, touching light-houses, proposed by the Senate, are agreed to as follows: Dutch Gap Canal, Virginia, additional land, \$150; Point Sur, California, \$50,000; Castle Hill, Rhode Island, \$10,000; Whitehall Narrows, New York, \$200; Gull Rocks, Rhode Island, \$10,000; Crabtree Ledge, Maine, \$25,000; Deer Island, Massachusetts, \$35,000; Lubec Narrows, \$40,000; Two Harbors, Minnesota, \$10,000; North Point, Wisconsin, \$15,000; Steam-tender, fourth light-house district, \$68,300; Light-ship, Grosse Point, Michigan, \$3,000; Light-ship, Eel Grass Shoals, \$100; Harbor Island Bar, North Carolina, \$20,000.

New provisions touching light-houses proposed by the Senate are stricken out, as follows:

San Luis Obispo, Cal. \$50,000; Gould Island, Rhode Island, \$10,000; Care.

out, as follows:

San Luis Obispo, Cal., \$50,000; Gould Island, Rhode Island, \$10,000; Cape Meares, Oregon, \$60,000; authority is given to transfer a light-ship at the south end of Ram's Island reef in lieu of constructing a new one at a cost of \$40,000.

On amendment 67: Ten thousand dollars is given for a steam revenue-vessel

on the Mississippi.

On the amendment of the House to the amendment of the Senate No. 74, touching the issue of one, two, and five dollar silver certificates for silver certificates of larger denominations: Leaves the provision as it was proposed by

On amendment 143: Appropriates \$20,000 for introducing the electric light into the Senate wing of the Capitol building.

On amendment 145: Provides that all fees received by the registers and receivers in excess of \$3,000 per annum shall be covered into the Treasury, except so much as may be necessary to pay the actual cost of clerical services employed exclusively in contested cases.

On amendments 146, 148, 149, 150, and 151: Appropriates \$90,000 for protecting public lands, \$20,000 for settlement of claims for swamp lands and swamp-land indemnity, \$5,000 for reproducing plats of surveys, \$5,000 for furnishing transcripts of records and plats, and limits the per diem allowance for subsistence to special agents to \$2.50.

On amendments 152, 153, and 154, touching the appropriation of \$50,000 for surveying public lands: Limits the use thereof for examination of surveys in the field to \$25,000.

On amendment 156: Appropriates \$30,000 for surveying public lands:

On amendment 156: Appropriates \$30,000 for surveying public lands in Nevada.

On amendment 159, touching the Yellowstone Park: Leaves the provision just as it was passed by the House.
On amendment 160: Appropriates \$50,000 for the erection of a hospital building for convict and homicidal insane.

On amendments 161 and 162: Strikes out the provisions for expenses of Mis-

souri and Mississippi River Commissions.
On amendments 163, 164, and 165: Fixes appropriations for expenses of Deaf and Dumb Asylum at \$52,500 and gives \$8,000 for completion of building there-

On amendments 166 to 169 inclusive, relating to Freedmen's Hospital: Leaves provision therefor as passed by the Senate.

On amendments 172 and 173: Appropriates \$500 for books and periodicals for the Bureau of Labor and \$15,000 for education in Alaska.

On amendments 174 and 175: Strikes out provision to purchase additional land for the Carlisle Indian school and appropriates \$695.77 to pay the claim of an Indian woman of the band of Miamies of Indiana,

On amendments 176, 177, and 178: Leaves provision for the Rock Island and

Frankford arsenal just as passed by the House, and appropriates \$30,000 for a milling shop at the Springfield arsenal.

On amendment 179: Provides that the appropriation for care and repair and refurnishing the Executive Mansion shall be expended under direction of the President.

On amendments 180 to 184, inclusive: Appropriates \$57,000 for filling and grading around the Washington Monument, and for filling after December 1 so much of the pond north of the monument as may be necessary.

On amendments 186 and 187: Appropriates \$225,000 for military posts, and \$80,-

000 for a wharf at Fortress Monroe. On amendments 188 to 201, relating to the Signal Service: Leaves the same as on amendments 188 to 201, relating to the Signal Service: Leaves the same as was provided by the House, except that five commissioned officers may be detailed from the Army for service therein; that in reducing the enlisted men to four hundred and seventy the reduction shall first be made from the enlisted men of the "permanent party" at Fort Myer, and sales of subsistence stores are authorized to officers and enlisted men, and \$18,350 is appropriated for a submarine cable at Block Island, and \$20,000 for a cable between Cape Henry and Cape Charles, Virginia

and Cape Charles, Virginia.
On amendments 202, 203, and 205, relating to national cemeteries and head-

stones: Leaves the same as passed by the Senate.

On amendments 206 and 207: Appropriates \$2,000 for survey of northern and northwestern lakes, and strikes out provision for surveys in military divisions and Departments.
On amendments 208 and 209: Appropriates \$10,000 for Garfield Hospital and \$10,000 for examination of claims of certain States and Territories.
On amendments 210 and 211: Increases appropriation for Leavenworth military and \$20,000.

tary prison \$2,250.

On amendments 212 and 213: Appropriates \$57,500 for necessary construction and repairs at soldiers' home at Hampton, Va.
On amendments 214, 215, 216, and 217: Appropriates \$3,500 for repairing fifth story of Department of Justice building, \$25,000 for penitentiary in Wyoming, and \$4,500 for tank and tank-house for the Reform School of the District of Co-

and \$1,500 for tank and tank-house for the Reform School of the District of Columbia.

On amendments 219, 220, and 221: Appropriates \$30,000 for expenses of Territorial courts in Utah, \$5,000 to aid in the more effectual prosecution of crimes in Utah, and \$40,000 for an industrial home in that Territory.

On amendment 222: Appropriates \$30,000 for the prosecution of crimes.

On amendment 225: Provides that no part of the money appropriated by the act shall be used in payment of a per diem compensation to any clerk or marshal for attendance in court except for days when business is actually transacted in court, and when they attend under sections 533,534,671,672, and 2013 of the Revised Statutes, which fact shall be certified in the approval of their accounts.

On amendments 227 and 228: Provides for a stenographic clerk to each of the judges of the Supreme Court, at \$1,600 per annum.

On amendment 229: Appropriates \$1,200 for increased clerical services in the Court of Claims.

On amendments 230, 232, and 233: Appropriates \$10,000 for purchase of works of art by the Joint Library Committee, and omits provisions for purchase of paintings The First Fight of Ironclads and Farming in Dakota.

On amendments 234, 235, 236, 237, 238, and 239: Leaves the provisions touching the public printing just as passed by the House, except the provision touching printing for the scientific bureaus is agreed to and \$30,000 is appropriated for the fifteen days' leave of absence to employés, and \$8,000 to protect the Printing Office building from fire.

On amendment 243: Fifteen thousand five hundred dollars to construct another elevator in the Senate wing of the Capitol is stricken out and a separate section is inserted providing that the appropriations contained in the bill shall take effect from and after July 31, 1886.

The bill as agreed upon appropriates in all \$22,657,510.58, being \$1,345,985.34 more than as it passed the Henuse, \$1,760,864.74 less than as it passed the Senate, \$1,00,900.01 less than the estimates for 1887, a

SAM J. RANDALL, WM. H. FORNEY, THOS. RYAN, Managers on the part of the House.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, informed the House that the bill (S. 2056) to amend the pension laws by increasing the pension of soldiers and sailors who have lost an arm or leg in the service, the return of which is requested by the House, had before the receipt of the request been enrolled, signed by the presiding officers of the two Houses, and delivered to the committee to be presented to the President of the United States.

The message also requested the return of the bill (S. 757) granting a pension to Helen Plunkett.

INCREASED PENSIONS FOR ONE-ARMED AND ONE-LEGGED SOLDIERS.

The SPEAKER. A message from the Senate informs the House that the bill S. 2056, the return of which was requested by the House, had been sent to the President before the request was received. The Chair now desires to have an order made requesting the President to return

The Clerk read the following resolution:

Resolved by the House (the Senate concurring), That the President be requested to return to the House of Representatives the bill of the Senate (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service.

The resolution was adopted.

SUNDRY CIVIL APPROPRIATION BILL.

Mr. RANDALL. It will be observed that this bill as now agreed to in conference is about three and a half millions of money less than the act of last year. I now ask the previous question on agreeing to the

The previous question was ordered.

Mr. RANDALL moved to reconsider the vote by which the previous question was ordered; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

The SPEAKER. The question is upon agreeing to the report.

Mr. HOLMAN. I greatly regret the unexampled increase of offices in this bill; but at this late hour I will not on that account retard the adoption of the report.

Mr. RANDALL. Most of them are in the land service.
Mr. HOLMAN. There is an increase of salaries in this bill to the amount of \$14,400. I think it is an unexampled increase.

Mr. RANDALL. Most of the officers increased are under the land clauses of the bill.

Mr. DUNN. My colleague from Arkansas [Mr. Breckinridge] made objection to the passage of this bill to-night. In his absence I must make the point of no quorum.

Mr. RANDALL. I communicated with the gentleman and had an

understanding with him on the subject.

Mr. DUNN. I do not know what his objection was.

Mr. RANDALL. It was that the Mississippi River Commission was not provided for. I call for the yeas and nays.

The yeas and mays were ordered.

The question was taken; and there were-yeas 156, nays 23, not voting 143; as follows: YEAS-156.

So the report was agreed to.

During the roll-call,

The SPEAKER said: The Chair will state to gentlemen who are paired that they are permitted by the terms of their pairs to vote to make a

Mr. DARGAN. The gentleman from Georgia, Mr. BLOUNT, requested me to state that he was compelled to leave the Hall on account of sick-

Mr. PERKINS. I was not in the Hall when my name was called. I request permission to vote. I came in before the call was completed.

The SPEAKER. The Chair thinks under the rule the gentleman's request can not be entertained.

Mr. DUNN. Has a quorum voted?

The SPEAKER. A quorum has voted.

Mr. RANDALL. I ask that the reading of the names be dispensed

There was no objection.

The following additional pairs were announced:

Mr. GEDDES with Mr. JOHNSTON, of Indiana, until further notice. Mr. DAVIDSON, of Alabama, with Mr. SWINBURNE, until further

Mr. BALLENTINE with Mr. WAKEFIELD, for the rest of this day

Mr. CAMPBELL, of Ohio, with Mr. KELLEY, for the rest of this day. Mr. SNYDER with Mr. WHITE, for the rest of this day.

The result of the vote was then announced as above stated.

Mr. RANDALL moved to reconsider the vote by which the conference report was adopted; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

PUBLIC BUILDING AT NORFOLK, VA.

Mr. BROWN, of Pennsylvania, from the Committee on Public Buildings and Grounds, reported back with amendments the bill (S. 482) to provide for the erection of a public building in the city of Norfolk, in the State of Virginia; which was referred to the Committee of the Whole House on the state of the Union, and, with the amendments and accompanying report, ordered to be printed.

SALES FOR TAXES IN THE DISTRICT.

Mr. CAMPBELL, of Ohio, from the Committee on the District of Columbia, reported back with a favorable recommendation the bill (S. 634) relating to sales for taxes in the District of Columbia; which was referred to the House committee, and, with the accompanying report, ordered to be printed.

PUBLIC BUILDING, NORFOLK, VA.

Mr. BROWN, of Pennsylvania, from the Committee on Public Buildings and Grounds, reported back with amendments the bill (S. 482) to provide for the erection of a public building in the city of Norfolk, Va.; which was read a first and second time, referred to the Committee of the Whole House on the state of the Union, and, with the accompanying report, ordered to be printed.

FRANCIS DENMEAD.

Mr. CAMPBELL, of Ohio, from the Committee on the District of Co Iumbia, also reported back with a favorable recommendation the bill (S. 766) for the relief of Francis Denmead; which was referred to the Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

Mr. CAMPBELL, of Ohio, from the Committee on the District of Columbia, also reported back with a favorable recommendation the bill (S. 1188) to exempt the property of the Young Men's Christian Association of Washington, D. C., from taxation; which was referred to the

Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

TAX ON REAL ESTATE AGENTS IN DISTRICT.

Mr. CAMPBELL, of Ohio, from the Committee on the District of Columbia, also reported back with a favorable recommendation the bill (S. 1882) to repeal parts of an act relating to tax on the business of real-estate agents in the District of Columbia, approved June 20, 1872; which was referred to the House Calendar, and, with the accompanying report, ordered to be printed.

MARY ANNA EGAN.

Mr. CAMPBELL, of Ohio, from the Committee on the District of Columbia, also reported back with a favorable recommendation the bill (S. 2037) for the relief of Mary Anna Egan; which was referred to the Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

HYDROPHOBIA.

Mr. CALDWELL, from the Committee on Commerce, to which was referred a resolution authorizing the Surgeon-General of the Army to obtain statistics as to symptoms, mode of treatment, rate of death or recovery from hydrophobia and tetanus, reported the same back with amendments; which was referred to the House Calendar, and, with the amendments, ordered to be printed.

And then (at 5 o'clock and 10 minutes p. m.) the House, in accord-

ance with its previous order, adjourned.

PETITIONS, ETC.

The following petitions and papers were laid on the Clerk's desk, under the rule, and referred as follows:

By Mr. BENNETT: Petition of Marcellus J. Edwards; of Achabald Smith, son of John H. Smith, deceased; and of Mart L. Covington, of Richmond County, North Carolina, asking that their war claims be referred to Court of Claims—to the Committee on War Claims.

By Mr. KING: Concurrent resolution of the General Assembly of Louisiana, relative to the establishment of a navy-yard on the Mississippi River in the fifth municipal district of the city of New Orleans—to the Committee on Naval Affairs.

to the Committee on Naval Affairs.

By Mr. McCOMAS: Petition of Eliza S. Jones and others, for reimbursement under treaty of Ghent for property destroyed by the British in the war of 1812—to the Committee on Claims.

Also, papers in the case of Christian Shupp, of Washington County, Maryland, for payment of war claims—to the Committee on War Claims. By Mr. CHARLES O'NEILL: Papers relating to the case of John A.

Wagner for relief—to the Committee on Claims.

By Mr. RYAN: Petition of J. W. Scott and others, in favor of the Weaver bill for paying the soldiers the difference in pay between green-

The following petition, asking for the passage of House bill 7887, repealing timber-culture, pre-emption, and desert-land acts; of House bill 7021, for adjustment of railroad and other land grants; of bill forfeiting all railroad land grants the conditions of which have not been strictly complied with; of House bill organizing the Territory of Oklahoma; of Senate bill opening a portion of the great Sioux reservation to settlement; of bill prohibiting aliens from holding land in the United States; of bill making Presidential and Congressional election days holidays, and punishing bribery; and of bill directing disbursement of at least \$200,000,000 Treasury surplus, and substituting Treasury notes for bank notes retired, was referred to the Committee on the Public

By Mr. HIRES: Petition of citizens of Bridgeton, N. J.

SENATE.

WEDNESDAY, August 4, 1886.

The Senate met at 11 o'clock a. m.

Prayer by the Chaplain, Rev. J. G. BUTLER, D. D. The Secretary proceeded to read the Journal of yesterday's proceedings, when, on motion of Mr. HOAR, and by unanimous consent, the further reading was dispensed with.

ENROLLED BILLS SIGNED.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the Speaker of the House had signed the following eurolled bills; and they were thereupon signed by the President

A bill (H. R. 9478) making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1887, and for

A bill (H. R. 9726) making appropriations to supply deficiencies in the appropriations for the fiscal year ending June 30, 1886, and for prior years, and for other purposes; and

A bill (H. R. 7480) making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes.

EXECUTIVE COMMUNICATION.

The PRESIDENT pro tempore laid before the Senate a communication from the Secretary of the Interior, transmitting, in reply to a resolution of July 21, 1886, certain information relative to land entries canceled for fraud after investigation by special agents, &c.; which was

The PRESIDENT pro tempore. The communication, with the accompanying papers, will be laid on the table and be printed, if there be no objection

Mr. PLUMB. I move that it be referred to the Committee on Public Lands. It will not be necessary now to print it, I think.

Mr. EDMUNDS. It had better be printed.

Mr. COCKRELL. I should like to have it printed.

The PRESIDENT protempore. The communication, with the accompanying papers, will be referred to the Committee on Public Lands, and printed as a matter of course. printed as a matter of course.

PETITIONS AND MEMORIALS.

Mr. PLUMB presented a petition of citizens of Salina, Kans., praying for the passage of certain bills relative to the public lauds, Presidential and Congressional elections, and the disbursement of a part of the Treasury surplus; which was referred to the Committee on Finance.

Mr. MILLER presented a petition of citizens of Ogdensburg, N. Y., praying for the passage of certain bills in relation to the public lands, Presidential and Congressional elections, and the disbursement of a part of the Treasury surplus; which was referred to the Committee on

REPORTS OF COMMITTEES.

Mr. INGALLS, from the Committee on the District of Columbia, to whom was referred the bill (S. 2761) to incorporate the Windsor Hotel Company of the District of Columbia, reported it with an amendment.

Mr. SPOCNER, from the Committee on Claims, submitted the follow-

ing report:

The Committee on Claims, to whom was referred petition of Albert Grant, of Washington, D. C., have carefully considered the same, and, in accordance with the resolution of the Senate of February 7, 1884, report as follows:
That they have referred the same to the Court of Claims under the provisions of an act entitled "An act to afford assistance and relief to Congress and the Executive Departments in the investigation of claims and demands against the Government," approved March 3, 1883.

Mr. SEWELL, from the Committee on Military Affairs, to whom was referred Senate Executive Document No. 52, Forty-ninth Congress, first session, being a letter from the Secretary of War, transmitting in com-pliance with law an abstract of the militia forces of the United States, moved that it be printed; which was agreed to.

Mr. HAWLEY, from the Committee on Military Affairs, to whom was referred the bill (S. 1432) for the relief of Alfred Hedberg, reported

it with amendments, and submitted a report thereon.

Mr. COCKRELL. I desire to say that that is by no means a unanimous report, and I shall ask leave hereafter to submit a minority re-

Mr. CONGER, from the Committee on Commerce, to whom was referred the bill (H. R. 9895) to authorize the construction of a bridge across the Tradewater River by the Ohio Valley Railway Company, re-Mr. EDMUNDS. Let the bill be placed on the Calendar.
Mr. BECK. I should like to ask the Senator from Vermont just to

allow me to explain it.

The PRESIDENT pro tempore. Objection is made and the bill will

be placed on the Calendar.

Mr. EDMUNDS. I will look at it by and by.

Mr. ALLISON. I report back from the Committee on Appropriations the joint resolution (H. Res. 213) authorizing the Secretary of the Treasury to pay certain expenses incurred by special agents and experts of the Bureau of Labor during the month of July, 1886, and I ask that

the Bureau of Labor during the month of July, 1886, and I ask that it may be immediately considered.

Mr. EDMUNDS. Is that just now reported?

Mr. ALLISON. Just this morient.

Mr. EDMUNDS. Let it be explained subject to objection.

Mr. ALLISON. The Bureau of Labor has had during the month of July persons engaged in gathering statistics, &c., under the law, and there is no appropriation whereby they can be paid.

Mr. EDMUNDS. How does that happen?

Mr. ALLISON. It happens from the fact that there was no appropriation last year for this service. These persons have been on duty under the legislative appropriation bill during the month of July, but the legislative appropriation bill did not pass until a few days ago. the legislative appropriation bill did not pass until a few days ago.

Mr. EDMUNDS. Then it is a mere illustration of the method of

The PRESIDENT pro tempore. Is there objection to the present consideration of the joint resolution?

Mr. PLUMB. I object.
The PRESIDENT protempore. Objection being made the joint resolution will be placed on the Calendar.

TESTIMONIALS TO ULYSSES S. GRANT.

Mr. SEWELL. I am instructed by the Committee on the Library,

to whom was referred the joint resolution (S. R. 46) accepting from William H. Vanderbilt and Julia Dent Grant objects of value and art presented by various foreign governments to the late General Ulysses S. Grant, to report it without amendment. I ask unanimous consent for its present consideration.

The PRESIDENT pro tempore. The joint resolution will be read for

information

Mr. EDMUNDS. I do not object at all, but I am very confident (probably it did not pass the House) that at a former session the Senate passed a similar resolution.

Mr. SEWELL. It was passed by the Senate last year, but did not pass the House.

Mr. EDMUNDS: The Senate had gladly taken the collection. Is this the same sort of resolution?

Mr. SEWELL. It is changed a little so as to place the objects in the custody of the Director of the National Museum.

Mr. EDMUNDS. I have no objection to it.

The PRESIDENT pro tempore. The joint resolution will be read,

subject to objection.

The Chief Clerk read the preamble and joint resolution, as follows:

The Ciner Cierk read the preamble and Joint resolution, as follows:
Whereas William H. Vanderbilt and Julia Dent Grant, by deed of trust executed on the 10th day of January, 1885, presented to the United States certain swords, medals, paintings, bronzes, portraits, commissions and addresses, and objects of value and art presented by various governments in the world to General Ulysses S. Grant as tokens of their high appreciation of his illustrious character as a soldier and a statesman: Therefore,

Resolved, &c., That the United States accept, with grateful acknowledgments, the said property and articles, more fully described in the schedule attached to said deed of trust, to be held by the United States and preserved and protected in the city of Washington for the use and inspection of the people of the United States.

SEC. 2. That the said property and articles be placed under the custody of the Director of the National Museum; and he is hereby directed to receive the same for safe-keeping therein.

By unanimous consent, the Senate, as in Committee of the Whole, proceeded to consider the joint resolution.

The joint resolution was reported to the Senate without amendment, ordered to be engrossed for a third reading, and read the third time.

The PRESIDENT pro tempore. The question is, Shall the joint reso-

lution pass?

Mr. EDMUNDS. We ought to take notice of the fact in regard to the form of the resolution that William H. Vanderbilt, since that gift was made so generously, has died. Whether there would be any diffi-culty in that form of stating it I do not know.

Mr. SEWELL. I should think not, because the communication was from William H. Vanderbilt. There will be no difficulty about ac-

cepting the articles.

The joint resolution was passed.

The preamble was agreed to.

BILLS INTRODUCED.

Mr. INGALLS introduced a bill (S. 2889) granting a pension to George W. Smith; which was read twice by its title, and referred to the Committee on Pensions.

Mr. CALL introduced a bill (S. 2890) donating certain lots to the city of Saint Augustine, Fla., for public schools, parks, and a public library; which was read twice by its title, and referred to the Committee on Public Lands.

REPORT ON IRRIGATION.

Mr. PLUMB submitted the following resolution; which was considered by unanimous consent, and agreed to:

Resolved, That the Commissioner of Agriculture be directed to furnish to the Senate early at its next session such information on the subject of irrigation as he may have gathered and prepared for publication.

EXTENSION OF STREETS IN WASHINGTON.

Mr. MAHONE. I offer the following resolution, and ask that it may be considered at this time:

Resolved. That the commissioners of the District of Columbia are hereby directed to report to the Senate at its next meeting in December in detail the estimated cost of extending the streets and avenues on the northern boundary of the city of Washington as proposed by Senate bill 2201.

The PRESIDENT pro tempore. Is there objection to the present con-

sideration of the resolution?

Mr. EDMUNDS. I am in favor of that; but living out in that country neighborhood I am somewhat interested, with everybody else in that direction, in regard to the form of extension, whether it should be on the rectangular and diagonal plan of right and acute and obtuse angles, or whether, on account of the contour of the hills and bluffs there, the form of the extension should not accommodate itself in some degree at least to the shape of the surface of the earth, as I think it ought.

Therefore I should be glad, if the Senator from Virginia is willing, to add to the resolution a direction that the commissioners report upon the subject of the best form of the extension in respect of the arrangement of streets in regard to the contour of the land. Has the Senator

from Virginia any objection to that?

Mr. MAHONE. None whatever.

Mr. COCKRELL. Is the resolution just offered?

The PRESIDENT pro tempore. It is just offered.

Mr. COCKRELL. I should like to hear it read again. I am not

certain that I shall concur in its passage just now.

The PRESIDENT pro tempore. The resolution will be again read. The PRESIDENT pro tempore.

The Chief Clerk read the resolution.

Mr. EDMUNDS. I move to add to the resolution:

And that the said commissioners report what in their opinion is the best plan for such extension in regard to the angles and lines of the streets and the contour of the ground.

The PRESIDENT pro tempore. The question is on agreeing to the amendment.

The amendment was agreed to.

The resolution as amended was agreed to.

SOLDIERS' HOME ACCOUNTS.

The PRESIDENT pro tempore. The Chair lays before the Senate a resolution submitted August 2, 1886, by the Senator from New Jersey [Mr. SEWELL], which comes over under objection. The resolution will be read.
The Chief Clerk read the resolution, as follows:

Resolved. That the Secretary of the Treasury be directed to furnish the Senate at the next session of Congress an estimate of the amount due the Soldiers' Home, on the books of the Treasury Department, said estimate to be based on amounts already ascertained for certain years, allowing for increase of number of men and increase of pay and bounties during and subsequent to the war.

The PRESIDENT pro tempore. The question is on agreeing to the resolution.

The resolution was agreed to.

R. A. FENNELL.

The PRESIDENT protempore. The Chair also lays before the Senate a resolution reported yesterday by the Senator from North Carolina [Mr. VANCE | from the Committee on Contingent Expenses, which comes over under objection. The resolution will be read.

The Chief Clerk read the resolution, as follows:

Resolved, That one month's pay, from 15th April to the 15th May, be paid by the Secretary of the Senate, out of the contingent fund of the Senate, to R. A. Fennell, a messenger removed from office.

Mr. PLUMB. I object to that resolution.
The PRESIDENT protempore. Objection being made, the resolution goes over.

PUBLIC BUILDING AT YONKERS, N. Y.

Mr. MILLER. I move to take up Order of Business 1874, being the bill (S. 1597) for the erection of a public building at Yonkers, N. Y.

The motion was agreed to; and the Senate, as in Committee of the Whole, proceeded to consider the bill which had been reported from the Committee on Public Buildings and Grounds with an amendment, to strike out all after the enacting clause and in lieu thereof to insert:

strike out all after the enacting clause and in lieu thereof to insert:

That the Secretary of the Treasury be, and he is hereby, authorized and directed to purchase or otherwise provide a site and cause to be erected thereon a substantial and commodious building, with fire-proof vaults, for the use and accommodation of the post-office and for other Government uses, at Yonkers, N. Y. The site, and building thereon, when completed upon plans and specifications to be previously made and approved by the Secretary of the Treasury, shall not exceed in cost the sum of \$100,000; nor shall any site be furchased until estimates for the erection of a building which will furnish sufficient accommodations for the transaction of the public business, and which shall not exceed in cost the balance of the sum herein limited after the site shall have been purchased and paid for, shall have been approved by the Secretary of the Treasury; and no purchase of site nor plan for said building shall be approved by the Secretary of the Treasury; invloving an expenditure exceeding the said sum of \$100,000 for site and building; and the site purchased shall leave the building unexposed to danger from fire by an open space of at least 40 feet, including streets and alleys: Provided, That no part of said sum shall be expended until a valid title to the said site shall be vested in the United States, nor until the State of New York shall cede to the United States exclusive jurisdiction over the same, during the time the United States shall be or remain the owner thereof, for all purposes except the administration of the criminal laws of said State and the service of civil process therein.

The amendment was agreed to.

The amendment was agreed to.

The bill was reported to the Senate as amended, and the amendment was concurred in.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

HELEN PLUNKETT.

A message from the House of Representatives, by Mr. CLARK, its Clerk, returned to the Senate, in compliance with its request, the bill (S. 757) granting a pension to Helen Plunkett.

Mr. HOAR. The Senate passed a few days ago this bill to give a pension to the widow of Sergeant Plunkett, a soldier of great distinction, who had lost both arms. By a mistake he was described as serving in Company A instead of Company E, and the comrades of his company are very much concerned in not having this go into history erroneously; they want to claim him for their own company.

I ask unanimous consent that the bill which has been sent back from

the House may be taken up at this time and amended by striking out the letter "A" and inserting the letter "E" after the word "company."

The PRESIDENT pro tempore. If there be no objection, the Chair will lay the bill before the Senate. The Senator from Massachusetts moves to reconsider the vote by which the bill was ordered to a third reading and passed.

The motion to reconsider was agreed to.

Mr. HOAR. After the word "company," in line 6, I move to strike

out the letter "A" and insert the letter "E;" so as to read, "Company E, Twenty-first Massachusetts Volunteers."

The amendment was agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

ORDER OF BUSINESS.

Mr. GEORGE. Mr. President, I ask to take up three bills passed by the House to remove political disabilities imposed by the fourteenth amendment. I do this at the suggestion of the chairman of the Committee on the Judiciary. It will not take five minutes to pass them. The first bill is Order of Business 1856, House bill 8192.

The PRESIDENT pro tempore. The Senator from Mississippi moves that the Senate proceed to the consideration of the bill (H. R. 8192) to

remove the political disabilities of J. R. Eggleston, of Mississippi.

Mr. INGALIS. I rise to inquire, sir, about the proposed order of business, and to know whether the action to-day is to be in the nature of a grab game or whether there is to be some just and equitable action upon matters now on the Calendar.

I presume that every Senator has some bills upon the Calendar upon which he would like to invite action; but if the time is to be farmed out by the Chair among the different Senators, I suggest that a much more reasonable course would be to call the list alphabetically, so that each Senator may have an opportunity.

Mr. ALLISON. I hope that will be done.

Mr. HOAR. Beginning with the letter A.
Mr. INGALLS. Beginning with the letter A, or beginning with the letter Z and going backward. But I respectfully submit that it is unjust and improper and unparliamentary to allow certain favored Senators by reason of extra diligence or importunity, like the widow in the Scripture, to obtain advantages that are denied to others.

Here are seventy House bills on the Calendar, seventy bills reported from the committees, which have been acted upon by the House and upon which alone any definite and final and formal action can be had at this session which will be of any benefit to anybody; and I protest against the method that is now being carried on of farming out the floor in violation of the orders of the body by arrangements with the President pro tempore to the exclusion of others who have exactly the same rights as those who are recognized.

In order to reach some practical result I suggest for the consideration of the Senate either that we proceed to consider cases reported on the Calendar which have been acted upon by the House of Representatives, or that the committees be called to enable the chairman of each committee to call up such bills as he may think it is desirable to invite action upon, or else that the list of the Senate be called alphabetically,

so that every man may have a chance.

Mr. COCKRELL. Will the Senator from Kansas yield for a sugges-

tion?

Mr. INGALLS. Yes, sir.
Mr. COCKRELL. I suggest that we take up the Calendar of bills passed by the House and reported favorably by Senate committees and act upon those which are unobjected to. I believe we can pass every unobjectionable House bill that is upon the Calendar sooner than we can dispose of one or two in this wrangle.

Mr. EDMUNDS. Mr. President, I believe—
The PRESIDENT pro tempore. The Chair ought to put the request of the Senator from Mississippi. He yields, the Chair understands. Mr. GEORGE. I suppose we might dispose of that bill without

further time.

Mr. COCKRELL. That bill will be disposed of under the rule proposed.

Mr. GEORGE. I have no objection to the course suggested by the

Mr. GEORGE. I have no objection to Senator from Missouri.

Mr. EDMUNDS. I believe that the greatest public service the Senate can do to-day is not to pass any bills at all. If we are to adjourn to-night, the necessary procedure of enrollment and the signature of the procedure of enrollment and the procedure of enrollment and the signature of the procedure of enrollment and the proced the presiding officers, even taking House bills, would get a great amount of bills to the Chief Magistrate some time late this afternoon or evening, which is always unjust treatment to him, and which would very likely result, as I should hope it would, in not a single one of them being signed; and then the people who want to pass these measures are in a worse condition than they would be to leave the bills on the Calendar, for the reason that being left on the Calendar they will be ready for immediate action on the first Monday in December next, and going to the President and failing because he does not sign them they are dead and gone and must be begun again de novo.

Mr. COCKRELL. I suggest that there are quite a large number of bills here which are very short ones, and where the enrollment will take but a short time, and the enrollment can be readily done, and the President can read them over in a few moments. There are a number of others which of course will take more time, but I think the cases which would not be objected to are such as could be enrolled in a very short time, and would receive the approval of the President at

once and become laws

I therefore move that the Senate proceed to the consideration of the bills passed by the House of Representatives and favorably reported by | has in charge is disposed of.

Senate committees, and which may be unobjected to, taking them in their order on the Calendar.

The PRESIDENT pro tempore. That can only be done by unanimous consent. The Senator from Missouri asks the unanimous consent of the Senate that the Senate now proceed to the Calendar of unobjected House case

Mr. EDMUNDS. I object.

The PRESIDENT pro tempore. Objection being made, the Senator

from Mississippi is recognized.

Mr. GEORGE. I ask unanimous consent to take up the bill (H. R. 8192) to remove the political disabilities of J. R. Eggleston, of Missis-

sippi. It can be passed in a minute.

The PRESIDENT pro tempore. Is there objection to this request?

Mr. INGALLS. What is the request?

The PRESIDENT pro tempore. That the Senate proceed to the consideration of the bill (H. R. 8192) to remove the political disabilities of

J. R. Eggleston, of Mississippi.
Mr. INGALLS. Pending that request, I wish to ask the chairman of the Committee on Appropriations as to the condition of the public business, what the indications are about the main appropriation bills, and when it will be possible to act upon the resolution for an adjournment sine die.

It is important, as has been suggested by the Senator from Vermont, that we should know something about this before proceeding further, because, as has been stated by him, under the parliamentary practice bills which are taken off the Calendar to-day, having been passed by the House, and which are acted upon favorably by the Senate, if they are not approved by the President perish, whereas if they were allowed to remain on the Calendar until the next session they would survive and might be acted upon favorably.

Therefore, unless we are to continue in session sufficiently long to enable the bills which are acted upon to-day to reach the President with the necessary time for deliberation, the last state of those bills is worse than the first. I trust we may have some explanation from the Senator from Iowa as to the probability of the time when we can adjourn.

Mr. ALLISON.—The deficiency bill and the sundry civil bill, two

important bills, have just been signed by the Presiding Officer, and I presume are now ready to go to the President, and the river and harbor bill also, which is an appropriation bill, but not under the care of the Committee on Appropriations.

The PRESIDENT pro tempore. All three bills are on the way to the

President of the United States.

Mr. ALLISON. I am glad to know that. The fortification bill has passed both Houses; the Senate has asked for a committee of conference, and I think the House has not yet granted that conference. I have heard floating through the air in some sort of chaotic way a rumor that it is not the intention of the House of Representatives to pass the fortification bill at this session.

Mr. DAWES. I will say that I have been informed, unofficially of course, that a committee of conference will be appointed in a few min-utes upon the bill by the House; but I must agree with the Senator, that I fear there is very little probability that the bill will get through.

Mr. ALLISON. I was about to state that I think it unnecessary for us at this moment to prolong this session with the hope that the fortification bill will be disposed of. I know of no other thing that will detain us here beyond the time necessary for the President to examine the three bills which I have named, and either sign them or withhold his

So I see no impediment in the way of providing now for an adjournment, say at 10 o'clock to-night, and if in order I will call up the adjournment resolution now, in order that that matter may be disposed of.

Mr. COCKRELL. I hope the adjournment resolution will not be acted on now.

I hope the Senator will bear with me. There are a Mr. CHACE. few little things which we ought to act upon at this session, and among others is a little bill I have charge of, from the Committee on Post-Offices and Post-Roads, which is a matter of a great deal of interest to-

Mr. ALLISON. If the Senator will allow me for a moment, I only desire to state what is necessary with reference to the appropriation

bills, those bills necessary to carry on the Government.

Mr. CHACE. Certainly; but here is this little bill, which has been on the Calendar for quite a length of time. I have been endeavoring on the Calendar for quite a length of thine. I have been day after day to get the floor for a few minutes to call it up. It relates to the extension of the special mail-delivery system. The people now are demanding that this service shall be extended. It now applies to about four hundred post-offices in the country. The Post-Office Department are very anxious. They are put to a great deal of trouble. The people are very anxious. It is one of the little things that are of a good deal of importance.

The bill has passed the House and is awaiting action by the Senate, and will undoubtedly be signed instantly when it arrives at the White House. I ask that the Senate will take that bill up and pass it now.

Mr. GEORGE. I have the right of way.
Mr. CHACE. Then after the matter the Senator from Mississippi

ADJOURNMENT SINE DIE.

The PRESIDENT pro tempore. Pending the request of the Senator from Mississippi, does he yield to the proposition of the Senator from Iowa to call up the adjournment resolution?

Mr. GEORGE. Yes, sir.

The PRESIDENT pro tempore. The Senator from Iowa moves that the Senate proceed to the consideration of the resolution of the House relating to final adjournment, which will be read.

The CHIEF CLERK. The resolution is:

Resolved by the House of Representatives (the Senate concurring), That the President of the Senate and the Speaker of the House of Representatives declare their respective Houses adjourned sine die—

As proposed to be amended: at 4 o'clock p. m., August 4.

Mr. ALLISON. I move in lieu of "4 o'clock p. m." to insert "10 o'clock p. m."

The PRESIDENT pro tempore. The question is on agreeing to the

amendment proposed by the Senator from Iowa.

Mr. COCKRELL. I hope the Senator will not insist upon passing We can not possibly fix any time at this moment; the resolution now. and by deferring it for a few hours we can probably tell exactly when we can adjourn. If the President signs promptly the bills which have gone to him we may adjourn this evening, and we may not be able to adjourn at 10 o'clock to-morrow or even at 4 o'clock to-morrow.

Several SENATORS. To-day.

Mr. COCKRELL. I think it is placing the Senate in an awkward position to be bound to adjourn at a particular hour. I see no occasion for action upon the resolution at this time.

Mr. EDMUNDS. It goes back to the House. They have the ap-

propriation bills, and they can change it after it goes back, if necessary.

Mr. McMILLAN. I hope the Senate will not fix the hour of final adjournment now. The resolution can lie on the table without prejudice, and we can have further information perhaps during the day which will enable us to determine positively the hour.

As was suggested by the Senator from Missouri, there are important bills in the hands of the Executive yet, and he should have some time to consider them. The river and harbor bill passed finally last night; it has just been enrolled this morning, and has received the signature of the President of the Senate. I hope the Senator from Iowa will not press the resolution at this time.

Mr. HARRIS. I suggest to the Senator from Iowa that he modify his amendment to the House resolution, and fix the hour at 11 or 12 o'clock to-morrow, which will give the President ample time to consider and act in a satisfactory manner upon the important bills which have gone to him within the last ten or twelve hours.

The PRESIDENT pro tempore. Does the Senator from Tennessee

make that motion?

Mr. HARRIS. I move to amend by fixing the hour at 12 o'clock to-

Mr. EDMUNDS. There is an amendment to an amendment pend-

The PRESIDENT pro tempore. The Chair is of opinion that this is an amendment in the second degree. The Senator from Iowa moved to amend by striking out 4 o'clock and inserting 10 o'clock. The Senator from Tennessee moves to amend that amendment by inserting 12 o'clock to-morrow.

Mr. EDMUNDS. I understood that the Committee on Appropriations reported the resolution with an amendment, and that the Senator from Iowa has moved to amend that amendment by striking out "4" and inserting "10." The Senator from Tennessee now moves to amend that by striking out "10" and inserting something else. I should think that was in the third degree.

The PRESIDENT pro tempore. The Chair understood the Senator

from Iowa as modifying the former amendment.

Mr. EDMUNDS. He can not modify a committee amendment.

Mr. HOAR. Is this resolution, being a resolution for adjournment to-day as distinguished from another day, debatable?

The PRESIDENT pro tempore. The Chair is of opinion that a concurrent resolution of the two Houses fixing the time for adjournment is debatable.

Mr. HARRIS. I wish to ask the Senator from Iowa if his proposition of this morning is by direction of the Committee on Appropriations or of his individual motion? The only reason why I ask the question is that the point of order suggested by the Senator from Vermont is doubtless well taken unless it is the action of the committee, which then would be a modification of its fomer recommendation.

Mr. EDMUNDS. But the committee can not modify their amend-

ment without consent.

Mr. ALLISON, I will say that I make this modification on my own motion, knowing as a matter of fact that it is impossible for us to adjourn at the hour fixed by the committee day before yesterday, when this matter was considered by the Committee on Appropriations.

Mr. INGALIS. Why? Mr. HARRIS. Then I will ask the Senator from Iowa to modify it so as to fix an hour to-morrow which we may be absolutely sure will | bill, if we may judge by the expression of the Senate, the opposition to

give the Executive ample time to consider and act upon the various

important bills now in his hands.

Mr. INGALLS. The Senator from Iowa intimates in a way that indicates he has some mysterious information, that it will be impossible to adjourn at the hour named in the original proposition—that is, at 4 o'clock p. m. I should like to know why.

Mr. COCKRELL. And then why he thought that hour would do yesterday and thinks it would not do to-day, and thinks that 10 o'clock to-morrow will do. May he not be mistaken to-morrow morning as

badly as he is now?

Mr. INGALLS. I ask the Senator from Iowa why it is that, be lieving we can not adjourn at 4, he is convinced we can adjourn at 10. I understand there is nothing necessary to provide for except an interval to enable the Executive to sign the pending appropriation bills, and if we are to give him the constitutional period that he is entitled to upon the bills the time of adjournment must be postponed for ten days, the bills having reached him to-day.

I suppose the sundry civil appropriation bill and the deficiency appropriation bill will undoubtedly receive the signature of the Execu-The only bill about which there is any doubt is the bill making appropriations for rivers and harbors, and we ought to be advised in some way, directly or indirectly, by some friend of the administration,

as to the probable fate of that bill.

Mr. GEORGE. Now, Mr. President-Mr. INGALLS. I was proceeding to Mr. INGALLS. I was proceeding to say, when interrupted by the Senator from Mississippi, that inasmuch as the only question of doubt is whether there is to be approval or disapproval of the bill making appropriations for the improvement of rivers and harbors, we ought not to be held here in a condition of uncertainty waiting for information as to whether that bill is to be signed or whether it is to be disapproved; and I trust that we shall have information that will enable us to act intelligently on that subject, because if that is done, then we can just as well adjourn at 4 o'clock this afternoon as at 10 o'clock to-night or 12 o'clock to-merrow.

Mr. ALLISON. Mr. President, I have no mysterious information respecting this matter. When the Committee on Appropriations reported 4 o'clock this afternoon as the hour of adjournment, we were informed by the enrolling officers of the House that the sundry civil bill and the deficiency bill would be enrolled by 10 o'clock last night and that they could be signed by the presiding officers of the two Houses if the two Houses remained in session, whereupon straightway the House of Representatives adjourned at 5 o'clock, making it impossible for those bills to reach the President last night, as they would have reached the President if the two Houses had remained in session until 10 or 11 o'clock. Thus the bills which were to go to the President last night or early this morning will reach him now about 1 o'clock to-day.

Mr. INGALLS. He has them now.

Mr. ALLISON. The Senator from Kansas has mysterious information that these bills have already reached the President.

Mr. INGALLS. The President of the Senate informed us ten minutes ago that they were then on their way to the White House

Mr. ALLISON. But the President has not informed us that they have arrived at the White House. I submit that the Senate has no information, other than mysterious information, that the President is now considering those bills. Speaking not for the committee, it seems manifest to me that courtesy to the President of the United States would justify us in allowing him an opportunity at least to turn over the leaves of those two bills and see whether or not he desires to sign them before we adjourn these two Houses without day.

For these reasons I suggested 10 o'clock to-night instead of 4 o'clock

this afternoon, to give a leeway of six hours; that is all.

Mr. INGALLS. The legislative, executive, and judicial appropriation bill was signed within a very brief space of time after it reached the President, because with his customary diligence and capacity for labor he had familiarized himself, we were informed, with the bill in its progress through the two Houses, and was therefore in a condition of information that enabled him to affix his signature promptly when the enrolled bill reached him, and I have no doubt that the same course will be taken with regard to the other two, and that we shall, if we make the necessary inquiry, be advised within an hour whether we can not as well adjourn at 4 o'clock this afternoon as at 10 o'clock this evening or at 12 o'clock to-morrow noon.

Mr. McMILLAN. Both the sundry civil bill and the river and harbor bill are still unsigned. They probably have not reached the ex-centive office yet, because they were only signed in our presence a few

minutes ago by the President of the Senate.

I feel a deep interest in the sundry civil bill; but it is of a character entirely different from the legislative and executive bill. The operatious of the Government are absolutely dependent upon the passage of the legislative bill. The President therefore, of course, had examined that bill fully before it arrived in its enrolled form at his office; but the sundry civil bill is not so essential to the operations of the Government, and I desire that that bill may be passed without any doubt before we agree to a time for adjournment.

Now, with reference to the sundry civil bill and the riverand harbor

the sundry civil bill here was more decided and the debate showed the sundry civil bill here was more decided and the debate showed more hostility upon the part of Senators to that bill than it did upon the final passage of the river and harbor bill. So the doubt existing as to the approval of the sundry civil bill I think is much greater than in regard to the river and harbor bill. Both are important to the operations of the Government, and I think we should give due time for them to receive the approval of the President.

Mr. EDMUNDS. We can get information a little later about this, and I move that the Senate proceed to the consideration of executive business. We shall know a little better how this matter stands in the course of an hour or two

course of an hour or two.

Mr. CHACE. I hope we shall not now go into executive session.
Mr. SAWYER. Let us pass this little bill first.
The PRESIDENT pro tempore. The Senator from Vermont moves that the Senate proceed to the consideration of executive business.
Mr. GEORGE. Will not the Senator from Vermont withdraw the

motion for a moment until we can get the political disabilities of a gentleman removed? It will not take a minute.

Mr. EDMUNDS. I must take the sense of the Senate on it. There

are some executive matters that require attention.

EXECUTIVE SESSION.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Vermont that the Senate proceed to the consideration of executive business.

The motion was agreed to; and the Senate proceeded to the consideration of executive business. After fifty minutes spent in executive session the doors were reopened.

J. R. EGGLESTON.

Mr. GEORGE. I move that the Senate proceed to the consideration of House bill 8192.

The motion was agreed to; and the Senate, as in Committee of the Whole, proceeded to consider the bill (H. R. 8192) to remove the political disabilities of J. R. Eggleston, of Mississippi.

The bill was reported to the Senate without amendment, ordered to a third reading, read the third time, and passed—two-thirds of the Senators present voting in the affirmative.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had passed the bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service, with amendments in which it requested the concurrence of the Senate.

The message also announced that the House had disagreed to the amendments of the Senate to the bill (H. R. 9798) making appropriations for fortifications and other works of defense, and for the armament thereof, for the fiscal year ending June 30, 1887, and for other purposes, agreed to the conference asked by the Senate on the said bill and amendments, and had appointed Mr. Forney, Mr. Randall, and Mr. Butterworth managers at the conference on the part of the House.

The message further announced that the House had passed the fol-

lowing bills:

A bill (S. 885) to relieve the State of Colorado from charges on account of ordnance stores furnished to the State and Territory; and

A bill (S. 2438) to authorize the Postmaster-General to allow compensation to railroad companies in certain cases for apartment service heretofore furnished pursuant to agreement.

ENROLLED BILLS SIGNED.

The message also announced that the Speaker of the House had signed the following enrolled bills and joint resolution; and they were there-

the following enrolled bills and joint resolution; and they were thereupon signed by the President pro tempore:

A bill (H. R. 3318) for the relief of Enols Loyd;

A bill (H. R. 3908) for the relief of John Ellis; and

Joint resolution (H. Res. 209) permitting the public building authorized by act of Congress approved June 13, 1886, at Savannah, Ga., to be located not less than 40 feet from any other building, instead of 50 feet, as provided in said act.

NEW ORLEANS, BATON ROUGE AND VICKSBURG RAILROAD GRANT. Mr. EUSTIS. I move that Order of Business 1857, House bill 3186,

Mr. EUSTIS. I move that Order of Business 1857, House bill 5186, be made a special order for the second Monday in December next.

The PRESIDENT pro tempore. The Senator from Louisiana moves that a bill the title of which will be read be made the special order for the second Monday in December next.

The CHIEF CLERK. "A bill (H. R. 3186) to declare a forfeiture of lands granted to the New Orleans, Baton Rouge and Vicksburg Railroad Company, to confirm title to certain lands, and for other purposes."

Mr. EDMUNDS. It must first be taken up, and then we will consider whether we shall make it a special order.

Mr. EDMUNDS. It must first be taken up, and then we will consider whether we shall make it a special order.

The PRESIDENT pro tempore. The Senator from Louisiana moves that the Senate proceed to the consideration of the bill.

Mr. INGALLS. By what committee was that bill reported?

Mr. EUSTIS. The Committee on Public Lands.

Mr. INGALLS. By what member of that committee?

Mr. HOAR. Your collection [Mr. PLYNE]

Mr. HOAR. Your colleague [Mr. PLUMB].

Mr. INGALLS. In the absence of my colleague I object to a disposition of measures coming from the committee of which he is chairman until we are advised of his wishes in the matter. Is the Senator from Louisiana a member of that committee?

Mr. EUSTIS. I am not. I have consulted the chairman of that committee and every other member of the committee that I know, and they have said that they have no objection whatever to my motion.

Mr. TELLER. I think there is no objection to the motion.

The PRESIDENT pro tempore. The Chair is of opinion that the motion is in order.

Mr. EDMUNDS. The first motion is to take up the bill.

The PRESIDENT pro tempore. The question is on the motion to proceed to the consideration of the bill referred to.

The motion was agreed to.

The PRESIDENT pro tempore. The bill is before the Senate as in Committee of the Whole.

Mr. EDMUNDS. Now I should like to know what the bill is. Let

it be read.

The PRESIDENT pro tempore. The Senator from Vermont asks for the reading of the bill.

Mr. TELLER. The title of the bill will give all the information.

Mr. HOAR. It is a land-grant forfeiture bill.

The CHIEF CLERK. "A bill (H. R. 3186) to declare a forfeiture of

lands granted to the New Orleans, Baton Rouge and Vicksburg Rail-road Company, to confirm title to certain lands, and for other purposes." Mr. EDMUNDS. I want to pass it now if it is all right.

The PRESIDENT pro tempore. Does the Senator insist on the read-

ing of the bill?

Mr. INGALLS. I understand that important amendments have been made in the bill as it came from the House, and I should like to

hear what they are.

Mr. TELLER. There are no amendments made to the bill at all.

It is a House bill, and the bill is reported to the Senate as it came to the Senate.

Mr. EUSTIS. It is a House bill reported without amendment.
Mr. INGALLS. Has not the Senate passed a bill on the same subject?
Mr. EUSTIS. Yes, sir.
Mr. INGALLS. I should like to hear the bill read.
The PRESIDENT pro tempore. The bill will be read.
Mr. HOAR. Before the bill is read I ask the Senator from Louisi-

Mr. EUSTIS. I hope there will be no objection whatever to the motion I make.

Mr. EDMUNDS. We will pass the bill, if it is right, when it is read. Mr. EUSTIS. I want it made a special order for an early day in the next session.

The PRESIDENT pro tempore. Nothing is in order until the bill is

Mr. INGALLS. One moment. The Senator from Colorado assures me that there has been no amendment. I am confident that there is some difficulty in the committee about that bill.

Mr. HOAR. There is a minority.

Mr. INGALLS. I think that there is either a disagreement on the

bill as it came from the House or two reports.

Mr. TELLER. If the Senator will just allow me—
The PRESIDENT pro tempore. The reading of the bill being demanded nothing is in order until it is read.

Mr. TELLER. I want to say a word before the bill is read. The

Senator from Louisiana does not desire to have the bill now considered.

Mr. PLATT. Why not?

Mr. PELLER. Because it will bring a long discussion before the Senate. The Senator from Nebraska [Mr. VAN WYCK] who joined with the Senator from Arkansas [Mr. BERRY] in his views on the bill also desires to have it deferred. I believe all of the committee have agreed that this is not a proper time to take up the bill for consider-

ation at this session. There are no amendments reported to the bill. It is a bill that will probably take two or three days when it comes up, and the suggestion of the Senator from Louisiana is to make it the order of business for a certain day at the next session, and no member of the

committee, I understand, objects to that.

Mr. EDMUNDS. Let the bill be read.

Mr. BERRY. I ask permission to say one word.

The PRESIDENT pro tempore. Debate is totally out of order pending a call for the reading of the bill.

Mr. BERRY. I heard the Chair so announce; but two Senators have addressed the Chair since.

Mr. COCKRELL. Let the bill be read, and then the Senator can debate it.

The PRESIDENT pro tempore. As soon as the bill is read the Chair will recognize the Senator from Arkansas with pleasure. The reading is insisted on.

The Chief Clerk read the bill.

Mr. BERRY. The bill was reported back by a majority of the Committee on Public Lands as it came from the House. The Senator from Nebraska [Mr. VAN WYCK] and myself, as members of the Committee on Public Lands, did not agree to the majority report from the fact

that it confirms the title of the railroad company to a large amount of these lands while it forfeits some others. We were unwilling to make that confirmation, and therefore, as a minority of the committee, we declined to agree to it. It is impossible, however, that it should be considered at this session, as it was only reported a few days ago. The Senator from Louisiana, as I understand, agrees to the view that the Senator from Nebraska and myself take of this question. Therefore I, together with all the rest of the committee, was willing that the bill

should be postponed until such time as it could be fairly considered.

Mr. EDMUNDS. Mr. President, this is a House bill. It is one of those House bills that through the newspapers have excited great public attention; and many or some of the leading newspapers have reproached the Senate of the United States for its delay in not passing this bill which came to the Senate on the 24th of July—not long ago to be sure—as being one of those land-grant forfeiture bills where there was to be restored to the people from the grasping avarice of corporations for public land. was to be restrict to the people from the grasping avaites of corpora-tions, &c., public land—a very good thing to do indeed. But on hear-ing this bill read and reading it myself, the error in the bill, to begin with, is the untruth of its title. It is a bill to cover up and secure in favor of a railroad company lands to which it is not entitled, while it calls itself a forfeiture bill and does forfeit some land that the company do not care anything about apparently. It confirms all the rest, and then provides that they shall have the benefit of this, and that the settlers are to be disposed of in one way and another.

All that I care about it now is to make the statement I have made for the benefit of whomever it may concern, as it appears on the face of this bill that its title is an entirely deceptive one and it is a bill to confirm a long since expired grant instead of a bill to forfeit it.

Mr. EUSTIS. I move that this bill be made the special order for

Mr. EUSTIS. I move that this bill be made the special order for the second Monday in December next.

The PRESIDENT pro tempore. Be postponed until that day?

Mr. EDMUNDS. Postponed and made a special order.

The PRESIDENT pro tempore. The Senator from Louisiana moves that this bill be postponed until the second Monday of December next and made a special order for that time.

Mr. EUSTIS. Law approach to the bill and I want it discussed.

Mr. EUSTIS. I am opposed to the bill and I want it discussed.
Mr. HOAR. I desire to inquire if this is a debatable motion?
The PRESIDENT pro tempore. The Chair is of opinion that it is a debatable motion.

Mr. HOAR. A motion to make a bill a special order-is that de-

The PRESIDENT pro tempore. A motion to postpone is debatable.

Mr. COCKRELL. I desire simply to say that I was not present at
the time this bill was considered by the Committee on Public Lands,
and I have not been able to read either the views of the majority or those of the minority, and while the question is now up I desire to state that I do not wish to be considered as indorsing the views of the majority, for I have not had time to consider them. I was compelled to be in conference at the time the bill was considered in committee,

nor have I seen the views of the minority.

Mr. BLAIR. I desire to make a similar explanation so far as my presence or knowledge of the action of the Committee on Public Lands on this bill is concerned. I do not desire at this time to express an opinion on the merits of the bill, for I am not acquainted with them.

Mr. TELLER. This is a matter that has probably had more exammar, TEHLER. This is a matter that has probably had more examination, more care, and more attention than any other public measure that has been presented to Congress for years. The Senator from Vermont rises and with great positiveness declares that this is a wrong grant which ought not to be made. I do not propose at this time to discuss that. It was the understanding that this bill was to go over. The principle of this bill had the careful attention of the Department for several years while I was Severally to the Interior and I issued the for several years while I was Secretary of the Interior, and I issued the patent myself, or at least had it done. The present Secretary of the Interior, after listening to argument for weeks, decided that the company were entitled to the patent for the remainder of the land, and this bill is for the purpose of giving them that land and protecting certain control of the land, and this bill is on the purpose of giving them that land and protecting certain

settlers in an agreement made with the railroad company.

But while I do not desire to take up the bill now, and the understanding with the Senators opposed to it was that it should not be taken up now, I do not intend to allow a statement of that kind from the Senator from Vermont to go into the RECORD without at least saying that I think I know as much about the bill as he does, and to say in fact that I do not think he knows anything about it at all.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Louisiana [Mr. Eustis].

The motion was agreed to, two-thirds of the Senators present voting in the affirmative.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the Speaker of the House of Representatives had announced the appointment of Mr. HEMPHILL as a manager on the part of the House on the bill (S. 335) to provide for protecting the interests of the United States in the Potomac River Flats in the District of Columbia, in place of Mr. REAGAN excused.

BEAUFORT LEE AND OTHERS.

Mr. HOAR. I move that the Senate proceed to the consideration of Order of Business 1720, being the bill (H. R. 8596) for the relief of Beaufort Lee and others, which was reported from the Committee on

Claims by the Senator from Arkansas [Mr. JONES].

Mr. PLATT. Let the bill be read for information.

The PRESIDENT pro tempore. The bill will be read for information. The bill was read, as follows:

Be it enacted, &c., That the Secretary of the Treasury be, and is hereby, authorized and directed to pay, out of any money in the Treasury not otherwise appropriated, the following specified sums to the persons herein named, for services rendered as laborers in the employ of the House of Representatives of the Forty-fifth Congress, namely:

To Beaufort Lee, the sum of \$180.

To Alexander Thomas, the sum of \$260.

To Charles Carter, the sum of \$260.

The PRESIDENT pro tempore. The question is on the motion to proceed to the consideration of the bill.

The motion was agreed to; and the Senate, as in Committee of the

Whole, proceeded to consider the bill.

Mr. INGALLS. Is there a report?

Mr. HOAR. There is a report, but I will state in two minutes what the case is. Some five or six years ago there was some trouble about the rolls kept by the Sergeant-at-Arms or Doorkeeper of the House of Representatives, and there were sixty days when none of those employés had their accounts allowed. Bills have been passed allowing every one of them at this session of Congress except these very small sums of poor colored laborers. They were on the roll and did the work, and are entitled to their money.

Mr. INGALLS. I should like to inquire why it was that if provision has been made for the other employés, by special or general bill,

these were omitted?

Mr. HOAR. It was a mere accident on the part of the Senator from

rkansas, who reported the others and did not report these. The bill was reported to the Senate without amendment, ordered to a third reading, read the third time, and passed.

POTOMAC RIVER FLATS.

Mr. INGALLS. I ask leave to make a report from the committee of conference on Senate bill 335.

The PRESIDENT pro tempore. The Chair will receive the report, and it will be read.

The Chief Clerk read as follows:

The Chief Clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (\$\overline{8}\), 335) to provide for protecting for interests of the United States in the Potomac River flats in the District of Columbia having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendments of the House numbered 1, 2, and 3, and agree to the same.

That the House recede from its amendment numbered 4.

JNO. J. INGALLS,
JAMES F. WILSON,
G. G. VEST,
Managers on the part of the Senate.

J.E. CAMPBELL,
JOHN J. HEMPHILL,
BENJ. BUTTERWORTH,
Managers on the part of the House.

The report was concurred in.

The report was concurred in.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had directed him to deliver to the Senate the message of the President of the United States returning Senate bill 2056 in response to the request of the two Houses of yester-

day.

Mr. ALLISON. Let that be reported.

The PRESIDENT pro tempore. The message of the President will

The Chief Clerk read as follows:

To the House of Representatives:

In compliance with a resolution of the House of Representatives of the 3d instant (the Senate concurring), I return herewith Senate bill No. 2056, entitled "An act to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service."

GROVER CLEVELAND. GROVER CLEVELAND.

EXECUTIVE MANSION, August 4, 1886.

The PRESIDENT pro tempore. The Chair lays before the Senate the message of the House of Representatives with respect to the same matter, which will be read.

The Chief Clerk read as follows:

IN THE HOUSE OF REPRESENTATIVES, August 3, 1886.

Resolved, That the Clerk be directed to request the Senate to return to the House the bill of the Senate (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service, with the following amendments: In line 5, page 1, strike out the words "or permanently;" and in line 10, page 1, strike out the words "or permanently."

Mr. SEWELL. I move that the Senate concur in the amendments made by the House of Representatives.

Mr. INGALLS. What is the effect of the amendments?

Mr. SEWELL. Practically nothing; simply to strike out words which are duplicated.

The amendments of the House of Representatives were concurred in.

EXTENSION OF IMMEDIATE-DELIVERY SYSTEM.

Mr. CHACE. I move to take up House bill 4865, Order of Business 1849, which is a bill to provide for the extension of the system of immediate delivery of letters.

The motion was agreed to; and the Senate, as in Committee of the Whole, proceeded to consider the bill (H. R. 4865) to extend the system for the immediate delivery of letters, and amendatory of sections 3, 4, and 5 of the act approved March 3, 1885, entitled "An act making appropriations for the service of the Post-Office Department for the

fiscal year ending June 30, 1886, and for other purposes.

Mr. PLATT. I should like to have an explanation of the bill.

There has been so much confusion in the Chamber during the reading

of the bill that I have been unable to follow it.

of the bill that I have been unable to follow it.

Mr. CHACE. I will endeavor to explain to the Senator, and I shall be glad to answer any questions which he may desire to put.

I wish to say that this bill is the unanimous report of the Committee on Post-Offices and Post-Roads, and that it has the entire approval of, and in fact it comes from, the Post-Office Department.

The provisions of the present law confine the operation of the immediate-delivery system to letters, and this bill extends it to any article that may now on through the mails.

that may now go through the mails.

There are a number of serious defects in the present law, one of which is the requirement that every post-office shall be kept open until midnight and that all letters bearing the 10-cent delivery-stamp must be delivered immediately. Oftentimes people are very much disturbed by the delivery at that hour of the night. There are many offices that are kept open at great expense. The provision of this bill allows the Postmaster-General to change those provisions at his discretion. The present law prohibits the employment of clerks in the post-office for the purpose of special delivery. This bill also removes that.

the purpose of special delivery. This bill also removes that.

Mr. PLATT. As to letters also?

Mr. CHACE. Yes. At present messengers are allowed 8 cents on each package delivered. This bill makes the postmasters responsible for the delivery of packages bearing the special stamp and allows them 80 per cent. of the gross receipts. It further authorizes the Postmaster-General to make contracts with individuals or messenger companies

in certain cities for the delivery of these packages.

But the most important amendment, the one which is especially called for by the public, is the provision that this system may be extended more widely. At present it applies to only about four hundred offices in the country. The people do not avail themselves of this special service so much as they would, in fact very little, for the reason that very few people know what offices are special-delivery offices; they are unable to tell, and if a man wishes to send a letter or a package or parcel he must look up the list and see whether the post-office district has 4,000 inhabitants or not, and it is almost impossible for him to tell.

Mr. MAXEY. Will the Senator from Rhode Island yield to me for

a moment?

a moment?

Mr. CHACE. Certainly.

Mr. MAXEY. One of the defects of the present law proposed to be amended by this bill is that where a party puts a 10-cent stamp on a letter for the purpose of securing immediate delivery, it may go to an office to which the delivery law now does not apply, and therefore he loses the benefit of what he has paid. If this bill passes, whenever a man puts a 10-cent stamp on he gets the benefit of it wherever the letter may go. It is the most beneficial feature of the whole bill.

Mr. CHACE. That was the point I was endeavoring to illustrate.

ter may go. It is the most beneficial feature of the whole bill.

Mr. CHACE. That was the point I was endeavoring to illustrate.

The other provisions of the bill in regard to the keeping of the accounts and the records and the penalties are not material. They are simply administrative. The Department find that it is absolutely necessary either to extend this system as is proposed by this bill or to abolish it altogether. It is believed that if it be extended as provided for in this bill it will be a source of very considerable profit to the Department

bill it will be a source of very considerable profit to the Department as well as a very great accommodation to the people.

Mr. PLATT. I should like to ask some practical questions with regard to the effect of this bill if it shall be passed. I understand that it provides for the delivery of every article of mailable matter upon which the sender may choose to have affixed the immediate-delivery stamp. Under that provision, I suppose that all packages of the weight of 4 pounds would fall within this bill. Now, suppose that two packages containing sad-irons, for instance, each weighing 4 pounds, should be sent to New York city with one of these stamps upon it to be delivered in the upper part of the city, is it supposed that the carrier is to take those two packages weighing 8 pounds, along with his letters, and deliver them in the upper part of the city as he delivers his letters on his regular rounds? regular rounds?

Mr. CHACE.

Undoubtedly.
It strikes me then that a carrier is pretty likely to be Mr. PLATT. loaded down, if this is to have any effect at all, with something like 100-pound packages, for it is not at all unreasonable to suppose that within a carrier's delivery in New York city there may at times be a hundred

pounds of mailable matter which he would have to lug about with his

letters to deliver.

I do not know but that it is all right, but it strikes me that if it is to have any effect at all it is going to necessitate a very large increase of the men who deliver matter from the post-offices in the large cities. I do not know but that in those cities you might contract for messenger service as is suggested here.

Mr. COCKRELL. That is what will be done, doubtless. Mr. CHACE. There is a provision in the bill for that now. Senator from Connecticut aware that the post-office is now liable to have to deliver 4 pounds of matter to a person in New York city without any extra pay whatever? Certainly I think if they can afford to deliver it for nothing they can afford to carry it for 10 cents extra.

Mr. PLATT. This contemplates a little different kind of delivery, as I understand it.

as I understand it.

Mr. CHACE. Not at all. In these great carrier offices the delivery service is constantly in operation.

Mr. PLATT. Certainly, if the committee contemplate nothing except what they are now obliged to do, there is no reason for the bill.

Mr. CHACE. Yes, but the Senator forgets that there are other provisions in this bill which make it apply to a great number of offices.

Mr. PLATT. I recollect to have heard in some cases of the increase

of pay for delivering mails in Western States; that where there had been a contract for a very small sum originally upon the supposition that the mail might have been carried on a pony, in a year or two the mail aggregated tons by reason of the innumerable packages which are transported in that way. Now, if I understand this bill—take one of these offices in the West to which very large amounts of merchandise are being sent; if they happen to have this delivery-stamp upon them and the offices are third or fourth class offices, then the clerks and assistants in the office have immediately got to start out, leaving the office to deliver these packages

I only suggest these things because it seems to me it is rather late in the session to consider a bill of this importance.

I think, and I do not hesitate to say it, that if we are going to adjourn at 10 o'clock to-night or 12 o'clock to-morrow, it is time to stop passing bills. There is no opportunity for the consideration of bills, and a bill of this importance it seems to me ought to receive careful consideration. I have made these suggestions quite as much because I believe we can not at this hour of the session pass upon bills intelligently and with the consideration that they ought to receive before passage, as because I have any particular objection to this bill.

Mr. CHACE. If the Senator from Connecticut objects to the passage

of this bill because he thinks there may be something in it that he does not understand, I can see that that is a reasonable position; but the point which he makes that a very large amount of this mail matter is going to be a burden is exactly in favor of the bill, for the larger the

amount the more profit for the post-office.

amount the more profit for the post-office.

This is a thing that the people are really demanding. They want it, and the Post-Office Department want it. The Postmaster-General, the First Assistant Postmaster-General, and the chief clerk are all urging it; and one of them has been at the Capitol this morning. They feel that this system either ought to be curtailed or enlarged.

Mr. MAXEY. I would suggest to the Senator from Rhode Island that this bill has been carefully considered by the House; it has been constilly considered by the Committee on Post-Offices and Post-Roads

carefully considered by the Committee on Post-Offices and Post-Roads of the Senate; and I know personally that the Postmaster-General believes it to be a bill of great interest to the service as well as to the

Mr. CHACE. And great profit to the Department.
Mr. COCKRELL. This bill has had, as I have been advised and have seen from the discussions in the newspapers and in the RECORD, full consideration in another branch of Congress, and has also received full consideration by the executive branch of the Government, and it is deemed by them an absolute necessity to perfect the system of special delivery already inaugurated, and without this added on to that the other may be a failure. It has been considered in the Senate by the Committee on Post-Offices and Post-Roads and reported favorably by them, and I hope it will be passed.

Mr. INGALLS. I understood the Senator from Rhode Island to

urge this bill in obedience to what he conceives to be a great popular demand. I am not a member of the Post-Office Committee, and of course my attention has not been specifically called to this measure; but in a general way I have understood, so far from there being a pophad called for this measure, that under the existing law the people had called for this service so sparsely, with so little regard for it that practically it had been a financial failure, that the receipts had been nothing like what had been anticipated. I know of one or two offices in which the service had been established where it became necessary to abandon it because the receipts were not enough to pay the messenger boys for their services in carrying the letters that were stamped for

special delivery.
I wish if the Senator from Rhode Island has any statistics on this subject as to the practical operations of this law during the past year he would advise us as to them.

Mr. CHACE. I can answer the Senator from Kansas in one minute. Mr. CHACE. I can answer the senator from Kansas in the infract. He is entirely mistaken. I am advised that this system paid its expenses and \$22,000 profit the first four months of its operation; and the Senator from Kansas should remember that it is scarcely in operathe Senator from Kansas should remember that it is scarcely in operation yet. I know from my own personal knowledge that there is a demand, that the people realize and appreciate that it is a valuable class
of service and they want it extended, and in fact unless it is extended
it never can fully answer the purposes intended.

Mr. INGALLS. If during the first four months of the establishment
of this service it not only paid all expenses but \$22,000 surplus, why
does the Secutor way that appless was monthly the index of the service.

does the Senator say that unless we amend the law it is in danger of

Mr. CHACE. Because the people have begun to use it, and as it is more used they find that it does not answer the purpose they want. The use of it in certain cities is liable to be abandoned, because people say, "We buy these special stamps, and they are no use for certain places," and they do not want them unless they can use them wherever they please. The Senator can see that if 2-cent postage was only good for certain places, and at certain other places you could not use it; you might use it in the first place, but when you found it did not apply to the whole country you would abandon the use of it.

Then, also, the operation of the law in the first place was under the impression that it extended very widely. The people found out after a while that it did not, and that only showed very plainly what would be the practical financial result if it were extended, as it is proposed to

be by this bill.

Mr. INGALLS. Then I understand that the first answer of the Senator from Rhode Island to my interrogatory was a little illusory, that whereas he stated to me that during the first four months this system had paid expenses and \$22,000 besides, he now intimates that since the first four months the people have not patronized it and it has not paid at least so large an excess as it did during the first four months. He states that in consequence of the fact that the system was not extended over the entire country, that every office was not made a special-

delivery office, the people have begun to relinquish it. Am I correct?

Mr. CHACE. Not at all. The Senator is about as correct as he usually is when he attempts to quote me. What I said and what I say is that the first four months paid that profit.

Mr. INGALLS. What has it paid since that time?
Mr. CHACE. The Senator will please to remember that this thing has not been in operation a year yet.

Mr. INGALLS. How much has it paid since the first four months?

Mr. CHACE. The returns are not in.

Mr. INGALLS. Is there anything in since the first four months? It only went into operation on the 1st of last October. Mr. CHACE.

Mr. INGALLS. The Senator certainly has some information.

Mr. CHACE. I have no figures.

Mr. INGALLS. They do not make reports by four months in the Post-Office Department; they report by quarters; and the statement of the Senator from Rhode Island that the first four months showed a surplus of \$22,000 above the expenses, and the fact that he declines to state what the condition of the service is since the first four months, excite a little suspicion, to say the least, that there is something that is not disclosed; and while the Senator from Rhode Island is a little brusque in intimating that I am never successful in quoting him correctly, I always endeavor to do it, and I wish he would be good enough now to depart from his reserve, from that diplomatic caution which characterizes his utterances, and inform us what the result of this service has been since the first four months.

Mr. CHACE. Well, I will endeavor to enlighten the Senator from

Kansas if it is possible.

Mr. INGALIS. That is hardly possible, but still you might make

Mr. CHACE. It is not possible when the Senator closes his eyes and his ears and his intellect. Let me instruct him if he will listen with

child-like simplicity for a little while.

This bill originated in the Post-Office Department. It was introduced into the other House at the desire of the Department. At the time it was introduced these figures were specially made up for the purpose of enlightening the legislative department in regard to it. Since that time there have been no figures made up, and there has been no reason why they should be made up, diplomatic or otherwise; and I desire to inform the Senator from Kansas that I am in no sense diplomatic, that I have nothing to withhold or disguise, that he is welcome to all the in-formation I have or that anybody else has that I am aware of, and he

There is no reason why the other figures have not been forthcoming except those reasons which it seems to me are very patent and plain on the face. The fact is that this system has been but partially tried, and the indications are that if it be extended it will be an eminent success; and the people want it extended, and the Post-Office Department want it extended and believe that it will not only be a very great accommodation to the public, but a source of profit and revenue to the

Mr. McMILLAN. I desire to ask the Senator from Rhode Island a question in regard to this bill. I would like to ask the Senator from

Rhode Island whether there is a provision in this bill which makes postmasters insurers of merchandise passing through the mails?

Mr. CHACE. I am not aware that there is anything of the kind.

Mr. McMILLAN. I understood, in the statement of the substance of the bill, the Senator from Rhode Island to say that postmasters were responsible for the goods with the special stamp on them.

Mr. CHACE. I do not remember saying anything of that kind. Mr. McMILLAN. I should like to know whether that is so or not. I understood the Senator to say that they were entitled to eight-tenths of the mail charge.

Mr. CHACE. Eight-tenths of the receipts from special delivery. Mr. PLATT. The bill says:

The postmaster shall be responsible for such immediate delivery of every such article.

Mr. CHACE. That applies to the delivery, not to the matter itself. Mr. INGALLS. How can it apply to the delivery and not to the article? How can there be a delivery that is independent of the article to be delivered? The Senator from Minnesota inquires whether or not there is any special guarantee or insurance by the postmaster of merchandise sent through the mail, and the Senator from Rhode Island advises us that the postmaster or his assistants receive eight-tenths of the special-delivery money for the safe delivery of the articles that are sent through the mails thus stamped, and he states that the postmaster is only responsible for the delivery and not for the article, because if there is not any article there can not be any delivery, and if the article is delivered that is the end of it. It seems to be rather a metaphysical distinction about making him responsible for the delivery of the article, but not for the article itself.

Mr. CHACE. Is that all?
Mr. INGALLS. That is not all. It is all just now.
Mr. CHACE. That is decidedly metaphysical. The postmaster is responsible in this case exactly as he is responsible now, no more and no less. That responsibility applies to the act of delivery and not to liability for the value of the article. It has no such intention and no such operation.

Mr. SEWELL. I wish to ask the Senator a question, as I have not had time to read the bill. It extends the special-delivery system, as I

understand?

Mr. CHACE. That is the principal object of the bill.
Mr. SEWELL. Was not the original law confined to letters?
Mr. CHACE. Certainly; it was confined to letters and confined to a few offices

Mr. SEWELL. Has the committee made any estimate of what the delivery of fourth-class packages may amount to in a city like New York, Boston, Philadelphia, or Chicago, where deliveries are made under this system immediately? It seems to me that you will not only deliver the mail, but you will deliver express matter, and that you will require one hundred wagons in the city of New York alone to carry out this bill if it becomes law.

Mr. CHACE. My friend from New Jersey will understand very well, because he is a transportation man, that he would not hesitate a min-

net to get 10 cents for delivering 4 pounds if he has to deliver them now for nothing. That is the way it is.

Mr. SEWELL. But now those bulky matters are kept for the next day's delivery; but here you make it obligatory on the postmaster at New York to send out messenger mail-service with 4-pound packages. You must have one hundred wagons in the city of New York within a year.

a year.

Mr. McMILLAN. It seems to me from the language of this bill that the postmaster is liable for the goods until they are delivered, after they come into his possession. This bill imposes upon him all the liability of a common carrier and insurer of the goods and that of a public officer. These are public officers and not private carriers, and it makes no difference what compensation you give them. I have not had an opportunity of reading the bill, but it seems to me from the statement of the contents of the bill by the Senator from Rhode Island that that would be the effect of it.

Mr. CHACE. Before I reply to that I wish to respond a little further to the Senator from New Jersey, and it seems to me that his objections will be pretty fully answered when I say to him that I am advised by the Department that in these large delivery cities there are now parties who are offering to deliver all these packages for 5 cents,

one-half of the price of the stamp.

Mr. EDMUNDS. May I ask the Senator from Rhode Island a ques-

Mr. CHACE. Certainly, with great pleasure.
Mr. EDMUNDS. I ask the Senator from Rhode Island what he thinks this clause in section 1, beginning with the words "the postmaster" in line 13, and so on, means, as it respects the liability of the

The postmaster shall be responsible for such immediate delivery of every such article, and shall cause delivery to be made of all such articles received at his office bearing such stamp and entitled to delivery thereat.

That would seem to imply without any refinement that it is the duty of the postmaster to send out these articles, any mail matter, 4-pound packages, packages of money or anything else that may be sent to the people to whom they are addressed. Now, my question is whether in passing this law we shall not relieve every bendsman of every postmaster in the United States from any further liability on the bond until a new one is made under this law, as it regards any defalcation under that?

Mr. CHACE. That is a question which I can not answer. The Senator from Vermont is quite as competent to answer it as I am. But I should like to address myself to the Senator from Minnesota. If he will read that provision again in lines 13 and 14 and a part of line 15, he will see that that responsibility is for the immediate delivery, for the action, for the performance of the service. It is not intended in any sense to apply to responsibility for the value of the article. It may not be carefully drawn in that respect, however.

Mr. EDMUNDS. Suppose a boy loses it on the way?

Mr. McMILLAN. Suppose it be necessary, as in large cities, to intrust the delivery of these articles to messengers, and upon the road the articles are lost and not delivered, is not the postmaster responsible for the non-delivery, and is he not responsible for the value of the goods? That would be the measure of damages; and that is a responsibility imposed upon a public officer. You are making them private insurers of the goods. I do not think that should be done in the case of a public

If a man wants to go into the transportation business and become a common carrier he can make his charges and assume his responsibilities, but these officers in all the large cities in the country will be compelled to take their offices with this responsibility. In that view, of course the suggestion of the Senator from Vermont would follow, that it is a new obligation imposed upon these officers, and that it would be a release of the bondsmen in the case until a new bond was given.

Mr. CHACE. I ask the Senator if that is not the case in reference

to any new obligation you put upon them?

Mr. McMILLAN. This is a disbursement obligation imposed upon

them. It is not merely a new duty.

Mr. SAULSBURY. Mr. President, as a member of the Post-Office Mr. SAULSBURY. Mr. President, as a member of the Post-Office Committee, I was not in the committee when this bill was considered Committee, I was not in the committee when this bill was considered and finally acted upon. In looking over the provisions of it I think it a very simple, plain bill. The object is very apparent. It is to extend the delivery system, so far as articles bearing the stamp required by this actare concerned, to cities and towns which are not now favored with a free-delivery system. That is one of the objects of the bill. The provisions of the bill are that where there is a free delivery articles specially stamped, as required by law, may be delivered by the postmaster of the place within the limits of the delivery, and in towns and cities where there is no free delivery they may be delivered within the limit of 1 mile from the place by having a 10-cent stamp attached.

the limit of 1 mile from the place by having a 10-cent stamp attached. There are a great many persons who desire to secure the speedy delivery of matter which they send through the mail, and they are willing to stamp it in order to secure the immediate delivery not only in the cities which have a free delivery but in the towns which have not a free

One of the objects of this bill is to secure to the patrons of an office not now favored by a free delivery the certainty of an immediate delivery of the articles which are sent to the particular office which is not now favored by a free delivery, so that the beneficial effects of the bill will be to secure to smaller towns than are now favored with a free delivery the certainty of having certain specified articles delivered which the sender may desire to have immediately delivered, and it proposes that the postmaster of the place shall deliver such an article immediately, and the proper compensation is provided for it in the bill. That is one of the objects.

The suggestion of the Senator from Vermont that that would not be included in the bond of the postmaster, and consequently that there would be no obligation upon his securities on the present bond for the performance of the additional duty added, may depend entirely upon the condition of the bond itself. If the bond provides that he shall be responsible for the acts and for the duties of his office under existing

law or under law which may hereafter be enacted imposing these duties, then his sureties would be liable.

Mr. EDMUNDS. There is not any such law as that.

Mr. SAULSBURY. If there is not, then before the Postmaster-General establishes such a service as that he can require an additional bond, as is done in many other offices. The laws in reference to internal taxation have been altered since they were first adopted. I remember on one occasion where I was connected with a suit I raised the point that the sureties—for I was defending the sureties—were not responsi-ble except for the duties imposed by law at the time they entered into the obligation; and upon a full examination of that question I am satisfied that where the obligations of sureties are assumed under an existing state of the law they can not be extended by implication. But how easy a mattter it is for the Postmaster-General when he establishes these special-delivery offices to require the postmaster at such a place to give an additional bond for the performance of that duty. There is no difficulty in that, and I am sure the Postmaster-General would act upon that idea and compel the postmaster to enter into a special obligation for the performance of the additional duty which is imposed upon him.

The question is a simple one, whether you will extend to towns which are not now favored by a free delivery the provisions of this bill so that articles bearing the stamps shall be immediately delivered, where the senders of the articles desire an immediate delivery; and without such a law they will lie in the post-offices in those towns until they are called for.

Some of them, perhaps not where there is a special delivery, are de-livered now by the letter-carriers, but the objection has been raised by the Senator from New Jersey that it would so burden the carriers of letters that there would have to be one hundred wagons, for instance, in the city of New York. That would make no difference if the service paid the postmaster, and he gets a part of the compensation; it would in-

But there is another provision in the bill providing that in the city of New York, for instance, the Postmaster-General is not bound to require of the postmaster at New York to enter into this obligation to There is a special provision in the bill which provide

Mr. PLATT. If the Senator will permit me to interrupt him, just what I wanted to call attention to is that provision in lines 27, 28, 29, and 30 of section 1. Does he understand that that provision means that the Postmaster-General may in his discretion except a free-delivery office from the service entirely, or simply from the provision which requires the delivery to be made by the carriers?

Mr. CHACE. The language is very plain, and it applies specially to delivery. It shows that the foregoing part of the section is intended to apply to delivery.

Mr. PLATT. Let me make myself clear, because I ask for information. The proviso is:

That the Postmaster-General may, in his discretion, direct any free-delivery office to be excepted from the foregoing provision, and require the delivery to be made entirely by special messengers, according to the provisions of the act to which this is amendatory.

If I understand it, he could not except the post-office in New Yorks for instance, from the delivery of these articles, but could simply except that office from having them delivered by the carriers; and unless he does make that exception the immediate delivery is to be by carriers, and they are to drop their letter business and deliver these packages immediately.
Mr. CHACE.

That proviso refers back to the other provision that the Postmaster-General may make a contract with any individual or with any company for the delivery of these packages; and in that case,

if he should make a contract—
Mr. PLATT. That does not go before. That is subsequent to the proviso.

Mr. CHACE. But the proviso above here is that the postmaster shall be responsible for the delivery, but shall not be responsible if a contract is made with a company or with private individuals; and to make him responsible in that case would be unreasonable.

The bill was reported to the Senate without amendment, ordered to

a third reading, read the third time, and passed.

WILLIAM HUNTINGTON.

Mr. DOLPH. I move that the Senate proceed to the consideration of the bill (H. R. 2918) for the relief of William Huntington.

Mr. EDMUNDS. Let the bill be read for information first.

The PRESIDING OFFICER. The bill will be read for information.

The Chief Clerk read the bill, as follows:

Beit enacted, &c., That the Secretary of the Treasury be, and he is hereby, authorized and directed to pay William Huntington, formerly marshal of the United States for the Territory of Washington, out of any money in the Treasury not otherwise appropriated, the sum of \$1,064.11, the same being a balance found due him from the United States on the judicial determination of two suits instituted against said Huntington and his bondsmen, in the district court of the second judicial district of Washington Territory, by the United States.

The PRESIDING OFFICER. The question is on the motion to proceed to the consideration of the bill.

The motion was agreed to; and the Senate, as in Committee of the Whole, proceeded to consider the bill.

Mr. COCKRELL. Is there a report accompanying the bill?

Mr. EDMUNDS. I should like to hear the report read.

The PRESIDING OFFICER. The report will be read.

The Chief Clerk read the following report, submitted by Mr. Dolph June 30, 1886.

June 30, 1886:

The Committee on Claims, to whom was referred the bill (H.R. 2918) for the relief of William Huntington, having examined the same, make the following

relief of William Huntington, having examined the same, make the following report:

This claim was considered by the House Committee on Claims, and was favorably reported (Report No. 734) at the present session.

Your committee adopt that report, which is as follows:

The Committee on Claims, to whom was referred the bill (H. R. 2918) for the relief of William Huntington, have had the same under consideration, and submit the following report:

That they find that William Huntington was marshal of Washington Territory from 1862 to 1870; that a dispute arose as to the items charged against the United States Government by him, and a large amount of these were disallowed as not payable from the judiciary funds; that he and his bondsmen were sued by the Government for balance due after the deduction of these disallowed items; that there were two bonds, and that one of said bonds was dated April 25, 1862, the other October 16, 1865; that suit was brought upon each in the district court of the second judicial district of Washington Territory, holding terms at Vancouver; that said suits were referred to a referce for an accounting between the parties, who found and reported that said Huntington was entitled to

an allowance under the bond of 1862 of \$8,386,22, and to an allowance under bond of 1866 of \$4,667.10.

Total amount of allowances.
The balances for which suits were instituted were as follows:
Amount under bond of 1882. \$4,615-56
Amount under bond of 1886. 7,373-67

11,989 23

Excess of allowances over said balances.....

Mr. EDMUNDS. This is not a large amount, but I think it is following a dangerous precedent, if the case referred to is a precedent, and will make a dangerous precedent of itself. If the United States is to have its liabilities determined by a referee in the Territory of Washington or any other Territory, appointed by a Territorial judge, who might declare that it was found that the United States owed the marshal or anybody else who had been sued on his bond \$100,000 just as well as \$1,000, I think there is very great danger to the public interest

and the safety of the Treasury.

This man, according to the decision of the accounting officers of the Treasury, was in default. He was sued, and the matter was sent to a referee instead of being tried by a jury. The referee found that on his construction of the law the marshal had a balance due to him of \$1,064.11. The ground upon which this report goes is that the accounting officers of the Treasury recognized the propriety of that finding by closing his accounts. I think there is an error. They did not recognize it, but they were bound by it, and the United States was, so far as it regarded the United States, being defeated in that suit; and the United States had no further claim upon this man, and his accounts in the Treasury must be closed. It was precisely as if a jury had found that he did not owe anything to the United States, and then of course the books would be balanced, unless the United States brought a writ of error, and then the final judgment would end it.

But the law has never given, and nobody claims that it has given, a jury or referee or anybody else the right in a suit on an official bond to hear a plea in offset and allow a balance to be recovered against the United States. That is a matter on all cases of this kind for the Court of Claims, where redress can be had, not before one referee but before a court of five judges, whose findings and opinions are subject to review by the Supreme Court of the United States if adverse to the interests of the United States.

To say that because this Territory of Washington referee has found a balance, as he states the accounts, of a thousand dollars in favor of this man, and that therefore he must be paid without any reinquiry by

any committee of Congress into the subject of those accounts, and without any information from the Treasury Department as to how it happened that this referee found that sum, and if he did find it in 1870 or 1871, when it appears this suit was brought fifteen years ago, why this gentleman did not then bring his suit in the Court of Claims for the balance of the claim found due him, or why some appropriation bill did not contain an item to reimburse him for this excess of expenditure, if he was entitled to reimbursement, needs explanation.

I should hope, therefore, that we shall not make any more precedents of this kind, taking it as absolutely conclusive, as this House report does, without any other evidence as it is stated than the finding of this referee against the United States. It does not appear to me that it is

a wise or a safe thing to do.

Mr. DOLPH. The examination and the allowance of the payment of claims by Congress upon ex parte affidavits is a very unsatisfactory method of doing it. We have heard a great deal about the propriety and the necessity of some general law which would send all these claims to the courts. For one, when I get a case upon the Committee on Claims in which the matter has been investigated by a competent court who have had all the facts before them with an opportunity to take testimony for and against the claimant and to pass deliberately upon the question of fact and of law, and then come to a conclusion, I feel some sort of assurance that there is merit in the claim.

At the first session of the Forty-eighth Congress it will be recollected that I opposed a report from the Committee on Claims to pay something like \$7,000 to a Mr. Call, of Florida, who had been surveyor-general of the State of Florida, or register or receiver of the land office there. In that case the question went to the jury, and the jury had found in favor of this gentleman, who had been sued by the Government, for an amount sufficient to cover his alleged indebtedness to the Government and leave a large balance due him. something like \$7,000. I was not satisfied a large balance due him, something like \$7,000. I was not satisfied that the jury was right or that there were merits in the claim. largely for services performed by that officer, and I did not believe the services had been authorized by law; but the Senate by a large majority—I think by a three-fourths vote—passed the bill, as large as the sum was, against my protest.

In this matter this claimant was marshal of the Territory from 1862 to 1870, a period of eight years. Evidently his accounts were not in very good shape. The country was new, there were probably few precedents for the statement of his accounts, and there were large disallowances, and suit was brought upon his bond. The suit was brought before a referee, and re-examined by a judge of the court. I do not consider that there is any difference in such a case whether it be the judge of a Territory or the district judge of a district in a State. The fact is that the accounts were available that the accounts were available that the accounts were available to the reference made his that the accounts were examined, the referee made his report, the judge of the court re-examined the case, and judgment was rendered, and the amount claimed here, \$1,064.11, was found due the claimant. That was many years ago.

He came to Congress afterward. This matter has been pending be-fore Congress for years. At the first session of the Forty-eighth Con-gress I offered an amendment to the deficiency bill, and advocated it upon this floor, and according to my present recollection it came very near passing the Senate, to pay this man this sum by an appropriation in the deficiency bill. It has been examined by the Judiciary Committee of the House, who have reported in favor of it. The claim has been examined again at the present session by the House Committee on Claims and they have reported in favor of it; and it has passed the scrutiny of the Senate Committee on Claims.

Mr. EDMUNDS. There were no papers. They only took this statement. They did not call upon the Treasury Department, so far as

Mr. DOLPH. We all know the condition of the accounts of a public officer like the marshal of a State or a Territory. We know that a claim like this is made up of a large number of small accounts, and it would be utterly impossible now for a committee of Congress to go through the papers and make such a review of the action of the referee or of the court. As I said before, I think a committee of Congress is especially qualified when they have a case before them where the claim has passed such a judicial scrutiny.

This is an old man. He will not live many years. If he is to be paid this claim against the Government and it is to do him any good, he must receive it soo n. I hope the bill will pass, and that the claim will be paid.

The bill was reported to the Senate without amendment.

The PRESIDING OFFICER. Shall the bill be ordered to a third reading? [Putting the question.] The noes seem to have it.

Mr. DOLPH. I call for the yeas and nays.

Mr. EDMUNDS. Yes, let us have the yeas and nays.

Mr. TELLER. Let us take the vote by yeas and nays on the pas-

sage of the bill.

Mr. EDMUNDS. We might just as well take them on the third reading.

The yeas and nays were ordered.

Mr. HOAR. Let the title of the bill be read again. I was not present when it was taken up.

The CHIEF CLERK. "A bill (H. R. 2918) for the relief of William

Huntington."

The PRESIDING OFFICER. The Secretary will call the roll on ordering the bill to a third reading.

The Secretary proceeded to call the roll.

Mr. SAULSBURY (when his name was called). I am paired with the Senator from Vermont [Mr. MORRILL].

Mr. WALTHALL (when his name was called). I am paired with
the Senator from Wisconsin [Mr. SPOONER].

The roll-call was concluded.

Mr. PLATT. I am paired with the Senator from South Carolina [Mr. HAMPTON].

The PRESIDING OFFICER (Mr. MANDERSON). The occupant of the chair will state that he is paired with the Senator from Kentucky

[Mr. BLACKBURN].

Mr. KENNA. I am paired with the Senator from Minnesota [Mr. Sabin]. Mycolleague [Mr. Camden] is paired with the Senator from Rhode Island [Mr. Aldrich].

Mr. BECK. I desire to appropries my pair with the Senator from

Mr. BECK. I desire to announce my pair with the Senator from Maine [Mr. HALE] on nearly all matters when he is absent. Mr. HOAR. I hope the Senator will vote. There are a few want-

ing of a quorum.
Mr. BECK. I vote "yea,"

The result was announced-yeas 27, nays 11; as follows:

	YE.	AS-27.	Y
Beck, Blair, Call, Conger, Cullom, Dawes, Dolph,	Gibson, Gray, Harrison, Hawley, Hearst, Hoar, Ingalls,	Jones of Arkansas, McMillan, Mahone, Miller, Mitchell of Oreg., Palmer, Plumb,	Sewell, Sherman, Stanford, Teller, Voorhees, Wilson of Iowa.
	NA.	YS-11.	
Allison, Berry, Chace,	Cockrell, Colquitt, Edmunds,	Harris, Maxey, Vest.	Whitthorne, Wilson of Md.
	ABSI	ENT-38.	
Aldrich, Blackburg. Bowen, Brown, Bruler, Camden, Cameron, Coke, Eustis, Evarts	Fair, Frye, George, Gorman, Hale, Hampton, Jones of Florida, Jones of Nevada, Kenna, Logan,	McPherson, Manderson, Mitchell of Pa., Morgan, Morrill, Payne, Pike, Platt, Pugh, Ransom,	Riddleberger, Sabin, Saulsbury, Sawyer, Spooner, Vance, Van Wyck, Walthall.

The PRESIDING OFFICER. No quorum has voted.

Mr. KENNA. I shall vote to make a quorum. Mr. EDMUNDS. The roll will have to be called again.

The PRESIDING OFFICER. There will have to be another call of the roll.

Mr. EDMUNDS. Call the roll of the Senate. The rule requires that the roll shall be called.

The PRESIDING OFFICER. The Secretary will call the roll of the

The Secretary called the roll, and the following Senators answered to their names:

Allison,	Dolph,	Kenna,	Sawyer,
Beck,	Edmunds,	McMillan,	Sewell,
Berry,	George,	Mahone,	Sherman,
Blair,	Gibson,	Manderson,	Stanford,
Butler,	Gray,	Maxey,	Teller,
Call,	Harris,	Mitchell of Oreg.,	Vest,
Chace,	Harrison,	Palmer,	Voorhees,
Cockrell,	Hawley,	Platt,	Walthall,
Colquitt,	Hearst,	Plumb,	Whitthorne,
Conger,	Hoar,	Pugh,	Wilson of Iowa,
Cullom,	Ingalls,	Riddleberger,	Wilson of Md.
Dawes,	Jones of Arkansas,	Saulsbury,	

The PRESIDENT pro tempore. Forty-seven Senators have answered to their names. If there be no objection, the question recurs on ordering the bill to a third reading.

The Secretary called the roll.

Mr. MANDERSON. I am paired with the junior Senator from Ken-

tucky [Mr. BLACKBURN].
Mr. PLATT. I am paired with the Senator from South Carolina [Mr. HAMPTON].

The result was announced—yeas 34, nays 9; as follows:

YEAS-34. Beck, Blair, Brown, Butler, Call, Conger, Cullom, Dawes Spooner, Teller, Voorhees, Walthall, Whitehorne Evarts, Gibson, Gray, Harrison, Kenna, McMillan, Mahone, Mitchell of Oreg., Hawley, Palmer, Hearst, Plumb, Hoar, Sawyer, Ingalis, Sewell, Jones of Arkansas, Sherman, Wilson of Iowa, Wilson of Md. Dawes, Dolph, NAYS-9. Allison, Cockrell, Coke, Edmunds, George, Harris. Maxey. ABSENT-33. Mitchell of Pa., Morgan, Morrill, Payne, Pike, Platt, Pugh, Ransom, Riddleberger, Sabin, Saulsbury, Stanford, Van Wyck, Gorman, Hale, Hampton, Jones of Florida, Jones of Nevada, Blackburn. Blackburr Bowen, Camden, Cameron, Colquitt, Eustis, Logan, McPherson, Manderson, Miller, Fair.

So the bill was ordered to a third reading. The bill was read the third time, and passed.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the Speaker of the House had signed the fol-lowing enrolled bills and joint resolution; and they were thereupon signed by the President pro tempore:

A bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service;

A bill (S. 2438) to authorize the Postmaster-General to allow comensation to railroad companies in certain cases for apartment service heretofore furnished pursuant to agreement;

Abill (H. R. 8192) to remove the political disabilities of J. R. Eggleston, of Mississippi; and

Joint resolution (H. Res. 160) to authorize the Commissioner of the General Land Office to cause 15,000 copies of the map of the United States and Territories to be printed.

ADJOURNMENT SINE DIE.

Mr. PLUMB obtained the floor.

Mr. ALLISON. The Senator from Kansas yields to me that I may now call up the adjournment resolution.

The PRESIDENT pro tempore. The Senator from Iowa moves that the Senate proceed to the consideration of the adjournment resolution which will be read.

The Chief Clerk read as follows:

Resolved by the House of Representatives (the Senate concurring), That the President of the Senate and the Speaker of the House of Representatives declare their respective Houses adjourned sine die—

As proposed to be amendedat 10 o'clock p. m. August 4.

The PRESIDENT pro tempore. The question is on agreeing to the amendment. [Putting the question.] The ayes have it, and the amendment is agreed to.

Mr. KENNA. We should not have the resolution disposed of hastily. There are a number of very important matters which require consideration. I trust the Senate will not at present agree to fix the hour at which we shall adjourn finally. We have sent to-day to the President of the United States bills which he could not read in three days to save his life, among them the river and harbor bill, which would require him a day of hard labor, if he examined it minutely, to go through it. I do not know that he wants an hour; I do not know but that he may want three days or five days; but I trust the resolution will not be hastily disposed of. will not be hastily disposed of.

Mr. McMILLAN. I hope the Senate will not now fix the hour of

final adjournment,

Mr. COCKRELL. I did not know that the resolution was to be acted upon. I supposed that it was an entirely different resolution which was before the Senate. Let it be read again, and let us now see when the Senator from Iowa has placed the hour of adjournment. It has been already changed twice by the Appropriations Committee.

The PRESIDENT protempore. The resolution will be again read.

The resolution was read.

The PRESIDENT pro tempore. The amendment has been agreed to.

The Chair submitted the question.

Mr. CONGER. Is that subject to a point of order as being offered to-day?

Mr. GIBSON. I move to insert 12 o'clock, meridian, August 5.
Mr. CONGER. I ask if the resolution is not subject to a point of order if introduced now.

The PRESIDENT pro tempore. It is not. The resolution was reported some days ago. It is not open to the point of order.

Mr. CONGER. It is not a new resolution?

The PRESIDENT pro tempore. It is the same resolution which has been pending for several days. The question is on agreeing to the resolution as amended.

Mr. CONGER. I ask that the consideration of the resolution be

Mr. McMILLAN. I hope the Senator from Iowa will withdraw the

resolution for the present, and leave it without any action upon it.

Mr. COCKRELL. I rise to a question of order. I ask the Chair
whether he has announced that the amendment was agreed to?

The PRESIDENT pro tempore. The Chair did announce that the
amendment was agreed to. If there is doubt about it, the Chair will

again submit the question on the amendment.

Mr. COCKRELL. I hope it will not be considered as agreed to, because I do not think half the Senate knew that the resolution was being

acted upon at the time. The PRESIDENT pro tempore. The Chair will consider the amend-

ment as pending.

Mr. HOAR. I should like to know if the Executive is at the Capitol, as has been the usual courtesy of the Presidents of the United States since the foundation of the Government I suppose, where he can be communicated with on this subject.

Mr. COCKRELL. I have not been in the President's room. Mr. SEWELL. I understood from the Secretary of War, who was

here this morning, that the President would be here this evening. Mr. HOAR. He is not here now?

Mr. SEWELL. He is not, because he has no knowledge that the proposed adjournment will take place.

Mr. HOAR. We had b fore we finish this matter. We had better wait until he comes to the Capitol be-

Mr. CULLOM. If we are going to adjourn this session at all, it seems to me that we ought to fix a time. If we are not going to fix a time let us take up the Calendar and go to work in regular business as though we meant to legislate deliberately. It seems to me that this mode of procedure is entirely out of character. We are picking up

things here and considering them for a little while and then taking up

a resolution for adjournment.

Everybody understands that we are going to adjourn to-night or tomorrow at the outside, and yet we can not get a resolution passed on the subject. If we can not adjourn to-night, let us agree to adjourn to-morrow, and fix some time, so that we shall know whether we ought to deliberately go to work and legislate or whether we ought simply to wait and understand whether the President wants us to stay here longer or not. It seems to me from what I have heard intimated that the President is ready to let us go home, and if he is I should certainly

like to go pretty soon.

The PRESIDENT pro tempore. The question is on the amendment of the Senator from Iowa fixing the hour of adjournment at 10 o'clock

this evening. [Putting the question.] The ayes appear to have it.
Mr. McMILLAN. I ask for the yeas and nays.
Mr. CONGER. Mr. President, will you state the proposition again?
The PRESIDENT pro tempore. The question is on agreeing to the amendment of the Senator from Iowa fixing the hour of adjournment

at 10 o'clock this evening.

Mr. CONGER. If that vote is to be forced upon the Senate, I say for one as a member of the Senate that with a bill just sent to the President which has three or four hundred items in it to be exam-

Mr. McMILLAN. Two bills.
Mr. CONGER. The river and harbor bill and the sundry civil bill, on which there were three hundred and seventy-one or three hundred and seventy-two propositions numbered to be agreed to and receded from, so that no man in the Senate who listened to the report of the conference committee could tell when it left, except upon particular items, how it stood. To ask the President of the United States to take those bills which have been sent to him within the last hour, and review the changes made within the last ten hours, which he could not possibly have known, is not right, and I for one will vote against this proposition. I for one will decline to vote, with my friends who are in favor of a fair chance, and leave the Senate without a quorum for a few hours, if that is the way we are to be treated here.

I understand why there is great urgency to press this resolution so that the l'resident shall not have time to examine these bills, and especially the river and harbor bill. I understand why the same feeling that is dissatisfied with some concessions in that bill would desire to press this matter so that the President shall not have time to examine the bill as he ought to have time to do it; and I believe the friends of the bill understand it, too. I believe they are prepared to give time to the Executive to make a decent, reasonable examination of a very important bill. He ought to have it, and as far as my help will go he shall

Mr. CULLOM. How long do you want to stay—ten days?

Mr. CONGER. If Senators who are drawing their pay, whether they
stay here or go home, who are hired by the year to do the work of the Government and the country, can not in the interest of public business give two or three days more time when the constituents of most of them demand it, if I know of any means which can compel them to stay I shall exercise that means; and I call for aid upon the friends of a measure which has had more consideration in this Congress than it ever has had in any other Congress, the river and harbor bill, and which I believe, with the exception of some disappointed men, has the approval of the judgment of the Senate and of the House and of the country, and I believe will, if a reasonable time is given to the President, meet with his approval, if he is given time for that examination, which is

only decent and only fair to any Executive. I do not propose to be driven from my position on this proposition, and having the floor, if my strength would permit, I could talk on and on and interest the Senate beyond all account for eight or ten or twelve

Mr. COCKRELL. Just give us two hours now.
Mr. CONGER. I do not make that as a threat, because I know how quick the Senator from Iowa would withdraw his resolution if I were even to threaten to talk two or three hours here right by his side.

If the Senator will yield to me for a moment I will Mr. ALLISON. state that the resolution must go back to the House of Representatives. I think it is due to the House of Representatives as well as to the President, in the present condition of the public business, that we should fix some hour of adjournment.

Mr. CONGER. I only yield for an apology, not for a speech. Mr. ALLISON. I do not wish to occupy the valuable time of the

Senator from Michigan. I know he has an interesting statement to make, and I am perfectly willing to yield to him.

Mr. CONGER. I yield for an apology, or for an explanation even;

will go as far as that

Mr. ALLISON. All I desire is that the Senate shall send back this resolution to the House of Representatives. On my own motion I fixed the hour at 10 o'clock to-night. If any Senator thinks, or if a majority of the Senate think, that that is not the proper hour, let them suggest some other hour and test the sense of the Senate.

Mr. GIBSON. I suggest the hour of 12 o'clock to-morrow.

Mr. HOAR. Why can not that be done just as well at 6 o'clock or journment of this body.

8 o'clock as now? The resolution will go to the other House in five minutes after it is passed by the Senate, and will there be agreed to. What earthly advantage is there to any human being or human interest, except the interest which the Senator from Michigan refers to, in fixing the hour at this time?

Mr. GIBSON. I offer an amendment to strike out "10 o'clock p. m., August 4," and insert "4 o'clock p. m., August 5."

Mr. ALLISON. Let me say one word to the two Senators respecting the river and harbor bill. I have no wish about the river and harbor Certainly I am not making this motion in antagonism to that

Mr. CONGER. I am very glad to hear the Senator say so, for other

gentlemen have had very strong suspicions on that subject.

Mr. ALLISON. I accept the apology of the Senator from Michigan on that point. I believe what we ought to do is to fix an hour and a day. If we are to wait here until the proper time expires with reference to the river and harbor bill we are bound to wait for ten days, as the bill only went to the President this morning.

Mr. CONGER. A reasonable time is all that I have asked.

Mr. ALLISON. What does the Senator from Michigan regard as a

reasonable time?

Mr. GIBSON. I will state to the Senator from Iowa that the President should have eight or nine hours to read the bill and consider it, and by 4 o'clock to-morrow I have no doubt he will come to a determination.

Mr. ALLISON. It is more than nine hours from now until 4 o'clock to-morrow.

Mr. GIBSON. Well, say 12 o'clock to-morrow. Mr. KENNA and others. Say 12 o'clock to-morrow.

Mr. ALLISON. In deference to Senators who represent important matters I will not myself press the resolution at this moment.

Mr. CONGER. Having the floor, and having reserved it for the purpose of my remarks, I yield it now in deference to the proposition made by the Senator from Iowa that for the present the resolution is laid upon the table

The PRESIDENT pro tempore. If there be no objection the resolu-tion will lie on the table.

Mr. CONGER. And I reserve a future opportunity to continue the interesting remarks I was making.

ALIEN LAND-HOLDINGS.

Mr. PLUMB. I move that the Senate proceed to the consideration of the bill (H. R. 3280) to restrict the ownership of real estate in the

Territories to American citizens, and so forth.

Mr. CALL. I object to the bill. Is the bill subject to objection?

The PRESIDENT protempore. It is not. The question is on agreeing to the motion of the Senator from Kansas.

The motion was agreed to; and the Senate, as in Committee of the Whole, proceeded to consider the bill, which had been reported from the Committee on Public Lands with an amendment, to strike out all after the enacting clause and insert:

after the enacting clause and insert:

That it shall be unlawful for any person or persons not citizens of the United States, or who have not lawfully declared their intention to become such citizens, or for any corporation not created by or under the laws of the United States or of some State or Territory of the United States, to hereafter acquire, hold, or own real estate so hereafter acquired, or any interest therein, in any of the Territories of the United States or in the District of Columbia, except such as may be acquired by devise or inheritance or in good faith in the ordinary course of justice in the collection of debts hereafter created: Provided, That the prohibition of this section shall not apply in such cases as the right to hold lands in the United States is secured by existing treaties to the citizens or subjects of foreign countries, which rights shall continue to exist so long as such treaties are in force.

SEC. 2. That no corporation or association more than 20 per cent. of the stock of which is or may be owned by any person or persons, corporation or corporations, association or associations, not citizens of the United States, shall hereafter acquire or shall hold or own any real estate hereafter acquired in any of the Territories of the United States or of the District of Columbia.

SEC. 3. That no corporation other than those organized for the construction or operation of railways, canals, or turnpike shall acquire, hold, or own over 5,000 acres of land so hereafter acquired in any of the Territories of the United States; and no railroad, canal, or turnpike corporation shall hereafter acquired, hold, or own lands so hereafter acquired in any Territory, other than as may be necessary for the proper operation of its railroad, canal, or turnpike, except such lands as may have been granted to it by act of Congress.

SEC. 4. That all property acquired, held, or owned in violation of the provisions of this act shall be foreited to the United States, and it shall be the duty of the Attorney-Gen

Mr. CALL. Mr. President, I hope that the Senate will not proceed now to the consideration of so grave a subject as that presented in the bill. The question as to what extent aliens shall be allowed to own real estate in the Territories and in the District of Columbia, and of establishing so far as we may a policy for the States, is certainly one of very grave importance in connection with the amount of capital and property invested by American citizens in real estate in foreign coun-

tries and by the citizens and subjects of foreign countries in this.

I for one am in accord heartily with the idea of limiting the ownership of real estate, so far as it is practicable, to those people who cultivate the soil and make it useful, but certainly it is a subject of very great importance, and which can not be considered and properly treated at this time in the condition in which every one is in regard to the adI hope, therefore, there will be no objection to the motion I shall make, that the consideration of the bill be postponed until the next meeting of Congress. I will make that motion.

Mr. PLUMB. What is the motion?

The PRESIDENT protempore. The Senator from Florida moves that the consideration of the bill be postponed until December.

Mr. PLUMB. Is that motion debatable?

Mr. HAWLEY. It is.

Mr. HAWLEY. It is.
The PRESIDENT pro tempore. Certainly.
Mr. PLUMB. Mr. President, I wish to say that the amendment of the Senate Committee on Public Lands passed the Senate unanimously about two months ago as a separate bill. The House of Representatives, instead of taking up that bill, took up and passed a bill of their own on the same subject. The committee now recommend to strike out the House bill and insert the Senate bill, which is undoubtedly, according to the judgment of all I think who have examined it, and even members of the House themselves, very much preferable to the House bill.

Mr. INGALLS. Will my colleague be good enough to state the dif-

ference between the two propositions?

Mr. PLUMB. The difference between the two propositions is substantially this: The House bill contains no reservation in favor of such rights as may have been recognized by treaties between our Government and foreign governments. It does not recognize the rights of any one to hold property which may have come to him by devise or inher-The Senate bill besides provides that domestic corporations shall not hold more than 5,000 acres of land in any Territory except as may be necessary for railroads, canals, or some other public purpose. Those are the differences between the two bills.

This same bill, that is, the substance of it, was introduced by myself It was considered then by the Committee on Public Lands, and received considerable attention at the hands of other members of the Senate, and was reported favorably but not passed. It was introduced by me early in this session and considered by the committee in a very thorough way, was passed by the Senate some two months since, and I think now meets the judgment of every member of the commit-tee as fully as it did at the time it was reported.

I do not think that the Senator from Florida need have any apprehension about the exercise of this jurisdiction on the part of the United States. It is only with reference to the Territories; it does not affect the States at all.

I can say for myself in this connection that while it ought to pass for the purpose of preventing any further acquisition of land by foreigners in the Territories, I think the amount of the holdings of land by foreigners in the Territories has been largely exaggerated. While I am on this subject I will say that the table which was published in the RECORD in connection with the passage of the bill in the House of Representatives is erroneous in two particulars-in how many more I do not know. It is stated in that report that some British company owns 230,000 acres of land in the State of Kansas. That is entirely a mistake. I do not believe that any company, foreign or domestic, owns half that much land in the State of Kansas.

It is also stated that Albert Grant, of London, owns 35,000 acres of and in Kansas. That is incorrect. I doubt if Mr. Grant owns an acre land in Kansas.

in Kansas.

Mr. INGALLS. Albert Grant has been dead for a long time.

Mr. PLUMB. As my colleague suggests, Grant has been long since ead. Mr. Grant bought a tract of land from the Kansas Pacific Railroad in Russell County, Kansas, along the line of that road. He brought over a colony of Englishmen and located them on the land and laid out a town which he named Victoria. For a long time he owned all or a part of this land. Finally his holdings becoming unprofitable, and for other reasons, they were abandoned; that is to say, he sold out mainly, I believe, to the colonists whom he had brought over, and that land is owned now in comparatively small tracts. But still I believe it to be in accord with a very proper sentiment, and a sentiment which it is proper to meet at this time, that we should restrict, as far as is within our jurisdiction, the holding of land by persons who are not willing to assume the burdens and the duties of American citizenship.

The bill applies to a limited portion of the area of the United States, but its passage will be followed by the passage of similar bills by the several States acting within their own jurisdiction. I believe such a law was passed during the last winter by the Legislature of the State I know that interest in this subject has largely increased in my own State within recent months. There is such a law now in the State of New York. Many years ago there was such a law in the State of Massachusetts, but it was repealed. However, there is an agitation I understand going on in that State to some extent for a re-enactment

of the law.

Mr. HOAR. To what law does the Senator refer?

Mr. PLUMB. A law prohibiting holding land by aliens in Massachusetts. I think the law was repealed.

Mr. HOAR. The law was repealed in 1852. There is no such law now in the State.

Mr. PLUMB. I understand that there is not now, but I have had some letters from there and I understand there is some consideration of the question of its re-enactment, or the substance of it.

Mr. PLATT. Will the Senator allow me to interrupt him?

Mr. PLUMB. I will.

Mr. PLATT. There has been published in speeches which have been delivered in Congress, and I think in reports, a table showing that foreigners own about 20,000,000 acres of land in large holdings in this country, and the Senator has said that so far as that table relates to Kansas it is inaccurate. I think the impression goes abroad that those holdings have been derived directly from the United States Government. I wish to ask the Senator, as chairman of the Committee on Public Lands, whether he knows of any large holdings of lands by aliens where they have derived their lands from the United States

Mr. PLUMB. No one can purchase land from the United States Government except a citizen of the United States, or one who has declared his intention to become such; but there are certain facts which have given rise to the opinion that such purchases can be made. I have no doubt that foreign cattle companies have bought from persons who have entered the same considerable bodies of land in the Territories,

but that I have no doubt is also overstated.

I remember that two or three years ago, when this question first came up for consideration, a letter written by a Scotchman, a gentleman whom I happened to know slightly, was published, in which he stated that a company in which he was interested owned more than 30 miles square in one of the Territories. I felt sure at the time that was a mistake, because I knew something about the gentleman making the assertion, and I was satisfied it could not be true. I learned subsequently, from perfectly reliable authority, that the company he spoke of did not own more than half a dozen quarter-sections of land in the Territory of Wyoming and none elsewhere, but that they had included within the range, which they had put into their circular for the purpose of inviting subscriptions to the stock of the company, the adjacent public lands to the extent of 20 or 30 miles on each side of the stream on which these parties were located, and they kept it for grazing purposes. So I have no doubt that a large portion of what has been said in public, and which has gone into the official literature of this question, has been erroneous. If But that does not qualify my feelings in

If no acre of American soil was owned by a foreigner I should still be in favor of enacting a positive prohibition against such ownership for the future. I think myself that we offer inducements enough to people to come to this country, and that we endow them with citizenship at an early enough period. In my own State the person who has declared his intention to become a citizen and who has resided within the limits of the State six months is entitled to vote, and in the Western States generally a similarly liberal rule prevails. As American citizenship is open without limit to everybody, practically speaking, who is willing to come here and properly renounce his foreign allegiance, I am in favor of saying that those who do not so come and who do not submit themselves to the jurisdiction of our laws and to the burdens of American citizenship shall not be entitled to any of the benefits of it. I do not believe there can be any sounder proposition than that. I believe that this is a very good time, whatever may be the extent of foreign holdings to-day, to inaugurate this movement, which I have no doubt will go on until it will be the law of every State in the Union and cover

every inch of American soil.

Mr. PLATT. I wish to ask a question as to the status of this bill. I understand that the amendment now proposed has once been passed by the Senate.

Mr. PLUMB. It was passed by the Senate about two months ago. Mr. PLATT. It went to the other House, and the House, when it might have concurred with the Senate in the passage of the bill as it passed the Senate, chose to pass the House bill and not to act upon the Senate bill. Is that it?

Mr. PLUMB. That is the fact.

Mr. HOAR. I should like to ask the Senator from Kansas why it is

that the committee authorize the holding of this land when it is acquired in the ordinary course of judgment in the collection of debts hereafter incurred. It would seem to me if the distinction is to be made in debts, debts heretofore created should be preferred.

Mr. PLUMB. That is a misprint, and I was about to correct it.
Mr. HOAR. Now, I should like to ask the Senator further if it is his purpose, suppose this bill passes and goes into conference, to have a conference report made and acted upon at the present session? I am perfectly willing to proceed with the consideration of the bill, and it commends itself to my judgment so far as I have examined it, but I should dislike very much in regard to a matter of this immense importance to have a conference report brought in here which might present some very serious questions, and have to act upon that to-day or to-morrow before adjournment. I hope, if this bill goes into conference, that the Senator will be able to assure the Senate that the report of the committee will be delayed until the next session, to give him the entire control of the whole subject, because otherwise, of course, there will be the doubt of its reaching the President in time for his consideration and signature

Mr. PLUMB. There has been no purpose, except in the event that something might delay the session of Congress for four or five days, that any final action should be taken upon the bill. It was suggested by a member of the Public Lands Committee of the House after this report had been made that, inasmuch as the Senate would take up its own bill, it should go into conference

Mr. HOAR. I have no objection to that.
Mr. PLUMB. And that the subject then be considered in reference
to some details which had received consideration heretofore, but about which there was some difference of opinion, and that at the beginning of the next session of Congress the whole subject should be considered with the light that might be thrown upon it by the intermediate investigation.

Mr. HOAR. With the assurance from the Senator that, if he is to be one of the conferees, the matter will not be brought up on a conference report at this session unless circumstances should give time for full con-

sideration of it, I have no objection.

Mr. CALL. I hope very much that the Senate will adopt the motion I have submitted, to postpone the consideration of this whole subject until the next session of Congress. It certainly is one of the gravest questions as to the policy which this Government should adopt which

can be presented.

I am in favor, as I now understand the subject, of the amendments of the Senate Committee on Public Lands and of the bill thus amended. But what is it that we propose to consider in this hasty manner? From the very beginning of history the question of the rights of foreign subjects and citizens in another country has been a subject of internarecognized. He had no rights; he lived by the grace of the govern-

It then became a subject of international law as to the rights of denizens, and a code of laws grew up regulating the rights of persons in the dominion of foreign countries. Now we propose to deal with that question. I am in accord with the idea that the ownership of the soil shall be restricted to those who cultivate the soil; but shall we adopt that principle here in these closing hours when nobody can hear what is said? Shall we reverse a principle of international law by our legislation here and put our country upon a different foundation than that of all other civilized countries without further consideration, and in the presence of the fact that American citizens to-day under the laws of all civilized countries are permitted to invest in and own real estate to any extent, and without the existence of a great practical evil, when there is a large amount of foreign capital here invested?

I am in favor of limiting the ownership of the soil to the people who use it as far as practicable. But the point is, shall we now determine that question in all its extent as to the limitations which we shall impose upon it? Certainly the amendment of the Committee on Public Lands is correct. People who inherit property should not have it taken away from them arbitrarily; and certainly those who hold under treaty obligations should be allowed to own; but shall we determine the pre-

cise limits of these rights without further consideration?

The point I make is that this is a great subject involving the international relations of this country with foreign countries, the status of American citizens in foreign countries, the status of foreign citizens and subjects in this country in all property rights; and therefore we ought not now in the closing hours of this session, without deliberation or discussion, when our minds are not in a condition to regard this subject with deliberation and fairness, to proceed to take any action upon it. For this reason I move that we postpone the consideration of the bill until the next session of Congress.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Florida that the Senate postpone the further considera-

tion of the bill until the next session.

Mr. HAWLEY. I only wish to say that I supported this amendment when it was originally passed in the Senate as a separate Senate bill.

I think I supported it on its passage. I supported the idea in a general I see no objection to our affirming it now; but I see there is force in the suggestion of the Senator from Massachusetts that if there should be serious changes made in conference we might not care to discuss them at the very last moment.

With regard to the objection made by the Senator from Florida, it scems to me to be provided for in the first section, which says:

That the prohibition of this section shall not apply in such cases as the right to hold lands in the United States is secured by existing treaties to the citizens or subjects of foreign countries, which rights shall continue to exist so long as such treaties are in force.

If there be leading nations of Europe with which we have no treaties concerning this matter they have no fault to find with such regulations as we choose to make at home. There is no obligation, direct or implied, that is violated.

I agree with the general policy of the bill most emphatically.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Florida [Mr. Call] to postpone the further consideration of the bill until next session.

The motion was rejected.

Mr. PLUMB. I now move to amend the amendment on line 12

by inserting the word "heretofore" in place of the word "hereafter."

The PRESIDENT pro tempore. The amendment will be stated.

The SECRETARY. In line 12, after the word "debts," it is proposed to strike out "hereafter" and insert "heretofore;" so as to read:

In the collection of debts heretofore created.

The amendment to the amendment was agreed to.

The amendment as amended was agreed to.

The bill was reported to the Senate as amended, and the amendment was concurred in.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time, and passed.

Mr. PLUMB. I move to amend the title so as to read:

A bill to prevent the acquisition of real property by aliens, and for other pur-

The motion was agreed to.

Mr. PLUMB. I move that the Senate insist on its amendment and ask for a conference thereon with the House of Representatives. The motion was agreed to.

By unanimous consent, the President pro tempore was authorized to appoint the conferees on the part of the Senate; and Mr. Plume, Mr. TELLER, and Mr. WALTHALL were appointed.

CHITTENDEN- BROTHERS.

Mr. PALMER. I move that the Senate now take up Senate bill No. 938, Order of Business 1616.

The motion was agreed to; and the bill (S. 938) for the relief of Chittenden Brothers was considered as in Committee of the Whole.

The bill was reported from the Committee on the District of Columhis with an amendment, in line 7, after the words "District of Columbia," to strike out "such sum as may be found to be equitably due, per the report of the Engineer Department," and insert "\$15,-000;" so as to make the bill read:

Be it enacted, &c., That the Secretary of War is hereby authorized to pay to Chittenden Brothers, contractors, out of any unexpended balance of money appropriated for the construction of a dam at Great-Falls, Maryland, for increasing the water-supply of the District of Columbia, \$15,000, for money expended in the construction of coffer-dams, pumping, and other auxiliary work over and above that contemplated in the amendment to the contract with said Chittenden Brothers, dated March 4, 1884, and which additional work was rendered necessary by the peculiar formation of the bed of the river, which could not be anticipated by the Government engineers or the contractors at the time of entering into the contract.

The amendment was acceed to

The amendment was agreed to.

The bill was reported to the Senate as amended, and the amendment was concurred in.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

WILLIAM B. ISAACS & CO.

Mr. MAHONE. I move to take up Calendar No. 1665, being House joint resolution 67.

The PRESIDENT protempore. The Senator from Virginia moves to take up a joint resolution, the title of which will be read.

The CHIEF CLERK. "A joint resolution (H. Res. 67) for the relief of William B. Isaacs & Co."

The Committee on Claims reported the joint resolution with an amendment, to strike out all after the resolving clause and insert:

That the Court of Claims is hereby empowered to hear the claim of William B. Isaacs & Co., and to proceed with the same in accordance with the provisions of the act approved March 3, 1883, entitled "An act to afford assistance and relief to Congress and the Executive Departments in the investigation of claims and demands against the Government," and report to Congress the facts in the case and the amount of the claim, including any facts bearing upon the question whether there has been delay or laches in presenting such claim, and any facts tending to excuse such delay or laches.

Mr. EDMUNDS. I move that the Senate take a recess for one hour.

The PRESIDENT pro tempore. The Senator from Vermont moves that the Senate take a recess for one hour.

Mr. CALL. I ask the Senator from Vermont if he will not withdraw the motion until I can call up a resolution reported by the Committee on Contingent Expenses of the Senate?

Mr. EDMUNDS. No. I think all we do now is injurious. I think

we had better take a recess for an hour and then the Senator can call up his resolution.

Mr. CALL. I will say to the Senator that there was a messenger who was discharged from the Senate who belonged to the Committee on Revolutionary Claims, a committee of which my colleague [Mr. Jones, of Florida] is chairman.

The PRESIDENT pro tempore. The Chair must advise the Senator

that the question is not debatable.

Mr. CALL. I am not going to debate it. I was appealing to the Senator.

Mr. EDMUNDS. We can take it up after a recess.

Mr. CALL. The resolution is reported by the Committee on Contingent Expenses for his relief. It is a very small matter and will take but a moment. At the request of the committee I make the motion.

Mr. EDMUNDS. Wait until 4 o'clock.

The PRESIDENT pro tempore. The question is on the motion for a

The question being put, the ayes were 14.
Mr. COCKRELL. I call for the yeas and nays.

The yeas and nays were ordered.

Mr. CONGER. While that is pending I ask consent to introduce a

Mr. BUTLER. Before the vote is taken I ask unanimous consent to take up a joint resolution.

The PRESIDENT protempore. The first reading of the bill introduced by the Senator from Michigan.

BILL INTRODUCED.

Mr. CONGER introduced a bill (S. 2891) granting an increase of pension to the widow of Orange F. Linsday; which was read twice by its title, and, with the accompanying papers, referred to the Committee on Pensions.

ORDER OF BUSINESS.

The PRESIDENT pro tempore. The motion for a recess is not debatable

Mr. BUTLER. I ask unanimous consent to take up the joint resolution (S. R. 80) providing for one month's extra pay for certain employés of the Senate and House of Representatives.

Mr. EDMUNDS. No, Mr. President.
The PRESIDENT pro tempore. The Chair is of the opinion that the question is on the motion for a recess. The Secretary will call the roll.

Mr. HARRISON. I ask unanimous consent to be allowed to suggest that this proposition be withdrawn, and that the Senate proceed to the

consideration of the Presidential vetoes of pension bills, in their order.

The PRESIDENT pro tempore. The Chair is of opinion that the yeas and nays having been ordered on the motion for a recess, that question

Mr. EDMUNDS. The Senator can ask unanimous consent, I think. The PRESIDENT pro tempore. The Senator from South Carolina [Mr. BUTLER] first asked unanimous consent.

Mr. HOAR. I move to reconsider the vote by which the yeas and

nays were ordered.

Mr. BUTLER. I ask unanimous consent to proceed to the consideration of Senate joint resolution 80.

Mr. HOAR. Let the call for the yeas and nays be reconsidered.

Mr. EDMUNDS. We can not reconsider that vote when one-fifth

of the members present have a perfect right to have the yeas and nays

The PRESIDENT pro tempore. The yeas and nays having been ordered, the Chair is of opinion that a majority can not reconsider the vote ordering them. One-fifth have a right to the yeas and nays.

Mr. EDMUNDS. For the moment, in order to have the request of the Senator from Indiana heard, I ask leave to withdraw my motion

The PRESIDENT pro tempore. The motion for a recess is withdrawn, if there be no objection.

Mr. BUTLER. I had the floor before the Senator from Indiana

The PRESIDENT pro tempore. The Senator from South Carolina asked unanimous consent of the Senate first to proceed to the consideration of Senate joint resolution 80.

Mr. BUTLER. That is my request.

The PRESIDENT pro tempore. The title of the resolution will be

stated.

The CHIEF CLERK. "A joint resolution (S. R. 80) providing for one month's extra pay for certain employés of the Senate and House of Representatives."

Mr. EDMUNDS. I object.

The PRESIDENT pro tempore. Objection being made—
Mr. HARRISON. I renew my request for unanimous consent.
Mr. BUTLER. Then I object to that.

Mr. HOAR. I move to proceed to take up the first vetoed pension bill on the list. The Secretary will find the title.

The PRESIDENT pro tempore. The Senator from Virginia [Mr. MAHONE] has a motion precisely similar pending to proceed to the consideration of a bill, and that will have to be proceeded with first. The Senator from Virginia moves that the Senate proceed to the consideration of the joint resolution (H. Res. 67) for the relief of William B. Isaacs & Co.

Mr. MAHONE. I withdraw the motion in favor of the Senator from Indiana.

Mr. HOAR. My motion is that the Senate now proceed to the con-

Mr. HOAR. My motion is that the Senate how proceed to the consideration of the first vetoed pension bill on the Calendar.

Mr. HARRISON. I suggest to the Senator from Massachusetts that instead of making it the first on the Calendar, he move to proceed to the consideration of all those bills in their order.

Mr. HOAR. That would not be in order. We must take one at a time. Order of Business 1751 is the first one.

The PRESIDENT pro tempore. The Senator from Massachusetts moves that the Senate proceed to the consideration of the following

Mr. BUTLER. Upon that I ask for the yeas and nays.

Mr. EDMUNDS. Let us have the title read.

The PRESIDENT pro tempore. The title will be stated.

The CHIEF CLERK. "A bill (S. 789) granting a pension to John S.

Williams."

Mr. SEWELL. I move to substitute Order of Business 1685, being the bill (S. 226) granting a pension to Margaret D. Marchand.

Mr. HOAR. I withdraw my motion and yield to the Senator from

New Jersey, that he may move to take up Order of Business 1685.

MARGARET D. MARCHAND-VETO MESSAGE.

Mr. SEWELL. Then I move to take up the bill (S. 226) granting a

pension to Margaret D. Marchand.

Mr. BUTLER. On the question of taking it up I ask for the yeas and nays.

The yeas and nays were ordered; and the Secretary proceeded to call the roll.

Mr. CHACE (when Mr. Aldrich's name was called). My colleague [Mr. ALDRICH] is paired with the Senator from West Virginia [Mr. CAMDEN]

Mr. GORMAN (when his name was called). I am paired with the

Mr. GORMAN (when his name was called). I am paired with the Senator from Maine [Mr. Frye].

Mr. MANDERSON (when his name was called). I am paired usually upon questions of this character with the Senator from Kentucky [Mr. BLACKBURN]. I transfer that pair to my colleague [Mr. VAN WYCK] who is temporarily absent. I vote "yea."

Mr. RANSOM (when his name was called). I am paired with the Senator from Illinois [Mr. Logan].

The roll-call was concluded.

Mr. McMILLAN. My colleague [Mr. Sabin] is absent from the Senate and is paired with the Senator from West Virginia [Mr. Kenna].

Mr. HAWLEY. My colleague [Mr. Platt] has been obliged to

Mr. HAWLEY. My colleague [Mr. PLATT] has been obliged to leave. He is paired with the Senator from South Carolina [Mr. HAMP-

TON

Mr. SPOONER. I inquire whether the Senator from Mississippi [Mr. WALTHALL] voted.

Mr. SEWELL (after having voted in the affirmative). As there seems to be a political division on this question, I withdraw my vote. I am paired with my colleague [Mr. McPherson].

Mr. BUTLER (after having voted in the negative). Inasmuch as this has assumed a political phase, I withdraw my vote. I am paired with the Senator from Pennsylvania [Mr. CAMERON].

Mr. COCKRELL (after having voted in the negative). I withdraw

my vote for the present, reserving the right always to vote to make a quorum. I am paired with the Senator from New York [Mr. MILLER].

Mr. PALMER (after having voted in the affirmative). I am paired with the Senator from North Carolina [Mr. VANCE]. He is not here, and I withdraw my vote.

The PRESIDENT pro tempore. Senators are reminded that by not voting they risk breaking a quorum.

Mr. PALMER. I vote "nay," the same as my pair would vote if

he were present.

The result was announced—yeas 22, nays 17; as follows:

	YE	AS-22.	
Allison, Blair, Chace, Conger, Cullom, Dolph,	Edmunds, Evarts, Harrison, Hawley, Hoar, Ingalls,	MeMillan, Manderson, Mitchell of Oreg., Plumb, Riddleberger, Sawyer,	Sherman, Spooner, Teller, Wilson of Iowa
	NA	YS-17.	
Beck, Berry, Call, Cockrell, Coke,	Eustis, Gibson, Gray, Harris, Maxey,	Palmer, Payne, Saulsbury, Vest, Voorhees,	Walthall. Wilson of Md.
	ABSI	ENT-37.	
Aldrich, Blackburn, Bowen, Brown, Butler, Camden, Cameron, Colquitt, Dawes,	Frye, George, Gorman, Hale, Hampton, Hearst, Jones of Arkansas Jones of Florida, Jones of Nevada,	Logan, McPherson, Mahone, Miller, Mitchell of Pa., Morgan, Morrill, Pike, Platt,	Ransom, Sabin, Sewell, Stanford, Vance, Van Wyck, Whitthorne.

So the motion was agreed to; and the Senate proceeded to consider

the bill (S. 226) granting a pension to Margaret D. Marchand.

The PRESIDENT pro tempore. The question is, Shall the bill pass, the objections of the President of the United States to the contrary not-

withstanding? Mr. SEWELL. Mr. SEWELL. I ask now that that particular bill lie on the table, and that the bill passed by the House of Representatives, Order of Business 1847, be taken up.

Mr. HOAR. Is it in order for a vetoed bill to be laid on the table?

The Constitution says we shall proceed to consider it by yeas and nays. I ask for information.

Mr. SEWELL. The proceeding is at the discretion of the Senate.
Mr. HOAR. Yes, but laying on the table is different.
The PRESIDENT protempore. The Chair is of opinion that the Con-

stitution requires the Senate to vote on the identical bill that has been vetoed by the President.

Mr. SEWELL. That does not prevent the bill lying on the table to

be taken up hereafter.

The PRESIDENT pro tempore. It is in order to lay it aside or lay it on the table.

Mr. SEWELL. I move that it lie on the table, as I wish to take up the other bill.

Mr. EDMUNDS. What is the other bill?

Mr. SEWELL. A bill passed by the House of Representatives.
Mr. COCKRELL. I hope that will not be done.
The PRESIDENT pro tempore. The question is on the motion to lay the bill on the table.

The motion was rejected.

The PRESIDENT pro tempore. The question is, Will the Senate pass the bill, the objections of the President of the United States to the

ontrary notwithstanding.

Mr. COCKRELL. Let the report be read.

The PRESIDENT pro tempore. The report will be read.

The Secretary proceeded to read the report, submitted by Mr. SEWELL from the Committee on Pensions July 9, 1886.

Mr. SEWELL. In order to save time I ask that the Secretary only read the conclusions of the committee on the subject, without reading all the details.

The PRESIDENT pro tempore. Without objection the concluding part of the report only will be read.

Mr. COCKRELL. No; I want it all read.

The PRESIDENT pro tempore. The reading will proceed.

The Secretary resumed and concluded the reading of the report, which

is as follows:

The Committee on Pensions, to whom was referred the message of the President of the United States returning the bill (S. 226) granting a pension to Margaret D. Marchand, widow of John B. Marchand, of the United States Navy, submit the following report:

The committee have carefully considered said message in connection with the previous report made by them in this case, recommending the passage of said bill, and find that the President has taken the course pursued by the Pension Burcau, which Burcau refused to grant the desired pension to Mrs. Marchand upon the ground that the disease of which her late husband, Commodore Marchand, died could not be traced to disabilities incurred in the service while in the line of duty.

The committee beg leave to submit (1) said veto message as a part of their report. Also (2) their previous report, accompanying the bill and recommending its passage to the Senate. And further (3) a letter from the chief clerk of the Navy Department giving the service of this officer. They are as follows:

[Senate Ex. Doc. No. 186 Fortwoninth Concress, first session.]

[Senate Ex. Doc. No. 186, Forty-ninth Congress, first session.]

ssage from the President of the United States, returning Senate bill 226, with his objections thereto.

I return herewith Senate bill No. 226, entitled "An act granting a pension to Margaret D. Marchand," without approval.

The beneficiary named in this bill is the widow of John B. Marchand, who entered the United States Navy in 1828, who was promoted to the rank of commodore in 1866, and who was placed upon the retired-list in 1870. He died in August, 1875, of heart disease.

His widow filed an application for pension in 1883, claiming that his fatal disease was caused by exposure and exertion in the service during the war of the rebellion. The application was rejected because of the inability to furnish evidence to prove that the death had any relation to the naval service of the deceased.

I am unable to see how any other conclusion could have been reached. The information furnished by the report of the committee to whom this bill was referred, and derived from other data before me, absolutely fails to connect the death of Commodore Marchand with any incidents of his naval service.

This officer was undoubtedly brave and efficient, rendering his country valuable service. But it does not appear to have been of so distinguished a character, nor are the circumstances of his widow alleged to be such, as to render a gratuity justifiable.

GROVER CLEVELAND.

EXECUTIVE MANSION, June 19, 1886.

[Forty-ninth Congress of the United States of America, at the first session, begun and held at the city of Washington, on Monday, the 7th day of December, 1885.]

An act granting a pension to Margaret B. Marchand

An act granting a pension to margaret B. Marchand.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Interior be, and he is hereby, authorized and directed to place on the pension-roll, subject to the provisions and limitations of the pension laws, the name of Margaret D. Marchand, widow of Commodore J. B. Marchand, late of the United States Navy, and pay her a pension at the rate of \$50 per month from the date of the passage of this

JOHN G. CARLISLE, Speaker of the House of Representatives. JOHN SHERMAN, President of the Senate pro tempore.

I certify that this act originated in the Senate.

ANSON G. McCOOK, Secretary. By CHAS, W. JOHNSON, Chief Clerk.

[Senate Report No. 171, Forty-ninth Congress, first session.]

[Senate Report No. 171, Forty-ninth Congress, first session.]

The Committee on Pensions, to whom was referred the bill (S. 226) granting apension to Margaret D. Marchand, beg leave to state that a bill for this same purpose was referred to the Committee on Pensions of the Senate during the second session of the Forty-eighth Congress and passed by the Senate, failing in the House only for want of time to bring the measure before that body.

This committee beg to state further that they have examined the facts in the case recited in the affidavits of Mrs. Marchand and of the witness, Alice P. Thornton, which are hereto appended and made part of this report:

"On this 15th day of May, 1884, before me, Sprigg Harwood, elerk circuit court

for Anne Arundel County, personally appeared Margaret D. Marchand, who, be-

for Anne Arundel County, personally appeared Margaret D. Marchand, who, being duly sworn according to law, deposes and says as follows, to wit:

"In the year 1861 my husband, the late Commodore John B. Marchand, then commander, was in command of the steamer James Adger, off Charleston, S. C., engaged in the naval service of the United States Government in the late civil war. At that date he was in robust health and perfect physical condition. He had always been a man of unusually robust constitution, weighing over 200 pounds, and of perfectly regular habits, and from the date of our marriage, to wit, the 11th day of November, 1856, until the date of his taking command of the steamer James Adger, in 1861, have never known him to have any sickness with the exception of some trivial derangement of perhaps a day's duration, and never requiring any medical attendance. His habits throughout his entire life were uniformly regular and temperate.

"To the best of my knowledge he went upon blockade duty in the year 1861, in his usual health, and came to our home in Baltimore in 1894, broken down in health and much reduced in flesh, after protracted blockade duty, and after the severe engagements while in command of the U.S. S. Lackawanna in Mobile Bay. At the date of his promotion to the rank of commodore, in the year 1866, for distinguished services, the usual physical examination was waived. Soon after this date symptoms of defective circulation commenced, manifesting itself in the ends of his fingers, they becoming bloodless and livid in color. In 1871 he was a frequent sufferer from violent pains in his chest. In the winter of 1873 and 1874 Commodore Marchand was confined to the house, suffering extremely from the swelling of his feet. In the winter of 1874 and 1875 he had hemorrhages of the lungs; the last of these hemorrhages was the immediate cause of his death. Dr. Mahan, of Pennsylvania, our family physician, who attended Commodore Marchand during the early periods of his sickness, is now deceased. Drs. Dale and

Sworn to and subscribed the day and year first above written, before me.
"SPRIGG HARWOOD,
"Clerk Circuit Court for Anne Arundel County. [SEAL.]

"On this 15th day of May, before me, Sprigg Harwood, clerk of circuit court for Anne Arundel County, personally appeared Alice P. Thornton, who, being duly sworn according to law, deposes and says:
"That she is a sister of the within-named Margaret D. Marchand, and that she has read and carefully examined the affidavit of her said sister hereto appended; that she has personal knowledge of the condition of health and different stages of disease that finally resulted in the death of Commodore Marchand; and also personal knowledge of the statements-contained in the annexed affidavit, and that she verily believes the same to be true.

"ALICE P. THORNTON.

"Sworn and subscribed this 15th day of May, 1884, before me.
[SEAL.] " Clerk Circuit Court for Anne Arundel County."

"Clerk Circuit Court for Anne Arundel County."

The committee also desire to attach and make a part of their report the following account of the service of Commodore Marchand in Mobile Bay:

"The morning of the 5th of August, 1864, he found Admiral Farragut, with his fleet, consisting of the Richmond, Port Royal, Lackawanna, Seminole, Monongahela, Kennebeck, Ossipee, Itasca, Oneida, Galena, Brooklyn, Octorara, Metacomet, and lastly the Hartford, the admiral's flag-ship, at the mouth of Mobile Bay. Among the efficient officers who contributed to this important victory was Capt. John B. Marchand, of the Lackawanna, At fifteen minutes of 6 o'clock the whole fleet was under way, and just one hour afterward the first gun was fired. The ships above mentioned entered the bay, lasted to each other in pairs side by side, in order to prevent any confusion in passing the formidable fortifications of the confederates guarding the entrance to the bay. The Brooklyn and Octorara were in the lead. The Lackawanna, with the Seminole, was in the center of the line of battle. Fort Morgan first opened fire upon the fleet, and the rebel boats Tennessee, Morgan, Gaines, and Selma, inside of the bay, raked the vessels with shot and shell.

"Just around the point of land behind Fort Morgan could be seen three saucy-looking gunbeats and most powerful ironelad ever put affoat—looking like a great turtle, with sloping sides, covered with iron plates 6 inches in thickness, thoroughly riveted together, and having a formidable iron beak projecting into the water. Her armament consisted of six heavy guns of English make, sending a solid shot weighing 110 pounds irresistibly against everything but the turrets of the monitors.

"In addition to these means of resistance, the narrow channel in front of the fort had been lined with torpedoes. These were in the water, anchored to the bottom, and were chiefly in the shape of beer kees filled with powder, from the

rets of the monitors.

"In addition to these means of resistance, the narrow channel in front of the fort had been lined with torpedoes. These were in the water, anchored to the bottom, and were chiefly in the shape of beer kegs filled with powder, from the sides of which projected numerous little tubes containing fulminate, which it was expected would be exploded by contact with passing ressels.

"Although shot and shell were flying around, none struck the Lackawanna's hull, doing serious injury, until she was within 400 or 500 yards of Fort Morgan, when a heavy elongated shot from the fort passed through the ship's side, killing and wounding sixteen men at the 150-pound rifle, when it carried away two stanchions of the taffrail, passed through the foremast, and carried away two stanchions of the taffrail, passed through the foremast, and carried away two stanchions of the taffrail, passed through the foremast, and carried away two stanchions of the 150-pounder. The firing of shells from the Union fleet was so continuous that the confederates were driven away from their guns.

"At \$\frac{3}{2}\text{ o'clock in the morning the Union fleet had passed beyond the range of the guns of Fort Morgan, when the ram Tennessee was seen approaching. The admiral made signal to the Monongahela, commanded by Captain Strong, as being nearest, to run her down. The vessel was armed with a heavy artificial iron prow, and was, among the wooden vessels, the best adapted to the purpose of executing the admiral was sent up to the Lackawanna to also attack the Tennessee. The Monogahela first struck the rebet craft angularly, glancing off and doing her no perceptible injury. The Lackawanna was more fortunate, and struck her at right angles to her keel. The concussion was tremendous, both vessels rebounding, but soon after drifted against each other, broadside to broadside, bead and stern. At this juncture Captain Marchand ordered the guns to be fired into the enemy, the vessels then being so close as to almost enable the men to touch e

* Since promoted to commodore.

my's iron deeks were covered. Many of his men slipped off and fell into the water. In the attempt to run down the Tennessee the stem of the Lackawanna was cut and crushed far back of the planks' ends, doing her great injury, and leaving her in places but a few inches above the water.

"From the disabled condition of the Lackawanna in coping with this much superior antagonist the two vessels became separated, the ram going ahead, and the Lackawanna having nothing to hold on by, her captain ordered the helm hard over to bring the ship around, in order to make another attempt at running down the ram; but the great length of his vessel and the shoalness of the water, which was not more than a foot under the keel, prevented his turning rapidly, and in going round he collided with the Hartford, the Admiral's flagship, although every effort was made on his part to prevent the collision by backing the engine. Of this it has been aptly said by a personal friend of Admiral Farragut, the historian of this engagement, and who expressed the sentiment of the admiral, long after the occurrence, that 'the fault was as much with the Hartford as with the Lackawanna, each being too eager to reach the enemy.'

(J. C. Kinney, in Scribner's Monthly Magazine, June, 1881.)

"After the Lackawanna had cleared the Hartford she again started to run down the Tennessee, but before reaching her the rebel flag had been hauled down, a white one hoisted, and the ram had surrendered to the Union fleet, which by that time encompassed her on all sides, rendering her escape impossible."

The committee her leave, therefore, to report the bill favorably.

ble."
The committee beg leave, therefore, to report the bill favorably.

It appears that Commodore Marchand entered the Navy in 1828, and was placed upon the retired-list in 1870, thus serving his country forty-two years. His widow, the claimant, makes affidavit, as set forth in the foregoing report, as also does Alice P. Thornton, which satisfies the committee (in connection with such service of forty-two years) that the disease was incurred, or the causes which led to it, during the long period of service of this officer.

It has been the custom of Congress for some time to grant \$50 per month to the widows of brigadier-generals in the Army, and of commodores in the Navy, and also to the widows of officers of higher rank. This is, therefore, not an exceptional case.

These pensions to widows of naval officers are paid from what is known as the naval fund, which accrues from contributions of the officers and men of the Navy; and naval officers have always looked forward to having their families receive a portion of this fund to which they have contributed, and which they look upon as sacred to that purpose.

The committee believe this veto is the first of the kind ever transmitted to Congress by a President of the United States, and they take issue with his reasons for so doing, believing that, if they did not have the positive evidence of Mrs. Marchand and Alice Thornton, it would be fair to infer that the disease of which this officer died must have been the result of, or must have originated in, the hardships of the service, covered by this lengthened period of forty-two years.

The President does the memory of this officer credit by saving he "was un-

in, the hardships of the service, covered by this lengthened period of forty-two years.

The President does the memory of this officer credit by saying he "was undoubtedly brave and efficient, rendering his country valuable service," but adds, in the next sentence, words which cloud the just praise written the moment before. He says: "But it (his valuable service) does not appear to have been of so distinguished a character, nor are the circumstances of his widow alleged to be such, as to render a gratuity justifiable."

An officer who has gone through all the grades of the service from a cadet to a commodore; who was in that service during two wars; who commanded ship after ship, and of whose gallantry and ability no question has ever been raised—the committee say that the widow of such an officer should not now be told that the services of her husband were not of a distinguished character; nor should the natural shrinking of a woman to parade before the world the daily necessities of her life and home, to meet which the pension asked for would be, and is, most desirable, and especially so when it is to come from a fund in the participation of which she has an undoubted claim—such criticisms the committee assert can not be given as reasons by the Executive of the United States for depriving the widow of a brave and efficient officer of that which is her just right.

The committee, therefore, believing the claim to be a just and meritorious one, and the reasons presented for its refusal as of no avail and adverse to a fit and proper recognition of manly, loyal, and efficient service running through a period of nearly half a century, do recommend the passage of the bill S. 225, the objections of the President to the contrary notwithstanding.

Mr. COCK RELL L. Lidid not notice how accurately the Secretary

Mr. COCKRELL. I did not notice how accurately the Secretary read on page 3, but hearing the testimony of Mrs. Margaret D. Marchand and Alice P. Thornton I did not catch the reading of the account that follows:

The committee also desire to attach and make a part of their report the following account of the service of Commodore Marchand in Mobile Bay.

The PRESIDING OFFICER (Mr. BLAIR in the chair). The Chair understands that the Secretary read the report.

Mr. COCKRELL. Also on page 4 I did not hear it, and I have a

pretty acute hearing.

The PRESIDING OFFICER. The Chair understands that about half a page on page 4, the letter from the Navy Department, was not

Mr. COCKRELL. I should like to have that complete. I do not want the RECORD incomplete

Mr. PLUMB. It will be in the RECORD. The Senator might read it for his own edification.

Mr. COCKRELL. I should like to hear it.

The PRESIDING OFFICER. The reading of the report will be completed by reading the omitted part.

The Secretary read the letter of the Secretary of the Navy on page 4 of the report, as follows:

NAVY DEPARTMENT, Washington, August 10, 1883.

NAVY DEPARTMENT, Washington, August 10, 1883.

SIB: In reply to your letter of the 21st ultimo, you are informed that John P. Marchand was appointed a midshipman in the Navy May 1, 1828; October 27, 1828, ordered to the navy-yard, Philadelphia; August 22, 1829, detached and ordered to the Peacock; November 26, 1830, detached and ordered to the Shark; August 8, 1831, detached and ordered to the Porpoise; August 28, 1832, detached and placed on waiting orders; October 4, 1832, ordered to the Experiment; December 18, 1832, detached and placed on waiting orders; April 29, 1833, ordered to the navy-yard, Norfolk; November 11, 1833, detached and placed on waiting orders; June 14, 1831, promoted to passed midshipman; August 6, 1834, ordered to the Potomac; December 16, 1834, detached and ordered to the Shark; May 7, 1835, detached to the John Adams; May 26, 1837, detached and placed on waiting orders; June 12, 1837, ordered to the Porpoise; May 22, 1838, detached and

placed on waiting orders; October 25, 1838, ordered to the Woodbury; January 4, 1839, detached and wait orders; April 18, 1839, ordered to the Levant; September 6, 1839, detached and ordered to the Ontario; January 29, 1840, promoted to lieutenant; April 26, 1840, detached and ordered to the Warren; July 10, 1840, detached and to the Erie; October 1, 1840, detached and wait orders; August 11, 1841, ordered to the Van Buren; February 11, 1843, detached and to the Brundywine; September 19, 1845, detached and granted leave; November 13, 1845, ordered to the navy-yard, Philladelphia; November 13, 1846, detached and ordered to the Ohio; June 17, 1850, detached from the Saint Mary's and granted leave of absence; August 17, 1850, ordered to the naval rendezvous at Philadelphia; March 15, 1852, detached and ordered to the Cumberland; July 2, 1855, detached and granted three months' leave; September 14, 1855, promoted to commander; October 25, 1855, ordered to the Bureau of Construction, &c.; September 23, 1858, detached and ordered to command the Memphis; May 23, 1859, detached and granted leave; January 10, 1861, ordered as light-house inspector of the eleventh district; August 31, 1861, detached and ordered to command the James Adgar; July 16, 1862, promoted to captain; August 14, 1862, detached and wait orders; October 24, 1862, ordered to command the Lackswanna; November 25, 1894, detached and wait orders; December 30, 1884, ordered to special duty with Rear-Admiral Gregory; July 11, 1885, detached, and ordered to the navy-yard, Philadelphia; July 25, 1896, promoted to commodore; August 31, 1866, detached and wait orders; November 27, 1866, ordered as a member of the board of examiners; May 9, 1868, detached and ordered to ordered to examiners; May 9, 1868, detached and ordered to command the navy-yard, Philadelphia; August 27, 1870, placed on the retired-list; September 13, 1870, detached and wait orders.

He died at Carlisle, Pa., on the 18th April, 1875.

(Claim No. 3555. Navy widow.—L. C. W.)

By direction of t

JNO. W. HOGG, Chief Clerk.

Hon. WM. M. DUDLEY.
Commissioner of Pensions, Washington, D. C.

Mr. WHITTHORNE. I ask if it is in order, and if it is in order I make the motion, to postpone the consideration of this message until, say, the first Wednesday after the meeting of the next session of Con-

ress. I will state my reason for making this motion.

I trust I do not violate any rule of the Senate or any confidence of the committee when I state that when this message was considered in the committee I declined to vote upon the proposition for the reason that I desired to inform myself more fully than I was then informed, and I desired to inform hyself more fully than I was then informed, and I confess than I am now, as to the claim which is said to exist on the part of the navy people, as they are termed, that they had a special fund to which they could look for the payment of their pensions.

It was alleged in their behalf and has been within my knowledge

that the prize-money which accumulated prior to and during the civil war amounted to a very large sum of money; that the Government of the United States without any consultation with the parties in interest, to wit, the officers and seamen of the Navy, arbitrarily settled some years since the rate of interest it would pay upon this sum, whatever amount it was, of naval prize-money that was due to these people. I say due to them because under the policy of the Government from its foundation and up to this hour one-half of the value of all prizes captured by the Navy is set apart as a pension fund, as a special fund for their benefit, the other half of the value of the prizes going into the general treasury. The naval people complain of this action of the Government. They say it was arbitrary; it was without consultation with them. It is to-day nothing less than a navy fund; it is simply borne on the books of the Department and appears in your public-debt statement as the naval pension fund bearing 3 per cent. interest.

I submit to honest men that you must remove this mpression, and in removing the impression, if this is to be regarded as a common fund of the people of the United States, then do justice to the sailor, do the same justice that you would do and are doing to the soldiers of the country. Do not make Jack pay for his clothing, do not make Jack pay for everything, and then turn his attention to the pension fund as

his special estate and when he comes here discriminate against him. It is for these reasons, which I have not the physical ability now to elaborate, that I in committee declined to vote on this proposition. I hope it will be postponed and that either I or somebody else will go to the bottom of this naval pension fund and remove, if we can do so legiti-mately, this expectation and belief on the part of the officers and sea-men of the Navy that they have a right to look to this special fund as their property.

It is for this reason, and in justice to the President and in justice to

the sailors of the country, that this whole matter should be known.

I see the distinguished Senator from the State of Ohio [Mr. Sher-MAN], and I know amongst Navy people that he is accredited with the fact of having arbitrarily and without consultation with Jack and his representatives fixed the interest upon the naval pension fund at 3 per cent. when the Government was paying 6, when no 3 per cent. bonds existed, and Jack to-day claims that if you would treat him as any other creditor he has a larger sum due to him than is represented on the books by three or four million dollars.

Mr. SEWELL. I will not press this matter at the present time. In

fact I did not intend to do so.

Mr. WHITTHORNE. Allow me. I make this motion in justice to the bill. I want to do what I regard as my duty. If forced to vote on the matter of the veto, I shall be constrained to vote for the President's veto. The proposition which I know my friend from New Jersey has in mind to submit is a pension of \$30 to this widow. The present bill is to increase from \$30 to \$50. Looking simply to the mere merits of the increase and of the veto, I should be compelled to vote to sustain the President. Therefore it is without prejudice to any one that I have made the motion to postpone. I shall vote for the House bill that my

friend from New Jersey will bring forward.

Mr. SEWELL. I am willing to consent on the part of the committee

to the postponement of the bill.

The PRESIDING OFFICER (Mr. BLAIR in the chair). Will the

Senator from Tennessee state the day? Mr. WHITTHORNE. Wednesday after the first Monday of Decem-

ber next

The PRESIDING OFFICER. The Senator from Tennessee moves to postpone the further consideration of the bill until the Wednesday after the first Monday of December next.

The motion was agreed to.

Mr. SEWELL. I now move to take up Order of Business 1817, be-

ing House bill 2060.

The motion was agreed to; and the bill (H. R. 2060) granting a pension to Margaret D. Marchand was considered as in Committee of the Whole. It proposes to place on the pension-roll the name of Margaret D. Marchand, widow of Commodore J. B. Marchand, late of the United

States Navy.

Mr. SEWELL. The bill simply places this lady on the pension-list

The bill was reported to the Senate, ordered to a third reading, read the third time, and passed.

PRESIDENTIAL APPROVALS.

A message from the President of the United States, by Mr. O. L. PRU-DEN, one of his secretaries, announced that the President had on the 3d instant approved and signed the following acts:

An act (S. 13) for the relief of William J. Smith, late surveyor of customs for the port of Memphis, State of Tennessee;
An act (S. 71) for the benefit of the States of Texas, Colorado, Oregon, Nebraska, California, Kansas, and Nevada, and the Territories of Washington and Idaho, and Nevada when a Territory;

An act (S. 304) to compensate physicians for services rendered under An act (8. 304) to compensate physicians for services rendered many an order of the United States court of the northern district of Alabama; An act (8. 936) for the relief of John M. McClintock; An act (8. 718) for the relief of Francis Gilbeau; An act (8. 1008) to empower the board of foreign missions of the

Methodist Protestant Church to hold property in the District of Co-

An act (S. 1227) granting an increase of pension to William P. Squires;

An act (S. 2796) to establish a land office at Lamar, Colo.

An act (S. 1492) for the relief of Ellen Sadler, sister of John Sadler; An act (S. 1899) for the relief of Mrs. Lizzie Maynadier Phelps, widow of Capt. Seth Ledyard Phelps, late minister of the United States

An act (S. 2415) for the relief of the trustees of the Christian Brothers' College, of Saint Louis, Mo.; and An act (S. 2349) granting a pension to Catharine Lanigan.

WASHINGTON CITY GAS.

Mr. SPOONER. I desire to call attention to Calendar number 1675, being the bill (S. 2819) relating to the manufacture and sale of gas in the city of Washington, in the District of Columbia, and amendatory of an act entitled "An act regulating gas-works," approved June 23, 1874, I reported that bill by direction of the Committee on the District of Columbia, after a very careful and laborious examination by that committee, and I have watched since the evidence was printed an opportunity to call it to the attention of the Senate, but have been unable to do so. I simply desire to give notice now that in the early days of the session of December next I shall press that bill on the consideration of the Senate.

ENROLLED BILLS SIGNED.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the Speaker of the House had signed the enrolled bill (H. R. 4865) to extend the system for the immediate delivery of letters, and amendatory of sections 3, 4, and 5 of the act approved March 3, 1885, entitled "An act making appropriations for the service of the Post-Office Department for the fiscal year ending June 30, 1886, and for other purposes."

JOHN S. WILLIAMS-VETO MESSAGE.

Mr. PLUMB. I move that the Senate proceed to the consideration

of Order of Business 1751.

The PRESIDENT pro tempore. There is a bill already pending, moved by the Senator from Virginia [Mr. MAHONE], who gave way in-It is now the pending business.

formally. It is now the pending business.

Mr. COCKRELL. How is that? Have we been going on consider-

ing bills while another measure was pending?

Mr. PLUMB. The bill just disposed of was taken up by a vote of

Mr. COCKRELL. I raise the point of order that the bill of the Senator from Virginia is not the pending question.

The PRESIDENT pro tempore. Does the Senator from Virginia

The PRESIDENT pro tempore. Does to claim that his bill is pending?

Mr. MAHONE. No, sir; I withdrew it.

Mr. PLUMB. I move to proceed to the consideration of Senate bill No. 789, granting a pension to John S. Williams.

The motion was agreed to.

The PRESIDENT protempore. The bill is before the Senate, and the question is, Shall the bill pass, the objections of the President of the

United States to the contrary notwithstanding?

Mr. PLUMB. Mr. President, I do not care at this late hour to detain the Senate a great while on this case. I feel some interest in it, for that I believe the bill ought to have been signed by the President and ought to pass over his veto on its merits, and because I happen to have a slight acquaintance with the beneficiary of the bill and know The last report of the Committee on Pensions is as follows:

This soldier served from July 1, 1861, until he was discharged, July 26, 1865, and the question raised in this case is as to the origin or of the incurrence of the disability in the service. He produces the evidence of two comrades, who are shown by confidential inquiries, made on the part of the Pension Office, to be truthful, establishing the origin of the disability in such service; also the evidence of Lieutenant-Colonel, now Judge, Hines, that although he did not witness the accident, yet he heard of it at the time from members of the regiment, of which he was an officer. There seems to be no good reason to doubt that it was so received. The claimant was in a regiment commanded by ex-President Hayes.

Mr. HARRISON. It was a good regiment.

Mr. PLUMB. It was a good regiment, as the Senator from Indiana [Mr. HARRISON] says, and that is worth something as throwing light on the merit of Private Williams's service. The report of the committee, which accompanied the bill on its original passage, is as follows:

tee, which accompanied the bill on its original passage, is as follows:

The claimant, John S. Williams, was a private in Company K, Twelfth Ohio Volunteers, and of Company C, Twenty-third Ohio Volunteers. He applied to the Pension Office for a pension, but his claim was rejected by the Department on the ground "that there is no record of alleged in jury of left shoulder, and that the claimant is unable to furnish the testimony of his surgeon or officers, or other satisfactory evidence of incurrence in the service and line of duty."

The existence of the injury and disability at the present time is admitted. Treatment for two months by the regimental surgeon for injury is slown as a matter of record. The claimant himself and several comrades testify to his receiving the injury, as alleged, in line of duty, and the continuance of the disability from then until the present time is also shown by comrades and other apparently reliable festimony. The claimant shows that the doctors, surgeons, and officers who knew him are dead, and that would seem to be a satisfactory reason for his failure to procure their testimony. We are unable to see any reason for the rejection of this claim. The examining surgeon finds the existence of the disability, and certifies that in his belief from his examination it was received in the service and in line of duty. There is no suggestion of fraud, nor anything to justify the suggestion if it were made.

The Presidential veto is in these words:

To the Senate:

Senate bill No. 789, entitled "An act granting a pension to John S. Williams, is herewith returned without approval.

This claimant enlisted in 1861. He alleges that his shoulder was dislocated in 1862 while ferrying troops across a river. The records of the War Department fail to furnish any information as to the alleged injury. He served afterward until 1863 and was discharged. His claim for pension was rejected by the Pension Burcau in 1882, twenty years after the time he fixes as the date of his injury; and after such long delay he states as an excuse for the unsatisfactory nature of his proof that the doctors, surgeons, and officers who knew him are dead.

Considering that the injury complained of is merely a dislocation of the shoulder, and in view of the other facts developed in the case, I think the Pension Burcau arrived at a correct conclusion when this claim was rejected.

EXECUTIVE MANSION, June 2, 1885.

EXECUTIVE MANSION, June 2, 1886.

I will state, having examined the papers, that all the allegations contained in the two reports f the Pension Committee are correct except one, and the error in that case resulted from the same judgment in regard to a paper found in the files, which I myself first formed, and that was that treatment for two months by the regimental surgeon was shown as matter of record. That was not shown and the committee were misled, as I was misled, on the first examination of the papers by a paper which is found in the files from the Pension Office, which states on the face something like this: "Treatment in hospital for two months;" but that was in the nature of an inquiry, as I afterward ascertained, rather than an assertion.

Coming now to the objections of the President, it must be borne in mind that the reason of the exercise by Congress of its power in regard to pensions is found in the fact that there are a large number of cases in which the technical proof required by the law which the Pension Office administers and which it can not waive is found to be impossible to make. If it were not for that we should not need to pass any bills granting special pensions, and if it were not for similar defects existing in regard to other claims against the Government we should not need to pass any bills for the allowance of private claims, because if we were to hold everybody to the strict letter of the law there would be, of course, no claim whatever upon the equitable authority or power of Congress; and yet we have passed this year, as every year, bills, which the President has signed, paying all sorts of claims against the Government, which the accounting officers of the Treasury under the general law were not permitted to allow.

The passage of a special pension bill is simply the exercise of an ordinary and always conceded power of Congress in regard to the public moneys, and especially in reference to claims that are made with a show of rightfulness on the part of the claimant. It does not, therefore, signify, for the purpose of passing this bill over the veto, that the claimant was not able to obtain his pension through the medium of the Pension Office, and the President himself has recognized this by his signatura

of a large number of private bills conferring pensions in cases where the Pension Office had rejected the applications. In fact, it is a rule of the Pension Committees, which has become a rule of Congress, that claims will not be considered where they have not been presented at the Pension Office and been there rejected, or where the action of the office is at least equivalent to a rejection.

Mr. EDMUNDS. If they are only for the sum the parties would be entitled to by law. Those for a sum known to be outside of the law

may come to Congress directly.

Mr. PLUMB. Or, as the Senator from Vermont states, there are cases which the Pension Office has not jurisdiction of practically, because the amount claimed is greater than the Pension Office is authorized to award, or, as the Senator from Indiana [Mr. HARRISON] suggests, cases where a person is not entitled to a pension under the general law for the reason that he was not mustered, and consequently the Pension

Office would not have jurisdiction to entertain his claim.

John S. Williams served four years as a private soldier, and the fact of this length of service, and especially that portion of it after the incurrence of the disability for which he claims pension, is urged by the President against him. I do not need to appeal alone to those who have had the experience of army service when I say that the fact that a soldier was not treated in a hospital is not conclusive or even very strong evidence that he was not disabled in the service. sorts of disability, both in the military service and among persons in civil life, which are not made the subject of medical or surgical treatment. There is often lack of confidence in the virtues of treatment by medication, and more often still lack of confidence in the skill of physicians. There is often also a feeling of delicacy about submitting to treatment, and many men also refrain from employing a physician from a feeling of indifference; and soldiers from these and other reasons often refrained from going to hospital and from consulting the regimental surgeon. There was often a feeling that the surgeons were not suffi-ciently considerate of the health of the private soldiers—reserving their best skill for the officers. But it is not necessary to dwell upon this reason, for each one of us can doubtless recall more than one person who to our knowledge went through life ailing and finally dying of disordered stomach or lungs or frame, who could not be induced

to take treatment from or consult a physician. Some people delight to parade their ailments; others as sedulously conceal them.

There was, at the outset, and always, more or less ground for distrust of the medical staff of the Army. While comprising very many of the ablest physicians and surgeons of the country it also embraced many new and inexperienced men, some without ability or character. This was the inevitable result of getting together suddenly the medical officers for two thousand regiments and independent organizations and the organization of scores of hospitals. Some Army surgeons delighted to scoff at and make light of the ailments of the men committed to their charge. This was partly from ignorance, partly from laziness, and

partly also from indifference and inhumanity.

Many a private soldier has been repelled from the door of a hospital by the unfriendly aspect and language of the surgeon, and this affected others as well. It is well known that thousands of soldiers preferred to remain sick in quarters under the care of comrades rather than go to hospital for treatment. The Pension Office recognizes this by allowing pensions every day to men who have proven disability occurring in

the line of duty but who have no hospital record.

There was also more or less carelessness about keeping the records of hospitals. At times it was impossible to keep them. It was rare indeed that record was ever made of those who did not remain in hospital under treatment for a considerable period of time. So that Private Williams's claim for pension can not be properly opposed because the record fails to disclose that he was treated in hospital. Two comrades, who are certified to as credible persons, testify that they witnessed the accident or occurrence which resulted in the dislocation of Private Williams's shoulder, and the colonel of his regiment testifies that he knew of the accident and its result by hearing it spoken of among the men at the time. Is anything more needed to satisfy a reasonable person that the claimant's shoulder was dislocated as alleged by him, and that it was while he was in the line of his duty? That the injury still exists

is shown by the examination made by the proper medical officers after application was filed in the Pension Office.

Who that is at all familiar with the proofs furnished in support of private claims, allowed by special act of Congress, but that will say the proof made by Private Williams is equal, if not superior, to that exist-

ing in many cases?

But the President alleges against Williams that he served for nearly three years after the accident, and that he waited until several years after his discharge before applying for pension. Neither of these objections are, in my judgment, tenable.

There were men retained in the service in all regiments who were

measurably disabled-men who could not at all times carry a musketmeasurably disabled—men who could not at all times carry a musket—who acted as orderlies, as hospital attendants, as cooks, and so forth and so on between times, many if not most of whom were always ready and willing to go into battle, and did so go whenever occasion offered. They could not always keep up on the march and endure all the fatigue of those who carried a musket constantly. All who are at all familiar with army affairs will realize the correctness of this statement; and

such men as Williams, who declined to avail themselves of the opportunity presented by the existence of a partial disability to be discharged and to go home out of danger, deserve credit rather than adverse criticism. Nor is the objection that he waited until many years after the expira-

tion of his service before applying for pension tenable. Such cases are being adjudicated favorably in the Pension Office daily. When the war closed the soldiers availed themselves gladly of the op-portunity to go back to their homes. They were intent on getting back as quickly as possible to the pursuits of peace and the enjoyments of home. Very few thought for an instant in that glad hour of applying for pension. The Government was struggling with the fearful financial responsibilities of the great contest, and no good soldier desired to add to its embarrassment in this regard. In the exultation over the victory won, the rejoicing at the opportunity to once more share the delights of home, full of plans for the future, the soldier took little or no account of the aches and pains, the weakened frame, the premature age which years of danger, hardship, and exposure had indelibly impressed upon his physical being. It was enough that the war was over, that he had done his share to bring it to a right conclusion, and that through all its perils he had been spared to witness a united country and to go home to wife and children and father and mother. What cared he then for money? Was he not rich in self-respect, in the respect of all his fellows and in the admiration of all mankind? But when he finally came to settle down to the affairs of peace he found that important changes had occurred, which made it next to impossible that he should assume

precisely his old place in the community.

His place in office, shop, school, church, on the farm, had been filled, and it was not always possible to get it back again or even a similar one. Business had adjusted itself to new men and methods, and he was to a certain extent superfluous. He himself was changed. His horizon had widened. He had been a vital and intelligent part of the greatest war of modern times-had become accustomed to excitement, to danger, to new ideas, new experiences, to great affairs, and the quiet uneventful life on the farm, in the village—the "day of small things" fretted him, and so he changed his location and went West to new and wider fields where his restless energy could find full and free scope. The new States and Territories, the plains and the mountains knew him. He has subdued nature, reclaimed the desert, populated the waste places, quickened all the currents of our national commercial life, and contributed to the enduring prosperity of the whole people. The interest and excitement of his campaigns in these new fields made him in a measure oblivious of the general impairment of health and the specific disabilities resulting from the exposure of his army service. So long, at all events, as he was presperous he would not apply for a pension; but finally the physical break-down comes. It is preceded or accompanied by financial misfortune, and poverty and want even stare the soldier of the Republic in the face. His misfortunes are aggravated by the dependence upon him of wife and children. The Government he helped to save at the risk of health and life is rich. His own labor in the opening up of new areas to settlement and civilization have added vastly to the national wealth, but have impoverished him. Now he recalls the Government promise to compensate him for disabilities incurred in its service, and he applies for a pension. Is he to be told that he waited too long and hence must be denied?

Ought we not rather to commend him for his waiting? The Government has had the use of the money due him meanwhile, and his motives have been like his services-patriotic. Owing to lapse of time he will not be able to make quite so strong a showing on paper as though he had applied before witnesses became scattered and died and the recollection of details faded out of the minds of survivors. But if he can make a fair showing he should not be denied relief. If as is the present case the proof does not satisfy the necessary requirements of the Pension Office then Congress should afford relief by special act. It has the power to waive the production of all proof. Was it improper that it should vote waive the production of all proof. Was it improper that it should vote a pension to Private Williams on the case as made out? The Senate has already passed a bill to pension all ex-Union soldiers who are now disabled and dependent upon their labor for support without requiring proof connecting the disability with the Army service. The case of Private Williams is much stronger.

We have passed many bills for the This man was a private soldier. We have passed many bills for the relief of widows of admirals and commodores and generals and colonels, and so on, where the pensions have been given solely because of the rank of the husband and not upon any pretense whatever that his death was occasioned by reason of service in the Army or the Navy. Ther has been no attempt to make connection between them; and the Pres

ident has promptly signed all such presented to him except one—that of the widow of Major-General Hunter.

After all this will it be out of place if I say a word in favor of the private soldier? I know that when the record of history is made up those persons who get special personal mention are the officers—the major-generals, the brigadier-generals, the colonels, and so on; but the men to whom presses is most due are the men who served in the the men to whom praise is most due are the men who served in the ranks; they did the fighting, and it was fighting which alone saved the Republic.

Their's the poor pay and wretched food. Not a regiment of volunteers but had as intelligent men in the ranks as the one who com-

manded the division they belonged to.

It is not the least of the merits of the private soldier that he con-sented to be commanded by and to obey implicitly officers whom he knew to be incompetent—in many cases all the more hard because often officer and private had been boys together; in most cases they came from the same locality, from the same ranks in life. private soldier obeyed those appointed over him, no matter how hard it went against the grain, because of his patriotic sense of duty. was willing to die and to be forgotten if thereby the Republic might live.

This class of men have had the least recognition. I could look with some patience upon the vetoing of a bill to pension at \$600 a year the widow of a man who had served as an officer and had an officer's pay and emoluments and opportunities in the Army, and who had died from a cause which had no relation whatever to Army service. I could well see how the President might veto a bill of that kind. And yet the President has signed many such bills, bills which give money as a gratuity pure and simple, and a rate of pension five to six times larger

than those given to private soldiers by special act.

Coming back now to the case of private John S. Williams and accepting as correct the President's theory about the testimony, the very worst that can be said is that it is proposed to give a gratuity of not more than \$8 per month to this old soldier who served his country in the ranks for four years. Is that offensive to anybody? Suppose Congress proposes to pick out John S. Williams, who served a whole term in the Twelfth Ohio and a part of a term also in the Twenty-third Ohio, amounting to four years altogether, and say to him that, in the decline of life, by reason of his poverty, it will do a little something to make the last years of his life comfortable. Is that an unwise and improper exercise of the power of Congress, or an extravagant use of the public money? Let any one who thinks it is look over the statutes of the United States and see the gratuities that have been given from time to time based upon less merit than that of a soldier who served faithfully in the ranks during the entire war.

Mr. President, the confederacy went down under the blows dealt by Private Williams and others of the same class, but I venture to say that if the confederacy had triumphed the Southern people would have cheerfully mortgaged their utmost resources in order that their heroes might have comfort and ample recognition out of the public funds for the serv ice they had rendered in bringing about that triumph. That chivalrous people would have stopped at nothing that was consistent with their ability to pay to recognize the merits of that great service. the Union be any less regardful of its obligations? I do not believe that the men who sit on the other side of the Chamber and who served the confederacy under arms will say so, whatever the President may do.

The maximum sum which this man could get is \$8 a month-\$96 a year. Will that make a great hole in the Treasury? Is that the side on which we can afford to err, if we are going to err at all?

Mr. President, I say there is no merit worthy of recognition by the Government that is equal to the merit of the man who staked life and limb and health upon an issue in which he had no personal interest other than that which affected him as a member of society, of the great

body of the people.

Since this bill was passed the Senate has passed a bill providing for pensioning all who served in the Union Army and who now being in straitened circumstances are also disabled in any perceptible degree physically, and so to that extent disqualified from earning a livelihood by the labor of their hands. I do not think any one questions the propriety of that. I do not believe that any one, however constituted he may be, however lacking in human sympathy, would say that it was a right or a proper thing that there should ever be found in actual want and distress, under the shadow of the Stars and Stripes, a single one of all the men who helped to make up the Army that saved the coun-

Ninety-six dollars a year is not a very great barrier between a man Ninety-six dollars a year is not a very great parrier between a man and want, and yet John S. Williams, a private soldier of four years' service, poor and broken down and almost helpless, and soon to join the great majority, may and probably will be exposed to want if not relieved by local charity on account of the lack of this pitiful sum which the President by his veto forbids to be given.

Is this a fair and proper exercise of the veto power? Is this work suitable to the sense of justice which ought to characterize the President by Nith Main and President States.

dent of the United States? Is this the full measure of his opportunity? Are there no greater things of concern to the well-being of the people, which being within the proper purview of his high duties, he could turn his attention to? Is he sure that in saving \$96 a year at the expense of Private Williams he is not overlooking greater extravagance somewhere else?

The total amount saved to the Treasury, I have been told by a member of the Pension Committee, if all the vetoes of private pension bills by the President should stand will not amount to the salary of the

President for a year.

Mr. BLAIR. About half that.

Mr. PLUMB. About half that, the Senator from New Hampshire says. I do not speak of that because there is any relation between the two things, but I speak of it in order that I may have some basis of comparison between that which is called extravagant and that which is recognized as being proper and economical.

Mr. President, the Senator from Tennessee [Mr. WHITTHORNE] yesterday in justifying the veto of the President in the Nottage case said, I think, that the great peril this country was under was from the propensity to special legislation, and he said also, in substance, that the only barrier between the country and that peril was the veto of the President. If that is the case, I do not see what is the use for Congress. If the only barrier between the country and destruction from an unwise and extravagant appropriation of public money and from the evils of special legislation is to be found in the President, why not deposit all the power in the President at once and be done with it? Why not take away from Congress that which, according to the statement of the Senator from Tennessee, it so misuses and so abuses, and say to the President of the United States, "You shall spend the public money; you shall perform, according as your superior judgment shall dictate, all the functions which are now performed by Congress?"

I know how difficult it is at this period, removed so far from the great struggle between the Union and the confederacy, to realize what sacrifice was required and what sacrifice was freely made in order that the cause of the Union might triumph. I know how liable, how apt we are to forget it, to overlook it. But it is wise for us to often recur to it. It is by recurring to that time, to the patriotism that was then evinced, that we find encouragement and hope for the future. If it were not for that, if we had not in our history the spectacle of two millions of men voluntarily enlisting for the defense of the country against an armed foe, without question as to compensation, and when the war was over quietly returning to the duties of peace without asking anything for themselves on account of their service, we might well in the clash of interests now occurring despair of the Republic; but the patriotism that was then manifested still exists, and it will be equal to all future emergencies, not necessarily of battle and bloodshed, because those will not likely occur, but in the more trying time which will come from the contention of interest and rights, which will call for self-sacrifice and a wisdom born of a love of country and of liberty.

And as part of the evidence that we do recall those services, that we are not forgetful of them, and that they to-day constitute the hope, the belief that the country is not to succumb to foes internal or external, but is to go on and on "a government of the people and by the people and for the people," growing stronger each succeeding generation, we can afford to give liberally to relieve the necessities of those

who rendered this service.

Mr. President, I do not believe that the Senate of the United States will fail in the recognition that it has the chance to give of the service of one of that great army to whom the country owes its power, its prosperity, and its existence; will not deny the application of Private Williams for such pension, as coupled with the little labor he is able to do, will keep the wolf from the door and serve to show him that the Republic which he served has not forgotten him in his hour of need.

Mr. WHITTHORNE. Mr. President, I would not seek the floor just at this moment, because I have a distaste to make any opposition to appeals, I will not say to the kindly and better feelings of one's nature but of any character, yet I do not wish to submit to a misconstruction of the remarks which I had the honor to submit to the Senate

yesterday.

I did not say or mean to say that the President of the United States was the sole obstacle to the encroachments of corruption in special legislation in this country. I am aware, for one, that there is an honest, patriotic sentiment always existing and always abiding with the great body of the people of this country, and which in any emergency being appealed to, in my judgment, will sustain the institutions and form of our Government. But I did mean to say that among the methods and agencies provided by the wisdom of the men who founded this Government was the conservative power lodged with the Executive of the nation, that conservative power being the veto power. And I turn to my friend from Kansas, who made this reflection, and ask him if in his own knowledge and within the knowledge of every man in this coun-

try there is not an insidious encroachment being made upon our popular institutions through the various representative forms of our Government in the special legislation that is sought.

Sir, in proof of this may I appeal to the record of New York, may I appeal to the record of Chicago, may I appeal to the record of State Legislatures, may I appeal to the history of Congress itself, to attest the fact that in the sulfailed applications which was being used to the record. fact that in the multiplied applications which are being made to these representative forms of our Government for jobs, for individual profit, for special legislation, great harm and great injury is coming into our form of government. And it is only in periodic revolutions made by the people themselves that safety hitherto has been found—I mean in recent years-and to-day when we find an Executive with nerve and courage and wisdom and discretion, who is ready and willing in the thankless job that the President is now engaged in in vetoing or putting his foot upon special legislation, he is doing a service to the great body of the people equal in magnitude to that rendered by its soldiery upon the field of battle. And the intimation made that the President of the United States is not in sympathy with those who in time past have preserved our Government, have preserved its honor and its integrity, does him injustice, because if you compare the number of bills (andwill undertake to say that I am correct in that estimate) that have been vetoed by the President with the number of bills that have

been rejected by the Pension Committees of the two Houses, you would see that the Pension Committees have rejected more applications than see that the Pension Committees have rejected more applications than the President has vetoed. Shall the Pension Committees of the two Houses be called derelict in duty or wanting in sympathy with the soldiers of this country because they do not favorably pass every claim that is submitted to them? That kind of logic will not do, Mr. President of the president dent. It does injustice to the members of the committees; it does injustice to the Senate; it does injustice to the President of the United

But the argument is made, and was made yesterday, that up to the commencement of this administration the history of the country showed one hundred and nine vetoes, and that the history of this administration shows about an equal number. Sir, will the gentleman who made that comparison in order to make it just go back in the history of the Government and make the comparison as to the number of bills introduced into the first Congresses of the United States and the number of bills introduced in this Congress? Will gentlemen who want to do justice to the President take the number of pension bills that have been introduced in former Congresses and bills that have been introduced in this—will they take the number of bills that have been approved by the Presidents heretofore and the number of bills that have been approved by President Cleveland, then make the comparison and let it run all through? And I venture in doing so it will be seen that I was justified yesterday when I said that this will demonstrate, first, the sympathy of the President with the soldiers of this country, and next, his fidelity to the trust the people have committed to his hands.

I repeat, sir, and it is well to do it, that when you come to look to the pension-roll of this country it is a roll of honor, intended so to be, recognized by the soldiers of the country as a roll of honor. Then compare for one moment the record that is in this case presented to us. In 1862 it appears that in loading a wagon this soldier's arm is dislocated. He continues in the service for three years after. No complaint, no hospital treatment, no surgeon's certificate. Twenty years, or at least ten years, after close of war he applies for a pension.

Sir, take that record and compare it (and I speak of instances before the Pension Committee) with the brilliant one of Stannard, of Vermont. Take it and compare it with Eagan's magnificent record. Take it and compare it with the heroic one of Sergeant Plunkett, of Massachusetts. Those men are entitled to have their names enrolled high upon that record of honor, and no man has been found who will dispute their right to that position. But take this case, not as Sergeant Plunkett with his arms taken off by the shot of the enemies of his country, as he seeks upon each occasion at the loss of an arm to plant the flag of his country in advance of his marching comrades, and ask me, ask any man who is willing to render tribute to the fidelity of a soldier, if this be the record that you ought to make in making up the roll of honor. I

Mr. PLUMB. I wish to quote from the speech of the Senator from Tennessee yesterday to show that he gave a wider application to this subject than he is willing to-day to claim for it.

Special and individual legislation-

He said-

Special and individual legislation is largely the result of the last few years; and, sir, may I not appeal to United States Senators here to-day if they will not agree with me that the great danger to popular institutions is the increase of special legislation, or job legislation, or individual profit secured by legislation that has permeated the municipal bodies of the country, running from the town corporation up to the Congress of the United States? These special individual matters, in their corrupting influences, are destroying the confidence of the people in a popular form of government. To-day, if I had no other credit to give to President Cleveland, I have this, that he knows and realizes this great danger to our popular form of government, and that he has the nerve, the courage, and the wisdom to grapple with it, although it come in this insidious, appealing form.

That I thought was very fairly stating that nobody else had such courage and especially that Congress lacked it. In the next place, that language was used upon a pension bill. It had, I think, reference to the case of Nottage which was before the Senate then. It has reference to the case of John S. Williams, which I am bound to conclude the Senator believes to be special legislation, job legislation, and legislation for individual profit.

I doubt if the Senator from Tennessee would find a very ardent admirer in the President for his defense of him when he says he thinks in vetoing these bills he is rendering greater service to the country than the soldiers themselves rendered on the field of battle. I am at least willing to have the comparison made as the Senator has made it, and leave the country to say whether the vetoing of bills pensioning the private soldiers of the Union Army by giving them practically infinitesimal sums as compared with their necessities is a service equal to the service which they rendered when they interposed their bodies in front of the enemies of the country and in defense of the institutions of the

Mr. President, there is a degree of merit, of course, among all these men, and yet it is not claimed that the man who lost an arm is a more meritorious soldier than the man who escaped that particular form of disfigurement. Many a man served through the Army without being wounded. General Grant was not wounded; and yet can any one measure his service because of wounds upon that basis? Has the country ever made any distinction of that kind? It never has. It !

simply has asked the question, did this person serve as a soldier; was he faithful in that he did not desert, and has he been disabled?

In this case while of course the name of John S. Williams will not be as attractive to the ordinary mind as that of Sergeant Plunkett who lost two arms, while he does not carry with him perhaps that same visible connection between his disability and his service, at the same time he served four years where he was ordered to serve, where he was placed by direction of his superior officers; the Government received his service, was willing to get it, was glad to get it; and to-day he is disabled and poor, broken in health, in the decline of life, ready to fall upon the charity of his neighbors; and yet the vice of special legislation needs to be emphasized by denying to John S. Williams that which is due to

Mr. COCKRELL. Mr. President, John S. Williams enlisted as a private soldier in Company K, Twelfth Ohio Volunteer Infantry, in July, 1861, and so far as this meager record shows, served continuously until the 26th of July, 1865. He was, however, first a private in Company K Twelfth Ohio Volunteers, and afterward in Company C, Twenty-third Ohio Volunteers. Here is the record. We have not the details of it.

In 1861, when the soldiers were called out for the maintenance of the integrity of the Union, by law we promised to those who should be disabled by reason of disease contracted or wounds received in the line of duty that they should be granted a pension, and that the widows and orphans of those who should die from disease contracted or wounds received in the service in the line of duty should likewise be pensioned. Since that time we have enacted sundry laws granting pensions to those who had become disabled for manual labor by reason of disease contracted while in the service in the line of duty, or from wounds re-

ceived in the service in the line of duty.

Mr. Williams applied for a pension and his application was rejected in 1882. I am not sure that the record gives the date of the rejection, but it was rejected in 1882 when the Pension Office was under the control of General Dudley, a gallant soldier and one disabled for manual labor. Why was it rejected? It was rejected because General Dudley said the proof did not show that Mr. Williams received this injury while in the service in the line of duty.

Let us examine that question. Where was this injury received? It was not a wound; it was not a disease in the line of sickness. It was an injury to or a dislocation of the shoulder. When was this dislocation of the shoulder received? In 1862 while ferrying troops across a

Now, mark the time. In 1862 Mr. Williams received this dislocation of the shoulder while ferrying troops across a river. located shoulder in 1862 he continues in the service until July, 1865. After a lapse of many years he applies for a pension on the ground of physical disability existing for manual labor by reason of this dislocation of the shoulder in 1862. He was unable, as the report shows, to furnish the testimony of the doctors, surgeons, and officers who knew him, alleging that they were dead. He presents the testimony of comrades. It is presented to General Dudley, himself a soldier, and General Dudley says that this man is not entitled to a pension under the That was in 1882.

Mr. PLUMB. If the Senator will allow me, let me state to him that he ought to tell us in advance that that is the case with every such bill that comes here; that is to say, the Pension Office has decided that under the law as they construe it and the rules of evidence laid down for them, and by them perhaps, but for them at all events, all the eases which they reject are in the same condition. The Senator ought not to put himself in the attitude of saying that this is conclusive evidence to Congress for rejecting it.

Mr. COCKRELL. No.

Mr. PLUMB. Or he ought not to dwell upon that, because here we consider it as an original case.

Mr. COCKRELL. I have understood it to be the rule in the Committee on Pensions of the Senate not to entertain pension claims until they have been first presented to the Pension Office and disallowed there, but I have always understood, until this session at least, that the Pension Committee reported cases where by reason of some technicality the pension claim could not be allowed by the Pension Office, and not because absolutely there was a want of proof.

The point I am making is this: Here is a soldier receiving a dislocation of the shoulder, mark you, in 1862. He continues in the service until July, 1865. He then fails to apply for a pension until many years afterward and until his officers and the surgeons and others are dead. Then he comes in with the testimony of two or three comrades, and General Dudley, himself a soldier, rejects the pension claim because there is not evidence to show that this disability, which it is now claimed exists, originated in the service in the line of duty.

That was done in 1882, and for over three years this claimant failed to make any application to the Pension Office for a reconsideration or reopening of his case. Any one familiar with pension business knows that the Pension Office is ready at any and all times to reopen and reconsider claims when additional evidence is presented; it is a constant thing; and here this case remains now from 1882 to the present time without any application made, so far as the evidence goes to show that any effort was made, to have the case reopened or reconsidered; and

then an appeal is made to Congress and Congress passes a bill placing

him upon the pension-list, and the President vetoes it.

Now, why? Was there any reasonable ground to suppose that this injury was not received in the service in the line of duty? Was General Dudley wrong when he decided that this disability did not originate in the service in the line of duty?

Mr. HARRISON. That was not the decision at all, if the Senator will allow me. It was simply that the proof offered was not sufficient to show that it did so originate, not that it did not.

Mr. COCKRELL. I am stating what the record shows, and the Senator can interpret it as he chooses.

The case was rejected then, and it comes without any additional testimony to Congress and Congress passes the bill and the President ve-toes it. Let us now see his ground for vetoing it. The President says:

This claimant enlisted in 1861. He alleges that his shoulder was dislocated in 1862 while ferrying troops across a river. The records of the War Department fail to furnish any information as to the alleged injury. He served afterward until 1865 and was discharged. His claim for pension was rejected by the Pension Bureau in 1882, twenty years after the time he fixes as the date of his injury; and after such long delay he states as an excuse for the unsatisfactory nature of his proof that the doctors, surgeons, and officers who knew him are dead.

dead.

Considering that the injury complained of is merely a dislocation of the shoulder, and in view of the other facts developed in the case, I think the Pension Bureau arrived at a correct conclusion when this claim was rejected.

Mr. PLUMB. I notice the Senator emphasized the fact that it was "merely a dislocation of the shoulder." I ask him if he does not hold

that to be a pensionable disability?

Mr. COCKRELL. There is no question of it, but how did it occur?

In 1862 in service in the line of duty, and the soldier remained in the

Army, performing duty, until 1865.

Mr. PLUMB. Does not the Senator think that an injury of that kind might have been apparently latent during a period of time? But the point I make is that the President says, and the Senator emphasizes it in such a way that I presume he thinks there is great merit in that declaration, that it was "merely a dislocation of the shoulder," as though that was one of the things which would not be pensionable.

Mr. COCKRELL. As a matter of course it would be pensionable. It does seem to me that the position taken by the President is correct. We have promised pensions to the soldiers, and they will receive them. There is no disposition on the part of any one to deny to soldiers disabled by reason of disease contracted or wounds received in the service in the line of duty pensions as we have promised them in the law; but is it right, is it proper, is it just that we shall make a general rule and a general law and apply that to all except a few who may have Congressional influence? That is the question. If this applicant is entitled to a pension there are hundreds, there are thousands of others of a like class entitled to a pension, and relief should be provided by general legislation, not by special legislation.

Mr. PLUMB. The Senator speaks by innuendo of those who have Congressional influence. I ask him if he would apply that remark to

those for whom he has himself introduced private pension bills?

Mr. COCKRELL. I do not apply it to those introduced by the Senator from Kansas any more than to those introduced by myself. have introduced a bill for all those who ask it, but I know nothing about the facts of the case. I do not recall that I have introduced a pension bill for more than probably one or two persons whom I personally knew; but if a soldier writes to me that his claim has been rejected in the Pension Office and asks me to introduce a special bill for his relief, if I have time I apply to the Pension Office to know the grounds upon which the case was rejected, and if I ascertain then that he can make no additional proof, that his case is complete as far as it can be made, I introduce a bill for his relief and leave it to the Committee on Pensions to say whether he is entitled to a pension or not. If it is a case where I think he ought to furnish additional evidence, I advise him to apply to the Pension Office and have the case reopened and reconsidered. and reconsidered.

I think that it is our duty, instead of passing these individual pen-sion bills, to pass a general law which will place all who are in a cer-

tain condition upon a perfect equality.

Mr. CULLOM. We can not do that.

Mr. COCKRELL. We may not still be able to reach all, I admit that; there will be exceptions; but I think we are making entirely too many exceptions. We ought to pass general laws so as to place all the soldiers in like condition upon a perfect equality. This is just, this is right, this is fair, and it is what we promised them in 1862 when they were asked to volunteer in defense of the integrity of the Union.

Mr. CULLOM. The Senator is aware that the Senate has passed one bill twice putting all the soldiers substantially upon an equality, but

the other branch of Congress declines to pass it.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had concurred in the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H. Res. 126) directing payment of the surplus in the Treasury on the public debt.

The message also announced that the House had agreed to the amend-

ments of the Senate to the bill (H. R. 5196) to detach certain counties from the United States judicial district of California, and create the United States judicial district of Southern California.

The message further announced that the House had receded from its amendment to the bill (S. 1599) for the relief of the Phoenix National

Bank, of the city of New York.

ENROLLED BILLS SIGNED.

The message also announced that the Speaker of the House had signed the following enrolled bills; and they were thereupon signed by the President pro tempore:

A bill (S. 885) to relieve the State of Colorado from charges on ac-

count of ordnance stores furnished to the State and Territory;

A bill (H. R. 2918) for the relief of William Huntington; and A bill (H. R. 8596) for the relief of Beaufort Lee and others.

MILITARY SITE ON LAKE MICHIGAN.

Mr. CULLOM. I ask to take up the joint resolution (S. R. 78) au-Mr. CULLOM. I ask to take up the joint resolution (S. R. 78) authorizing the Secretary of War to accept certain lands, &c., near Chicago, Ill., for the purpose of fixing a time for its consideration in the first part of the coming session of Congress. The Senator from Kentucky [Mr. Beck] has been opposing the joint resolution, and I have concluded that it is not worth while to try to get it through the Senate at this session. I understand that the Senator from Kentucky is willing that a time shall be fixed for its consideration the first part of next sion.

Mr. BECK. The Senator from Illinois [Mr. LOGAN] who is now absent desired to have this measure acted upon. There were objections made from Cincinnati, Newport, and other places where there are now military reservations and posts. I told him that I would not oppose its coming up but that I should oppose its passage. I think under the circumstances it had better go over until the first Tuesday after the first Monday of December when everybody can be here and there may be a fair judgment upon it. I am not sure that I shall be opposed to it after further consideration.

Mr. CULLOM. In view of the probability that the joint resolution can not be passed at this session, I am willing that it shall be postponed until the first Tuesday after the first Monday in December.

The PRESIDENT pro tempore. If there be no objection the joint resolution is before the Senate, and it will be postponed until the first Tuesday in December.

day after the first Monday in December.

Mr. HARRIS. And make it a special order at that time.

The PRESIDENT pro tempore. Does the Senator from Illinois ask that it be made a special order?

Mr. CULLOM. Yes, I ask that it be made a special order for that

The PRESIDENT pro tempore. The question is on the motion of the Senator from Illinois to make the joint resolution a special order for the time named.

The motion was agreed to (two-thirds of the Senators present voting in the affirmative).

TREASURY SURPLUS.

Mr. ALLISON submitted the following report:

Mr. ALLISON submitted the following report:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H. Res. 126) directing payment of the surplus in the Treasury on the public debt, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

Amendment No. 1: That the House recede from its disagreement to the amendment of the Senate numbered 1, and agree to the same with an amendment as follows: In line 8 of said amendment strike out the word "President" and insert in lieu thereof the words "Secretary of the Treasury;" in line 9 strike out the words "direct the Secretary of the Treasury to suspend" and insert in lieu thereof the word "postpone:" in line 12 strike out the word "suspension" and insert the word "postponement" in lieu thereof; and the Senate agree to the same.

Amendment No. 2: That the Senate recede from its amendment No. 2.

Amendment No. 2: That the Senate recede from its amendment No. 2.

W. B. ALLISON,
N. W. ALDRICH,
J. B. BECK,
Managers on the part of the Senate. W. R. MORRISON, WM. C. P. BRECKINRIDGE, FRANK HISCOCK, Managers on the part of the House.

Mr. ALLISON. I move that the Senate agree to the report of the conference committee, and I ask that the joint resolution may be read as it will stand if the report be agreed to, and I hope it will be placed in the RECORD.

Mr. EDMUNDS. It will be when it is read, of course.

The PRESIDENT pro tempore. The joint resolution will be read as it is recommended to be amended by the committee of conference. The Chief Clerk read as follows:

A joint resolution (H. Res. 126) directing payment of the surplus in the Treasury on the public debt.

on the public debt.

Resolved by the Senate and House of Representatives, &c., That whenever the surplus or balance in the Treasury, including amount held for redemption of United States notes, shall exceed the sum of \$100,000,000, it shall be, and is hereby made, the duty of the Secretary of the Treasury to apply such excess, in sums not less than ten millions per month, during the existence of any such surplus or excess, to the payment of the interest-bearing indebtedness of the United States payable at the option of the Government. The surplus or balance herein referred to shall be the available surplus, ascertained according to the form of statement of the United States Treasurer, of the assets and liabilities of the Treasury of

the United States employed on June 30, 1886: Provided, That no call shall be made under the provisions of this resolution until a sum equal to the call is in the Treasury over and above the reserve herein mentioned: And provided further, That the Secretary of the Treasury, in his discretion, may have in the Treasury, over and above the foregoing sums, a working balance not exceeding \$20,000,000; and whenever, in the case of any extraordinary emergency not now existing, and when, because thereof, in the opinion of the Secretary of the Treasury, the public interests shall require it, he may, by written order, postpone the further call for the payment of such indebtedness for such period of time as shall

be necessary to maintain the public credit unimpaired; and that such postponement, and the reasons therefor, shall be reported to Congress within ten days after its next meeting, or immediately if Congress shall be in session.

Mr. ALLISON. I also ask that the statement of assets and liabilities of June 30, 1886, may be placed in the RECORD immediately following. I will not ask that it be read.

The statement referred to is as follows:

TREASURY OF THE UNITED STATES, Washington, D. C., July 31, 1896.

C. N. JORDAN, Treasurer United States.

Mr. EDMUNDS. May I ask the Senator from Iowa to have put in the RECORD in the same connection the Treasury statement of the pub-lic debt which was issued on those same two dates? It will bring all together, not only the assets and liabilities in the Treasurer's Office but the statement of the public debt for those two periods.

Mr. ALLISON. I have no objection to those two statements also

being inserted.

Mr. EDMUNDS. Is it understood that they may go in the REC-ORD?

The PRESIDENT pro tempore. The Chair understands that that order is made. The tables are not furnished. It is presumed the Reporter will obtain them.

Mr. ALLISON. I will furnish the two statements to the Reporter. The statements referred to are as follows:

Statement of the public debt of the United States for the month of June, 1886.

INTEREST-BEARING DEBT.

The foregoing is a correct statement of the public debt as appears from the books and Treasurer's returns in the Treasury Department at the close of business July 31, 1886. C. S. FAIRCHILD, Acting Secretary of the Treasury.

tary of the Treasury is substituted for the President of the United States who was by the Senate amendment authorized to order a postponement or suspension of the payment of bonds. This was agreed to on the part of the Senate conferees because it was insisted upon by the House conferees, the Senate conferees, or at least a portion of them, believing that the joint resolution would be somewhat weakened with respect to the time when the emergency should arise by leaving the discretion

resentatives.

I desire, as this is the last opportunity, perhaps, that we shall have, to present a summary of the effect of this joint resolution if it shall finally become a law.

The statement of assets and liabilities, as shown by the Treasurer on the 31st day of July, discloses a balance in round numbers of \$80,000,000 as against a balance of \$75,000,000 shown by the same state-

Mr. ALLISON. Mr. President, it will be seen that in the joint resolution as it is now amended by the conference committee the Secretary of the Treasury rather than the President. But we yielded that point on the request of the House of Representatives.

ment on the 30th day of June; so that at this moment there is a surplus of \$60,000,000 in the Treasury beyond the working balance mentioned and agreed to by both Houses in this joint resolution. That is to say, if this resolution shall pass there is now in the Treasury a sum equal to \$60,000,000 which may be applied to the payment of the public debt.

This Treasury balance of July 31, 1886, as compared with the Treasury balance on the 30th of June, 1886, discloses an increase to the extent of nearly \$5,000,000. It is known by Senators that the receipts from customs and internal revenue during the month of July this year are in excess of similar receipts for the month of July last year in about the sum of \$3,000,000. So I think it may be safely stated that the receipts of this current fiscal year will be equal to the receipts of the

last fiscal year, and I believe it is estimated now by those having charge of this matter in the Treasury Department that the receipts this year are likely to be some \$10,000,000 in excess of the receipts of last year.

In order to ascertain how much may be applied to the payment of the public debt during the current fiscal year, it is necessary for us to ascertain what will be the probable expenditures of the current fiscal year. I have in my hand a statement of the amounts of all the appropriation bills as they have passed, save only the appropriations for fortifications. The table has been prepared by Mr. Cleaves, the clerk of the Senate Committee on Appropriations, in conjunction with the clerk of the House committee. I ask that the table may be inserted in the RECORD.

The table referred to follows.

History of the fourteen regular appropriation bills, 1886-'87.

a. Fifty per cent. of the amounts appropriated for the District of Columbia are paid by the United States. The amount for the water department (estimated for 1887 at \$153,453,02) is paid out of the revenues of that department.

b. The appropriations for the postal service are paid out of the postal revenues (estimated for 1887 at \$47,542,252.64), and any deficiency in the revenue is provided for out of the Treasury of the United States.

c. This is the estimate submitted for 1887. "The amount that can be profitably expended," as reported by the Chief of Engineers, is \$42,332,100 (Book of Estimates, page 178).

d. This amount covers deficiency estimates submitted in House Executive Documents Nos. 62, 70, 176, 210, 225, 233, 270, 275, 280, and 294, and Senate Executive Documents Nos. 213 and 218, first session, Forty-ninth Congress.

e. The estimates for increase of the naval establishment are included in the general estimates for the Navy for 1887.

f. This amount is estimated.

g. In addition to this amount for pensions for 1884-'85, an unexpended balance of appropriation, estimated at \$66,000,000, was reappropriated and made available for that fiscal year.

h. In addition to this amount for pensions for 1883-'84, an unexpended balance of appropriation, amounting to \$39,000,000, was reappropriated and made available for that fiscal year.

j. No appropriations were made for rivers and harbors for the fiscal years 1883-'84 and 1885-'86.

k. This amount is based upon laws approved and printed up to July 31, and bills which have passed both Houses.

Mr. ALLISON. I include in this table all the general appropriation bills and also the river and harbor bill. The amount of the river and harbor bill stated separately is \$14,473,900. The total appropriations, including the river and harbor bill, including the deficiency bill,

are \$264,783,579.59. The appropriations for the same purposes for the year 1885-'86 were \$219,595,283.18, or an increase of appropriations this year of \$45,188,296.41; that is to say the appropriations for the current fiscal year are in excess of the appropriations of the last fiscal year in round numbers \$45,000,000.

This increase is made up by an increase in the pension appropriations of \$16,075,200; the river and harbor bill includes \$14,473,900; so that deducting the river and harbor bill, for which there was no appropriation last year, and deducting the increase of pensions, the appropriations of this year for the current operations of the Government are \$14,639,196.41 in excess of the appropriations for last year. This table shows in detail these increases. I shall not occupy time to state them, but I will add that the deficiencies of last year were \$4,000,000, while the deficiencies of this year are in round numbers \$13,000,000.

Mr. COCKRELL. I ask the Senator if that does not include a great

many deficiencies of years previous to the last fiscal year?

Mr. ALLISON. That the deficiency bills always do. Undoubtedly the deficiency bills of this session are in this respect like all other deficiency bills. It is the usual custom to gather up deficiencies of vari-

In addition to that, the Senator from Kentucky [Mr. Beck] calls my attention to the fact that we have made a special appropriation this year for the residuum of the Alabama claims, amounting to \$5,769,-015.28. This table, when analyzed, will show the increases over the appropriations of last year.

In the regular appropriation bills there have been some deductions and some increases. The agricultural bill this year is in excess of the bill of last year \$68,925. I will send this table to the Reporter that he

The appropriation bills for 1887, as compared with those for 1886, show the following changes in amounts:

Title of bill.	Increase over 1886.	Reduction from 1886.
Agricultural Army Diplomatic and consular District of Columbia Portifications. Indian Legislative Military Academy. Navy Pension Post-Office River and harbor. Sundry civil	121, 140 00 98, 367 79 16, 075, 200 00 664, 873 25 14, 473, 900 00	722, 362 33
Deficiencies	9, 034, 025 07 a 40, 536, 431 11 2, 822, 351 80 5, 769, 015 28 3, 500, 000 00 52, 627, 798 19	a7, 439, 501 78

a Net increase above, \$33,096,929.33.

Net increase made by appropriations for 1887 over 1886, \$45,188,296.41.

Net increase made by appropriations for 1887 over 1886, \$45,188,296.41.

Mr. ALLISON. It will be seen that the reduction in the Army bill as compared with last year is \$260,995.29. The increase in the diplomatic and consular bill is \$121,000 in round numbers. The increase in the District of Columbia appropriation bill, one-half of which only is paid by the Government, is \$98,000. The Indian bill this year is \$216,000 less than last year. The legislative bill is \$722,000 less this year than last. I will say respecting the legislative bill, which apparently shows a decrease, that the entire amount of the decrease is disclosed by the fact that there are one hundred and fifty less employés in the Pension Office than last year, the appropriation bill of last year requiring a reduction of one hundred and fifty persons before any new appointments should be made. The Navy bill proper is \$2,000,000 less this year than last. The pension bill is increased \$16,000,000 as I have already stated. Last year we had a fortification bill appropriating already stated. Last year we had a fortification bill appropriating \$725,000.

Mr. EDMUNDS. Do you state what the present fortication bill is? Mr. ALLISON. I do not. I exclude the present fortification bill, because it has not passed, and I think it is not likely to pass.

Mr. EDMUNDS. If it should pass it would increase the amount by

some millions more.

Mr. ALLISON. If it should pass as the Senate committee reported it there would be an apparent increase of nearly \$6,000,000; but the increases with reference to fortifications as indicated by the votes in the Senate arise from the fact that we propose to start anew the rearming of our fortifications, and have made an appropriation to that end of \$6,000,000, which is intended and proposed by the bill itself to extend

over a period of six years.

Mr. HAWLEY. And the Senator may just add a line more, that there is no contemplation whatever that one dollar of that amount will

be called for under about a year or a year and a half.

Mr. ALLISON. Yes; so that although if the fortification bill shall

become a law as it has passed the Senate, it is not probable that within the current fiscal year there will be any greater expenditure than was made during the last year for fortifications.

Mr. HAWLEY. Not so much.

Mr. EDMUNDS. How much was last year's fortification bill?

Mr. ALLISON. Last year's fortification bill was \$725,000, so that if no fortification bill shall pass this year that reduction will be made in the body of the expenditures.

Mr. EDMUNDS. How much was the fortification bill this year,

not yet passed, as it came from the House?

Mr. ALLISON. In the fortification bill this year as it came from the House the House appropriated \$620,000. The appropriation last year was \$725,000.

I think I have stated all the items except only the increase of the naval establishment by a separate bill which passed both Houses and which contains an appropriation of three and one-half million dollars, which contains an appropriation of three and one-half million dollars, which of course in the nature of things will extend not only over this year but probably over two years to come, because it would not be possible for the Secretary of the Navy to expend more than \$1,000,000 of the three and a half million during the current fiscal year.

If all these appropriations are expended during the present fiscal year, and the revenues shall be what they were last year and no more, there will still be a surplus of about \$47,000,000 over and above the expenditures. Of course, in stating that surplus I do not include expenditures for the sinking fund.

I have here a statement of the permanent appropriations of the Gov-

I have here a statement of the permanent appropriations of the Government, including the sinking fund, and I will ask the Reporter to include this in what I am saying.

The statement referred to is as follows:

Permanent and indefinite appropriations for the fiscal year ending June

1	30, 1887.		
1	Smithsonian Institution	\$42,180 0	00
1	Collecting customs revenue. Collecting customs revenue (additional). Equipping the militia. Return of captured and abandoned property.	5, 500, 000 0	00
1	Collecting customs revenue (additional)	750,000 0	00
1	Equipping the militia	200,000 0	00
1	Return of captured and abandoned property	20,000 (00
1	Sinking fund	46 659 BBC (00
1	Interest on public debt	44 622 589 (00
ı	Interest on Pacific Railroad bonds	3, 877, 410	72
1	Salaries and expenses steamboat inspectors	255, 000 (00
1	Salaries and expenses inspectors foreign steam-vessels	35,000 (00
Я	Refunding national banking associations excess of duty	200 (00
1	Promote education of the blind	10,000 (00
1	Internal-revenue drawback	40,000 (00
S	Internal revenue (refunding illegally collected taxes)	35,000 (
1	Internal revenue (refunding moneys erroneously received)	200 (00
1	Internal revenue redemption of stamps	50,000 (00
1	Marine Hospital establishment	450,000 (00
1	Detention and prevention of frauds on customs	50,000 (00
8	Regulating immigration (Customs)	200,000 (00
3	Expenses shipping service	60,000 (00
3	Unclaimed merchandise (Customs)	1,000 (
ı	Repayment to importers excess of deposits	4,000,000 (
3	Debentures or drawbacks, bounties or allowances	8,500,000 (00
3	Debentures and other charges	300 (00
9	Refunding duties on goods destroyed (Customs)	500 (00
g	Refunding moneys erroneously received and covered (Customs)	200 (
i	Debentures and other charges	300,000 (
3	Transportation of the Army and its supplies Pacific railroads (War)	900,000 (00
ı	Ordnance material proceeds of sale (War)	75 000 (
ı	Constructing Mississippi jetties (War). Operating and care of canals and other works of navigation. Removing sunken vessels. Ordnance material, proceeds of sales (War).	150,000 (
9	Operating and care of canals and other works of navigation	200,000 (
ä	Removing sunken vessels	30,000 (
d	Ordnance material, proceeds of sales (War)	2,500 (
1	Sales of small-arms Prize-money to captors. Indemnity to seamen and marines for lost clothing	5,000	
1	Prize-money to captors	7,000	
1	Indemnity to seamen and marines for lost clothing	3,000 (
4	Deposits by individuals for surveying public lands	400,000 (
1	Indemnity for swamp lands to States	50,000 (
1	Refunding money for lands erroneously sold	75,000 (
1	Maryland Institution for Blind	5,000 (
1	Five, 3, and 2 per cent. funds to States (Lands)	200,000 0	
1	Miscellaneous	275 (
1	Mail transportation, Pacific railroads (Post-Office Department)	1,000,000 (
1	Supervisors of elections	100,000 (
1	Salaries of retired judges	42,000 (
1	Salary and expenses, reporter Supreme Court	7,500 (00
1	Total permanent and indefinite	110 010 055	~
I	Deduct sinking fund	46, 659, 000	00
1	Deduct sinking runu	40, 000, 000	v

Mr. ALLISON. The total of these permanent appropriations, if they are all called for during the year, would be \$118,910,955. Deducting the sinking fund, the total of these permanent appropriations will be \$72,251,955. The total of the appropriations is \$264,783,579.59, including the entire appropriations for the maintenance of the Post-Office Department, making a total expenditure exclusive of the sinking fund and including the expenditures of the Post-Office Department of \$336,-

Permanent appropriations exclusive of sinking fund........... 72, 251, 955 00

and including the expenditures of the Post-Office Department of \$350,-934,534.59. So we have practically the postal revenues, which were over \$46,000,000 last year, and which are estimated at \$47,000,000 this year, to set off as against the sinking fund of \$46,000,000.

Assuming that our revenues will be this year what they were last, namely, ordinary revenues \$339,000,000, and postal revenues \$46,000,-000, a total of \$485,000,000, and knowing that we have a balance of \$80,000,000 in the Treasury over and above our liabilities, and that \$60,000,000 of the \$80,000,000 by this joint resolution can be applied to

the public debt, when the resolution shall come into full play, if it does at any time, there will be paid under it \$107,500,000 during the current fiscal year. We assume that the revenues of the current fiscal year will be equal to the revenues of last year, and if that be true, there will be under this resolution if it shall pass a requirement on the part of the Treasury Department to pay \$107,500,000 of the public debt, or within \$29,000,000 of the entire public debt that can be paid between now and 1891

Mr. BECK. A question was asked me in regard to the probabilities of the revenues in view of the statements made by the chairman of the committee. The gain from customs and internal revenue for the month of July as compared with the corresponding month of last year was \$3,000,000.

Mr. ALLISON. Yes, sir.
Mr. BECK. And all the financial statements made are based upon the present condition, and we know that there will be a swell of from 15 to 20 per cent. It is perfectly certain, unless something unforeseen shall happen, that there will be an increase of revenue of from 15 to 20 per cent. upon customs and internal revenue this year over last. For the month of July as compared with the month of July a year ago there was an increase of over \$3,000,000, and the chances are that it will be about \$3,000,000 a month, making \$36,000,000 for the year more than is now stated.

Mr. ALLISON. That is the estimate of the Senator from Kentucky. The present estimate of the Treasury Department is that the revenues

Mr. ALLISON. So they did. I desire to emphasize the statement.

Mr. BECK. And even last year the actual revenues ran \$25,000,-000 or \$30,000,000 more than the estimate.

Mr. ALLISON. So they did. I desire to emphasize the statement. that, assuming that the revenues are the same, that the expenditures are kept within the appropriations, which are \$45,188,296.41 more than they were last year, there will be paid, if this resolution shall be adopted, during the current fiscal year \$107,000,000 upon the public debt, which is within \$29,000,000 of all the debt that can be paid until 1891.

I wish to say one word further respecting this resolution, and that is, that, judging from the past, no detriment is likely to occur if the resolution shall become a law. The Senator from Maryland [Mr. Gorman] the other day, in reply to some criticisms of mine respecting the surplus in the Treasury, stated that the surplus was enhanced because of the danger of a depletion of Treasury gold. I have looked carefully at the statements made by the Treasury showing its monthly assets and liabilities, which statements disclose that the first call by the presand natificially which statements disclose that the first call by the present Secretary of the Treasury was made for bonds on the 29th day of December, 1885, payable thirty days thereafter, and on the 1st day of February, 1886, there was in the Treasury \$136,000,000 of gold, speaking in round numbers, on the 1st day of March \$144,000,000 of gold, on the 1st of April \$151,000,000 of surplus gold, on the 1st day of May \$150,000,000, on the 1st day of July \$156,793,000, and on the 1st day of August \$158,933,005. The entire statement is as follows:

Net gold in the Treasury on the 1st day of the undermentioned months.

1885.	
April	\$125, 793, 256
1886.	
February	136, 086, 610
March	144, 164, 037
April	151, 379, 524
May	155, 865, 307
June	156, 304, 709
July	156, 793, 748
August	158, 933, 005

Receipts for fiscal year ending June 30, 1886, \$336,144,290.87.

Mr. EDMUNDS. Not "surplus gold." You have used the word

Mr. EDMUNDS. Not "surplus gold."

"surplus."

Mr. ALLISON. I do not mean to say surplus in the sense of an actual surplus according to the Treasury statement.

Mr. EDMUNDS. Above the one hundred million.

Mr. ALLISON. I mean including the reserve of a hundred millions of gold held for the payment of United States notes, which has been so held and set apart by the Secretary of the Treasury, and which by this joint resolution for the first time in the history of our legislation is absolutely dedicated and devoted by law to the payment of United States notes and to no other purpose whatever.

notes and to no other purpose whatever.

So keeping in mind now that we are about to pass a resolution which will place it out of the power of the Secretary of the Treasury to touch one dollar of this one hundred millions, except and only for the purpose of redeeming United States notes, he had on the 1st day of August a surplus over and above that in gold coin and bullion of \$58,933,000, or in round numbers about \$59,000,000.

I make this statement for the purpose of showing that in the nature of things in the operations of the Treasury, taking into account the appropriations which we have made at this session of Congress, applying to the current fiscal year, and taking into account the reasonable and probable revenues of our Government, this resolution can go into full play without in any way, in my judgment, embarrassing the Treasury

with reference to its credit or with reference to paying the appropriations and the current obligations of the Government.

I ask that the tables to which I have made allusion may be inserted in the RECORD consecutively as I have called attention to them.

The PRESIDENT pro tempore. That order will be made, if there be

Mr. BECK. Mr. President, I desire only to say a word. stated by the Senator from Iowa in regard to the payment of \$50,000,000 of debt since the 1st of January, payable in coin, and the increase of coin in the Treasury from the time we began paying that \$50,000,000 coin in the Treasury from the time we began paying that \$50,000,000 until the time the money was all paid, shows that there is no need for any alarm about gold fleeing away. It has increased largely, while \$50,000,000 have been paid out and four million more of bonds called. But, as I have stated, I dissent altogether from the idea of there being any dedication to a special use of any hundred million, or that there is here any change of law in that regard. Whatever the law was in regard to the hundred millions before this resolution came in, it stands so to-day. While I do not care to argue that now, I desire to enter my denial of the assumption that the House has in any way changed that hundred millions from what it was before this resolution came in.

Mr. ALLISON. Then the Senator must believe that that sum was

dedicated before.

Mr. BECK. I mean to say that if it was dedicated before it is dedicated now, and if it was not it is not by this resolution changed; and not believing that there was any dedication before, or that the language in the banking act of 1882 was a constructive dedication by the Treasury Department, or that Congress ever so intended, I mean to say that it stands just as it did, and we will argue that hereafter when

any question comes in regard to dedication.

If it was dedicated before, four or five times during past administrations, it was reduced down to \$90,000,000, \$95,000,000, or \$97,000,000, it is true only for a short period, but it was so reduced, as the table furnished by the Senator from Iowa himself shows.

I mean to say that in my judgment that was right; that while generally \$100,000,000 by common understanding was to be kept there, erally \$100,000,000 by common understanding was to be kept there, yet on the first day of any quarter, the 1st of January, the 1st of April, the 1st of July, or the 1st of October, quarterly payments had to be made which might temporarily reduce it. We paid \$10,000,000 of pensions in one week in July. That brought it down under a hundred millions temporarily while we were making those payments, but we knew that the next day or the day after that the revenues would come in at the rate of a million a day and the deficiency would be restored. There was no violation of duty on the part of the Secretary of the Treas ury, but it shows that there was not such a dedication that the fund could not be touched even temporarily nor that we must keep up taxes to keep it there all the time and every day in the year. But I say that when that question comes to be argued, we will argue it, and I think successfully.

I only rose now to say that this resolution does not change whatever was the existing law in regard to it, and I think I can show there never was any such dedication any more than there was a contract in regard to the sinking fund, which was simply a general agreement that we would pay off our debts at least at the rate of 1 per cent. a year, so as to allow our creditors to see that it was not to become like that of England, a permanent debt, which was not to be extinguished. We have paid over \$500,000,000 more than anybody pretends that the sinking fund requires, and this sinking fund of \$50,000,000 now spoken of has to be applied to the purchase of the very bonds to which the resolution

refers

The 3 percents will be all paid off in thirteen months from the surplus revenue coming in; \$36,000,000 a year the increased revenue will be, at \$3,000,000 a month, while we got last month more than we collected the same month last year, with no reduction of taxation, with \$80,000,000 now lying idle in the Treasury; and this surplus coming in under this resolution, even before the minimum stated is reached, n under this resolution, even before the minimum stated is reached, every one will be paid off, and then not one dollar of United States indebtedness can be paid until 1891, and then Congress will have to meet the question, Will you reduce the taxes, which you have refused to do, or will you lock up your money in the Treasury, or will you pay a premium on the bonds, or will you make extravagant appropriations to get rid of it? The country will demand a reduction of taxation, and you can not make any excuse for longer refusing that reduction. That is the reason I want the debt paid, and paid promptly, so that that issue may be met. sue may be met.

Mr. EDMUNDS. I entirely agree with the Senator from Kentucky Mr. BECK] that we ought to use all safe available balances in the Treasury to reduce the public debt if it can be done with safety to the public interest, and that is all that he wants; but I beg to differ with him most decidedly in regard to what this House resolution means and It has been open to doubt and dispute heretofore whether the \$100,000,000 of gold coin that has been spoken of—not silver coin, but gold coin—that has been held in the Treasury as a fact for the redemption of United States notes, by this resolution is devoted firmly and absolutely to that purpose. There I differ with him. I say it is; and for the first time, as the Senator from Iowa [Mr. Allison] has said, in the legislation of the country the House of Representatives, rising to the importance of the occasion, for the preservation of the public credit, and building perhaps—no, that would not be respectful—building as well as it knew, undertook, in providing for paying out this balance, to have everybody understand that there must be hereafter, by force of positive law, held in the Treasury the reserve of \$100-000,000 in gold for the redemption of these notes, and that that reserve must be kept up all the time. It describes it in the very first two lines of the resolution as a recognized amount held for the redemption of these notes and when it comes toward the end of the resolution it dethese notes, and when it comes toward the end of the resolution it describes by what test that definition is to be solved, and that is the test of the report of the assets and liabilities made by the Treasurer of the United States of date of the 30th of June, 1886, in which is stated in terms as among the liabilities of the Government, the coin, taking the place and representing the notes, reserved "for redemption of United States notes, acts January 14, 1875, and July 12, 1882, \$100,000,000" in gold coin, as is shown in the upper part of the statement.

So, then, however doubtful it may have been before, it is now solidified and crystallized into a statute of the United States, as it ought to be, that the safety and security of the creditor not only of the Government, but of every institution in it and of every business man and every laborer in it (for all their interests are the same as regards panies and dangers), has at last been made certain to the extent of this \$100,000,000, which is the bottom to which even the national-bank notes and all other debts run at last, as the bank notes are payable in United States notes and United States notes in coin. Thus the Treasury is able to stand a run, holding this all the time by force of positive law, and being kept up by force of this positive law as a means of keeping up the credit of the United States notes, upon the credit of which the national-bank notes and every other credit enterprise of the

country rest, as everybody knows. Mr. President, that is the only good thing of necessity that there is in the resolution at all, for with the amendments agreed upon by the conference committee, it simply authorizes and requires the Secretary of the Treasury to do exactly what he is authorized and required to do by his public duty and the law now as an administrative affair. It is true the law does not affirmatively require him to reduce this balance by redeeming the public debt that is redeemable as far as it is safe, but it authorizes him to do that, as it has all his predecessors from the beginning of the Government until this day; but somehow or other it has been felt that the present Secretary of the Treasury, under whatever influence, has not come up to the conduct of his predecessors, and that the Congress of the United States has not sufficient confidence in him and in his chief to believe that they can be permitted to exercise their discretion in redeeming this public debt as fast as they safely can, but they must be coerced into it by an act of Congress. Well, I am willing to coerce them to this extent, and still leave it safe.

But it is a little extraordinary, I confess, that this balance has been accumulating and accumulating since this administration came in, and is very much larger now than it was when they began, and that we are now called upon by an act of Congress to exert a pressure upon the administration of the finances of this country to pay it out. I am sorry, I regret that there seems to be ground apparently in the minds of the two Houses and of these conferees to suppose that the administration of the finances under existing law is not precisely what it ought to be. I am very sorry that anybody thinks so.

So, Mr. President, with this statement of assets and liabilities which is embodied by reference in this joint resolution as to what this balance of a hundred millions is, that it is in gold coin, and that it is held according to law and must be held according to law for this purpose, I am willing to vote to agree to the report of this conference committee, for all that it means is that we have solidified and made final the question of the greenback redemption fund of one hundred millions in gold as a thing that must permanently remain in the Treasury, and all else we have done is to stimulate the Secretary of the Treasury to do the duty that his predecessors had done in running down the public debt as fast as could be done with safety.

Senators have said on a former occasion that this might be reduced a great deal lower, and that there is no danger in running out of the money in the Treasury. That is perfectly true so long as there is no panic or disturbance. A ship may sail without any ballast at all when the seas are smooth and the winds do not blow; but you test the strength of the credit of the business of this country and of its Treasury. strength of the credit of the business of this country and of its Treasury, upon which it all rests in our system of national-bank notes and greenbacks as legal tenders—you test the strength of that system only when the time of pressure and disaster comes. Then is the time that you require this balance in the Treasury to preserve the interest of every business man and every laboring man in the country, because we can not forget when we are talking about the interest of the tax-payers and the laboring man and the small business men that whenever. and the laboring men and the small business men that whenever a disaster has come in the history of this country or any other it always has fallen and it always will fall, not upon the rich men, not upon the great banking institutions and corporations in its heaviest degree, but the heaviest of the burdens and the greatest of the disaster runs down to those men of small means, or of no means at all, who are thrown out of employment by a public panic.

Therefore it is for the highest interest of the humblest people in the Brown].

community, of the great body of the people of the community who are without great capital, that the credit of the Government by this ef-

Mr. CALL. I wish to say that if I had supposed the true construction of the resolution as amended by the Senate was to dedicate \$100,-000,000 to any purpose so as to put it beyond the reach of the Secretary of the Treasury in any exigency that might arise, I should have voted against it, and I shall always, as far as I am concerned, vote against the retention of any large portion of money in the Treasury of the United States from the control of the Secretary in any exigency that may arise.

The PRESIDENT pro tempore. The question is on agreeing to the

conference report.

The report was concurred in.

ORDER OF BUSINESS.

Mr. HARRIS. I move that the Senate proceed to the consideration of executive business

Mr. ALLISON. Before that is done I think now I can appeal to my friends on this side of the Chamber and on the other to take up the resolution about final adjournment and fix an hour for adjourning to-

Mr. HARRIS. If I can have a few minutes for executive session after disposing of the resolution I shall be satisfied.

Mr. EDMUNDS. We can have it to-morrow.

Mr. HARRIS. I suggest that we have one for a few moments tonight. Mr. EDMUNDS.

We can have it to-morrow just as well.

Mr. HARRIS. We can have it better to-night, because to have some references made is the only object I have in view.

Mr. PLUMB. I ask the Senator from Tennessee to withdraw his motion until we can have a vote on the pension bill, which was discussed this afternoon and which I think can be taken without further debate.

Mr. HARRIS. If we can have a vote at once I shall withdraw the motion for the purpose suggested by the Senator from Kansas.

Mr. PLUMB. There is a quorum present now and there may not be

Mr. COCKRELL. A vote on the John S. Williams bill?

JOHN S. WILLIAMS-VETO MESSAGE.

The PRESIDENT pro tempore. The motion to go into executive session being withdrawn, the question is, Shall the bill (S. 789) granting a pension to John S. Williams pass, the objections of the President of the United States to the contrary notwithstanding? The yeas and nays will be taken.

The Secretary proceeded to call the roll.

Mr. GORMAN (when his name was called). On this question I am paired with the Senators from Maine [Messrs. Hale and FRYE].

Mr. KENNA (when his name was called). I am paired with the Senator from Minnesota [Mr. Sabin]. If not paired, I should vote "nay." My colleague [Mr. CAMDEN] is paired with the Senator from

Rhode Island [Mr. ALDRICH].

Mr. RANSOM (when his name was called). I am paired with the Senator from Illinois [Mr. Logan]. He, no doubt, would vote "yea" if present, and I should vote "nay."

Mr. McMILLAN (when Mr. Sabin's name was called). My colleague [Mr. Sabin] is paired with the Senator from West Virginia

[Mr. Kenna].
Mr. SAULSBURY (when his name was called). I am paired with

the Senator from Vermont [Mr. MORRILL].

Mr. SEWELL (when his name was called). I am paired with my colleague [Mr. McPherson].

Mr. SPOONER (when his name was called). I am paired with the Senator from Mississippi [Mr. WALTHALL].

The roll-call was concluded.

Mr. GEORGE. I am paired with the Senator from New Hampshire [Mr. Pike]. If he were present, I should vote "nay." My colleague [Mr. WALTHALL] is absent, attending a sick friend. If present, he would vote "nay." He is paired with the Senator from Wisconsin

Mr. HARRIS (after having voted in the negative). I desire to ask if the Senator from Massachusetts [Mr. DAWES] is recorded as having

The PRESIDENT pro tempore. He has not voted.

Mr. HARRIS. No pair has been announced for the Senator from

Massachusetts. I agreed to pair with the Senator from Massachusetts [Mr. HOAR] upon all questions except where my negative vote would kill two votes in the affirmative, and upon those questions to be at liberty to vote as I pleased. I now withdraw my vote and announce my pair with the two Senators from Massachusetts.

Mr. CULLOM. The Senator from New York [Mr. MILLER] left the Senate Chamber this afternoon and told me he was paired with

some gentleman whose name I have forgotten.
Mr. COCKRELL. I announced that pair.

Mr. BERRY (after having voted in the negative). I am paired with the Senator from Nevada [Mr. Jones]. I ask to withdraw my vote.
Mr. SAWYER. I am paired with the Senator from Georgia [Mr. Mr. SAULSBURY. On this question I announced that I was paired with the Senator from Vermont [Mr. Morrill]. The question requiring a two-thirds vote, an equal pair on a question of this kind is not proper. I therefore transfer my pair with the Senator from Vermont to the Senator from Arkansas [Mr. Berry], so as to have two pairs in that case; and I vote "nay."

Mr. SAWYER. I vote "yea."

I vote "yea."
I vote "nay." Mr. RANSOM.

Mr. HAWLEY. My colleague [Mr. PLATT] is absent. He is paired with the Senator from South Carolina [Mr. HAMPTON].

Mr. HEARST. I am paired with my colleague [Mr. STANFORD],

and therefore do not vote.

Mr. CULLOM. The Senator from Nebraska [Mr. VAN WYCK] informed me that he was going away, and was paired, I think, with the Senator from Nevada [Mr. FAIR].

Mr. GIBSON (after having voted in the negative). I desire to re-call my vote. I am paired.

call my vote. I am paired.

The PRESIDENT protempore. Senators are reminded that, although a quorum is present, a quorum has not voted.

Mr. EDMUNDS. Let the Chair announce the result.

Mr. COCKRELL. I desire to state that I paired with the Senator from New York [Mr. MILLER], and I left it with the Senator state that I paired with the Senator from New York [Mr. MILLER], and I left it with the Senator state that I paired with the Senator from New York [Mr. MILLER], and I left it with the Senator state that I paired with the but I reserved the right to vote at all times to make a quorum.

The result was announced—yeas 19, nays 15; as follows:

	LS-	

Allison, Blair, Chace, Conger, Cullom,	Dolph, Edmunds, Evarts, Harrison, Hawley,	Ingalls, McMillan, Manderson, Mitchell of Oreg., Palmer.	Plumb, Sawyer, Sherman, Wilson of Iowa.
Cunom,	250000000000000000000000000000000000000	NAVS-15	

Beck; Blackburn, Call, Cockrell,	Coke, Colquitt, Eustis, Gray,	Jones of Arkansas, Pugh, Ransom, Saulsbury,	Vest, Whitthorne, Wilson of Md

Fair.	Jones of Nevada,	Pike,
Frye,	Kenna,	Platt.
Chamma	Loman	Diddlehousen

The PRESIDENT pro tempore. No quorum has voted. Mr. EDMUNDS. I move that the Senate adjourn.

The motion was agreed to; and (at 6 o'clock and 2 minutes p. m.) the Senate adjourned until to-morrow, Thursday, August 5, 1886, at 11 o'clock a. m.

CONFIRMATIONS.

Executive nominations confirmed by the Senate, August 2, 1886. UNITED STATES CONSULS-GENERAL.

Wendell A. Anderson, of La Crosse, Wis., to be consul-general of the United States at Montreal, for the British North American Provinces.

James M. Morgan, of South Carolina, to be consul-general of the United States for the British colonies in Australasia, at Melbourne.

CONSULS OF THE UNITED STATES

David W. Burke, of New York, to be consul of the United States at Puerto Cabello.

Wallace S. Jones, of Florida, to be consul of the United States at

Jacob Schoenhof, of New York city, N. Y., to be consul of the United States at Tunstall.

RECEIVERS OF PUBLIC MONEYS.

Luke A. Burke, of Ipswich, Dak., to be receiver of public moneys at

William G. Hobbs, of Cassville, Mo., to be receiver of public moneys at Springfield, Mo.

James N. Welch, of Detroit, Mich., to be receiver of public moneys

at Detroit, Mich.

REGISTERS OF LAND OFFICES.

Edwin D. Steele, of Greensborough, N. C., to be register of the land office at Evanston, Wyo.

David Webb, of Covington, Ind., who was designated during the recess of the Senate, to be register of the land office at Salt Lake City, Utah.

UNITED STATES MARSHALS.

Charles M. Newlin, of Delaware, to be marshal of the United States for the district of Delaware.

George W. Miller, of Pennsylvania, to be marshal of the United States for the western district of Pennsylvania.

Herman G. Weber, of Illinois, to be marshal of the United States for the southern district of Illinois.

William W. Allen, of Alabama, to be marshal of the United States for the middle and southern districts of Alabama.

Elias M. Boykin, of South Carolina, to be marshal of the United States for the district of South Carolina.

Henry C. Urner, of Ohio, to be marshal of the United States for the southern district of Ohio.

Elijah Gates, of Missouri, to be marshal of the United States for the western district of Missouri.

William K. Meade, of Arizona, to be marshal of the United States for the Territory of Arizona.

Thomas Fletcher, of Arkansas, to be marshal of the United States for the eastern district of Arkansa

Ezra Baird, of Lewiston, Idaho, to be marshal of the United States

First Dark, of School, Tanks, which is the Territory of Idaho.

Nathan D. Bates, of Preston, Conn., to be marshal of the United States for the district of Connecticut.

Van V. Richardson, of North Carolina, to be marshal of the United States for the eastern district of North Carolina.

UNITED STATES ATTORNEYS.

David Turpie, of Indianapolis, Ind., to be attorney of the United States for the district of Indiana.

G. Chase Godwin, of Grand Rapids, Mich., to be attorney of the United States for the western district of Michigan.

Dupont Guerry, of Americus, Ga., to be attorney of the United States

for the southern district of Georgia.

William G. Ewing, of Chicago, Ill., to be attorney of the United States for the northern district of Illinois.

Arthur K. Delany, of Wisconsin, to be attorney of the United States for the eastern district of Wisconsin.

William H. White, of Washington Territory, to be attorney of the United States for the Territory of Washington.

John Catlett Gibson, of Virginia, to be attorney of the United States for the eastern district of Virginia.

Joseph W. House, of Arkansas, to be attorney of the United States for the eastern district of Arkansas.

COLLECTORS OF CUSTOMS.

Horace B. Moore, of Minnesota, to be collector of customs for the district of Duluth, in the State of Minnesota.

Frank M. Porch, of New Jersey, to be collector of customs for the district of Bridgeton, in the State of New Jersey.

Bradley B. Smalley, of Vermont, to be collector of customs for the district of Vermont, in the State of Vermont.

TERRITORIAL CHIEF-JUSTICE.

James B. Hays, of Wisconsin, to be chief-justice of the supreme court of the Territory of Idaho.

TERRITORIAL JUSTICES.

Henry P. Henderson, of Mason, Mich., to be associate justice of the supreme court of the Territory of Utah.

Charles M. Thomas, of Bowling Green, Ky., to be associate justice of the supreme court of the Territory of Dakota.

Lafayette Dawson, of Missouri, to be United States judge for the district of Alaska.

INDIAN AGENTS.

Charles E. Sausser, of Lebanon, Ohio, to be agent for the Indians of the Yakima agency, in Washington Territory.
Wilson H. Talbott, of Grand Junction, Colo., to be agent for the In-

dians of the Tulalip agency, in Washington Territory.

Mark W. Stevens, of Flint, Mich., to be agent for the Indians of the Mackinac agency in Michigan.

Benjamin P. Moore, of New York city, to be agent for the Indians of the Colville agency, in Washington Territory.

SURVEYORS OF CUSTOMS.

Jeremiah W. Coveney, of Boston, Mass., to be surveyor of customs for the district of Boston and Charlestown, in the State of Massachusetts

August M. Kuhn, of Indiana, to be surveyor of customs for the port of Indianapolis, in the State of Indiana.

SUPERVISING INSPECTOR OF STEAM-VESSELS.

George Hays, of Minnesota, to be supervising inspector of steam-vessels for the fifth district.

SECRETARY OF LEGATION.

Christian M. Siebert, of New York city, N. Y., to be secretary of the legation of the United States to Chili.

APPOINTMENTS IN THE ARMY.

Colonel.

Fitz-John Porter, late colonel of the Fifteenth Infantry, to be colonel in the Army of the United States, to rank as such from May 14,

1861 (that being the grade and rank held by him at the time of his dismissal from the Army), in accordance with the provisions of an act of Congress approved July 1, 1886.

Assistant Adjutant-General.

Capt. Theodore Schwan, of the Eleventh Infantry, to be assistant adjutant-general with the rank of major, July 6, 1886.

PROMOTIONS IN THE ARMY.

Third Regiment of Infantry.

Maj. Horace Jewett, of the Sixteenth Infantry, to be lieutenant-colonel, August 1, 1886, vice Gibson, promoted to the Fifth Infantry.

Fourth Regiment of Infantry.

First Lieut. Walter T. Duggan, to be captain, August 1, 1886, vice Parke, promoted to the Sixteenth Infantry.

Second Lieut. Charles J. T. Clarke, to be first lieutenant, August 1, 1886, vice Duggan, promoted.

Fifth Regiment of Infantry.

Lieut. Col. George Gibson, of the Third Infantry, to be colonel, August 1, 1886, vice Wilkins, retired from active service.

Sixteenth Regiment of Infantry.

Capt. John B. Parke, of the Tenth Infantry, to be major, August 1, 1886, vice Jewett, promoted to the Third Infantry.

Second Regiment of Cavalry.

Second Lieut. Lloyd M. Brett, to be first lieutenant, May 4, 1886. Fourth Regiment of Cavalry.

First Lieut. Stanton A. Mason, to be captain, April 24, 1886. Second Lieut. James B. Erwin, to be first lieutenant, April 24, 1886. Second Lieut. Hugh J. McGrath, to be first lieutenant, May 26, 1886. Sixth Regiment of Cavalry.

First Lieut. William Stanton, to be captain, May 21, 1886. Second Lieut. Elon F. Willcox, to be first lieutentant, May 21, 1886.

Seventh Regiment of Cavalry.

Capt. Daniel Madden, of the Sixth Cavalry, to be major, May 21,

Twelfth Regiment of Infantry.

First Lieut. George S. Wilson, to be captain, February 12, 1886. Second Lieut. Wallis O. Clark, to be first lieutenant, February 12, 1886.

Second Lieut. Francis J. A. Darr, to be first lieutenant, May 26, 1886.

Eighth Regiment of Infantry.

Second Lieut. Colville P. Terrett, to be first lieutenant, July 2, 1886.

Eighth Regiment of Cavalry.

First Lieut. Edward A. Godwin, regimental quartermaster, to be captain, July 5, 1886. Second Lieut. Enoch H. Crowder, to be first lieutenant, July 5, 1886.

Additional Second Lieut. Stephen H. Elliott, of the Fourth Cavalry, to be second lieutenant, July 5, 1886.

Ninth Regiment of Cavalry.

Capt. James F. Randlett, of the Eighth Cavalry, to be major, July 5, 1886.

Tenth Regiment of Cavalry.

Second Lieut. Charles H. Grierson, to be first lieutenant, July 6, 1886.

Additional Second Lieut. Seward Mott, of the Sixth Cavalry, to be second lieutenant, July 6, 1886.

First Regiment of Artillery.

Second Lieut. Frank S. Harlow, to be first lieutenant, July 7, 1886. Additional Second Lieut. Thomas B. Mott, to be second lieutenant, July 7, 1886.

Second Regiment of Cavalry.

First Lieut. Colon Augur, to be captain, January 9, 1886. Second Lieut. Alonzo L. O'Brien, to be first lieutenant, January 9, 1886.

Fourth Regiment of Cavalry.

Capt. Edward J. Spaulding, of the Second Cavalry, to be major, Jannary 9, 1886.

Eighth Regiment of Cavalry.

Maj. John K. Mizner, of the Fourth Cavalry, to be lieutenant-colonel, January 9, 1886.

POSTMASTERS,

Patrick Murphy, to be postmaster at Lawrence, Essex County, Massachusetts.

Augustus R. Griffin, to be postmaster at Hempstead, Queens County, New York.

Charles G. McCreedy, to be postmaster at Ballston, in the county of Saratoga and State of New York.

John W. Wright, to be postmaster at Temple, Bell County, Texas.

Andrew H. Shoemaker, to be postmaster at Decatur, Wise County,

Robert K. Vandiver, to be postmaster at Raton, Colfax County, Territory of New Mexico.

F. M. Sexton, to be postmaster at Hazlehurst, Copiah County, Mississippi. Isaac D. Toll, to be postmaster at Petoskey, Emmet County, Mich-

igan. Frank B. Clopton, to be postmaster at Pendleton, Umatilla County,

Oregon. J. J. Mueller, to be postmaster at Ellensburg, Kittitass County, Ter-

ritory of Washington.

John A. Harris, to be postmaster at Cheney, Spokane County, Territory of Washington.

Jeremiah J. Hennessy, to be postmaster at White Sulphur Springs, Meagher County, Territory of Montana.

Thomas McKone, to be postmaster at Chelsea, Washtenaw County,

Michigan. Jonas M. Shallenberger, to be postmaster at Lancaster, Fairfield

County, Ohio.

Albert A. Upton, to be postmaster at West Gardner, Worcester County, Massachusetts.

Arthur Watson, to be postmaster at Northampton, Hampshire County, Massachusetts.

George S. Prescott, to be postmaster at Merrimac, Essex County, Massachusetts

Edward P. Kimball, to be postmaster at Ipswich, Essex County, Massachusetts

Charles Keith, to be postmaster at Greenfield, Franklin County, Massachusetts.

Augustus C. Golding, to be postmaster at Norwalk, Fairfield County, Connecticut

Jeremiah Murphy, to be postmaster at Beverly, Essex County, Massachusetts. Edward P. Kelley, to be postmaster at Bradford, Essex County, Mas-

sachusetts. George R. Guernsey, to be postmaster at Windsor, Windsor County,

ermont. Edmund McKinney, to be postmaster at Keyport, Monmouth County,

New Jersey. James Curran, to be postmaster at Hoboken, Hudson County, New

John C. Anderson, to be postmaster at Eagle Rock, Bingham County,

Territory of Idaho. S. Mortimer Ward, to be postmaster at Georgetown, Georgetown County, South Carolina.

George O. Guild, to be postmaster at Bellows Falls, Windham County, Vermont.

Henry A. Baker, to be postmaster at Rockland, Plymouth County, Massachusetts.

Everett K. Brewer, to be postmaster at Bar Harbor, Hancock County, Maine

William W. Hart, to be postmaster at Murray, Shoshone County, Idaho.

John R. Young, to be postmaster at Hempstead, Waller County, Texas. W. T. Anderson, to be postmaster at Washington, Wilkes County, Georgia

William T. Martin, to be postmaster at Madison, Morgan County,

Clinton Babbitt, to be postmaster at Beloit, Rock County, Wisconsin. James Cannon, to be postmaster at Mankato, Blue Earth County, Minnesota

Julia D. Young, to be postmaster at Wright's Grove, Cook County, Illinois

William Kaough, to be postmaster at Fort Wayne, Allen County, Indiana. William H. Loomis, to be postmaster at Shawneetown, Gallatin

County, Illinois.

Frederick H. Bates, to be postmaster at Elmhurst, Du Page County,

William H. Bowser, to be postmaster at Warsaw, Kosciusko County, Indiana

William H. Wilcox, to be postmaster at Elgin, Kane County, Illinois. Charles S. Avery, to be postmaster at Norwich, New London County, Connecticut.

E. B. Crawford, to be postmaster at Sioux City, in the county of Woodbury and State of Iowa

The above confirmation was accompanied by the following report from the Committee on Post-Offices and Post-Roads; which was ordered by the Senate to be printed in the RECORD:

The Committee on Post-Offices and Post-Roads, to whom was referred the omination of E. B. Crawford to be postmaster at Sioux City, Iowa, submits the

nomination of E. B. Crawford to be postmaster at Sioux City, Iowa, submits the following report:

During the recess of the Senate the President suspended Edwin R. Kirk from the office of postmaster at Sioux City, Iowa, and designated E. B. Crawford to take charge and perform the duties of the said office. Mr. Kirk was a most faithful and competent officer. There was no good reason for his suspension. He is a good man and a faithful citizen. The great majority of the citizens within the

delivery of the office were opposed to the suspension, and did not desire to have him interfered with during the remainder of his term. There is nothing in the case in the slighest degree affecting his integrity as a man or his faithfulness and efficiency as an officer. His term expired on March 15, 1886. The present nomination is made to fill the vacany thus occasioned. The committee therefore reports the nomination of E. B. Crawford with a recommendation that it be confirmed.

William A. McAlister, to be postmaster at Vinton, Benton County, Iowa.

The above confirmation was accompanied by the following report from the Committee on Post-Office and Post-Roads; which was ordered by the Senate to be printed in the RECORD:

by the Senate to be printed in the RECORD:

The Committee on Post-Offices and Post-Roads, to whom was referred the nomination of William H. McAlister to-be postmaster at Vinton, Iowa, vice Stephen A. Marine, suspended, submits the following report:

The suspended officer is a disabled soldier, having lost one of his legs in the military service of the Government during the war of the rebellion. He was a faithful and gallant soldier. He was an efficient postmaster, and no charges were preferred against him other than that he was an "offensive partisan." On account of these he was suspended; and nothing appears in the case reflecting on his character as a man, or his faithfulness or efficiency as an officer.

The present nominee is the third person designated by the President to take charge of the office from which this faithful officer and disabled soldier has been suspended. The first designation turned out to be of so unsavory a record that he was requested to resign and complied with the request. The second designation was a person so objectionable that he was rejected by the Senate. The third and present designation presents a person who seems, from information furnished to the committee, to be of good character and competent to discharge the duties of the office.

The anxiety of the suspended officer was to be informed of the cause of his suspension, and to know whether or not it in any way injuriously reflected on him, either as a man or an officer. He had faithfully served his country as a soldier in the Union Army, and felt that he deserved as honorable discharge from the service of the Government as he had received from the membership of its Army. Until it could be said that alone for partisan reasons he was suspended from his civil office he objected to the confirmation of a successor to his position. This can now be said, and he does not object to the confirmation of a competent successor.

The committee therefore report the nomination of William H. McAlister to the Senate with a recommendation that i

Archibald P. Pounds, to be postmaster at Danville, Hendricks County, Indiana

The above confirmation was accompanied by the following report from the Committee on Post-Offices and Post-Roads; which was ordered by the Senate to be printed in the RECORD:

from the Committee on Post-Offices and Post-Roads; which was ordered by the Senate to be printed in the RECORD:

The Committee on Post-Offices and Post-Roads, to whom the above nomination was referred, having considered the same, respectfully report:

The committee find that certain affidavits were filed against Mr. Kennedy, alleging a few cases of the miscarriage or non-delivery of letters, a refusal to register a letter, neglect to stamp the date of receipt upon letters, certain acts of rudeness to persons calling at the office, &c. One E. D. King, who prints a newspaper called the Gazette at Danville, Ind., files an affidavit alleging that he was allowed by the postmaster to pay the postage on his weekly paper monthly, and that the postmaster had allowed him to take mail-sacks to his printing office for the purpose of mailing his newspaper.

A favor thus extended, which resulted in no loss to the Government, though it may have been a technical violation of orders, is made use of by the man who we must suppose asked, and who certainly accepted, the favor, to prejudice Mr. Kennedy. Most men, we think, would have hesitated to offer a voluntary affidavit under such circumstances. The inspector's report shows that Mr. Kennedy made complete answer to all of these charges, though his statements were not taken in writing, but only reported by the inspector. Mr. Kennedy has since put into the hands of the committee a specific answer to these charges, signed and sworn to by himself and deputy, an abstract of the charges having been furnished him. He has also filed with the committee affidavits from those persons at Danville who do the largest amount of business with the post-office, certifying to the courtesy and faithfulness with which he has discharged the duties of his office.

Among these letters is one from Mr. A. N. Towles, who, the committee are informed, was or is secretary of the Democratic county central committee. Mr. Kennedy has also furnished the committee with a statement signed by one hundred and eighty

DANVILLE, IND., July 12, 1886

Dear Sir: My resignation of the office of postmaster at Danville, Ind., would have been tendered at any time since the 4th of March, 1885, if I had been informed that the same was desired by the administration on account of my being a Republican; but when it was announced that changes would not be made for political reasons, and when charges were presented against me to the effect that I had not properly managed the office, I decided to withhold my resignation until fairly tried upon the charges.

If the investigation before the Senate committee vindicates me, I do not desire to hold the office longer, and hope that the nomination of my successor may be confirmed.

Having discharged the duties of the office to the best of my ability and, as I believe, to the satisfaction of the patrons generally, I am now ready to resign the same to any man in political sympathy with the administration.

Yours, very respectfully,

A. H. KENNEDY.

A. H. KENNEDY.

Hon, Benj. Harrison, United States Senate.

The committee are informed that Mr. Pounds, the nominee, was selected for the place by an election held among the Democrats at Danville, Ind., and, under all the circumstances of the case, the committee have concluded to recommend that the nomination be confirmed.

John M. Higgs to be postmaster at Connersville, in the county of Fayette and State of Indiana.

The above confirmation was accompanied by the following report

from the Committee on Post-Offices and Post Roads; which was ordered by the Senate to be printed in the RECORD:

The Committee on Post-Offices and Post-Roads, to whom the above nomination was referred, having considered the same, respectfully report:

In this case while the charges against Major Ross, if any, have not been furnished to the committee, it appears from the papers which have been sent by the Post-Office Department that the charges are purely of a political character, and did not in any way affect the personal or official character of Major Ross.

A letter from Charles A. Murray, a Democrat and mayor of the city of Connersville, addressed to the President, states: "Mr. Ross is a clever gentleman and is my neighbor and personal friend, but he certainly has no claims upon your administration for official favors. He is a man of considerable means, and probably gave as liberally to the Republican campaign fund last fall, and in previous years, as any man in the county. He has never failed to take an active part personally in political campaigns, city, county, State, and national," &c.

* * "I believe Mr. Ross himself, if asked the question by you, would frankly admit that the defeat of James G. Blaine was through no fault or neglect of his. I believe he is just manly enough to make the admission."

Other Democrats writing in behalf of Mr. Higgs emphasize the point that he is editor and proprietor of the Connersville Examiner, a Democratic paper; that as the county is strongly Republican he never received any of the county printing, and hence the Democrats would like to see him installed as postmaster.

In a letter from Mr. Murray to Senator Yoon Hers the political services ren-

ter.

In a letter from Mr. Murray to Senator Voorhees the political services rendered by Mr. Higgs to his party are detailed and complimented.

The removal was evidently made for political reasons, and Mr. Higgs was designated for appointment on account of political services rendered.

Some objection has been made to Mr. Higgs, growing out of some family matters which occurred many years ago; but taking the whole case together, the committee have concluded to recommend that the nomination be confirmed.

John A. Booe, to be postmaster at Crawfordsville, in the county of Montgomery and State of Indiana.

The above confirmation was accompanied by the following report from the Committee on Post-Offices and Post-Roads; which was ordered by the Senate to be printed in the RECORD:

The Committee on Post-Offices and Post-Roads, to whom the above nomination was referred, having considered the same, respectfully report:

That in response to their call upon the Postmaster-General to be furnished with any papers on file touching the conduct of the postmaster, Samuel M. Robinson, the report of Inspector Torrance to the chief post-office inspector was submitted. This report is not accompanied by the evidence taken, and it seems from the letter of the Postmaster-General that the evidence was not filed in the Department.

inson, the report of Inspector Torrance to the chief post-office inspector was submitted. This report is not accompanied by the evidence taken, and it seems from the letter of the Postmaster-General that the evidence was not filed in the Department.

The charges against Mr. Robinson seem to be twofold: First, that he has purposely or by neglect detained a Democratic newspaper, called The Review, published at Crawfordsville, Ind., in the office, and thus prevented its reaching country subscribers promptly. The committee do not deem it necessary to set forth in detail the report of the inspector. Evidence seems to have been taken at several places. There were complaints from subscribers that the paper, which should have arrived on Saturday, failed to do so a number of times. It was in evidence from the publishers of the newspaper that on one occasion the failure resulted from the breaking of the press, and on another occasion from the lack of ability to get up steam in the engine.

It appears also in the testimony that the failure resulted in some cases from the neglect of the person whose duty it was to make the transfer of the mail at a point upon one of the railroads. No specific occasion is proved when the paper was delivered at the office in time for the mail, when it was not sent out promptly. The postmaster and his deputy both swear positively that the paper never was detained in the office when it was delivered in time for mailing. The evidence upon the subject was in such shape that the inspector himself deduced this conclusion. He says: "The detention of these papers through neglect or otherwise rests either upon the publishing office or the post-office in Crawfordsville where they were mailed.

It does not seem possible that the editor of a weekly paper, noticing the many complaints from different localities and the loss of many subscribers which would naturally follow, would allow, through neglect or otherwise, any failure on his part to have the paper edited and mailed promptly on Friday as advertise

COLLECTOR OF INTERNAL REVENUE.

John T. McGraw, of West Virginia, to be collector of internal revenue for the district of West Virginia.

The above confirmation was accompanied by the following report from the Committee on Finance; which was ordered by the Senate to be printed in the RECORD:

The Committee on Finance have had under consideration the nomination (No. 1312) of John T. McGraw, of West Virginia, to be collector of internal revenue for the district of West Virginia, in place of Samuel P. McCormick, suspended, and, so far as they have been able to obtain the information, they find that Mr. McGraw is a fit and proper person to discharge the duties of the office, and that there are no charges or papers on file reflecting upon the character of Mr. McCormick, suspended, as will appear from the following letter of the Secretary of the Treasury:

the Treasury:

TREASURY DEPARTMENT, March 17, 1886.

SIR: Your communication on behalf of the Finance Committee of the Senate, dated March 16, 1886, asking whether or not "there are any charges on file against the official or moral character of Samuel P. McCormick, late collector of internal revenue for the district of West Virginia, suspended," is received. In reply thereto I have the honor to state that, so far as this inquiry relates to a suspension from office, I feel bound by the rules laid down in the President's recent message to the Senate upon the general subject of such suspensions.

But in order that I may surely act within the requirements of the statute re-

lating to the furnishing by this Department of information to the Senate, I beg leave to remind the committee that the office referred to has no fixed term attached to it, and to further state that the President is satisfied that a change in the incumbency of said office will result in an improvement of the public service, and that the policy of the present administration will be better carried out by such changes.

Except as the same may be involved in these considerations, no papers containing charges reflecting upon the official or moral character of the suspended officer mentioded in your communication are in the custody of this Department. Respectfully, your

D. MANNING, Secretary.

Hon. JUSTIN S. MORRILL, Chairman of the Senate Committee on Finance.

A resolution, as follows, was unanimously adopted by the Committee on Finance, April 6, 1886, in relation to this and all similar letters to the foregoing:
"Resolved, That the letters of the Secretary of the Treasury to the Committee on Finance, dated March 16, 1886, or subsequently, in relation to the suspension of collectors of internal revenue, should be received and held as honest declarations made in good faith that there are no charges or papers on file in the Department reflecting in any manner against their moral or official conduct or character."

Under this statement of facts, and the fact that there is no fixed term attached to the office of collector of internal revenue, the committee recommend the confirmation of Mr. McGraw.

DISTRICT ATTORNEY FOR SOUTHERN ILLINOIS.

August 4, 1886, the injunction of secrecy was removed from the following report and it was ordered to be printed in the RECORD:

The Committee on the Judiciary, to which was referred the nomination of Gustavus Van Hoorebeke to be district attorney of the United States for the southern district of Illinois, vice James A. Connolly, suspended, submits the following

report:
James A. Connolly was first appointed United States attorney for the southern district of Illinois in 1876, and continued to act as such until the date of his suspension by President Cleveland. It appears that he was a faithful and efficient officer.

suspension of President Ceverand. It appears that he was a kinduc and checient officer.

Immediately after the result of the Presidential election of 1884 became known Mr. Connolly announced his determination to resign his office on the 4th of March, 1885. He was induced to withhold his resignation at that time by reason of political interests and conditions existing in the State of Illinois. An election of a United States Senator was depending in the Legislature of that State. The result was in doubt. The contending political forces in the Legislature were about equally divided. The belief was entertained by the Democratic candidate that the resignation of Mr. Connolly would tend to complicate his chances for holding the united vote of his party continuously to himself. He feared that a change from himself to some other member of his party might occur if political conditions in the southern part of the State should be disturbed by an intrusion of the question which would be presented by the resignation of Mr. Connolly.

for holding the united vote of his party continuously to himself. He feared that a change from himself to some other member of his party might occur if political conditions in the southern part of the State should be disturbed by an intrusion of the question which would be presented by the resignation of Mr. Connolly.

If Mr. Connolly should resign pending the Senatorial contest, a successor would have to be selected. Several persons had made known their determination to be applicants for Mr. Connolly's position on the change of the national administration. It seemed important to the Democratic candidate for the office of United States Senator not to be forced to declare his choice in respect of who should succeed Mr. Connolly. He caused a friend to interview Mr. Connolly and endeavor to get him to withhold his resignation until a determination of the Senatorial contest could be reached. At first Mr. Connolly declined, but finally consented with the distinct understanding that whenever his resignation should be desired he would be notified in order that he might forward it and not be subjected to suspension or removal. There seems to be no doubt of this distribution of the suspension or removal. There seems to be no doubt of this distribution of the suspension or removal. There seems to be no doubt of this distribution of the suspension or removal. There seems to be no doubt of this distribution of the suspension or removal. The suspension of the suspension of the suspension or removal. The suspension of the suspension of the suspension or removal. The suspension of the

HOUSE OF REPRESENTATIVES.

Wednesday, August 4, 1886.

The House met at 11 o'clock a. m. Prayer by Rev. Dr. BULLOCK, of Washington, D. C.

The Journal of the proceedings of yesterday was read and approved. CORRECTION.

Mr. DOUGHERTY. Mr. Speaker, I rise to a question of personal

The SPEAKER. The gentleman will state it.
Mr. DOUGHERTY. On page 7654 of the RECORD, on the vote on
the motion of the gentleman from Indiana [Mr. HOLMAN] that the House recede from its disagreement to the amendment to the legislative appropriation bill providing for the pay of clerks for Senators, I am recorded as having voted in the affirmative. At the time the subject-matter was under discussion I could see no reason why the Senators should receive greater compensation than that accorded to members of this House, and therefore I would not have voted to recede; but in fact I was not in the Hall when the vote was taken. I ask therefore that my name be stricken from the list of yeas.

The SPEAKER. The correction will be made.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, informed the House that the Senate had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 7840) making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes.

The message also announced that the Senate had agreed to the report

of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 9478) making appropriations for sundry civil expenses of the Government for the

fiscal year ending June 30, 1887, and for other purposes.

The message further announced that the Senate had passed joint resolutions of the following titles; in which the concurrence of the House was requested:

Joint resolution (S. R. 82) making an additional appropriation for the purchase of a site for the Congressional Library; and Joint resolution (S. R. 83) for the payment of the salaries of the Mis-

sissippi and Missouri River Commissions, and for other purposes.

The message also informed the House that the Senate had passed without amendment bills of the House of the following titles:

Joint resolution (H. Res. 209) permitting the public building authorized by act of Congress, approved June 30, 1886, at Savannah, Ga., to be located not less than 40 feet from any other building instead of 50 feet, as provided in said act;

A bill (H. R. 3318) for the relief of Enols Lloyd; and A bill (H. R. 3908) for the relief of John Ellis.

The message further announced that the Senate had passed the bill (H. R. 5196) to detach certain counties from the United States judicial district of California, and create the United States judicial district of Southern California, with amendments, in which the concurrence of the House was requested.

The message further informed the House that the Senate had agreed to the resolution of the House requesting the return to the House of the bill of the Senate (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service.

The message further announced that the Senate having proceeded, in pursuance of the Constitution, to reconsider the bill entitled an act to grant a pension to Joseph Romiser, returned to the House of Representatives by the President of the United States with his objections and sent by the House of Representatives to the Senate with the message of the President returning the bill, had passed the same, two-thirds of the Senate voting in favor thereof.

FORTIFICATIONS BILL.

The SPEAKER. The Chair lays before the House the bill (H. R. 9798) making appropriations for fortifications and other works of defense, and for the armament thereof, for the fiscal year ending June 30, 1887, and for other purposes, with the Senate amendments thereto. The Chair will state that this bill was originally sent to the House from the Senate some days since, was referred to the Committee on Appropriations and reported back from that committee, and was under consideration in the House, with the previous question ordered upon the Senate amendments, at the time when the Senate requested its return to that body. If there be no objection, the bill will now lie on the table for the present. The Chair supposes it is unnecessary to refer it again to the Committee on Appropriations, as no changes have been made in the amendments, the Senate having simply recalled the bill for the purpose of making an order requesting a conference with the House.

Mr. FORNEY. I am perfectly willing that the House should non-

concur in the Senate amendments and agree to a conference.

Mr. RANDALL. Make that motion.

Mr. FORNEY. My only reason for not making it is that the gentleman from Ohio [Mr. BUTTERWORTH] is not present at this moment. The SPEAKER. The Chair suggests that the bill lie on the table

for a while until the gentleman from Ohio [Mr. BUTTERWORTH] comes in, when it can be called up.

SITE FOR FEDERAL BUILDING, BROOKLYN, N. Y.

The SPEAKER laid before the House a bill of the Senate (S. 1847) for the purchase of land as a site for a Federal building in Brooklyn, N. Y.; which was referred to the Committee on Public Buildings and Grounds.

BILL RETURNED TO THE SENATE.

The SPEAKER also laid before the House the following:

IN THE SENATE OF THE UNITED STATES, August 3, 1886. Ordered, That the Secretary be directed to request the House of Representa-tives to return to the Senate the bill of the Senate (S. 757) granting a pension to Helen Plunkett.

The SPEAKER. If there be no objection the order will be made in accordance with the request of the Senate.

There was no objection, and it was so ordered.

INTEREST OF THE UNLIED STATES IN THE POTOMAC FLATS.

The SPEAKER. The Chair will appoint as one of the conferees on the part of the House on the disagreeing votes of the two Houses on the bill (S. 335) to provide for protecting the interests of the United States in the Potomac River flats, in the District of Columbia, the gentleman from South Carolina, Mr. HEMPHILL, in place of the gentleman from Texas, Mr. REAGAN, who has left the city.

LEAVE OF ABSENCE.

By unanimous consent leave of absence was granted as follows:

To Mr. Wolford, for the remainder of the session, on account of sickness in his family.

To Mr. DAVIDSON, of Alabama, for the remainder of the session, on account of important business.

To Mr. Pettibone, indefinitely, on account of sickness in his family.

LEAVE TO PRINT.

Mr. ATKINSON, by unanimous consent, obtained leave to print in the RECORD remarks upon House bill 7652.

WITHDRAWAL OF PAPERS.

Mr. SAWYER, by unanimous consent, obtained leave to withdraw from the files of the House, without leaving copies, papers connected with House bill 1972, in the Forty-sixth and Forty-seventh Congresses.

ENROLLED BILLS SIGNED.

Mr. NEECE, from the Committee on Enrolled Bills, reported that they had examined and found duly enrolled bills of the following titles;

when the Speaker signed the same:

A bill (H. R. 9478) making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1887, and for

other purposes; and

A bill (H. R. 7480) making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors,

and for other purposes.

Mr. McRAE, from the Committee on Enrolled Bills, reported that they had examined and found duly enrolled a bill (H. R. 9726) making appropriations to supply deficiencies in the appropriations for the fiscal year ending June 30, 1886, and for prior years, and for other purposes; when the Speaker signed the same.

ORDER OF BUSINESS.

Mr. OATES. I ask unanimous consent to make a report from the Judiciary Committee for present consideration. I think it will not take five minutes.

The SPEAKER. Is the report long?

Mr. OATES. No, sir; it can be disposed of in a very short time.

The SPEAKER. It will be read, after which the Chair will ask for objection.

Mr. OATES. When the report has been read I will ask to occupy

one or two minutes with a statement, after which I am sure there will be no objection to the proposition of the committee.

Mr. MORRISON. I object for the present. I desire to offer a resolution to which I know the gentleman from Alabama will have no objection.

DEATH OF SAMUEL J. TILDEN.

The SPEAKER. The gentleman from Illinois [Mr. MORRISON] asks unanimous consent to offer for adoption the resolution which will be read.

The Clerk read as follows:

Resolved, That the House of Representatives of the United States has heard with profound sorrow of the death of that eminent and distinguished citizen Samuel J. Tilden.

The resolution was by unanimous consent considered and adopted. UNION PACIFIC RAILROAD.

Mr. OATES. I now ask that the report which I have sent to the desk be read.

The Clerk read as follows:

IN THE HOUSE OF REPRESENTATIVES, June 21, 1886.

IN THE HOUSE OF REPRESENTATIVES, June 21, 1886.

Mr. HENLEY submitted the following; which was referred to the Committee on Pacific Railroads:

Whereas it appears from the published reports of the Union Pacific Railroad Company that the said corporation, without consent of Congress, did issue in 1883 about five millions of collateral trust bonds, also six millions of 6 per cent, collateral trust bonds; did pay dividends in 1883 and 1884, notwithstanding the existence of a gross floating debt of \$13,000,000, and in 1883 and 1885 did guarantee interest on \$14,931,000 Oregon Short Line bonds in defiance of the provisions of the law of 1873, section 4, of volume 17 of the Statutes at Large: Therefore,

fore,

Be it resolved by the House of Representatives, That the Attorney-General be, and he is hereby, directed to prosecute all officers of said corporations civilly and criminally against whom there is sufficient evidence to warrant judgment

JNO. B. CLARK, JR., Clerk.

The Committee on the Judiciary, having had under consideration the resolution introduced by Mr. Henley in relation to certain alleged violations of law by the Union Pacific Railroad, report back a substitute therefor and recommend its adoption.

Amend the resolution by substituting the following therefor, namely:

"Whereas it is alleged that the president and directors of the Union Pacific Railroad Company did, without the consent of Congress and in violation of law, in the year 1883, issue about five million of collateral trust bonds, and six million of 6 per cent. collateral trust bonds, and did pay dividends in the years 1883 and 1884 notwithstanding the said company did at the time owe a gross floating debt of \$13,000,000, and did in the years 1883 and 1885 guarantee interest on \$14,31,000 of the bonds of the Oregon Short Line Railroad Company in violation of law:

\$31,000 of the bonds of the Oregon Short Line Railroad Company in violation of law:

"Bei resolved by the House of Representatives of the United States of America, That the Committee on the Judiciary be, and are hereby, empowered and directed to investigate the aforesaid allegations and all matters connected therewith or pertaining thereto, and report to the House by bill or otherwise; and that said committee may appoint a subcommittee, to consist of not more than five of its members, to make said investigation and report to the full committee. That such subcommittee, a majority of whom shall constitute a quorum, shall have power to send for persons and papers, administer oaths to witnesses, employ a stenographer, to sit in vacation at such time and place as may be deemed advisable, and to do all things necessary to a full and impartial investigation of the allegations hereinbefore set forth. All of the expenses of said investigation to be paid out of the contingent fund of the House."

Mr. O'NEILL, of Pennsylvania.

Mr. OATES. I hope the gentleman will withhold his objection until he hears me for two minutes.

Mr. O'NEILL, of Pennsylvania. It is too late in the session to bring

up so important a matter as this.

Mr. OATES. I presume the gentleman is objecting because he is a friend of the railroad company. Here is a letter from Mr. Adams, president of the company, to the gentleman from Virginia [Mr. Tucker], the chairman of our committee, asking that the resolution may be adopted.

Mr. O'NEILL, of Pennsylvania. I will withdraw my objection to

hear the letter read.

Mr. OATES. I merely wanted to state—
The SPEAKER. The gentleman from Pennsylvania does not object to the reading of the letter, if the gentleman from Alabama will send

Mr. OATES. I wanted to state in two minutes-I only ask that much time—the reasons for the adoption of this substitute agreed upon

by the committee.

The SPEAKER. Does the gentleman from Pennsylvania withdraw

his objection for the purpose—
Mr. O'NEILL, of Pennsylvania. Only for the purpose of hearing the letter read.

The Clerk read as follows:

Union Pacific Railway Company, Boston, July 28, 1886.

Hon. J. R. Tucker,

House of Representatives, Washington.

My DEAR SIR :-

Mr. OATES (interrupting the reading). Mr. Speaker—
The SPEAKER. The gentleman from Pennsylvania has only withdrawn his objection to have the letter read.

Mr. OATES. If the gentleman will not allow me to make a statement I will not put in the letter to be read.

Mr. O'NEILL, of Pennsylvania. The gentleman can do just as he pleases. I have objected, because this may be a matter of very great importance with reference to this railroad and is brought up in the

Mr. OATES. I ask two minutes.

The SPEAKER. The gentleman from Pennsylvania objects, and the matter is not before the House.

Mr. BUTTERWORTH. The railroad company, I understand, asks this investigation.

Mr. O'NEILL, of Pennsylvania. The gentleman from Alabama will not permit the letter to be read.

COMPENSATION TO RAILROAD COMPANIES FOR APARTMENT SERVICE.

Mr. MILLIKEN. I ask unanimous consent that the Committee of the Whole House on the state of the Union be discharged from the further consideration of Senate bill No. 2438, and that it be now considered and passed.

The bill was read, as follows:

A bill (S. 2438) to authorize the Postmaster-General to allow compensation to railroad companies in certain cases for apartment service heretofore furnished pursuant to agreement.

pursuant to agreement.

Be itenacted, &c., That the Postmaster-General be, and he is hereby, authorized to allow compensation to such railroad companies as had furnished apartments in cars for use as railway post-offices of less than 40 feet in length, in cases where such apartments had been furnished in pursuance of an agreement or understanding with the Postmaster-General, the Second Assistant Postmaster-General, or the Superintendent of the Railway Mail Service that special compensation should be allowed therefor; such allowances to be proportioned to the length of the apartments furnished, and not exceeding a pro rate of the price allowed for a 40-foot car, and for the time unpaid for up to the date when the company was notified by the Department that such payment could not be made because not warranted by the present law.

Mr. MILLIKEN. I desire to say that this bill has passed the Sen-

ate

Mr. HOLMAN. I reserve the right to object.
Mr. MILLIKEN. It has been unanimously reported to the House by the Committee on the Post-Office and Post-Roads, and has the approval of the Postmaster-General. Indeed, the bill was drawn under his direction.

The SPEAKER. Is there objection to the present consideration of

the bill?

Mr. HOLMAN. I think there should be some further explanation, especially as to the effect of this measure. I am inclined to believe it is a proper subject of legislation, and should probably be passed; but I have had no opportunity to examine it, and I would like a little more satisfactory explanation as to the necessity for its adoption:

Mr. DOCKERY. If the gentleman will yield to me for a moment I

think I can explain it fully.

This bill was unanimously reported from the Committee on the Post-Office and Post-Roads, and, as fully expressed in the bill itself, provides for the payment to certain railroad companies for the performance of mail service under a construction of law that had prevailed in the Post-Office Department for a number of years.

Mr. MILLIKEN. Under contracts.
Mr. DOCKERY. Yes, sir.
Mr. BUTTERWORTH. Is this recommended by the Department?
Mr. DOCKERY. Yes, sir; this bill has the commendation of the Postmaster-General.

Mr. McMILLIN. What is the amount involved?

Mr. DOCKERY. About \$40,000, I think.
Mr. McMILLIN. Let the report be read, and that will show the

necessity for this.
Mr. MILLIKEN. Mr. MILLIKEN. Let me state to the gentleman that to my personal knowledge this bill was drawn in the Postmaster-General's office. I went myself to see him in reference to it, and he called in his law clerk, whose name I have now forgotten, who drew up the bill, which was presented to me, and in the shape I received it it was introduced

in the House and adopted by the committee.

Mr. McMILLIN. I would like to have the report read, because I want to see exactly how it comes that this service has been ordered at That is the important fact, as to how this service came to be ren-

Mr. BLOUNT rose

Mr. MILLIKEN. Let me state—but I will yield to the gentleman from Georgia [Mr. BLOUNT], the chairman of the Committee on the Post-Office and Post-Roads.

Mr. BLOUNT. In relation to the amount due for this car service the facts are, as well-known to gentlemen, that it is not lawful-and it the facts are, as well-known to generalent, that it is not havint—and it has been so held by the present Postmaster-General and the Attorney-General—that provision may be made allowing the use of postal-cars of a less length than 40 feet. Under the law, which is very explicit in that respect, they can not be less than that length. That, however, is a new construction of the statute. For several years the Second Assistant Postmaster-General and the Superintendent of Railway Mail Transportation have been making occasional contracts with certain railroads which permitted the use of cars for this purpose of less than 40 feet in length, and a part of the contract was the prescribing of the construction of the cars by the Department, and their construction on this suggestion or invitation of the Department.

Now, sir, when this administration came into power an application was made to it which opened up the subject of these contracts, and upon an investigation of the question the conclusion was reached that such contracts could not be validly made under the law.

But, as I have said, they had been previously made. The service had been rendered on the invitation of the Department itself and certainly added to the contracts of the department of the service had been rendered on the invitation of the Department itself and certainly added to the contract of the department of the service had been rendered on the invitation of the Department.

tainly should be paid for. The Committee on the Post-Office and Post-Roads, after a conference with the Postmaster-General, reported a bill providing for the payment of that work, invited, as I have shown, by the Government, up to the time when the present administration reached a conclusion adverse to such contracts and issued notification

to the parties.

I think it is an eminently proper thing that the Government should pay for the service, having asked for it, having invited proposals and contracted for it under a construction of the law which the present De-

partment holds to be improper.

The amount involved is inconsiderable—somewhere about \$40,000.

Mr. McMILLIN. Some gentleman has stated \$80,000, I understand.

Mr. BLOUNT. It affects but few roads, since very few of the roads applied. If they had all applied it would have run the sum up into the millions. It is but right and proper under the circumstances that

it should be paid.

Mr. BRECKINRIDGE, of Arkansas. I would like to ask the gentleman from Georgia a question. I understand the only point in question is the form or size of the car in which the service was conducted; not the amount of service rendered. Is that correct? There is no exorbitant amount asked under these former contracts, as I understand, but the simple question is as to the style of cars or length of car which is fixed by the statute. Is that all?

Mr. BLOUNT. Well, it is possibly somewhat more than that. I can say this much in response to the gentleman, that it is not a question of favoritism to any line of road, but in compliance with the contracts made years ago by the Department under a construction of the

law different from that given to it by the present officials.

Mr. BRECKINRIDGE, of Arkansas. It does not involve any excess

of postal service? My reason for asking is that we do not want to get

into any star-route business here.

Mr. BLOUNT. Well, I will answer the gentleman satisfactorily on Mr. BLOUNT. Well, I will answer the gentiemal satisfactory on that point. This bill operates only for the payment of compensation to railroad companies up to the time of the notification by the present Postmaster-General that he did not regard it as a proper construction of the law to permit the use of postal cars of less than 40 feet. It does not operate beyond the period of that notification. It has no operation in futuro whatever.

Mr. BRECKINRIDGE, of Arkansas. Is this the only claim present-

able under the contracts to which the gentleman refers?

Mr. BLOUNT. Yes, sir; and if the gentleman will take the trouble to refer to a document prepared by myself in connection with the Post-Office bill he will find there designated the only claims which can come up under this provision.

Mr. BRECKINRIDGE, of Arkansas. The gentleman from Georgia

does not seem to catch exactly the point of my inquiry.

The SPEAKER. Is there objection to the consideration of the bill?

Mr. BRECKINRIDGE, of Arkansas. There will be objection unless this inquiry is answered. I want to know whether the service is necessary for the public interest and whether the amount claimed is reasonable compensation therefor.

Mr. BLOUNT. The Post-Office Department thought the service was

reasonable and made a contract.

Mr. BRECKINRIDGE, of Arkansas. We have not got the Post-Office Department here to interrogate them. What does the gentleman from Georgia think of it? He has investigated the matter. Mr. BLOUNT. I think I can make this matter very clear to my

friend from Arkansas. There are two modes of paying for railway mail

Mr. BRECKINRIDGE, of Arkansas. I would like to escape the Mr. BLOUNT. I wish to give the substance of this case, and in order to do so have to state the law.

Mr. BRECKINRIDGE, of Arkansas. Very well, let the gentleman

proceed in his own way.

Mr. BLOUNT. One way of paying for railway mail service is by weight, and making a provision for heating and lighting for the postal clerks sufficient to permit the distribution of the mail. Then there is a provision for larger lines for 40, 50, and 60 foot cars. On certain lines it was found that the 40-foot car was rather larger than the demands of the service required. They might have put on the 40-foot car, but they made a contract for a car less than 40 feet, with a proportional reduction in the cost to the Government; and in that point of view there was really a reduction of the expenditure.

But the situation now is this: The Postmaster-General held, while

this might have been done with the view of economy, yet there was no authority of law for it, as he understood it, and so he refused to make other contracts. But these smaller cars were constructed at the request of the Department. The railway companies were not seeking them. The Post-Office Department entered into an agreement with them for these smaller cars, and they were built by request of the Government, and are there to-day, but are not paid for by this administration, because it was held they could not make a contract for those cars.

Mr. BRECKINRIDGE, of Arkansas. The gentleman has not answered my question. I asked his opinion on this point: Was the service

rendered a necessary service?

Mr. BLOUNT. Oh, unquestionably it was.

Mr. BRECKINRIDGE, of Arkansas. And is the amount asked for a reasonable amount? I am not asking about the lawfulness of it. We know there is a difficulty about the law or we would not be called to pass this bill. I want to know if the amount claimed, in the opinion of the gentleman from Georgia, is a just and reasonable amount?

Mr. BLOUNT. I think certainly it is.

Mr. BRECKINRIDGE. That is all I want to know.

Mr. TAULBEE. Will the gentleman from Georgia allow me a ques-

Mr. BLOUNT. Certainly.

Mr. TAULBEE. Is this amount appropriated for the service of carry-

Mr. TAULBEE. Is this amount appropriated for the service of carrying the mails or for the construction of the cars?

Mr. MILLIKEN. For the service of carrying the mails.

Mr. BLOUNT. Of course it is for the carrying of the mail. A smaller and cheaper car was constructed for carrying the mails because the more costly car was not needed for the amount of service.

Mr. TAULBEE. Are those cars to be used for the Government here-

Mr. BLOUNT. No, sir; for the reason that the Postmaster-General under his construction of the law held that the Department could not make such a contract, but was bound to have the mails carried in the 40, 50, and 60 foot cars.

Mr. TAULBEE. And what becomes of these smaller cars?

Mr. BLOUNT. I do not know. I reckon the railroad companies think the Government should take them. We do not recommend that.

The SPEAKER. Is there objection to the present consideration of the bill? The Chair hears none. The question is on ordering the bill to be read a third time.

Mr. DIBBLE. I desire to offer the amendment which I send to the

desk.

The Clerk read as follows:

Add at the end of the bill the following:

"And additional pay may hereafter be allowed for any lines comprising a daily trip each way of railway post-office cars less than 40 feet in length or of apartments in cars used as railway post-offices whenever the Postmaster-General in his discretion shall agree to make such allowance. But every such allowance so made by the Postmaster-General in his discretion shall be proportioned to the length of the cars or apartments furnished and shall not exceed a pro rata of the price allowed for a 40-foot car."

Mr. BLOUNT. I do not understand the gentleman from South Carolina has the floor to offer that amendment.

Mr. DIBBLE. I submit that I have the floor.

The SPEAKER. The Chair was putting the question on ordering the bill to a third reading when the gentleman from South Carolina rose to offer his amendment. The previous question had not been ordered. The amendment is in order.

Mr. BLOUNT. I submit the point of order that the amendment is not germane to the bill.

The SPEAKER. The Chair has not examined that.

Mr. BLOUNT. It is not germane and involves a large amount of

The SPEAKER. The Chair thinks the amendment is germane to the original bill, which is a bill allowing compensation to certain railroad companies for postal service. The amendment is also general in its provisions, and proposes to confer authority on the Postmaster-General hereafter to allow pay for the use of cars for similar service.

Mr. MILLIKEN. I demand the previous question on the bill and

amendment

Mr. DIBBLE. I have the floor and do not yield for that motion. I think in a very few words I can show this amendment ought to prevail. We have heard on this floor that the Department, under their construction of the law at the time, agreed with railroad companies that they should build cars less than 40 feet long, and thereby effected a saving to the Government. Where, in order to have carried the mails under the contract and to be in the strict letter of the law as construed by the Department, a railroad company would have built a car 40 feet long and would have been entitled to the compensation for a car 40 feet long, the Department, for the purpose of saving money to the Government, said to that company, "A car 35 feet in length will do, and we will pay you pro rata for 35 feet instead of 40."

Now, Mr. Speaker, that was in the interest of economy. The exercise of that discretion by the Postmaster-General has caused to the Government an actual saving of money; and this amendment simply proposes that the Postmaster-General in the future, where the service does not require a 40-foot car, but where a 30-foot or a 35-foot car will do, may in his discretion permit such a car to be used. It is put strictly in the hands of the Postmaster-General in his discretion rnay allow compensation in the future for such service.

Now, Mr. Speaker, look at the justice and equity of the proposition. Mr. DIBBLE. I have the floor and do not yield for that motion. I

Now, Mr. Speaker, look at the justice and equity of the proposition. Here are railroad companies which have built 30-foot cars at the request of the Government, as has just been stated, and they are carrying the mail to-day in those 30-foot cars; and shall the Postmaster-General, after inviting them to make the car 30 feet long instead of 40 feet, refuse to pay them the three-fourths, while a 40-foot car running on another line gets pay at the full rate? There is no equity and justice in such a proposition

other line gets pay at the full rate? There is no equity and justice in such a proposition.

It may be said this is going to cost a large sum of money to the Government. Why, Mr. Speaker, it was the construction which was placed on the law for twelve years, and it did not cost millions to the Government then. For the past year we are told that the amount involved in this class of service is only about \$40,000 for the whole year. If the law had not been construed in the manner it was, instead of being \$40,000 it would have cost the Government \$60,000. If discretion is not allowed to the Postmaster-General in the future, the cars hereafter will be built 40 feet long and will cost the Government more money.

I will read the law for the information of the House. It is section 4004 of the Revised Statutes, passed in March, 1873, and it provides

Additional pay may be allowed for every line comprising a daily trip each way of railway post-office cars, at a rate not exceeding \$25 per mile per annum for cars 40 feet in length, and \$30 per mile per annum for 45-foot cars, and \$40 per mile per annum for 50-foot cars, and \$50 per mile per annum for 55 to 60 foot cars.

The Postmaster-General construed the law to mean that when they The Postmaster-General construed the law to mean that when they did not require a 40-foot car, which would have cost \$25 per mile per annum, they had a right to ask the company to build a 30-foot car, which would cost less by one-quarter. Now, I say, Mr. Speaker, that it is in the interest of economy, that it has effected a saving in the past and will effect a saving in the future. One other point: It is left absolutely in the discretion of the Postmaster-General to make these agreements or not. Under the law, when the car is 40 feet long he makes the argreement as a matter of course, but as to these other cars it is left to his discretion and the interest of the Government is seit is left to his discretion and the interest of the Government is securely guarded, because the Postmaster-General is not compelled to make the agreement in any case where he does not think it is demanded by the public interest. I therefore hope, Mr. Speaker, that the amendment will prevail. I send to the desk and ask to have read as a part of my remarks an extract from the Senate report which I have marked.

The Clerk read as follows:

The Clerk read as follows:

In the course of the business of the Post-Office Department, it was found that in many parts of the country the needs of the service did not require cars so long as 40 feet, and, at the request of the Department, various railroad companies built and fitted up for the use of the Post-Office Department postal cars of such varying lengths as were adapted to the necessities of the service, the Department paying them therefor a rate proportionate to the length of the cars. This has been going on for many years. During the past year the Department, under the advice of the Assistant Attorney-General for the Post-Office Department, eeased to pay the railroad companies for furnishing and hauling all cars less than 40 feet in length, upon the ground taken by the Solicitor that there was no authority in law for paying it. At the desire of the Department the railroad companies have continued to perform the service up to the present time without pay. The object of the present bill is to remedy the difficulty, and so declare the law that the Department may feel authorized to pay for the service performed.

Mr. DIBBLE. Now, Mr. Speaker, in conclusion, here are certain railroad companies running cars that are under 40 feet in length, and here are other railroad companies who built their cars 40 feet in length and get this pay. It is just as much a measure of justice that the cars under 40 feet in length, when they are run at the request of the Department, should be paid pro rata, as it is that the other contracts should be carried out. The construction of the law for twelve years was to the effect that the Postmaster-General had the discretion which this amendment seeks now to give him.

Mr. BUTTERWORTH. As I understand it, the object is to prevent the Government paying for that which it does not need. That is, when it does not need a 40-foot car it ought not to be required to pay

Mr. DIBBLE. That is the point. Under the construction of the law which has prevailed for the past twelve months the cars would have to be all 40 feet in length, and the Government would have to pay for that size.

This amendment gives the Postmaster-General the discretion to have the cars built shorter and to pay in proportion. I reserve the balance

the cars built shorter and to pay in proportion. I reserve the balance of my time.

Mr. BURROWS. Mr. Speaker, whatever may be the merit of the amendment proposed by the gentleman from South Carolina, the effect of it if adopted now by the House will be to kill this bill, for it can not possibly be returned to the Senate and pass there and receive the approval of the Executive at this session. The effect, therefore, will be to postpone the whole subject until next December. The merits of this proposition can not be questioned, but I submit that it is wise to vote down the amendment, however meritorious it may be, and pass this bill, and then if the proposition of the gentleman has real merit it can be passed at the next session of the House. [Cries of "Vote!" "Vote!"]

The SPEAKER. The question is on the amendment offered by the

The SPEAKER. The question is on the amendment offered by the gentleman from South Carolina [Mr. DIBBLE].

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, announced that the Senate had passed a bill of the following title, in which the concurrence of the House was requested:

A bill (S. 757) granting a pension to Helen Plunkett.

The message also announced that the Senate had passed without amendment the bill (H. R. 8192) to remove the political disabilities of J. R. Eggleston, of Mississippi.

MESSAGE FROM THE PRESIDENT.

The following message from the President of the United States was communicated to the House by Mr. PRUDEN, one of his secretaries:

To the House of Representatives

In compliance with a resolution of the House of Representatives of the 3d instant (the Senate concurring), I return herewith Senate bill No. 2056, entitled "An act to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service."

EXECUTIVE MANSION, August 4, 1886.

GROVER CLEVELAND.

The message also announced that the President had approved and signed joint resolution and bills of the following titles:

Joint resolution (H. Res. 142) authorizing and directing the Com-

missioner of Labor to make an investigation as to convict labor, and

An act (H. R. 28) to provide for the appointment and compensation of a district judge for the southern district of Alabama;

An act (H. R. 1249) for the relief of Margaret F. Ryan; An act (H. R. 1511) for the relief of Sidney R. Smith;

An act (H. R. 1511) for the relief of Sidney K. Smith;
An act (H. R. 4503) to authorize the Secretary of War to permit the
Carrollton and Lock No. 1 Turnpike Road Company to locate and construct its road on land belonging to the United States at Lock No. 1,
on the Kentucky River, in the State of Kentucky;
An act (H. R. 5552) for the relief of James Cain;
An act (H. R. 7087) authorizing the Secretary of the Interior to ex-

tend the time of payment to purchasers of lands of the Otoe and Missouria and of the Omaha Indians;

An act (H. R. 3014) to provide for terms of court in Colorado;

An act (H. R. 8352) for the relief of Levi A. Cronkhite; An act (H. R. 7169) to grant a pension to James Robinson;

An act (H. R. 5041) granting a pension to Sally A. Stone; An act (H. R. 7244) granting a pension to Robert B. Kirkpatrick; An act (H. R. 3948) granting a pension to James F. Salyers;

An act (H. R. 5950) granting a pension to Catherine Reisinger An act (H. R. 8374) granting a pension to Mrs. Mary M. Gillham;

An act (H. R. 7749) granting a pension to Aretus N. Butler;

An act (H. R. 6425) granting a pension to Jonathan S. Lents; An act (H. R. 5038) for the relief of Stephen Sauer;

An act (H. R. 887) granting a pension to Thomas S. Duvall;

An act (H. R. 3851) granting a pension to William P. Shelton; An act (H. R. 4032) granting a pension to John McGowan;

An act (H. R. 6606) granting a pension to Sallie B. Bent;

An act (H. R. 6824) granting a pension to James Savercool; An act (H. R. 7712) granting a pension to Virginia Taylor Randall;

An act (H. R. 7721) granting a pension to Ellen J. Welch;

An act (H. R. 7728) granting a pension to Mrs. Elizabeth Collins;

An act (H. R. 8046) granting a pension to Erastus W. Kennedy;

An act (H. R. 8333) granting a pension to Lucinda Sawyer;

An act (H. R. 8481) granting a pension to Thomas Walsh; An act (H. R. 8635) granting a pension to Irene Googins;

An act (H. R. 8963) granting a pension to Michael Fitzpatrick;

An act (H. R. 9457) granting a pension to Martin V. Curry; An act (H. R. 260) for the relief of Margaret S. Fair;

An act (H. R. 578) for the relief of Emma J. Halloway

An act (H. R. 1617) for the relief of George H. Laurence; An act (H. R. 1681) for the relief of William Hicks;

An act (H. R. 7517) for the relief of Warren L. Rice; An act (H. R. 8057) for the relief of Theodore Dunmire;

An act (H. R. 8334) for the relief of Jacob Nix; An act (H. R. 3118) granting an increase of pension to William H.

An act (H. R. 9052) granting an increase of pension to Capt. John F. Morris

An act (H. R. 7736) to increase the pension of George W. Parks; An act (H. R. 8663) to increase the pension of Jonas Schoonover; An act (H. R. 8979) to restore to the pension-roll the name of Samuel

Bulman; and

An act (H. R. 6664) to increase the naval establishment.

RAILWAY MAIL COMPENSATION.

Mr. BLOUNT. Mr. Speaker, I wish to say a word or two in concluding this debate. In view of the circumstances under which this bill came up this morning, I did not take time to bring out clearly the points which I am now going to present. The gentleman from South Carolina which I am now going to present. The gentleman from South Carolina says that this is a question of economy, and that its object is to enable the Government to hire cheaper cars, and then in another part of his speech he says that it will cost very little more—about \$40,000 a year more. Now, on the first proposition let us see what the law is in reference to the compensation of railroads for carrying the mails. Section 4002 of the Revised Statutes reads as follows:

4002 of the Revised Statutes reads as follows:

SEC. 4002. The Postmaster-General is authorized and directed to readjust the compensation hereafter to be paid for the transportation of mails on railroad routes upon the conditions and at the rates hereinafter mentioned:

First. That the mails shall be conveyed with due frequency and speed; and that sufficient and suitable room, fixtures, and furniture, in a car or apartment properly lighted and warmed, shall be provided for route agents to accompany and distribute the mails.

Second. That the pay per mile per annum shall not exceed the following rates, namely: On routes carrying their whôle length an average weight of mails per day of 200 pounds, \$50; 500 pounds, \$75; 1,000 pounds, \$100; 1,500 pounds, \$12,200 pounds, \$200, and \$25 additional for every additional 2,000 pounds, the average weight to be ascertained, in every case, by the actual weighing of the mails for such a number of successive working days, not less than thirty, at such times, after June \$0, 1873, and not less frequently than once in every four years, and the result to be stated and verified in such form and manner as the Postmaster-General may direct.

For this they are to be paid so much per mile per annum according to specified rates, regulated by the number of pounds carried, &c.

Now, this does not relate at all to the postal-car service. If there were no legislation in relation to postal cars, the Government, under

this statute, would have the right to require every railroad company in this country to furnish in one of its cars a suitable and sufficient room, with fixtures and furniture, and properly lighted and warmed, for the use of route agents accompanying and distributing the mails.

When this law was enacted there was also another provision for com-

pensation adopted. It is to be found in section 4004:

Additional pay may be allowed for every line comprising a daily trip each way of railway post-office cars, at a rate not exceeding \$25 per mile per annum for cars 40 feet in length; and \$30 per mile per annum for 45-foot cars; and \$40 per mile per annum for 50-foot cars; and \$50 per mile per annum for 55 to 60 foot cars.

These are the modes of compensation provided: One a general proposition prescribing accommodations, rates of payment, &c., the other an ad-

ditional provision for 40, 50, and 60 foot cars.

The House, when this matter was pending, put on an amendment in relation to postal cars, providing that there should be allowed additional pay for cars less than 40 feet in length, but the Senate refused to agree to it, and that proposition went out of the bill after a struggle between the two Houses.

It seems to me that this statement must make it clear to the mind of any gentleman that it was contemplated no contract should be made for a car less than 40 feet in length. I have yet to find any gentleman on this floor who has had anything to say on this subject except my friend from South Carolina [Mr. DIBBLE], who has gainsaid the correctness of this position. I have heard it affirmed by leading gentlemen on either side of the House and have not known it to be questioned.

The gentleman says that the Post-Office Department has uniformly, prior to this administration, held to a different opinion. Now, in justice to former administrations, I wish to say that the present officials of the Post-Office Department inform the Committee on the Post-Office and Post-Roads that they have searched to see whether anywhere on the records there appears to have been any consideration of this question by any head of a Department, and, so far as can be discovered, no Postmaster-General has ever made or approved any order in relation to it.

Mr. DIBBLE. Will the gentleman permit me to ask him a ques-

Mr. BLOUNT. Oh, yes.

Mr. DIBBLE. I merely wish to ask the gentleman whether this was not the practice of the Department up to within a year?

Mr. BLOUNT. I will answer my friend with a great deal of pleasure. For twelve years there were under this construction small allowances, scarcely sufficient to attract attention, in a few localities; for instance, one year there was allowed \$113,000, in another year \$94,000, another year \$176,000, another \$84,000, another \$114,000, another \$25,000, another \$84,000, another \$43,000. But there was no general allowance throughout the country. Possibly there may have been an allowance to one line in South Carolina, to one in Georgia, to one or two lines in Maine and Massachusetts. But the applications were of so small a character that it does not appear the matter ever came before any Postmaster-General as a serious question.

Mr. MILLIKEN. There was an allowance in Pennsylvania

Mr. BLOUNT. Possibly there may have been.
Mr. MILLIKEN. Yes; and in the West, too.
Mr. BLOUNT. But the amount was very small.

Mr. BLOUNT. But the amount was very small. Now, if the construction which my friend seeks to put upon this law be correct, I should like to know why it would not entirely abrogate the first provision in regard to railway pay for mail carriage, and give to every railroad company in this country, however inferior the lines, just as much compensation as to those roads furnishing postal cars.

Mr. DIBBLE. The gentleman will permit me to ask him whether there is anything in this amendment taking it out of the discretion of the Postmaster-General to admit this in a few cases and compelling him to apply it to every case?

the Postmaster-General to admit this in a few cases and compelling him to apply it to every case?

Mr. BLOUNT. I will say to my friend that this matter is already outside of the discretion of the Postmaster-General, and I wish to see it remain so. I desire that the regulation of the expenditures of this Government shall, so far as possible, be fixed by law. When this can not be done, it is time enough then to leave matters to the discretion of executive officers. of executive officers

Mr. Chairman, the Postmaster-General declares that, in his opinion, if the measure now proposed be enacted, the effect of it will be to nullify so far as the apartment service is concerned the existing law, and involve the Government in the unnecessary expenditure of millions of dollars by extending these allowances to every railroad line in the country. This provision has always heretofore been rejected by legislative construction; and I trust that this House will not, on the motion of my friend from Maine [Mr. MILLIKEN], who does not belong to the Post-Office Committee, inaugurate a scheme of this sort. I trust the measure will be voted down.

Mr. MILLIKEN. Mr. Speaker, I desire to say that so far as this amendment is concerned I see nothing objectionable in it; but there was some understanding between the committee and myself which would not leave me at liberty to favor it; and at this late date in the session, when there is perhaps no opportunity for this bill to get to the Senate and then to the President in time for his signature, I shall be

forced to oppose the amendment.

I move the previous question on the amendment and ordering the bill to be read the third time.

The previous question was ordered; and under the operation thereof the amendment of Mr. DIBBLE was rejected.

The bill was ordered to be engrossed and read a third time; and being engrossed, it was accordingly read the third time, and passed

Mr. MILLIKEN moved to reconsider the vote by which the bill was passed; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

FORTIFICATIONS APPROPRIATION BILL.

Mr. FORNEY. I demand the regular order.

I call up the fortifications appropriation bill.

The SPEAKER pro tempore. The Clerk will report the title of the bill.

The Clerk read as follows:

A bill (H. R. 9798) making appropriations for fortifications and other works of defense, and for the armament thereof, for the fiscal year ending June 30, 1887, and for other purposes.

Mr. FORNEY. I move non-concurrence in the Senate amendments

and that the House agree to the conference asked for.

Mr. BUTTERWORTH. I want to move to concur for the purpose of yielding to the gentleman from California [Mr. McKenna] to offer an amendment simply. There was pending, as the Chair will remember, a motion to concur in the second amendment of the Senate, and my friend desires to offer an amendment, after which the motion to nonconcur can be submitted.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, announced the return to the House of Representatives of the bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service, asked for by the House of Representatives.

The SPEAKER pro tempore. This bill is returned from the Senate at the request of the House for the purpose of correcting an error in the engrossed copy of the bill.

If there be no objection the bill will be correctly engrossed by in-

serting the amendments of the House, which were to strike out the words "or permanently" where they occur in the bill.

There was no objection, and it was so ordered.

FORTIFICATIONS APPROPRIATION BILL.

Mr. BUTTERWORTH. I yield to the gentleman from California to offer the amendment, as I have stated.

Mr. McKENNA. I submit the amendment I send to the desk.

The Clerk read as follows:

After the word "expended" insert:

"That the Secretary of War and Secretary of the Navy are hereby authorized to erect a gun factory in accordance with the report of the gun-foundry board of December 20, 1884, for the fabrication of the heaviest guns adapted to modern warfare, the manufacture of gun-carriages and ordinance equipment for the Army and Navy, in the State of California, at Mare Island navy-yard or at Benicia arsenal, as said Secretaries may deem most suitable or expedient, at a cost not to exceed \$1,000,000, and said sum, or so much thereof as may be necessary, is hereby appropriated for said purpose."

Mr. FORNEY. I hope that will be voted down.
Mr. McKENNA. I hope it will not be voted down.

I hope it will not be voted down.

Mr. FORNEY. I demand the previous question upon the motion

The previous question was ordered, under the operation of which the amendment was rejected.

The motion to non-concur in the Senate amendments and agree to

the conference asked for was agreed to.

The SPEAKER announced the appointment of Mr. Forney, Mr. RANDALL, and Mr. BUTTERWORTH as managers at the conference on the part of the House.

ORDNANCE STORES, COLORADO.

The SPEAKER. The bill (H. R. 5215) entitled "A bill to relieve the State of Colorado from charges on account of ordnance stores furnished said State," passed the House at an evening session fixed for the consideration of bills on the Private Calendar, although this bill was not on that Calendar. Some correction of the action of the House in that direction should be made. Either the bill should be passed by the

House, if deemed proper, or be otherwise disposed of.

Mr. SPRINGER. The House passed the bill under a misapprehension that night. There is no objection to it, and it might as well be

considered and passed now.

The SPEAKER. If there be no objection, the bill will be ordered to

be read a third time, and passed.

Mr. TAULBEE. What is the bill?

The SPEAKER. To relieve the State of Colorado from certain charges for ordnance stores furnished.

The bill was ordered to be read a third time; and being read the third time, was passed.

ENROLLED BILLS SIGNED.

Mr. FISHER, from the Committee on Enrolled Bills, reported that

they had examined and found duly enrolled bills and a joint resolution

of the following titles; when the Speaker signed the same:
A bill (H. R. 3908) for the relief of John Ellis;
A bill (H. R. 3318) for the relief of Enols Loyd; and

Joint resolution (H. Res. 209) permitting the public building authorized by act of Congress, approved June 30, 1886, at Savannah, Ga., to be located not less than 40 feet from any other building, instead of 50 feet as provided in said act.

LAND-GRANT FORFEITURES.

The SPEAKER. The gentleman from Illinois desires to submit some

tables in reference to land-grant forfeitures.

Mr. PAYSON. Mr. Speaker, at the request of many members of the House I have made a compilation of the action of Congress in the matter of land-grant forfeitures in Congress, in this and preceding sessions. And it has been suggested to me to ask leave to print it in the RECORD,

so it may be readily accessible to those who desire the information.

Its preparation, I may say, has involved considerable labor, which I have been glad to give to oblige members, and I feel assured it will be of interest to all

of interest to all.

I ask unanimous consent to have the tables printed in the RECORD. There was no objection.

The tables are as follows:

Congressional action on land-grant forfeiture bills.

Name of railroad.	Congress.	Acres.	Senate.	House.
Oregon Central Texas Pacific	Forty-eighth	810, 880 18, 500, 000	Passed	Passed—law.

TREASURY SURPLUS.

Mr. MORRISON. I call up the consideration of the conference report on the joint resolution (H. Res. 126).

The SPEAKER. The Clerk will read the report.

The Clerk read as follows:

The Clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H. Res. 126) directing payment of the surplus in the Treasury on the public debt, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

Amendment numbered 1: That the House recede from its disagreement to the amendment of the Senate numbered 1, and agree to the same with an amendment as follows: In line 8 of said amendment strike out the word "President" and insert in lieu thereof the words "Secretary of the Treasury;" in line 9 strike out the words "direct the Secretary of the Treasury to suspend" and insert in lieu thereof the word "postpone;" in line 12 strike out the word "suspension" and insert the word "postponement" in lieu thereof; and the Senate agree to the same.

Amendment numbered 2: That the Senate recede from its amendment numbered 2.

W. R. MORRISON, WM. C. P. BRECKINRIDGE, FRANK HISCOCK, Managers on the part of the House. W. B. ALLISON,
N. W. ALDRICH,
J. B. BECK,
Managers on the part of the Senate.

The SPEAKER. The Clerk will now read the statement of the House conferees accompanying the report.

The Clerk read as follows:

House of Representatives of the United States,
Washington, D. C., August 3, 1886.
The undersigned, managers on the part of the House, make the following

statement in respect to the conference report on H. Res. 126 directing payment of the surplus in the Treasury on the public debt:

The Senate added two amendments to the resolution. The House conferees have recommended that the House recede from its disagreement to the first amendment and agree to it in the following amended form:

"Provided, That no call shall be made under the provisions of this resolution until a sum equal to the call is in the Treasury over and above the reserve herein mentioned: And provided further. That the Secretary of the Treasury, in his discretion, may have in the Treasury, over and above the foregoing sums, a working balance not exceeding \$20,000,000; and whenever, in the ease of any extraordinary emergency not now existing, and when, because thereof, in the opinion of the Secretary of the Treasury, the public interests shall require it, he may, by written order, postpone the further call for the payment of such indebtedness for such period of time as shall be necessary to maintain the public credit unimpaired, and that such postponement and the reasons therefor shall be reported to Congress within ten days after its next meeting, or immediately if Congress shall be in session."

The Senate conferees have agreed to recommend that the Senate recede from its amendment numbered 2, which p ovided for the redemption of the tradedollar.

W. R. MORRISON. WM. C. P. BRECKINRIDGE, FRANK HISCOCK.

Mr. LANHAM. I desire to make a parliamentary inquiry.
The SPEAKER. The gentleman will state it.
Mr. LANHAM. I wish to know if it would be in order to ask a sepcrate vote on the Senate amendment relating to the trade-dollar, my object being, if in order, to move to concur in that amendment.

The SPEAKER. That would not be in order. The conference report is one single proposition which must be agreed to or rejected by a vote of the House. If the conference report is not agreed to then it would be in order to move to concur on any particular amendment.

Mr. WEAVER, of Iowa. I reserve all points of order on the report.
Mr. FINDLAY. Will the gentleman from Illinois [Mr. MORRISON]

allow me to ask him a question?
Mr. MORRISON. Yes, sir.
Mr. FINDLAY. What was the reason for disagreeing to the amendment of the Senate providing for the redemption of the trade-dollars?

Mr. MORRISON. It was because the subject of the trade-dollar does

not belong to the subject of this resolution. There are other reasons, which, if the gentleman will wait a few moments, I will try to explain to him when I reach the trade-dollar in the remarks I am about to submit

Mr. WEAVER, of Iowa. I make the point of order that this report should have its first consideration in the Committee of the Whole House

on the state of the Union.

The SPEAKER. The Chair decided yesterday, as has been frequently decided before, that a report of a conference committee can not go to the Committee of the Whole House on the state of the Union. It can not There are no separate clauses or sections in it to be disbe amended. cussed under the five-minute rule. It is a privileged report in the House itself, not in Committee of the Whole House on the state of the Union.

Mr. FINDLAY. But we can vote the report down.

Mr. MORRISON. Yes; if you have votes enough.
Mr. FINDLAY. That is yet to be determined.
Mr. WEAVER, of Iowa. Will the gentleman from Illinois permit Mr. WEAVER, of Iowa.

Mr. WEAVER, of lowa. Will the gentleman from Hillions permit me to ask him a question?

Mr. MORRISON. Yes, sir.

Mr. WEAVER, of lowa. Is it decided to give any time for debate?

Mr. MORRISON. Yes; certainly. I am ready to hear what the gentleman has to say if the House is willing.

The SPEAKER. The gentleman from Illinois [Mr. MORRISON] has

the floor and will proceed.

Mr. MORRISON. The joint resolution called the surplus resolution passed by the House was reported from the Committee on Ways and Means in lieu of six several resolutions introduced by as many members on the same subject, all proposing larger payments from the Treasury than the resolution reported. As it passed the House the resolution was in my opinion a wise and conservative measure, all in the public interest. The resolution or measure as amended by the Senate, and again amended and agreed upon by the committee of conference, is, it seems to me, not so good a measure. Yet in the condition of the Treasury and the bonded debt it will do or cause to be done all that would have been done under the resolution as it left the House. It will cause the surplus in and coming into the Treasury to be applied in monthly \$10,000,000 pay-ments to that part of the debt which is payable, and it will pay all we are now permitted to call and pay before we get down to any of the limitation added since the resolution passed the House. It is still a practical measure of relief applicable to the present overcrammed condition of the Treasury. It would be more objectionable as a measure of permanent policy, but it is the present situation for which this is a present remedy

The Senate added to the House resolution two amendments, one relating to the Treasury surplus, the other to an entirely different and irrelevant subject—the trade-dollar. The first amendment assumes to make more specific what was already plain in the House resolution, by which no call was required to be made until the amount in the Treasury, including the reserve for the redemption of United States notes, should equal one hundred and ten millions. The resolution as it left the House provided that only the excess over one hundred millions

should be paid out and that no call should be made less than ten millions. Hence it was impossible to make a call under this resolution unless there was one hundred and ten millions in the Treasury, because to call ten millions with less than one hundred and ten millions in the Treasury would go below the amount of excess which was all that was and is directed to be paid out. As to the reserve or redemption fund, estimated and treated in practice by the Treasury Department as one hundred millions, that is left now as before with the Treasury and in its discretion. This reserve or redemption fund was under former administrations often reduced below one hundred millions. It has never been below that sum under the present administration, it may be, but the measure under consideration does not require that it shall be; that is left as we found it.

The change or amendment next made or proposed by the Senate in order of arrangement is that by which the Secretary of the Treasury may or not, in his discretion, keep in the Treasury \$20,000,000 as a working balance for the current or every-day use of the Department in the payment of its current obligations and to make no part of the \$100,-000,000 already exempt from the provisions of the resolution. this subject was before considered I explained or tried to explain why no such working balance was necessary. The Treasury accounts are so kept and statements so made that accruing interest and other such obligations find their way into the liabilities in advance of payment so as not to lessen the monthly surplus statement; there is a large working balance in the control or to the credit of the disbursing officers which, as the last Treasury report shows, has rarely been less than \$20,000,000, and has often exceeded \$40,000,000, and which the Treasurer says is in excess of current requirements; and then again the daily or current receipts largely exceed the daily or current expenditures, and beside these sources of supply none other is required. Yet this "working balance" provision can have no practical effect in the present condition of the Treasury, and with but \$132,000,000 of the debt uncalled which is subject to call and payable whenever we are ready to pay it, no more will be due or payable until 1891, and this proviso might as well be in as out of the resolution, for it will not affect its execution.

The 3 per cent bonds, amounting to \$132,000,000, are all that are now payable; they would substantially all be called in or taken up by thirteen calls in thirteen months. In that time \$50,000,000 of those bonds will be required for the sinking fund and will be called in and paid for as part of the ordinary expenditure which last year was \$290,000,000, but this year with increased pensions and some increased expenditure for a new navy may amount to \$305,000,000, the amount

of expenditure the year before last.

The current income or receipts from taxes, none of which we have reduced, are on the increase, and in thirteen months by any fair estimate the receipts of the Government over the ordinary expenditures, including the sinking fund, will not be less while it may be much more than \$32,000,000. And at the end of the thirteen months when by ten million monthly calls all this debt which is payable will have by ten million monthly calls all this debt which is payable will have been called in and \$82,000,000 of it paid without paying anything from the surplus now in the Treasury, then but \$50,000,000 of the surplus now there will be taken out of the Treasury in these thirteen months to pay off all the debt we can pay. The last statement shows that the Treasury surplus has now grown to \$80,000,000, which would leave a balance of \$30,000,000 when the debt is paid. Hence I have said that whether this discretionary twenty-million working balance shall be conceded is not now a practical question because the payable shall be conceded is not now a practical question, because the payable debt will be fully paid before the available balance in the Treasury, including the reserve, is reduced to \$120,000,000.

In the next amendment of the Senate the Secretary of the Treasury is by the conference agreement substituted for the President to exer-

cise the discretion which is to be exercised when justified by sufficient emergency. This substitution is made, because the Treasury is the one Department which, under the law of its organization, is required to do in regard to the finances what the Congress directs it to do. When the other Departments were organized it was provided that their heads should do and perform such duties as were imposed upon and intrusted to them by the President. The Treasury Department is the one Department that does not report to the President, but to Congress. Our fathers so provided, because they did not intend to put the purse and the sword in the same two hands. They probably saw, what we sometimes think we see now, that the purse and not the pen is mightier than the sword, and intended to keep it within the control of the people through their representatives. As to the discretion itself, if I had entire control of the question I would not, as the House very well knows, give the largest discretion to the Treasury, and not because of any want of confidence in the ability or integrity of its able Secretary or any of its officers, but because I believe it is the chief business of the Convergence and the largest the convergence of the Convergence and the secretary of the secretary of the convergence and the secretary of the sec of the Department to keep the accounts of the Government, collect its revenues, and pay its debts in pursuance of law.

But I am not, nor is the House, permitted to control or fix the limits of this discretion, and the conference of the House and Senate agrees to leave with the Secretary the discretionary power to postpone the monthly calls in case of extraordinary emergencies. It must not only be extraordinary, but it must be something not now existing.

I readily admit that I do not know, and have not been able to find

anybody who could tell me, just what would amount to an emergency that would justify the exercise of the discretion. It must be something that does not now exist, and presumably something that has not here tofore existed since it can not be foretold or described. It can not come from unforeseen expenditure, such as might result from the calamity of war, because if we had a Cutting or a cut-throat war with Mexico, or a fish-bait war with Canada or with England, and paid out this money as the cost of war, it would not then be "surplus in the Treasury. Still, since we can not have prescience or all wisdom in advance, the Sen-

ate assumed there may be a contingency in which it would be necessary to postpone a call, and that provision added by the Senate is retained.

But is it reasonably probable that the Treasury Department, having been advised by a vote of three-fourths of the representatives of the people that this money must be applied to the debt, and having been likewise advised by a Republican Senate, in whose caucus measures the Democratic administration and the public credit had to find security from the unwisdom of a Democratic House, if we may credit those who assume to speak by authority without authority, as I suppose—is it possible after such expression by the Democratic House and the Republican Senate that the Treasury Department will disregard the purpose of Congress so expressed—this, too, when advised in advance that any postponement will only be excused by some extraordinary national emergency which does not now exist and presumably has not heretofore existed?

Then it is further provided that if any such postponement should be made the causes thereof shall be reported to Congress at once, or as soon thereafter as Congress may be in session. Can it be, Mr. Speaker, that under such circumstances any such qualified discretion would be abused? I think not.

With the consent of the House I desire to make some response to the alleged purpose to break the national faith and discredit its obligations which lurks in this effort to keep its obligations by paying its debts. which lurks in this effort to keep its obligations by paying its debts. Every effort to relieve the people of any burden is attempted to be met in the assumption of superior financial skill and higher financial integrity. Our Chicago declaration, "We believe in honest money, the gold and silver coinage of the Constitution," was I thought a declaration for "honest money," and if it meant any other coin than such as is piled in the Treasury the fact was deceitfully hidden and kept from the people, but not by me. But I have no expectation that this measure will affect the question of coin or coinage, and no desire that it should. And affect the question of coin or coinage, and no desire that it should. And when we have paid, and saved the annual interest charge on, the \$132,-000,000 of bonds payable, I doubt not it will still be true that "we believe in honest money, the gold and silver coinage of the Constitu-

Coupled with our belief in honest money we said at Chicago we believed in "an existing surplus of more than \$100,000,000," and then the Treasury surplus was less than now.

It is or has been said that the surplus referred to was surplus taxes, not surplus in the Treasury.

The declaration reads:

That change is necessary is proved by an existing surplus of more than 100,000,000 which has been yearly collected from a suffering people.

And refers to an existing surplus which had then been collected. Suppose it be admitted that it was intended to declare taxes excessive, not surplus, will it be insisted that this \$100,000,000, whatever it may be, is to be locked up and remain idle in our hands, lest if we pay it to those we owe it may lie idle and be unprofitable to them?

It is claimed that Congress should leave with the head of the Treasury uncontrolled discretion in the matter of keeping money in and paying it out of the Treasury, because it is alleged that only those learned and experienced in finance are competent to deal with the subject, and that only the masters of finance, and men accustomed to deal with great sums of money, have any such learning or experience.

I readily concede there may be many wiser than most of us here, and especially wiser than I, in the Treasury intricacies and mysteries which are claimed to be the foundation on which our national credit rests. Yet I trust I may be pardoned if I advise that we do not take counsel from those skilled in the art of giving advice to others to benefit themselves, and whose collected wisdom, summed up in a leading New York journal, assumes to discover in this measure as first reported "a blow aimed at the administration and at the national banks, both of them bulwarks of our national credit."

In the earlier history of our large funding operations there was a question between the alleged learned and those unlearned in financial tangles as to the right to pay the bonds first issued in other money than The question was settled in a new funding scheme in 1870. bulwarks of our national credit got coin bonds, and the unskilled in finance who pay them got a lower rate of interest. The scheme was \$200,000,000 at 5 per cent. payable after ten years, \$300,000,000 at 4½ per cent. after fifteen years, and \$1,000,000,000 at 4 per cent. after thirty In a short six months the guardians of the public credit assumed to find it so weak that \$200,000,000 could not but \$500,000,000 could be borrowed or funded at 5 per cent., and it was done. Next the $4\frac{1}{2}$ percents were to be funded, and those who then and now lay claim to superior knowledge of all that concerns money declared our credit un-

equal to borrowing or funding \$300,000,000 of 4½ per cent. fifteen-year bonds, but all-sufficient for \$500,000,000 of thirty-year bonds at the same rate of interest, and a bill was passed at the other end of the Capitol to increase the amount of 42 per cent. bonds to \$500,000,000 and extend the time of payment to thirty years. Could that bill have passed the unskilled ordeal of the Ways and Means Committee the \$250,000,000 which we may pay in 1891 would be payable in 1906, and on a like sum now at the rate of 4 we would be paying 42 per cent., which would

have added \$100,000,000 to the interest we must pay.

All this was done in the name of the public credit and under the advice of those claiming superior knowledge of finance.

When, later on, the 5 per cent. bonds were to be soon payable and yet higher interest bonds were unfunded and unpaid, we tried here by a bill of your own, Mr. Speaker, to fund at 3½ per cent. Those claiming to be wiser than we objected in the name of public faith and public credit, neither of which, it was urged, could be sustained by a funding scheme at less than 4 per cent. Again, in the closing hours of the Hayes administration, when the rate of interest had fallen, the now Speaker renewed his effort for a lower rate of interest, and this time at 3 per cent. The masters of finance insisted then on $3\frac{1}{2}$, and said of that measure, as they do of this, that it would unsettle values, destroy confidence, and menace the country's presperity; that it was a blow aimed at the administration and the national banks, and the President would not sign it.

The bill at 3 per cent. interest rate was passed, and the President, as previously predicted, returned it with his objections that it would injuriously affect the national banks, one of the alleged bulwarks of our national credit. And before another Congress assembled to renew the contest the then Secretary of the Treasury was shamed into funding the debt without authority of law at the same 3 per cent. rate as provided by the vetoed bill. It is true that in all this funding policy the distinguished Senator from Ohio [Mr. SHERMAN], learned and trained in all that affects the national purse, was in accord with those who assume to have gathered all financial wisdom. But, sir, I still insist that it is not prudent to take counsel on this subject from those, whatever their experience and wisdom may be, whose interests are not identical and in accord with the interests of the great mass of their fellow-men.

It has been urged that the adoption of this measure as first reported was to declare a want of confidence in the Treasury management of this administration. There is neither an attempt at censure nor fault finding in providing that the money should go out as it goes into the Treasury, in pursuance of law. The surplus and idle money in the Treasury has not before been so large, and interest-bearing debts wait Treasury has not before been so large, and interest-bearing debts wait to be paid to which that idle money may, and, in the opinion of the House, should be applied. To say that we may not so legislate as to make such application without reflection on any one is to forget the duties imposed on this and other branches or Departments of the Government.

The President has vetoed in terms of innocent levity a hundred of our smaller bills; many of them passed the House and Senate without a dissenting vote; and when he signed a larger one he was gracious enough to send us a message of apology or explanation with the reasons why he did not veto that. [Laughter and applause.] Have any of us ever felt that the President was thereby expressing any want of confidence in Congress? We have felt, every one of us, at least I have, that he was discharging faithfully, as an honest executive, his duty under the law and his oath as he understands it—that much he must accord to us.

The next and last subject of the report as agreed upon relates to the trade-dollar, which was not in the resolution when it passed the House. The Senate added that in its last or second amendment and provided for the receipt and redemption of trade-dollars at par with other dollars. We have insisted upon its going out; the Senate has agreed, and this amendment of the Senate is left out. To me one of the unexplained things in connection with this question is how this amendment found its way into the resolution with the consent of those who have opposed this measure upon the assumption that it would in connection with silver coinage lead us to the use of silver as the basis or standard of money. Yet those who professedly most dread the effect of the use of silver as "honest money" would in the next six months add not less than ten millions, and may be as much as thirty millions, to the silver coinage by taking in and recoining the trade-dollar, which neither has nor should have any place in this measure relating solely to the surplus revenues.

Ten millions of trade-dollars can be bought for \$2,400,000 less, and thirty millions, if there are so many to be had, can be bought for \$7,200,-000 less than would be paid for them under the Senate amendment. Nor is it true that the Government issued the trade-dollars, and is bound, therefore, in good faith and good morals to redeem them. amounting to the number of about thirty-six million have been, at the request and for the use of the owners of silver, coined by the Government free of cost. In some unexplainable way, in 1873, the year of silver mysteries, the trade-dollar was made a legal tender for \$5. legal-tender quality was repealed in 1876, when about 15,500,000 of trade-dollars had been coined, and since then their coinage has been in creased to \$36,000,000. Whatever may be said of the policy of calling in the trade-dollar, the subject has no place in this resolution. If they are to be redeemed it ought to be at their real and not par value, unless we are under a legal or moral obligation to so redeem them, and it would seem the circumstances of their issue impose upon us no such obligation.

Mr. LANHAM. Will the gentleman allow me a word?
Mr. MORRISON. Certainly.
Mr. LANHAM. In reference to the trade-dollar the report of the Director of the Mint shows that there is, according to his estimate, not exceeding \$7,000,000 which would be returned for recoinage or redemp-

tion under that provision.

Mr. MORRISON. Why?

Mr. LANHAM. That is the opinion of the Director of the Mint, because there is no more than that which would be affected by the

Mr. MORRISON. Why not, if the holders can get 25 or 15 cents more for the trade-dollar than it is worth?

Mr. HEWITT. Twenty-six cents.

Yes; about 26 cents. Why will not they bring it in Mr. MORRISON. and exchange it? Part would be receivable for taxes and all redeem-

able in or exchangable for standard silver dollars.

Mr. LANHAM. Because a great deal of it has been exported and has gone into foreign markets and been melted or recoined and otherwise used, so that it is estimated that only about seven millions remain in this country for redemption, and that very little, if any, would be imported within the period of six months.

Mr. MORRISON. The money dealers and changers, with the help of the wise in finance, would not fail to get the other twenty-nine millions back from China, or wherever else it may be, in less than six months. [Laughter and applause.]

Gentlemen have, I think, overlooked the inducement offered and opportunity given for seeking those discredited trade-dollars.

Mr. FINDLAY. If the gentleman from Illinois will permit me to suggest to him: The trade-dollars in China are no longer in the form of coined dollars, but they have been recoined into the Chinese sycees, I believe they call them; and it would not consequently come back in the shape of the trade-dollar.

Mr. LANHAM. And the amendment provides that it shall not be

received.

Mr. MORRISON. The gentleman from Texas is mistaken and the gentleman from Maryland as well, as I think I can show them.

The first division of amendment numbered 2 provides that the trade-The first division of amendment numbered 2 provides that the trade-dollar shall be received during the period of six months for internal-revenue and custom-house taxes; that is to say, they are received as dollars for taxes if they are not defaced, mutilated, or stamped.

Mr. FINDLAY. You give standard dollars in exchange for them.

Mr. MORRISON. Not by this first provision.

Mr. FINDLAY. There is a provision in the Senate amendment to that effect.

that effect

Mr. MORRISON. Yes; first they are receivable for taxes, when not defaced, stamped, or mutilated; second they are to be redeemed and received in exchange for other dollars whether so stamped and marked or not. China could stamp its cue on the trade-dollar, to the delight of its people, and it would still be redeemable, to the greater delight of some of our people who would own the trade-dollar to be redeemed by the Senate amendment.

Mr. LANHAM. I suggest the entire context of the amendment shows that the trade-dollars spoken of in the third section are those defined by the character of trade-dollars mentioned in the second.

Mr. MORRISON. Not at all. Let the gentleman read the provision numbered section 2.

Mr. LANHAM. It is as follows:

SEC. 2. That for a period of six months after the passage hereof, United States trade-dollars, if not defaced, mutilated, or stamped, shall be received at their face value in payment of all dues to the United States, and shall not be again paid out or in any other manner issued.

Section 3 is as follows:

SEC. 3. That the holder of any United States trade-dollars, during the period aforesaid, on presentation of the same at the office of the Treasurer or any assistant treasurer of the United States, may receive in exchange therefor a like amount and value, dollar for dollar, in standard silver dollars or in subsidiary coins (at the option of the holder) of the United States.

Mr. MORRISON. Exactly; but there is nothing here in section 3

Mr. LANHAM. When you construe all together— Mr. MORRISON. It is not all together, or intended to be. If it were not in independent separate sections the provision about marks or stamps might apply to all. It is cleverly drawn and will no doubt be

so understood by those who expect to profit by it.

Mr. LANHAM. Will the gentleman allow me to explain that the Committee on Coinage, Weights, and Measures, after a full examination of all the bills on the subject referred to them, drafted this bill, which is the Senate amendment, and it was unquestionably the design of the framers of the bill and of that committee that this third section

should apply to trade-dollars not defaced, mutilated, or stamped.

Mr. MORRISON. Then it does not, as I understand it, conform to the design of your committee?

Mr. LANHAM. That is the undoubted meaning of it. And I think proper construction would sustain that view.

Mr. MORRISON. I have said substantially all I desire to say and reserve the balance of my time.

Mr. WEAVER, of Iowa. I ask the gentleman from Illinois to yield

Mr. MORRISON. I reserve my time. The gentleman from Iowa can take the floor if he desires.

Mr. WEAVER, of Iowa. I have tried very hard to reach a conclusion that would warrant me in supporting this conference report; but I have failed, and I must oppose it. The gentleman from Illinois [Mr. MORRISON] says, and says correctly, that when this resolution passed the House it was a wise and conservative measure; that as reported back to the House it is not so much so. It was wise and conservative when introduced, and I suppose that the conference report makes up in conservatism what it lacks in wisdom. To my mind, sir, the measure is

Now, what is left of the original resolution? Nothing on earth; but a new accretion of power to the Treasury Department is substituted. In what condition does the law now leave us and leave the Treasury Department? By inference the Secretary claims that the law requires the beautiful property of the law read williams of coin as a redemption fund for them to keep one hundred millions of coin as a redemption fund for the greenbacks; but it is conceded there is no law compelling it. It

is a mere departmental interpretation.

But certainly there is no law authorizing or compelling the Department to keep more than one hundred millions. Whereas if this conference report be adopted it establishes one hundred millions as a lawful reserve which they are compelled and will be compelled to keep, and they can not commence paying the public debt until there are one hundred and ten millions, and then, in the discretion of the Secretary, he may keep one hundred and thirty millions before he is required to pay any portion of the public debt. What earthly excuse can there be for such a law? What is there in the business situation to warrant it?

Mr. BROWN, of Pennsylvania. You mean one hundred and twenty

millions.

Mr. WEAVER, of Iowa. No, sir; one hundred and thirty millions. Mr. BROWN, of Pennsylvania. Twenty millions in addition to the one hundred and ten millions?

Mr. WEAVER, of Iowa. Twenty millions in addition to the one hundred and ten millions, making it one hundred and thirty millions. If the resolution stopped here there might be some excuse for this Senate amendment. But it does not. If it were mandatory on the Secretary of the Treasury beyond the one hundred and thirty millions, and he would be compelled to pay out all in excess of that, there might be some apology for it. But while pretending to compel him to pay out all beyond one hundred and thirty millions it clothes him with a power he has not now to suspend the payment of the public debt entirely whenever any emergency not now existing may arise,
Mr. BROWN, of Pennsylvania. He has to furnish excuse to the

Mr. WEAVER, of Iowa. That would not trouble him in the least. The gentleman from Illinois says "when a certain emergency arises." I say no; when an uncertain emergency arises. This resolution does not prescribe or indicate in any manner what the emergency shall be, but makes him the sole judge of what the emergency shall be and when it exists. It is a leap in the dark. It places the whole country in the hands of those whose inclinations and policies are known to be at variance with public sentiment.

There may be a speck of war on the Mexican border that may affect the amount of gold coin in the country; there may be an unprecedented demand for gold coin in Europe. Anything that affects the movement of gold may be regarded by the Secretary as a sufficient "emergency" to warrant him in suspending the operation of this resolution. The Secretary claims this discretion now. He certainly now has the power to pay out this money. He claims now the right to exercise his own judgment as to whether he shall pay it out or not. What good is accomplished by this resolution? He can pay out the surplus now, in his discretion. He can do no more if this resolution passes.

There will be no result flow from it, as I have already said, except

a new accretion of power in the hands of the Secretary of the Treasury. Congress is called upon to abdicate and give over its discretion to the Secretary of the Treasury, to be exercised by him instead of by Congress. I undertake to say that if we pass no resolution at all the Secretary of the Treasury, in obedience to the wish of this country as expressed by the House of Representatives in the passage of the original resolution, will feel called upon to pay out at least \$10,000,000 a month upon the public debt. It would be a strange administration that would set at defiance such an unmistakable expression of public sentiment. Again, Mr. Speaker, would this House have passed this resolution if it had been submitted to them originally in this shape? Never! The only inducement to-day to confirm this conference report is the haste incident to the closing hours of this session of Congress.

For one, I feel called upon to do my utmost to prevent its passage. The people gain nothing by it. The Treasury Department gains all, and if this matter is to be left to the discretion of the Secretary of the Treasury at all let it be left as it now is, and we are just as apt to have

a payment of \$10,000,000 a month without as with the passage of this The resolution is a complete backdown on the part of the The original resolution passed by a three-fourths vote, and

now it is proposed to cowardly surrender.

And, sir, after that resolution passed here what took place? Wall street issued its decree. A caucus was called of gentlemen belonging in the other House of Congress, at the home of a former Secretary of the Treasury, and in that caucus the House resolution as amended by the Senate and substantially as finally reported by the committee of con-House and the Republican Senate, a square issue between this House and the Republican Senate, a square issue that I for one am willing to go to the country upon; but this conference report is a complete surrender on the part of the House to the Senate and an abandonment of that issue before the country. And not only that, but let me say to my Democratic friends that this is a transfer of the quarrel which we now have with the Senate to the administration, and your enemies will not be slow to take advantage of it if you are so unwise as to give them the opportunity. Mark my words.

In case of any exercise of this discretion here given which in the

opinion of the people is unwarranted, you will have the matter to meet and defend. They should be held responsible, and will be if you do not pass this resolution. But once you pass it, the load is upon the administration and the Senate is relieved. What in the name of common sense are you getting in return for such a sacrifice? Nothing on the face of the earth. In the name of an outraged and suffering peo-ple I protest against this hollow mockery. The people have asked for bread, but you propose to dash a stone into their teeth.

This conference report is unwarranted, unnecessary, and impolitic. I protest against it.

I reserve the balance of my time.

Mr. FINDLAY. Mr. Speaker, I desire to say a word upon this resolution, and propose to confine what I have to say to the provision in the Senate amendment for the redemption of the trade-dollar.

Mr. WEAVER, of Iowa. I have reserved my time, Mr. Speaker, and I desire to apportion it among gentlemen who have asked me to give them time. I will yield ten minutes to the gentleman from New York [Mr. Hewitt] and ten minutes to the gentleman from Missouri [Mr.

Mr. FINDLAY. Will the gentleman give me ten minutes? Mr. WEAVER, of Iowa. I have given all my time away.

The SPEAKER pro tempore. The gentleman from Iowa reserved the remainder of his time without yielding to any one, and the Chair recognized the gentleman from Maryland [Mr. FINDLAY]. The gentle-

man from Maryland will proceed.

Mr. FINDLAY. Mr. Speaker, I was about saying at the moment when I was interrupted that I had voted against the surplus resolution as it appeared in the House originally, and, with the single exception of the distinguished gentleman from South Carolina [Mr. DIBBLE], I believe that I was the only Representative from a Southern State counting Maryland as a Southern State, although in my geography, which I learned as a boy, it was classed as a Middle State—I was, I say, with a single exception, the only Representative from a Southern State who cast a vote of that kind. I took the trouble to explain somewhat at length in the RECORD my reasons for that vote, and I do not propose to go over them now. I am in favor of the resolution and would most cheerfully vote for it if it could be voted upon as it originally came from the Senate before the changes were made by the committee of conference. In other words, if the resolution contained the provision for the redemption of the trade-dollar, as it left the Senate, I would vote for it.

Now, the objection made by the distinguished gentleman from Illinois [Mr. MORRISON] to the provision for the redemption of the trade dollar rested, as I understood, upon this consideration: That while the privilege of paying taxes in trade-dollars was accompanied with the limitation or modification that no trade-dollar which was stamped, defaced, or mutilated should be received in payment of taxes, yet in the clause of the Senate amendment providing that any holder of tradedollars might pay them into the Treasury within six months after the passage of the resolution and receive in exchange therefor standard passage of the resolution and receive in exchange therefor standard silver dollars the limitation or modification with regard to stamped, defaced, or mutilated trade-dollars was omitted. So that the contention, as I understand it, is that if the resolution as originally shaped by the Senate should be passed by this House any holder of a tradedollar, however defaced, mutilated, or stamped, could take it to any subtreasury or depository of the United States and demand for it a standard silver dollar in exchange. If that be the true construction to be put upon the resolution, then it is apparant that a very simple amendment would correct the evil. We would merely have to insert in the third proviso, after the words "trade-dollars," the words "provided that the same are not defaced, mutilated, or stamped." Then the holder of a trade-dollar, who wishes to exchange it for a standard silver dollar, would be placed in exactly the same condition as the man who may desire to pay taxes with a trade-dollar.

Is not that the effect of the proposition at any rate? Mr. FINDLAY. I am coming to that in a moment. I say that if the contention of gentlemen on the other side be correct, then a very

small amendment will obviate the difficulty. But I deny that the contention is well founded. It is not necessary upon a question of this kind to state principles in regard to the construction of statutes. Surely ordinary common sense, without going into any technical rules, is sufficient to determine the plain meaning of a resolution of this kind upon its face. What is the first proviso?

That for a period of six months after the passage hereof United States tradedollars, not defaced, mutilated, or stamped, shall be received at their face value in payment of all dues to the United States, and shall not be again paid out or in any other manner issued.

Then comes this proviso:

That the holder of any United States trade-dollar, during the period aforesaid, on presentation of the same at the office of the Treasurer or any assistant treasurer of the United States, may receive in exchange therefor a like amount in value, dollar for dollar, in standard silver dollars or in subsidiary coins, at the option of the holder.

Taking these two provisions together, what is their plain meaning and sense? That when the holder of a trade-dollar brings it to a subtreasury and asks in exchange for it a standard silver dollar, he must bring a trade-dollar which is not defaced, stamped, or otherwise muti-

Let me put the question in this way: Suppose the resolution in the language I have just cited should become a law, and any man with a clipped trade-dollar, with a trade-dollar which instead of containing 420 grains contained only 400 or 350 grains, should present it to any assistant treasurer of the United States for redemption, would that officer feel justified in redeeming it with a standard silver dollar?

Mr. LANHAM. Certainly not.
Mr. FINDLAY. Of course not. It does not require any genius for construction to arrive at such a conclusion as that. But, as I have said, if the contention were correct it would be the easiest thing in the world to correct the evil by simply inserting in the third proviso the words contained in the second proviso; that is to say, by providing that no trade-dollar shall be redeemed with a standard silver dollar unless the trade-dollar is not defaced, mutilated, or stamped.

Mr. LANHAM. The gentleman will allow me to suggest that it would be sufficient to insert "such" after the word "any;" so as to read "the holder of any such United States trade-dollar." But I con-

tend that that construction is already implied.

Mr. FINDLAY. Most unquestionably; it is perfectly plain upon the face of the resolution. The privilege of redemption is accorded to trade-dollars. The man who brings for redemption something which is not a trade-dollar, something which is less than a trade-dollar, something which is defaced, stamped, or mutilated, does not bring himself within the terms of the provision, and therefore can not claim the privi-

lege which it allows

Mr. Speaker, I wish now to say a single word upon the obligation which, in my judgment, rests upon this Congress to redeem these tradedollars. In the first place, it is a most extraordinary state of affairs that the coin in which the redemption is proposed to be made is of less intrinsic value than the coin to be redeemed. We simply propose that a man may be allowed to receive standard silver dollars in exchange for trade-dollars, the latter being in bullion value worth more than the standard dollars. In other words, we simply propose that the United States shall impart to the trade-dollar a legal-tender function which it originally had to a limited amount. I have never heard any good reason assigned, and in my opinion none can be assigned, why upon every principle of sound policy and morals, if not upon the stricter obligations of the law, the United States Government is not bound to redeem these trade-dollars. It is true they were issued originally for use in a special trade. But they got into circulation in the United States; they passed freely among the people; and they are now held by large numbers of citizens upon the faith that the Congress of the United States will provide for their redemption. I know the argument is sometimes made they are in the hands of speculators, and they are buying them up or will buy them up. All I have to say about that is it is a poor argument, but it is not sustained by the facts, poor as it is.

Mr. KELLEY. Will the gentleman from Maryland permit me, for

an instant only?

Mr. FINDLAY. Certainly.

Mr. KELLEY. These trade-dollars were legal-tenders by our law. Mr. FINDLAY. I understand that.

Mr. KELLEY. And we had no moral right, having inflicted them upon the people, to repeal that clause of our law which gave them that circulating value. And had we not perpetrated that fraud upon the holders they would have all been redeemed by the Government long ago in sums of \$5 and less in a single payment.

Mr. FINDLAY. I agree with my distinguished friend from Penn-

sylvania fully as to the point and force of that suggestion.

Mr. MORRISON. More than half of the trade-dollars were issued since this legal-tender clause was repealed.

Mr. BUCHANAN. Permit me to make a statement.

Mr. FINDLAY. Certainly.

Mr. BUCHANAN. In some sections of the country these trade-dollars have not passed into the hands of the speculators, but still remain in the hands of the merchants who sold goods for them. Mr. FINDLAY. That is perfectly true.

Mr. BUCHANAN. It is true in my section of the country.

Mr. FINDLAY. I was coming to that in a moment. I do not care whether trade-dollars are held by speculators or not; that is not the question. The faith of the United States is pledged to the redemption question. The faith of the United States is pledged to the redemption of the trade-dollar; I do not care who the holder is. That is a very poor argument, but I say poor as it is it is not sustained by the facts.

Mr. DANIEL. Will the gentleman allow me to ask him a question?

Mr. FINDLAY. Certainly.

Mr. DANIEL. Why do you propose to redeem the trade-dollars which were issued after the repeal of the legal-tender clause and which were very intended to be redeemed?

were never intended to be redeemed?

Mr. FINDLAY. Simply because the United States put them out; simply because it stood by and saw them put into circulation; simply because they passed from hand to hand among the people of the United States as the coin of the United States, stamped as a dollar, stamped with the legend of the United States; simply because it is not honest,

in my opinion, not to do it. [Applause.]

And I will say more, Mr. Speaker, and that is, that just as the people of this country are asking now that the trade-dollar should be redeemed, the time is not far distant when the poor holders of the standard silver dollar, now worth 71 cents, will come into this Congress and

ask full value for it.

Let me state some facts within my own knowledge. Mr. Speaker, I have been appealed to in the city of Baltimore time and again by cigar-makers, by laboring men in different avocations, who have told me of their poor wages laid away upon the faith the United States would one day redeem its pledges. They have hundreds of these trade-dollars. I know of my own knowledge the banks have thousands of them; not bought on speculation but received on deposit over their counters. So I helieve what is true of my own site of Baltimore their counters. So I believe what is true of my own city of Baltimore is true of other parts of the country from one end to the other. Upon what possible pretext or pretense this Congress can refuse the poor boon of giving a man a silver dollar worth in bullion value only a fraction over 71 cents in exchange for a trade-dollar which contains 7½ grains more of silver is a thing I can not get through my head, try it as I will. I say I have listened again and again for some just reason why the trade-dollar should not be redeemed, but I have heard none; and the only ground I can ascribe for the failure of Congress to do it is simply the inability to move a great mass or body like this into doing anything. A bill for the redemption of the trade-dollar passed the House in the Forty-eighth Congress and failed in the Senate. I have not the RECORD here to see what the vote was. I do not remember whether there was a yea-and-nay vote on it or not. I know, however, it passed with a considerable majority and went to the Senate and there folded. Now every enough to constitute on the Senate and there failed. Now, curiously enough, it comes from the Senate and the House kills it. What folly is this!

Mr. LANHAM. If the gentleman will yield to me; I have the vote

before me

Mr. FINDLAY. Certainly. Mr. LANHAM. The vote was 198 to 46.

A MEMBER. What is the date?
Mr. LANHAM. First of April, 1884.
Mr. FINDLAY. I have said all I wish to say on that subject. I do beseech my friend from Illinois [Mr. MORRISON]—and I am proud to recognize him as such; although we have differed on a great many questions, it is always with regret I do it; it really hurts me to vote against him, and I hope the time may come when I can vote with him—I wish to vote for this resolution, and if my friend from Illinois will only agree to provide for the redemption of the trade-dollar I will be glad to do so. Why not, therefore, let it come in? What good reason can be given why it should not come in? Why should not this resolution provide for the redemption of the trade-dollar?

Mr. MORRISON. I have given you a good reason.
Mr. FINDLAY. No; I think not. The reason you gave was that
it was not germane, so far as I can discover. Then you gave a very cu-That a Chinaman might stamp a cue on silverrious reason. That a Chinaman might stamp a cue on silver—I do not see how—but stamp a sycee with his own cue or that of his imperial majesty, and send it back to this country for redemption would be impossible. I do not believe anything of that kind, and I do not believe you do. I have said all I wish to say on this subject. I hope this House will exercise its conscience on this matter. I know there is great feeling on the subject among the people. You talk about discontent and unrest in the country. I tell you a large portion of it is owing to the fact that the people's representatives will not do their duty. Why, hundreds and thousands of men in the country who receive these dollars in trade see Congress pass bills month after month and year after year without giving them relief. There is a deep-seated and year after year without giving them relief. There is a deep-seated and just feeling of indignation against such conduct. I sympathize with it. I hope this House, Mr. Speaker, will take this matter into due consideration and refuse to accept the report and instruct our conferees to go back and meet their fellow-conferees of the Senate and to accept the Senate amendment to the resolution.

I reserve the balance of my time.

Mr. BRECKINRIDGE, of Kentucky. I will take the floor, and as the gentleman from Iowa has yielded ten minutes to the gentleman from New York [Mr. HEWITT] I will yield fifteen minutes of my time.

Mr. HEWITT. Certainly.

Mr. HEWITT. Certainly.

Mr. HISCOCK. I simply wish to get at the criticism which my colleague is making. You claim, as I understand, that whenever the excess is \$1,000,000 over a hundred millions a call must be made.

to the gentleman from New York, which will give him twenty-five minutes altogether. The balance of my time I will reserve.

Mr. HEWITT. Mr. Sperker, I am sorry to say there is but little

probability that I can use much of the time these gentlemen have so

generously granted to me.

The test which I should apply to this conference report is a very simple one. If it were an original proposition coming into this House I could not give it my sanction or support. The principle which underlies both the original resolution and the amendments adopted by the Senate is vicious. It seeks to impose a limitation upon the discretion senate is victous. It seeks to impose a limitation upon the discretion which now exists in the Treasury and which must reside there if the finances of this country are to be kept upon a sound basis; and by a sound basis I mean the convertibility of all its forms of currency into the unit of value which the statutes of the United States have declared to be 25.8 grains of gold.

This discretion is rendered necessary because the Treasury has in effect become a bank of issue and the place of final redemption for the currency of the country. Until the legal-tender notes are paid and the Government shall divorce itself from the national banks it is not

safe to limit this discretion.

The gentleman from Illinois [Mr. Morrison], in defending and explaining this conference report, has excused himself for abandoning his original proposition submitted to the House upon the ground that under the action of the resolution as originally introduced the balance in the Treasury would never have got below \$120,000,000. I do not think the gentleman from Illinois would deceive this House, and I do not believe that he would have come in here with a proposition that was not in its essence what it professed to be upon its face. And yet, Mr. Speaker, this day he has told the House that when he brought in a resolution which professed to limit the balance in the Treasury to \$100,000,000 that under that resolution it never could have been reduced below \$120,000,000.

Mr. MORRISON (from his seat). That applies to this debt.
Mr. HEWITT. Yes; your original resolution only applied to this debt. But why did the gentleman, who is so well versed in all the intricacies of finance that he is able to take a lofty position and look down upon those whom he stigmatizes as "the masters of finance," come in here with a proposition which, according to his own acknowledgment,

did mislead the House?

When I called his attention to the fact that his resolution in words compelled a call whenever there was \$101,000,000 in the Treasury, he shook his head. He denied that to be the proper construction of the resolution; and yet, Mr. Speaker, to-day he comes in and assents to a conference report the basis of which is that this criticism was just and

proper.

Mr. MORRISON. Oh, no.

Mr. HEWITT. I maintain that the criticism is correct, and think I understand what I am talking about. I modestly called the gentleman's attention to the fact that this would involve a call whenever there was a single million over one hundred millions in the Treasury. It went through the House with his refusal to take advantage of the suggestion I made; it went to the Senate and in that body to a committee of able lawyers, and it comes back here with an amendment to mittee of able lawyers, and it comes back here with an amendment to correct either the ignorance—no, I beg the gentleman's pardon—the failure to perceive the effect of the resolution itself; it comes back with an amendment to which he assents, protesting all the time that the original resolution meant just what the amended proposition means.

Mr. MORRISON. And I do yet.

Mr. HEWITT. Of course you do; I say you do. And yet you assent to this criticism upon your work. I am calling attention to what took place when the resolution was before the House.

Now I call the centleman's attention and the attention of the House.

Now I call the gentleman's attention and the attention of the House to another criticism, at which he will also shake his head. This criticism escaped his notice; it has escaped the notice of the conference committee and escaped the attention of the Senate.

This is the language of the resolution as reported:

That whenever the surplus or balance in the Treasury, including the amount held for redemption of United States notes, shall exceed the sum of \$100,000,000, it shall be, and it is hereby, made the duty of the Secretary of the Treasury to apply such excess—

Remember there is no limitation upon the excess; whether it be ten millions or twenty millions or a thousand millions the excess has got to be applied-

To apply such excess in sums of not less than \$10,000,000.

He can not call less than \$10,000,000, but this resolution imposes upon him the imperative legal obligation to call every dollar of the surplus over the one hundred millions and the ten millions which is guarded by the new proviso and the twenty millions allowed for the working balance in the Treasury.

Mr. Speaker, I do not claim to be a lawyer; it is not my trade to construe statutes, but—

Mr. HISCOCK. Will my colleague yield to me for a moment?

Mr. HEWITT. No, sir; not now. I did claim it, and it was denied. The resolution went to the Senate and was corrected by that body, or rather by the report which the gentleman has signed as a

member of the conference committee.

Mr. HISCOCK. What I want to get at is the criticism my colleague is now making. If he has not sufficient time I will yield him a part

of my own time.

Mr. HEWITT. I say that under this resolution to which the gentleman's name, my colleague on the Committee on Ways and Means, is Mr. HEWITT. attached as a conferee, if I can understand the English language, the Secretary of the Treasury is compelled to apply to the cancellation of the debt every dollar in the Treasury in excess of \$130,000,000; and the very first month he must call bonds to the whole amount of the surplus, with the limitation that the call shall not be less than ten millions, but there is no limitation at all as to the excess over ten millions; and the obligation is as imperative as it is possible to clothe it in the English tongue.

Of course the chairman of my committee will shake his head and of course the chairman of my committee will shake his head and say there is nothing in this criticism. He did it before. But if I am no lawyer I have at least been accustomed to weigh the meaning of English words; and if there be any doubt about this thing my colleague from New York, who is a master of legal technicalities, will be able to point out where the difficulty is and explain why my construction of this provision is not the true and only construction.

The speech of my colleague on the committee [Mr. MORRISON] was a most ingenious and perfectly conclusive argument to prove that his hindsight was better than the foresight of the able financiers that funded the debt of the United States. And he proved it; and he has proved by his speech to-day that he is a master of hindsight. Why, sir, the Why, sir, the refunding of the debt of the United States is regarded by the men whom he stigmatized as "masters of finance" as the greatest triumph of financial ability that the world has ever seen or known; so great indeed that no man can take the credit of it. It was the progress of events that enabled the United States to fund its debt at successively lower rates of interest. The Speaker of this House, when he was on the floor, brought in a bill here to refund the debt of the United States at 3½ per He is a wise and able man.

I take as good account of his judgment as of any man I have ever known, and yet he was mistaken, and within twelve months after that known, and yet he was mistaken, and within twelve months after that time the debt of the United States was refunded at 3 per cent., for which my colleague from New York will tell us, as I agree, there was no warrant of law. If the law had been strictly complied with within a year after the debt was refunded at 3 per cent. it might have been refunded, certainly at $2\frac{1}{2}$ per cent. and probably at 2 per cent. interest. But so unexpected was the success of this magnificent funding operation there was no man to call in question the authority under which Secretary Windom achieved this signal feat of finance.

And yet in the presence of this magnificent march of human progress in the creation of capital, which is improving the condition of labor and industry all over the world, and is rapidly making capital to be the servant and no longer the master of labor, in the presence of this unexpected benefaction gentlemen get up here and carp at the men who did not foresee that the rate of interest would successively fall by rapid stages from 5 to 2 per cent. per annum. The gentleman from Illinois is not only a phrase-maker himself, but he seems to be captivated by phrases. He is the inventor of the phrase "fiscal distemper." Having made one invention which is likely to live, he seizes upon a chance expression of mine, not carefully thought out in the waking borres of the right and part in a sufficient way. hours of the night and put in a written report on which he had ex-pended all his unquestionable ability, but a chance shot, made not in connection at all with the question of the knowledge required to run the Treasury and the finances of the country successfully.

A MEMBER. It was an apt phrase.

Mr. HEWITT. Oh, yes; the language was apt. I do not take it ick. But I want to show how the gentleman is misled in his criticism by the mere accident of a taking phrase. I spoke of the time when the Treasury balance was being reduced in amount and said that when it got down to \$120,000,000 the hoarding of gold began. And then I added that it was not hoarded in stockings and laid away in secret hiding-places, but it was hoarded by the masters of finance; that is to say, the men whose business it is to study the condition of the money market and when they see the storm signals to furl their sails and prepare for the tempest which is impending. I do not love these masters of finance any more than I do the doctor who gives me medicine when I am sick, but my dislike to disagreeable doses does not make the doctor any less necessary in the hour of danger.

The trouble with the gentleman from Illinois is that he does not believe there ever will be a financial tempest again and in his assument.

lieve there ever will be a financial tempest again, and in his argument he ingeniously avoids the real issue involved in this resolution. Let us speak it out like men. This resolution means a silver basis for the obligations of this country. I know there is a large majority of this House in favor of that basis and that I speak to a hostile audience. Therefore, those who desire to bring about the change to the silver basis will vote intelligently for this measure, for it will as surely bring the country to a silver basis as the sun will rise to-morrow. You can not pour \$3,000,000 a month into a treasury already full and overflow-

ing-yes, I will agree with the gentleman from Illinois to that extentyou can not pour \$3,000,000 a month into a treasury already full without causing \$3,000,000 to flow out, and they will be the gold that is there,

the basis of our present financial system.

The adoption of this resolution with the twenty millions added for a working balance can only postpone this result about six months longer than would have been otherwise reached, provided we take advantage of that most wise enactment of Congress at this session, the issue of the or that most wise enactment of Congress at this session, the issue of the small silver certificates to take the place of what would otherwise be paid out in gold-bearing obligations. Thus you might possibly go on for another year or two but for the passage of this resolution. This resolution, however, serves notice—I will not say upon the masters of finance, for they want no notice—but it serves notice upon the men who own the property of this country that there is to be a transfer from the gold to the silver basis, by which 25 per cent. of the property of this country will change hands without the consent of the owner. That is what it

The gentleman from Illinois says, "Do not take the advice of the masters of finance; they are interested in United States bonds." Who owns the United States bonds?

Mr. MORRISON. I never mentioned the United States bonds.
Mr. HEWITT. Securities of any kind, then; but the bonds are the instruments which have to be paid off and which he says the banks do not wish to be called.

Mr. Speaker, who are the owners of those bonds? The bonds which are not held to secure circulation are almost all owned by widows, orphans, laborers, servants, people who have deposits in savings-banks, people who have bought them for investment and to secure life insur-

Mr. BLAND. How many of those bonds are held by the national

Mr. HEWITT. One hundred and two million dollars.
Mr. BLAND. Nearly all of them.
Mr. HEWITT. One hundred and two million dollars out of \$136,-000,000. But the gentleman from Missouri has failed utterly to get my point. I care nothing about those \$102,000,000. And let me say here—inasmuch as the gentleman from Pennsylvania [Mr. RANDALL] when he was speaking the other day shook his hand at me in a menacing manner and said there would be no trouble about this matter if was in some manner the organ of the national banks—let me say again what I have said once before on this floor in a previous Congress that I have never owned a share in a national bank, that I do not own a share in a national bank, that I never had any connection with the national banks except to deposit my money with them, nor do I borrow any money from them.

I stand here simply as a representative of that portion of the country in which, I grant, the largest amount of capital is gathered, and where there is the greatest possible interest to conserve the capital of the country. Is that selfish? Is capital an evil? Is capital a destructive agency? Why, if you could destroy the capital of this country you would reduce it to a state of poverty, of want, of barbarism. The capital that is required to carry the community through a single year is equal to the earnings of that year. The accumulated personal property equal to the earnings of that year. The accumulated personal property of the world would not carry on society for more than two years if production should cease. There is no duty so strong, there is no obligation so urgent as that which teaches us to conserve the capital of the country. The question of its ownership is altogether secondary. It is the best and truest friend of labor. And yet the capital which this resolution would destroy would be the capital of the most deserving portion. tion of the community, those who gain their daily bread by their daily

Mr. Speaker, I am opposed from first to last to every proposition which will tend to change the standard of value in this country, because a change in the standard of value means that the property of those who have labored hard to get it shall be taken away and given to the speculators and "the masters of finance." I do not want the masters of finance to lay their hands upon the hard earnings of the poor, the accumulations of the deserving. I want to check if I can the growth of these great fortunes by a better distribution of wealth. The transition from gold to greenbacks (and from greenbacks to gold, as my friend from Iowa [Mr. WEAVER] will very properly insist) was, in effect, the agency which created most of the overgrown fortunes which now exist in this country and which are a reproach to its civilization and its laws

But this kind of action, these propositions coming from men who do not know—and that is the excuse I make for them—who can not measure the result of what they will propose, will increase these overgrown fortunes, will create more of them, and will bring the labor and industry of this country into a hopeless condition of bondage. Every step toward this unhappy result I resist, and shall continue to resist so long as I have a seat as a Representative or a vote as a citizen who desires

to preserve the liberties and prosperity of the country.

Mr. WEAVER, of Iowa. I yield ten minutes to the gentleman from Mr. WEAVER, of Iowa. I yield ten minutes to the gentleman from Missouri [Mr. BLAND].

Mr. BRECKINRIDGE, of Kentucky. I resume the floor, but give

way to the gentleman from Missouri [Mr. BLAND] if he desires to speak

Mr. BLAND. I am always glad, Mr. Speaker, to follow the lead of the gentleman from Illinois [Mr. Morrison], and I did so with pleasure when this resolution passed the House, notwithstanding the fact that I did not believe then, and do not believe now, that it was neces sary to crystallize into law a provision by which the Secretary of the Treasury should be authorized to hold \$100,000,000 for the redemption of the legal-tender notes. The Senate has since amended the joint resolution, not only recognizing that reserve but also providing that twenty millions more shall be held as a working balance, and as this resolution, if adopted, will be taken as the voice of Congress and as the law of Congress upon this question, I can not give my vote in its favor. In the very able speech of the gentleman from Illinois [Mr. Morrison], in which in the main I concur, he stated that the Treasury Department was the only one that had been placed, at its organization, under the direct supervision and control of the representatives of the people.

If that be true, and it ought to be true, why is this resolution pro-

posed which takes away from the representatives of the people the control of the financial policy of the Government and confers upon the Secretary of the Treasury a power by which he is enabled, at his discretion, to suspend the operation of the law whenever in his judgment the public interest or the public credit may require? Gentlemen have undertaken to explain this resolution, but I have heard no explanation of it that is satisfactory to my mind. I believe it means simply this and I want gentlemen here to understand it—it means that whenever they have paid out the gold for the redemption of these bonds, then the operation of this resolution is to cease and not a dollar of silver is to go out. And if gentlemen who are in favor of paying out silver, either on bonds or other securities, vote for this resolution, they will simply sanction that construction of the law and say that the Secretary of the Treasury may hold the silver coin in the Treasury until doomsday, if he so desires.

Mr. WEAVER, of Iowa. If the gentleman will permit a suggestion, in proof that his view of the resolution is correct, I will remind the House that an amendment was offered in the Senate providing that the payment should be either gold or silver, and that that amendment

Mr. BLAND. Now, Mr. Speaker, what is the law to-day? There is plenty of authority upon the statute-book for the Secretary of the Treasury to redeem these bonds, and, in his discretion, to purchase or re-deem other bonds, if he desires. Therefore this resolution confers no further authority in that direction upon the Secretary than he has now, while it gives him discretion to suspend the operation of the law at any time. We are invited as members of this House to vote for a resolution which, if it means anything, means that the moment the silver dollar is reached the Secretary of the Treasury is authorized to suspend the law and retain the silver in the Treasury. That is the purpose for which this amendment was incorporated in the resolution. There is no other reason for it.

With no prospect of war, no prospect of danger from any quarter, with our revenues coming in from day to day in abundance to meet all with our revenues coming in from day to day in abundance to meet all the current expenditures of the Government, there is no apparent reason for this provision in regard to the reserve, and it was evidently inserted simply for the purpose of retaining the silver in the Treasury. I hope this House will not sanction any such policy. The gentleman from New York [Mr. Hewitt] claims that the resolution means silver payments. What do we coin silver for if it is not to be paid out?

Mr. HEWITT. Not silver payments, but a silver basis. I am in favor of paying out silver.

Mr. BLAND. Oh, yes; "a silver basis."
Mr. HEWITT. Well, quote me correctly.
Mr. BLAND. What do you mean by silver payment?
Mr. HEWITT. I mean that gold will disappear and silver will be

Mr. HEWITI. I mean that goth the datappear and the only money in the Treasury.

Mr. WEAVER, of Iowa. Does the gentleman from New York [Mr. HEWITT] favor paying out silver on the Government bonds?

Mr. HEWITT. I would never pay a dollar of silver on the bonds as long as I had a gold dollar to pay; but when I had not a gold dollar, then I would pay silver.

Mr. WEAVER, of Iowa. And this resolution means that only gold

dollars shall be paid out.

Mr. BLAND. Now, Mr. Speaker, the issue is presented directly to this House, whether the House is going to indorse a policy that looks to giving the Secretary of the Treasury authority to suspend the operation of this law and stop the payment of silver whenever he desires. The gentleman from New York [Mr. HEWITT] claims that this resolution will bring us to a silver basis. Probably it would (taking his definition of a silver basis, which is silver payment) if it were to be executed. If this discretionary provision were not contained in the resolution there would be something in the gentleman's criticism; but when the resolution contains a provision authorizing the Secretary of the Treasury to stop or suspend its execution at his discretion I do not understand what basis there is for the argument of the gentleman from We may as well meet this issue now as at any other time. New York. This House a few months ago voted down overwhelmingly a resolu-

tion for the suspension of silver coinage. Did that mean that we were to go on coining silver and hoarding it in the Treasury? It meant that it was to be coined and paid out upon the public debt and other securities, and if this Congress refuses to do that it will nevertheless be done, because the people of this country are not going to rest satisfied with existing legislation upon this subject. We must either stop the coinage of silver or else cease to talk about "silver basis" and "silver payment." I hope the House will vote down this conference reserves payment." I hope the House will vote down this conference report and will let the law remain as it is and not commit itself to the policy of giving the Secretary of the Treasury authority to suspend the opera-tion of this resolution whenever he thinks the silver basis is about to be reached. Gentlemen will remember that last September a little ring of bankers in New York, for the purpose of making capital to be brought to bear upon Congress, and in order to affect public sentiment and the legislation of Congress, in conjunction with the Secretary of the Treasury claimed that we were about to reach a silver basis. There was then were in no worse condition then than we are to-day. no more danger of a silver basis than there is now. The banks exchanged some five or six million dollars of gold for-what? For subsidiary coinage, knowing full well that under the law they could the next day deposit that subsidiary coinage and withdraw the whole of their gold. The whole proceeding was nothing but a farce to terrorize the country in order that Congress might be induced to suspend the coinage of silver. And before we reassemble next December we shall, no doubt, if this resolution be adopted, have the same scene re-enacted as an excuse for not executing the law.

I am in favor of the payment of the public debt. We never had such prosperity in this country as when we were paying large sums of money upon the public debt. In 1879, 1880, 1881, and 1882, when the largest payments on the public debt were made, we built more railroads, there was more enterprise and prosperity in the country, than at any time since

Here the hammer fell.

Mr. BLAND. I should have been glad to occupy a few minutes more. I thank the gentleman, who kindly yielded to me, for his court-

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, announced that the Senate had agreed to the report of the committee of conference on the disagreeing votes of the two Houses upon the bill (S. 335) to provide for protecting the interests of the United States in the Potomac River Flats in the District of Columbia.

The message also announced that the Senate had agreed to the amendments of the House to the bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service.

The message further announced that the Senate had passed without

amendment bills of the following titles:
A bill (H. R. 8596) for the relief of Beaufort Lee and others; and A bill (H. R. 4865) to extend the system for the immediate delivery of letters, and amendatory of sections 3, 4, and 5 of the act approved March 3, 1885, entitled "An act making appropriations for the service of the Post-Office Department for the fiscal year ending June 30, 1886, and for other purposes."

The message also announced that the Senate had passed the bill (S.

1597) for the erection of a public building at Yonkers, N. Y.; in which the concurrence of the House was requested.

ENROLLED BILLS SIGNED.

Mr. NEECE, from the Committee on Enrolled Bills, reported that the committee had examined and found truly enrolled bills of the fol-

lowing titles; when the Speaker signed the same:

A bill (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service; and A bill (H. R. 2438) to authorize the Postmaster-General to allow com-

pensation to railroad companies in certain cases for apartment service heretofore furnished pursuant to agreement.

PAYMENT OF SURPLUS ON PUBLIC DEBT.

The House resumed the consideration of the report of the committee of conference on the joint resolution (H. Res. 126) directing payment of the surplus in the Treasury on the public debt.

Mr. Weaver, of Iowa, and Mr. Breckinridge, of Kentucky, ad-

dressed the Chair.

The SPEAKER. The Chair must recognize the gentleman from

Kentucky [Mr. Breckinridge].
Mr. WEAVER, of Iowa. With the understanding that I do not lose

own right.

Mr. WEAVER, of Iowa. I am controlling my own time.
Mr. BRECKINRIDGE, of Kentucky. I took the floor in my own right and gave the gentleman from New York [Mr. HEWITT] fifteen minutes of my time, in addition to the time granted by the gentleman from Iowa

Mr. HEWITT. So much of my twenty-five minutes as I did not use

I returned to the gentleman from Iowa. Just at this point, before my colleague on the committee [Mr. Breckinridge, of Kentucky]-begins his speech, I wish to say that when I remarked a few moments ago, in reply to a question, that I would pay out the gold as long as there continued to be a gold dollar in the Treasury, I, of course, wished it understood that if any man wanted silver I would give it to him

Mr. WEAVER, of Iowa. You would not make him take gold against

his will.

Mr. HEWITT. I would not make him take it.

Mr. WEAVER, of Iowa. I knew that.
Mr. BRECKINRIDGE, of Kentucky. Mr. Speaker, a conference be tween the House and the Senate on disagreeing votes means necessarily that there must be concession in order to reach practical legislation. The very fact that there is a conference committee presupposes the possibility of the two Houses reaching a compromise. I do not hesitate to say that where there is not involved any question of honor or of principle statesmanship consists in wise concessions in reaching mutual agreement by compromise. And the essential idea in the appointment of a conference committee is, that the Houses, having agreed as to the direction that legislation shall pursue, have disagreed as to the distance that it shall go and the mode of its pursuit; and by conference an agreement may be reached and practical legislation accomplished. Concession is not suprember compromise is not abundance at any the charge. cession is not surrender; compromise is not abandonment; and the object to be attained is more important than the mode of obtaining it or the details of the mode.

Now, does this conference report agree in its line of direction with what the House contemplated in the resolution which it passed? I say most emphatically that it does. We do not get all that we asked, say most emphatically that it does. that we wanted, all that we thought wise; but we do get something in the line which we thought ought to be pursued. What is the policy underlying this resolution which received 207 votes in this House and the vote of the entire Senate in one form or another? What is the underlying principle involved? It is that the surplus in the public Treasury shall be paid on the public debt? Whether in the mode pointed out by our resolution or in the mode pointed out in the resolution adopted by the Senate or in the mode suggested by the modification as proposed by the conference committee, the governing principle of the proposition is that the surplus in the Treasury shall be paid

upon the public debt.

Let me state the points of agreement. Two hundred and seven members of this House and the Senate unanimously agree that there is now in the Treasury millions of money too much; that the accumulations ought to cease; that payments of not less than \$10,000,000 monthly ought to be made in the cancellation of the public debt subject to call. So far the Houses are agreed. They agree in the policy—the payment of the public debt; they agree in the amount of monthly payments— \$10,000,000 monthly; they agree that the surplus is too large; they agree that the accumulation must cease; they agree that under present circumstances these payments are safe. They disagree (1) as to the necessity for a working balance and (2) as to what discretion ought to be reposed in the Secretary of the Treasury. What is essential in this statement?

Upon such a proposition, in such a condition, what concession is permissible, what compromise honorable? To accomplish practical legislation, what can we properly concede? We who make and will vote for this report subordinate mode to object, concede detail to accomplish important results. Will those gentlemen, like my friend from Iowa [Mr. Wealter] and my friend from Missouri [Mr. Bland], who are not portant results. Will those gentlemen, like my friend from Iowa [Mr. Weavers] and my friend from Missouri [Mr. Bland], who are not willing to have any paid out unless it can all be paid; who are not willing to save any interest unless the interest is saved in their way; who are not willing to allow the surplus to be disposed of under conditions which shall leave some discretion with the Secretary of the Treasury, simply say that the present burdens upon industry shall not be lightened, the public debt shall not be diminished, the interest shall not be paid, unless it is done according to the precise method which they ap-

Mr. Speaker, I heartily indorsed this resolution as it went to the Senate. I am not in favor of any of the provisions put upon it by the But in this Government under our Constitution the House and the Senate are the two constituent elements that must enact a statute; and it seems to me the very height of political folly to say that we will not enact any statute if the Senate will not agree with the measure as it is written by us when it leaves our Hall. *Per contra*, I do not hesitate to say that if the Senate will not go as far as I want to go I will go with them as far as they are willing to go, hoping that the future

will enable us to go farther.

Mr. WEAVER, of Iowa. Has not the Secretary of the Treasury a right to pay out the surplus now?

Mr. BRECKINRIDGE, of Kentucky. Undoubtedly.

Mr. WEAVER, of Iowa. Then you gain nothing.
Mr. BRECKINRIDGE, of Kentucky. What is the law? As it now stands the Secretary of the Treasury has the discretion to pay of the interest-bearing debt of the Government subject to call such sums as he may think fit. The \$100,000,000 which by the act of 1882 are mentioned with the phrase, "reserved for the redemption of the Treasury notes," may or may not by that act have been so set apart. I am not now discussing that question, and it is not necessary for this resolution; we leave that precisely as we find it. My friend from Missouri [Mr. BLAND] is wholly mistaken when he says this sets apart that \$100,000,000,000 and the says this sets apart that \$100,000,000. It does not do it, and he is entirely mistaken.

This resolution does not change the existing law as to that \$100,-000,000; it leaves that under the law as it now is. Nor does it ratify the present mode of book-keeping or of stating the public assets and liabilities. For the purposes of this resolution this \$100,000,000 is left out of its scope, and this mode of statement recognized. what, and with what alone, does this resolution deal? The surplus or balance in the Treasury. What "surplus or balance?" That described therein, i. e., that "excess" of public money found according to the form of statement of the United States Treasurer employed on June 30, 1886; to this "excess," and this alone, does it apply.

It leaves every other sum, fund, or amount untouched; it repeals, and if the Treasurer employed on the sum of the Treasurer

modifies, or amends no law, changes no regulation of the Treasury save as to this "surplus or balance," as to this "excess." Whatever discretion as to that \$100,000,000 the Secretary ever had he still will have. We do not encroach upon, enlarge, or diminish that. We do not change the law as to fractional or minor coin, nor as to "lawful money" deposited by the national banks. These questions are left under the present laws, whatever they may be. It enters into no question concerning gold, silver, or paper. The "lawful money" constituting that "surplus balance"—forming that "excess"—whatever it may be, coming into the Treasury in payment of public dues, shall be so used as is at present done, as has been always done, as the Secretary or Treasurer may deem best to preserve their parity and preserve the public credit.

So, also, this resolution is confined in the scope of the payments to be made; they are payments of the interest-bearing indebtedness of the United States payable at the option of the Government. So that this resolution can apply ex vi termini only to one hundred and thirty-two bonds and to "the surplus or balance" found according to the form of statement used on June 30; and all other questions are not affected

by its provisions.

Mr. BLAND. The point I should like the gentleman to address himself to is that under the sinking-fund act we would redeem about \$45,-000,000.

Mr. BRECKINRIDGE, of Kentucky. Yes, sir.
Mr. BLAND. This makes no provision that these bonds which are redeemed shall not be counted as part of that amount. I say the Department will be authorized to count this redemption as part of the sinking fund and your resolution would amount to little more than the

Mr. BRECKINRIDGE, of Kentucky. I only yielded to the gentle-man to allow him to ask me a question; I did not yield for another speech.

Mr. BLAND. I wish my friend to answer that point, whether under this resolution the Secretary of the Treasury would not be allowed

to count this redemption as a part of the sinking fund.

Mr. BRECKINRIDGE, of Kentucky. This resolution does not allude to or change any law now in existence, except to make obligatory on the Secretary that he shall pay that surplus unless upon his official and personal conscience he sees that an extraordinary emergency has arisen which renders it dangerous to the public interests to pay it out. we take the law as we find it, and the sinking fund as we find it, and without changing the law we say to the Secretary of the Treasury—

Mr. BLAND. My point is this—

Mr. BRECKINRIDGE, of Kentucky. Wait a moment; I will an-

Now, Mr. Speaker, we must assume the Secretary of the Treasury is a gentleman and wants to be honorable. We must assume, as he is a public servant, that he wants to discharge his duty. We must assume he is a law-abiding citizen who wants to execute the law, and we say by this resolution to him, who is our fiscal agent, whose discretion has been used in a manner which may or may not be wise, "You have accumulated enough on hand, and now pay it out until these one hundred and thirty-two bonds are paid."

Mr. WEAVER, of Iowa. If you think it is safe.

Mr. BRECKINRIDGE, of Kentucky. But to pay it out.

Now, Mr. Speaker, I will not doubt that the Secretary of the Treasury, wheever he may be has a honest a desire to discharge his duty as a mem-

whoever he may be, has as honest a desire to discharge his duty as a member of Congress or any other public servant, and this law says to him, you must pay that money out unless hereafter a new and extraordinary emergency arises, a new conjuncture of events, and then, on your official conscience, if you think it is not safe to do so, that to preserve the public credit it can not be done, then you may postpone these payments and submit to Congress your reasons therefor. Is that no change for the better?

Mr. BLAND. But the point is this—
Mr. BRECKINRIDGE, of Kentucky. The gentleman says we will have it counted as a part of the sinking fund. The statute provides for the redemption of bonds.

Mr. BLAND. It says he shall redeem so much under the sinking fund.

Mr. BRECKINRIDGE, of Kentucky. I do not wish to be discourt-

eous to the gentleman—
Mr. BLAND. I will not interrupt the gentleman if he does not wish me to do so.

Mr. BRECKINRIDGE, of Kentucky. It does not interrupt me, but

it takes my time.

This resolution does not change the present law relating to the sinking fund. The Secretary must obey the law as it now is, and call enough bonds to answer the requirements of that statute. He, in addition, has the discretion to call or purchase other bonds; and it is as to this discretion that this resolution becomes operative. If he call only the bonds sufficient to fulfill the requirements of the sinking fund, he will not have obeyed this act; and this disobedience will be clear if

there arise no extraordinary emergency.

And why shall we hesitate to give this order, and thereby have the chance of its execution and the consequent payment of more bonds, because there may be a possibility of its violation? We do not enlarge but limit the discretion now given. Our agent declines to pay out this money. We order its payment, its immediate, continued, stated payment, with the single proviso that if any new, unforeseen, and extraordinary emergency arises the payments may be postponed, but immediately thereupon if we be in session, or ten days after we reassemble, this agent shall report his reasons for this postponement and then his discretion is terminated and we assume the entire responsibility. Surely this limits his present discretion, and reduces it to narrow limits. But shall we surrender our object because we differ with the Senate as to the extent of this discretion? I prefer to take some risk to accomplish it rather than lose it by a futile discussion over the mode to be adopted.

I desire, Mr. Speaker, to answer briefly my distinguished friend from New York [Mr. Hewitt], to whom I always listen with delight, and when I dissent from him, with deference and reluctance. I am a lawyer, but do not pretend to be anything more than a plain, rough-and-tumble, country circuit-court lawyer, not a city lawyer with a specialty. But my construction of the language of this resolution to which my friend

from New York has referred-

That whenever the surplus or balance in the Treasury, including the amount held for the redemption of United States notes, shall exceed the sum of \$100,-000,000 it shall be, and is hereby, made the duty of the Secretary of the Treasury to supply such exces

That is all over the sum of \$100,000,000-

in sums not less than \$10,000,000 per month, to the payment of the interest-bearing indebtedness of the United States payable at the option of the Government.

That is the gist of the whole resolution, all the balance being merely detail. My friend from New York says it is obligatory upon the Secretary to pay such excess at once. What, then, upon the principle that all parts of an instrument must be construed to be material—that you must construe in pari materia every part of an instrument-what is the meaning of the words:

In sums not less than ten millions per month?

Certainly he may pay the whole excess as soon as the resolution is passed, but he may pay but \$10,000,000 a month so long as the excess exists. He need not pay \$10,000,000 in every call, only every month; he may make more frequent calls and for smaller sums; and this may be wise. This is undoubtedly the plain meaning of this provision.

As to whether the first proviso of the Senate amending this resolution was or was not necessary according to the contention between the chairman of the Committee on Ways and Means and my friend from New York, I have but to say that it was perfectly clear to my mind that it York, I have but to say that it was perfectly clear to my mind that it was not necessary, for all the Secretary could pay out was "such excess" in sums of not less than ten millions per month. And if there was no "excess" there could be no call. It was only "such excess" that was within the scope or language of the original resolution; for "such excess" is the phrase used as the equivalent of "the surplus or balance in the Treasury, including amount held for redemption of United States notes, shall exceed the sum of \$100,000,000, "&c.; so that before this resolution becomes operative, or continues operative, there must be "such excess," that is, a "surplus or balance" over \$100,000,000, and on this "excess" alone does it operate.

But perhaps it is made more clear by the Senate, and for that reason

But perhaps it is made more clear by the Senate, and for that reason

I do not object to this Senate amendment.

As to the twenty millions of "working balance," I wish to say that I do not believe there is any necessity for a working balance of twenty

I repeat, Mr. Speaker, I do not believe that twenty millions is necesar repeat, Mr. Speaker, I do not believe that twenty millions is necessary for a working balance. I will go further than that. I do not believe that one hundred millions of gold is necessary for the redemption of the Treasury notes. I do not believe they need such a reserve. I am not a banker, and may not understand the dogmas which have been promulgated in reference to redemption; but my judgment is that the policy of maintaining the Treasury notes by retaining in the Treasury large a reserve is unnecessary. to large a reserve is unnecessary.

The stability of that currency does not rest on such basis as that. The scaolity of that currency does not rest on such basis as that. The confidence of the entire financial world in the securities of this country is not based on that reserve. It is not at the bottom of that confidence. It is based on the sixty million people of the country; upon the millions of acres of rich lands, upon the rushing rivers, upon the mountains filled with inexhaustible supplies of minerals, and in the belief which exists that the Anglo-Saxon race, which has always been an honest, industrious, and sweat-bearing people, would make money enough by their industries to pay their debts.

Wherever you find a community of this race you find a community

by whom loans of money can be had and little security asked for the loan. This it is that makes our money good. But shall we refuse to pay out between twenty and eighty millions of excess, say sixty millions, because the Senate thinks it necessary that we should hold a hundred millions and a working balance; and shall we sulk in our camp and refuse to order the payment of the sixty millions because the Senate will not unite with us in the order that eighty millions shall be

I approach, Mr. Speaker, one phase of this subject with no diffidence, and that is the allegation that this legislation is an attack on the Democratic administration. I believe that one essential element of Democratic success is the free interchange of opinion and a frank and resolute discharge of each man's duty as he sees it.

I have no attack to make on the President, or the Secretary, or anybody se. The President vetoes according to his conscience. I vote in the sight of God according to my conscience and my convictions. not desire to have this discretion imposed on the President as the Senate put it. The Secretary of the Treasury is the fiscal agent of the Government.

By the terms of the Constitution the power of raising revenue is primarily conferred on this House; "the power of the purse" is given to the legislative department; for the "purse" in a free government means the power of taxation, the result of taxes; this is the only "purse" we have. This belongs to us. I am not willing to abdicate that power, or to imprivite Newscare can be rejected. nor to impair it. No money can be raised except by our order; none appropriated save by us; none expended but in obedience to laws enacted by us.

This is the result of many years of struggle for parliamentary government; this is ours by inheritance; this is of the essence of free institutions; this is vital to representative government. The Secretary of the Treasury is our fiscal agent, and bears a different relation to Congress than that borne by the heads of the other Executive Departments. The Congress of 1789 would not permit him to perform such duties as the President might impose, but enumerated his powers and duties and prescribed that he should report to Congress.

Let us carefully preserve this distinction. I care not now to give reasons for it; they are conclusive. But we find it. Let us be careful not to obliterate it. It is more important and far-reaching than may

at first blush appear.

I insist that this preference is not only not an attack on the President, but precisely the contrary. It is unjust to predict a possible

attack and a contingent controversy

But we must leave something to the discretion of the Secretary. are not always in session. In one year from March to December we are in vacation. It may be that it is prudent to repose some discretion in the Secretary for emergencies which we can not foresee, so that sudden revolutions which come upon us may not find us unprepared. Any-how we must accept this, or surrender all hope of any legislation on this subject for this session. If it turn out to be unwise, we have lost nothing; for as it is he has large powers, and we have nothing to lose but may gain by this action.

And now, upon reducing it to its ultimate essence, the question for this Congress is this: We have said that this money shall be paid out. "All right," say the Senate, "but it shall only be with limitations; there shall be a working balance of twenty millions; and secondly, there shall shall be a working balance of twenty millions; and secondly, there shall be that discretion in the Secretary who shall make report to Congress immediately, that Congress may have an opportunity to pass upon it." I do not hesitate to say it is not what I wanted. It is not what I contended for as one of the managers of the conference on the part of the House. But it is no surrender to the Senate. It is no abandonment of any principle. It is merely to say, "I belong to a House which can not act in and by itself; I am a member of a body whose simple resolution has no effect, but in order to have an effect must also pass the Senate. I am powerless to have this thing except in this way; it is this or nothing. Shall I do nothing?"

There was one reason why I could not agree to do nothing. I am a

There was one reason why I could not agree to do nothing. There was one reason why I could not agree to do nothing. I am a Democrat. But I am more than a Democrat. I am a partisan, no doubt; I am no half-way man. I do notstraddle the fence. We might go to the people and say, "Here is the Democratic House which wants to pay out the surplus and the Republican Senate will not permit it." But I am not only a Democrat. I hope I am something else. I felt that on the committee I was representing not merely the House as one of its managers but behind that House I was representing the three hundred and twenty-five constituencies who sent us here. I was representing the hundred and twenty-five constituencies who sent us here. I was representing the hundred and twenty-five constituencies who sent us here. hundred and twenty-five constituencies who sent us here. I was representing the humble man, part of the fruits of whose sweat is daily taken

by this indirect taxation which you will not reduce. I was represent-ing there the widow and her orphan children whose great struggle in life is made more onerous because she has to pay part of her little earnings in consequence of that protective system which you will not revise. I was representing every section of the country and said, if we could not get all we wanted, if we could not send the fructifying stream from the Treasury without limit, we would at least turn as much of it as could be over the country.

We can devote our efforts to the settlement of the great policy that the public debt shall be paid without postponement, without prolongment, without excuse, and if we can not get it exactly as we want it we ought to take the best we can, and next year we will take another step and the year after another. And when I recollect the sum of money now in the Treasury, with so much more coming in before we can reach another option call, I ask why should we lose this measure

by quarreling over the details?

This provides for the calling of one hundred and thirty-two millions

This provides for the calling of one hundred and thirty-two millions of bonds. In my judgment no emergency will arise that will be a reason for postponing the payment of those bonds. And I say to my friend from New York [Mr. Hewitt], with great respect, another month has passed in safety since he predicted these disasters.

Mr. HEWITT. I did not predict they would happen at this time. But I predict now they are going to happen.

Mr. BLAND. You predicted that in 1877.

Mr. BRECKINRIDGE, of Kentucky. My friend is always predicting what will happen to-morrow, and that morrow never comes. We have had another month nearly since we had this discussion; and there is piled up in that Treasury \$80,206,325.98 of a balance, with nine millions of revenue over all expenditures during the month, and there has ions of revenue over all expenditures during the month, and there has been no disaster.

Ten million dollars of these bonds could have been called and the surplus would not have been diminished quite a million of dollars. So the experience of July is the same since January 30. Against the sad predictions of my friend [Mr. HEWITT] I again place this prac-

Mr. Speaker, we have outstanding \$132,000,000 of bonds; we have a balance of \$80,000,000; our revenues exceed our expenditures by from \$8,000,000 to \$9,000,000 a month; and to pay \$10,000,000 a month on this debt under such circumstances will bring ruin, produce disaster, precipitate a panie, stain our financial escutcheon, and cause bankruptcy! I beg pardon that I am incredulous. It is simply impos-

My colleague and others have asked this question: "What are we going to do with the banks, and what currency will we have when we pay off those bonds?' I do not know how the problem is to be solved; but I do not doubt the men who have that problem in hand—call them if you choose "masters of finance"—will be able to solve it. And this I know: It does not help us to postpone its solution by piling the money

The difference between my friend from Iowa [Mr. Weaver], my friend from Missouri [Mr. Bland], and myself is simply this: I am willing to take the half-loaf of compromise legislation.

Mr. WEAVER, of Iowa. Oh, no; you are willing to take it if the Secretary of the Treasury will let you have it.

Mr. BRECKINRIDGE, of Kentucky. I am willing to take it on the idea that a public officer of the Government means to discharge his

Mr. WEAVER, of Iowa. I ask the gentleman if he has not the power of paying it out now, and why does he not do it?

Mr. BRECKINRIDGE, of Kentucky. Because he disagrees with us. But when the law is passed which says that he shall pay it out unless some emergency arises requiring him to postpone the payment, then to say he will not pay it out even though no such emergency comes, is to say he is a violator of the law and an official perjurer, and I am not willing to say that. Mr. WEAVER, of Iowa.

He is the judge of the emergency himself. Mr. BRECKINRIDGE, of Kentucky. Is not a judge of the Supreme Court the judge of the cases coming before him? Is not the President called upon to judge in a case of executive duty which he has to decide? Are not we the judges of what we shall do in a given emergency? That is the whole point between those gentlemen and my-

I am surprised—no, not surprised, because it always occurs on measures of expediency, which are dignified into measures of principle, that the two extremes meet together—I will not say "flap together"—but who would have expected the day would come when my friend from Iowa [Mr. WEAVER] and my venerable friend from New York [Mr. HEWITT] would be pulling together as wheel-horses in the same team, for the purpose of keeping the surplus in the public Treasury? If a picture were drawn of the scenes in this Congress, what would be more incredible to the good people of Iowa than to see my friend from Iowa a wheel-horse in the same team with the honorable gentleman from New York [Mr. HEWITT] against paying the public debt out of the surplus in the Treasury? [Laughter and applause.]

Mr. WEAVER, of Iowa. I am always willing to have any man do

right; and I always regret to see a man who has been right "fall from

right; and I always regret to see a man who has been right and have grace," as in the case of the gentleman from Kentucky.

Mr. BRECKINRIDGE, of Kentucky. I have no doubt my friend from Iowa is a Methodist and believes in "falling from grace," and that he lives up to his principles. [Laughter.] As my friend from Texas [Mr. MILLS] suggests, I am an old-fashioned Presbyterian and believe in the "final perseverance of the saints" [laughter]; and if I can not be saved like Enoch was I am willing to accept salvation in a

This is a pure business proposition. We meet as directors around the table of a business corporation; for this great imperial Republic of ours is a great corporation. In its mere business aspect it is a magnificent corporation; and when we gather round this legislative table as a sort of board of directors, in the management of the business of this mighty corporation, shall any of us stand on his particular opinion as to matters of detail and say that nothing shall be done unless

his standard is accepted?

In my short public service here I have had in my heart two purposes. One was that, so far as I was concerned, the legislation of the country should be a matter of mutual compromise on true principles but impartial and just as to every section and interest; the other, that as far as my party was concerned we should come closer together. During this session no word of bitterness toward either party has escaped my

lips, and it is my determination that none shall.

This proposition in one aspect of it is a mere proposition as to dollars and cents, but in another aspect it is more than that; for when I take a column of figures like those given in the statistics of our country they are to me no longer figures, but become instinct with life, animate with They turn themselves into houses and homes, into lies. I see in them the result of toil and sacrifice, of labor and hope. parents and families. labor and love, and I come to the discharge of these duties and the contemplation of these subjects with a profound thanksgiving that these people are my brethren and that I have some opportunity to do or say something for them. In this spirit I have united in this report. gave up to some extent my own views, and I only ask that in this spirit it be received by the House which I have attempted to represent. [Applause]

Applause J.

Mr. HISCOCK obtained the floor.

Mr. BRECKINRIDGE, of Kentucky. Mr. Speaker, if I did not occupy the whole of my time, I desire to yield five minutes to the gentleman from Texas [Mr. Mills].

The SPEAKER. The gentleman has fifteen minutes remaining.

Mr. BRECKINRIDGE, of Kentucky. Then I will reserve ten minutes, and yield five to the gentleman from Texas.

Mr. HISCOCK. I desire to proceed now.

Mr. WEAVER, of Iowa. I rise to a point of order. I was entitled to an hour, and yielded part of it. I want it to be understood that I am not to be deprived of my right to control my time.

The SPEAKER. That can only be understood with the House.

The Chair has not control of that matter. If any gentleman who may hold the floor in his own right should demand the previous question,

and the House should order it, all debate would be closed.

Mr. WEAVER, of Iowa. Then I must claim the floor now.

The SPEAKER. The gentleman from New York [Mr. HISCOCK], a member of the Committee on Ways and Means, has been recognized.

Mr. WEAVER, of Iowa. But how can the Chair recognize any gentleman as against me, when I was entitled to the floor for one hour?

The SPEAKER. The gentleman from Iowa yielded the floor and reserved his time. Four gentlemen are in the same situation, having reserved such portion of their time as they did not occupy.

Mr. WEAVER, of Iowa. The reason I desired not to be deprived of the residue of my time was because I had promised it to other gen-

tlemen.

Do I understand that the gentleman from New York [Mr. HISCOCK] proposes to occupy the floor for one hour?

Mr. HISCOCK. I take the floor in my own right and propose that

an hour be occupied on this side of the House. Thus far the time has been occupied on the other side. I do not think there has been an equal

Mr. BRECKINRIDGE, of Kentucky. I was willing that the gentleman from New York should go on now, but I thought the other arrangement would be more satisfactory to him.

Mr. HISCOCK. I prefer that the gentleman reserve the residue of

Mr. HISCOCK. I prefer that the general reserve the residue of his time till I get through.

The SPEAKER. The gentleman from New York will proceed.

Mr. HISCOCK. Mr. Speaker, the burden of the remarks on the other side by those who oppose this report, as well as those who favor it, is an anxiety to pay the public debt.

The distinguished gentleman from Kentucky grew exceedingly elocated with thems. I may be permitted in this connection to call quent on this theme. I may be permitted in this connection to call the gentleman's attention to the rapidity with which the public debt has been paid—\$1,300,000,000 in twenty years! Thirteen hundred million dollars in twenty years—I speak from recollection—and in that period of time we resumed specie payment, and since we resumed specie payment we have maintained the parity between gold and silver. We resumed specie payment and paid this vast volume of the public debt. The Republican party did it, I say, and we paid it without debasing one coin—no, I will not say without debasing one coin, but without driving out one coin and substituting for it another of an inferior value.

I am entirely willing gentlemen on the other side should plume themselves on this question now that they wish to pay the public debt. It has been one of the issues upon which they have gone to the country, that we have been keeping in the Treasury vast sums of money which could be applied to its payment, \$400,000,000 of surplus we have been told. I think the Democratic resolutions in their last national convention announced that we were accumulating a surplus in the Treasury at the rate of \$100,000,000 a year, or to that effect. Now they come here and ask to disburse upon the public debt the sums of money we have collected, the sums of money collected under laws due to Republican administrations. And the administration that came into power upon that resolution resists this branch of Congress, the House, that originated the measure, upon the ground there is no surplus in the Treasury and they must continue to exercise the discretion wisely reposed in their predecessors. What a commentary on Democratic pretenses!

So much, Mr. Speaker, in response to the gush on the other side of the Chamber that we should rush onward and disburse the balances in the Treasury, no matter if it drives us to a silver basis; no matter what effect it may have we must rush onward in the direction of the payment of the public debt. Is there not a desire to break public faith—embarrass even the administration they elected—at the bottom of it? No nation on the face of the earth has accomplished so much in the direction of debt-paying as this. I admit frankly I am not animated either by a desire to pay it, or not to pay it, in my support of the report brought in by the conference committee.

But I must to some extent reply to the partisan, political arguments

made on the other side of the House.

I say I am not influenced by the question of the payment of the public debt and for the reason that it is absolutely certain that all of it will be paid—that is, payable at the option of the Government—before the time bonds will mature in 1891, and at the present low rate of interest, and taking into account the uses to which the 3 percents are put as security for circulation, it is questionable whether it is desirable they all be paid in the next fourteen months rather than have their payment extend annually through to 1891

have their payment extend annually through to 1891.

My colleague from New York [Mr. Hewitt] has called attention to the Senate amendment to the resolution, and says, if I understand him, it is defective in that it imposes no restriction on the power of the Secretary to pay out this surplus. He may pay out the surplus upon the public debt, no matter what effect it may have? Is not that the law to-day? He has the power to pay all the surplus now on the public debt. The only effect of the amendment is that it commands him within certain limits to pay out more than he may choose to in the discretion which he has under the present law.

Mr. Speaker, I admit, if I could have my way about it, I would not interfere with this question—the discretion of the Secretary of the Treasury; I would not limit it at all. The resolution reported by the gentleman from Illinois [Mr. Morrison] did not have my approval and did not have my support. I accept the report of the committee of conference for this reason; I recognize the fact there is a determination on the part of Congress to have a direct, positive policy and limit the discretion of the Secretary of the Treasury, and therefore I propose as far as I am able to shape that policy in the direction of honest, capable, and just management of the finances of our country, and looking to the credit of the Government itself, and retain as much discretion as I can to the Secretary.

This resolution differs from the one reported to the House by the Committee on Ways and Means which passed here, in that it increases the amount to the extent of \$20,000,000 below which the Secretary of the Treasury is not compelled to go in the payment of the balances in the Treasury upon the interesting-bearing debt, and that is an improvement of the resolution as it left the House, in my judgment.

I do not know, sir, that I quite agree with the distinguished gen-

I do not know, sir, that I quite agree with the distinguished gentleman from Illinois that the effect of that provision in this report, or in the Senate amendment, may be that which he claims for it. I can conceive of a state of finances, during the present fiscal year, that might render it very improbable that our surplus of revenues will be so large, and make it possible to pay the whole of the \$10,000,000 each month from them, or any part of it; and I believe quite probable a condition of the finances in this country in the present year which would render it necessary to encroach upon the whole surplus now in the Treasury even to the extent of the \$20,000,000, which is reserved by the Senate amendment as a working balance in the Treasury to execute the resolution as it passed the House. And that is one of the potential reasons why I favor this report of the conference committees of the two Houses.

I have before me a statement of the appropriation bills as they have passed Congress, or their minimum amount in conference, and I shall publish it with my remarks, and now invite attention to it.

Status of the regular appropriation bills, amounts appropriated by each, together with the miscellaneous appropriations.

Title of bill.	Amounts.
Agricultural. Army Consular and diplomatic District of Columbia. Indian Military Academy. Navy. Pension. Post-Office Fortification Legislative. Sundry civil River and harbor Deficiency Urgent deficiencies. Miscellaneous Naval increase act.	\$654, 715 00 23, 753, 057 21 1, 364, 065 07 3, 721, 050 99 3, 721, 050 99 5, 561, 262 84 297, 805 00 12, 989, 907 22 76, 075, 200 00 62, 900, 000 00 22, 741, 133 20 22, 657, 570 88 14, 473, 900 00 6, 850, 325 03 7, 100, 555 84 9, 600, 000 00 3, 500, 000 00 3, 500, 000 00
Grand total	264, 326, 410 31

*Including \$5,739,495.41 to pay awards of the Alabama Claims Commission, and which is incident to the act approved June 5, 1882. (Volume 23, page 98, Statutes at Large.)

The Treasury Department makes up its account in respect to the postal revenues and expenditures for that service by charging the other revenues with the deficiency in the postal revenues to pay for the service. It of course makes no difference in the final result whether the account is made that way or the postal revenues are added to the other revenues of the Government and the expenses of the service added to the other side; but to avoid confusion I will make up my account in the method adopted by the Government.

The appropriations less those for the postal service are as follows:

1000	All appropriations by this Congress.	\$264, 326, 410 31 54, 365, 863 25
		209, 960, 547 06
	The amount of the permanent annual indefinite appropriations is	118, 910, 955 00
		328, 871, 502 06
ı	To this must be added the deficiency in the postal revenues to pay for that service (estimated by the Government)	7, 000, 000 00
	Aggregate	335, 877, 502 06
	for excess of duties collected (estimated by the Treasury Department)	\$5,000,000 00
	Aggregate	340, 877, 502, 06 336, 144, 290 00
	Deficiency	A 722 919 06

When we shall adjourn, the amounts can not vary \$250,000 from those I have given. The revenues for the last year were \$13,500,000 more than for 1885, and are, judged by former years, quite likely to fall off in the present year that amount from what they were in 1885; but grant they remain the same, the appropriations made by this session of Congress are more than made at the last session for this the same administration in its first year of trial, and we have been compelled at this session to provide \$14,000,000 for deficiencies, and no one will claim less than half that amount, \$7,000,000, will be voted at the next session, when the Congressional elections are over; and it is absolutely certain 4 hat upon the basis of last year's receipts our appropriations, including annual, permanent, miscellaneous, and the requirements of the sinking fund, will exhaust our revenues; and if this should transpire it is a wise provision that permits the Secretary of the Treasury to reserve the \$20,000,000 for a working balance. Nothing less might force a silver basis or the encroachment upon funds held in trust, or place the Government at the mercy of speculative combinations.

Against this it is a mere question of the use of the \$20,000,000 in the discretion of the Secretary, for the discretion as to paying it out on the debt or keeping it in the Treasury is reposed in the Secretary of the Treasury. It is altogether too inconsequential for this House to hesitate over as a point of disagreement between it and the Senate from the standpoint of those who favored the resolution as it passed the House.

Now, I come to the next great difference between the Senate and the House, and desire to call the attention of the House to the language contained in the Senate amendment to which exception has been taken upon the other side:

And whenever in the case of any extraordinary emergency not now existing, and when because thereof in the opinion of the Secretary of the Treasury the public interest shall require it, he may by a written order postpone the further call for the payment of such indebtedness for such period of time as shall be necessary to maintain the public credit unimpaired.

I wish to call the attention of the House closely to that proposition. We give to the Secretary of the Treasury the power to suspend the action of this statute. When? When the public credit is in danger,

when national honor is involved, when a great financial calamity is to be averted by such action, or when the banks are in trouble, when our business men are in distress, or when, I repeat it, it is necessary to maintain the public credit unimpaired. I appeal to gentlemen on the other side of the House and upon this side who voted for this resolution as it passed the House to give attention to this matter. Congress is not always in session. Would you not vest some power or discretion in this high official to rest there so as to protect the public credit in cases of danger?

Will our friends upon the other side say that, though the Secretary of the Treasury, a member of a Democratic administration, a man of their own choice, he is unworthy to be charged with that discretion? Why, Mr. Speaker, for twenty years or more that discretion has rested with a Republican Secretary. For twenty years or more a Republican Secretary has had that wise discretion. For twenty years he has had the power to pay out all of this surplus upon the interest-bearing public debt or withhold payment, and this discretion has been exercised with that wisdom, as I have said, that we were able not only to protect the public credit but to resume specie payments.

The resumption act went into effect, and since that time we have been enabled to maintain on an equality our gold and silver coinage. We can point to what we have done as illustrating the wisdom of giving this discretion to the executive branch of the Government. As was said by the gentleman from Illinois, the Secretary of the Treasury is more especially under the control of Congress. Why, then, I ask, should not we leave that discretion with him?

The wisdom of that policy has already been demonstrated. true in strong language we have placed the discretion in the bill; and perhaps he might feel that there was imposed upon him a greater responsibility in exercising it than under the present law. And yet I assume that any Secretary of the Treasury will always pay out the money upon the interest-bearing debt as he thinks it safe for the interests of the Government and for the interest of the people. And, sir, I am quite willing to leave with the present Secretary of the Treasury, or the acting Secretary, Mr. Fairchild, or any Secretary President Cleveland may nominate and the Senate confirm, the exercise of all the dis-

Then, what is the effect of this report of the conference? As the gentleman from Illinois reads it, there is no difference between it and the resolution as it passed the House. As I read it, there may possibly be none until we come to the question of discretion; and then the question is presented whether we shall reserve to a high officer, under the control however of Congress a discretion; in the interest of the the control, however, of Congress, a discretion in the interest of the public credit, integrity, and honor, and the business interests of the country to suspend these payments at a time when they may demand them.

I would elevate this question above partisanship. Any officer, to whatever party he may belong, whatever its policy; sentiment, or prejudices may be, will rise to the occasion. I think it better that we leave the whole matter where it is now, without any limitations, but it seems to me that there is a power in the Democratic majority to force some action from Congress on this question, and therefore I accept the conference report as the best thing attainable and to avert something worse. And trusting to the wisdom of the Secretary of the Treasury, I would be willing to leave it all and precisely where it is now; but I recognize the fact that this has been made a great political question. I recognize the fact that some action will be forced from Congress on this question; and in view of that fact when propositions are presented which are conservative in character, and from which I can see no danger if the administration is brave and wise, I deem it the part of wisdom on the part of those who agree with me on this question, that they accept the proposition as it comes to us, and therefore, sir, it is that I, for one, concluded to unite in this report agreeing to the amendments adopted by the Senate to the House resolution.

I can not, sir, be as much of an alarmist as my colleague from New York [Mr. HEWITT] on this subject. I might agree with him; I do agree with him; there is no necessity for this or any action; but so long as this discretion is reserved to one branch of the Government, so long as there is retained the power to suspend the operation of this law, I certainly can see none of the disasters which he is disposed to paint, and which he predicts will come from this action on the part of Con-

I yield ten minutes to the gentleman from Illinois [Mr. CANNON]. Mr. CANNON. I am gratified to have a little time in which to say I voted for the resolution as it passed the House, and I was heartily in favor of it for the reason that it directed the Secretary of the Treasury to follow substantially the example that was set him by Republican Secretaries of the Treasury, although it was not quite so radical in its direction as the action of the Republican Secretaries of the Treasury had frequently been. I shall vote for the conference report because it directs in effect the Secretary of the Treasury to pay in sums of not less than ten millions a month \$60,000,000 now in the Treasury and the surplus revenues as they come into the Treasury on the public debt. I think that can safely be done and ought to be done.

I will say in addition that I have little sympathy with some reasons

that are urged against the adoption of the report, and perhaps I have not much sympathy with some reasons that are given for its adoption. But I will not quarrel with members of the House while voting with them as to what their reasons may be for voting as I do.

I want to say further to the gentleman from New York [Mr. HEWand the say affect to the general from New 10th [Mr. Hew-1TT], for whose ability I will say, as I have frequently said before, touch-ing all financial questions as well as other questions, I have great re-spect, that I do not sympathize with his views on this resolution for the reason that his party can not settle and no other party can settle the silver question or the gold question by hoarding silver or other money in the Treasury. That policy would be like trying to kill a tree by lopping off the twigs instead of going to the root; and when I say that I also want to say that I have no sympathy with the other extreme in his party represented by the gentleman from Iowa [Mr. Weaver] and the gentleman from Missouri [Mr. Bland]. I am in favor of maintaining both metals. The unit ought to rest on both not only in theory but in fact. I sometimes think from the course of discussion in this House that the gentleman from Iowa and the gentleman from Missouri and others who agree with them are in favor of silver because it is the cheaper metal of the two and would be content if the unit was to rest upon silver practically to the exclusion of gold for the reason, and that reason only, that it is the cheaper. I have no sympathy with that view. I would as soon the unit would rest upon gold as upon silver alone, or vice versa.

I want to say further to the gentleman from New York that the bur-

den rests upon him and his party to give proper legislation. It makes but little difference what my party or myself may think about it under existing circumstances, we are in the minority. The gentleman from New York sees danger in the immediate future and would hoard the New York sees danger in the immediate future and would hoard the money in the Treasury. I say again, in my opinion that is not the true remedy. If a remedy is provided it must be by apt and proper legislation at the hands of the party now in power that will keep both of these metals permanently circulating side by side. But I do not think your party will do it. You can tear down, but have no ability to construct. I have one consolation. I do not think any party is perfect, but I have one consolation. fect; but I have one consolation. I have always been an humble mem-ber of the Republican party, and although it may have had shortcomings, failed here or went too far there, never through the long years that it has had power was a responsibility thrown upon it, financial or otherwise, but it met it and met it by its own strength, wisdom, and

Now the people have seen proper to put us in the minority and the responsibility is upon you. And you occupy the attitude not of solving this question with or without the aid of the minority, but you occupy the attitude before the country to-day of failing to solve the question, quarreling among yourselves, and, when some temporary measure (it is merely temporary) is brought up to utilize the surplus in the Treasury for the payment of the public debt and compel your Secretary of the Treasury to do what he should do on his own motion, or when any other financial or revenue question come up you fall afoul of each other, and in the mean time the country goes without revenue legislation and without financial legislation that will either settle the question at issue or show a plain road in which we can march in our onward course in the future.

And yet the gentleman from Pennsylvania [Mr. RANDALL], my colleague on the Committee of Ways and Means [Mr. MORRISON], the gentleman from New York [Mr. HEWITT] with his extreme notions at one end and the gentleman from Iowa [Mr. WEAVER] at the other extreme, after all these dissensions and failures, come here in the expiring hour of this session and again advertise themselves and exclaim, "Great is Democracy," and appeal to sixty millions of people to give them a new lease of power. I do not believe the people will do it. I know they ought not to do it, and I shall not believe they will until I see it done.

Mr. EVANS. Mr. Socales who the vicinity will until I see it done.

Mr. EVANS. Mr. Speaker, when the joint resolution was before the House, I voted against its passage for the reason that I regarded it as too compulsory in its character; but since it has been amended by the Senate, so as to guard more carefully the surplus of \$100,000,000 in the Treasury for the redemption of the United States notes, and placed a cash working balance of \$20,000,000 at the discretion of the Secretary of the Treasury, together with the power given to the President in an extraordinary emergency to suspend the further call for the payment of our indebtedness for such a period of time as shall be necessary to maintain the public credit unimpaired, I have no hesitation now in voting for the resolution, especially as it contains another amendment of great interest to my people and one involving the honor and integrity of the Government. My object in arising at this time is almost entirely for the purpose of urging the House to instruct its conferees on this resolution to accept and adopt the Senate amendment which relates to the redemption and recoinage of trade-dollars, as follows:

redemption and recoinage of trade-dollars, as ioliows:

SEC. —. That for a period of six months after the passage hereof, United States trade-dollars, if not defaced, mutilated, or stamped, shall be received at their face value in payment of all dues to the United States, and shall not be again paid out or in any other manner issued.

SEC. —. That the holder of any United States trade-dollars, during the period aforesaid, on presentation of the same at the office of the Treasurer or any assistant treasurer of the United States, may receive in exchange therefor a like amount and value, dollar for dollar, in standard silver dollars or in subsidiary coins (at the option of the holder) of the United States.

SEC. —. That the trade-dollars received by, or paid to, or deposited with the Treasurer or any assistant treasurer or national depositary of the United States shall not be paid out or in any other mainner issued, but, at the expense of the United States, shall be transmitted to the coinage mints and recoined into standard silver dollars.

SEC. —. That all laws and parts of laws authorizing the coinage and issuance of United States trade-dollars are hereby repealed.

This amendment, as I understand it, is in the exact words of the bill reported to the House by the Committee on Coinage, Weights, and Measures on the 29th of April last. And this is the first opportunity for an expression of opinion on this question in this Congress. It will be remembered that in the last Congress the House passed by a large majority a bill similar to this amendment.

In the brief time allotted for discussion it is not necessary for me to go into the history of the coinage of trade-dollars in the United States and the causes leading thereto. You are aware that the authority to coin them was given under the act of February 12, 1873, in the follow-

ing words:

The silver coins of the United States shall be a trade-dollar, a half-dollar or 50-cent piece, a quarter dollar or 25-cent piece, a dime or a 10-cent piece.

The act defines the relative proportion of pure silver and alloy in the trade-dollar, and directs that the devices and legends upon itshall be the same as upon other coins of the United States. The act also makes it a legal tender with other designated coins of the same act to the extent of \$5. It also bore on its back the certificate of the United States that it was of certain weight and fineness. Relying on this certificate and pledge of the nation it became a current coin at home as well as abroad, and debts to the amount of millions were paid by it. It has been asserted that it was never intended for home circulation and that the legislative purpose of its creation was to promote trade with China and other Asiatic countries by making a coin that would be acceptable to them. While this may be true, the specific object of the law was not made known by the law itself. There was no prohibitory clause; on the other hand it led the people to believe that it was just as much a coin of the United States as any of the other legalized issues; for the act expressly says the silver coins of the United States shall be a tradedollar, a half-dollar, &c. The same act further recognized it by declaring it to be a crime to counterfeit it.

As a reason for not redeeming trade-dollars it has been claimed that they did not go into circulation until after the passage of the joint resolution of 1876 which took away their legal-tender quality. This is not true, for it is shown by the statistics of coinage and exports that at that date three millions more had been coined than had been exported. Before the passage, however, of the joint resolution the Government had coined some fifteen million trade dollars, and after its passage the Government continued to coin them until \$20,000,000 more had been issued. The act of 1873, section 16, provides that no other silver coins shall be issued from the mints except those mentioned in the act. From 1873 to 1878 the only silver dollars coined by the United States were trade-dollars. When Congress took away their legal-tender quality it made no provision for their redemption, and very unwisely continued to coin them for several months after the passage of the act of 1878. It has been claimed by some persons, particularly Dr. James C. Hallock, of Brooklyn, N. Y., who has for years maintained that every man has a right to pay the Treasury in its own coin, including trade-dollars, that the act of February 12, 1878, provides for their unlimited legal-tender quality the same as for standard silver dollars, and repeals so much of

the joint resolution of July 22, 1876, as refers to trade-dollars.

The act of February 28, 1878, provides as follows: "That there shall be coined at the several mints of the United States silver dollars of the weight of 412½ grains troy of standard silver [900 fine], which coins, together with all silver dollars heretofore coined by the United States of like weight and fineness, shall be a legal tender," &c. In section 3 it is provided that "any holder of the coin authorized by this act may deposit the same with the Treasurer or any assistant treasurer of the United States in sums not less than \$10, and receive therefor certificates of not less than \$10 each, corresponding with the denominations of the United States notes." If, as has been claimed by some, the trade-dollar was intended for circulation in China only, it may well be asked, Why was it necessary to make it a legal tender and at the same time provide that no other silver coins be issued by the mints, and why did the Government continue to coin them in excess of the foreign demand for two years after the repeal of their legal-tender quality and until nearly \$36,000,000 had been coined? How were the common people to know that they were intended for China alone? There was no such provision in the law. There was nothing about them to indicate that they were not intended for trade at home as well as abroad. It bore on its face the American goddess of liberty and the thirteen stars repon its face the American goddess of interty and the thirteen stars representing the thirteen original States, also the motto, "In God we trust," and on the reverse it said, "Trade dollar." If it can be said they were not intended for trade at home, it can also be said that there was no intention to authorize their refusal whenever they happened to come into circulation in this country.

In the collection of duties by the Secretary of the Treasury during the years 1875, 1876, 1877, and 1878 duties on merchandise imported from countries using a silver standard of payment were estimated "at the trade-dollar rate" of 420 grains of standard silver as the equivalent of \$1 in gold.

The remonetization of silver under the act of February 28, 1878, made the standard silver dollar and "all silver dollars heretofore coined by the United States of like weight and fineness" a legal tender and exchangeable for silver certificates. Now the question arises, what coin should be regarded as of like weight and fineness? According to precedents established in the early history of our Government, it was conceded that an excess of silver worked no injury even in pieces illegally coined by the mint. Secretary Folger, in his report of 1883, said, "The reading of the law taught the people that the trade-dollar was a coin of their sovereignty, and for the redemption of which at an unabated value their Government is bound." He, however, held the opinion that its distinctive name, trade-dollar, was sufficient to destroy its legal-tender quality. But in accordance with his views that they were a coin of the sovereignty he recommended in his annual report of 1883 that they be redeemed by the Government at their face value.

The dollar of the fathers, about which there has been so much eloquent talk, was coined before 1837, and weighed 416 grains. Under the usual construction of the law that excess worked no injury, Secretary Folger decided that these 416 grain dollars were constructively of like weight and fineness with the standard silver dollar, and the United States Treasurer has always received them the same as standard silver dollars. The same reasoning which led the Secretary to take the 416-grain dollar should have required him to accept the 420-grain dollar, for an excess of 7½ grains could work no greater injury than an excess of 3½ grains. The fourth section of the act of 1878 repeals all acts and parts of acts inconsistent with its provisions. It is claimed by Dr. Hallock that it is evidently inconsistent to make the dollar of 4122 grains a legal tender and leave the other dollar of 420 grains without that quality. Consequently that part of the resolution of 1876 which declares "that the trade-dollar shall not hereafter be a legal tender," being inconsistent, must have been repealed by the act of 1878. It must follow, therefore, that the trade-dollar stands as a legal tender precisely on the same footing as the standard silver dollar. am informed that this view of the question was submitted early in May last by the President to the Attorney-General for his opinion.

I am also informed that Attorney-General Garland has rendered an opinion, not published, that neither the dollar of the fathers nor the trade-dollar is a legal tender. He would have them both repudiated. Under the early precedents and the later rulings of Secretary Folger an excess can work no injury in the dollar of the fathers. Mr. Garland is alone in proposing to repudiate it. Common sense, it seems to me, ought to teach us that the more we have of a thing of value the better off we ought to be; therefore the Government could not possibly be a loser by accepting 420 grains of silver in exchange for 412½ grains or, if

in subsidiary coin, 385.8 grains.

While arguing in the Attorney-General's office the question of the Government receiving its own coin-the trade-dollar-Dr. Hallock discovered two precedents of inestimable value. The first is set forth in a Treasury circular issued by Oliver Wolcott, jr., Secretary of the Treasury, who succeeded Alexander Hamilton in Washington's cabinet and held over for years in John Adams's. This circular was issued while Congress was in session and after the House of Representatives had appointed (November 24, 1797), a select committee to report upon the subject (American State Papers, 1 Finance, 503). This important circular reads as follows:

TREASURY DEPARTMENT, November 23, 1797.

TREASURY DEPARTMENT, November 23, 1797.

To the collectors of customs and supervisors of the revenue:

SIR: In consequence of the proclamation of the President of the United States, of the 22d of July, 1797, founded on the act of Congress passed on the 9th day of February, 1793, entitled "An act regulating foreign coins, and for other purposes," all foreign silver coins, except Spanish milled dollars, and parts of such oblars, ceased to be a legal tender for the payment of any debts or demands, after the 15th day of October last.

The president and directors of the Bank of the United States having, however, manifested their consent to receive French crowns and other foreign silver coins, at the rates at which the same were current, and a legal tender, prior to the time mentioned in the President's proclamation, thas been deemed advisable to permit the said foreign coins to be received in payment of the revenues of the United States on the terms and conditions prescribed in the act of Congress of February 9, 1793, before mentioned.

To obviate inconveniences which may attend the negotiation of Treasury drafts, the supervisors and collectors are, however, requested to specify, in their weekly returns to this Department, the sums which may, from time to time, remain in their possession, of foreign silver coins, which are not, by law, a tender in payment of debts; they are also requested to give information whether the said coins are, or are not current, by common consent, to the end that such measures may be adopted, for the collection of the revenues, as circumstances shall be found to require. found to require

The second precedent is found in a communication from William H. Crawford, Secretary of the Treasury, to W. B. Rochester, chairman of the House Committee on the Mint (American State Papers, 4 Finance, 232). By the act of March 3, 1819, foreign gold coins had ceased, after November 1, 1819, to be a tender within the United States for the payment of debts or demands. How little Secretary Crawford was deterred by that law from doing what was right will be seen in the following communication:

TREASURY DEPARTMENT, February 3, 1823.

Sir: In reply to your letter of the 31st ultime, inquiring whether it would not be expedient to make the gold coins of Great Britain, Portugal, France, and Spain receivable in payments to the United States at their intrinsic value, and especially in payments on account of public lands, I have the honor to state that it is deemed proper that they should be made a lawful tender in all payments to the United States on account of public lands.

Upon the expiration of the act of Congress which made them a legal tender in the payment of debts in the United States, the receivers of public money were authorized to continue to receive them in all payments on account of public lands, and they are, in fact, now received by them. This authority was given, first, because no doubt was entertained that the creditors of the Government in the States and Territories where the land offices were established would receive such coin in preference to the notes of the State banks established in those States and Territories, and, second, because the refusal of those coins and of the notes of the local banks would have placed it out of the power of the purchasers of the public lands to make payment, as the notes of the Bank of the United States and of its offices did not circulate among them, and the current coin of the Union did not circulate in sufficient quantity to meet even a small proportion of the payments due to them.

Congress, both in 1798 and 1823, passed laws continuing in force the

action of the Treasury Department.

The Treasury Department has never refused the "dollar of the fathers," which dollar of 416 grains the Attorney-General, I am informed, holds to be no more of a legal tender than the trade-dollar. Even if it is held that this "daddy dollar" is not a legal tender, still, following these precedents above cited, the Treasury Department is justified in continuing to receive this piece of 416 grains. In like manner, if it is held that the trade-dollar is not a legal tender under the law of 1878, and that that law has not repealed the joint resolution of 1876, which says that "the trade-dollar shall not hereafter be a legal tender," still the Treasury Department would, in view of these illustrious examples, be justified in receiving the trade-dollar of 420 grains the same as standard silver dollars of 412½ grains. But the Treasury Department refuses to follow the examples set by the administrations of John Adams and Monroe; and holders of trade-dollars must look to Congress for relief.

Ah! but we are very wisely informed that these trade-dollars have

been sold at a discount, and are now in the hands of speculators. If this be true, who is responsible? Who made speculation possible? Why, the Congress of the United States when it took away their legal-

tender quality without making any provision for their redemption.

Even if the assertion were true that they are in the hands of speculators, it would be no good and sufficient reason why the Government should not redeem them. During the rebellion, when the Government was compelled to issue many million dollars of bonds, they were sometimes purchased at a great discount, but the Government did not claim because the bonds were sold below par that it would not redeem them at their face value. So far they have been paid dollar for dollar in gold or its equivalent.

But we are not ready to admit that the trade-dollars have all passed into the hands of speculators. A little more than a year ago I made a very careful investigation as to the number of trade-dollars and the manner in which they were held in my State, Pennsylvania. I addressed a circular letter to the banks, bankers, and trust companies, and to many private individuals, requesting them to give me the amount of their holdings, and the manner in which they were held. The result of that investigation was, as stated in my speech of March 27, 1885, as

Less than 5 per cent. of the whole amount were taken at a discount. The correctness of my investigation is borne out by the reports of the Comptroller of the Currency and the Director of the Mint, made at the opening of the session to this Congress. By these reports it is shown that there are, independent of the banks, which hold \$1,600,000, about \$5,000,000 still in the hands of the people, nine-tenths of which are held at their face value.

Within the last month I have had reported to me by private individ-uals living in the city of Philadelphia nearly \$300,000 of these coins taken at their face value in the ordinary transactions of business and still held by them. I have made no effort this session to accertain the amount still in the hands of the original holders; what have been reported has been done voluntarily and without solicitation on my part. Believing that the people of my State were still holding them and that they continued to have faith that this great Government of ours would not repudiate its own coin, but would in time redeem them, I did not regard it as necessary to repeat the inquiry. If there are any that have been sold at a discount they are those belonging to the banks, not to private individuals. For nearly three years these innocent people have been holding them in the hope of their redemption. The interest already lost is not less than 15 per cent. to them. How much longer do you intend to compel these people to hold them? If you do not intend to redeem them let this Congress have manhood enough to say so, that these people may sell, even at 25 per cent. discount, together with the 15 per cent. loss in interest.

Mr. Speaker, it is our duty to act at once on this question so that the holders may know what do with them. Scarcely a day passes that I do not receive a letter making the inquiry: What is Congress going to do with the trade-dollars? Do you think they will be redeemed? Had

I best sell?

My answer has been in every instance that I believed the House would not adjourn without providing for their redemption in some form, but

126, it is our duty to adopt it. I know that some will object to its sage on the ground that the redemption of the trade-dollar will add to our already overabundant silver currency. From the report of the present Director of the Mint, Dr. Kimball, we are informed that the estimate made by his predecessor was that there were from five to six millions in the country. He says, "I am of the opinion that the estimate of seven millions is in excess of the actual amount rather than below."

I am one of the number who believe that the present coinage of silver is in excess of the demand, and therefore should be suspended; but in view of the fact that Congress made the trade-dollar a legal tender, and subsequently demonetized it without making any provision for its redemption, leaving several millions of them in the hands of in-nocent people who took them at their full face value, and who, unless some provision is made, will lose not less than 25 per cent., not counting loss of interest, I should feel derelict in my duty if I did not urge upon this Congress with all the ability, power, and influence I possess the passage of this amendment.

This Government can not afford to take the advantage of its people by refusing to take its own coin any more than a private individual can refuse to pay his obligations in full or a national bank refuse to pay its notes in full. The passage of any law by the Congress of the United States which demonetizes any of its money without providing for its redemption is nothing more nor less than repudiation, a disgrace to the nation, and unworthy a great government like ours, professing to be founded on the broad principles of equal rights and equal justice to

Mr. Speaker, I hope the joint resolution will pass as amended by the Senate. But should the conferees report the resolutions with the amendments stricken out, then I hope the House will not concur, but instruct the conferees on the part of the House to insist on the Senate

amendments

Mr. BROWNE, of Indiana. Mr. Speaker, I accept the action of the conference committee, although I should have preferred the resolution as it was originally passed by the House. I accept it because we as a people are doing quite well enough. Twenty years ago our national debt equaled two thousand seven hundred millions; to-day it is less than thirteen hundred millions. Twenty years ago the people contributed from their hard earnings for the payment of interest alone \$151,000,000 a year; now, all our annual interest account is reduced to a sum considerably below \$50,000,000 a year, showing an annual saving by virtue of the economies that have characterized our national legislation of quite a hundred million dollars a year. Twenty years ago our credit was such that we were compelled to pay upon our national securities a rate of interest from 6 to 7.3 per cent. Notwithstanding the ravages of a desolating war, and notwithstanding the burden of our indebtedness resulting from that war, the nation has been able so to appreciate the national credit that we can now command all the money we desire at the low rate of 3 per cent., and while the British securities bearing interest at 3 per cent. have touched par but four times in nearly a hundred by the securities of the sec dred years, and have been at times as low as 50 cents on the dollar—long bonds as they are, not to be redeemed at all, but regarded as a permanent investment—while they have stood in that way, our short-term bonds, at the low rate of 3 per cent. interest, command a small premium in gold.

Twenty years ago the aggregate of the currency in circulation among our people was but six hundred millions; to-day it is sixteen hundred millions. In view of these facts and circumstances, I am willing, at least at the close of this session, to allow this resolution to pass as it is, believing that in the future, if our condition should demonstrate the impropriety of this legislation, Congress has at all times a remedy which it can apply. A word or two more, Mr. Speaker. The distinguished author of this resolution protests against the government of the "masters of finance." Why, does my friend not know that his party has been at all times under the control of the gentlemen who manage the finances of the country in Wall street? All over the Northwest the Democracy has protested against the continued existence of the national banking system, and not a Democratic Representative has come to this Congress within my knowledge, who has not come here upon a pledge that he would abolish that system; yet, although the Democratic party have been in control of five out of the last six Congresses, they have not abolished a single national bank, and the masters of finance do not intend that they shall. Wall street has issued its edict, and the Democratic party bows to it, and the gentleman from Iowa [Mr. WEAVER] knows it better than anybody else, because he has been in more political parties than anybody else upon this floor and knows more about what they do. Why, sir, I remember that during the last campaign the present distinguished Secretary of State was sent into New York to proclaim from the stump that it was the purpose of the Democratic party to do-what? To pay off the greenbacks, retire them absolutely from circulation, and give the national-bank system an eternity in the finances of the nation. That is Democratic policy.

More than that, they complain that these "masters of finance" have adopted the idea of the single gold standard. Why, sir, there has not I had grave fears of the action of the Senate. Now that the Senate has anticipated us by placing this amendment on joint resolution H. R. not nominated as its candidate for the Presidency one of these "masters of finance." There has not been a Democratic national platform that has not put upon its forefront the Wall-street idea of finance.

Complaints have been made through the platforms of opposing parties against Republican legislation; but these complaints have measurably been because that legislation has not gone to the extent of your idea. I remember the Saint Louis platform, in which the Republican party was rebuked, not for having declared its purpose to resume specie payments, but because, as was charged, Republican policy had postponed

While you are proclaiming your adherence to the idea of continuing the issue of the greenback currency you gentlemen know that it is the policy of the Democratic administration to withdraw the greenback While you oppose the national banking system you know it is the policy of your party to continue the system in existence. And while you protest against the gold standard you know it is the policy of your administration to recognize the single gold standard. And your protests are simply in the form of speeches. You talk against the policy—that is all. When you have had the power to change it you have not done so; you do not attempt to do so; you do not want to do so. You recognize the fact that the policy which has been pursued by the Government in the past has brought us to this era of unparalleled prosperity, for I assert that it is an era of unparalleled prosperity. I know it is a favorite idea of some gentlemen in this country that prosperity depends upon the volume of money furnished by the Government or the banks for the use of the people; but there never was a greater mistake. Prosperity depends upon certain economical conditions which put money into active circulation. It is an economical truth which gentlemen have forgotten that the volume of money multiplies itself in the ratio of its circulation; that a dollar used one hundred times rapidly is more than equal in its volume to one hundred dollars used but once. We do not want more money, but we want better financial conditions, so that the money which we have in abundance may be put in active circulation among the people.

Here the hammer fell.

Mr. HISCOCK. I yield five minutes to the gentleman from Ohio

[Mr. BUTTERWORTH].
Mr. Speaker, the time accorded me is too short to enter upon the discussion of a question of such great importance as this. Like my political associate on the right [Mr. HISCOCK] I shall vote for the resolution as amended in conference by the committee of the two Houses. I shall vote for it not because it provides for \$20,000,000 working balance beyond that which was allowed by the terms of the House working balance beyond that which was allowed by the terms of the Trouse resolution but because it now leaves to the Secretary of the Treasury that discretion which, in my judgment, is indispensable to the maintenance of the national credit. The discretion left with the Secretary of the Treasury by this amended resolution is, in my judgment, of more value to the maintenance of the financial credit of the United States than \$50,000,000 of working balance with all discretion taken from the Secretary, as provided in the original resolution adopted by this House. With the power to exercise a wise and sound discretion in the matter of making timely preparation to dissipate or safely meet approaching financial disaster which may threaten to unsettle monetary conditions in this country a very small working balance would in fact be required. The ability to provide for an emergency in effect may prevent its occur-The experience of the preceding administration conclusively proves this. proves this. Unhampered by the restrictions imposed by the House resolution, former Secretaries of the Treasury have been enabled to meet all obligations and rapidly pay off bonds subject to call, retaining in the Treasury a very small working balance

We have three or four times been confronted by portending financial disturbances, which would have brought disaster upon the country if the then Secretary of the Treasury had been compelled by an arbitrary law to pay out every dollar in excess of \$100,000,000. It was the authority vested in the Secretary of the Treasury to provide against emergencies that enabled the Government to turn aside or tide over these

financial perils.

Touching the House resolution, I submit that it had its origin in the fact that to obtain control of the Government the party now in power deceived the people of the country by asserting that there were \$400,000,000 in the Treasury idle, that the stagnation in business, the inability to procure employment at remunerative wages, was all due to the fact that these vast sums had been withdrawn from circulation and piled up in the vaults of the national Treasury and were permitted to remain there idle. The confiding voters were assured by the Democratic orators that these hundreds of millions would be scattered among the people as soon as the Democracy should come into power, and that thereupon all signs of distress throughout the land would disappear. They came into power on the 4th of March, 1885, whether through

their strength or our weakness it is needless now to consider.

But they came into power and have held the reins of Government a year and a half. One-third of the Presidential term or more has passed, and yet the millions of dollars have not been scattered among the people. The alleged surplus which it was said lay piled up in the vaults of the national Treasury is all there still, and beyond that the amount has been greatly increased, and necessarily so. The practical working of a Democratic administration seems to have considered.

shock to public credit that it became necessary to increase the surplus, so called, in the Treasury against threatened financial disturbances.

The allegation that the Republicans had withdrawn from circulation

hundreds of millions of dollars and kept the money idle in the Treasury was a deliberate misstatement of facts by those who thought that in political warfare "the end justifies the means."

But it has become necessary to give some answer to the natural complaint of those who were deceived by the stump oratory about the four hundred millions. The confiding souls who were duped into the belief that as soon as the Democracy was installed in power every man in the country would have a job at high wages, that money would be dumped indiscriminately among the people, that in fact idleness and industry would have practically the same benefits, and that it would appear that under Democratic administration in point of practical results the good that comes to the citizen is not necessarily nor yet properly the result of the practice by him of the virtues but flows inevitably from governmental action; in other words, from legislative

enactment supplemented governmental administration.

Well, the believers in the power and promises of Democracy have waited and watched with mouths open and pockets agape, and what is the net result? Both mouth and pocket are still empty. The Treasury vaults have not given up one poor scruple. On the contrary, the millions in those vaults have been increased owing to the shock that the advent to power of the Democratic party has given the national

It was one thing to rant on the stump about the alleged disordered national finances and quite another thing to deal practically with those finances when charged with that grave and responsible duty.

President Cleveland, Secretary Manning, and the latter's successor,

Mr. Fairchild, had and have to deal with the highest and most sacred interests of the nation. Their duties are of the most delicate character, and the thinking people of this country will be glad to observe that those officers are more concerned to maintain the dignity and honor of their country than they are to continue the deception by which some of their party friends succeeded in carrying a few Congressional districts.

But the Democratic masses are, figuratively, sitting on the fences and store boxes clamoring, and with much reason, for the \$400,000,000 output that was to follow the inauguration of Cleveland. They have not seen, much less handled, a cent, and instead of a reduction they have witnessed an increase of the surplus. Something must be done to prepare for the coming campaign. Something must be done to conceal the old fraudulent clamor by which the unsophisticated were caught, and to catch them again with a similar bait the original House resolution, known as the Morrison resolution, was prepared to meet the emergency, and was launched upon the legislative waters; and at once it is wired all over the country, "That four hundred millions is coming. Mor-RISON, leading a Democratic House, has got behind it with a resolution and is pushing it out in amounts to suit the needs of the people." Now, this is just in time for the fall elections. Each Democrat on reading the resolution will shift his position on the store box, hitch along on his rail, and exclaim in hopefulness, "Thank God, it's coming!" And on these husks these poor mortals will be fed until after they have cast their Democratic votes in November.

And so the farce is played once each year, and on a larger scale every The people were promised millions; they have not seen a penny. They were all to have remunerative employment in the midst of industries that were at once to start into life. Not an industry has awakened; not a man has found employment. Paralysis is creeping along every avenue of trade and commerce.

For the wealth of blossoms which promised employment and money the people have gathered as fruit the Morrison resolution, which, as presented, tended on one hand to mislead the people and on the other hand to throw the good faith of the nation under suspicion. I speak now of the House resolution before it was amended. It comes back to us in better shape.

But, I repeat, the resolution was a necessity to the Democratic party. It served to cover its retreat from the position it had taken in regard to the alleged \$400,000,000 surplus. It serves as an apology for having delayed the distribution and renews the promise for election purposes the coming fall.

The officers of the administration have sounded the alarm, and fortunately for our country the blow at the national credit is in a measure parried.

The honorable Secretary of the Treasury knew what a false pretense had been put forth in 1884. He now realizes the embarrassment growing out of that false pretense. He knew it was not true that there were even fifty millions idle in the Treasury; that it was grossly misleading to assert that the \$100,000,000 of coin retained in the Treasury for purposes of resumption was or is in any sense idle. No sum of money in the country has performed service so important to our people. It is the ballast which keeps our monetary ship steady as she moves through the sea of financial troubles which constantly threaten. [Applause.]

Mr. Speaker, the first, the highest obligation that rests upon the administration in power is to maintain the national credit. It can not be maintained if the basis upon which it rests is removed. That basis working of a Democratic administration seems to have caused such a | is the ability, the means, to meet and discharge each and every obligation as it matures. The reserve in the Treasury is in large part the sure foundation upon which that credit rests. It is obvious that the reserve or working balance must have reference in matter of amount to

financial conditions in the monetary world.

I have said it is of the highest importance that the public credit be maintained. And I submit, Mr. Speaker, that while the unsettling or disturbance in any degree of the public credit would inure to the injury of all, yet those who would be most injured would not be the men who have colossal fortunes; not those who have amassed wealth. In the midst of ruin and disaster these men will take care of themselves; the speculators in Wall street will take care of themselves. It would possibly be to them a harvest. But when in the wake of financial disturbance depressed trade and crippled industries follow, the wage worker is the first to suffer, and he suffers for the longest period. He is the man who is least able to provide against such disaster.

The influence of stagnation in business first manifests itself by cutting The compensation to wage-workers is the point of attack when hard times come. The wage-worker's salary is the last of eel the healthful influence of reviving business. The administration of the national finances is so intimately connected with all the business of the country that the prosperity of the latter depends in large measure upon the wisdom and fidelity which characterize the former.

The SPEAKER. The gentleman's time has expired.

Mr. BUTTERWORTH. I hope the gentleman will yield me more

Mr. HISCOCK. I will yield the gentleman whatever time he wants.

Mr. BUTTERWORTH. I thank the gentleman for his courtesy.

was just remarking that the administration of the financial affairs of the nation had much to do with the business prosperity of the country, owing to the influence governmental action may and does exert upon the moneyed interests involved. Capital is timid, and promptly seeks to protect itself in times of danger; conversion into specie if possible is the first move for safety and then hiding itself away until the storm has passed. If it seeks investment at all, it is in that character of securities the purchase and sale of which do not even tend to promote industry or quicken trade. Whenever and however the panic threatens or comes, the first thing the man who holds paper money does, as a measure of protection against loss, is to convert the pretty rags into specie. And this is a sound philosophy, because since the bank note or greenback is valuable only because it is convertible into something valuable, it is the part of wisdom to hold the value promised instead of the mere printed evidence of the promise. In other words, it is safer to have the specie in hand than the mere printed evidence that you are entitled to demand and receive the specie. If the confidence is absolute that the specie can be had on demand, its paper substitute performs every office that the specie does and is more con-

But the bare suggestion that the paper substitute can not and will not be redeemed when and as demanded throws the whole army of holders into panic and a stampede ensues, and the rush is made to test the value of the promise. In the presence of such a stampede the one hundred millions provided to redeem the \$350,000,000 would soon disappear unless re-enforced by additional coin gathered to meet the emergency, and that such an emergency may come upon us like a thief in the night experience abundantly proves, and to leave the financial manager of the nation without the discretion to prepare for such condition as I have described is to court disaster and trifle with the highest interests of the The first to resent an innovation which seeks on any pretense to disturb well-tried conditions should be the wage-workers, and yet it is in their name the Morrison resolution was ostensibly conceived. It is on their account the Secretary of the Treasury was to have been so shackled and hampered that he could not avert nor yet successfully contend against the adverse conditions which his abject helplessness would invite or create.

It is asked if it can disturb our finances to compel the Treasurer to That depends upon the manner and order of payment. pay our debts. That depends upon the manner and order of payment. In the case under consideration the proposition is to pay the creditor whose debt is not due and who could not compel immediate payment, while we leave unpaid a heavy indebtedness which is past due and which is represented by \$346,000,000 in demand notes, and which would on the first sign of a panic be presented at the Treasury for payment. No sane business man would pay off his notes that were not due while he left demand judgment notes outstanding. He would know that immediate payment of the latter might, while payment of the former could not, be demanded. So that it is not a question alone of paying the public debt, but the order of payment, involving not only the right to pay the debt not due, but prudently providing for payment of the \$346,000,000 of obligations long since due, and payment of which may be demanded any moment.

It was said by the gentleman from Kentucky [Mr. Breckingidge] that "it is not the coin in the Treasury that gives the holders of the greenbacks or notes confidence, but the broad acres of land we own, the herds of cattle and horses, the corn and wheat," &c. How utterly fallacious the suggestion! It is the rankest possible greenback heresy, and coming from the source it does it astonishes me greatly. Theoretically the lands and the "cattle on a thousand hills" are pledged to

redeem the notes; practically the security is found to be worthless as an available asset to redeem bank notes on which the specie is due. There never was a day during the war when the lands and personal property of any one of the Eastern States was not worth ten times the amount of the debt of the United States; and then, as now, all the property of the fifty millions of people was pledged to secure the debt, and yet the Government notes were worth at one time less than 40 cents on the dollar. The French assignats had pledged for their redemption real estate of an amount many times greater than that represented by those promises to pay; and beyond that all the property in France was as thoroughly pledged to redeem the assignats as the property of the United States is pledged to redeem the United States notes, and yet the assignats became worthless. Just how my friend from Kentucky would convert the lands and cattle into specie to redeem broken promises it would be interesting to know

The history of the financial world has clearly demonstrated that the confidence of the people in the value of paper money rests upon no founda-tion except its immediate convertibility into specie at the option of the holder. And it follows as a corollary that, whether it be the Govern-ment or a banking firm, confidence in the ability to redeem on demand will be destroyed the moment there is a departure by the Government or bank officers in the management of the finances from those well settled and universally recognized business principles which are of such general acceptation as to be the recognized law in the conduct of financial matters. And one law touching the redemption of Treasury and banknotes is that a certain reserve must be kept in hand, and it is clear that coupled with that there must be lodged with the managers of the finances of the Government and bank the power to increase that reserve at any moment when the money markets of the country become unsettled and panicky, or from any cause the confidence of the people in the ability to redeem notes on demand is shaken. This is only one phase of the danger which would follow in the wake of the Morrison resolution had it become a law as it passed the House.

The statement made upon this floor by a number of gentlemen that these panies would be made to order for speculative ventures is not well conceived. We might as well assume that men at sea would scuttle the ship upon which they sailed in order to test a life-preserver. But in answer I cite the experience of the last twenty years of Republican administration, during all of which time the very calamities which gentlemen affect to fear were averted by the exercise of the discretion which the Morrison resolution would wrest from the present Secretary of the Treasury—that is, the power that every business man, every banker in the nation finds indispensable to the safe conduct of his bus-

But it is said the Government is not in the banking business. fact is just the reverse; the Government has been kept in the banking business for more than twenty years. It ought not to be, but it is, and while it is, the management must conform to established business

I am aware that the point with a large number of the gentlemen on this floor is to force us to a silver basis; to compel the payment of the 3 per cent, bonds in silver dollars. And to this end all discretion as to the amount of reserve it might be necessary, in view of existing conditions or in view of threatened financial disturbances to retain in the Treasury, was to be taken away from the administration. Not only was all discretion in these matters taken away but the President and his Secretary of the Treasury were by this Democratic House treated to a vote of want of confidence—a vote which in England would have compelled the administration to lay down the reins of power.

However, the administration is not greatly disturbed. The vote had reference to use on the stump this fall rather than to express a want of confidence in any office or any system of finance. It will do for campaign purposes, though not for an administrative hint.

Speaking of the effort to compel the payment of the 3 per cent. bonds in silver-and here again the demagogue on the stump gets in his work by suggesting to earnest and anxious citizens who are now feeling the hardships incident to the general business stagnation which obtains in a degree throughout the country, that they are being wronged by reason of the disposition of the Government to pay its bonds in gold or greenbacks instead of silver—it is insisted by gentlemen upon this floor that it is not only the right of the Government but its duty to pay off the 3 per cent. bonds in standard silver dollars. Let us see whether in point of cent. bonds in standard silver dollars. Let us see whether in point of fact, as a practical business proposition, having due regard to the interests of all concerned, the payment of the 3 percents in standard silver dollars would be to the advantage of any class of persons in America except those who are mining silver ore. First, I repeat, that the highest obligation of the Government in its administration is to maintain the national credit.

In this connection let me call your attention to the fact that the Government differs from all other debtors in this, that it has the power, which does not belong to other debtors, to determine and fix the value of the money with which it discharges its obligations. It will hardly be claimed by any honest man who is possessed of an ordinary degree of intelligence, that the Government would have the right in fixing the value of the currency with which its obligations are discharged to decrease that value. Nor would it be defensible by the manner of payment to reduce the value of the money paid to the creditor 15, 20, 25, 30, or any other substantial per cent. It was in recognition of this 30, or any other substantial per cent. It was in recognition of this great principle that the law limited the issue of the greenbacks to a certain amount—three hundred and forty-six millions, I believe.

Now, it has been decided that in an emergency the Government has the right to issue painted rags as money and determine and fix what their debt-paying power shall be. Yet the Government has pledged itself not to issue above a certain amount in that kind of currency, and manifestly for the reason that the larger the volume of such currency the less the probability that it could be redeemed in specie or maintained in circulation at par. Now suppose that the Secretary of the Treasury had the power and should be pleased to-morrow to pay one hundred millions of bonds in standard silver dollars, what would be the effect upon the value of the silver dollar in the market of the world. First, it will be remembered that it is now worth but about 80 cents on the dollar, measured by the gold standard. The obvious result of putting that silver on the market would be that the value of the dollar would be reduced probably to 70 cents; and now I ask the question, and it is thoroughly pertinent, who would be the greater sufferers in case the value of the silver dollar should be reduced 10 per cent.? And I ask this question in the interest of the men who work during the week to get the money to feed and clothe the members of their families and provide them homes.

Now who would suffer in case of such reduction in the value of the currency with which every laborer would be paid his wages? When we say a given coin or piece of paper is only worth 70 cents on the dollar we mean that its purchasing power is 30 per cent. less than the gold dollar or the paper dollar which is convertible into gold. The bond-holders on being paid would utilize their silver so far as they could in discharging their debts; the rest would necessarily go to swell the volume of silver now upon the market. The bondholder would suffer a loss undoubtedly, but the loss would fall chiefly upon the wage-worker who has to buy with that depreciated dollar the necessaries of life. But the worst feature about it is that this robbery, for in my judgment it is nothing else, is committed upon the wage-worker without his being conscious of the fact. It is true he goes to the store and throws his silver dollar upon the counter, being unconscious of the fact that he is charged a little more for every article he purchases than if he put down a dollar which is recognized throughout the business world as being

worth 100 cents.

Beyond this, I might stop to say that such perfidy on the part of the Government would result in such a disturbance of the financial world, such an unsettling of public credit, as would affect every business enter-prise throughout the length and breadth of the country, for it is well known to all men who have carefully studied the intimate relation between the large financial operations of the Government and the business world that any uncertainty or doubt as to the policy of the Government is immediately felt in every channel of trade and commerce and by every industry. And, as I have stated, the first danger signal that is put up prompts the employer to reduce the wages of those who work for him. And this is natural. But unfortunately the wageworker is practically helpless.

You ask me why. I answer, because he must eat; his wife and his children must be clothed and fed. With him it is a problem of bread and meat and clothing for his children. If he strikes, he is but burning the candle at both ends, for possibly his employer may not be able to pay the current or increased rate demanded, and the time which is lost by the striker, even though he be successful, eventually results in loss and injury to him. The merchant whose goods are upon his shelf can let them remain there; the farmer may leave the wheat in his garner, the butcher his ox in the stall. They might all live off of what

they have accumulated.

The speculator would not suffer. The rise and fall in prices make his harvest. The man who has a fortune can bide his time. with even moderate means may struggle through the financial storm. The man who suffers most, who is most helpless, is he who is dependent upon his daily wages for the bread that he eats and the coat that he wears. Hence, in my judgment, not only would it be a violation of the plighted faith of this nation but it would carry disaster to the home of every wage-worker in this Republic to so manage the financial affairs of this country as to place us upon a silver basis. That many who sup-ported the Morrison resolution in this House intended to do that I have no doubt, and that such result might and probably would have followed in the wake of its adoption seems to me equally clear.

I wish to add this further thought, in connection with the obligation of the Government to maintain the national faith and credit: Its obligation to do so is written in every bond, upon the face of every green-back, and is traced on every national-bank note that is handled by our people; and when the Government pays a debt it is bound in honor and justice to see to it that in the discharge of that obligation it does not depreciate by its act the value of the money with which that debt is paid. And this is as true of the payment made with gold as with silver. The obligation is that it shall, as near as may be, at all times secure to the people a measure of value which is as little variable as possible. For in all the variations and fluctuations of money, which is the measure of value, it is ultimately the wage-workers that are wronged and robbed.

But it is urged that trade and commerce and all our industries will be revived if this vast volume of silver is paid out in redemption of the bonds. The proposition is absurd on its face. First, instead of an expansion of the currency the ultimate result would be a contraction, since these bonds are mostly held by the banks as security for their bank circulation, and it is that security which makes the national-bank note good everywhere. On the payment of these 3 per cent. bonds so held a large amount of national-bank circulation would be withdrawn and the volume reduced to that extent.

But there is another reason why the payment of this vast amount of silver would not have the influence claimed for it; that is, that it would revive trade and industry. It will be remembered that there is now idle immense stores of capital in the moneyed centers of the country seeking investment, and I do not forget that there are gentlemen who have theories for driving that money from the centers into the arteries and veins of trade. But it must be remembered there is a law which is inexorable and is above the laws enacted by Congress and refuses to be controlled by them—it is the law of supply and demand. I have been at some pains to investigate this question with a view to ascertain how the supply in this country of the various things needed by and necessary to our people compares with the demand. It is palpable to every one that when the supply is equal to or exceeds the demand there is no disposition to increase the former. The output will certainly not is no disposition to increase the former. The output will certainly not be enlarged since no profit would result from the venture. Our only chance is to increase and vary the number and character of our industries. tries. Invent new implements for the shop and the field, new and useful articles for ornament, comfort, and convenience. Create cultivated and ennobling tastes and desires by supplying that which is necessary togratify them. Each new and improved article of manufacture widens the field of industrial effort. You would be astonished if I should lay before you a statement in detail showing the number of new industries created in this country during the last quarter of a century and the vast number of men and women who have been given employment by reason of these new industries.

By a law which is eternal and unvarying, whenever the demand exceeds the supply industry is quickened, and trade and commerce awakens and is roused into activity and the capital that is idle goes at once to work. It searches out every avenue of trade, industry, and

Not only has our country by its varied and ever-varying and multiplying industries given employment to all our people, but during the last quarter of a century we have, as I once before stated to this House, admitted to the ranks of labor in the United States about eight millions of people from the Old World. All now agree that a little wise discrimination in sifting the immigrants would have been useful to those who were here. But with the improved facilities and the vast addition to the army of producers, the supply has gone beyond the demand. farmers have found their European market, if not cut off, wonderfully curtailed by competition with the Russian provinces and India. Nor is the competition confined to wheat alone. It is so in other branches. So it is not the want of capital, it is not the want of ability among our people to produce everything that is required, but a temporary over-

roduction that oppresses us

The present stagnation of business is due in a large measure, as I have stated, to the marvelous growth of our industries, the vast number of immigrants who have swelled the ranks of labor, the facility with which we have been able, thanks to the genius of our workmen, to produce articles of every kind and character. The supply has outrun the demand. This can not last long, but it will in the mean time compel us to practice those virtues which after all are indispensable to the happiness which waits upon merited success at all times; that is, the practice of industry, sobriety, and economy. Our extravagance and wastefulness in the matter of living are proverbial throughout the world. None of us are exempt. Nor are we likely to be, since all politicians None of us are exempt. Nor are we likely to be, since all politicians teach that freedom consists in practicing the vices and yet being exempt from the misery such practice entails. The Government is damned for the results which flow from the acts of the individual citizen. We are passing through a period now, however, when the importance of abstaining from reckless extravagance and needless expenditure of earnings is being forced upon our attention. In my judgment no greater calamity could befall our people than to have them firmly fixed in the belief that it is within the range of possibility for the Government, by virtue of any enactment or by reason of any administration of proper governmental functions, to provide work for the vast army of men who are seeking remunerative employment or to in any manner supersede the necessity for the utilization of our best faculties and efforts to obtain a livelihood, or to attain to competency in any respect. we learn that prosperity only waits upon individual effort and is not the result of governmental action, the better for all of us.

The less we are governed the better for us. The less the Government

has to do with the affairs of men the better for the individual citizen; the fuller and broader will his personal freedom be. All the Government can or ought to do, all it will do, so long as it is entitled to either the confidence, respect, or support of our people, is by just and impartial laws to secure to every man the right to utilize his faculties, his muscles, and his brain for the purpose of securing things needful in life. When it performs any other office it ceases to perform the proper functions of a free government—the functions prescribed by the Constitution of our fathers.

It would protract these remarks beyond a proper limit if I should attempt to compare the various industries of the country to-day with the industries of half a century ago, to compare the opportunities of the wageworker of 1886 with the opportunities of the workman of even a quarter of a century ago. I have gathered statistics to do that, and to show the healthful results from encouraging the artisans, mechanics, and workmen in the various fields of effort in inventing and construct ing machinery and implements to lighten the labors of all who toil and to increase the comforts and conveniences of every home, as well as to gratify the innocent whims and fancies of those who are able to pay for that luxury, but this I must delay to another time.

It is pertinent, however, to add, at this point, that it seemed to me, and I have so said to the House, that this is a most auspicious time to employ our idle capital and our idle workmen in providing suitable and indispensable coast and harbor defenses; and I submit that it is utterly incongruous to affect grief because the furnaces, shops, and forges are idle and the artisans, mechanics, and workmen are unemployed, when every consideration of prudence, public safety, and economy calls upon Congress to see to it that the country is with all possible speed put in a condition for offensive and defensive warfare.

Thus this administration, while performing a most important and pressing public duty could at the same time do something for the great industries of the country and give employment to thousands of workmen who must otherwise, for a season at least, remain idle. But this House refuses to vote a dollar for that purpose. Unfortunately, greater effort is made to cajole ignorance and vice than to win the approval of the wise and the good.

It seemed an outrage to keep \$400,000,000 lying idle in the Treasury. The allegation that such a sum was lying idle was necessary in order to authorize the pleasing and encouraging statement that the interest is a sum was lying idle was necessary in order to authorize the pleasing and encouraging statement that the sum of the pleasing and encouraging statement that the sum of the pleasing and encouraging statement that the sum of the pleasing and encouraging statement that the sum of the pleasing and encouraging statement that the sum of the pleasing and encouraging statement that the sum of the pleasing and encouraging statement that the pleasing and encouraging statement the pleasing statement that the pleasing statement the pleasing statement the pleasing statement the pleasing statement the pleasing the Democratic party was installed in power a general distribution among the people of that vast sum would take place. The first falsehood authorized the second. The two have rendered the Morrison resolution a necessity for campaign purposes. The two first propositions were less dangerous than the third, since the last seeks arbitrarily to control the management of the finances of the Government and is plainly subversive of well recognized business principles, and has a direct tend-ency by arbitrary law to force conditions which in the nature of things can not be controlled by law. But since the majority side of the House vote their administration unworthy of confidence, we may on this side

in a degree affirm their judgment by voting for the resolution as amended.

There is too much reason to believe, however, that the resolution was framed for use upon the stump next fall rather than for practical opera-

framed for use upon the stump next fail rather than for practical opera-tion in the management of the national Treasury.

Thus it is sought to have the crowd applaud those who wrong them.

We shall wait to see what the next act in the political play will be, and
whether intelligent citizens will applaud or hiss.

Mr. MORRISON. I will yield to the gentleman from Ohio [Mr.

WARNER] ten minutes.

Mr. WARNER, of Ohio. Mr. Speaker, I propose to confine myself strictly to the examination of the resolution before the House. This resolution as it left the House required the Secretary of the Treasury to pay out on the interest-bearing debt all the surplus in the Treasury (according to the present form of the Treasury statement) in excess of \$100,000,000.

It comes back to us from the Senate amended in that respect so as to add \$10,000,000 to the \$100,000,000 before a call shall be made on the interest-bearing debt and then \$20,000,000 more in the discretion of the Secretary of the Treasury, to be held as a "working balance." So that the amount allowed to be held in the Treasury before payment on the public debt is required is increased from \$100,000,000 to \$120,-

Taking the last statement, and there is a clear balance of \$80,000,000 over and above all demand liabilities and in excess of the \$100,000,000 reserves and the subsidiary silver. If we add to this the probable excess of revenues for the current fiscal year, say \$40,000,000 after supplying the sinking fund, it gives \$120,000,000 as the sum applicable under this resolution to the 3 per cent. bonds, and the resolution relates to no other bonds. So that, as the gentleman from Illinois [Mr. MORRISON] has said, we will not get down to the \$120,000,000 before all the 3 per cent, bonds will be paid. all the 3 per cent. bonds will be paid.

So that, barring the discretion given in the amended resolution, it will accomplish as much practically as it would in the form it was in when it first passed the House. Now, I do not believe it is necessary to hold even a hundred millions, and I introduced a resolution requiring the payment of all in excess of fifty millions, believing that to be an ample reserve, and more than any other two nations in the world maintain as a surplus. I do not believe, therefore, that it is either necessary or wise to hold a surplus of one hundred and thirty millions. I would not like to have it go out that by my vote I gave assent to the proposition that it was necessary or even wise to hold \$130,000,000 or \$120,-

to us in this form, and the conferees tell the House that unless it is accepted in this form it will not pass the other House and nothing can be had. By accepting this, then, does this House commit itself to the proposition that \$130,000,000 shall be held as a reserve before bonds shall be called?

Mr. MORRISON. A hundred and twenty millions.
Mr. WARNER, of Ohio. Or \$120,000,000? I say not at all. In legislation we have to do the best we can, and in this case the resolution comes back with the sum allowed to be held in the Treasury increased by \$20,000,000. There is no difference in the principle between \$100,000,000 and \$120,000,000 or \$130,000,000, and one is no more committed and the Hones is no more committed and the Hones is no more committed to the preparation that mitted and the House is no more committed to the proposition that such a reserve shall always be maintained by voting for the amended resolution than by a vote for the resolution as it passed the House in the first instance. I would not have voted for the original resolution if it committed me or the House or the Government to always keep even \$100,000,000 as a reserve or surplus. I voted for the best measure I could get then, and while this is not so good yet in respect to this feature of the bill certainly there would be no compromise of principle. In voting to require all in excess of \$100,000,000 to be paid out I went as far as I could then, and if the resolution now allows \$20,000,000 more, it is still going in the same direction, and, therefore, while it is a concession it is not an abandonment of any principle nor a compromise of any principle.

While the Secretary of the Treasury now may pay any part of the money in the Treasury on bonds and may buy bonds not subject to call he is not required to do so. This resolution requires him to pay out all in excess of \$120,000,000, and so far it is certainly a gain to the

country.

I wish the interpretation which the gentleman from New York [Mr. HEWITT] gives to the resolution was the true one, namely, that the Secretary of the Treasury would be obliged to-morrow, if it should become a law to-day, to pay out all the surplus at once, or to call, say, fifty millions of bonds, as the surplus, according to the statement made on the 31st of July, was \$80,000,000 in excess of subsidiary silver and other reserves. But if the gentleman will read the resolution carefully he will see, I think, that the Secretary of the Treasury, while required to pay the surplus out, is permitted to pay it out—how? In sums of not less than \$10,000,000 monthly. I grant that he may pay it all out at once

Mr. HEWITT. Is it not only a limitation as to the ten millions? Is it not, in other words, a limitation upon the minimum and not the maximum? He may not pay out less than ten millions, but there is

maximum: He may not pay out less than ten millions, but there is no limit as to the excess beyond that.

Mr. WARNER, of Ohio. It is in his discretion to pay it all.

Mr. HEWITT. No; it provides that it shall be his duty to pay it out in such sums.

Mr. WARNER, of Ohio. Yes; to pay out the excess in sums of not less than \$10,000,000 a month.

But I say I wish your interpretation was the only interpretation the resolution was susceptible of. I should not be alarmed at the payment of \$50,000,000 of the debt to-morrow. My colleague [Mr. BUTTER-WORTH] talks of wreck and disaster to follow. What, wreck and What, wreck and disaster because the Government pays an interest-bearing debt with money it has in its vaults! I can hardly think of anything more absurd than that. Is the credit of the Government to be destroyed by paying its interest-bearing debt in an honest way? That, Mr. Speaker, is a new-fangled notion that I can not understand. ple to be wrecked because they could not pay their debts, but I never knew "wreck and disaster" to come to one because he could and did pay his debts, even if he paid them rapidly.

The second part of the resolution comes back to us further amended

The second part of the resolution comes back to us further amended in this, that it gives the Secretary of the Treasury the discretion to postpone calls for these bonds if in his judgment any future contingencies arise which make it desirable to do so. Now, this discretion I do not like to lodge with the Secretary of the Treasury, or with any other official, even though he is required to give his reasons therefor immediately to Congress.

Mr. WEAVER, of Iowa. The resolution gives him power to suspend

the sinking fund.

Mr. WARNER, of Ohio. This does not touch the sinking-fund law. That is an independent act, and is not touched by this resolution. He must pay each year into the sinking fund the percentage required by the sinking-fund law. If this resolution by any possible construction touched the sinking fund it could, I apprehend, scarcely get a vote in the House.

Mr. WEAVER, of Iowa. It is to be paid out of the surplus over \$100,000,000, and the resolution gives the Secretary power to suspend payment of that surplus.

Mr. WARNER, of Ohio. It gives the Secretary power to suspend calls under this act; nothing else. The Secretary now has the discretion to pay out the surplus on the debt or not to pay it out. He is resition that it was necessary or even wise to hold \$130,000,000 or \$120,-000,000 in the Treasury, with interest-bearing debt, which might be paid at the option of the Government. But the resolution comes back stands he is not required to pay anything. Therefore, at the worst, this amendment is a limitation upon the discretion which the Secretary

now has, and in no degree an extension of his powers.

Mr. DOUGHERTY. Will the gentleman yield to me for a question? Mr. WARNER, of Ohio. In a moment. Therefore, under the resolution, exigencies remaining as they are, the Secretary will be bound by this resolution to pay out all the surplus in excess of \$120,000,000. Congress by this resolution, even as amended to the extent stated, assumes the control of the matter and directs the payment of the surplus, and to that extent the Secretary is relieved of the discretion. I only wish the resolution went further, but I say in this regard, too, there is no surrender of the right of control by Congress.

Mr. DOUGHERTY. My question is this: Did any gentleman upon this floor ever know a case in which the expressed desire of a debtor to

pay his debt injured his credit?

Mr. WARNER, of Ohio. I think not. The gentleman is right. The fear that the credit of the Government will suffer in that way or that the country will suffer is a bugaboo.

Mr. BUTTERWORTH. Nor does the contingency spoken of rest on

that at all.

Mr. WARNER, of Ohio. I can not yield any further. I say this resolution even as amended is a restriction upon the Secretary's discretion; and if it will lead to paying out eighty millions there is so much gained; and in this, I repeat, I agree with the gentleman from Illinois that beginning with the surplus now in the Treasury, and adding to that the excess of the revenues we are almost certain to have during the next twelve months, we will not get down to the one hundred and twenty millions before the entire amount of 3 per cent. bonds is paid out, and this resolution relates to no other part of the debt. Therefore, practically, so far as the surplus is concerned, we will get as much out of this resolution as we probably would get out of the resolution

as it left the House.

But the discretion expressly lodged with the Treasury Department to postpone calls is what I do not like. I do not think the Secretary of the Treasury or the Treasurer should have any discretion in the matter. I think Congress should hold entire control over both revenues and expenditures, taxes and debts. The idea of my colleague that the credit of this Government rests on the discretion of one man is, to say the least, a novel one. How long would the credit of a government last with no surer foundations? No, sir; the credit of this country rests upon no such foundation as that. It is the duty of the Treasurer to receive all the money which Congress authorizes to be collected as taxes, and it is his duty to pay it out as Congress directs, and he should be allowed no further discretion than to receive the kinds of money he is authorized to receive and to pay out the same on appropriations by Congress. The United States Treasury is not a bank, and ought not to be used or run as a bank nor for banks. The establishment of the independent treasury meant no such thing.

I object to setting the Treasury of the United States up against Wall

street to aid speculation or to prevent speculations. It should have nothing to do with the speculations of capital. You might as well give the Treasury officials discretion to increase or diminish taxes as exigencies might arise as discretion as to the amount that shall be paid out. Would my colleague from Ohio propose to give Treasury officials dis-

cretion in its collections of revenues?

Mr. BUTTERWORTH. Not at all; that is a different proposition. Mr. WARNER, of Ohio. Nor would I give discretion in paying money out.

[Here the hammer fell.]

ENROLLED BILLS SIGNED.

Mr. NEECE, from the Committee on Enrolled Bills, reported that the committee had examined and found duly enrolled a bill of the fol-

lowing title; when the Speaker signed the same:

A bill (H. R. 4865) to extend the system for the immediate delivery of letters, and amendatory of sections 3, 4, and 5 of the act approved March 3, 1885, entitled "An act making appropriations for the service of the Post-Office Department for the fiscal year ending June 30, 1886, and for other purposes."

Mr. PERKINS, from the Committee on Enrolled Bills, reported that the committee had examined and found duly enrolled a bill of the fol-

lowing title; when the Speaker signed the same:

A bill (H. R. 8596) for the relief of Beaufort Lee and others.

TREASURY SURPLUS.

Mr. MORRISON. I yield to the gentleman from Pennsylvania [Mr. RANDALL].

Mr. RANDALL. I yield five minutes to the gentleman from Penn-

sylvania [Mr. Sowden].

Mr. SOWDEN. When this proposition was first presented to the House it met my hearty approval and I most cheerfully voted for it. It received my vote because I believed it good policy and honest, economic management to apply the surplus in the Treasury in excess of \$100,000,000 to the payment of the interest-bearing obligations of the Government, and thus save the people several millions of dollars annually in interest. I shall also vote for the adoption of the conference report, but would rather have seen it contain the provision for the redemp-

tion of the outstanding trade-dollars. The conferees on the part of the House, I think, made a mistake in not accepting the amendment of the

Senate providing for the redemption of the trade-dollars

In the Forty-eighth Congress this House passed a bill providing for their redemption, and there is a similar bill pending before this body now. It is impossible at this late day of the session to secure its consideration, but its object could have been readily obtained had the House conferees accepted the Senate amendment. It is to be regretted that the conference report can not be amended but must be adopted or rejected as a whole. Under the act of February 12, 1873, the coinage of the trade-dollars was authorized, and they made a legal tender for an amount not exceeding \$5. Under a joint resolution of Congress approved July 22, 1876, their legal-tender character was destroyed.

This piece of legislation was a fraud upon the rights of those who held these coins. It was nothing less than a species of repudiation. It is said that the coinage of the trade-dollar was for the purpose of export Very many of these coins have gone abroad. to the Asiatic countries. The total coinage of trade-dollars has been 35,965,924. This includes 6,564 coined during the fiscal years 1879–1884 as pattern pieces. Of the number coined 29,000,000 have been exported, of which about 2,000,000 were reimported. The excess of trade-dollars coined and imported over the number exported through the custom-houses was about 9,000,000. Of the 15,631,000 trade-dollars coined prior to the adoption of the joint resolution of July 22, 1876, 12,580,000 were exported, leaving only 3,051,000 in the country at the time of the passage of said resolution.

The coinage of trade-dollars since the passage of the joint resolution of July 22, 1876, depriving them of their legal-tender quality and limiting their coinage to the demand for export, amounted to 20,328,360, not including the 6,564 proof pieces since coined. Of this amount, only 16, 424,004 are shown to have been eventually exported. Customhouse returns fail to show the exportation of 3,904,356. On February 22, 1878, the coinage of trade-dollars was finally discontinued.

Adding to the coinage the amount imported since July, 1876, the excess of the coinage and imports of trade-dollars over the exports of the same since the adoption of the joint resolution of July 22, 1876, was 5,986,732. This added to the amount in the country on July 22, 1876, 3,051,000, makes a total stock to be accounted for of 9,036,732. It is probable, however, that this sum is largely in excess of the amount of trade-dollars at present in the United States, says the Director of the Mint in an official letter on the subject.

It is also shown by the report of the Committee on Coinage, Weights, and Measures made to this Congress, that there are in circulation today in this country about \$7,000,000 and they estimate the amount that would probably be presented for redemption as not likely to exceed \$10,000,000 out of a total coinage of \$35,965,924. When the Government issued this coin it received 100 cents for every dollar put in cir-

culation and common honesty on her part demands that she should honestly redeem every dollar of this coin.

What the gentleman from Maryland [Mr. FINDLAY] has stated with reference to the holders of the trade-dollars in his district applies with equal force to mine. Nearly every merchant and country storekeeper has some of them; some have thousands while others hold hundreds. Our banks hold thousands of them and paid a hundred cents for every dollar. They, like our merchants and storekeepers, received them for their face value in the belief that the Government was honest and would promptly and honestly redeem all its outstanding obligations, including

these debased and now repudiated silver trade-dollars. The Government coined these dollars and received the people's money in exchange therefor, and what honest man will contend that she shall not keep faith with her creditors? Is not this indebtedness equally as sacred as that of the interest-bearing obligations of the Government? Under the act of February 28, 1878, authorizing the coinage of standard silver dollars, known as the Bland act, the Secretary of the Treasury is authorized and directed to purchase from time to time silver bullion, at the market price thereof, not less than \$2,000,000 worth per month nor more than \$4,000,000 worth, and cause the same to be coined

monthly, as fast as purchased, into such dollars.

The weight of these dollars is fixed at 412} grains troy, standard silver, while the weight of the trade-dollar is 420 grains troy. If the Government is forced under this legislation to go into the market and purchase at least \$2,000,000 worth of silver bullion per month, why, in the interest of honesty and good morals, should she not redeem her outstanding trade-dollars for recoinage into standard silver dollars, and thus protect her honest creditors from loss, rather than purchase all the silver bullion required for the purposes of the act of February 28, 1878, from the silver bullionists of the country.

The following extract from an editorial recently published in the Philadelphia Times contains such sound sense upon this subject that I take the liberty of adopting the same as a part of my remarks:

The trade-dollars were issued by the Government and accredited to the people as money. They were accepted in good faith by the people; they were scattered throughout the whole country among rich and poor, and after they had been issued by the Government as dollars, their legal-tender quality was taken from them, and the people have suffered a loss of nearly one-fifth their face value. They are intrinsically more valuable than the swindling legal-tender dollar

that is now stored away by scores of tons in Government vaults, but, although a full 100 cents were received by the Government for every trade-dollar issued, and although they are worth more, in point of fact, than the legal-tender dollar that shames the nation, the Government has thus far refused to redeem the trade-dollar even for the less costly dollar that it has given an arbitrary value by its legal-tender quality. This is simply naked dishonesty, and it is the more disgraceful that a great government is responsible for it.

It is doubtless true that some speculators will profit by the redemption of the trade-dollar; but who is answerable for it? Why may speculators be able to profit by the honest redemption of Government money? Speculation in trade-dollars has been possible only because of the dishonesty of the Government in its deliberate depreciation of its own coin that it had issued and for which it had received full value. It can not now plead the logical result of its own wrong as an excuse for not correcting the wrong. The fact that millions of the trade-dollars are yet held outside of speculative circles by people who can ill afford

to lose one-fifth their face value should be conclusive with Congress and hasten the passage of the bill lately recommended to the House by the Coinage Committee, whereby trade-dollars would be received for all Government dues at par, or in exchange for legal-tender dollars, and be treated as bullion by the Government. The measure is not only obviously just, but common honesty on the part of the Government imperatively demands its prompt passage.

[Here the hammer fell.]

Mr. RANDALL. Mr. Speaker, I think this not an inappropriate time to present for the consideration of the House certain figures, showing the results of the appropriation bills of this session as compared with those of last year. These tables I will have printed in the REC-ORD. I do not wish to weary the House by reading them.

History of the fourteen regular appropriation bills-1886-'87.

a Fifty per cent. of the amounts appropriated for the District of Columbia are paid by the United States. The amount for the water department (estimated for 1887 at \$183,483.02) is paid out of the revenues of that department. b In addition to this amount for pensions for 1884-'85 an unexpended balance of appropriation, estimated at \$65,000,000, was reappropriated and made available for that fiscal year. c In addition to this amount for pensions for 1883-'84 an unexpended balance of appropriation, amounting to \$39,000,000, was reappropriated and made available for that fiscal year. d The appropriations for the postal service are paid out of the postal revenues (estimated for 1887 at \$47,542,252.64), and any deficiency in the revenue is provided for out of the Treasury of the United States. eNo appropriations were made for rivers and harbors for the fiscal years 1883-'86. fThis is the estimate submitted for 1887: "The amount that can be profitably expended," as reported by the Chief of Engineers, is \$42,332,100 (Book of Estimates, page 178). gIncludes amounts contained in House Executive Documents 62, 70, 176, 210, 225, 233, 270, 275, 280, and 294, and Senate Executive Documents 213 and 218. h This sum (\$5,760,015.28), to pay awards of the Alabama Claims Commission, is incident to the act approved June 5, 1882 (volume 23, page 88, Statutes at Large). 4 The estimates for "increase of the Navy" are included above under estimates for the Navy. fThis sum is estimated. k This sum is based on laws approved and printed up to July 31 and on bills which have passed both Houses.

An examination of the foregoing statement shows that the aggregate | Comparative statement, showing differences between the regular appropriaamount of the thirteen regular appropriation bills providing for the ordinary expenses of the Government during the fiscal year 1887 is \$236,553,683.44, being \$31,667,166.54 less than the estimates which were submitted to Congress, and \$24,062,904.26 in excess of the regular appropriations made by the last session of the Forty-eighth Congress for the fiscal year 1886.

Deducting the increased amount given for pensions over what was appropriated for 1886, namely, \$16,075,200, and the amount of the river and harbor bill, \$14,473,900, making in all \$30,549,100, from the aggregate regular appropriations for 1887, and the remaining sum is \$206,004,583.44, or, \$6,486,195.74 less than was appropriated for the regular expenses of the Government for the fiscal year 1886.

The following is a comparative statement exhibiting by titles the reg-

ular appropriation bills and the decrease or increase made as compared with the fiscal year 1886.

tion laws for 1887 and those for 1886.

Title of law.	Decrease.	Increase.

20, 837, 978

Comparative statement showing difference between the regular appropria-tion laws for 1887 and those of 1886—Continued.

Title of law.	Decrease,	Increase,
River and harborSundry civil	3, 421, 746 91	14, 473, 900 00
Totals (regular appropriations)	7, 439, 501 78	31,502,406 04 - 7,439,501 78
Net increase 1887 over 1886		24, 062, 904 20 9, 034, 025 07 5, 769, 015 28 3, 500, 000 00 2, 822, 351 80
Total net increase appropriations 1887 over 188	G	45, 188, 296 41

Of the remaining sums appropriated by this session of Congress and which are not incident to the current and necessary operations of the Government, but which swell the total sum of appropriations to \$264,-783,579.59 as against \$219,595,283.18 appropriated by the last session of the Forty-eighth Congress, showing an apparent increase of \$45,188,296.41 of appropriations for 1887 over those for 1886, it is due to make the following explanation:

For deficiencies there is appropriated \$13,960,880.87, which aggregate sum includes items as follows:

For payment of pensions and fees of surgeons for examining pen- sioners For the payment of claims audited and certified by the Treasury, and	\$3,500,000
which in the main are for pay, bounty, and other allowances to 'soldiers, all of which accrued during the war period, and also for allowances to postmasters on readjustment of salaries	2,580,219 555,000 683,744 200,000
For payment of judgments of the Alabama Claims Commission out of funds paid into the Treasury under the Geneva award	10, 518, 963 5, 769, 015 3, 500, 000 1, 050, 000

Adding to the foregoing sum the excess of pensions for 1887 over 1886 and the amount of the river and harbor bill, making \$51,387,-078, and deducting the same from the whole amount of appropriations, there remains \$213,396,501, or less than \$1,000,000 in excess of the whole amount of regular appropriations made by the last session of the Forty-eighth Congress

The expenditures of the Government for the fiscal year ending June 30, 1886, the first complete year of the Democratic administration, and for the fiscal year ending June 30, 1885, the last year of the Republican control of the Government, were as follows:

Expenditures 1886.

Total expenditures, as reported by Treasury	\$242, 483, 138 50 44, 551, 043 36 44, 000, 000 00
Total	331, 034, 181 86
Expenditures 1885.	001,002,101 00
Total expenditures, as reported by the Treasury	45, 604, 035, 43
Total	348, 391, 814 37

This exhibit shows an excess of expenditures for 1885 over those for 1886 of \$17,357,632.51.

The expenditures for pensions in 1886 were \$63,404,864.03 as against only \$56,102,267.49 in 1885, being an increase of \$7,302,596.54 for 1886 over 1885, which difference, if deducted from the general expenditures as stated above for 1886, would make the reduction of expenditures for 1886 \$24,660,229.05 under the expenditures shown for 1885.

The total revenues of the Government for the fiscal year 1887 are estimated as follows:

45, 000, 000 00
47,500,000 00
92,500,000 00
64, 783, 579 59 18, 910, 955 00
83, 694, 534 59
1

As a rule the annual expenditures are from seven or eight to ten millions of dollars less than the annual appropriations. In 1885 the expenditures were more than \$7,000,000 less than the appropriations.

Now, Mr. Speaker, as to the immediate subject under consideration, I voted for the original proposition as it passed the House. I did not see then that there need be any apprehension from the execution of

the joint resolution if it should become a law in the form in which it passed the House, and I have heard nothing since from any source that has aroused in my mind any fear that if it had become a law in that has aroused in my mind any lear that if it had become a law in that form it would have worked injury to the Government or to the people. On the contrary, I believe that instead of harming the public credit it would have strengthened it. The Senate, however, thought otherwise, and we are unable to secure the passage of the resolution in the form in which the House thought it should be passed. The Senate made certain amendments. So far as the use of the surplus money in the Treasury for the payment of the public debt is involved, the practical result of the amendments of the Senate will be to make a difference of about twenty millions—the difference between seventy-five millions and fifty-five millions. In other words, the joint resolution as it comes from the committee of conference, will secure the payment, in about five and a half or six months, of \$55,000,000 of the public debt, separate and distinct from the amount which is necessary to meet the requirements of the sinking-fund law, so that during the coming year, if this joint resolution becomes a law, there will be more than

one hundred millions of the public debt liquidated.

Mr. BRECKINRIDGE, of Kentucky. If the gentleman will permit a suggestion, the balance shows that the surplus is eighty millions now

instead of seventy-five.

Mr. RANDALL. I know; but you have got the twenty millions counted there

Mr. BRECKINRIDGE, of Kentucky. So that it will make a differ-

Mr. BLAND. Provided they have the gold to pay it with.
Mr. RANDALL. As to that point, Mr. Speaker, there is nothing in the joint resolution which changes the authority now vested in the Department to pay the bonds in any kind of money that the people are willing to take.

Mr. BLAND. But this resolution makes it discretionary with the Secretary of the Treasury to suspend the payment whenever he has not

Secretary of the Treasury to suspend the payment whenever he has not the gold.

Mr. RANDALL. I will come to that question of discretion in a moment. I find myself, Mr. Speaker, in this situation: I can not get all I want, but I do not, therefore, propose to say that I will not accept a part of what I want. I do not believe in giving undue discretion, or in fact I might say any discretion, to the Treasury Department. I am fully aware that when the Treasury Department was organized there were few, if any, who advocated giving it any discretion. The general current of thought at that time was that the Treasury Department, above all other Departments of the Government, should have the least discretion, and it is easy to see why that view controlled. The

least discretion, and it is easy to see why that view controlled. power has not been abused, perhaps, by this administration or by past administrations; but, nevertheless, the power of manipulating the public funds is too dangerous a power to be intrusted to any official unless under the guidance and control of law, and we must sooner or later-I say it with the greatest respect to those who now administer the Government-we must sooner or later take from the Treasury Department the enormous discretion which it has at this time. That discretion grew up as a result of the war. It came because we found it necessary to make alliances with the banking interests of the country, in order that our bonds should be placed, and thus our Treasury was enabled to meet the requirements of the war; but I think that so soon as it is possible we should traverse all legislation giving undue discretion to any public officer in connection with the management of the public funds. The truth is the Treasury has come to be a mother bank, as it were, to control the condition of the finances of the country. The intent and purpose of the Treasury Department should be to receive and keep in safe custody the revenues, and to disburse them in such manner as the laws may direct.

While I believe that this resolution in its present form is not all that

is desirable, I am willing to support it as going part of the way in the direction toward which we should look; and I am comforted in doing so when I remember that while officials of the Treasury Department resisted the proposition as passed originally by the House, that since the conferees have put the resolution in its present form it is more acceptable to those Treasury officers. I am therefore at a loss to understand why all who voted for this proposition originally should not vote for it in its present form. It is in the direction of the views of those who originally voted for it; and I submit that we should not, by voting down the entire proposition, allow ourselves to be diverted from a partial accomplishment of what we then intended

I hope therefore that this conference report will be accepted. A vast majority of the people of the United States, so far as I have been able to hear from them, expect us to adopt some measure of this kind. We can not accomplish everything we desire; but we can accomplish this much in accord with their sentiments. It is a step forward upon the

much in accord with their sentiments. It is a seep retrieved to be policy on which we originally started out.

Mr. HEWITT. Do I understand my friend to say that this measure is now acceptable to the officials of the Treasury Department?

Mr. RANDALL. I say it is now acceptable to Senators who at first spoke against it; and the amendments which have been put upon the resolution were, as I understand, placed there upon the suggestion of certain Treasury officials.

Mr. HEWITT. But I do not understand the gentleman to say that the Treasury officials have communicated to him that it is acceptable.

Mr. RANDALL. They have not.

Mr. MORRISON. I move the previous question on the adoption of

Mr. LORE. If the gentleman from Illinois will withhold that motion for a moment, I would like to ask him whether it is probable that if this report be rejected the conferees will agree to the proposition for

Mr. MORRISON. Never with my consent.

Mr. RANDALL. Let me say to the gentleman from Delaware [Mr. Lore] that I am as much concerned in regard to the trade-dollar as he is; but why embarrass this proposition by making an issue now on that question? The provision in regard to the trade-dollar was put on the resolution in the Senate by a bare majority of 1. We will try some other method of providing for the redemption of the trade-dollar. The adoption of this report is too important to be embarrassed by making

Mr. FINDLAY. Does the gentleman from Pennsylvania expect to accomplish anything in regard to the redemption of the trade-dollar be-

fore we adjourn?

Mr. RANDALL. I shall press such a proposition to-day, if I have

AABBBBBBBBBBBCCCC

the opportunity.

Mr. MORRISON. I move the previous question.

Mr. EVANS. Mr. Speaker, I rise for the purpose of making a parliamentary inquiry. Would it be in order to move to instruct the managers on the part of the House to concur in the Senate amendment which provides for the redemption of the trade-dollars? If such a motion is in order, I desire to make it.

The SPEAKER. Of course such a motion is not in order at this stage.

The SPEAKER. Of course such a motion is not in order at this stage of proceeding. The only question now before the House is upon agreeing to the report of the committee of conference, which is a single question. If the report be not adopted then the whole subject is open, and the gentleman may move to concur with or without amendments.

The previous question was ordered.

The question being taken on agreeing to the report of the committee

of conference, there were—ayes 96, noes 37.
Mr. O'NEILL, of Pennsylvania. I call I call for the yeas and nays.

The yeas and nays were ordered.

The question was taken; and it was decided in the affirmative—yeas 120, nays 63, not voting 139; as follows:

So the report was adopted.

During the roll-call,
Mr. WHEELER moved to dispense with the reading of the names. Objection was made.

The following pairs were announced: Until further notice:

Mr. SNYDER with Mr. JOHNSON, of New York.

Mr. PINDAR with Mr. KETCHAM

Mr. DAVIDSON, of Alabama, with Mr. SWINBURNE. Mr. GEDDES with Mr. JOHNSTON, of Indiana.

Mr. McCreary with Mr. DINGLEY. Mr. MATSON with Mr. BOUTELLE.

Mr. O'FERRALL with Mr. WHITE, of Minnesota. Mr. HARRIS with Mr. HOLMES.

Mr. HARRIS WITH Mr. HOLMES.
Mr. GREEN, of New Jersey, with Mr. Burleigh.
Mr. Croxton with Mr. Hayden.
Mr. Miller with Mr. Long.
Mr. Cox with Mr. Anderson, of Kansas.
Mr. Stone, of Missouri, with Mr. Sawyer.
Mr. Worthington with Mr. Millard.

Mr. CABELL with Mr. CAMPBELLS of Pennsylvania.

Mr. CLARDY with Mr. OWEN.

Mr. JONES, of Alabama, with Mr. Brown, of Ohio. Mr. Outhwaite with Mr. Morrill.

Mr. MARTIN with Mr. PETERS.
Mr. PEEL with Mr. ALLEN, of Massachusetts.
Mr. Anderson, of Ohio, with Mr. Grosvenor.
Mr. Barksdale with Mr. Davenport.

Mr. Dawson with Mr. RANNEY

Mr. DAVIDSON, of Florida, with Mr. GALLINGER. Mr. HALE with Mr. HOUK.

Mr. SADLER with Mr. VAN SCHAICK. Mr. TUCKER with Mr. STEWART, of Vermont.

Mr. Barbour with Mr. Libbey.
Mr. Bargo with Mr. Cibbey.
Mr. Hammond with Mr. O'Donnell.
Mr. Throckmorton with Mr. Wadsworth.

Mr. REESE with Mr. ADAMS, of Illinois.

Mr. STORM with Mr. DUNHAM.

Mr. Rogers with Mr. Ezra B. Taylor.

Mr. Robertson with Mr. Steele.

Mr. WINANS with Mr. CUTCHEON.

Mr. Wellborn with Mr. Phelps.

Mr. John M. Taylor with Mr. IKE H. Taylor.

Mr. CANDLER with Mr. HAYNES.
Mr. TURNER with Mr. DORSEY.
Mr. HENLEY with Mr. HANBACK,
Mr. COMSTOCK with Mr. BURROWS.

Mr. MILLS with Mr. McKinley. Mr. Reagan with Mr. Rice.

Mr. FISHER with Mr. DAVIS. Mr. IRION with Mr. WHITING.

For to-day:

Mr. ELLSBERRY with Mr. PETTIBONE.
Mr. WARNER, of Ohio, with Mr. JAMES.
Mr. SHAW with Mr. BUCK.
Mr. LAFFOON with Mr. MOFFATT.
Mr. STEWART, of Texas, with Mr. BRUMM.
Mr. WILSON with Mr. PAYNE.

Mr. WILSON. I am paired with Mr. PAYNE, of New York, on this vote. Ido not know how he would vote, but if I were not paired I would vote in the affirmative.

The vote was then announced as above recorded.

Mr. MORRISON moved to reconsider the vote by which the report

was adopted; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

MESSAGES FROM THE PRESIDENT.

Several messages in writing were received from the President, by Mr. PRUDEN, one of his secretaries.

It was further announced that he had approved and signed, August 4, 1886, bills and joint resolutions of the following titles, namely:

An act (H. R. 2027) granting a pension to Joshua Armstrong; An act (H. R. 2964) to restore to the pension-roll the name of Abel Mishler, of Pennsylvania;

An act (H. R. 7163) granting a pension to Peter Adams;
An act (H. R. 190) for the relief of certain employés and others, of
the twelfth United States light-house district;
An act (H. R. 8585) to provide for the inspection of tobacco, cigars,
and snuff, and to repeal section 3151 of the Revised Statutes;
Joint resolution (H. Res. 81) providing for the printing and distribution of documents of the monetary conferences of 1878 and 1881, and
the report of the monetary commission created under the joint resolution of August 15, 1876. tion of August 15, 1876;

Joint resolution (H. Res. 201) for printing report of Commissioner

of Agriculture; and

Joint resolution (H. Res. 138) to print 10,000 copies of the report of the Commissioner of Agriculture on the International Sheep and Wool Show held in Philadelphia in 1880.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, announced the passage without amendment of a bill (H. R. 2918) for the relief of William Huntington.

It further announced the passage of a bill (S. 938) for the relief of Chittenden Brothers, in which concurrence was requested.

FILING OF REPORTS.

Mr. WHEELER. I ask by unanimous consent that gentlemen having reports to submit may be allowed to do so by handing them to the Clerk during this day for reference to the proper Calendar.

Mr. O'NEILL, of Missouri. I object.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, announced that the Senate had passed without amendment a bill of the House, No. 4865, to extend the system for the immediate delivery of letters, &c.

ENROLLED BILLS SIGNED.

Mr. NEECE, from the Committee on Enrolled Bills, reported they had examined and found duly enrolled bills of the following titles; when the Speaker signed the same:
A bill (H. R. 2918) for the relief of William Huntington; and

A bill (S. 885) to relieve the State of Colorado from charges on account of ordnance stores furnished to the State and Territory.

L. D. SUGG.

Mr. RICHARDSON, by unanimous consent, from the Committee on War Claims, reported a bill (H. R. 10015) for the relief of L. D. Sugg; which was read a first and second time, referred to the Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

JOHN. H. STUCKER.

Mr. MORRILL (by Mr. DOUGHERTY), by unanimous consent, from the Committee on Invalid Pensions, reported back favorably the bill (H. R. 7748) granting a pension to John H. Stucker; which was referred to the Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

SAMUEL D. HARPER.

Mr. WHEELER, by unanimous consent, from the Committee on Military Affairs, reported back favorably the bill (H. R. 3368) granting relief to Samuel D. Harper; which was referred to the Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

WILLIAM R. WHEATON AND OTHERS.

Mr. TRIGG, by unanimous consent, from the Committee on Claims, reported back favorably the bill (S. 988) for the relief of William R. Wheaton and Charles H. Chamberlain, of California; which was referred to the Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

A. M. ANDERSON AND OTHERS.

Mr. TRIGG, by unanimous consent, from the Committee on Claims, also reported back favorably the bill (H. R. 9261) for the relief of A. M. Anderson and others; which was referred to the Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

BRIDGE ACROSS THE SAINT LOUIS RIVER.

Mr. WEAVER, of Nebraska, by unanimous consent, from the Com- | adopted.

mittee on Commerce, reported back favorably the bill (H. R. 9987) to authorize the construction of a bridge across the Saint Louis River at the most accessible point between the States of Minnesota and Wisconsin; which was referred to the Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

ADVERSE REPORT.

Mr. McMILLIN, by unanimous consent, from the Select Committee on American Ship-building and Ship-owning Interests, reported back with adverse recommendation the bill (H. R. 2076) for the relief of the merchant marine of the United States engaged in the foreign carrying trade; which was ordered to be laid on the table and the accompanying report printed.

Mr. McMILLIN. I ask unanimous consent that the minority have leave to file their views at any time hereafter on this bill.

There was no objection, and it was so ordered.

A. CUSIMANO & CO.

Mr. McMILLIN, by unanimous consent, from the Committee on Ways and Means, also reported back favorably the bill (H. R. 6743) for the relief of A. Cusimano & Co.; which was referred to the Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

WILLIAM H. HEISTER.

Mr. STRUBLE, by unanimous consent, from the Committee on Invalid Pensions, reported back with a favorable recommendation the bill (H. R. 731) granting a pension to William H. Heister; which was referred to the Committee of the Whole House on the Private Calendar, and, with the accompanying report, ordered to be printed.

REPORT FROM COMMITTEE ON INDIAN AFFAIRS.

Mr. PERKINS. I ask unanimous consent to file a report from the Committee on Indian Affairs. There was no objection.

STEPHEN H. BATES.

Mr. WEAVER, of Nebraska, by unanimous consent, introduced a bill (H. R. 10016) granting a pension to Stephen II. Bates, late a private in Company K, Forty-second Illinois Volunteers; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

MRS. E. M. FISHER.

Mr. WEAVER, of Nebraska, by unanimous consent, also introduced a bill (H. R. 10017) granting a pension to Mrs. E. M. Fisher, a nurse in the late war; which was read a first and second time, referred to the Committee on Invalid Pensions, and ordered to be printed.

PICTURE OF THE MARQUIS DE LAFAYETTE.

Mr. TUCKER, by unanimous consent, from the Committee on the Library, submitted a resolution of instructions to that committee to propose a plan for a tablet to be placed on the picture of the Marquis de Lafayette which hangs in the Hall of the House of Representatives; which was referred to the Committee on the Library.

ORDER OF BUSINESS.

Mr. BELMONT. Mr. Speaker, I ask unanimous consent to make a statement to the House.

Mr. SPRINGER. There are several reports, I understand, of conference committees waiting action.

The SPEAKER. There are a large number of conference reports to

be disposed of.
Mr. BELMONT. I know-

The SPEAKER. The Chair was responding to the gentleman from Illinois

Mr. BELMONT. There is a report from the Committee on Foreign Affairs which, it seems to me, ought to be considered before the close of the session. I know that conference reports are in order, but still, if the gentleman from Illinois [Mr. Springer], who has, I believe, a report to submit, will allow me a moment I think this can be disposed of.

Mr. SPRINGER. This report will take but a very short time.
Mr. BELMONT. I would like to know, if possible, whether these

conference reports will probably take up the remainder of the session until 5 o'clock? The SPEAKER.

The Chair is unable to answer the question.

Then I ask unanimous consent that the resolution Mr. BELMONT. of which I now speak, relating to the imprisonment of an American citizen in Mexico, be taken up for consideration.
Mr. HITT. I object.
Mr. BLAND. I demand the regular order.

LEAVE TO PRINT.

Mr. HOLMAN. The gentleman from Illinois yields to me for a moment to ask unanimous consent that gentlemen who desire to do so may print remarks in the RECORD touching the conference report just

The SPEAKER. The gentleman from Ohio [Mr. BUTTERWORTH] has also made a similar request. Is there objection?

There was no objection, and it was so ordered.

ORDER OF BUSINESS.

Mr. MARKHAM. I wish to be recognized to ask unanimous consent

The SPEAKER. But the gentleman from Missouri [Mr. Bland] has demanded the regular order.

Mr. BELMONT addressed the Chair.

Mr. HITT. I withdraw my objection.

The SPEAKER. But the gentleman from Missouri insists on the

Mr. BELMONT. Probably the gentleman from Missouri is not aware of my object.

The SPEAKER. The gentleman can see him and ascertain whether he is or not.

PHŒNIX NATIONAL BANK, NEW YORK.

Mr. SPRINGER. I submit a conference report.

The Clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the bill of the Senate No. 1599 for the relief of the Phœnix National Bank of the State of New York, having met, after full and free cenference have agreed to recommend and do recommend that the House of Representatives do recede from its amendment to said bill.

WILLIAM M. SPRINGER,
SAMUEL W. T. LANHAM,
JAMES BUCHANAN,
Managers on the part of the House.
WILLIAM M. EVARTS,
JOHN J. INGALLS,
GEORGE G. VEST,
Managers on the part of the Senate.

Mr. SPRINGER. I submit the statement which I send to the desk. The Clerk read as follows:

The conferees on the part of the House of Representatives on the disagreeing votes of the two Houses on the bill (8.1599) for the relief of the Phœnix National Bank, of the city of New York, submit the following explanation of the effect of receding from the House amendment to said bill, as recommended by the con-

receding from the House amendment to sau out, as recommended by the ference report:

The House amendment reduced the amount to be paid to the claimant from \$29,524.35 to \$12,117.38. The conferees recommend that the House recede from its amendment for the reason that the first-named sum represents the exact amount which the Phenix Bank was compelled to pay and did pay to satisfy the judgment and court costs in the litigation to which the bank was subjected by the authorized acts of the United States, as set forth in the report of the Committee on Claims of the respective Houses.

WM. M. SPRINGER,

WM. M. SPRINGER,
S. W. T. LANHAM,
JAMES BUCHANAN,
Managers on the part of the House.

Mr. SPRINGER. I ask unanimous consent to print in the RECORD are report of the Senate committee on this bill. It will fully explain the report of the Senate committee on this bill. It will fully explain the reason why the conferees have recommended that the House recede from its amendment to the Senate bill.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

Mr. GLOVER. I would like to have it read.
Mr. SPRINGER addressed the House. [See Appendix.]
Mr. SPRINGER. I now move the previous question on the adoption of the report.

The previous question was ordered; and under the operation thereof the report of the conference committee was adopted.

Mr. SPRINGER moved to reconsider the vote by which the report was adopted; and also moved that the motion to reconsider be laid on

The latter motion was agreed to.

ORDER OF BUSINESS.

The SPEAKER. The Chair, if there be no objection, will lay before the House, not in their order under the rule, an executive communication and some other matters.

There was no objection.

RIVERS AND HARBORS.

The SPEAKER laid before the House a letter from the Secretary of War recommending that provision be made for the wants of the service for the river and harbor works now in progress in the event of the failure of the river and harbor appropriation bill; also transmitting a statement from the Chief of Engineers and a recommendation of an appropriation of \$500,000 for said purpose; which was referred to the Committee on Rivers and Harbors, and ordered to be printed.

CALIFORNIA JUDICIAL DISTRICTS.

The SPEAKER also laid before the House a bill of the following title, with Senate amendments:
A bill (H. R. 5196) to detach certain counties from the United States

judicial district of California, and create the United States judicial district of Southern California.

Mr. HISCOCK. I ask unanimous consent that the Senate amendments be concurred in.

There was no objection, and the amendments were concurred in.

Mr. HISCOCK moved to reconsider the vote by which the amendments were concurred in; and also moved that the motion to reconsider be laid on the table.

The latter motion was agreed to.

SITE FOR CONGRESSIONAL LIBRARY.

The SPEAKER also laid before the House a joint resolution (S. R. 82) making an additional appropriation for the purchase of a site for the Congressional Library.

Mr. O'NEILL, of Pennsylvania. I ask unanimous consent that that

joint resolution be taken up and put upon its passage. Mr. HOLMAN. I call for the regular order, Mr. Speaker.

The joint resolution was referred to the Committee on the Library.

MISSISSIPPI AND MISSOURI RIVER COMMISSIONS.

The SPEAKER also laid before the House a joint resolution (S. R. 83) for the payment of the salaries of the Mississippi and Missouri River Commissions, and for other purposes.

Mr. HOLMAN. I move that that be referred to the Committee on

Rivers and Harbors.

The SPEAKER. It is for the payment of salaries, and would be referred under the rule to the Committee on Appropriations.

Mr. WILLIS. I object to its being referred to Rivers and Harbors. The Committee on Rivers and Harbors has adjourned. The resolution provides for an appropriation, and should go to the Committee on Ap-

The SPEAKER. The joint resolution will be referred to the Com-

mittee on Appropriations.

Mr. RANDALL. It is not likely that the Committee on Appropriations will have another meeting this session, and therefore I ask that the resolution rest on the table for the present.

Mr. GLOVER. I object.

PUBLIC BUILDING, YONKERS, N. Y.

The SPEAKER also laid before the House a bill (S. 1597) for the erection of a public building at Yonkers, N. Y.; which was referred to the Committee on Public Buildings and Grounds.

CHITTENDEN BROTHERS.

The SPEAKER also laid before the House a bill (S. 938) for the relief of Chittenden Brothers.

Mr. HEMPHILL. I move that the bill be referred to the Committee on the District of Columbia, inasmuch as the original bill has been before that committee.

The SPEAKER. In the absence of objection, that reference will be made.

IMPRISONMENT OF A. K. CUTTING.

Mr. BELMONT. Mr. Speaker, the gentleman who objected to the consideration of the resolution which I presented from the Committee

on Foreign Affairs withdraws his objection.

The SPEAKER. Is there further objection? The Chair hears none.

The resolution will be reported.

The Clerk read as follows:

Whereas A. K. Cutting, an American citizen, is wrongfully deprived of his liberty by Mexican officials at Paso del Norte, in the Republic of Mexico; and Whereas the Mexican Government refuses to release said Cutting upon the demand of the President of the United States; and Whereas the Government of Mexico alleges as a reason for its refusal to comply with such demand that said Cutting is guilty of violating a Mexican law upon American soil; and Whereas the House of Representatives, while appreciating the disposition shown by the Government of Mexico to carry out international obligations, can never assent to the doctrine that citizens of the United States may be prosecuted in a foreign country for acts done wholly upon American soil: Therefore, Be it resolved, First, that the House of Representatives approves of the action of the President of the United States in demanding the release of said A. K. Cutting.

Resolved, Second, that the President of the United States be, and he is hereby, requested to renew the demand for the release of the said A. K. Cutting.

The SPEAKER. Is there objection to the consideration of this res-

Mr. BRECKINRIDGE, of Arkansas. Mr. Speaker, I will wait to hear any explanation which the gentleman from New York [Mr. Bel-

MONT] may desire to make.

The SPEAKER. But the matter is not before the House for consideration if there is objection.

Mr. BRECKINRIDGE, of Arkansas. Well, Mr. Speaker, I think this is a delicate matter, which we ought not to pass upon without some further evidence.

Mr. TIMOTHY J. CAMPBELL. I hope there will be no objection to the resolution.

Mr. BRECKINRIDGE, of Arkansas. I will listen to an explanation from the gentleman from New York [Mr. BELMONT], reserving the right to object.

The SPEAKER. But other gentlemen object to having debate upon the resolution until it is before the House for consideration.

Mr. LANHAM. I hope the gentleman from Arkansas will allow the resolution to be considered.

Mr. BELMONT. I have not heard the gentleman object.

The SPEAKER. Is there objection to the present consideration of this resolution?

Mr. BRECKINRIDGE, of Arkansas. Mr. Speaker, an explanation has been made to me which causes me to withdraw the objection.

The SPEAKER. Is there futher objection? The Chair hears none. The question is on the adoption of the resolution.

Mr. CANNON and Mr. WEST. Let us hear what the resolution is.

The SPEAKER. It has been read, but in the absence of objection it will be read again.

The resolution was again read.

Mr. CURTIN. Can not the correspondence to which these resolu-

tions refer be read?

The SPEAKER. Only in the time of some gentleman who has the floor. The correspondence was communicated by the President in a message which was laid before the House a day or two ago and referred to the Committee on Foreign Affairs.

Mr. LANHAM. It was printed in the RECORD.

The SPEAKER. The Chair is informed it is printed in the REC-

Mr. BELMONT. . The correspondence was transmitted to the House yesterday and is printed in full in the RECORD of this morning.

Mr. CURTIN. I think we should know, before we act on these res-

olutions, whether all the matters stated are true. Suppose I take the floor and ask for the reading of the correspondence?

The SPEAKER. The gentleman from New York [Mr. Belmont] is now entitled to the floor if he desires to occupy it. If not, the Chair

will recognize some other gentleman.

Mr. BELMONT. I yield ten minutes to the gentleman from Illinois [Mr. HITT]

Mr. HISCOCK. Are these resolutions before the House for consid-

eration?

The SPEAKER. They are. The Chair asked for objection and none was made

Mr. HITT. Mr. Speaker, the resolutions now under consideration appear to have been reported by a unanimous vote of the Committee on Foreign Affairs. When they were considered by that committee the correspondence in the case referred to was in manuscript, and its substance and tenor were, especially the communications from the Mexican Government, unknown, at least to myself. I was called from my seat in the House to pass upon this question in committee. So far as I am aware, only the letter of the Secretary of State, a brief summary of the correspondence, was known to the gentlemen of the committee who passed upon the question. Upon the statement in that summary that the Mexican Government had refused a demand from our minister for the release of an American citizen, and that custody of this citizen was claimed by the Mexican Government under a law which is substantially set forth in these resolutions, I assented to reporting them favorably to the House.

This morning I find that whole correspondence printed in the RECORD, and I have read it carefully and with surprise. I find that the Mexican Government, instead of having refused the demand of our Government. ernment, instead of answering Mr. Bayard's demand for this man's instant liberation with a rebuff, has promptly and earnestly endeavored to do all that we asked, and has fully explained why it could not order or compel a state or state court. Every word of the answer and all the acts of the secretary of state of Mexico and the president of the republic himself show a disposition of compliance. There is no evasion, no defiance; there is very nearly humiliation in the tone of that government, so feeble in material resources compared to our country, before the sudden, imperious demand of the Secretary of State in the name of the President to instantly set at liberty a man who was being tried before a

state court.

On the 6th of July our minister in Mexico, Mr. Jackson, learned for the first time of this proceeding at El Paso, and laid the matter before

the first time of this proceeding at El Paso, and laid the matter before the Mexican Government. On that very day it was considered.

A letter was sent from the ministry of foreign affairs of that country to the governor of the state of Chihuahua, where this man was being tried. That letter, sent by the advice of the president, who concerned himself in satisfying us, recommended the governor to see justice administered promptly and duly, and to alleviate the hard condition of the prisoner, as well in all else permitted by the laws. The terms of that letter, if I had time to read it, would show the friendly, the conditions spirit of the Mexican minister the eagerness in fact, on the ciliatory spirit of the Mexican minister, the eagerness, in fact, on the part of that government to avoid conflict and end this troublesome question with their powerful neighbor on the north. They appear most anxious to avoid quarrel with us.

Mr. BLOUNT. Is not this man under arrest now?

A MEMBER. Why do they not release him?

Mr. HITT. He is in prison, and why? The pathetic story given in the dispatch of our minister to the Mexican Government is that he is in a loathsome, filthy prison, and is denied bail, though he has abundant bail ready. Upon that statement of Minister Jackson, detailing the horrors of this man's confinement and this hard ruling, the President of Mexico intervened and exercised his influence for the purpose of having the man allowed bail and that he should no longer be treated with such cruel imprisonment. What was the result? He scornfully · refused to give bail and said he would stay.

Mr. CRAIN. Will the gentleman allow me to ask a question? Mr. HITT. Wait until I finish answering this one.

He refused it, it is said, on the advice of that mischief-making consul, who is reported as making speeches to crowds in the streets about vindicating the rights of this great country. It is unfortunately to such a man, who seems to be indiscretion itself, that the conduct of our affairs there has fallen. This prisoner, by the advice of the consul, and declaring that his case was no longer a small individual affair of petty courts but was of international importance, refused to give bail, and persisted in staying in his prison. He can walk out of it (for he says he has abundant bail) at any moment he pleases.

In this correspondence, which my veteran diplomatic friend [Mr. CURTIN] asked just now to have read, the Government of Mexico explains that the autonomy of a state in Mexico, just as in the United States, is independent of the federal government, and that the courts administer justice, not by the orders of the president or his ministry—a similar answer to that Mr. Bayard gave recently to the minister of China when he sought relief for Chinamen wounded, pillaged, their relatives murdered, and whose rights were disregarded in this country.

Mr. CRAIN. Will'the gentleman allow me a question?

Mr. CRAIN. Will the gentleman allow me a question?
Mr. HITT. With pleasure.
Mr. CRAIN. Instead of it being the fact that this man has been of fered bail and has declined to accept it, is it not true that he has been convicted and is now awaiting sentence, and that he was tried for libel

under the laws of Texas, instead of the Mexican law?
Mr. HITT. There is no official information about that. I have received two or three different versions of that matter to-day from different newspapers and from persons pretending to have dispatches. One man, who said that he had come from the highest source of information, told me his assurance was that the Mexican authorities expected to reach an end of the case this very day, and that the man would be set at liberty. I do not know that there is one word of truth in any of these stories which have been in circulation, as we have no official information later than the conclusion of the diplomatic correspondence now on our tables. That correspondence ends with the fact that the chief-justice of Chihuahua had issued a decree to the judge to report in three days and to carry out the law allowing bail; and now we hear that he has refused to give bail, though by it he was at liberty to leave his prison whenever he chose.

Mr. DANIEL. I desire to ask my friend from Illinois from what source he ascertains that bail was offered this gentleman.

Mr. HITT. In a letter signed by the gentleman and which was shown to me a short time ago by one of the friends of this measure.

Mr. DANIEL. Is it in the official correspondence?

Mr. HITT. It is not. I do not know absolutely or officially that

such is the fact. I take my information from the letter which was shown to me by his friend and the El Paso newspapers.

Mr. KING. Will the gentleman from Illinois allow me a moment to reply to the reflections he made a few moments ago upon the Ameri-

can consul?

Mr. HITT. No, I have not time to yield.

The gentleman makes a charge wrongfully and then de-Mr. KING. clines to permit a reply.

Mr. HITT. The gentleman must make his speech in his own time. spoke only of that officer's public actions as reported.

The SPEAKER. The gentleman from Illinois [Mr. HITT] declines

to yield to the gentleman from Louisiana.

Mr. LANHAM. I desire to ask the gentleman from Illinois whether he does not know from the official correspondence furnished to us through the Secretary of State that this gentleman, Mr. Cutting, is now in prison in Mexico in violation of his rights as an American citizen,

and has been for one month? Mr. HITT. I know from the correspondence that he is in prison, and I know that our Government is now doing in this case what it has done in more than fifty cases which have at different times arisen on the Mexican border, in a hundred cases of imprisonment or other wrong which have arisen with the South American and other countriesis intervening to secure his release and redress. There is nothing more common in the business of the Foreign Office of this country than such intervention; and there is every prospect that with cordial desire on the part of both governments, ours earnestly urging and the Mexican government earnestly endeavoring, with all the power with which it is clothed by their constitution, that intervention in this case will be successful. I do not believe that the Democratic Secretary of State is so incompetent that he can not conduct to complete success a negotiation with Mexico in this single case, when he has been successful in many other cases, and he will do it without the direction given in this last resolution. All this is a wholly unnecessary demonstration by the House toward a comparatively feeble neighbor, who is only too eager to avoid trouble with us.

The Secretary of State can attend to this well enough. We fully understand his purpose; we trust his methods of procedure and the principles guiding him. I am perfectly content to let the Department attend to the business for which it is constituted.

The case for the interference of this legislative body in diplomatic questions and negotiations pending is where the Department seems to need backing against a powerful opponent, where there is defiance of our country, where there is evasion of its rightful demands, or where the Executive is uncertain, and there seems to be a necessity for the expression of the voice of the Legislature. But why should we inter-fere here? Why should we break out in reproach and threats against this weaker neighbor, anxious to be at peace with us? Were Mexico a great first-class power like England, that can bring her mailed fleets in a week to bombard the port and burn the city of New York, would there be so much demonstration? I would quickly vote a supporting resolution in a troubling question with England. What is the reason why such swift-footed wrath should be meted out to one of the least

powerful of neighboring foreign powers?

I have enough confidence in the Secretary of State to believe he is competent to manage this diplomatic question like others. mand he made upon Mexico has been answered in a perfectly friendly spirit and all they have done has been the very reverse of hostile. The reiteration, to humiliate Mexico needlessly, would embarrass a friendly government and possibly lead to local disturbance there where governments are not so solidly seated as we could wish. It is our interest and duty as members of a national Legislature, for the sake of our own people and for the sake of all nations, to do what we can to preserve peace. [Applause.] The Secretary of State knows full well without these resolutions that he has the backing of this Congress and of all our country in defending the rights and redressing the wrongs of Americans everywhere. On that we are always united, and there never has been and never will be one uncertain voice in the Congress of the United States on aught that touches the sacred rights of an American citizen. [Applause.]

Here the hammer fell.] Mr. BELMONT. Mr. Speaker, I am somewhat surprised that my colleague on the committee who yesterday joined in the report we have made to the House should to-day change his opinion. And I do not find that the information which he now presents to the House is derived from this record or from the message of the President or the letter of the Secretary of State accompanying it. My friend doubts whether Mexico has refused to accede to the demand of this Government. I can find no better authority than the statement made by the Secretary of State to the President, which forms part of the correspondence laid before the House, accompanying the President's message, and which is printed in full in the RECORD of this morning. I will read it:

will read it:

On July 22, 1886, the telegram of Mr. Jackson, minister at Mexico, dated July 21, 1886, was received here, stating the refusal of the Mexican Government to accede to the telegraphic demand of the undersigned for Cutting's release, the substance of which telegram is appended. On the same day a summary of the reasons for so declining was asked for by telegraph, and on the same night a reply from Mr. Jackson was received, giving a summary of the Mexican reasons. The substance of this telegraphic summary is annexed, and the full text of Mr. Mariscal's refusal is found among the accompaniments to a later dispatch from Mr. Jackson—No. 272, of July 22, 1886.

On July 26, 1886, Consul Brigham telegraphed to this Department that the governor of Chihuahua was pushing the trial of Cutting, who ignored the proceedings; copy of which telegram is appended.

On July 27, 1886, the instruction of the undersigned, numbered 228, was mailed to Mr. Jackson; copy thereof is annexed.

The last communication from Minister Jackson on the subject being his dispatch No. 272, of July 22, 1886, hereinbefore referred to, was received at this Department on the 31st ultimo. It conveys the text of the correspondence had by him with the Mexican secretary for foreign affairs, in which Cutting's release was demanded and refused.

Mr. HITT. In the correspondence you will find it was not refused. Mr. BELMONT. On the contrary it is very clearly shown that it was refused, and so it appeared to my colleague when yesterday he joined with the rest of the committee in its report. In reaching his conclusion yesterday my friend had also before him the statute under which the Government of Mexico claims the right to arrest and punish this American citizen. That statute is laid before us in the correspondence.

This is simply a question of jurisdiction. The gist of the whole matter is, whether we can afford to recognize the contention of Mexico in setting up one of its federal statutes as a ground for claiming jurisdiction over an alleged offense committed by an American citizen within the territory of the United States. My colleague on the committee had before him the statute yesterday and agreed with the committee it was proper that a resolution should be passed declaring that this Government could not assent to such a doctrine. I have failed to discover from any statement he has since made a reason for his change of opinion, unless it be the reports circulated in the newspapers.

Mr. HITT. The gentleman will not misrepresent me.
Mr. BELMONT. I do not desire in the slightest to misrepresent

the gentleman.

Let me say that I did assent to the report, understanding that this law was claimed by the Mexican Government to be its reason and support for refusing the demand of the United States, and that under it they held Mr. Cutting; whereas I read in the correspondence that this law is simply handed by the Mexican minister to us as explaining the action of the court over which they have no control, nor of the state where the court is sitting.

Mr. HISCOCK. Let me ask the gentleman from New York a ques-

Mr. BELMONT. I will answer my colleague as soon as I have an-

swered the gentleman from Illinois on this point. That this article 186 of the Mexican code is clearly in contention appears in the communication of the Secretary of State, which is as follows:

A copy of article 186 of the Mexican code, which was handed to the undersigned by Mr. Romero in support of the claim of Mexico to take cognizance of crimes of which Mexicans were the subject in foreign countries, is herewith appended. This conflict of laws is even more profound than the literal difference of corresponding statutes, for it affects the underlying principles of security to personal liberty and freedom of speech or expression, which are among the main objects sought to be secured by our framework of government. The present case may constitute a precedent fraught with the most serious results.

The House will at once perceive when this statute is read why the question has assumed so great an importance.

Mr. HISCOCK. I would like to ask a question of my colleague.
Mr. BELMONT. I will first ask to have the statute read.

Mr. WARNER, of Ohio. Let me ask if the President has sent to

Congress a message on this subject.

Mr. BELMONT. Yes; and the President has transmitted to the House the whole correspondence which has taken place up to this time. will ask the Clerk to read the passage I have marked.

The Clerk read as follows:

ARTICLE 186 OF THE MEXICAN PENAL CODE.

ARTICLE 186 OF THE MEXICAN PENAL CODE.

Any crimes that may be committed on the territory of a foreign state by a Mexican against Mexicans or against foreigners, or by a foreigner against Mexicans, may be punished in Mexico, in conformity with the laws of the country, under the following provisions:

I. That the accused party should be in Mexico, whether of his own free will or by having been extradited.

II. That a proper complaint should be made by the legitimate party in case the guilty person should be a foreigner.

III. That the accused party should not have been tried in the country where the crime was committed, or, in case he has been tried, that no acquittal, amnesty, or pardon should have been pronounced in the matter.

IV. That the violation of which he may be accused should be considered a crime both in the country where it was committed and in Mexico.

V. That the crime should be liable, in accordance with the laws of Mexico, to a more severe punishment than that of arrest.

Mr. BELMONT. The House will have observed that this distinctly claims an extraterritorial jurisdiction. In other words, that the offense of which Cutting was guilty, an offense committed within the borders of the United States, is according to this law to be punished by Mexico in Mexico.

May I ask how much time I have remaining?

The SPEAKER. The gentleman has consumed and yielded in all seventeen minutes.

Mr. WARNER, of Ohio. I would like to ask the gentleman, if the President has sent a message to the House, that he will have it read in

Mr. LANHAM. The message is exceedingly brief.
Mr. WARNER, of Ohio. I take it that upon a subject of so much Mr. WARNER, of Onio. I take it that upon a subject of so much importance, if the President deems it necessary for Congress to take action, he would send a letter of advice or recommendation.

Mr. GOFF. It is only a letter of transmittal.

The SPEAKER. The message of the President simply transmits the

correspondence.

Mr. WARNER, of Ohio. In response to the House inquiry? The SPEAKER. Yes.

Mr. WARNER, of Ohio. Then, as I understand it, the President has sent no communication asking for action in this matter, nor has

the Secretary of State.

Mr. BELMONT. The correspondence and the letter undoubtedly suggest such action as the committee recommends. It is now within a few minutes of the hour of adjournment under the rule, and I will yield to the gentleman from Illinois, who desires to submit a motion for

Mr. HISCOCK. The gentleman stated that he would allow me to make an inquiry. I desire to know whether the Secretary of State wishes any interference on the part of Congress?

Mr. MORRISON. I move that the House take a recess until 10

All

o'clock to-morrow.

Mr. KING. I object.

The SPEAKER. The gentleman submits a motion.

The question was taken; and on a division there were—ayes 90, noes

Mr. GLOVER. No quorum.
Mr. MORRISON. I demand the yeas and nays.
The yeas and nays were ordered.

The question was taken; and there were-yeas 135, nays 10, not voting 177; as follows:

a quorum should vote on the roll-call.

Mr. WEAVER, of Iowa. I ask unanimous consent to dispense with the reading of the names.

There was no objection.

The following additional pairs were announced:
Mr. Skinner with Mr. West, for the remainder of this session.
Mr. Campbell, of Ohio, with Mr. Spooner, for the rest of this day.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. SYMPSON, one of its clerks, informed the House that the Senate had passed without amendment the bill (H. R. 2060) granting a pension to Margaret D. Marchand.

The message also announced that the Senate had passed with amendments the bill (H. R. 3280) to restrict the ownership of real estate in the Territories to American citizens, requested a conference on the disagreeing votes of the two Houses thereon, and had appointed Mr. PLUMB, Mr. TELLER, and Mr. WALTHALL conferees on the part of the Senate.

ORDER OF BUSINESS.

The SPEAKER. Upon the question just taken the year are 135, the nays are 10. No quorum has voted, and the motion is not agreed to.

And then (at 5 o'clock and 7 minutes p. m.), in accordance with its previous order, the House adjourned.

PETITIONS, ETC.

The following petitions and papers were laid on the Clerk's desk, under the rule, and referred as follows:

By Mr. BYNUM: Petition for a pension to Evadora B. Temple-on—to the Committee on Invalid Pensions.

By Mr. GLASS: Petition of Reuben S. Jones, deceased, of Shelby

County; and of David A. Perrick, of Marshall County, Tennessee, asking that his claim be referred to the Court of Claims-

By Mr. CHARLES O'NEILL: Petition of Mrs. Mattie S. Whitney, widow and administratrix of Franklin S. Whitney-to the same com-

By Mr. WHEELER: Petition of John Wyningear, of Lawrence County, Tennessee, and of Amelia Cohen, administratrix of Philip Cohen, asking that their war claims be referred to Court of Claims-to the same committee.

By Mr. WILLIS: Petition of members of the Liquor Dealers' Association of the District of Columbia, against the passage of Senate bill 1380, commonly known as the high-license bill—to the Committee on the District of Columbia.

By Mr. WILSON: Petition of Moses Bradshaw, with accompanying

papers-to the Committee on Rules.

SENATE.

THURSDAY, August 5, 1886.

The Senate met at 11 o'clock a. m.

Prayer by the Chaplain, Rev. J. G. BUTLER, D. D. The Secretary proceeded to read the Journal of yesterday's proceedings, when, on motion of Mr. EDMUNDS, and by unanimous consent, the further reading was dispensed with.

ORDER OF BUSINESS.

Mr. ALLISON. I move to proceed to the consideration of the resolution fixing an hour for final adjournment.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Iowa.

Mr. CALL. What is the motion?

The PRESIDENT pro tempore. The me sideration of the adjournment resolution. The motion is to proceed to the con-

Mr. CALL. I ask the Senator from Iowa to allow me to present a

The PRESIDENT pro tempore. Petitions and memorials are now in

PETITION.

Mr. CALL. I present the petition of Mr. T. W. Neill, the attorney for various foreign citizens of New York, the New York Central and Hudson River Railroad Company, and various citizens and subjects of foreign governments, praying for a refunding of the tax improperly collected from them under the income-tax law. I ask that the petition be printed in the RECORD, with the accompanying papers, and ordered to lie on the table.

The petition was ordered to lie on the table and to be printed in the RECORD, as follows:

RECORD, as follows:

To the honorable Senate and House of Representatives
of the United States of America in Congress assembled:

Your petitioner respectfully represents that—
Whereas the New York Central and Hudson River Railroad Company has paid to the Government the sum of \$9,275.82 as income tax illegally exacted by the Government from certain dividends due non-resident aliens; and
Whereas the said company, in lieu of withholding this tax from the dividends due said aliens, paid it from other funds belonging to the company to the Government as and for the income tax required from said aliens; and
Whereas, in pursuance of the uniform practice of the Department and under the authority conferred by section 3220 Revised Statutes, the Commissioner of Internal Revenue has examined and allowed this sum as the proper amount now due said company, and the Secretary of the Treasury has asked Congress for an appropriation to pay the same:

Therefore your petitioner prays that the accompanying statement may be made a part of this petition, and that your honorable body will take such action in the premises as may be deemed proper, to the end that the Secretary of the Treasury may refund this money due on this adjudicated claim to this company without further delay.

And your petitioner shall ever pray.

T. W. NELLL,

T. W. NEILL, Attorney for the New York Central and Hudson River Railroad Company, WASHINGTON, D. C., August 4, 1886.

STATEMENT.

The following is a brief statement of the law and the facts in the matter of the claim of the Pennsylvania Railroad Company, now pending before the Appropriations Committee of the Senate, and this statement is substantially applicable to the other claims pending there, to wit: claims of the New York Central Railroad Company, and of the Pittsburgh, Fort Wayne and Chicago Railway Company, Nos. 46950, 47381, 47413, 48191, 48281, and 48242, on Executive Documents No. 70 and No. 225, first session Forty-unith Congress.

First, From September 1, 1862, to March 10, 1896, the time covered by the claims, this company was indebted for money, for which it has issued its interest-bearing bonds, payable in one or more years from their date.

Second. Some of these bonds were owned and held by non-resident aliens. Third. Under the provisions of section 81 of the act of July 1, 1862 (12 Stat., 46), and of section 122 of the act of June 30, 1864 (13 Stat., 284), the corporation with-held a portion (3 or 5 per cent., as the case might be) from the interest due and payable on these bonds, including those owned by non-resident aliens, and paid it over to the Government as and for internal-revenue income taxes on such interest.

Fourth. It was decided by the United States Supreme Court in the case of

terest.

Fourth. It was decided by the United States Supreme Court in the case of Railroad Company ts. Jackson (7 Wall., 262), that inasmuch as the income tax was by the very words of the statute imposed only on the income of residents of the United States and of citizens of the United States residing abroad, the incomes of aliens residing abroad were not taxable; the express mention of

residents and citizens excluding aliens residing abroad; that the fac on the interest on rulered bonds until the set of 'I run's 20,185, was imposed upon it not as a tax on the profils of the corporation, but as a tax on that portion of the income of the bondholders, and that therefore the corporation could not legally be required to withhold and pay an internal-revenue tax on the interest paid upon such of its bonds as were owned by non-resident aliens.

I result the set of the profils of the corporation, but as a tax on that portion of the under the corporation of the profile of the

Attorney for Claimants.

WASHINGTON, August 4, 1886.

ORDER OF BUSINESS.

Now I move to proceed to the consideration of the adjournment resolution.

Mr. CONGER. I ask the Senator to withhold that for a moment. The PRESIDENT pro tempore. Petitions and memorials are now in order. Until they are disposed of the motion of the Senator from Iowa will not be in order, except by unanimous consent.

Mr. EDMUNDS. I move that the Senate proceed to the considera-

tion of executive business.

The PRESIDENT pro tempore. That motion is in order.

Mr. HAWLEY. I should like to make a report from a committee. Mr. ALLISON. I hope before we proceed to the consideration of executive business that the Senate will pass the adjournment resolu-

Mr. HAWLEY. It will take but a moment or two; there is very little morning business.

Mr. ALLISON. It is important that this resolution should be passed and go to the House of Representatives.

Mr. CONGER. Mr. President-

The PRESIDENT pro tempore. Does the Senator from Michigan rise to morning business

Mr. CONGER. I desire to have a bill on the Calendar fixed for con-

sideration-

The PRESIDENT pro tempore. It is not in order to proceed to the consideration of a bill on the Calendar until the morning business is

Mr. CONGER. This is morning business as much as anything else. It is merely to assign the third Wednesday of next December for the

hearing of the Atlantic and Pacific Ship-railway bill.

The PRESIDENT pro tempore. The Chair is not at liberty to re-The PRESIDENT pro tempore. The Chair is not at liberty to receive any motion until the morning business is called for and concluded. If there be no further petitions or memorials, reports of committees are next in order.

REPORTS OF COMMITTEES.

Mr. HAWLEY. I report from the Committee on Civil Service and Retrenchment without recommendation a bill which has been pending for several months, upon which I have been unable to get a decision of the committee

The PRESIDENT pro tempore. The Senator from Connecticut, from the Committee on Civil Service and Retrenchment, reports without rec-

ommendation a bill the title of which will be stated.

The CHIEF CLERK. A bill (S. 120) to revise section 1754 of the Revised Statutes, relative to the employment of persons discharged from the military or naval service.

The PRESIDENT pro tempore. The bill will be placed on the Cal-

ADJOURNMENT SINE DIE.

The PRESIDENT pro tempore. The introduction of bills and joint resolutions is now in order. [A pause.] If there are none such, the introduction of concurrent or other resolutions is now in order. [A pause.] If there are none such, the Calendar is now in order under the eighth rule.

Mr. ALLISON. I move to proceed to the consideration of the ad-

journment resolution.

The PRESIDENT pro tempore. The Senator from Iowa moves that the Senate proceed to the consideration of the adjournment resolution, which will be read.

Mr. CONGER. I had the floor for a motion.
Mr. ALLISON. I have had the floor about four times, Mr. Presi-

The PRESIDENT pro tempore. The Senator from Iowa was the first to address the Chair, long before the Senator from Michigan did.

Mr. CONGER. I addressed the Chair yesterday. I do not know when the Senator from Iowa did.

The PRESIDENT pro tempore. The Senator from Iowa moves that the Senate proceed to the consideration of the resolution in relation to The Senator from Iowa moves that final adjournment, which will be reported.

The Chief Clerk read the resolution and the amendment proposed.

The motion was agreed to.

The PRESIDENT pro tempore. The resolution is before the Senate.

Mr. ALLISON. I move to insert "4 o'clock p. m., August 5," in lieu of the time fixed by the House of Representatives.

The PRESIDENT pro tempore. The question is on agreeing to the amendment of the Senator from Iowa.

Mr. CONGER. Perhaps I did not give information enough yesterday in regard to this matter. It may need some discussion. There is no quorum here now. The particular object in pressing this resolution just now I can not see.

The PRESIDENT pro tempore. Does the Senator from Michigan raise the question of a quorum?

Mr. CONGER. No, sir; I raise the question of the right to discuss

the matter

The PRESIDENT pro tempore. There is no question about that. The Senator has a right to discuss it.

Mr. CONGER. The object in having this resolution go over yester-day was that we might have an opportunity to learn something in regard to the river and harbor bill and allow time for an examination of it by the President. Up to this time, and until Senators return here, we are not advised of some things we wished to learn; and I hope the Senator from Iowa will defer the resolution until a later hour in the day.
Mr. INGALLS. Will the Senator from Michigan permit me to ask

him a question? Mr. CONGER. Yes, sir.

Mr. INGALLS. What length of time does he and those who are specially interested in the river and harbor bill desire to intervene between this and the adjournment for the purpose of enabling the Executive to act on that measure?

Mr. CONGER. It may need but half an hour and it may need an

hour.

Mr. INGALLS. Does the Senator oppose acting on the adjournment resolution to-day?

Mr. CONGER. I presume not. I have no reason to suppose that I shall ask more than an hour or something like that to ascertain some things which the friends of that measure wish to know. Whenever the time comes that inquiries and views in regard to that matter are satisfied we shall have no desire to prolong this session. I might say the manner in which I have been treated here rather makes me want to close the session and part before we become inalienably separated.

Would the Senator permit me to ask him further, Mr. INGALLS.

Mr. CONGER. Go on. There is nothing in the Senate that I enjoy more that the interrogatories of the Senator who is now addressing me.

Mr. INGALLS. And there is no Senator from whom I receive more valuable information and with whose suggestions I am more gratified than the Senator from Michigan.

Mr. GIBSON. We can not hear. • Mr. COCKRELL. We should like on this side to hear those compliments.

Mr. INGALLS. In case word should not be received as to the probable action upon the river and harbor bill to-day, would the Senator from Michigan desire the Senate to continue in session to-morrow?

Mr. CONGER. The question implies some knowledge or some expectation in regard to a matter which I certainly have no right to say I expect to receive, and which I do not expect to receive. I am not one of those who assume that they will be informed on matters which are in the breast of the President.

Mr. INGALLS. But in case the Senator should not be informed of

Mr. CONGER. In case the Senator should not be informed, or other Senators, I am merely asking a continuance until those who perhaps think they can ascertain something about the probabilities have an op-

think they can ascertain something about the probabilities have an opportunity of being informed. I am as little definite in my knowledge as I am in my expressions, and I am as indefinite in my replies to the Senator as he is in his inquiries to me. The inquiries and answers keep along pari passu, and I think both are in considerable ignorance.

Mr. INGALLS. Mr. President, it appears to me that we are being trifled with. I respectfully submit it is not appropriate, after the business of both Houses of Congress has been concluded and we are ready to depart, that we should be kept here doing nothing upon the expectation or hope or surmise or conjecture that at some time in the future we may be advised what action will be taken by the Executive upon a bill which, having received the sanction of both Houses, has gone to him for his approval.

him for his approval.

While I admit the great importance of the river and harbor bill and voted for it and shall be very glad to have it approved, every other legislative act but that having been accomplished and that bill having been in the custody of the Executive since yesterday noon, I respectfully submit that it is trifling with the public interests to allow this resolution to remain unacted upon and to compel both Houses to continue here in session doing nothing, without any information as to what is to be done, in order to give time for further consideration of that measure by the Executive.

Mr. CONGER. In my opinion the Senator estimates more highly

than I do the privilege of inserting his very interesting remarks in the

framework of my speech.

Mr. INGALLS. I beg the Senator's pardon; I thought he had concluded.

Mr. CONGER. I can not conceive, as he seems to do, that it would make his speech more interesting to make it part of mine and to reprove me perhaps for trifling, while he is indebted to my courtesy for the floor.

Mr. INGALLS. Will the Senator permit me one moment?

Mr. CONGER. Yes, sir.
Mr. INGALLS. I understood the Senator had concluded, and I addressed the Chair and was recognized by the Chair as being entitled to the floor. I trust the Senator will not criticise me for any violation of

the rules of this body or of courtesy to him of which I was not guilty.

Mr. CONGER. The Senator asked permission to put to me a question and then to ask me another question, and with my usual amiability, known and read of all men, I yielded to him and yielded to lengthy remarks on the subject, but not for any particular criticism on my own conduct.

I do not consider it trifling, Mr. President, to call the attention of Senators in a proper way to avoid coming to a conclusion in regard to adjournment before what seems to me sufficient time has elapsed for

the consideration of subjects by any branch of the Government.

At 5 o'clock yesterday the House of Representatives adjourned.

They have just met. There has been no possibility for the President to have communicated either to the other House or to the Senate until this time, and no opportunity to know what the executive action may have been or will be. There is no trifling in regard to it. There is no quorum of the Senate present. There is no need of taking up the resolution until the Senate is prepared to act upon it. After what has been said by myself and joined in by other Senators here, I do not like to be forced to take the position I do subject to the criticism of any man who says the attempt to have longer time than this is trifling; but I take it just as freely.

Now, Mr. President, pending this resolution I move that it be in-

formally laid aside, and I will ask the Senator from Iowa, who I know desires to accommodate me, to lay it aside until I call up and ask for the fixing of a day for the consideration of the Atlantic and Pacific

Ship-railway bill at the next session.

Mr. EDMUNDS. I must object.

The PRESIDENT pro tempore. The Senator from Michigan moves that the pending business be postponed, with a view to take up another proposition named by him.

Mr. CALL. I understand the motion to be to informally lay aside

the adjournment resolution.

Mr. EDMUNDS. No such motion can be made.
Mr. CONGER. I ask it for the purpose of moving to fix a day in the next term, the third Wednesday of December, when the Senate will consider the Tehuantepec Ship-railway bill.

Mr. CALL. Mr. President, I merely wish to say that it seems very clear to me that under the Constitution the President of the United States has a right to a reasonable time to consider any bill which may be presented to him for his approval. The Constitution says in express terms that every bill shall be sent to him, and if he approve it he shall sign it. It certainly implies a reasonable time, and I scarcely think that twenty-four hours for the examination of the river and harbor bill can be considered reasonable time.

I think the President might be allowed some little longer time; and inasmuch as it is a bill of very great importance, it occurs to me that the resolution had better be laid aside informally until we know some-

thing further in regard to the probable fate of that bill.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Michigan to lay aside the pending resolution.

Mr. ALLISON. I hope that will not be done. It is important that we should send the resolution early to the other House.

Mr. EDMUNDS. It is not in order to move to lay aside the pending

The PRESIDENT pro tempore. The Chair understands the motion

to be to postpone.

Mr. EDMUNDS. To postpone to when?

Mr. CONGER. To lay it aside informally.

Mr. EDMUNDS. That is not in order.

The PRESIDENT pro tempore. There is no such motion provided for by the rules.

Mr. CONGER. A postponement will answer.

The PRESIDENT pro tempore. It may be postponed indefinitely or postponed to a day certain.

Mr. CONGER. Postpone it for the time being.

Mr. EDMUNDS. That motion is not in order. You may postpone

t until a definite time.

The PRESIDENT pro tempore. It is in order to move to postpone to a time certain or to postpone indefinitely. Either would be in order. To postpone without a time named would not be in order. To postpone it for an hour would be in order.

Mr. CONGER. Then I move to postpone it for an hour.
The PRESIDENT pro tempore. The Senator from Michigan moves

that the resolution be postponed for one hour.

Mr. ALLISON. I hope that will not be done. We ought to fix now the time for final adjournment. I think we can fix it at 4 o'clock; and we can then send the resolution back to the other House in order that they may concur.

Mr. GIBSON. I suggest to the Senator from Iowa to fix it at 6 o'clock. That will give time enough.

Mr. McMILLAN. I think the Senator from Iowa had better permit his resolution to be laid aside informally for an hour or so. The President perhaps may communicate to the Houses some other legislative business that is pending before him. I do not understand that he has had an opportunity of communicating with Congress at all this morning.

Mr. ALLISON. He can have that opportunity between this time

and 4 o'clock.

Mr. INGALLS. He has had the opportunity that every other President has had and of which every other President has availed himself, of coming down to the Capitol in the closing days of Congress and communicating with them. There is a room provided for that purpose, and this is the first instance I know of in executive history that Congress has been permitted to adjourn without the Executive coming down here and availing himself of the usual custom to ascertain the wishes of Congre

Mr. GIBSON. I think the Senator from Kansas is not justified in that remark, because the President has not been notified that Congress is ready to adjourn, when I have no doubt he will avail himself of the

Mr. McMILLAN. Both Houses of Congress meet by standing rule at 11 o'clock in the morning. It is now but twenty minutes after 11 o'clock. It is not reasonable to expect that the President should be so much on the alert as to be present at the opening of each House of Congress. We should at least give a reasonable time to receive a message this morning before acting on the adjournment resolution. It may permit us to adjourn several hours earlier by delaying action on the resolution for a time. If all the business is disposed of within an hour or so, we can adjourn then by 2 o'clock. Otherwise perhaps we should not be ready to adjourn until a much later hour in the evening than has

I hope the Senator from Iowa will permit his resolution to lie over

informally, and we can act upon it in an hour.

Mr. ALLISON. I will test the sense of the Senate upon it.

The PRESIDENT pro tempore. The question is on postponing the consideration of the resolution for one hour. [Putting the question.]

The noes appear to have it.

Mr. McMILLAN. I ask for the yeas and nays.

Mr. COCKRELL. Pending that, I move that the Senate proceed to

the consideration of executive business.

Mr. ALLISON. Let us finish this adjournment question.

Mr. McMILLAN. We shall have the yeas and nays on that motion, I think.

The PRESIDENT pro tempore. The Senator from Missouri moves that the Senate proceed to the consideration of executive business.

Mr. CONGER. I had requested the postponement of the adjournment resolution from information received. I presume in the course of an hour, or perhaps half an hour, we shall be able to go on with the question of that resolution—

The PRESIDENT pro tempore. The pending motion is not debatable.

Mr. CONGER. Without any confusion and without any conflict—

The PRESIDENT pro tempore. The pending motion is not debatable. The Senator from Missouri moves that the Senate proceed to the consideration of executive business.

The motion was agreed to; and the Senate proceeded to the consideration of executive business. After twenty-three minutes spent in executive session the doors were reopened.

PRESIDENTIAL APPROVALS.

A message from the President of the United States, by Mr. O. L. PRUDEN, one of his secretaries, announced that the President had on the 4th instant approved and signed the following acts:

An act (S. 68) for the relief of S. B. Cranston, of Oregon;
An act (S. 218) to confirm the title to certain lands in Platte County,
Missouri, and authorize patents to be issued therefor to Kinsey B.

Cecil;

An act (S. 380) for the relief of Mrs. Henrietta H. Cole;

An act (8. 708) for the relief of Stephen N. Smith; An act (8. 632) to provide for the settlement of the estates of deceased Kickapoo Indians in the State of Kansas, and for other pur-

. An act (S. 699) to authorize the Secretary of the Interior to issue to George K. Otis duplicates of certain land-warrants lost while in the ession of the officers of the Government;

possession of the officers of the Government;
An act (S. 1184) granting a pension to Jane D. Mumford;
An act (S. 1398) granting a pension to Milton P. Shockley;
An act (S. 2056) to amend the pension laws by increasing the pensions of soldiers and sailors who have lost an arm or leg in the service;
An act (S. 2325) to grant a pension to Nancy Mason;
An act (S. 2502) granting a pension to Louise Paul;
An act (S. 2366) granting a pension to Elizabeth Garaghty;
An act (S. 2438) to authorize the Postmaster-General to allow com-

pensation to railroad companies in certain cases for apartment service heretofore furnished pursuant to agreement;
An act (S. 2530) for the relief of the legal representatives of John

Wightman, deceased;
An act (S. 2609) granting a pension to Emily J. Stannard; and
An act (S. 885) to relieve the State of Colorado from charges on account of ordnance stores furnished to the State and Territory.

ENROLLED BILLS SIGNED.

A message from the House of Representatives, by Mr. Clark, its Clerk, announced that the Speaker of the House had signed the following enrolled bills and joint resolution; and they were thereupon

lowing enrolled bills and joint resolution; and they were increasing signed by the President pro tempore:

A bill (S. 1599) for the relief the Phoenix National Bank, of the city of New York;

A bill (H. R. 2060) granting a pension to Margaret D. Marchand;

A bill (H. R. 5196) to detach certain counties from the United States judicial district of California, and create the United States judicial district of California, and create the United States judicial district of Scather California, and trict of Southern California; and
Joint resolution (H. Res. 126) directing payment of the surplus in

the Treasury on the public debt.

ADJOURNMENT SINE DIE.

On motion of Mr. ALLISON, the Senate proceeded to consider the resolution of the House of Representatives fixing a day for final adjournment, the pending question being on the amendment of Mr. AL-LISON to insert ''4 o'clock p. m., August 5."

The amendment was agreed to.

The resolution as amended was agreed to.

NOTIFICATION TO PRESIDENT.

Mr. EDMUNDS. Mr. President, I offer the following resolution and ask for its present consideration:

Resolved, That a committee of two Senators be appointed by the Chair to join a similar committee appointed by the House of Representatives to wait upon the President of the United States and inform him that the two Houses, having completed the business of the present session, are ready to adjourn, unless the President has some further communication to make to them.

The resolution was considered by unanimous consent and agreed to. By unanimous consent, the President pro tempore was authorized to appoint the committee on the part of the Senate; and Mr. EDMUNDS and Mr. HARRIS were appointed.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (S. 335) to provide for protecting the interests of the United States in the Potomac River flats, in the District of Columbia.

SETH M. BARTON.

Mr. COKE. I ask unanimous consent of the Senate to take up House bill No. 8278, being an act to relieve Seth M. Barton of political disabilities.

By unanimous consent the Senate; as in Committee of the Whole, proceeded to consider the bill (H. R. 8278) for the relief of Seth M. Barton.

The bill was reported to the Senate without amendment, ordered to a third reading, read the third time, and passed (two-thirds of the Senators present voting in the affirmative).

PUBLIC LAND LAWS.

Mr. PLUMB. I ask unanimous consent to make a statement to the Senate in regard to a matter submitted to a committee of conference between the two Houses.

Mr. President, the conferees of the Senate and House of Represent-atives upon the disagreeing votes of the two Houses on what is known as the bill for the repeal of the pre-emption and timber-culture acts held a meeting, which resulted in a formal disagreement, that was reported to the two Houses, and followed by the appointment by each of new committees of conference. The new committees have had several meetings for the purpose of adjusting the differences between the two Houses in regard to that bill. The differences were mainly the fact that the Senate had inserted a provision in the bill which it passed confirming titles which had passed from the hands of the original entryman into those of innocent purchasers for value where the fact of the innocent purchase and the valuable consideration had been found in favor of the purchaser by the Commissioner of the General Land Office, and also a provision requiring the Commissioner of the General Land Office to send to the Attorney-General such cases of fraud in the entry of public lands as he might have discovered, and the Attorney-General was instructed thereupon to bring suit to set aside such fraudulent

At the meeting preceding the last one held by the conferees the Senate conferees agreed to yield absolutely the provision protecting entries in the hands of innocent purchasers for value. Before that time they had agreed to yield so far as to confirm only such entries as were in the hands of persons who held 640 acres of land or less, and subsequently tendered a reduction of that amount to 320 acres, so as to cut out all possible chance of entries being confirmed in the hands of persons who had employed others to make entries for them, such as cattle syndicates and so on. That being rejected, they finally and at the last conference agreed to yield the whole provision, and only ask the House to agree that where fraud was alleged as having entered into an entry of public lands that question might be sent to the courts for trial like any other issue involving property or other interests. That the House conferees declined to accede to.

They finally also declined to sign a report setting forth the points of disagreement, so that it was out of the power of the Senate conferees to report in the usual formal way to the Senate what had occurred, and hence it seemed proper this statement should be made in justification of the Senate conferees on this very important subject and for the purpose of showing that they at least were not responsible for the failure of a bill repealing the pre-emption and timber-culture laws being passed at this session of Congress.

Upon this latter provision I desire to say a very few words. As mat-ters now stand the Commissioner of the General Land Office believes it to be in his power, and he acts upon that belief, to set aside an entry that has been made under any of the land laws which he believes to have been fraudulently made and with or without a hearing, as he may choose. Even if he investigates, that investigation must necessarily be ex parte. He has no power and the power nowhere exists to compel the attendance of witnesses for the purpose of trying the issue which is presented in regard to the fraudulent character of an entry of public land. The investigation, therefore, whatever he may desire about it, is necessarily ex parte, and it can not be otherwise.

The class of people who have entered the public lands are generally very poor people. They are without means to defend themselves against the assaults of the Government. They can not compel by any process of law the attendance of witnesses before special agents nor before the registers and receivers, and, by reason of their poverty and of this lack of legal machinery, against any attack which may be made upon their entries they have practically no power to defend themselves.

It is the law of all the States and Territories in which public lands

exist that the moment the receiver's final receipt is issued the land becomes subject to taxation and is placed on the tax-roll. thereafter imposed on the land as upon other property, and becomes a lien upon it, to satisfy which the lands may be, as they often are, sold. They are bought and sold in the ordinary course of dealing as other property; and as lands in all new communities constitute nearly the whole available property, they frequently change hands. They are bought on the faith of the final receipt issued by the proper land officer, strengthened by the fact of their being taxed, and that the final receipt is made evidence of title in all the courts. Persons who come into the neighborhood seeking homes, preferring often to buy rather than to locate themselves farther away upon Government lands, buy from these entrymen after their entries are completed. The entryman then betakes himself to some other locality either for the purpose of getting another quarter-section of land or of seeking employment. His interest in the validity of his entry is gone. He will not volunteer to furnish testimony, and he can not, as the law now stands, be required to furnish it, and so the purchaser has no chance to legally defend himself against the charge that the entry under which he claims is fraudulent. In many cases entries which are now being attacked have been made not only for a number of years, but they have passed through a great many hands. Some of the entries recently suspended in the General Land Office were made as long ago as seven or eight years, and special agents of the Land Office are now at work in some of the old-settled counties of Kansas seeking at this late day, as much as ten years after the entries were made, some occasion to cast doubt on titles outstanding this length of time by preferring allegations that the original entries were fraudulent. The lands are not only in the hands of innocent parties, but are mainly occupied and improved. The titles have been unquestioned until now during all the time which has elapsed since the entry.

This proposition to go back and disturb these entries created great consternation and just indignation, and the Senate conferees felt as though questions of this kind, involving the title to valuable property, ought to be tried as all other questions are tried which relate to the property or other rights of individuals; and, therefore, they felt like insisting somewhat strenuously upon the provision contained in the Senate bill that all such cases should be sent to the courts to be there tried before a tribunal having power to compel the attendance of witnesses, and in order that the rights of the Government and of the entryman and of those who purchased from him might be adjudicated according to the usual and ordinary legal methods.

It was the failure of the House conferees to agree to the insertion of this very just, very humane, and very necessary provision of law that has caused the failure of the bill. As I before said, the Senate conferees were unable to present this to the Senate in the usual way, because the House conferees declined to sign a report setting forth the disagreement, and it was thought that some statement showing the position which the Senate conferees had occupied in this matter, and setting forth the reasons for a failure to agree, was due both to them, to the Senate, and to the

EXPENSES OF LABOR BUREAU.

Mr. ALLISON. I move that the Senate proceed to consider the House joint resolution in relation to certain expenses incurred by special agents and experts of the Bureau of Labor.

The motion was agreed to; and the joint resolution (H. Res. 213) authorizing the Secretary of the Treasury to pay certain expenses incurred by special agents and experts of the Bureau of Labor during the month of July, 1886, was considered as in Committee of the Whole.

Mr. RIDDLEBERGER. Is that subject to objection?

Mr. ALLISON. I understand not. It came from the other House two or three days ago, and was read twice and laid on the table. I now call it up regularly

Mr. RIDDLEBERGER. I ask whether that is not subject to objection. If so, I object.
The PRESIDING OFFICER (Mr. HAWLEY in the chair).

The Chair does not understand that the resolution is subject to objection.

Mr. RIDDLEBERGER. That is what I wanted to ascertain.

is subject to objection, I object.

Mr. ALLISON. I called attention to this resolution a few days ago; and it has been considered informally by the Committee on Appropria-

tions, though the resolution has not been referred formally.

The PRESIDING OFFICER. The joint resolution has been on the Calendar, and is now called up and is before the Senate as in Committee of the Whole.

Mr. RIDDLEBERGER. It is not before the Senate in regular order. The PRESIDING OFFICER. It is before the Senate in regular

order, in the judgment of the Chair.

Mr. RIDDLEBERGER. I have a right to present the fact that it is

not before the Senate except as it proceeds from a committee to which

it was never referred.

The PRESIDING OFFICER. The Committee on Appropriations is supposed to have the rights of other committees, and to be at liberty to report an original joint resolution.

Mr. RIDDLEBERGER. I understand-

The PRESIDING OFFICER. The Chair is speaking now. The chairman of the committee has stated the action of that committee in a matter particularly within the jurisdiction of Congress, and the resolution has been on the Calendar since yesterday morning. It is now regularly before the Senate, as in Committee of the Whole, and open to

Mr. RIDDLEBERGER. I do not deny the right of the Chair to speak, and I ask pardon of the Chair; but I say this was not regularly referred to the Committee on Appropriations, and I mean to say until the end of this session of Congress it never was referred.

The PRESIDING OFFICER. The chairman of the Committee on Appropriations has informed the Senate of the condition of the resolu-

Mr. RIDDLEBERGER. I say it was never referred.

The PRESIDING OFFICER. The Chair asks the Senator from Iowa to make a statement to the Senate.

Mr. ALLISON. This resolution was informally considered by the Committee on Appropriations. It was read twice a day or two ago and placed on the Calendar, from which it has now been taken on my motion for consideration.

The PRESIDING OFFICER. It is before the Senate as in Committee of the Whole.

The joint resolution was reported to the Senate without amendment, ordered to a third reading, read the third time, and passed.

WOMAN'S SUFFRAGE.

Mr. BLAIR. I merely wish to give a notice.
Mr. HARRIS. Will the Senator yield to me a moment?
Mr. BLAIR. I only desire to give a notice. I will not take any time. I wish to call the attention of the Senate to Senate joint resolution No. 5, No. 122 on the Calendar, being a joint resolution proposing an amendment to the Constitution of the United States extending the right of suffrage to women.

That is a resolution which has been reported at several Congresses, but there has never been any action upon it. I now desire to give notice that at the opening of the next session, the first day of the session, at 2 o'clock in the afternoon, I will move that the Senate proceed to its consideration, or at such hour as the indispensable morning business, the message, or whatever it may be, shall allow; but I fix the hour at 2 o'clock in the afternoon.

THANKS TO PRESIDENT PRO TEMPORE.

Mr. HARRIS. I offer at this time a resolution, and I ask its present consideration.

The PRESIDING OFFICER (Mr. HAWLEY in the chair). The resolution will be read.

The Chief Clerk read as follows:

Resolved, That the thanks of the Senate are due, and hereby are tendered, to Hon. JOHN SHERMAN, a Senator from the State of Ohio, for the ability, courtesy, and impartiality with which he has fulfilled his duties as President pro tempore of the Senate during the present session.

Mr. RIDDLEBERGER. On the consideration of that I ask for a quorum.

The PRESIDING OFFICER. The Chair will take the proper steps. Mr. EDMUNDS. I think the rule requires that the Chair should have the roll called when that question is raised.

The PKESIDING OFFICER. The Chair thinks there is a quorum

present, but the Chair will direct the roll to be called if that is insisted upon.

I think the rule requires that.

The PRESIDING OFFICER. It has been the practice for the occupant of the chair to satisfy himself from count or otherwise that there is a quorum in the Chamber, but the strict rule requires that the roll be called if that is insisted on.

Mr. HARRIS. The strict rule does not require the roll to be called.

If the Chair is satisfied from his own view of the Senate that there is a quorum, it is not necessary for the roll to be called.

The PRESIDING OFFICER. The Chair thinks there is no doubt

that a quorum is in the Chamber.

Mr. HARRIS. I ask for the question on the resolution.

The PRESIDING OFFICER. The Senate has heard the resolution offered by the Senator from Tennessee. The question is on the resolu-

The question being put, it was declared that the resolution was agreed to unanimously.

Mr. RIDDLEBERGER. I ask if there is a quorum.

The PRESIDING OFFICER. The Chair has decided that there is a quorum in the Chamber.

Mr. RIDDLEBERGER. I know the Chair has so decided, but I ask for a quorum.

The PRESIDING OFFICER. The Chair has often heard the ques-

tion of a quorum, when raised incidentally, treated as the Chair has treated it, by satisfying himself from personal observation, or a count by the assistance of the Secretary or otherwise, that a quorum was in the Chamber, and his statement has been as a matter of practical business accepted. But the Senator from Vermont calls the attention of the present occupant of the chair to a rule which says:

If, at any time during the daily sessions of the Senate, a question shall be raised by any Senator as to the presence of a quorum, the presiding officer shall forthwith direct the Secretary to call the roll and shall announce the result, and these proceedings shall be without debate.

The Chair therefore says to the Senator from Virginia that if he desires the roll to be called the Chair will order it to be done.

Mr. RIDDLEBERGER. I will not insist on that, but I mean to call

for a quorum, because I do not think that resolution ought to pass.

Mr. HARRISON. It has passed.
Mr. RIDDLEBERGER. Without a quorum it can not pass, even with the assent of the Senator from Indiana.

Mr. HARRISON. It has passed all the same.

RECESS.

Mr. EDMUNDS. Pending the question of a quorum, I move that the Senate take a recess for one hour.

The PRESIDING OFFICER. The Senator from Vermont moves

that the Senate take a recess of one hour. Would it not be better to say till 1 o'clock?

Mr. EDMUNDS. Very well, sir. Mr. RIDDLEBERGER. I understand that the resolution recently submitted, of approval of the Senator who now presides, has not passed.

The PRESIDING OFFICER. The Chair thinks the resolution has passed unanimously, and he so declared at the proper time.

Mr. RIDDLEBERGER. I understood the Chair to read a rule just

now which said it had not passed. I ask pardon, sir.

The PRESIDING OFFICER. The Chair did not read any rule to that effect; but the Chair did say that the Senator from Virginia had a right to call for a quorum, and the Chair said he would order a call of the roll if the Senator desired it.

Mr. RIDDLEBERGER. I ask for a quorum.

Mr. EDMUNDS. Pending that, I move that the Senate take a recess until 1 o'clock.

The motion was agreed to; and (at 12 o'clock and 8 minutes p. m.) the Senate took a recess until 1 o'clock, at which time the Senate re-

ATLANTIC AND PACIFIC SHIP-RAILWAY.

Mr. CONGER. Is there any matter now pending before the Senate? The PRESIDING OFFICER. There is no business before the Senate.

Senate.

Mr. CONGER. I renew the request I made before the recess. I ask unanimous consent that the bill (S. 2288) to incorporate the Atlantic and Pacific Ship-railway Company, and for other purposes, may be made the special order for the third Wednesday of December next.

Mr. EDMUNDS. I can not give unanimous consent.

The PRESIDING OFFICER. The clerks have difficulty in hearing Senators. Will the Senator from Michigan repeat his request?

Mr. CONGER. I sak unanimous consent that the bill (S. 2288) to

ing Senators. Will the Senator from Michigan repeat his request?

Mr. CONGER. I ask unanimous consent that the bill (S. 2288) to incorporate the Atlantic and Pacific Ship-railway Company, and for other purposes, be made the special order for the third Wednesday of

Mr. EDMUNDS. I object to that, Mr. President, and suggest to my

friend from Michigan-

Mr. GIBSON. I hope unanimous consent will be given.
Mr. EDMUNDS. I object always to all special orders.
Mr. GIBSON. A great many have been made.
Mr. EDMUNDS. Yes; and I suggest to my friend from Michigan that he will attain his object by giving notice that he will move to take up the bill on that day.

Mr. CONGER. At a time when I could have taken the bill up and

when I could have got the judgment of the Senate upon it, notwith-standing the objection of the Senator from Vermont, I was so occupied that I could not do what I intended to do.

Mr. COCKRELL. I should like to ask the Senator why he wants a special order. It does not benefit the measure in any way. It can not possibly be of any benefit that I can see. A majority vote can pass it

by. It does not necessarily come up after being made a community of the measure to endeavor Mr. CONGER. I promised the friends of the measure to endeavor the conference of th to get a hearing for it at that time, so that those interested might be present and see their friends. I have failed in that duty. Gentlemen who know me know that, not having had the opportunity when I might have been here and might have secured it, I make reasonable efforts to do what I promised to do. I had lioped at least that the Senator from Vermont would not himself object. It involves somewhat my fidelity to my trust.

Mr. EDMUNDS. Idonotthink it does. I object on public grounds. Mr. EDMUNDS. Idonot think it does. I object on public grounds. The PRESIDING OFFICER. The Senator from Michigan asks the unanimous consent of the Senate that the Tehuantepec Ship-railway bill be made the special order for the third Wednesday in December, and the Senator from Vermont objects.

Mr. CONGER. The proposition was announced from the Chair, but the Chair has not asked that that request be granted. The PRESIDENT pro tempore. The Chair announced that objection

was made, and therefore it could only be done by unanimous consent.

Mr. CONGER. Before I leave the subject I give notice that at an

early day next session I shall ask the Senate to proceed to the consideration of the bill.

Mr. EDMUNDS. That is right.
The PRESIDENT pro tempore. That is quite in order.

MESSAGE FROM THE HOUSE

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had concurred in the resolution of the Senate providing for the appointment of a committee of two Senators to join a similar committee appointed by the House of Representatives to wait upon the President of the United States and inform him that the two Houses, having completed the business of the present session, are ready to adjourn, unless the President has some further communication to make to them, and had appointed Mr. MORRISON, Mr. RANDALL, and Mr. HISCOCK the committee on the part of the House.

The message also announced that the House had concurred in the following concurrent resolutions of the Senate:

A resolution providing for the printing of the compilation of the laws of the United States relating to loans and the currency, coinage, and banking, including any subsequent legislation which may be en-

acted on those subjects at the present session of Congress;

A resolution providing for the printing and binding of 5,000 additional copies of the report of the Bureau of Education on art and in-

A resolution providing for the printing of 6,000 additional copies of the Digest of the Official Opinions of the Attorneys-General of the United

A resolution providing for the printing and binding in cloth of 2,500 additional copies of the report of the electrical conference at Philadelphia in 1884, being Senate Executive Document No. 45, Forty-ninth Congress, first session, for the use of the Department of State.

ENROLLED BILLS SIGNED.

The message further announced that the Speaker of the House had signed the following enrolled bills and joint resolution; and they were thereupon signed by the President pro tempore:

A bill (S. 335) to provide for protecting the interests of the United

States in the Potomac River flats, in the District of Columbia; A bill (H. R. 8278) for the relief of Seth M. Barton; and

Joint resolution (H. Res. 213) authorizing the Secretary of the Treasury to pay certain expenses incurred by special agents and experts of the Bureau of Labor during the month of July, 1886.

RAILROAD ATTORNEYS

Mr. HAWLEY. I hope the Senate will indulge me for a moment. Senators will remember a bill introduced by the Senator from Kentucky [Mr. Beck] on the 1st of June and nine days afterward considered and passed without reference to a committee, relating to a prohibition against members of Congress acting as attorneys or employés of railroad companies holding charters or having received grants of lands or pecuniary aid from the United States.

Though I voted for that bill I entered a motion to reconsider the

passage, which was carried, on the ground that the bill deserved a more formal consideration at the hands of a committee, and there was nothing in the nature of the evil complained of that should require such summary action. After the reconsideration I moved, and it was carried, a reference of the bill to the Judiciary Committee. An early report was promised, and one was made within a reasonable season. have waited to hear that bill called up, and have been intending for a day or two past, but have sought in vain to do it, to move to take it up.

I make this statement that I may clear myself of any responsibility for any delay in the matter. I did not seek to avoid the subject; I wished to have it considered duly and in order, and was ready at any time to proceed to the consideration of the bill. I spoke to the Senator who made the majority report from the Judiciary Committee con-cerning the matter, but as the time approached for the adjournment within the last few days we have been so hurried that he had no op-

portunity to call it up.

Mr. BECK. After the motion to reconsider was agreed to and the bill was referred to the Committee on the Judiciary and reported back, there being some delay and some difference of opinion in regard to it, I did not see for the first eight or ten days how to call it up because of the business that was pressing before the Senate. I was then compelled to be absent from this Chamber in the Appropriations Commit-I had several consultations with the Senator from Connecticut [Mr. HAWLEY] as to how best we could get a hearing upon it, until I think both he and I came to the conclusion that it was impossible to have it heard at this session, and if we did get a hearing here it was absolutely impossible to get consideration before the other House

Therefore I thought, and I think he agrees with me, that while I regard it as his business to call it up, he having moved the reconsideration, and I was quite anxious to call it up myself, it was best to en-

deavor to fix some early day next December when the matter can be

I hope under the peculiar circumstances of the case that the Senate will agree to fix the second Monday in December as the time when we

shall make this bill a special order, so that it can be finally settled.

All that I want is to do something practical. I think I am right in All that I want is to do something practical. I think I am right in trying to press the bill just as it was passed before; but not pretending to be infallible, and being willing that every other gentleman should have a fair chance to be heard, and knowing that the bill can not become a law at this session of Congress, and without finding fault with anything that has been done, though I feel that there has been good reason for finding fault—perhaps that is not a proper thing to say—all I desire now is that we shall make an exception in this case. I ask that a bill which has once passed this body and has been reconsidered, a bill which has had a substitute reported for it which I do not believe any member of the Judiciary Committee will vote for, a bill that I do not think has had fair treatment, shall be fixed so that bill that I do not think has had fair treatment, shall be fixed so that the Judiciary Committee can tell us whether they are willing to vote for the bill they reported. I avow here and now that I do not believe a single member of the Judiciary Committee will vote for their own bill, and that they sought to make a burlesque of what I regard as a very serious matter. But I want a day fixed for the debate on that subject; and I shall now ask that the second Monday in December next shall be set apart for which to make the bill a special order, so that the Judiciary Committee, myself, the Senator from Connecticut, and all of us can have a fair hearing upon the subject. I make that motion. motion.

motion.

The PRESIDENT pro tempore. The Senator from Kentucky asks the unanimous consent of the Senate to proceed to the consideration of the bill (S. 2578) to prohibit members of Congress from acting as attorneys or employés for railroad companies holding charters, or having received grant of lands or pecuniary aid from the United States, with a view to its being made a special order. Is there objection to the present consideration of the bill for that purpose? The Chair hears none.

Mr. BECK. I move that the bill be postponed until the second Monday of December part and be made the special order for that day.

day of December next and be made the special order for that day.

The motion was agreed to (two-thirds of the Senators present voting

in the affirmative).

MARY F. POTTS.

Mr. COCKRELL. Some time since the bill (S. 244) for the relief of Mary F. Potts was passed at a time when I did not have an opportunity of recording my objection to it. It was passed on the 7th of June, and or recording my objection to it. It was passed on the 7th of June, and on the 9th of June I made a motion to reconsider. I have examined somewhat into the case, as much as I have had the opportunity, and while I am opposed to the extension of patent rights by special bills such as this, I do not feel justified in delaying the bill or asking any further consideration than simply to record my judgment that these bills ought not to pass. I will, therefore, withdraw my motion to reconsider

The PRESIDENT pro tempore. Has the bill been passed?

Mr. COCKRELL. The bill was passed on the 7th of June, and on the 9th I made a motion to reconsider, and no action has been had upon that motion.

The PRESIDENT pro tempore. Is there objection to the Senator from Missouri withdrawing the motion to reconsider?

Mr. CULLOM. Has the bill passed the other House?

The PRESIDENT pro tempore. The bill has not passed the other House, but passed the Senate. If there be no objection, the motion to reconsider is withdrawn. The bill has been passed by the Senate and will be sent to the other House.

TWELFTH MICHIGAN VOLUNTEERS.

Mr. CONGER. I move that the Senate proceed to the consideration of the bill (H. R. 6983) for the relief of certain soldiers of the Twelfth Michigan Volunteer Infantry dishonorably discharged under special rders 92, War Department, Adjutant-General's Office, dated March 1, 1866. The bill was reported from the Committee on Military Affairs with an amendment favorably June 29, Report No. 1406, made by the Senator from Missouri [Mr. COCKRELL] from that committee.

The PRESIDENT pro tempore. The Senator from Michigan moves that the Senate proceed to the consideration of the bill indicated by

him.

him.

Mr. EDMUNDS. Let the bill be read for information.

The Secretary read the bill.

The PRESIDENT pro tempore. The question is on agreeing to the motion to proceed to the consideration of the bill.

The motion was agreed to; and the Senate, as in Committee of the Whole, proceeded to consider the bill, which had been reported from the Committee on Military Affairs with an amendment to strike out all after the enacting clause and insert: all after the enacting clause and insert:

That the Secretary of War be, and hereby is, authorized and directed to revoke and cancel special orders numbered 92, dated Washington, March I, 1866, ordering the dishonorable discharge of the soldiers therein named; and to cause to be issued to Sergeants John M. Russey, Company A, and William Becker and Michael Casey, Company B; Corporal Seth Gregory, Company B; Sergeants Collins Phelphs and George S. Foster, Company E; and Alfred Doolittle, Company H, and Hull M. Cross and Lewis M. Rope, Company K, and each

of them, all of the Twelfth Regiment Michigan Volunteers, and in case of the death of any of them, then to their heirs, respectively, honorable discharges as of the dates and places at which their companies were respectively mustered out of the service; and such discharges shall each have the same force and effect as if issued at the times and places of the muster-out of the said companies, respectively, and as if said special orders numbered 92 had never been issued or executed.

The amendment was agreed to.

The bill was reported to the Senate as amended, and the amendment was concurred in

The PRESIDENT pro tempore. The question is on ordering the amendment to be engrossed and the bill to be read a third time.

Mr. EDMUNDS. So far as I understand the report I am in favor of the bill, and I do not wish to interfere with my friend from Michigan who has it in charge, but I desire to suggest to him that at this stage in the session the chance is 100 to 1 that the bill will not get signed, and then it will have to begin all over again in the House of Representatives or here; and it would be much better for the interests of these soldiers to let the bill stand just where it is on the Calendar.

Mr. CONGER. I accept that. I hope the bill will pass, when I shall immediately move to reconsider the vote and leave it on the Calendar on the motion to reconsider, and at the next session that motion can be withdrawn.

can be withdrawn.

The PRESIDENT pro tempore. The Senator can make the motion to reconsider now.

Mr. CONGER. I do not wish to move a reconsideration until the bill is declared passed.

The amendment was ordered to be engrossed and the bill to be read third time.

The bill was read the third time, and passed.

Mr. CONGER. I now move to reconsider the vote by which the bill was passed, and let the bill be put upon the Calendar.

The PRESIDENT pro tempore. The Senator from Michigan moves to reconsider the vote by which the bill was passed. The motion to reconsider will be entered, and the bill will remain on the Calendar.

BENJAMIN P. LOYALL.

Mr. MAHONE. I ask the Senate to take up the bill (S. 2848) for the relief of Benjamin P. Loyall.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Virginia to proceed to the consideration of the bill.

Mr. ALLISON. I should like to hear what it is.

Mr. MAHONE. It is simply a bill for the removal of political dissibilities.

abilities.

Mr. ALLISON. That statement is sufficient.

The motion was agreed to; and the Senate, as in Committee of the Whole, proceeded to consider the bill.

The bill was reported to the Senate without amendment, ordered to be engrossed for a third reading, read the third time, and passed, two-thirds of the Senators present voting in the affirmative.

H. W. SHIPLEY.

Mr. MITCHELL, of Oregon. I ask the Senate to consent to take up Senate bill 1342, a local bill for a constituent of mine, reported unanimously from the Committee on Claims.

Mr. ALLISON. I think we had better not take it up now. We can take it up early at the next session. It is impossible for it to pass

the other House at this session.

Mr. MITCHELL, of Oregon. The chairman of the Committee on Appropriations has been working very hard, and I think he ought to allow this little bill to go through. It does not interfere with him. It is the only bill which I have asked to take up from the Calendar. It was reported unanimously from the Committee on Claims by the Senator from Tennessee [Mr. WHITTHORNE]. It is recommended by the

Department.

Mr. ALLISON. I shall be willing to take it up on the second day

of the next session.

Mr. MITCHELL, of Oregon. I move to take it up now.
Mr. ALLISON. I object to taking it up.
The PRESIDENT pro tempore. A majority may take up the bill. The motion is in order.

Mr. ALLISON. I know it.

The PRESIDENT pro tempore. A bill on the Calendar is open to a motion. The Senator from Oregon moves that the Senate proceed to the consideration of the bill (S. 1342) for the relief of H. W. Shipley. Mr. ALLISON. I should like to hear the bill read. Mr. COCKRELL. For information.

The PRESIDENT protempore. The bill will be read for information,

subject to objection.

The Secretary proceeded to read the bill.

Mr. COCKRELL. We can not consider that bill. It is useless to undertake it at this time.

Mr. MITCHELL, of Oregon. The Secretary is not reading the bill as reported from the committee. There is no \$7,000 about it. It is

The PRESIDENT pro tempore. The amendment of the Committee on Claims will be read.

Mr. COCKRELL. That would not facilitate the matter. I think the Senator had better not press the bill.

Mr. MITCHELL, of Oregon. If there is objection I withdraw my

Mr. COCKRELL. I think the Senator had better not press it now, but take it up at the beginning of the next session.

The PRESIDENT pro tempore. The motion is withdrawn.

ORDER OF BUSINESS.

Mr. CALL. I ask the consent of the Senate to take up a resolution reported from the Committee on Contingent Expenses, which the Senator from North Carolina [Mr. VANCE] requested me in his absence to call up. I ask that the resolution be read.

Mr. ALLISON. Pending that, I move that the Senate take a recess

for one hour.

I hope the Senator will allow the resolution to come up. N. We can consider it after the recess. I make that Mr. CALL. Mr. ALLISON. motion.

RECESS.

The PRESIDENT pro tempore. The Senator from Iowa moves that the Senate take a recess for one hour.

The motion was agreed to; and (at 1 o'clock and 20 minutes p. m.) the Senate took a recess until 2 o'clock and 20 minutes p. m., at which hour it reassembled.

NOTIFICATION TO THE PRESIDENT.

Mr. EDMUNDS and Mr. HARRIS, of the joint committee appointed to wait upon the President of the United States and notify him that Con-

gress was ready to adjourn, appeared at the bar of the Senate; and Mr. EDMUNDS said: Mr. President, the committee of the two Houses appointed to wait upon the President of the United States and inform him that the two Houses had completed the business of this session and were ready to adjourn unless he should have some further communication to make have performed that duty, and are informed by the President that he has no further communication to make, and that he congratulates the two Houses on the termination of their labors.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. Clark, its Clerk, announced that the House had agreed to the amendment of the Senate to the resolution of the House fixing a day for final adjourn-

The message also announced that the Speaker of the House had appointed Mr. FINDLAY one of the managers of the conference on the part of the House on the joint resolution (H. Res. 89) providing for the distribution of the Official Register of the United States in the place of Mr. BARKSDALE, excused.

The message further announced that the House had passed the joint resolution (S. R. 82) making additional appropriation for purchase of

site for Congressional Library.

COMMITTEE ON RULES.

The PRESIDENT pro tempore. The Chair lays before the Senate a resolution reported by the Senator from Maine [Mr. FRYE] from the Committee on Rules July 29, 1886, which will be read. The Chief Clerk read the resolution, as follows:

Resolved, That the Committee on Rules be, and is hereby, continued and authorized to sit during the recess of Congress, and that the necessary expenses thereof be paid out of the miscellaneous items of the contingent fund of the Sen-

The PRESIDENT pro tempore. The question is on agreeing to the resolution

Mr. COCKRELL. Where does that come from?

The PRESIDENT pro tempore. It is reported by the Committee on Rules, and is made necessary by the rules.

The resolution was agreed to.

R. A. FENNELL.

Mr. CALL. I wish to call up the resolution for the relief of Mr. Fennell, which was reported from the Committee to Audit and Control the Contingent Expenses of the Senate.

The PRESIDENT pro tempore. The Senator from Florida moves that the Senate proceed to the consideration of the resolution named

by him. It will be read.

The Chief Clerk read the resolution, as follows:

Resolved, That one month's pay, from 15th April to the 15th May, be paid by the Secretary of the Senate, out of the contingent fund of the Senate, to R. A. Fennell, a messenger removed from office.

Mr. PLUMB. I move to lay the resolution on the table.

Mr. CALL. I ask the Senator to withdraw that motion until I can make a statement.

The PRESIDENT pro tempore. Does the Senator from Kansas withdraw the motion?

Mr. PLUMB. Yes, sir. Mr. CALL. Mr. Fennell was the messenger of the Committee on Revolutionary Claims, of which my colleague [Mr. Jones, of Florida] was chairman. He was discharged early in the beginning of a month

for the purpose of appointing another employé, without any kind of fault on his part. The Committee on Contingent Expenses of the Senate, in consideration of that fact, reported this resolution, proposing to allow him a month's pay, being the month at the beginning of which,

as I understand the matter, he was discharged.

Mr. EDMUNDS. But, Mr. President, a great many other messengers have been discharged; and are we to set the precedent of giving

them all a month's pay?

Mr. CALL. It has been uniformly done, I understand.

Mr. EDMUNDS. I do not think so.

Mr. CALL. It was done when we came into power. I have a very distinct remembrance that a month's extra pay was allowed every dismissed employé of the Republican party when the Democrats obtained control of the Senate.

Mr. EDMUNDS. I do not so understand it.

Mr. CALL. I appeal to the record. It is unquestionably so. Mr. PLUMB. I withdraw my motion.

The PRESIDENT pro tempore. The motion to lay on the table is withdrawn

Mr. EDMUNDS. If that be true, then I should not object; but I fear the Senator from Florida is mistaken.

Mr. CALL. I am not. The Senator is unquestionably mistaken. There are a number of Senators here who can verify the fact.

Mr. EDMUNDS. I should like to know a little more about it.
Mr. INGALLS. Mr. President—
Mr. EDMUNDS. Perhaps somebody can state.
Mr. INGALLS. I have ordinarily been opposed to these donations, which appear to me in the light of gratuities, but there are special circumstances in this case which seem to me to entitle Mr. Fennell to compassion and sympathy.

He was, as has been stated, a messenger who was appointed, as I am advised, upon the recommendation of the colleague of the Senator who offered the resolution, and had every reason to believe that he would be retained at least until the close of the pending session; but from circumstances with which we are all familiar the influence which was behind him was withdrawn, and he was consequently discharged.

One of the relatives of Mr. Fennell, it may be his sister, called upon me and stated the circumstances in connection with his service and with

his condition. I am advised and believe that he is in a critical and infirm condition of health, without the means of support, and deprived of the income which he had just reason to believe he would continue to receive, as I said, until the expiration at least of this session of Con-

Believing that this case is entirely outside of the ordinary claim for

gratuities, I shall, if I have the opportunity, vote with great pleasure for the resolution offered by the Senator from Florida.

Mr. EDMUNDS. Mr. President, I certainly, after this statement that it is not a precedent, have no objection to the resolution, but I am very much afraid, from having examined the law in regard to another very much airaid, from having examined the law in regard to another resolution to pay all the session employés and clerks of Senators and everybody else a month's extra pay, that the statute absolutely forbids it, and that if this resolution passes and the Secretary of the Senate pays the money his account will be that much short under the law at the Treasury Department.

After the explanation which has been made by the two Senators, that

is the only difficulty I have, if it be not a precedent; but I am very much afraid on having examined the law yesterday about the general resolution that this payment of extra compensation—it may be that there is a distinction between extra compensation and a gratuity, I do not know what the form of the resolution is—but it is clear that the law is that neither House can pay out of its contingent fund any extra compensation to any of its employés by any resolution of its own, for the law forbids it.

If this falls within the provision—I do not say that it does, but I am afraid it does—it can not be done. If it does not, I certainly, after the statement made by the Senator from Florida, shall not object.

Mr. CALL. I do not think the Senator from Vermont need have any

trouble about that. If the law is operative to restrain this body from exercising its constitutional function of making an appropriation, of which I do not think there is any doubt, it certainly does not relate to the case of a person who is not an officer of the United States, and to whom Congress votes something from some consideration which moves them, whatever it may be. This is certainly not extra compensation in the sense of being paid to any person in the service of the United States, for this person has been discharged and is not in the service of the United Mr. EDMUNDS. That may possibly help him out. I make no objection; only it may be that he will not get his money.

Mr. CALL. It is a case of extraordinary merit.

The PRESIDENT pro tempore. The question is on agreeing to the

The resolution was agreed to.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its

Clerk, announced that the House had passed the joint resolution (S. R. 46) accepting from Julia Dent Grant and William H. Vanderbilt objects of value and art presented by various foreign governments to the late General Ulysses S. Grant.

The message also announced that the House had concurred in the amendment of the Senate to the concurrent resolution of the House to print the special intelligence report by Lieutenant Kimball and Naval Cadet Capp upon the progress of the Panama Canal.

The message further announced that the House had concurred in the amendments of the Senate to the joint resolution (H. Res. 120) to

print the annual bulletins of the Bureau of Ethnology.

The message also announced that the House had concurred in the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the joint resolution (H. Res. 89) providing for the distribution of the Official Register of the United States.

UNITED STATES OFFICIAL REGISTER.

Mr. MANDERSON submitted the following report:

Mr. MANDERSON submitted the following report:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H. Res. 89) providing for the distribution of the Official Register of the United States, having met, after full and free conference have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 1 and 2.

CHAS. F. MANDERSON,
JOS. R. HAWLEY,
A. P. GORMAN,
Managers on the part of the Senate.

JOS. W. REED,
JOHN W. FARQUHAR,
JOHN V. L. FINDLAY,
Managers on the part of the House.

The report was concurred in.

The report was concurred in.

FORTIFICATIONS APPROPRIATION BILL.

Mr. EDMUNDS. I move that the Senate take a recess until five minutes before 4 o'clock.

Mr. PLUMB. Before that is done, I ask to present a report from a conference committee.

Mr. EDMUNDS. I withdraw the motion. Mr. PLUMB submitted the following report:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 9798) "making appropriations for fortifications and other works of defense, and for the armament thereof, for the fiscal year ending June 30, 1887, and for other purposes," having met, after full and free conference have been unable to agree.

H. L. DAWES,
P. B. PLUMB,
A. P. GORMAN,
Managers on the part of the Senate. WM. H. FORNEY, SAM. J. RANDALL, BENJ. BUTTERWORTH, Managers on the part of the House.

Mr. CALL. I move that the Senate proceed to the consideration of the joint resolution of the House to pay the employes of the Senate—

Mr. PLUMB. There is a conference report pending. Mr. HAWLEY. We have not concluded this not

The PRESIDENT pro tempore. The report of the committee of conference has been read.

Mr. PLUMB. Before any question is put on it I wish to make a statement.

This report, according to the ordinary parliamentary usage, should first have been made to the House of Representatives. It may have been made there, but the Senate has not yet been advised of the action of that body. However, in view of the impending adjournment, it is proper that it should be made here, in order that the Senate may be advised of the result of the conference and of the reason for the disagreement reported.

The Senate amended what is known as the fortification bill by in-serting two sections, substantially connected with each other, provid-ing for the procuring by the Government from American manufacturers of forgings suitable for large guns and the finishing of those guns by the Government. That was done upon the theory that this country was in great need of proper means for coast defense, and that the one prime thing necessary to make that defense was the possession of guns of proper caliber.

Steel guns above 6-inch caliber have not yet been successfully made in the United States, not because the country is lacking in material or lacking in the skill, but because there has not yet been a demand for, and there is not yet in existence on this continent machinery suitable for, their manufacture. The machinery suitable for their manufacture is of a kind larger and different from that required for the ordinary manufacture of the products of iron.

In order to secure the production of these guns in this country it was deemed necessary that there should be inducements offered to American manufacturers in the way of contracts for the manufacture of guns which should enable them to erectand put in operation the necessary machinery for the manufacture of large ordnance.

With a greater length of seacoast than any other country in the world the United States is absolutely without any means of defending

The ordinary fort and vessel can be in a measure improvised, but guns, of large caliber especially, can not be produced at short notice

nor without long previous preparation.

It was to meet this demand, so conspicuously existing now, that the Appropriations Committee of the Senate and the Senate adopted the amendments to the fortification bill providing for entering upon the

manufacture of these large caliber guns.

The House conferees, while admitting the necessity, decided that it was wise to let the matter go over; they thought that the country could wait; and they were not willing to agree to anything unless it might be the appropriation of a very small sum of money to indulge in some

more experiments.

The Senate conferees, believing that experiments enough had been made and that what we wanted now was to avail ourselves of the experiments already made in the manufacture of ordnance which will be useful for purposes of national defense, declined to agree to any proposition limiting the operations of this appropriation bill merely for the purpose of further investigation.

So the issue was sharply drawn between the Senate on the one side proposing what was conceded everywhere to be a practicable measure for the manufacture of needed ordnance for the defense of the country, and the action of the House declining to enter upon that question, and proposing in lieu of it merely that we should go on and do something more in the nature of inquiry.

It is not necessary at this late hour to enlarge upon this subject. The question can not be considered now. There is no prospect that any other conference committee would be able to agree at this session. Yet accepting the suggestion of the House conferees, who proposed that this whole subject might come up better after the fall elections had taken place in connection with the bill as it passed the Senate, at the proper time I shall move that the Senate accede to the request of the House for an additional conference and appoint conferees who may meet in the early days of the next session of Congress.

Mr. HAWLEY. Mr. President, the substance of all this is that the fortification bill for the year fails. Of course in December there might

be a bill passed applying to the remaining six months of the year.

that contemplated?

Mr. PLUMB. No; not at all. I do not contemplate it.
Mr. HAWLEY. Nothing at all for this year?
Mr. PLUMB. This will result in the entire failure of the fortification appropriation bill for the fiscal year, unless Congress shall take it up at the succeeding session and pass an appropriation bill for what will then remain of the present fiscal year.

Mr. HAWLEY. There being nothing pressing before the Senate at this moment, and this being a subject, in my opinion, of very great importance, I desire to say a few words about it.

For many years we have done nothing toward the fortifications along the coast except to cut grass and occasionally to put up a brick that has fallen down or clear out a ditch. For many years nothing has been given toward the renewal of the old works or to build substantial new ones

The bill came here this year from the House giving "for the protection, preservation, and repair of fortifications and other works of defense, for which there had been no special appropriation available," (there being no such other works), \$100,000; the sum "to be expended under the direction of the Secretary of War." That is the old standard appropriation, under which they painted a fence, cleaned a ditch, cut down a little grass, and put some black paint upon some honeycombed old gun along the fortifications and on top of some of our great works around our great harbors-notably I remember Fort Columbus, in New York Harbor, where stand clumsy, old, useless iron guns, which they dare not fire upon the ramparts lest they shake the walls down.

The best of the forts have an 8-foot wall of granite, thinning down to 5 feet, through three of which walls the modern rifle will send its projectile. Some people think we can rely upon a sand bank. The largest steel rifles made will send their projectiles of 1,200 to 1,800 pounds through 70 feet of sand.

The upshot of it is that we are absolutely defenseless, so far as coast defenses are concerned, against modern ships of war, which can have their own sweet will sailing through the entrances of our great harbors. By carefully compiled statistics they may safely anchor at Portland, Boston, New York, San Francisco, and other great cities under the reach of our guns, with property to the amount of \$4,500,000,000, these returns being taken from the official returns of taxable property in those

I need not discuss the condition of our Navy. We are not quite so badly off there, because we have a few respectable ships of the third, fourth, or fifth class, and we have an excellent body of officers, and we have as many as the great number of about thirty steel guns very nearly

done; but the heavy, rough forged parts of the 8 and 10 inch guns have been bought abroad, and we are absolutely dependent upon the mercy of foreign contractors for any guns we may make of the larger size.

We have certain naval vessels nearly or quite complete. Proposals are about to be issued for the construction of several more. A bill has just passed both Houses providing for two fine armored cruisers and another lighter one, and also for completing the armament of the monitors. Several thousand tons of armor (not armament) are called for by these various vessels, a large quantity of heavy ordnance for the arming of them, and we have forbidden, in the bill for the increase of the Navy, the purchase of these articles abroad. But in the mean time there is not a manufacturing establishment in the United States that can make them, nor is there one that will contract to make them under the ordinary terms of an appropriation bill, because no wise manufacturer would put in a new plant costing \$600,000 or a million dollars or more to build these guns depending upon an annual appropriation by Congress. No sensible man would do it; no man ought to do it.

We are building a few large guns by the leave of foreign countries, which can be forbidden in a moment by their own governments refusing to let us have those rough parts. But it is an essential element in national defense that we shall be able to make our own weapons of defense. The Army has not one single high-power modern gun. It has some very nice little field pieces of steel; it has a large number of old 15-inch and 10-inch guns, &c., old cast-iron guns admirable in their time, and it has about two hundred 10-inch Columbiads altered down to 8-inch rifles, which can not take a heavy charge of powder and are only useful for perhaps a thousand yards against vessels of the third or fourth class.

What then shall be done? Everybody says it is a matter of very great importance; everybody says we are helpless. There are several ways of beginning to do this work. One is that the Government shall build its own great forging factories. That is not economical. That is not what the Government ought to undertake. Another plan is that the Government shall go into partnership with certain private manufacturers in the manufacture of a complete gun. That has been tried and has been a failure, economically and otherwise—a failure under foreign governments.

Another plan is to divide the work, that each may be a check upon the other, and that the larger and coarser and heavier work which can be done in private establishments shall be given out by contract, reserving to the Government the fine work of finishing, so that we may have some shops to depend upon ourselves, and that we may not require

of private manufacturers so heavy a plant.

The amendments which the Senate put on the fortification bill were in accordance with the experience of every European nation that has done anything, and they have all done a great deal in this direction, and in accordance with the recommendations of board after board that has been appointed upon this and kindred questions for a series of years past, all of which has been considered and summed up by your Committee on Coast Defenses and your Select Committee on Ordnance and War Ships; so that when a person refuses the proposition the Senate put upon the bill without offering any substitute for it, he simply declares that, no matter how defenseless or unprovided the country may be, we will do absolutely nothing.

The bill as passed by the House made a pretense of doing something in this direction:

For the armament of seacoast fortifications, including the procurement of steel forgings for the manufacture of heavy guns; for guns, carriages, projectles, fuses, powder, implements, the materials for which shall all be of American production, their trial and proof, and the testing of improvements of the same, and all necessary expenses incident thereto, \$500,000, to be available until expended.

We have gone on wasting a similar sum for a series of years. For "the procurement of steel forgings, for the manufacture of heavy guns," the "materials for which shall all be of American production." Those who drew and who were instrumental in passing that bill knew perfectly well that it was a farce, because those heavy parts can not be made in the United States, and we have been buying them abroad. The only practical step toward getting them made in America, which the Senate put in the bill, we understand is absolutely and positively rejected. It is demanded that the whole bill shall fail unless it can be passed in that shape, which is absurd, and knowr to be so; a mere pretense for an election campaign or for some other purpose, I do not know what.

The only practical provision in the bill as passed by the House was the one to keep the old forts swept at a cost of \$100,000, and \$20,000

The only practical provision in the bill as passed by the House was the one to keep the old forts swept at a cost of \$100,000, and \$20,000 for torpedo experiments and for practical instruction; and yet we are told by the chairman of the Committee on Appropriations that if the Morrison resolution shall become a law, which of course is exceedingly doubtful, there will be, indeed there will be substantially anyhow, \$100,000,000 applicable to the reduction of the bonded debt of the United States. The Republican administration in its closing months saved up its revenue and did not purchase bonds. The new Democratic administration for about nine months followed a similar course, until we have a very large surplus in the Treasury.

Whether the Morrison resolution shall pass or not, without any doubt there will be a very considerable reduction in the debt. We are embarrassed by our riches; we are burdened by the superabundance of our revenue, and a new party, or an old party rather, has come into

power without a very definite policy upon matters of national concern, not agreed concerning finance, not agreed concerning the tariff, and indeed if agreed upon anything I am unable to recall it at this identical moment. It is a party in search of a war-cry, a party that will be glad to command the enthusiastic support of the American people if it has an opportunity. The Republicans of the Senate, and I am bound to say that the majority at least of the Democratic Senators, are willing to offer to men who assume to lead the party an opportunity to make a reputation, an opportunity to command popular support and respect and enthusiasm, an opportunity to adopt a really national and broad and strong policy in some respects. What are they at, I wonder? What do they mean when they seek to keep down an appropriation bill by rejecting items of this sort? Do they make any sensible appeal to the groundlings in behalf of real economy? We advise, I advise, everybody advises who stops to think—the very able man who is now waiting for his grave was one of the strongest to advise that among matters of great national concern which commanded the support of the people unanimously was this matter of defense-coast defense and naval defense. I believe that nothing more acceptable to the American people could have been done, and yet I doubt very much whether the House of Representatives (I may say that much) will be allowed to even take a vote upon the question—by some singular combination of reasons.

The bill as amended by the Senate devoted \$6,000,000 to beginning the work of making heavy guns. In addition to that is the work, which must be begun by and by, of building new forts on a new plan along the coast, iron turrets, or defenses covered by sloping and curved armor, and numerous buildings, erections, and contrivances which are absolutely indispensable toward torpedo defenses, &c., but these things are largely omitted. Nothing is being done for armor. The new ships can not be armored by American products, and yet the Secretary of the Navy is forbidden to buy any other. The revised bill provided for \$6,000,000; that there might be a contract made for not to exceed 10,000 tons of rough-bored, rough-turned, and tempered forged steel suitable for heavy guns, in such lots and of such descriptions as the Secretary of the Navy and the Secretary of War might agree upon, the money to be available for six years.

be available for six years.

Not one dollar of that would be expended during the next year or year and a half, but if that should stand as a law, giving out from nothing to a million and a half or two millions a year during the next six years, there are several great establishments in the United States which would very gladly make the necessary plant at a cost of from six hundred thousand to a million and a half dollars. They will not do it depending upon annual appropriations; it is perfectly well known by the unanimous testimony of all, and I say every sensible business man knows it. If we make that contract we shall have at least one or two or three hundred guns, depending upon the size—of the smaller ones more, of the larger ones less—within four or five years; but, what is of more consequence, we shall have within our own borders the possibility of arming ourselves, which we have not now. I say the universal judgment of all men of military and other experience abroad, of all manufacturers at home, demands some such process of legislation as this, and yet we are absolutely refused the very first step in it. The Democratic party has missed an opportunity to commend itself to the respect and enthusiastic support of the American people by doing what is really a

great national and indispensable work.

Mr. GORMAN. Mr. President, I do not care to enter upon the discussion of this general question at this time; but I think it proper to say a few words in reply to what the Senator from Connecticut and the Senator from Kansas, my colleagues on the committee of conference, have said in relation to this matter. As they know, I am personally very heartily in favor of a large appropriation upon this account; and I think it would be very unfortunate indeed if the failure to agree upon an appropriation of \$6,000,000 to begin this great work should be treated from a political standpoint. I have not found any member of this body or any other body that has conferred upon this subject who has treated it as a political matter.

The great trouble is, as all admit, that for twenty years past you have neglected the coast defenses. No ample provision has been made for the construction of guns or to encourage manufacturers to make the best classes of steel. All admit that it should be done speedily, but there is great distrust as to the ability of the officers in charge, the Army officers and the ordnance officers, to carry out this great work. There is a very serious division as to whether this large expenditure should be placed in their hands or placed in the hands of a board of experts consisting of Army officers and civilians.

Mr. PLUMB. The Senator from Maryland ought to state in that con-

Mr. PLUMB. The Senator from Maryland ought to state in that connection, what he knows very well to be true, that the Senate conferees offered to yield all questions of control, substantially in accordance with the ideas of the House conferees, if only the amount was retained and if the plan which the Senate had proposed could be preserved.

Mr. GORMAN. That is true, but it was only in the very late hours of the session, within twenty-four hours, that we were able to reach the point when such a proposition could be made; and the conferees on the part of the House claimed that there was not time to consider it and put it into such shape as to make the provision effective.

My friend from Kansas knows perfectly well that this question is not

to be settled upon party issues. It is one that is broader than that; and I only rose to protest against this debate and the statements of my friend from Connecticut and my friend from Kansas, which might possibly jeopardize a great interest which we all have at heart by giving

it a political turn.

Mr. PLUMB. I certainly did not give any turn of politics to it at all. I spoke simply upon the basis of what the Senate had done, and in the Senate, as I understood, there was no division on party grounds. is true the committee on the part of the Senate was controlled by the Republican party, as the Senate itself is at the present time, but there was no suggestion of politics in the debate, and all I said was in justification of the position of the Senate as a Senate without reference to the party in control of it.

Mr. GORMAN. I did not mean to do the Senator injustice, but the Senator from Connecticut did say the Democratic party had lost a great

opportunity in not permitting this work to go on. It was only in reply to that remark I made the suggestion.

Mr. HAWLEY. I gave due credit, I think, to the Republican Senate that it acted without distinction of party in this matter and with broad and patriotic views, and I do not know where else to charge it if not to charge it to certain Democratic influences. The project spoken of by the two Senators of committing this work of the Army and Navy to a board, depriving the two Secretaries of the part we had assigned them in the bill, is another proposed vote of want of confidence in the

Mr. PLUMB. I wish to say in regard to that, that while that matter was not discussed at any very great length, the general proposition was that if we could agree upon the amount and the plan in substantial accordance with what the Senate had done a board should be constituted, of which the Secretary of War and Secretary of the Navy should be ex officio members, consisting as well of some members of the Army and Navy as of some civilians. In other words, the Senate conferees said, "We do not care so much about that question of detail of the said, "We do not care so much about that question of detail of the personnel of the management, provided always we can secure an appropriation of the money and the entering by the Government on this work zealously," and so we were willing to yield everything in that particular in order to get the substantial object.

Mr. HAWLEY. Except for a possible discourtesy to the Secretary of War or the Secretary of the Navy I should not object to that. If

that be eliminated from it and the board be composed as the Senator has suggested, of course my objection and the objection of every sensible friend of the measure will be gone, provided only that the substantial thing be done by whatever reasonable method.

Mr. CALL. I ask the Senator from Kansas if he will allow this matter to be informally laid aside to consider a House resolution?

Mr. PLUMB. What House resolution is that?

Mr. CALL. A joint resolution for paying the employes the remainder of this month's salary.

Mr. PLUMB. I have no objection to that, provided that resolution is not proposed to be amended in such a way as to give an additional month's pay to everybody. that be eliminated from it and the board be composed as the Senator

month's pay to everybody.

Mr. CALL. We can take it up and vote on it.

Mr. PLUMB. 1 shall have something to say about it.

Mr. CALL. The proposition is only that the balance of this month's salary may be paid to the employes of the two Houses. The month has already been commenced.

Mr. PLUMB. I do not wish to take any division on that unless

there be something substantially proposing to give extra pay.

Mr. CALL. I do not propose that.

Mr. PLUMB. We have not got through with the fortification matter yet. Since the Senator from Maryland [Mr. GORMAN] seems to be somewhat sensitive about the responsibility of this measure having been cast upon the House of Representatives, I wish to say in connection with his remark that for twenty years there has been a neglect of this subject; that it is only within a recent period that there seems to have been a consensus of opinion as to the kind of guns that ought to be manufactured. In other words, the inventive skill of the world has not till factured. In other words, the inventive skill of the world has not till within the last three or four years determined finally as to the character of the best kind of gun to be made and the best material to be used

Finally, it seems now to be conceded that steel is that material; and in the mean time the quality of steel manufactured has become a great deal better than it was formerly. All this has been going on in the domain of experiment, and so there is always something to be said in favor of waiting; that is, at all events as against the proposition to do a great deal. Undoubtedly we might have done something heretofore, but the Senate will bear in mind that the two Houses of Congress have been heretofore, as they are now, divided from each other in a political way; that for over ten years, with two exceptions, the House of Representa-tives has not been in accord with the Senate politically. Once the House was Democratic when the Senate was also under the control of that party; and but once within the last twelve years the House has been Republican at a time when the Senate was also Republican. While the House and the Senate have been controlled by different political parties it has seemed to be entirely impossible to get any concord whatever, the House insisting (whether well or ill I will not now un-

dertake to say) that it was not wise and prudent to commit the administration of this great question to Republican officials.

All I want to say now in that connection is to point to the different treatment which has been accorded to a Democratic administration by a Republican Senate. The Republican Senate has voted unanimously to give to the Secretary of the Navy a fund of three and a half million dollars for the purpose of adding to the Navy, and an appropriation which involved practically an agreement to appropriate \$8,000,000 more. It has also proposed to commit to Democratic officials \$6,000,000 for the purpose of the manufacture of guns, and in every way in which it has touched upon this question of appropriations and upon the responsibility of administration it has given as freely of the public revenues and as freely committed discretion to the Democratic administration as it ever proposed to do to a Republican administration. I think that much the Senator from Maryland will himself cheerfully admit.

When I say that, I say it for the purpose of emphasizing the fact which the Senator himself said, though in connection with what I thought to be a reflection on a former administration, that this question need not be and ought not to be a partisan question at all, and that every man, whether he be a Republican or a Democrat, ought to agree, in the first place, that the United States ought to have a good navy, one commensurate not only with its power but with the exposed situation of its commerce and the necessities of its people, and that it also should have an adequate system of coast defense, in order that the great possessions of the people may be protected against the possible contingencies of foreign war.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. CLARK, its Clerk, announced that the House had passed the bill (S. 1386) for the completion of a public building at Fort Scott, Kans., with an amendment; in which it requested the concurrence of the Senate.

The message also announced that the House had passed the following bill and joint resolution; in which it requested the concurrence of the

A bill (H. R. 9116) to provide for holding terms of United States courts at Texarkana, Ark., and for other purposes; and Joint resolution (H. Res. 215) to provide for printing the third an-

nual report of the Bureau of Animal Industry.

ENROLLED BILLS SIGNED.

The message further announced that the Speaker of the House had signed the following enrolled joint resolutions; and they were there-

upon signed by the President pro tempore:

Joint resolution (H. Res. 89) providing for the distribution of the Official Register of the United States;

Joint resolution (H. Res. 120) to print the annual bulletins of the Bureau of Ethnology; and
Joint resolution (S. R. 82) making additional appropriation for pur-

chase of site for Congressional Library.

HOUSE BILLS REFERRED.

The bill (H. R. 9116) to provide for holding terms of United States courts at Texarkana, Ark., and for other purposes, was read twice by its title, and referred to the Committee on the Judiciary.

The joint resolution (H. Res. 215) to provide for printing the third annual report of the Bureau of Animal Industry was read twice by its

title, and referred to the Committee on Printing.

PUBLIC BUILDING AT FORT SCOTT.

Mr. PLUMB. I ask that the bill (S. 1386) for the completion of a public building at Fort Scott, Kans., returned from the House of Representatives with an amendment, may lie on the table.

The PRESIDENT pro tempore. That course will be taken.

PAY OF EMPLOYES.

Is there anything before the Senate?

The PRESIDENT pro tempore. No bill is before the Senate. No action is required on the report of the committee of conference on the fortification bill.

Mr. CALL. I move to take up for consideration the joint resolution of the House relative to the payment of employes for this month.

Mr. PLUMB. Before that motion is put I ask to have the resolution read for information.

Mr. EDMUNDS. Pending that motion, I move that the Senate take a recess until a quarter before 4 o'clock.

Mr. CALL. I hope the Senator from Vermont will withdraw that for a moment. I appeal to the Senator. We have commenced the month of August. These employés have been here serving us, and it is only the fair thing for us to consider the propriety of giving them now pay for the month upon which they have already entered. That is all, and I think there is a large majority of the Senate disposed to do it.

Mr. EDMUNDS. I withdraw my motion for a moment.

Mr. PLUMB. I renew it. I do not think the question is of sufficient importance to come up at this time and in view of the fact, which is undoubtedly well known, that there is no quorum here, as will be disclosed if the question is called for, as it certainly will be Mr. CALL. Then we can not adjourn.

Mr. PLUMB. That is another question.
Mr. EDMUNDS. This resolution can not pass, because it is wrong in my opinion and in the opinion of a great many other people; and in view of some messages that may come from the House I move to take a recess until fifteen minutes past 3.

Mr. CALL. I hope that motion will be voted down.

RECESS.

The PRESIDENT pro tempore. The question is on the motion of the Senator from Vermont.

The motion was agreed to; and (at 3 o'clock and 7 minutes p. m.) the Senate took a recess until 3 o'clock and 15 minutes p. m.

Mr. CALL. I call for a division.

The PRESIDENT pro tempore. The Chair thinks the call is too late.

A recess is taken until a quarter after 3 o'clock.

The Senate took a recess until 3 o'clock and 15 minutes p. m., at which time it reassembled.

ENROLLED BILL SIGNED.

A message from the House of Representatives, by Mr. T. O. Towles, its Chief Clerk, announced that the Speaker of the House had signed the enrolled joint resolution (S. R. 46) accepting from Julia Dent Grant and William H. Vanderbilt objects of value and art presented by various foreign governments to the late General Ulysses S. Grant; and it was thereupon signed by the President pro tempore.

PROPOSED RECESS.

Mr. EDMUNDS. I move that the Senate take a recess until five minutes before 4 o'clock.

Mr. HARRIS. I suggest to the Senator that we had better make it ten or fifteen minutes before 4.

Mr. EDMUNDS. Why?

Mr. HARRIS. Certainly it is Mr. EDMUNDS. Why?

Mr. HARRIS. I can not tell why, but there may be reasons. do not now know whether there will or will not be reasons, and therefore I think it safer to say ten minutes before 4.

The PRESIDENT pro tempore. The Senator from Vermont moves that the Senate take a recess until five minutes before 4 o'clock.

The question being put, a division was called for; and the ayes were 5.

Mr. HARRIS. Does the Senator insist on a further count?

Mr. EDMUNDS. I do.

The PRESIDENT pro tempore. Those opposed to the motion will rise and stand until they are counted.

Eleven Senators rose in the negative.

The PRESIDENT pro tempore. There is no quorum voting.
Mr. EDMUNDS. Call the roll.
Mr. ALLISON. Before that is done—
Mr. EDMUNDS. Nothing can be done now but to call the roll. The PRESIDENT pro tempore. Nothing is in order but the calling of the roll, under the rule.

The Secretary called the roll; and the following Senators answered to their names:

Cullom,
Edmunds,
Gibson,
Gorman,
Gray,
Harris,
Hawley,
Ingalls,
Jones of Nevada, Allison, Beek, Blair, Brown, Butler, Sawyer, Sewell, Sherman, Vest, Walthall, Whitthorne. McMillan. Mahone, Manderson, Mitchell of Oreg., Palmer, Plumb, Call, Cockrell, Colquitt, Conger, Saulsbury,

Mr. WALTHALL (when Mr. George's name was called). My colleague [Mr. George] is quite unwell, and unable to be here to-day.

The PRESIDENT protempore. Thirty-three Senators have answered

to their names. There is not a quorum present.

Mr. EDMUNDS. I move that the Senate take a recess until six min-

utes before 4 o'clock.

Mr. HARRIS. We can not take a recess without a quorum. We can adjourn from day to day.

Mr. EDMUNDS. A recess is within an adjournment, and it has been

held that

Mr. HARRIS. A recess is not an adjournment.
Mr. EDMUNDS. It is merely a continuance of the sitting. There is no doubt about it.

Mr. ALLISON. I ask unanimous consent— Mr. EDMUNDS. I withdraw the motion for the present.

PROPOSED RECESS-WANT OF A QUORUM.

Mr. EDMUNDS. Now I renew my motion to take a recess until six minutes before 4 o'clock.

The PRESIDENT pro tempore. The Chair is of opinion that under the language of the rule a motion for a recess is not in order under these circumstances. The rule will be read.

The Chief Clerk read as follows:

Whenever upon such roll-call it shall be ascertained that a quorum is not present, a majority of the Senators present may direct the Sergeant-at-Arms to request, and, when necessary, to compel the attendance of the absent Senators, which order shall be determined without debate; and pending its execution, and until a quorum shall be present, no debate nor motion, except to adjourn, shall be in order.

Mr. EDMUNDS. That is, pending the execution of the order to bring in the absent Senators. No such order has been made, and the Senate may suspend making such an order as long as it likes. The motion for a recess is inside of the motion to adjourn, and a motion to adjourn includes the right of the Senate to suspend its sitting for a few minutes if it wishes to do so, I submit to the Chair; but if an order had been made to bring in absent Senators, the Chair would be

right.

The PRESIDENT pro tempore. The language of clause 3 of Rule V being that, "Whenever upon such roll-call it shall be ascertained that a quorum is not present, a majority of the Senators present may direct the Sergeant-at-Arms to request, and, when necessary, to compel the attendance of the absent Senators, which order shall be determined without debate; and pending its execution, and until a quorum shall be present, no debate nor motion, except to adjourn, shall be in order," after the want of a quorum is ascertained the Chair is of the opinion that no debate or motion except to adjourn and to compel the attendance of absent Senators would be in order. The Chair would be very

glad to rule otherwise.

Mr. EDMUNDS. I wish with great respect to submit to the Chair that his inclination of opinion is contrary to the continuous practice of the Senate, and I submit with great respect that the Chair has over-looked the arrangement of this sentence. It is that—

Whenever upon such roll-call it shall be ascertained that a quorum is not present a majority of the Senators present may—

They are not obliged to-

direct the Sergeant-at-Arms to request, and when necessary, to compel the attendance of the absent Senators, which order shall be determined without debate;—

Then comes a semicolon-

and pending its execution, and until a quorum shall be present-

That is while that order is being executed-

no debate nor motion, except to adjourn, shall be in order.

Now, the Senate has the authority; it may, but the rule does not say it shall; and the Senate not having chosen to direct the Sergeant-at-Arms to send for the absentees, the last clause of the rule, which says that "pending the execution of that order no motion shall be in order except a motion to adjourn," does not apply to the case now, because the Senate has not made any order directing the Sergeant-at-Arms to request the attendance of the absent members. I submit, with great respect to the Chair, therefore, as I certainly shall not appeal, to consider the way that stands in the rule and the uniform practice of the sider the way that stands in the rule and the uniform practice of the

Mr. HARRIS. I know this question is not debatable, but by the express terms of the rule, when the absence of a quorum has been disclosed, there are but two motions which are in order. The one is for a call of the Senate and the other is to adjourn. That is the express literalism of the rule.

Mr. EDMUNDS. The Senator is mistaken.

Mr. HARRIS. If the Senator can find me in the rule any other motion that is in order according to the letter of it I shall be glad for him to inform me of it.

Mr. EDMUNDS. Let me read it again, Mr. President. Rule XXII provides:

When a question is pending no motion shall be received but-

To adjourn,
To adjourn to a day certain, or that when the Senate adjourn it shall be to a day certain,
To take a recess.

Here was a pending question on the motion of the Senator from Florida [Mr. CALL]. Therefore we are within that rule. Now we come to the quorum rule:

Whenever upon such roll-call-

The question of a quorum being raised-

it shall be ascertained that a quorum is not present, a majority of the Senators present may direct the Sergeant-at-Arms to request, and, when necessary, to compel the attendance of the absent Senators, which order shall be determined without debate; and pending its execution—

There comes the prohibition of the rule. Pending the execution of an order directing the Sergeant-at-Arms to bring in the absentees and until a quorum shall be present-

Pending the execution of that order-

no debate nor motion, except to adjourn, shall be in order.

So that the motion to take a recess is within Rule XXII. If the want of a quorum is disclosed, then the rule says that a majority of the Senators present may-not that they shall-proceed to call in the absentees. Then it goes on to say that having proceeded to call in the absentees, and while that order is being executed, you can only move an adjournment. So I submit with great respect to my friend from Tennessee and to the Chair under those two rules, just as the practice of the Senate has been half a dozen times this session and half a dozen times every session for twenty years to my knowledge, the Senate has the right, no quorum being present, to suspend its operations until it has ordered the Sergeant-at-Arms to bring in the absentees.

The PRESIDENT pro tempore. The Chair calls the attention of the Senator from Vermont to the express language of the Constitution of the United States. The Secretary will read section 5 of article 1. It seems to the Chair that under the Constitution the matter is entirely clear.

Mr. EDMUNDS. I should like to be heard on that point.

The Chief Clerk read as follows:

SEC. 5. Each House shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner, and under such penalties, as each House may provide.

The PRESIDENT pro tempore. The Chair is of opinion, on the face of the Constitution, that the word "business" excludes every other

motion except a motion to adjourn.

Mr. EDMUNDS. I take leave to submit to the Chair, with great respect again, that a recess is included within the motion to adjourn, which is a much larger motion than a recess, and is merely a modified and temporary adjournment in its effect; a motion to take a recess is in order, and always has been, and so held since the Government began as I believe. The Constitution gives the power to less than a quorum to adjourn from day to day, but sitting during the day waiting for the absentees to come in, and included in the larger power to adjourn is the smaller power to suspend the sitting of the body waiting for the absentees for the time being, and that has been the practice of the Senate, I beg leave to suggest, for a great many years. It is not of any consequence now, but in the future it may be of great consequence.

Mr. GIBSON. Mr. President, I rise to a parliamentary inquiry. What is the business before the Senate?

The PRESIDENT pro tempore. The business before the Senate is the fact that there is the want of a quorum, which involves an incapacity to do any business.

Mr. GIBSON. What is the pending motion?

The I RESIDENT pro tempore. The motion is to take a recess. The Chair in respect to this matter would submit it to the Senate, if the Senate was full, to decide the question; but the Chair supposes it would not be proper to do so at present.

'The Chair, in further reply to the Senator from Vermont, will state that the rules themselves make a distinction between a motion to adjourn from day to day and a recess, because the twenty-second rule

provides that-

When a question is pending no motion shall be received but-

To adjourn,
To adjourn to a day certain, or that when the Senate adjourn, it shall be to a day certain.

Those two are included in the constitutional provision. Then-

To take a recess, To proceed to the consideration of executive business, To lay on the table, To postpone indefinitely.

The Chair is of opinion that as the Constitution limits the power of less than a quorum to do only what is provided for in the rules also, to adjourn, that would not include taking a recess, because the Constitu-tion provides that in the absence of a quorum the body shall adjourn

from day to day. A recess is an adjournment within a day.

However, the Senator from Vermont says the point is not material now. If a quorum were present the Chair would with great pleasure, out of respect to the opinion of the Senator from Vermont, which he regards very highly, submit the matter to the Senate. At present he can not do so.

Mr. CULLOM. It requires a quorum to decide a question of this sort.

Mr. HARRIS. Not less than a quorum can decide a question of order. The PRESIDENT pro tempore. So the Chair stated. The only motion in order would be a motion to adjourn; and as the two Houses have by concurrent resolution fixed the time for the final adjournment of Congress, when that time arrives the adjournment must be declared.

Mr. CULLOM. It will not be very long before the six minutes' arrangement will be in order. We shall not have very long to wait.

MESSAGE FROM THE PRESIDENT.

At 3 o'clock and 45 minutes p. m. Mr. O. L. PRUDEN, one of the President's secretaries, appeared before the bar of the Senate with a message from the President of the United States.

The PRESIDENT pro tempore. The Chair will receive a message

The PRESIDENT pro tempore. The from the President of the United States.

WANT OF A QUORUM.

Mr. EDMUNDS. I make the point of order that no message can be

received in the absence of a quorum.

The PRESIDENT pro tempore. The Chair is of opinion that under the language of the rules messages may be received from the other House of Congress and also from the President of the United States at any time unless when the Senate is dividing.

Mr. EDMUNDS. I appeal from the decision of the Chair.

The PRESIDENT pro tempore. The Chair can not entertain the appeal in the absence of a quorum.

Mr. EDMUNDS. Let that be entered in the Journal.

The PRESIDENT pro tempore. The Chair has considered the rules very carefully before this question was presented, lest it might arise, and the Chair is clearly of opinion that the rule of the Senate does not exclude the receipt of a message from the House of Representatives or from the President in the present condition of the Senate. The Chair will receive the message.

Mr. President). Mr. President, I am directed by the President of the United States to announce to the Senate his approval of sundry Senate bills and joint resolutions. The PRESIDENT pro tempore. The Chair, to place the matter before the Senate that it may be settled, will read the last clause of the fifth rule:

And pending its execution-

That is, after the want of a quorum is announced-

and until a quorum shall be present, no debate nor motion, except to adjourn, shall be in order.

The receipt of a message is neither debate nor a motion. Therefore, it seems to the Chair, it is clearly in order.

Mr. EDMUNDS. But, Mr. President, if I may address the Chair—
The PRESIDENT pro tempore. Certainly.

Mr. EDMUNDS. I do not know whether the Chair will hold that a

Senator can address the Chair in the absence of a quorum. I recall to the Chair, who is so familiar with the Constitution, the provision of the Constitution that a majority of each House is necessary to do business, and if receiving a message from the President of the United States and entering it in the Journal is not doing business, then I am greatly

The PRESIDENT pro tempore. The Chair is of opinion that the construction has been given to the rule which he has now given, and that the limitation is the exclusion of debate or of a motion except to adjourn.

Mr. CONGER. Did the communication from the President announce the signature of the President to the bill?

The PRESIDENT pro tempore. The message has been received.

Mr. EDMUNDS. Can it be read and acted upon in the absence of a quorum?

The PRESIDENT pro tempore. No action is required. It can be read if any Senator desires.

Mr. EDMUNDS. I do not desire it. I protest against it as being

contrary to the Constitution.

Mr. CONGER. The reading of the communication is not precluded

by the rule.
Mr. EDMUNDS. I submit that it is by the Constitution, for it is

The Clerk of the House of Representatives appeared below the bar of the Senate with a message from the House.

The PRESIDENT pro tempore. The Chair will receive a message

from the House of Representatives.

Mr. EDMUNDS. I make the same point of order; but I suppose it is overruled.

MESSAGE FROM THE HOUSE.

A message from the House of Representatives, by Mr. Clark, its Clerk, announced that the House had passed the following bills; in which it requested the concurrence of the Senate.

A bill (H. R. 191) providing for the erection of a public building at

A bill (H. R. 7218) to amend an act entitled "An act for the erection of a public building at Chattanooga, Tenn., approved February 25,

WANT OF A QUORUM.

The PRESIDENT pro tempore. The Chair will state also, in order to have this matter further presented, that Rule XXVIII provides expressly that-

Messages from the President of the United States or from the House of Representatives may be received at any stage of proceedings, except while the Senate is dividing, or while the Journal is being read, or while a question of order or a motion to adjourn is pending.

Mr. EDMUNDS. But that implies that the constitutional body

necessary to do business is here, and it appears that it is not.

The PRESIDENT pro tempore. The Senate is still in existence. It is the Senate of the United States to-day, though without a quorum, and it has certain defined powers limited by the Constitution and the rules. The Chair has no doubt upon this question, and is only sorry that it may not now be submitted to a quorum of the Senate.

Mr. EDMUNDS. But the Chair will not entertain an appeal, I

The PRESIDENT pro tempore. The Chair can not entertain an ap-

Mr. CONGER. I should like to hear the message of the President of the United States read.

The PRESIDENT pro tempore. The Senator from Michigan does not speak loud enough to be heard.

Mr. CONGER. I say I desire to hear the message just communicated by the President of the United States read.

The PRESIDENT pro tempore. The message will be read.

Mr. EDMUNDS. I object to the reading, as no quorum is present. That must be business, I suppose.

Mr. CONGER. Since the objection made by the Senator from Ver-

mont several Senators have come into the Chamber.

The PRESIDENT pro tempore. The Chair is of opinion that the message was properly received under the express terms of the twentyeighth rule, and it will be read.

Mr. EDMUNDS. Will the Chair entertain an appeal from that de-

cision?

The PRESIDENT pro tempore. The Chair will if the Senator takes it.

Mr. EDMUNDS. The Senator takes it.

The PRESIDENT pro tempore. The appeal will be entered. The

message will be read.

Mr. EDMUNDS. Then I hope the Chair will submit to the Senate the question on the appeal.

The PRESIDENT pro tempore. The Chair does not feel authorized to submit the question on appeal while there is not a quorum.

Mr. EDMUNDS. The Chair entertains the appeal, but refuses to

submit it to the Senate!

The PRESIDENT pro tempore. The Chair will receive the appeal and have it entered on the Journal, but declines to submit it to the

Mr. EDMUNDS. And proceeds with the business as to which the

appeal is taken!

The PRESIDENT pro tempore. At the request of the Senator from Michigan the message communicated by the President of the United States will be read. The Senate takes no action on the message except to have it read. It will be read.

The Chief Clerk read as follows:

EXECUTIVE MANSION, August 5, 1886.

EXECUTIVE MANSION, August 5, 1886.

The President on August 5, 1886, approved bills of the following titles:
An act (S. 1599) for the relief of the Phonix National Bank, of the city of New York;
An act (S. 335) to provide for protecting the interests of the United States in the Potomac River flats, in the District of Columbia;
Joint resolution (S. R. 82) making additional appropriation for purchase of site for Congressional Library; and
Joint resolution (S. R. 46) accepting from Julia Dent Grant and William H. Vanderbilt objects of value and art presented by various foreign governments to the late General Ulysses S. Grant.

FINAL ADJOURNMENT.

The PRESIDENT pro tempore (at 4 o'clock p. m.). Senators, before announcing the termination of this session of the Senate I beg leave announcing the termination of this session of the Senate I beg leave to return to each of you my grateful thanks for your uniform courtesy and kindness to me as your presiding officer, and especially for the resolution of to-day in which you express your approval.

This session has been distinguished for the great number and variety of the subjects that have been considered, and the marked absence of

political controversy. The varied needs and aims of a great and rapidly growing country have occupied most of the time of the Senate. The short recess will enable you to greet your constituents, and I hope and trust you will each return in December with renewed health and strength to your important duties.

In pursuance of the resolution of the two Houses of Congress I de-

clare the Senate adjourned without day.

NOMINATIONS.

Executive nominations received by the Senate the 5th day of August, 1886. SURVEYOR-GENERAL OF UTAH.

William G. Bowman, of Illinois, to be surveyor-general of Utah, vice Frederick Salmon, commission expired.

UNITED STATES MARSHAL.

Thomas B. Yancey, of Tennessee, to be marshal of the United States for the western district of Tennessee, vice M. F. Williams, whose commission expired May 24, 1886.

REGISTER OF LAND OFFICE.

Selden Hetzel, of California, to be register of the land office at Sacramento, Cal., vice Edward F. Taylor, whose term of office has expired. (The nomination of W. A. Selkirk for said office, which was delivered to the Senate July 15, 1886, is this day withdrawn.)

POSTMASTERS.

William Carter, to be postmaster at De Kalb, De Kalb County, Illinois, vice Aaron S. Jackson, suspended, the nomination of Clinton Rosette, who was designated and afterward nominated to the Senate, having been rejected.

Leonard W. Chambers, to be postmaster at Jacksonville, Morgan County, Illinois, vice John Gordon, suspended, the nomination of E. M. Kinman, who was designated and afterward nominated to the Senate, having been rejected.

NAVAL ENSIGNS.

Ohio; Wilford B. Hoggatt, of Indiana; Albert M. Beecher, of Iowa; Nathaniel S. Moseley, of California; Frank K. Hill, of Ohio; Roger Welles, jr., of Connecticut; John D. McDonald, of Nevada; Walter O. Hulme, of New Jersey; Douglass T. Terrell, of Mississippi; Frederick J. Loomis, of Connecticut; Henry E. Parmenter, of Rhode Island; Hilary P. Jones, of Virginia; William R. Shoemaker, of New Mexico; Isaac K. Seymour, of Maine; Charles M. Fahs, of Alabama; Charles P. Plunkett, of the District of Columbia; and Humes H. Whittlesey, of Indiana. of Indiana.

NOMINATION WITHDRAWN.

Herbert Foote Beecher, nominated to be collector of customs for the district of Puget Sound, in the State of Oregon.

CONFIRMATIONS.

Executive nominations confirmed by the Senate August 4, 1886.

COMMISSIONER OF EDUCATION.

Nathaniel H. R. Dawson, of Selma, Ala., to be Commissioner of Edu-

ASSISTANT TREASURER.

S. Davis Page, of Philadelphia, Pa., to be assistant treasurer of the United States at Philadelphia.

SECOND ASSISTANT SECRETARY OF STATE.

Alvey A. Adee, of the District of Columbia, now Third Assistant Secretary of State, to be Second Assistant Secretary of State.

THIRD ASSISTANT SECRETARY OF STATE.

John B. Moore, of Delaware, to be Third Assistant Secretary of State.

MINISTER RESIDENT AND CONSUL-GENERAL.

E. Spencer Pratt, of Mobile, Ala., to be minister resident and consulgeneral of the United States to Persia.

CONSUL-GENERAL.

Owen McGarr, of Denver, Colo., to be consul-general of the United States in Ecuador.

UNITED STATES CONSULS.

Edward Young, of the District of Columbia, to be consul of the United States at Windsor, Nova Scotia.

Augustus M. Boyd, to be consul of the United States at Tuxpan.

Richard M. Stadden, a resident of Manzanillo, to be consul of the United States at that place.

R. H. Jones, of Lordsburg, N. Mex., to be consul of the United States at Chihuahua.

Berthold Greenebaum, of San Francisco, Cal., to be consul of the United States at Apia.

ASSOCIATE TERRITORIAL JUSTICE.

Thomas C. Beach, of Montana, to be associate justice of the supreme court of the Territory of Montana.

UNITED STATES ATTORNEYS.

Thomas Smith, of Virginia, to be attorney of the United States for

the Territory of New Mexico.

Cornelius C. Watts, of West Virginia, to be attorney of the United States for the district of West Virginia.

Beecher, of Iowa; Nathaniel S. Mosely, of California; Frank K. Hill, of Ohio; Roger Wells, jr., of Connecticut; John D. McDonald, of Nevada; Walter O. Hulme, of New Jersey; Douglass T. Terrell, of Mississippi; Frederick J. Loomis, of Connecticut; Henry E. Parmenter, of Rhode Island; Hilary P. Jones, of Virginia; William R. Shoemaker, of New Mexico; Isaac K. Seymour, of Maine; Charles M. Fahs, of Alabama; Charles P. Plunkett, of the District of Columbia, and Humes H. Whittlesey, of Indiana. of Indiana.

POSTMASTERS.

William Carter, to be postmaster at De Kalb, De Kalb County, Illinois.

Leonard W. Chambers, to be postmaster at Jacksonville, Morgan County, Illinois.

REJECTION.

Executive nomination rejected by the Senate August 5, 1886. COLLECTOR OF CUSTOMS.

William L. Bancroft, of Michigan, to be collector of customs for the district of Huron, in the State of Michigan.

REPORTS ON EXECUTIVE NOMINATIONS.

August 2, 1886.

August 2, 1886.

Ordered, That the injunction of secreey be removed from the report of the Committee on Post-Offices and Post-Roads on the nomination of Edward M. Kinman, to be postmaster at Jacksonville, Ill., and from the views of the minority of said committee there on, and that they be printed in the Record.

The Committee on Post-Off ces and Post-Roads, to whom was referred the nomination of Edward M. Kinman, to be postmaster at Jacksonville, Ill., to succeed John Gordon, suspended, respectfully report:

That it appears that an order for the suspension of John Gordon was issued by the President two days before the present session of Congress began; that E. M. Kinman was installed in office by the Department, although he did not receive his commission until Congress met; that Gordon surrendered his office on demand, although questioning the right of Kinman to take possession under the circumstances; and that, so far as the committee has been able to ascertain, there was no reason for the suspension or removal of Gordon, whose commission did not expire for three years and who had been an efficient officer.

Since this nomination has been under consideration evidence has been submitted to the committee showing that this nomination is strongly objected to by many of the best citizens of Jacksonville of both political parties, and on other than political grounds, and charges affecting the fitness of Kinman for the position to which he has been nominated have been preferred against him. It is charged that Kinman was the author of and caused to be printed and distributed, on the occasion of the reunion of the soldiers of Central Illinois, held at Jacksonville on August 13, 1885, a certain circular or "bogus programme," in which the reunion and veterans participating were ridiculed in an offensive manner, and in which unjust reflections were particularly east upon E. C. Kreider and his wife, Colonel Kreider being a prominent citizen who had charge of the arrangements for the reunion.

If Kinman had any agency in p

of the late war and to those who sympathize with the cause in which they staked their lives by attempting to bring into ridicule and contempt one of their reunions. If Kinman was in any wise responsible for said circular, he was guilty of an underhanded and contemptible attack upon a fellow-citizen of high character who does not come before the public as a candidate for any office, but by reason of his public spirit and enterprise is usually prominent in promoting the success of such public gatherings as the soldiers' reunion in question.

This charge against Kinman is based upon an affidavit by John C. McBride, in which he states that Kinman showed him the manuscript of the circular which subsequently appeared and asked him to have it printed; that affiant declined to do this, and heard nothing of the matter until some days afterward, when Kinman told him he was expecting some packages by express and had ordered them sent to affiant, as he might be out of town when they arrived; that two packages containing the printed circulars were received by affiant from Sullivan, Ill.; that Kinman afterward paid affiant the charges he had advanced thereon and took the circulars away; and that Kinman subsequently informed affiant that he had distributed the circulars during the night previous to the reunion.

from Sullivan, ill.; that Kinman afterward paid affiant the charges he had advanced thereon and took the circulars away; and that Kinman subsequently informed affiant that he had distributed the circulars during the night previous to the reunion.

In corroboration of McBride's statement C. H. Bashford, a clerk in the express office at Jacksonville, states under oath that McBride received two packages from Sullivan as stated; that the books of the Jacksonville office do not show the name of the shipper; that when McBride made the above disclosure affiant went to Sullivan, examined the books of the express office there, and made copies of the entries, which show that one package is recorded as having been shipped by "owner" and the other one by "Shinn;" that Sullivan is a small town of but 1,400 inhabitants; and that the only person there by the name of Shinn that affiant could learn of was W. H. Shinn, who formerly resided at Jacksonville and is a cousin of Kinman.

It also appears from the affidavit of a city policeman that Kinman was upon the streets at a late hour the night before the reunion, and so far away from home that the officer was surprised at seeing him and remembered the circumstance. On the other hand Kinman positively denies under oath that he had anything whatever to do with composing, printing, or distributing the "bogus programme," or that he had any such conversations with McBride as the latter alleges, and says the charge is made maliciously by McBride because he was discharged from the post-office.

There were no winesses of the alleged conversations between McBride and Kinman concerning the circular, and the latter's denial raises the question of veracity between the two. McBride is forty years of age. His life has been spent in Jacksonville. His integrity and veracity are vouched for in the most unqualified terms by William Hamilton and Leopold Weil, in whose business houses he has been employed since boyhood. There has also been filed a statement signed by thirty-two citizens of Jacksonv

G. E. Doying, the publisher of the Democratic daily newspaper at Jackson-

Known.

G. E. Doying, the publisher of the Democratic daily newspaper at Jackson-ville, writes that—

"Very few people here, if any, except Kinman's immediate personal friends and relatives, doubt the truthfulness of McBride's statement, while the great mass of the people, regardless of party, would regard the confirmation of Kinman as an unspeakable outrage. No man who is capable of doing so dastardly a thing as the publication of that bogus programme, under all the circumstances surrounding it, is fit for any position under the Government."

It appears that when Kinman was installed as postmaster he appointed McBride as one of his clerks, but discharged him several months later in consequence of a difficulty that arose between them, McBride claiming that Kinman refused to pay him the full amount of salary agreed upon and having since sued him for the amount claimed to be due. Whatever may have been McBride's motives in making these charges, his veracity has not been impeached, although Kinman has been fully advised of his statements, and has been established in the most satisfactory manner.

On the other hand, it should be remembered that the authorship of the "bogus programme" was not a thing to be proud of, and the person or persons concerned might naturally be expected to deny any connection with a performance which, if acknowledged, would bring down upon him or them the contempt of the entire community. The fact that Kinman is deeply interested should also be taken into account in considering his denial. It also appears that Kinman is a bitter enemy of Colonel Kreider, against whom the attacks of the circular were principally directed, and was suspected of the authorship of the circular were principally directed, and was suspected of the authorship of the circular before McBride's disclosures were made. The evidence also goes to show that McBride's statements concerning Kinman's connection with the circular are commonly accepted as true by the people of Jacksonville without regard to party, and the commit

party, and the committee believe that Kinman was guilty of the offense as charged.

Other statements have been made in regard to Kinman's conduct of his office which lead the committee to believe that he is not a fit person to hold the position of postmaster, independent of his connection with the "bogus programme."

Affidavits have been filed by William J. Porawski, Henry McDonnell, F. J. McGhee, James A. Hall, and John C. McBride, all Democrats, showing that Kinman is an "offensive partisan" within the meaning of the Vilas circular; that his partisanship is offensive to members of his own political party; and that in the conduct of his office he has openly disregarded the civil service principles and policy of the present administration as publicly proclaimed by the President. These affiliants declare that Kinman and all his clerks actively participated in the Congressional canvass and primaries in the interest of Mr. Springer and against Mr. Callon, his opponent for the nomination; that they neglected their official duties to electioneer for Mr. Springer; and that Kinman and six of of his seven clerks were absent from their posts while the primaries and the subsequent county convention were in progress and actively participated in the same.

same.

Rev. James Leaton, pastor of the Brooklyn Methodist Episcopal Church, and one of the best men in Jacksonville, writes to say that Kinman ought not to be confirmed, because, in addition to the slanderous circular matter, "he is inexcusably inefficient. I have had more trouble with my mail matter since he has had the office than in twenty years before."

The majority of the committee report the nomination back with the recommendation that it be not confirmed.

In the matter of the confirmation of E. M. Kinman, as postmaster at Jackson-ville, lll.

VIEWS OF THE MINORITY OF THE COMMITTEE ON POST-OFFICES AND POST-ROADS. The undersigned members of the Committee on Post-Offices and Post-Roads

of the United States Senate dissent from the report of the majority of the com-mittee recommending the rejection of E. M. Kinman as postmaster at Jackson-

of the United States Senate dissent from the report of the majority of the committee recommending the rejection of E. M. Kinman as postmaster at Jacksonville, III.

The papers filed in this case are quite voluminous, and reference to all the papers is unnecessary for a correct understanding of the facts. There are some affidavits filed alleging than Mr. Kinman and the clerks in his office participated in the primary election for the selection of delegates to a county convention to appoint delegates to a Democratic Congressional convention.

The candidates for Congress before the primary conventions were the present Representative from that district, Mr. Springer, of Illinois, and Mr. William P. Callon. It is alleged that Mr. Kinman and his clerks assisted in the appointment of delegates favorable to Mr. Springer. The facts are that the primary conventions were held at 2 o'clock in the afternoon on Saturday and lasted but a few minutes, and no inconvenience resulted to the public business by reason of the fact that Mr. Kinman and some of the clerks appeared at their proper primaries and cast their voles. They were absent from the office but a few minutes; in fact, we believe that this charge is not insisted upon as constituting any grounds for Mr. Kinman rejection. Some other allegations are made with regard to the management of the office, but the general testimony is that the office is well managed and the business conducted in a prompt, satisfactory, and efficient manner.

The only allegation in the case that was deemed worthy of consideration by the committee was to the effect that Mr. Kinman had caused to be published and distributed a certain bogus programme at a soldiers' reunion in Jacksonville, III., on August 13, 1885. One J. C. McBride, whom Mr. Kinman had appointed a clerk in his office, was by him discharged on account of incompetency and insubordination. This clerk proceeded at once to make an affidavit, to be used to secure the rejection of Mr. Kinman as postmaster, in which affidavit is alleged t

from Sullivan, Ill., to Jacksonville, Ill., one dated August 1 and the other August 3, 1885.

These copies show that one package was from "owner" and the other from Shinn. Affiant says that the only person there that he could hear of by the name of Shinn was W. H. Shinn, a lawyer who formerly lived in Jacksonville, and who, affiant is informed, is a cousin of said Kinman. This ends Bashforth's statement. These two affidavits constitute all the evidence in the case that Mr. Kinman caused to be published and distributed the bogus programme.

In answer to these allegations Mr. Kinman files his own affidavit dated May 7, 1885, in which he says that he did not compose, write, originate, or distribute the Kreider circular, that he never told McBride that he wrote said circular, distributed it or caused it to be distributed; that he never showed the manuscript of it to McBride or any one else; that he never requested McBride to have said circular printed; that he never had said circular printed or sent out to any one to have it printed for him; that he was not accused of writing said circular or having it printed until the question of his confirmation as postmaster at Jacksonville came up.

Mr. Kinman-further says that he discharged McBride from the post-office on account of incompetency and-insubordination; that at the time of his discharge McBride threatened to get even with him, and told him that he had political enemies who could be worked on to defeat his confirmation. Kinman further says on oath that the statements of McBride are false and he believes them actuated by malice.

There is also filed in the papers the affidavit of Mr. Shinn of Sullivan Ill.

McBride threatened to get even with him, and told him that he had political enemies who could be worked on to defeat his confirmation. Kimman further says on each that the statements of McBride are false and he believes them actuated by malice.

There is also filed in the papers the affidavit of Mr. Shinn, of Sullivan, Ill., the party to whom Bashforth refers in his affidavit. Mr. Shinn says that he has resided in Sullivan for more than nine years; that he is not acquainted with either E. C. Kreider or J. C. McBride, of Jacksonville, Ill.; that on or about the last of April or 1st of May, 1886, one C. H. Bashforth, who represented himself to be a clerk in the Pacific Express Company's office at Jacksonville, Ill., came to affiant and inquired of him if he had on August 1 or 3. 1885, sent any package or packages by express to one McBride, at Jacksonville, Ill.

Affiant says he then informed Bashforth that he had no knowledge, directly or indirectly, of the writing, printing, or shipping of any programmes against E. C. Kreider or any other person, and that he did not ship or cause to be shipped to McBride any packages of any kind either on the 1st or 3d days of August, 1885, or any other day, either before or since said dates, and that if the express office at Sullivan showed that anything had been shipped in affiant's name to said McBride it was wrong and without affiant's knowledge and consent.

Affiant informed Bashforth that he knew nothing of any of the matters about which Bashforth told him, such as the bogus Colonel Kreider programme, the soldiers' reunion, or the fight about the Jacksonville post-office, or anything about Kimman taking any part therein, and that affiant had not seen said Kinman for more than three years and had had no communication with him for several years, and that Kinman had not talked with affiant about any of said matters. Affiant says the above conversation occurred at the time said Bashforth was in Sullivan making an examination of the express books, and, as he believes, before sa

the afildavit, has been prosecuting attorney of Moultric County, and is the present mayor of the city of Sullivan, and that his statement is entitled to credit.

There is one other affidavit upon this point, that of James Harris, of the county of Morgan, in which Jacksonville is stituated. Mr. Harris, the affiant, in a letter found in the papers addressed to Senator Cullon, states that he is a Republican in politics and was a delegate to a Republican convention on one occasion where the Senator was nominated for govenor.

In his affidavit he says that he was a juror in the case of John C. McBride against E. M. Kimman on the 19th of June, 1856, before a justice of the peace in dered certain services in the post-office and was entitled to pay for said services; and further says that McBride was contradicted in this statement by Henry Sutton and James Murphy, who were clerks in the post-office at said time, and that they each testified that McBride did not render the service that he, McBride expected and the services and further says that McBride was contradicted in this statement by Henry Sutton and James Murphy, who were clerks in the post-office at said time, and that they each testified that McBride did not render the service that he, McBride particular was impeached with reference to said transaction. The suit to which Harris refers was brough by McBride sagainst Kiman to recover pay were not performed for which McBride claimed pay.

These affidayits constitute all the testimony in reference to the bogus programme or circular. Briefly, it appears that McBride, a discharged clerk, made his affidavit charging the publication and circulation of the programme upon Mr. Kimman; that he endeavored to support his affidavit by that of Mr. Bashforth's statement.

The Senate will judge of the disinterestedness of this witness from the fact that is appears that he went from Jacksonville, where his duties were, to Sullivan, III., a distance of about 100 miles, for the purpose of procuring facis upon which he could make hi

S. B. MAXEY. E. SAULSBURY. A. H. COLQUITT. E. K. WILSON.

August 2, 1886.

Ordered, That injunction of secrecy be removed and report printed in RECORD [To accompany the nomination of John B. Ruger, to be postmaster at La Fayette, Ind., vice John G. Sample, suspended. Section 1768 Revised Statutes.]

The Committee on Post-Offices and Post-Roads, to whom the above nomination was referred, having considered the same, respectfully report:

The request of the committee to be furnished with the charges upon which Mr. Sample's suspension was ordered was denied. The committee are satisfied, however, that the charges were wholly of a political nature. Mr. Sample was an old resident of La Fayette who had been actively and largely engaged in business in that city for many years and had the esteem of every one. He was a Republican, but in no sense a politician, taking very little part in party organization or work. His suspension was ordered simply to make a place for a Democrat.

Hon. Thomas B. Ward, Democratic member of Congress from that district, has addressed to Senator Harrison the following letter upon the subject, which completely vindicates Mr. Sample from any reflection upon his character as a man and an officer:

House of Representatives, United States,

Washington, D. C., June 29, 1886.

My Dear Senator: In response to your inquiry as to whether the charges against John G. Sample, esq., late postmaster at La Fayette, affect that gentleman's character for integrity, or his competency as an officer, I am able to say to you that they do not—at least I have ne knowledge of any charges of that kind, and I think I am familiar with the record in this case. Sample's character and capacity could not, in my opinion, be truthfully assailed, and I would not knowingly have indorsed anything of the kind.

Very truly, yours,

Hop. Bry 1997

HOD. BENJAMIN HAPPISON

The committee are advised that Mr. Sample does not desire or expect to resume the duties of the office, and he could not hope under the circumstances to be allowed to exercise the duties of the office according to his sense of duty without interference,

The committee are advised that Mr. Ruger is a competent man to discharge the duties of the office, no charges to the contrary having been made, and therefore recommend that the nomination be confirmed.

August 4, 1886.

Ordered. That the injunction of secrecy be removed from the following report from the Committee on Post-Offices and Post-Roads:

The Committee on Post-Offices and Post-Roads, to whom was referred the nomination of Samuel Jacobs, to be postmaster at Hamburg, Iowa, vice II, C. Coolbaugh, suspended, reports:

That this is the second nomination sent to the Senate in this case. The first nomination was that of George Wise, who was rejected by the Senate. In that instance the charges made against Mr. Coolbaugh were shown to be without any foundation in fact. The rejection was made on that ground. The present nomination involves no charges of any kind against Mr. Coolbaugh.

Mr. Jacobs is a man of good character and is competent to discharge the duties of the office. The committee recommend that his nomination be confirmed.

HOUSE OF REPRESENTATIVES.

THURSDAY, August 5, 1886.

The House met at 11 o'clock a. m. Prayer by Rev. Dr. BULLOCK, of Washington, D. C.

The Journal of yesterday's proceedings was read and approved.

MESSAGE FROM THE SENATE.

A message from the Senate, by Mr. Sympson, one of its clerks, informed the House that the Senate had agreed to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H. Res. 126) directing payment of the surplus in the Treasury on the public debt.

VETO MESSAGE-ABRAHAM POINTS.

The SPEAKER. The Chair lays before the House the following message from the President of the United States:

The Clerk read as follows:

To the House of Representatives:

To the House of Representatives:

I herewith return without approval House bill No. 8556, entitled "An act granting a pension to Abraham Points."

This soldier enlisted August 11, 1864, and was mustered out June 28, 1865.

He was treated during his short term of service for "catarrhal," "constipation," "diarrhea." "jaundice," and "colic."

He filed an application for pension in 1878, alleging that some of his comrades in a joke twisted his arm in such a manner that the elbow joint became stiffened and anchylosed, and that his eyes became sore and have continued to grow worse ever since. There is no record of either of these disabilities.
